[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of March 16, 1972, as amended, between the Governments of the United States and Thailand which provide, in part, that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

[2] This level has not been adjusted to reflect any entries made after March 31, 1975.

V 401246 DEC 22 75 XUM

1. Aside from an absence of conviction for any felony or misdemeanor involving the purchase or sale of any community or security for ten years prior to applying for registration, what other fitness standards should commodity futures trading professionals have to meet?

2. Should the Commission specify requirements with respect to the training, experience, education or other qualifications that must be met in order for an individual to register, and continue to be registered, as a floor broker, commodity pool operator, trading advisor, or an associated person?

3. Are the written proficiency tests that are currently administered worthwhile?

4. If not, how should these tests be changed? Who should administer them? Or should there be a substitute requirement?

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public that wishes to file a written statement with the Committee should mail a copy of the statement to Mrs. Harrison, The Advisory Committee on Commodity Futures Trading Professionals, Commodity Futures Trading Commission, 1120 Connecticut Avenue NW., Washington, D.C. 20036, at least five days before the meeting. Members of the public that wish to make oral statements should inform Margaret Harrison, telephone (202) 254–8955, at least five days before the meeting, and reasonable provision will be made for their appearance on the agenda.

The Commission is maintaining a list of persons interested in the operations of this advisory committee and will mail notice of the meetings of this committee to those persons. Interested persons may have their names placed on this list by writing DeVan L. Shumway, Director, Office of Public Information, Commodity Futures Trading Commission, 1120 Connecticut Avenue NW., Washington, D.C. 20036.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

ADVISORY COMMITTEE ON REGULATION OF CONTRACT MARKETS AND SELF-REGULATORY ASSOCIATIONS

Meeting

Notice is hereby given, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 1 § 10(a), that the Commodity Futures Trading Commission Advisory Committee on Regulation of Contract Markets and Self-Regulatory Associations ("Advisory Committee on Market Regulation") will conduct a public meeting on January 21, 1976, at the Sheraton Carlton Hotel, 16th and K Streets, N.W., Washington, D.C. beginning at 9:00 a.m.

The summarized agenda for the meeting, at which the Advisory Committee will consider the following, is

(1) Announcements on dual trading;

(2) Regulations regarding temporary Emergency Rules of Commodity Exchanges;

(3) Scope of the Commission's authority with respect to approval of contract market rules and exemptions therefrom; and

(4) Criteria to be used in determining what self-regulatory role the Commission should require of the industry.

The meeting is open to the public. The Chairman of the Commitee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public that wishes to file a written statement with the Committee should mail a copy of the statement to The Advisory Committee on Market Regulation, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036, at least five days before the meeting. Members of the public that wish to make oral statements should inform Margaret Harrison, telephone (202) 254–8955, at least five days before the meeting, and reasonable provision will be made for their appearance on the agenda.

The Commission is maintaining a list of persons interested in the operations of this advisory committee and will mail notice of the meeting of the committee to those persons. Interested persons may have their names placed on this list by writing DeVan L. Shumway, Director, Office of Public Information, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

TASK FORCE ON DEMONSTRATION PROJECTS AS A COMMERCIALIZATION INCENTIVE

Meeting

DECEMBER 18, 1975.

In accordance with provisions of Pub. L. 92–463 (Federal Advisory Committee Act), the Task Force on Demonstration Projects as a Commercialization Incentive will meet on Tuesday and Wednesday, January 6–7, 1976, in Room 2010 (second floor), New Executive Office Building, 726 Jackson Place, NW., Washington, D.C. The meeting will be open to the public. The purpose of the meeting is to review ERDA's demonstration project programs. The tentative agenda for the meeting is as follows:

TUESDAY, JANUARY 6, 1976

9:00 Task Force Discussion of Project Initiation Issues.
10:00 Demonstration Project Program—Nuclear Energy.
12:00 Lunch.
1:00 Demonstration Project Program—Energy Conservation.
4:00 Task Force Discussion of Project Management Issues.
5:00 Adjournment.

WEDNESDAY, JANUARY 7, 1976

9:00 Demonstration Project Program—Solar & Geothermal Energy.
11:30 Lunch.
12:30 Demonstration Project Program—Fossil Energy.
3:00 Task Force Discussion of Project Management Issues (continued from Tuesday).
4:00 Adjournment.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in agenda items, scheduled above, the following requirements shall apply:

(a) Persons wishing to submit written statements on agenda items may do so by mailing 12 copies thereof, postmarked no later than January 3, 1976, to the Director, Office of Industry, State and Local Relations, U.S. Energy Research and Development Administration, Washington, D.C. 20545. Comments shall be directly relevant to the above agenda items. Minutes of the meeting will be kept open for 30 days for the receipt of written statements for the record.

(b) Information as to whether the meeting has been rescheduled or relocated can be obtained by a prepaid telephone call on January 5, 1976, to the Office of Industry, State and Local Relations on (202) 376–4119 between 8:30 a.m. and 5:00 p.m., e.s.t.

(c) Questions at the meeting may be propounded only by members of the Task Force and ERDA officials assigned to participate with the Task Force in its deliberations.

(d) Seating to the public will be made available on a first-come, first-served basis.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Copies of minutes will be made available for copying, following their certification by the Chairman, in accordance with the Federal Advisory Committee Act, at the Energy Research and Development Administration's Public Document Room, 20 Massachusetts Avenue, NW., Washington, D.C. 20545, upon payment of all charges required by law.

HARRY L. PEEBLES,
Deputy Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-50052; FRL 471-5]

MOBIL CHEMICAL CO.

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to the Mobil Chemical Company, Richmond, Virginia 23261. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 2224-EUP-9) allows the use of 1760 pounds of the insecticide ethoprop against cutworms and armyworms on corns, soybeans, peanuts, tobacco, and cabbage. A total of 745 acres is involved; the program is authorized only in the States of Alabama, Arkansas, California, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Oregon, North Dakota, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington, and Wisconsin. The experimental use permit is effective from January 1, 1976, to January 1, 1977. Permanent tolerances for residues of the active ingredient have been established in or on corn, peanuts, soybeans, and cabbage.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: December 17, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

[FRL 471-3]

SCIENCE ADVISORY BOARD; HAZARDOUS MATERIALS ADVISORY COMMITTEE

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Hazardous Materials Advisory Committee of the Science Advisory Board will be held beginning at 9 a.m., January 8 and 9, 1976, in Room 1112, Building 2, Crystal Mall, 1901 Jefferson Davis Highway, Arlington, Virginia.

This is a regularly scheduled meeting of the Committee. The agenda includes a report on the activities of the Science Advisory Board; discussion on the ad hoc activities associated with the evaluations of the documents, "Review of the Environmental Effects of Asbestos" and the "Technical Bulletin on Acceptable Methods for the Utilization and Disposal of (Municipal) Sludges"; presentations and discussion on possible environmental hazards associated with the increasing use of nitrogen fertilizers; report on the National Conference on Polychlorinated Biphenyls (PCB's); discussion of the prioritization scheme for scheduling review of certain chemicals under section 3 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA); status of EPA's review of the nitrosamine issue and plans, and member items of interest.

The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain additional information should contact Dr. J. Frances Allen, Executive Secretary, Hazardous Materials Advisory Committee, (703) 557-7720.

THOMAS D. BATH,
Staff Director, Science Advisory Board.

FEDERAL POWER COMMISSION

[Docket No. ER76-294]

ALABAMA POWER CO.

Filing of Initial Rate Schedule

DECEMBER 12, 1975.

Take notice that Alabama Power Company on November 25, 1975, tendered for filing an Agreement with The City of Dothan, intended as an initial rate schedule. The filing is for the proposed Flynn Road delivery point. The delivery point will be served under the Company's Revision No. 1—Rate Schedule MUN-1 incorporated in FPC Electric Tariff, Original Volume No. 1 of Alabama Power Company, as allowed to become effective, subject to refund, by Commission Order dated September 12, 1974, in FPC Docket No. E-8851.

Copies of the filing were served upon The City of Dothan and its attorneys of record in FPC Docket No. E-8851.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 24, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34423 Filed 12-19-75;8:45 am]

[Docket No. CP76-85]

ALGONQUIN GAS TRANSMISSION CO. AND TEXAS EASTERN TRANSMISSION CORP.

Order Granting Interventions, Scheduling Formal Hearing, and Granting Temporary Certificates

DECEMBER 12, 1975.

On September 12, 1975, Algonquin Gas Transmission Company (Algonquin), and Texas Eastern Transmission Corporation (Texas Eastern), jointly filed in Docket No. CP76-85 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas by displacement for The Brooklyn Union Gas Company (Brooklyn Union).

Applicants request limited term authorization to exchange and transport natural gas from November 1, 1975, through April 30, 1976. Under the proposed service, Boston Gas Company (Boston Gas) will release volumes of gas to Algonquin at Boston, Massachusetts; Algonquin will be displacement, transport and deliver equivalent volumes of gas to Texas Eastern at its Hanover, New Jersey, delivery point; and Texas Eastern would by displacement transport and deliver equivalent volumes of gas to Brooklyn Union. The proposed service will be for the accommodation of deliveries of vaporized liquefied natural gas (LNG) to Brooklyn Union purchased from Distrigas of Massachusetts Corporation. The stated cost of the proposed service to Brooklyn Union is 15.0 cents per million Btu of gas delivered by Algonquin. Deliveries are anticipated not to exceed 35 billion Btu per day in November and December and 15 billion Btu per day thereafter, with total deliveries estimated at 2.4 trillion Btu.

By letter order of November 10, 1975, Algonquin and Texas Eastern were issued temporary certification to perform the proposed service, pursuant to the emergency provisions of section 7 of the Natural Gas Act. The temporary certificate was issued without prejudice to such final disposition as the record may require, and on condition that the proposed transportation charge be subject to refund pending further action by the Commission.

Petitions to intervene in this proceeding were filed on September 19, 1975, jointly by Boston Gas and Brooklyn Union, and on October 10, 1975, by Distrigas of Massachusetts Corporation (DOMAC). DOMAC is the supplier of the gas which is the subject of the instant proceeding. On November 10, 1975, the People of the State of California and the Public Utilities Commission of the State of California jointly filed a Notice of Intervention. Having reviewed the petitions to intervene, the Commission is convinced that all the petitioners have shown sufficient interest in this proceeding to warrant intervention. Accordingly, we shall grant intervention to all those who have requested it.

On September 30, 1975, Boston Gas and Brooklyn Union filed a joint petition for an order waiving or disclaiming ju-

V40246 DEC 22 75 XUM

risdiction for a limited term. Petitioners therein state that they are both engaged in the local distribution of gas at retail, are subject to regulation by the Massachusetts Department of Public Utilities and the Public Service Commission for the State of New York, and that they are both presently exempt from the Natural Gas Act and the Commission's rules and regulations pursuant to section 1(c) of the Act.

Petitioners further state that they believe that neither of them will be engaged in the ransporation or sale for resale of natural gas in interstate commerce as a result of the strvice proposed in the present proceeding. In support, petitioners contend that title to and possession of the gas will pass to Brooklyn Union at points within the City of New York. Furthermore, it is alleged that compensation paid to Boston Gas is designed only to reimburse Boston Gas for loss of revenue due to distribution of vaporized LNG with a higher Btu content than the gas which would otherwise be delivered to Boston Gas by Algonquin, and that Boston Gas will therefore neither sell nor transport gas in interstate commerce. Petitioners conclude that their activities herein are thus exempt from Commission jurisdiction pursuant to section 1(b) of the Natural Gas Act, and request an order disclaiming or waiving Commission jurisdiction over the present actions, and granting "all necessary and full general and equitable relief * * *" (petition, p. 3).

The Commission lacks authority in any instance to "waive" jurisdiction which has been conferred upon it by Congress. Furthermore, it may "disclaim" jurisdiction only with respect to operations over which it is not charged with regulatory authority. From the information presently on file, and without a full airing of the issues, neither of the above two situations can unequivocally be ascertained as applying here. Without more, therefore, the Commission cannot at this time "disclaim" its jurisdiction over the acts and operations of Boston Gas and Brooklyn Union. Several factors dictate this. As petitioners themselves acknowledge, our recent decision in the Marathon Oil-Phillips Petroleum case[1] signifies our intention to closely scrutinize the jurisdictional status of distribution companies, otherwise exempt, which purchase interstate gas. Secondly, the record at this time is insufficient to determine whether or not a sale by Boston Gas to Brooklyn Union is here involved. Such a determination can only be arrived at after a full exploration of the facts and legal issues in a formal hearing, which we shall schedule below.

In consideration of the intention, demonstrated in the joint petition, to comply with the Commission's rules and regulations as well as the request for "all necessary relief," and in view of the emergency alleged, the Commission hereby will construe Brooklyn Union's and Boston Gas' petition to constitute, in the alternative, an application pursuant to section 7(c) for temporary and permanent certification for the transportation and sale of gas in interstate commerce. In order to permit the immediate exchange and transportation of the gas, as was contemplated by and intended in our above-described letter order of November 10, 1975, we shall herein grant Brooklyn Union and Boston Gas temporary authorization to perform the acts necessary. Such temporary certification will be conditioned upon final resolution of the permanent application, and the temporary authorization shall not, pending final Commission determination in the hearings hereinafter scheduled, affect the otherwise exempt status of Brooklyn Union and Boston Gas.

The Commission believes that the significant and novel questions presented by these applications require a public hearing, at which time all issues bearing upon the public interest can be fully developed on the evidentiary record. Among the issues for resolution at such hearing are the transportation rate proposed by Algonquin and the rate charged Brooklyn Union by Boston Gas for the subject gas, including whether refunds are required. In addition, the jurisdictional status of Brooklyn Union and Boston Gas with respect to the operations proposed here, in light of the unique detailed facts of this case, is a proper issue to be decided. In this regard, Brooklyn Union and Boston Gas shall, as part of their direct case, submit all additional exhibits and information required by Part 157 of the Commission's regulations under the Natural Gas Act.

The Commission finds. (1) It is desirable and in the public interest to allow the above-named petitioners to intervene in these proceedings in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(2) On the basis of the representations made by Brooklyn Union Gas Company and Boston Gas Company in their petition to intervene and petition for order disclaiming jurisdiction, an emergency exists pursuant to section 7 of the Natural Gas Act.

(3) The unique issues of fact and law presented in the subject applications require resolution in a consolidated hearing, for the purpose of determining the proper rate to be charged for the services proposed, including whether refunds should be ordered, and the jurisdictional status of the acts and operations contemplated by Brooklyn Union Gas Company and Boston Gas Company.

The Commission orders. (A) Brooklyn Union Gas Company and Boston Gas Company are granted a temporary certificate of public convenience and necessity to exchange natural gas in the manner set forth in the applications on file, without prejudice to their status as nonjurisdictional companies exempt from Commission regulation.

(B) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The direct case of the Applicants and all intervenors in support thereof shall be filed and served on all parties on or before January 19, 1975.

(D) A formal hearing shall be convened in these proceedings in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., on January 27, 1976, at 10:00 a.m., (e.s.t.). The Chief Administrative Law Judge will designate an appropriate officer of the Commission to preside at the formal hearing of these matters, pursuant to the Commission's Rules of Practice and Procedure.

By the Commission.

AMERADA HESS CORP., ET AL.

Rate Change Filings

DECEMBER 12, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix below.

Any person desiring to be heard or to make any protest with reference to said filings should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

ARIZONA PUBLIC SERVICE CO.

Revision to Compliance Filing

DECEMBER 16, 1975.

Take notice that on December 8, 1975, Arizona Public Service Company (Arizona) tendered for filing a proposed revision to its filing of December 4, 1975, which was made in compliance with the Commission's orders of September 16, 1975, and November 4, 1975. The revised filing is intended to correct certain errors in Navajo Tribal Utility Authority, Rate Schedule FPC No. 6.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP76-10]

ARKANSAS LOUISIANA GAS CO.

Order Granting Motion for Reconsideration and Amending Prior Order

DECEMBER 12, 1975.

On November 5, 1975, Arkansas Louisiana Gas Company (Arkla) filed a Motion for Reconsideration of our order, issued October 31, 1975, in the above-referenced proceeding, in which we accepted for filing and suspended Arkla's revised tariff sheets[1] for five months until April 1, 1976. Arkla states in its Motion that "the cost of purchased gas alone exceeds the existing rate of 24.27¢ per Mcf." Arkla requests that the Commission "reconsider its order suspending Arkla's rate increase filing for five months and upon reconsideration suspend such filing for one day subject to refund."

Our review of the data filed by Arkla to support its proposed rate increases verifies the statement that Arkla's purchased gas costs for service under X-26 service are higher than the existing 24.27¢ rate. In order to prevent irreparable harm to Arkla which might be caused by continuing suspension of its proposed increases under these circumstances, we will grant the Motion for Reconsideration and amending our order of October 31, 1975, to provide that the tariff sheets filed herein be suspended for one day instead of five months.

In addition to those areas which we directed the parties "to give careful consideration" in the order of October 31, 1975, we direct the parties to consider the sources of supply assigned to the service under present X-26 rate to determine the extent to which purchased gas cost exceeds this rate.

[1] Third Revised Sheet No. 185 and First Revised Sheet No. 186 to Arkla's FPC Rate Schedule X-26.

The Commission finds. Good cause exists to grant Arkla's Motion for Reconsideration and to amend our order of October 31, 1975, to provide that the tariff sheets filed herein be suspended for one day instead of five months.

The Commission orders. (A) Arkla's Motion for Reconsideration is hereby granted.

(B) Ordering Paragraph (A) of our order of October 31, 1975, in the instant docket is hereby amended to provide that the tariff sheets filed herein are suspended for one day, or until November 2, 1975, when they are permitted to become effective, subject to refund, pending hearing and decision as to the lawfulness of the increased rates proposed therein.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75-34426 Filed 12-19-75;8:45 am]

[Docket No. RI75-121]

ASHLAND OIL, INC.

Order Setting Proceeding for Hearing

DECEMBER 11, 1975.

On March 26, 1975, Ashland Oil, Inc. (Ashland) filed a petition for special relief from the applicable area rate[1] pursuant to § 1.7(b)[2] of the Commission's rules of practice and procedure and § 2.76[3] of the Commission's General Policy and Interpretations with respect to sales of natural gas to Arkansas Louisiana Gas Company (Arkla) from ten wells in the Erick Field, Beckham County, Oklahoma.

More specifically, Ashland seeks a rate of 46 cents per Mcf at 14.65 psia plus a one cent per year escalation. On November 21, 1974, Ashland and Arkla amended their base July 24, 1943 contract on file as Ashland's FPC Gas Rate Schedule No. 160 to provide for the increased rate. Ashland states that it also sells gas from the subject wells to Oklahoma Natural Gas Storage Company (Oklahoma Natural) an intrastate purchaser, pursuant to an "equal dignity" contract dated July 24, 1943. In its petition filed herein, Ashland has indicated that Oklahoma Natural agreed to furnish it with a contract amendment to duplicate the price term of Ashland's November 21, 1974 amendment to its contract with Arkla.

Ashland avers that without obtaining the relief requested it will be unable to continue to operate its gathering system and compressor facility in the Erick Field and that, as a result, six of the ten sub-

[3] Opinion No. 586, Area Rate Proceeding, *et al.* (Hugoton-Anadarko Area), Docket No. AR64-1, *et al.*, 44 F.P.C. 761 (1970). Ashland currently is collecting 13 cents per Mcf for the sales of natural gas that are subject to this proceeding.
[1] 18 1.7(b).
[2] 18 2.76.

V 40246 DEC 22 75 XUM

ject wells would be immediately abandoned and an estimated 586 MMcf of natural gas lost to interstate commerce.

Notice of Ashland's petition was issued on April 10, 1975, and appeared in the Federal Register on April 17, 1975, at 40 FR 17159. The period for filing petitions to intervene expired on April 29, 1975, without response.

Upon review of Ashland's petition for special relief, its June 26, 1975 response to an April 15, 1975 Staff deficiency letter, and the results of a Staff audit of Ashland's books, there is a question as to what relief, if any, is warranted in this case. We therefore deem it in the public interest to set this matter for hearing in order that appropriate cost and reserve evidence may be adduced on the issue of the rate that Ashland should be permitted to charge for the subject sales of natural gas to Arkla.

The Commission finds. It is in the public interest that the proceeding in Docket No. RI75-121, be set for hearing.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), Docket No. RI75-121 is set for the purpose of hearing and disposition.

(B) A public hearing on the issues presented by the application herein shall be held commencing on January 29, 1976, 10:00 a.m., (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegations of Final Authority, 18 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Ashland shall file its direct testimony and evidence on or before December 30, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge and the Commission Staff.

(E) The Commission Staff shall file its direct testimony and evidence on or before January 20, 1976. All testimony and evidence shall be served upon the Presiding Administrative Law Judge and Ashland.

(F) All rebuttal testimony and evidence shall be served on or before January 26, 1976. Such rebuttal testimony and evidence shall be served upon the Presiding Administrative Law Judge and the Commission Staff.

By the Commission.

[Docket Nos. E-8137, E-8217]

BOSTON EDISON CO. AND NEW ENGLAND POWER SERVICE CO.

Settlement Conference

DECEMBER 12, 1975.

Take notice that on January 20, 1976, a conference of all parties to intervene in these consolidated proceedings, Boston Edison Company and Commission Staff will be held in the Commission's Conference Room No. 8402, at 825 North Capitol Street, Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

Letters concerning this conference are being mailed this date to all parties to the proceeding, all of the jurisdictional customers, and all affected state commissions.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34427 Filed 12-19-75;8:45 am]

[Docket No. ER76-338]

CAROLINA POWER AND LIGHT CO.

Request for Waiver of Regulations

DECEMBER 11, 1975.

Take notice that on December 2, 1975, Carolina Power and Light Company filed a request for waiver of the Commission's regulations to permit it to delay the filing of a fuel cost adjustment clause conforming to the requirements of § 35.14 of the regulations, as amended by Order No. 517, stating that it may be impossible for it to file a conforming clause before January 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34406 Filed 12-19-75;8:45 am]

[Docket No. RP72-142, (PGA76-2)]

CITIES SERVICE GAS CO.

Filing of Purchased Gas Cost Adjustment

DECEMBER 15, 1975.

Take notice that Cities Service Gas Company (Cities Service) on December 9, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Cities Service states that pursuant to the Purchased Gas Cost Rate Adjustment provision in Article 21 of its FPC Gas Tariff it proposes to increase its rates effective January 23, 1976, to reflect increased purchase gas costs. Cities Service states that such increased rates are reflected on the two Twelfth Revised Sheets PGA-1, as hereinafter described.

One of the two tariff sheets is Second Alternate Twelfth Revised Sheet PGA-1 which reflects a current adjustment of 2.61¢ per Mcf. Such adjustment reflects small producer purchases at rates in excess of the rate levels established pursuant to the Commission's Order No. 742, as well as other purchased gas costs. Should the Commission suspend the effectiveness of Second Alternate Twelfth Revised Sheet PGA-1 for one day to January 24, 1976, subject to refund, Cities Service has filed First Alternate Twelfth Revised Sheet PGA-1 to be effective on January 23, 1976. Such First Alternate Sheet reflects elimination of the small producer purchases at rates in excess of the rate levels established pursuant to the Commission's Order No. 742 and reflects a 2.44¢ per Mcf current adjustment.

Cities Service states that copies of its filing were served on all jurisdictional customers, interested state commissions and all parties to the proceedings in Docket Nos. RP72-142 and RP76-13.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34380 Filed 12-19-75;8:45 am]

[Docket Nos. RP75-105, RP75-106]

COLUMBIA GULF TRANSMISSION CORP. AND COLUMBIA GAS TRANSMISSION CORP.

Order Accepting for Filing and Permitting Revised Tariff Sheets To Become Effective

DECEMBER 11, 1975.

By order dated July 14, 1975 in these dockets we accepted for filing and suspended until December 15, 1975 certain revised tariff sheets filed by the Columbia Gulf Transmission Corporation and the Columbia Gas Transmission Corporation (Columbia) which would collectively result in jurisdictional rate increases of $87.9 million, and consolidated the dockets for further consideration and hearing. Our order additionally required Columbia to file revised tariff sheets, prior to the effective date of the suspended tariff sheets, reflecting the elimination of costs associated with certain uncertificated facilities if such facilities were not certified and in service on or before the date the proposed rates are to go into effect. In our order we further noted that Columbia's rate filing reflected rates designed under the Atlantic Seaboard method [1] and that to the extent the rate design ultimately found to be just and reasonable for Columbia departed from Seaboard, Columbia could be subject to undercollections.

On November 14, 1975 Columbia filed its revised tariff sheets [2] in this proceeding, and requested that they be accepted to become effective December 15, 1975. In addition to reflecting the changes required by our July 14, 1975 order, the revised tariff sheets filed on November 14, 1975 also reflect the following:

(1) A redesigning of Columbia's rates from an unmodified Seaboard basis to the United.[3] 75 percent/25 percent rate design formula.

(2) A redesigning of Columbia Gas' rate under Rate Schedule SGES to reflect the same basic approach to the design of the SGES rate as exists in the Settlement Agreement reached in Docket No. RP74-82.

Notice of Columbia's filing was issued on with all comments due on or before December 5, 1975. To date, no response has been filed.

Our review indicates that Columbia's latest filings properly reflect the elimination of costs associated with facilities which will not be certified and placed into service by December 15, 1975, resulting in a reduction of $4,523,384 in the filed rates on an annual basis.

With respect to the subject of rate design, we note that Columbia Gulf and Columbia Gas currently have a settlement agreement pending in Docket Nos. RP74-81 and RP74-82, respectively, which provides, *inter alia*, that Columbia will revise its rates to reflect fixed costs classified on the basis of 25 percent to Demand and 75 percent to Commodity,[4] subject to the outcome of the reserved hearing on the issues of cost classification and rate design. The effective date of such change is to be (1) the date of the first billing month after the Commission's approval of the agreement, or (2) December 15, 1975, the date the rates in this proceeding are to become effective, whichever occurs first. As stated in Article III-A of the settlement, the rates were redesigned, "In recognition of the problem of undercollections on Columbia's system which might arise from a retroactive application of a Commission decision prescribing revised cost classification and rate design procedures."

We further note that although Columbia Gas' redesign of Rate Schedule SGES results in a rate which is in excess of the rate which would occur under the "United, supra", method of cost classification, it does not result in higher overall revenues than those originally requested by Columbia Gas, as modified to reflect the exclusion of certain costs as required by our July 14, 1975 order. It appears proper, therefore, to permit Columbia Gas to redesign its SGES rate to become effective December 15, 1975, subject to refund.

In light of the above, we find good cause exists to grant waiver of § 154.66 (b) of our rules and regulations to permit the proposed revised tariff sheets to become effective, subject to refund, pending final disposition of this proceeding.

The Commission finds. It is necessary and proper to aid in the enforcement of the Natural Gas Act that we accept for filing the revised tariff sheets submitted by Columbia in these dockets on November 14, 1975, and permit them to become effective on December 15, 1975, subject to refund.

The Commission orders. (A) The revised tariff sheets submitted by Columbia Gulf and Columbia Gas in these dockets on November 14, 1975 are hereby accepted for filing and permitted to become effective December 15, 1975, subject to refund in substitution for the tariff sheets originally filed in these dockets and suspended by our order of July 14, 1975.

(B) Waiver of § 154.66(b) of our rules and regulations is hereby granted.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Docket Nos. ER76-122, E-9002]

COMMONWEALTH EDISON CO.

Order Denying Application for Rehearing and Establishing Revised Procedural Dates

DECEMBER 12, 1975.

On September 12, 1975, Commonwealth Edison (Com Ed) tendered for filing in Docket No. ER76-122 a proposed revised fuel adjustment clause, Rider 20, 2nd Revised Sheet No. 12 and Original Sheet No. 12, 10, and a proposed increase in its energy charge, Seventh Revised Sheet No. 1, applicable to Rate 78 of its FPC Electric Tariff. By Order issued October 10, 1975 the Commission accepted for filing and suspended Com Ed's proposed filing terminated the section 206 investigation of Com Ed's fuel clause [1] and consolidated Docket No. ER76-122 with Docket No. E-9002. The intervenors, Cities,[2] petitioned for rehearing of our October 10, 1975 order on the grounds, *inter alia*, that the Commission erred in failing to reject Com Ed's fuel clause and energy charge filing, in suspending the operation of the fuel clause for only one day, and in terminating the section 206 investigation of Com Ed's fuel clause.

Specifically, Cities argue that Com Ed has filed a section 205 rate increase of .352¢ per kwh in its energy charge to compensate for the revenue loss which results from implementation of the revised Order No. 517—fuel clause. They also allege that the energy increase filing should be rejected for failure to conform to the filing requirements § 35.13 of the regulations, which requires, *inter alia*, that the data for Period I be "the most recently available". Cities note that Com Ed is relying on the Period I and Period II data in Docket No. E-9002, which is, respectively, for calendar year 1973 and 1974. Com Ed, however, argues that since the filing is a change in rate design and reflects no change in the overall level of rates being collected, subject to refund in Docket No. E-9002, no further cost support data is needed.

Our review of Com Ed's filing indicates that it is, in fact, a filing reflecting no change in the overall revenues but merely a change in rate design and thus subject to § 35.13(b)(4)(ii) of the regulations which provides that such filings need not contain cost of service data.

As noted above, Cities also protest the termination of the Section 206 investigation into the old fuel clause, as well as the approval of the revised fuel clause, subject to a one day suspension to provide for any adjustment in the base fuel costs and related energy charges as may be appropriate following Commission determination of the just and reasonable Rate 78 in Docket No. E-9002. Specifically, Cities repeat the argument that the Commission should have summarily acted upon Com Ed's old fuel clause when we suspended the rates in Docket

[1] The 206 investigation was originally instituted by order issued October 29, 1974, in Docket No. E-9002.

[2] Batavia, Geneva, Naperville, Rochelle, Rock Falls and St. Charles, Illinois.

V 40246 DEC 22 75 XUM

No. E-9002, in lieu of setting an investigation of the fuel clause under section 206 of the Federal Power Act for prospective relief only. These arguments have been considered and rejected by the Commission in our previous orders issued in Docket No. E-9002 and need not be repeated here.[2]

For the aforestated reasons, we shall deny Cities' application for rehearing of our October 10, 1975, order.

Cities also protest the "summary disposition" of the issue of whether or not the new fuel clause conforms to § 35.14 of the Regulations, as promulgated by Order No. 517, and request that Cities be given a service date four weeks from the date of an order establishing such date to serve any evidence they deem relevant on this issue. Cities state that although they filed evidence on their service date of October 28, 1975, as to all other issues related to this case, the short time between the date of the Commission order of October 10, 1975, suspending the fuel clause and their October 28, 1975, filing date was insufficient time for Cities to analyze the proposed new fuel clause to determine whether, in their judgment, it conformed to Order No. 517 and § 35.14 of the Regulations. Based on the foregoing, we believe it reasonable and appropriate to establish a service date for Cities to serve any evidence they may deem relevant as to the justness and reasonableness of the new fuel clause and further to revise the remaining procedural dates in these consolidated proceedings as hereinafter provided.

The Commission finds. (1) Good cause exists to deny Cities' October 28, 1975, application for rehearing as hereinafter ordered and conditioned.

(2) Good cause exists to change the previously established procedural dates in these consolidated proceedings as hereinafter provided.

The Commission orders. (A) Cities' October 28, 1975, application for rehearing of our October 10, 1975, order is denied.

(B) The procedural dates previously established in Docket Nos. E-9002 and ER76-122 are hereby modified as follows:

Cities' Service Date on Fuel Clause Issue, January 16, 1976.
Date For Service Of Rebuttal Evidence by Com Ed and Commission Staff, January 30, 1976.
Hearing, February 17, 1976 (10 a.m., e.s.t.).

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[2] Commonwealth Edison Company, ---- FPC ---- issued October 29, 1974, in Docket No. E-9002, rehearing denied ---- FPC ---- issued December 18, 1974.

[Docket No. ER76-314]

CONNECTICUT LIGHT AND POWER CO.

Termination

DECEMBER 12, 1975.

Take notice that on December 1, 1975 Connecticut Light and Power Company tendered for filing notice of termination of its Rate Schedule FPC No. 91, dated November 1, 1973. The termination was effective as of April 30, 1974 in accordance with the terms of the Rate Schedule.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34429 Filed 12-19-75;8:45 am]

[Docket No. ER76-333]

CONNECTICUT LIGHT AND POWER CO.

Transmission Agreement

DECEMBER 15, 1975.

Take notice that on December 5, 1975, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed rate schedule with respect to Transmission Agreement dated October 1, 1975 between (1) CL&P, The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) and (2) Long Island Lighting Company (LILCO).

CL&P states that LILCO has executed a contract with the Vermont Electric Power Company (VELCO) of Rutland, Vermont for the purchase of power from VELCO's entitlement in the Vermont Yankee nuclear generating facility (the LILCO purchase) in the amount of 30,000 kilowatts. CL&P states further that the Transmission Agreement provides for a transmission service to LILCO during the period from November 1, 1975 to October 31, 1976.

CL&P states that final contractual arrangements between VELCO and LILCO, regarding the LILCO purchase, were not completed until a date which prevented the filing of this rate schedule more than thirty days prior to the proposed effective date. CL&P therefore requests that, in order to permit LILCO to receive transmission service to wheel the LILCO purchase, the Commission, pursuant to § 35.11 of its regulations, waive the thirty-day notice period and permit the rate schedule failed to become effective on November 1, 1975.

CL&P states that the monthly transmission charge is equal to one-twelfth of the estimated annual average unit cost of transmission service on the Northeast Utilities system determined in accordance with § 13.9 (Determination of Amount of PTF Costs) to the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee multiplied by the number of kilowatts of winter capability which LILCO is entitled to receive. CL&P also states that the Northeast Utilities companies and LILCO recognize that during the Term of the Transmission Agreement, the 115-kV transmission facilities supplying the southwest area of Connecticut will normally be fully loaded on a single contingency basis. Accordingly, the Northeast Utilities companies and LILCO have agreed that for transmission purposes, the LILCO purchase shall be treated as a five-minute interruptible load.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, HELCO, Hartford, Connecticut, WMECO, West Springfield, Massachusetts and LILCO, Hicksville, New York. CL&P states that the services to be provided under this Transmission Agreement are similar to services provided by CL&P, HELCO and WMECO pursuant to an agreement between CL&P, HELCO and WMECO and City of Holyoke Gas and Electric Department dated as of April 1, 1975 and filed with the Commission by letter dated May 22, 1975. (Rate Schedule—CL&P, FPC No. 113, HELCO FPC No. 91, WMECO FPC No. 105).

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. ER76-326]

CONNECTICUT LIGHT AND POWER CO. ET AL.

Termination

DECEMBER 16, 1975.

Take notice that on December 3, 1975, The Connecticut Light and Power Company (CL&P), The Hartford Electric Light Company (HELCO), and Western Massachusetts Electric Company, (WMECO) tendered for filing a notice that the following rate schedules, effective October 1, 1973, were terminated in accordance with their terms on October 31, 1973:

Rate Schedule FPC No. CL&P 89; Rate Schedule FPC No. HELCO 73; and Rate Schedule FPC No. WMECO 89.

CL&P, HELCO and WMECO state that notice of the proposed termination has been served upon the Public Service Company of New Hampshire.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-327]

CONNECTICUT LIGHT AND POWER CO. ET AL.

Termination

DECEMBER 16, 1975.

Take notice that on December 3, 1975, The Connecticut Light and Power Company (CL&P), The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) filed with the Commission a notice that the following rate schedules, effective September 1, 1974, were terminated in accordance with their terms on October 31, 1974:

Rate Schedule FPC No. CL&P 97; Rate Schedule FPC No. HELCO 79; and Rate Schedule FPC No. WMECO 94.

CL&P, HELCO and WMECO state that notice of the proposed termination have been served upon the Public Service Company of New Hampshire.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34393 Filed 12-19-75;8:45 am]

[Docket No. ER76-334]

CONNECTICUT LIGHT AND POWER CO.

Amendment to Transmission Agreement

DECEMBER 15, 1975.

Take notice that on December 5, 1975, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed Amendment to Transmission Agreement (Amendment), dated October 1, 1975 between (1) CL&P, The Hartford Electric Light Company (HELCO) and Western Massachusetts Electric Company (WMECO) and (2) City of Holyoke Gas and Electric Department (HG&E).

CL&P states that HG&E has executed a contract with the Vermont Electric Power Company (VELCO) of Rutland, Vermont for the purchase of power from VELCO's entitlement in the Vermont Yankee nuclear generating facility (the HG&E purchase) in the amount of 5,000 kilowatts.

CL&P states that the Amendment provides for an extension of the termination date of the Transmission Agreement from October 31, 1975 to April 30, 1978. CL&P states that there was not sufficient time to prepare, execute and file the Amendment with the Commission more than thirty days prior to the proposed effective date.

CL&P therefore requests that, in order to permit HG&E to receive transmission service to wheel the HG&E purchase, the Commission, pursuant to § 35.11 of its regulations, waive the thirty-day notice period and permit the Amendment filed to become effective on November 1, 1975.

CL&P states that the monthly transmission charge is equal to one-twelfth of the estimated annual average unit cost of transmission service on the Northeast Utilities system determined in accordance with § 13.9 (Determination of Amount of PTF Costs) of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee multiplied by the number of kilowatts of winter capability which HG&E is entitled to receive, reduced to give due recognition of the payments made by HG&E for transmission services on Public Service Company of New Hampshire system.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, HELCO, Hartford, Connecticut, WMECO, West Springfield, Massachusetts and HG&E, Holyoke, Massachusetts.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34386 Filed 12-19-75;8:45 am]

[Docket No. ER76-335]

CONNECTICUT POWER AND LIGHT CO.

Amendment to Purchase Agreement

DECEMBER 15, 1975.

Take notice that on December 5, 1975, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed Amendment to Purchase Agreement with respect to Various Gas Turbine Units (Amendment), dated September 15, 1975 between (1) CL&P and The Hartford Electric Light Company (HELCO), and (2) Vermont Electric Cooperative, Inc. (VEC).

CL&P states that the Amendment provides for an extension of the termination date of the Purchase Agreement from October 31, 1975 to April 30, 1976 (the Extension Period) and for changing the Purchase Percentages during the Extension Period.

CL&P states that there was not sufficient time to prepare, execute and file the Amendment with the Commission more than thirty days prior to the proposed effective date. CL&P therefore requests that, in order to permit VEC to receive the capacity and energy pursuant to the terms of the Amendment and to allow CL&P and HELCO to receive payment for such capacity and energy, the Commission, pursuant to § 35.11 of its regulations, waive the thirty-day notice period and permit the Amendment filed to become effective on November 1, 1975.

CL&P states that the transmission rate for the Extension Period is a monthly rate equal to one-twelfth of the annual average cost of transmission service on the Northeast Utilities System determined in accordance with § 13.9 (Determination of Amount of PTF Costs) of the New England Power Pool (NEPOOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee multiplied by the number of kilowatts of winter capability which VEC is entitled to receive reduced by up to one-half to give due recognition of the payments made by VEC for transmission services on intervening systems.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, HELCO, Hartford, Connecticut, VEC, Johnson, Vermont.

CL&P also states that no facilities are to be installed or modified in order to supply the service to be furnished under the Amendment.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the

V40246 DEC 22 75 XUM

Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Termination

DECEMBER 15, 1975.

Take notice that on December 8, 1975, The Connecticut Light and Power Company ("the Company") tendered for filing a notice that effective April 30, 1973, The Connecticut Light and Power Company Rate Schedule FPC No. 58, effective May 1, 1972, and filed with the Federal Power Commission by the Company, was terminated in accordance with its terms.

The Company states that notice of the proposed termination has been served upon Bangor-Hydro-Electric Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9380]

CONSUMERS POWER CO.

Filing of Letter Agreement

DECEMBER 12, 1975.

Take notice that Consumers Power Company (Consumers Power) on December 8, 1975 tendered for filing a letter dated November 25, 1975 from Consumers Power to the Edison Sault Electric Company (Edison Sault). The letter informs Edison Sault that certain 138 kV submarine cables across the Straits of Mackinac by means of which Consumers Power is to provide wholesale electric service to Edison Sault, were first placed into service on November 6, 1975. Under the terms of the Contract for Electric Service between the two parties, dated November 21, 1974 and filed with the Commission on April 14, 1975, November 6, 1975 is established as the effective date of the contract.

Consumers Power states that copies of the letter were served on Edison Sault and on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-313]

DUKE POWER CO.

Increase in Contract Demand

DECEMBER 12, 1975.

Take notice that on December 1, 1975, Duke Power Company (Company) tendered for filing a supplement to the Company's Electric Power contract with the Town of Westminster, designated FPC No. 256, which provides for an increase in contract demand for 3600 Kw to 4600 Kw made at the request of the customer.

The document is proposed to become effective on January 21, 1976.

The Company states that a copy of the filing has been mailed to the Chairman of the Commission of Public Works of the Town of Westminster, South Carolina.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-114]

EAST TENNESSEE NATURAL GAS CO.

Further Extension of Procedural Dates

DECEMBER 12, 1975.

On December 4, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued August 14, 1975, as most recently modified by notice issued December 1, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Services of Staff Testimony, January 27, 1976.
Service of Intervenor Testimony, February 10, 1976.
Service of Company Rebuttal, March 9, 1976.
Hearing, March 23, 1976 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-134, (PGA-4B)]

EASTERN SHORE NATURAL GAS CO.

Purchased Gas Cost Adjustment to Rates and Charges

DECEMBER 12, 1975.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on December 8, 1975, tendered for filing Revised Substitute Thirteenth Revised Sheet No. 3A and Revised Substitute Thirteenth PGA-1 to its FPC Gas Tariff, Original Volume No. 1, to become effective October 1, 1975. This filing supplements the filing in this docket on November 17, 1975.

The above revised tariff sheets reflect accumulative changes to the original rates filed by Transcontinental Gas Pipe Line Corporation in Docket No. RP75-75 on March 14, 1975, to be effective May 1, 1975. The Commission suspended the effectiveness of such rates until October 1, 1975.

Copies of the filing have been mailed to each of the Company's jurisdictional customers and to interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34394 Filed 12-19-75;8:45 am]

[Docket No. RP72-134, (PGA 76-5A)]

EASTERN SHORE NATURAL GAS CO.

Purchased Gas Cost Adjustment to Rates

DECEMBER 11, 1975.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on December 2, 1975, tendered for filing Revised Fourteenth Revised Sheet No. 3A, Revised Fourteenth Revised PGA-1, Second Revised Fourteenth Revised Sheet No. 3A and Second Revised Fourteenth Revised PGA-1 to its FPC Gas Tariff, Original Volume No. 1, to become effective November 1 and 2, 1975, respectively. These rate filings will increase Eastern Shore's sales rates and reduce its storage rates to reflect equivalent filings of Transcontinental Gas Pipe Line Corporation which were made on November 14, 1975, in Docket Nos. RP73-3, et al.

Pursuant to § 154.51 of the regulations under the Natural Gas Act, Eastern Shore respectfully requests waiver of the notice requirements of Section 154.22 of those Regulations and of § 20.2 of the General Terms and Conditions of its Tariff, to the extent necessary, to permit the tariff sheets submitted herewith to become effective as of November 1 and 2, 1975, respectively, to coincide with the proposed effective date of Transco's rate changes. In support hereof, Eastern Shore states that Transco's November 14 filing prevented it from meeting the appropriate notice requirements.

Copies of the filing have been mailed to each of the Company's jurisdictional customers and to interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34408 Filed 12-19-75;8:45 am]

[Docket No. RP76-19]

EL PASO NATURAL GAS CO.

Withdrawal of Tariff Filing

DECEMBER 12, 1975.

Take notice that on December 4, 1975, El Paso Natural Gas Company ("El Paso"), filed a notice of withdrawal of its tariff filing which is now pending Commission disposition at Docket No. RP76-19.

El Paso states that by order issued July 9, 1975, at Docket Nos. CP73-334, CP74-289 and CP75-360, the Commission granted El Paso temporary authorization to initiate "further special operating arrangements" made between El Paso, Pacific Gas and Electric Company ("PG and E") and Southern California Gas Company ("SoCal"), which arrangements were made to assist El Paso in protecting Priority 1 and 2 service requirements of its east-of-California customers during the 1975-76 and 1976-77 heating seasons and thereafter. Said order also accepted for filing and made effective on July 9, 1975, certain tariff sheets providing, *inter alia*, for the collection of a 8.37¢ per Mcf surcharge during the months of November, 1975, through April, 1976, to compensate El Paso for its costs in implementing the further special operating arrangements.

Subsequently, on September 29, 1975, El Paso states it tendered for filing and acceptance certain tariff sheets to its FPC Gas Tariff which proposed to increase the initial surcharge rate from 8.37¢ per Mcf to 10.09¢ per Mcf. Such revised surcharge, proposed to be made effective November 1, 1975, was designed to permit El Paso to recover the additional cost to be incurred under the said further special operating arrangements, based upon the anticipated delivery by El Paso to PG and E of up to the full 17,000,000 Mcf of additional advance sale gas provided by the further special operating arrangements, rather than the originally forecasted 9,000,000 Mcf of additional advance sale gas deliveries.[1]

El Paso states that, by letter dated October 16, 1975, at Docket No. CP75-360, the Commission informed El Paso that the subject September 29, 1975, revised surcharge filing constituted a rate increase application and should be supplemented to include Statements L, M and N as required by § 154.63 of the Commission's Regulations. The Commission further advised El Paso that no filing date would be assigned pending receipt of such data. Subsequently, Commission notice of said filing was issued October 22, 1975, at Docket No. RP76-19.

At the time of filing of the September 29, 1975 submittal, El Paso states it anticipated that essentially all of the 17,000,000 Mcf advance sale gas authorized would be delivered to PG and E by October 31, 1975; however, actual deliveries of advance sale gas to PG and E through October 31, 1975, aggregated 15,145,431 Mcf, which is substantially more than the 9,000,000 Mcf originally expected but less than the anticipated 17,000,000 Mcf upon which the revised surcharge rate was based. PG and E in late October advised El Paso that PG and E would not be able to accept additional advance sale gas deliveries during the month of November, 1975. These changed circumstances necessarily would require a further redetermination of the initial surcharge rate to be collected by El Paso which, at the earliest date, could be placed into effect no sooner than January, 1976. Such a change in the surcharge rate in January, 1976, would also necessitate that El Paso's customers concurrently change their rates to their customers.

In view of the administrative inconveniences which would now result from such a change in the surcharge rate proposal, and inasmuch as El Paso's presently effective tariff provides a mechanism whereby either the disposition of any excess revenues collected by El Paso or the recovery of any deficient revenues will be accomplished by a plan which El Paso states will be submitted to the Commission within 60 days of April 30, 1976, El Paso has given notice of the withdrawal of its September 29, 1975, tariff tender filing pending at Docket No. RP 76-19.

Any person desiring to be heard or to make any protest with reference to said notice of withdrawal of application should, on or before December 26, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9543]

FLORIDA POWER & LIGHT CO.

Application

DECEMBER 11, 1975.

Take notice that on November 26, 1975, Florida Power & Light Company (Applicant) filed an application seeking an order pursuant to section 203 of the Federal Power Act authorizing it to acquire certain electric transmission facilities from Jacksonville Electric Authority (JEA).

Applicant is incorporated under the laws of the State of Florida with its principal business office at Miami, Florida and is engaged in the electric utility business in parts of 35 of the 67 counties in the State.

JEA is a municipal electric authority, a body politic and corporate of the State of Florida and owns and operates other facilities for the distribution and sale of electric energy in 3 counties in Florida.

The Applicant will pay the sum of $2,290,438 in exchange for said property.

Any person desiring to be heard or to make any protest with reference to said

[1] See El Paso's application for a certificate of public convenience and necessity and request for temporary authorization and related tariff tender filed June 10, 1975, at Docket No. CP75-360.

V40246 DEC 22 75 XUM

application should, on or before January 2, 1976, file with the Federal Power Commission, Washington, D.C., 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34409 Filed 12-19-75;8:45 am]

[Docket No. ER76-325]

GULF STATES UTILITIES CO.

Letter Agreement

DECEMBER 15, 1975.

Take notice that on December 3, 1975 Oklahoma Gas and Electric Company tendered for filing on behalf of Gulf States Utilities Company (Gulf States) a Letter Agreement, dated October 13, 1975, between Gulf States and Central Louisiana Electric Co., Inc. and Louisiana Power and Light Company amending Schedule RE, Replacement Energy, a supplement to their Interconnection Agreement, designated as Supplement No. 28 to Gulf States' Rate Schedule FPC No. 82.

Gulf States indicates that the change made by this proposal is the add-on portion of the rate when energy being supplied by the seller is purchased from another supplier and passes through the seller's system to the Buyer. Gulf States requests an effective date of January 1, 1976 for this letter Agreement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. G-9287, etc.]

HUMBLE OIL AND REFINING CO.

Filing of Petition by Columbia Gas Transmission Corporation for an Order Releasing Refunds Held in Escrow

DECEMBER 10, 1975.

Take notice that on November 21, 1975, Columbia Gas Transmission Corporation (Columbia), legal successor to United Fuel Gas Company, filed in the above-entitled proceeding a petition requesting the Commission to order the release of refunds held by Humble Oil and Refining Company. The refunds in question amount to $145,900.08 plus accrued earnings. In its petition, Columbia states as follows:

By Order releasing refunds in part issued April 21, 1965, the Commission, after analysis of the Refund Report filed by United Fuel (Appendix A), directed Humble to retain those amounts which United Fuel claimed it had no obligation to flow-through. The money so retained amounted to $145,900.08 covering the period April 1, 1962 through June 30, 1964. Columbia's claim to retain these refunds is based upon the Stipulation and Agreement in Docket No. 20270 which was in force during the period refunds were collected. The Stipulation and Agreement approved by the Commission stated that Columbia's predecessor, United Fuel, had no obligation under Article IV, Paragraph 2, to "* * * pass on any refunds it may receive from suppliers as a result of final determination of gas purchase increases which became effective after June 1, 1961 and which are not reflected in United's rates in this docket, No. 20270." These representations were also embodied in United Fuel's Application for Rehearing and Reconsideration dated May 21, 1965 (Appendix B).

In its Order releasing refunds held by Pan American Petroleum Corporation to Columbia in Docket No. G-9279, issued July 29, 1975, the Commission determined that refunds may be appropriately retained by Columbia pursuant to the Commission-approved Stipulation and Agreement in United Fuel Gas Company, Docket No. G-20270. Since the factual situation with regard to Humble in the above-docketed proceeding is identical to the situation in Pan American Petroleum Corporation, Docket No. G-9279 and since the Commission has already approved Columbia's right to retain refunds arising from rates in effect subsequent to June 1, 1961, pursuant to the Stipulation and Agreement in Docket No. G-20270, the refunds held in escrow by Humble should be released to Columbia without obligation to flow-through these refunds to its customers.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before January 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's petition is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34403 Filed 12-19-75;8:45 am]

[Docket No. ER76-309]

INDIANAPOLIS POWER & LIGHT CO.

Changes in Rates and Charges

DECEMBER 16, 1975.

Take notice that on December 1, 1975, Indianapolis Power & Light Company (Indianapolis) tendered for filing Modification No. 2 dated October 1, 1975, to the Interconnection Agreement dated December 2, 1968, between Indianapolis and Southern Indiana Gas and Electric Company (Southern Indiana), designated Indianapolis Rate Schedule FPC No. 6.

Indianapolis states that section 1 of Modification No. 2 provides for an increase in the demand charge for short term power from $0.40 to $0.45 per kilowatt per week and from ⅛ of the $0.40 weekly charge to $0.975 per kilowatt per day for short term power sold (purchased) for periods less than one week. Section 1 provides further that if the supplying party requests a reduction in the amount of short term energy to be delivered, the weekly rate will be reduced $0.075 per day other than Sunday. Included in the filing is a Certificate of Concurrence executed on behalf of Southern Indiana.

Indianapolis requests waiver of any requirements of § 35.13 of the Commission's regulations, 18 CFR 35.13, not already complied with.

It has been requested by Indianapolis that Modification No. 2 become effective as soon as practicable.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ID-1599]

JAMES F. SMITH

Application

DECEMBER 11, 1975.

Take notice that on December 1, 1975, James F. Smith (Applicant) filed an application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Director and Executive Vice President, Financial, Orange and Rockland Utilities, Inc., Public Utility.
Director and Executive Vice President, Financial, Rockland Electric Company, Public Utility.
Director and Executive Vice President, Financial, Pike County Light & Power Company, Public Utility.

Orange and Rockland Utilities, Inc. (formerly Rockland Light and Power Company) has its principal place of business at Spring Valley, New York. The Company is engaged in the generation, distribution and sale of electric current in Rockland County and portions of Orange County and the easterly portion of Sullivan County, all in the state of New York, and owns and operates facilities for the transmission of electric energy across the New Jersey and Pennsylvania state lines to its wholly-owned subsidiary companies, Pike County Light & Power Company, Milford, Pennsylvania; and Rockland Electric Company, Ramsey, New Jersey. The Company also distributes natural gas in parts of the territory.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 5, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-340]

KANSAS POWER AND LIGHT CO.

Filing of Cancellation

DECEMBER 16, 1975.

Take notice that on December 8, 1975, The Kansas Power and Light Compnay (Kansas) tendered for filing a proposed cancellation of FPC Rate Schedule No. 56. Said rate schedule was dated January 23, 1956, between the City of Herington and Kansas.

Kansas states that the termination of the contract is to be effective January 23, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-310]

KENTUCKY UTILITIES CO.

Filing of Revised Fuel Clauses

DECEMBER 12, 1975.

Take notice that on December 1, 1975, Kentucky Utilities Company (Kentucky) tendered for filing two revised fuel clauses applicable to service rendered Old Dominion Power Company. Kentucky states that one of the fuel clauses is applicable to transmission voltage delivery, while the other clause is applicable to distribution voltage delivery. Kentucky requests that the fuel clauses be permitted to become effective as of January 1, 1976.

Kentucky states that the instant filing is made in order to comply with § 35.14 of the Commission's regulations as same have been amended by Order No. 517.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP75-104]

LAWRENCEBURG GAS TRANSMISSION CORP.

Filing of Revised Tariff

DECEMBER 11, 1975.

Take notice that on November 17, 1975, Lawrenceburg Gas Transmission Corporation tendered for filing FPC Gas Tariff, First Revised Volume No. 1, superseding Original Volume No. 1, and revised service agreements between Lawrenceburg Gas Transmission Corporation and Lawrenceburg Gas Company and The Cincinati Gas & Electric Company. The Revised Tariff and service agreements are proposed to become effective on November 1, 1975.

Lawrenceburg Transmission states that it considers the filings to be in compliance with the Commission's Order issued October 31, 1975 in Docket No. CP 75-370, and requests waiver of the 30 day notice requirement under Section 154.51 of the Commission's Regulations.

Lawrenceburg Transmission states that copies of the filing have been served on its two wholesale customers and on interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in

V40246 DEC 22 75 XUM

accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-9469]

LOCKHART POWER CO.

Order Accepting for Filing and Permitting To Become Effective, Subject to Refund, Proposed Rate Increase and Establishing Procedures

DECEMBER 12, 1975.

On June 2, 1975, Lockhart Power Company (Lockhart) filed with this Commission an amended service agreement and rate schedule for wholesale electric service to the City of Union, South Carolina (Union). The effect of such filing, Lockhart asserted, was to increase its rates to Union by $54,479 annually. Lockhart admitted, however, that it had been collecting such increased rate from Union since September 1, 1974. In this regard, Lockhart stated that the rate increase had been accepted by Union and approved by the Public Service Commission of South Carolina. Finally, Lockhart asserted that "the company has never been held to be subject to the Commission's jurisdiction under Part II of the Federal Power Act", and stated that its June 2, 1975, filing was made solely for the Commission's information.

Public notice of Lockhart's filing was issued on June 11, 1975, with comments, protests or petitions to intervene due on or before June 24, 1975. No responses were received.

Preliminary review of Lockhart's filing found it to be deficient with respect to certain requirements of the Commission's Regulations. Accordingly, by letter dated June 25, 1975, the Commission Secretary informed Lockhart of such deficiency and stated that a filing date would not be assigned its submittal until the deficiency was cured.

Lockhart responded to the Secretary's deficiency letter in a letter filed on July 17, 1975. In such response, the Company stated:

> We do not have the information requested by your letter of June 25 and, in the circumstances, believe that it should be unnecessary to undertake to prepare this information. As you can see, our operations are relatively small and we do not have the data availability of those companies with which you are more familiar. I am sure, however, that the South Carolina Public Service Commission would be glad to answer any questions you may have about the recent revised agreement.

In our order issued August 15, 1975 we found that Lockhart's wholesale sale of electric energy to Union does constitute a "* * * sale of electric energy at wholesale in interstate commerce * * *" within the meaning of section 201(b) of the Federal Power Act. We also noted that Lockhart has been on notice for three years that its sale to Union and the rate charged therefor are subject to our jurisdiction. Concluding from these facts that "our ability to protect the public against potentially unlawful rates has, in this case, been seriously jeopardized * * *", we rejected the rate increase and ordered refunds of all amounts collected pursuant thereto. In the alternative, we provided that the filing would not be rejected if Lockhart filed, within 30 days, (1) the material necessary to cure the filing deficiencies in its June 2, 1975, submittal,[1] and (2) a statement agreeing that all increased rates collected since September 1, 1974, until the resolution of this proceeding are subject to refund of any amount found by this Commission to be in excess of a just and reasonable rate level. Finally, we stated that if Lockhart agreed to these two conditions, then we would "* * * by further order take such action as we may deem appropriate in light of our analysis of the cost data supplied by Lockhart."[2]

In a letter filed with the Commission on September 8, 1975, Lockhart agreed "* * * that increased rates collected since September 1, 1974, until the resolution of this proceeding are collected subject to refund of any amounts found by the Federal Power Commission to be in excess of a just and reasonable level."

On Novemer 14, 1975, Lockhart filed cost of service data, testimony and exhibits which are intended to cure the deficiencies set forth in the aforementioned June 25, 1975, letter of the Commission Secretary. In his prepared testimony, Lockhart's General Manager states that the rate increase to Union is necessitated by large expense increases recently experienced by the Company. In addition, he contends that the Company should be permitted to earn an overall rate of return of 8.78 percent.

Our review of the cost of service data, testimony and exhibits submitted by Lockhart on November 14, 1975, indicates that the rate increase to Union has not been shown to be just and reasonable and may be unjust, unreasonable, or otherwise unlawful.

As discussed above, our order of August 15, 1975, stated that Lockhart's filing would not be rejected if Lockhart complied with two conditions. Lockhart has now complied with those conditions. Accordingly, we shall accept Lockhart's proposed increased rates for filing and permit them to become effective, subject to refund, as of September 1, 1974, and establish a hearing to determine the just and reasonable rate level to be charged to Union.

The Commission finds: (1) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of Lockhart's rate increase filed in Docket No. E-9469, and that such increase be accepted for filing and permitted to become effective as of September 1, 1974.

The Commission orders: (A) Pending a hearing and decision thereon, Lockhart's June 2, 1975, filing, as cured on November 14, 1975, is accepted for filing and permitted to become effective as of September 1, 1974, subject to refund.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at an initial conference in this proceeding on January 15, 1976. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates for this proceeding and to rule upon all motions (except petitions to intervene), subject to review by the Commission.

(C) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's Rules of Practice and Procedure.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34398 Filed 12-19-75;8:45 am]

[Docket No. RP75-96]

MICHIGAN WISCONSIN PIPE LINE CO.

Order Denying Application for Rehearing and Making Effective Revised Tariff Sheets

DECEMBER 11, 1975.

On April 30, 1975, Michigan Wisconsin Pipe Line Company (Mich-Wis) tendered for filing in this docket proposed changes in its FPC Gas Tariff designed to effect a $66 million jurisdictional rate increase. The proposed increase was based on a test period of 12 months ended January 31, 1975, as adjusted for known and measurable changes through October 31, 1975. Mich-Wis requested an effective date of June 1, 1975, for the proposed rate increase.

By order issued May 19, 1975, we accepted the proposed changes for filing, subject to certain conditions, and suspended the use thereof for five months until November 1, 1975. One of the aforementioned conditions was that Mich-Wis file revised tariff sheets reflecting the elimination from its proposed rates of

[1] By notice issued September 16, 1975, the time within which Lockhart was required to submit this material was extended to November 14, 1975.

[2] *Lockhart Power Company*, Docket No. E-9469, order issued August 15, 1975, *mimeo* at 4.

$11,265,490 in interest reimbursement payments to producers.[1]

On September 15, 1975, Mich-Wis filed tariff sheets intended to replace those sheets which the Company had originally filed on April 30, 1975. Such replacement tariff sheets reflected the rate level included in the April 30, 1975, filing as revised upward to reflect the net effect of: (1) purchased gas adjustment (PGA) increases as a result of the increased cost of imported Canadian gas as well as an increase in the cost of gas purchased from Texas Gas Transmission Corporation; (2) an increase in the balance of advance payments outstanding as of November 1, 1975; and (3) the elimination of the $11,265,490 in interest reimbursement payments to producers. Mich-Wis requested that these replacement tariff sheets be permitted to become effective November 1, 1975, in substitution for the tariff sheets which had previously been accepted for filing and suspended until that date.

By order issued October 31, 1975, we rejected Mich-Wis' September 15, 1975, submittal and required Mich-Wis to file revised tariff sheets reflecting only the elimination of the interest reimbursement to producers. Such rejection was based upon our findings that: (1) the portion of the filing reflecting purchased gas cost increases was based on a "Determination Period" different from that period required by Mich-Wis' tariff; and (2) the portion of the filing reflecting increased advance payments was not timely filed in accordance with the advance payments tracking authority which Mich-Wis received in the settlement of Docket No. RP73-102. We did note, however, that our rejection of the increased purchased gas costs portion of the filing was "* * * without prejudice to Mich-Wis' right to file for increases in such costs in accordance with the applicable provisions of its FPC Gas Tariff and our Regulations under the Natural Gas Act, together with a request for necessary waiver to permit such increases to become effective as of November 1, 1975 * * *" (ordering paragraph (D), *mimeo* at 4).

On November 14, 1975, Mich-Wis filed an application for rehearing of our October 31, 1975, order in this docket. In the alternative, Mich-Wis tendered with such application certain alternate revised tariff sheets which eliminate the aforementioned interest reimbursement payments and include increased purchased gas costs in the manner prescribed in its tariff. Mich-Wis requests that in the event rehearing is denied, the alternate revised tariff sheets be made effective as of November 1, 1975.

In its application for rehearing, Mich-Wis asserts that we misunderstood its September 15, 1975, filing. In this regard, Mich-Wis states that had it intended such filing to be a PGA filing, it would have filed in its PGA docket. Likewise, the Company states, had it meant to "track" the increase in advance payments, it would have filed in Docket No. RP73-102, wherein it obtained such tracking authority. Thus, rather than making a PGA and a tracking filing, Mich-Wis simply intended to "replace" the previously suspended tariff sheets with those sheets submitted on September 15, 1975.

Mich-Wis further states that "of significant importance" is the fact that a PGA filing in accordance with its tariff would result in underrecovery of its purchased gas cost increases to the extent of $5 million, due to a decline in its annual sales volume. Mich-Wis apparently believes that this fact is sufficient reason for us to accept its substitute tariff sheets in lieu of a PGA filing conforming to its tariff.

We are not persuaded by Mich-Wis' application for rehearing that we should amend our October 31, 1975, order in this docket. The subject filing, which proposed to increase the previously suspended rate level, is specifically prohibited by Section 154.66(b) of our Regulations except for good cause shown. We found that such good cause showing had not been made.[2] We further found that the filing, proposing to recover increased purchased gas and advance payment costs, failed to comply with both the PGA provisions of Mich-Wis' tariff and Mich-Wis' advance payment tracking authority. In view of this total failure by Mich-Wis to comply with our Regulations, its tariff, and its tracking authority, we concluded that the filing must be rejected. Mich-Wis has presented no arguments or additional evidence in its application for rehearing which changes that conclusion.

As noted above, Mich-Wis contends that a PGA filing pursuant to its tariff results in recovery of $5 million less than the actual increase in its cost of purchased gas. Mich-Wis is aware, no doubt, that this $5 million "loss" is recorded in its unrecovered purchased gas cost account (Account 191) and is subsequently recovered by imposition of a rate surcharge. Thus, the deferred account/surcharge mechanism keeps Mich-Wis whole and prevents the "underrecovery" of which Mich-Wis complains.

In light of our denial of Mich-Wis' application for rehearing, we shall accept the revised tariff sheets tendered with such application insofar as such sheets reflect elimination of the interest reimbursement payments and increased purchased gas costs in compliance with the PGA provision of Mich-Wis' tariff. Such revised tariff sheets shall be permitted to become effective as of November 1, 1975.

The Commission finds: (1) Mich-Wis' November 14, 1975, application for rehearing of our October 31, 1975, order in this docket presents no new facts or principles of law which warrant modification or amendment of said order.

(2) Good cause exists to accept for filing and make effective as of November 1, 1975, the revised tariff sheets tendered with Mich-Wis' November 14, 1975, application for rehearing.

The Commission orders: (A) Mich-Wis' November 14, 1975, application for rehearing of our October 31, 1975, order in this docket is hereby denied.

(B) The revised tariff sheets tendered with Mich-Wis' application for rehearing are accepted for filing and made effective as of November 1, 1975.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-158]

NEW ENGLAND POWER CO.

Further Extension of Procedural Dates

DECEMBER 11, 1975.

On December 8, 1975, New England Power Company filed a motion to extend the procedural dates fixed by order issued October 30, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Company Testimony, February 10, 1976.
Service of Staff Testimony, April 12, 1976.
Service of Intervenor Testimony, April 26, 1976.
Service of Company Rebuttal, May 10, 1976.
Hearing, May 24, 1976 (10:00 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34413 Filed 12-19-75;8:45 am]

[Docket No. ER76-304]

NEW ENGLAND POWER CO.

Rate Filing

DECEMBER 15, 1975.

Take notice that on November 28, 1975, New England Power Company (NEPCO) tendered for filing copies of the following amendments to its FPC Electric Tariff, Original Volume No. 1 constituting a new Rate R-10:

1. Schedule II-A, Seventh Revised Page No. 1.
2. Schedule II-A, Seventh Revised Page No. 2.
3. Schedule II-B, First Revised Page No. 1.
4. Schedule II-B, Original Page No. 2.
5. Schedule III-C, Second Revised Page No. 9.

NEPCO requests an effective date of January 1, 1976 for its Rate R-10.

NEPCO states that the changes in the Company's present R-9 rate (Schedule II-A) to be effective by the amendments filed herewith will in each case increase the Demand Charge from $5.72 per kilowatt of demand to $6.43 per kilowatt and increase the Energy Charge from 17.5 mills per kilowatt-hour to 17.6 mills per kilowatt-hour. In addition, the charge for sub-transmission service is increased from $0.05 to $0.46 per KW of demand.

[1] By order issued July 11, 1975, Mich-Wis' application for reconsideration of our May 19, 1975, order was denied.

[2] *Michigan Wisconsin Pipe Line Company*, Docket No. RP75-96, order issued October 31, 1975, finding paragraph (2), *mimeo* at 3.

V 40 246 DEC 22 75 XUM

According to NEPCO, based on the calendar year 1976 as a test period, the effect of the R–10 rate changes will be to increase the Company's annual revenues by approximately $28,600,000. This represents a 6% increase over the presently effective rate. NEPCO has no other rate for similar wholesale for resale service.

According to NEPCO, the rate increase submitted in this filing is necessary to provide the increased revenues needed to meet continually increasing operating expenses and to enable the Company to raise capital on reasonable terms to provide future service to the consumer. NEPCO has been simply unable to earn anything approaching a fair return for the past two years (its earned return on common equity for 1974 was 10.15%) and as a result, its financial integrity has been continually called into question to the detriment of both shareholders and consumers.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34383 Filed 12–19–75;8:45 am]

[Docket No. ER76–317]

NEW ENGLAND POWER CO.

Proposed Changes in Rates and Charges

DECEMBER 12, 1975.

Take notice that on December 1, 1975, New England Power Company (NEPCO) filed revised tariff sheets constituting a new Rate R–10/CD for certain of its Primary Service for Resale Customers that have opted for Contract Demand Service. NEPCO requests an effective date of January 1, 1976. NEPCO states that its revised tariff sheets will result in an increase in revenues from these Customers on the basis of a 1976 test year of approximately $764,300. NEPCO asserts that the filing is based on agreement with its Customers that any changes in its basic rate for Primary Service for Resale will be cause for a collateral filing of its Rate for Contract Demand Service.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 23, 1975, file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing and supporting documents are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34379 Filed 12–19–75;8:45 am]

[Docket No. ER76–291; Low Voltage PTF Cost Rules]

NEW ENGLAND POWER POOL AGREEMENT (NEPOOL)

Filing of Supplement to the New England Power Pool Agreement

DECEMBER 12, 1975.

Take notice that on November 24, 1975, the NEPOOL Executive Committee tendered for filing lower voltage transmission facilities charges and associated cost rules entitled: Recommended Rules for Calculating Costs of LV PTF Under the NEPOOL Agreement, dated January 31, 1974, which supplement the rate schedule designated FPC NEPOOL Rate Schedule No. 2.

The filed rate schedule provides for uniform cost rules and individual NEPOOL Participant charges for use of their lower voltage transmission facilities to transfer to other Pool Participants' entitlements in generating units which are pool-planned and other uses specified in the NEPOOL Agreement. The NEPOOL Executive Committee has proposed that the rate schedule become effective as of June 14, 1975 and has requested waiver of the customary notice period to permit the proposed charges to become effective on that date.

Copies of the filing were served upon each of the parties to the NEPOOL Agreement and to each of the parties to the Commission's proceeding: NEPOOL Agreement, Docket No. E–7690 (PTF Cost Rules).

Any person desiring to be heard or to protest said supplement should on or before December 23, 1975 file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or protest in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure.

Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's rules of practice and procedure. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Copies of the rate schedule and related transmittal materials are on file wiith the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73–8; PGA No. 76–3a]

NORTH PENN GAS CO.

Adjustment in PGA Filing

DECEMBER 11, 1975.

Take notice that on December 5, 1975, the North Penn Gas Company (North Penn) tendered for filing proposed changes in its FPC Gas Tariff, First Substitute Twenty-Fifth Revised Sheet CPGA No. 76–3a), to amend its Twenty-Fifth Revised Sheet (PGA No. 76–3) filed on October 16, 1975, which reflected a surcharge credit of 0.014¢ per Mcf. The filing tracks reduced supplier rate changes made effective October 1, and November 2, 1975. North Penn had previously filed to track the unmodified rate filings by these suppliers. The Commission accepted North Penn's PGA's to be effective October 1, and November 2, 1975, but subject to modification to reflect the reduction in the supplier rates tracked therein. The reduced supplier rates were made subsequent to North Penn's original filings.

North Penn now proposes to defer tracking the reduced supplier rates until December 1, 1975.

North Penn also requested that it be permitted to accumulate over collections in its deferred account in the amount of $1844 for the months of October and November, 1975, which North Penn states were created because of the multiplicity of filings by Transcontinental Gas Pipeline Company, one of North Penn's suppliers, and because approved changes in supplier rates were not received in sufficient time so that the proper rates could be timely filed.

North Penn requests that the Commission waive its regulations so as to permit this filing to become effective on December 1, 1975.

North Penn states that copies of this filing were mailed to each of its jurisdictional customers as well as several state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34414 Filed 12–19–75;8:45 am]

[Docket No. ER76–50]

NORTHERN INDIANA PUBLIC SERVICE CO.

Filing

DECEMBER 11, 1975.

Take notice that on December 8, 1975, Northern Indiana Public Service Company (Northern Indiana) tendered for filing its FPC Electric Service Tariff, Second Revised Volume No. 1, superseding First Revised Volume No. 1, containing Rate Schedules VA1 and VA11. Northern Indiana states that electric service furnished under Rate Schedule VA1 to electric energy at wholesale to municipality while Rate Schedule VA11 applies to electric energy sold at wholesale to Rural Electric Membership Corporations, for resale.

The company states that the purpose of this filing is to serve as a convenience to its wholesale customers and to update and consolidate the rates contained in its settlement agreements with its wholesale customers, the municipalities and Rural Electric Membership Corporations, which were approved by order of the Commission dated November 24, 1975.

The company states that copies of this filing have been sent to the aforementioned customers as well as several regulatory agencies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34415 Filed 12–19–75;8:45 am]

[Docket No. CP76–155]

NORTHERN NATURAL GAS CO.

Application

DECEMBER 10, 1975.

Take notice that on November 7, 1975, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76–155 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the modification of certain gas sales measuring facilities located in Crow Wing County, Minnesota, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that pursuant to budget-type authorization granted by order of the Commission of November 20, 1959 (22 FPC 869), Applicant installed a sales metering station in Crow Wing County, Minnesota (Crosby TBS #2), to sell and deliver natural gas to Inter-City Gas Limited, Incorporated (Inter-City), formerly Iron Ranges Natural Gas Company, for resale to the Manganese Chemical Plant (Manganese). Applicant states that Manganese has terminated operations; however, a plastic company is presently being served by the aforestated meter station. Applicant alleges that the load for which the Crosby TBS #2 was designed will never develop; and, therefore, Applicant requests authorization to replace the existing regulating and measuring equipment with regulator and meter facilities more suited to the present requirements.

Applicant estimates the cost of the proposed facilities would be approximately $1,660, and states that Inter-City would reimburse Applicant for the actual cost less the salvage value of the facilities recovered.

The application states that the modification of facilities will not result in change of service to Inter-City.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34404 Filed 12–19–75;8:45 am]

[Docket No. E–9148]

NORTHERN STATES POWER CO. (MINNESOTA)

Extension of Time

DECEMBER 11, 1975.

The order issued October 14, 1975, in the above-designated matter, required, among other things, that Northern States Power Company (Northern States) shall comply with ordering paragraph (B) of that order within sixty (60) days of October 14, 1975, or not later than December 13, 1975.

On December 10, 1975, Northern States filed a motion for a stay of the Commission order in Docket No. E–9148, in the Court of Appeals for the Eighth Circuit to which the Commission must respond by December 22, 1975. In order to allow time for the Commission to respond to the Northern States motion, it is appropriate to extend the time to and including December 31, 1975, within which Northern States shall comply with ordering paragraph (B) of the order issued October 14, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34416 Filed 12–19–75;8:45 am]

[Docket No. ER76–342]

PACIFIC POWER & LIGHT CO.

Filing of Modified Agreements

DECEMBER 15, 1975.

Take notice that Pacific Power & Light Company (Pacific) on December 8, 1975, tendered for filing three agreements modifying Pacific's Rate Schedule FPC No. 45, which provides for interconnections with the United States Bureau of Reclamation (Bureau).

Pacific states that:

1. Agreement (1) formalizes the practice of net billing as a convenience to both parties.

2. Agreement (2) establishes the arrangement for the provisional delivery of surplus energy scheduled by Pacific to the Bureau and the return thereof upon request by Pacific.

3. Agreement (3) provides for a new temporary point of delivery to the Bureau.

There is no change in rates contemplated by this filing, and no estimate of quantities of energy to be delivered or revenues to be derived therefrom can be made.

Pacific requests waiver of the Commission's notice requirements to permit these modifications to the rate schedule to become effective March 19, 1974 and October 1, 1975, and October 17, 1975 for Agreements (1), (2) and (3) respectively, which it claims are the dates of commencement of service.

Any person desiring to be heard or to protest sad application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10).

V40246 DEC 22 75 XUM

All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this applicaton are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-39]

SEA ROBIN PIPELINE CO.

Order Accepting for Filing, Subject to Conditions, Proposed Tariff Sheets, Suspending Use Thereof, Providing for Hearing and Establishing Procedures

DECEMBER 11, 1975.

On November 14, 1975, Sea Robin Pipeline Company (Sea Robin) tendered for filing proposed changes in its FPC Gas Tariff [1] designed to effect a jurisdictional rate increase of $43,036,531 annually. The proposed changes are based on the 12-month period ended July 31, 1975, as adjusted for known and measurable changes through April 30, 1976. Sea Robin requests that its filings be permitted to become effective as of December 15, 1975.

Public notice of Sea Robin's filing was issued on December 5, 1975 with comments, protests and petitions to intervene due on or before December 22, 1975. Responses to such notice will be reported by separate order.

As support for its proposed rate increase, Sea Robin cites increases in its system-wide cost of service during the test period mentioned above. Among other things, the proposed increase reflects: an overall rate of return of 11.12 percent, including an allowance for common equity of 15.0 percent; calculation of depreciation expense on the basis of the unit of production method at 11 cents/Mcf; an increased rate base as a result of Sea Robin's restatement of its depreciation reserve; and an anticipated decline in sales volumes.

As noted above, Sea Robin has, for purposes of the instant filing, restated its depreciation reserve to reflect the application of a four percent straight line rate since inception of the Company. Although the four percent rate was approved in Sea Robin's initial certificate proceeding in Docket No. CP69-48, Sea Robin presently books the cost of depreciation at a rate of 8.33 percent. Thus, the effect of Sea Robin's restatement of its depreciation reserve at four percent is to permit it to earn return and associated taxes on a rate base which fails to reflect the book depreciation rate claimed in prior periods. Accordingly, as hereinafter ordered, Sea Robin shall be required to file revised tariff sheets reflecting the cost of depreciation which Sea Robin has actually booked since inception of the Company.

Review of Sea Robin's filing indicates that the proposed increase is based, among other things, on interest payments by Sea Robin under existing agreements with banks which have provided capital to certain producers for the exploration and development of reserves which will be dedicated to Sea Robin. Arrangements similar to this have recently been before us in other cases.[2] As noted in those cases, interest payments of the type proposed herein by Sea Robin are not within the purview of our advance payment regulations.[3] The purpose of our advance payment programs has been to assist producers in capital formation in order to stimulate exploration, development, and production for the interstate market. (Order No. 441, 46 FPC 1178 at 1180). These programs are not intended to provide that jurisdictional rate payers pay interest through pipeline rates on capital which the producer is demonstrably able to acquire. Accordingly, Sea Robin's proposed rate treatment of the subject interest payments must be rejected as inconsistent with the requirements and intent of our outstanding advance payment rulemaking orders.

Review of Sea Robin's filing also indicates that a portion of the proposed increase is based on inclusion in rate base of facilities which are not yet certificated and/or in service. If such facilities are not certificated and in service as of the end of the suspension period ordered herein, Sea Robin shall be required to file revised tariff sheets reflecting the elimination from its proposed rates of all costs associated with such facilities.

Our overall review of Sea Robin's filing indicates that it raises several issues which may require development in an evidentiary hearing. Moreover, the proposed increase in rates and charges has not been shown to be just and reasonable and may be unjust, unreasonable or otherwise unlawful. We shall, therefore, suspend the proposed rate increase for the full statutory period and direct that a hearing be held on the justness and reasonableness of the rates proposed therein.

Evidence relevant to the issues raised by the instant filing should be submitted by all parties including the Commission Staff. Without limiting the rights of the parties, including Staff, in presenting such further evidence as they deem relevant and material, we hereby direct that the parties and our Staff present evidence which considers the following: (1) the propriety of Sea Robin's calculation of the depreciation expense on the basis of the unit of production method at 11 cents per Mcf; (2) the reasonableness of Sea Robin's proposed overall rate of return of 11.12 percent, including an allowance on common equity of 15 percent; (3) the propriety of Sea Robin's adjustment to base period operation expenses for anticipated inflation; (4) the reasonableness of Sea Robin's estimated decline in sales volumes in light of the fact that its depreciation study indicates that gas reserves will increase until 1979; and (5) the propriety of Sea Robin's classification of unit of production depreciation as a fixed cost and assignment of 25 percent of same to the demand component of its two-part rates.

The Commission finds: (1) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges proposed in this docket by Sea Robin, and that Sea Robin's proposed tariff sheets should be accepted for filing as hereinafter conditioned, suspended, and the use thereof deferred as hereinafter ordered.

(2) For reasons given in the body of this order, certain portions of Sea Robin's filing must be rejected, namely those portions which reflect (a) interest payments to banks for producer loans for exploration and development, (b) Sea Robin's restatement of its depreciation reserve to reflect application of a four percent straight line depreciation rate since inception of the Company, and (c) inclusion in rate base of facilities which are not certificated and in service as of the end of the suspension period ordered herein.

The Commission orders: (A) Pending hearing and a decision thereon, Sea Robin's proposed tariff sheets to Original Volume Nos. 1 and 2 of its FPC Gas Tariff are accepted for filing, subject to conditions as hereinafter ordered, and suspended for the full statutory period of five months until May 15, 1976, or until such time as they are made effective in the manner provided by the Natural Gas Act, subject to refund.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at an initial conference in this proceeding on February 3, 1976, at 10:00 A.M., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates for this proceeding and to rule upon all motions (except petitions to intervene), subject to review by the Commission.

(C) Prior to May 15, 1976, Sea Robin shall file substitute tariff sheets to be effective May 15, 1976, reflecting elimination from its proposed rates of (1) interest payments to banks for loans to producers for exploration and development, (2) Sea Robin's restatement of its depreciation reserve to reflect application of a four percent straight line depreciation rate since the Company's inception, and (3) costs associated with facilities which are not certificated and in service as of the end of the suspension period ordered herein.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-22]

SOUTH GEORGIA NATURAL GAS CO.

Order Granting Intervention

DECEMBER 11, 1975.

On October 10, 1975, the South Georgia Natural Gas Company (South Georgia) tendered for filing revised tariff sheets to its FPC Gas Tariff, Original Volume No. 1. Notice of South Georgia's filing was issued by the Commission on October 20, 1975, with protests and petitions to intervene due on or before October 31, 1975.

An untimely protest and petition to intervene was filed by Atlanta Gas Light Company. Having reviewed the above petition to intervene, we believe that the petitioner has sufficient interest in the proceedings to warrant intervention.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioner to intervene.

The Commission orders: (A) The above-named petitioner is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* that participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* that the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-84, et al.]

SOUTHERN NATURAL GAS CO.

Further Extension of Procedural Dates

DECEMBER 12, 1975.

On December 4, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued May 15, 1975, as most recently modified by notice issued November 26, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Staff Testimony, February 23, 1976.
Service of Intervenor Testimony, March 8, 1976.
Service of Company Rebuttal, March 22, 1976.
Hearing, April 6, 1976 (10:00 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34399 Filed 12-19-75;8:45 am]

[Docket No. E-8514]

SOUTHERN SERVICES, INC.

Further Extension of Procedural Dates

DECEMBER 12, 1975.

On December 2, 1975, Alabama Power Company, Georgia Power Company, Gulf Power Company, and Mississippi Power Company jointly filed a motion to extend the procedural dates fixed by order issued May 8, 1974, as most recently modified by notice issued October 22, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Company Rebuttal, February 6, 1976.
Hearing, February 24, 1976 (10:00 a.m. e.s.t.).

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34400 Filed 12-19-75;8:45 am]

[Docket No. 8288, et al]

SUN OIL CO., ET AL.

Filing of Petition by Columbia Gas Transmission Corporation for an Order Releasing Refunds Held in Escrow

DECEMBER 11, 1975.

In the matter of Sun Oil Company, G-8288, *et al*, Sunray DX Oil Company, G-8822, *et al*, Gulf Oil Corporation, G-10615, *et al*, United Fuel Gas Company, G-20270.

Take notice that on November 21, 1975, Columbia Gas Transmission Corporation (Columbia), legal successor to United Fuel Gas Company, filed in the above dockets a petition requesting the Commission to order the release of refunds held by the above producers, respectively, in the amount of $113,772.93 (Sun Oil), $7,640.66 (Sunray DX), and $22,198.76 (Gulf Oil). In its petition, Columbia states as follows:

The Commission's Order of December 13, 1967, in the above-docketed proceeding required the producers to retain refunds in escrow due to United Fuel's position that it was not obligated to flow-through certain supplier refunds pursuant to its settlement in Docket No. G-20270 attributable to gas purchases made under producer rate schedules which became effective subsequent to June 1, 1961.

In its Order releasing refunds held by Pan American Petroleum Corporation in Docket No. G-9279, issued July 29, 1975, the Commission has determined that refunds may be appropriately retained by Columbia pursuant to the Commission approved Stipulation and Agreement in Docket No. G-20270. The refunds held by the producers named above are refundable subject to the Stipulation and Agreement in Docket No. G-20270, as were refunds in Docket No. G-9279. Since the factual situation with regard to the producers in the above-docketed proceeding is identical and since the Commission has already approved Columbia's right to retain refunds arising from rates in effect subsequent to June 1, 1961, pursuant to the Stipulation and Agreement in Docket No. G-20270, the refunds held in escrow by Sunray DX Oil Company, Gulf Oil Corporation and Sun Oil Company should be released to Columbia without obligation to flow-through these refunds to its customers.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before January 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's petition is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[3] See Order Nos. 410, 410-A, 441, 485 and 499; Accounts 165 and 166 in Part 201 of the Commission's Regulations Under the Natural Gas Act.

V40246 DEC 22 75 XUM

sideration of certificate orders issued October 14, 1975, in Docket Nos. CI75–717 and CI75–719 for the sale of gas from Block 208 Field, Eugene Island Area, in the Federal Domain, said gas to be sold to Tennessee Gas Pipeline Co., a Division of Tenneco Inc.

On November 19, 1975, Tenneco Oil Company and Tenneco Exploration, Ltd., filed in Docket Nos. CI75–746, CI75–747 and CI75–748, petitions for stay of Order No. 539, Docket No. RM76–8, issued October 14, 1975, promulgating a Statement of Policy with Respect to Enforcement of Deliverability and Rendition of Natural Gas Service Under Certificated Arrangements, as such policy statement affects TOC–TEL in these dockets. TOC–TEL were issued temporary certificates by order issued July 24, 1975, in these three dockets. TOC–TEL are concerned that Order No. 539 imposes a warranty condition on these five sales of gas recently certificated. TOC–TEL wish to reserve their rights under Section 19 of the Natural Gas Act to contest the validity and legality of such delivery conditions and wish to avoid waiver of such rights by commencing delivery under the certificates. TOC–TEL desire to commence deliveries under the certificates immediately, but are reluctant to do so because of the uncertainties surrounding the delivery obligation.

Order No. 539 stated the Commission's policy with respect to enforcement of deliverability and rendition of natural gas service, and promulgated a new § 2.83 of the Commission's General Policy and Interpretations (18 CFR 2.83). On November 28, 1975, the Commission issued an order in Docket No. RM76–8 granting reconsideration for the purpose of further consideration of all these matters and reserved for future judgment all motions for stay of Order No. 539. This was done to properly evaluate all petitions for reconsideration and motions for stay.

Nothing in Order No. 539 creates a warranty delivery obligation where none existed before, and whether a sale was initiated before the issuance of Order No. 539 or after its issuance, as in the case with the sales involved in TOC–TEL's five dockets for which certificates were recently issued, is not controlling. Whatever policy with respect to enforcement of deliverability exists at any given time by the Commission as to natural gas producers subject to Commission jurisdiction will equally affect past, present and future sales. Thus, TOC–TEL will in no way be prejudiced by initiating sales which were recently certificated, as compared to a sale which was commenced in the more distant past and those sales which will be commenced in the future, nor is Order No. 539, as presently constituted, in any way intended to discriminate against natural gas producers which have accepted certificates and commence sales thereunder, as compared to other sales which were certificated and in which deliveries commenced in the past.

The Commission further notes that TOC–TEL will have full rights under Section 19 of the Natural Gas Act of any order or orders which subsequently issue and that commencement of service will not prejudice TOC–TEL's legal rights to espouse whatever position it desires before the Commission or Courts.

The Commission orders: (A) The petitions for rehearing of TOC–TEL filed in these dockets on November 13, 1975, are granted for the limited purpose of further reconsideration.

(B) The motions for stay of the Commission's Order No. 539 in Docket No. RM76–8, as it may affect the above five certificate dockets, are hereby referred for consideration with other matters pending on rehearing of Order No. 539.

(C) The orders issued in Docket Nos. CI75–717 and CI75–719 on October 14, 1975, and in Docket Nos. CI75–746, CI75–747 and CI75–748 on July 24, 1975, except as set forth above, remain in full force and effect.

(D) TOC–TEL's motion for clarification is granted to the extent set out above.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP75–113, RP75–13]

TENNESSEE GAS PIPELINE CO.

Further Extension of Procedural Dates

DECEMBER 11, 1975.

On December 5, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued August 15, 1974, as most recently modified by notice issued November 26, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Staff Testimony, March 2, 1976.
Service of Intervenor Testimony, March 30, 1976.
Service of Company Rebuttal, April 27, 1976.
Hearing, May 11, 1976 (10:00 a.m., e.s.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–34420 Filed 12–19–75;8:45 am]

[Docket No. RP71–11; PGA76–1]

TENNESSEE NATURAL GAS LINES, INC.

Proposed Rate Change Under Tariff Rate Adjustment Provisions

DECEMBER 11, 1975.

Take notice that on December 1, 1975, Tennessee Natural Gas Lines, Inc. ("Tennessee Natural"), tendered for filing proposed changes to First Revised Volume No. 1 of its FPC Gas Tariff to be effective on January 1, 1976, consisting of the following revised tariff sheets:

Thirteenth Revised Sheet No. PGA–1;
Eighth Revised Sheet No. PGA–2; and,
Substitute Thirteenth Revised Sheet No. PGA–1;
Substitute Eighth Revised Sheet No. PGA–2.

Tennessee Natural states that the purpose of Substitute Thirteenth Revised Sheet No. PGA–1 and Substitute Eighth Revised Sheet No. PGA–2 is to make a PGA rate adjustment pursuant to the purchased gas adjustment provisions of Rate Schedules G–1 and SWS–1 of its FPC Gas Tariff to reflect a PGA rate change of its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. ("Tennessee Gas"), proposed to become effective on January 1, 1976, which is based in part upon small producer purchases at prices in excess of those established in Opinion No. 742.

Tennessee Natural further states that, in recognition of the fact that its supplier's rates reflected in the above-described sheets might be suspended, its supplier has filed alternate tariff sheets eliminating the small producer purchases at prices in excess of Opinion No. 742 rates and requested that such alternate sheets become effective only if, and for the same period that, its concurrently filed sheets are suspended. Tennessee Natural states that, accordingly, Thirteenth Revised Sheet No. PGA–1 and Eighth Revised Sheet No. PGA–2 reflects the alternate sheets filed by its supplier and requests that the same become effective if, and for the same period, that its supplier's rates are suspended.

Tennessee Natural states that copies of the filing have been mailed to its jurisdictional customer and the effected state regulatory commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 N. Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 31, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the commission and are available for public inspection.

UNITED GAS PIPE LINE CO.

Further Extension of Procedural Dates

DECEMBER 12, 1975.

On December 8, 1975, United Gas Pipe Line Company filed a motion to extend the procedural dates fixed by order issued July 7, 1975, as most recently modified by notice issued November 4, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Staff Testimony, February 16, 1976.
Service of Intervenor Testimony, March 1, 1976.
Service of Company Rebuttal, March 15, 1976.
Hearing, March 29, 1976 (10:00 a.m., e.s.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–34402 Filed 12–19–75;8:45 am]

[Docket No. RP75–109]

UNITED GAS PIPE LINE CO.

Order Accepting for Filing and Making Effective, Subject to Condition, Revised Tariff Sheets

DECEMBER 11, 1975.

On November 14, 1975, United Gas Pipe Line Company (United) tendered for filing tariff sheets reflecting (1) revisions to its FPC Gas Tariff which were previously accepted for filing, subject to conditions, and suspended until December 15, 1975,[1] and (2) a PGA reduction which became effective on July 2, 1975.[2] United requests that the revised sheets be permitted to become effective as of December 15, 1975.

Public notice of the instant filing was issued on November 28, 1975, with comments, protests and petitions to intervene due on or before December 4, 1975. No responses have been received.

In the above-cited July 7, 1975, order in this docket, we required United to file revised tariff sheets reflecting the elimination from its proposed rates of costs associated with (1) reimbursement to producers for interest costs incurred on exploration and development borrowings, and (2) a new entity which United intends to create to make advance payments to producers. That order, as well as our order denying rehearing on these issues,[3] is now pending review before the United States Court of Appeals for the District of Columbia Circuit in *United Gas Pipe Line Company* v. *Federal Power Commission*, D.C. Cir. Case No. 75–1943. On November 12, 1975, that court granted stay of the subject orders pending completion of appellate review thereof. However, the stay was granted "* * * on the condition that [United] segregate and hold in escrow, pending further order of [the court], any and all moneys directed by the Commission to be refunded, and any and all moneys which it may collect under its presently filed tariff exceeding the rates approved by the Commission."

In view of the foregoing, we find it appropriate to accept United's filing to become effective on December 15, 1975, subject to the above quoted condition set forth in the D.C. Circuit's November 12, 1975, order in this matter. We shall so order.

The Commission finds: (1) Good cause exists to accept for filing and make effective as of December 15, 1975, United's November 14, 1975, filing in this docket, subject to the condition set forth by the D.C. Circuit and quoted hereinabove.

The Commission orders: (A) United's November 14, 1975, filing in this docket is accepted for filing and permitted to become effective as of December 15, 1975, subject to the condition set forth in the D.C. Circuit's November 12, 1975, order in D.C. Cir. Case Nos. 75–1943, *et al.*

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–34422 Filed 12–19–75;8:45 am]

[Docket No. CP76–193]

UNITED GAS PIPE LINE CO.

Application

DECEMBER 15, 1975.

Take notice that on December 8, 1975, United Gas Pipe Line Company (United) filed in Docket No. CP76–193 an application pursuant to section 7 of the Natural Gas Act, as amended, the Rules and Regulations of the Federal Power Commission (Commission) issued thereunder and § 2.79 of the Commission's General Policy and Interpretations for a certificate of public convenience and necessity authorizing United to transport up to 1,500 Mcf of natural gas per day for Lithium Corporation of America (Lithium), an existing industrial customer of Public Service Company of North Carolina, Inc. (Public Service) all as more fully set forth in the application which is on file with the Commission and open to public inspection.

United states that the gas will be purchased by Lithium from production in the Monroe Field, Morehouse, Ouachita and Union Parishes, Louisiana and delivered by United to Transcontinental Gas Pipe Line Corporation (Transco) for the account of Lithium at existing authorized points of interconnections. Transco will deliver the gas so transported to Public Service for the account of Lithium for ultimate high priority end use at its Bessemer City, North Carolina Chemical Plant. Applicant states that the proposed transportation service is consistent with the policy of the Commission promulgated by Order 533 in Docket No. RM75–25 issued August 28, 1975.

It is reasonable and consistent with the public interest that the period for filing petitions to intervene and protests be shortened. Therefore, any person desiring to be heard or to make any protest with reference to said application should, on or before December 23, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be un-

[Docket No. ER76-307]

WESTERN MASSACHUSETTS ELECTRIC CO.

Termination

DECEMBER 15, 1975.

Take notice that on November 28, 1975 Western Massachusetts Electric Company tendered for filing notice of termination of its FPC Rate Schedule No. 95 and Supplement No. 1 thereto as of April 30, 1974 in accordance with the terms of the Rate Schedule.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75-34389 Filed 12-19-75;8:45 am]

[Docket No. ER76-308]

WISCONSIN ELECTRIC POWER COMPANY AND WISCONSIN MICHIGAN POWER COMPANY

Tariff Changes

DECEMBER 12, 1975.

Take notice that Wisconsin Electric Power Company (Wisconsin Electric) and Wisconsin Michigan Power Company (Wisconsin Michigan) jointly comprising the electric system (Wisconsin Electric System) of Wisconsin Electric Power Company on November 28, 1975, tendered for filing proposed changes in its FPC Electric Service Tariffs Schedule A of "Rate for Wholesale Service to Electric Public Utilities", Schedule B of Wisconsin Electric "Electric Service Rules and Regulations" and Wisconsin Michigan "Electric Service Rules and Regulations" related to the aforesaid rate schedule applicable respectively to ten wholesale customers of Wisconsin Electric and ten wholesale customers of Wisconsin Michigan as follows:

	FPC Rate
Ten wholesale customers of Wisconsin Electric	
City of Cedarburg	15
Deerfield Water & Electric Utility	16
Elkhorn Light & Water Commission	17
City of Hartford	18
Jefferson Water & Electric Dept.	19
Kiel Utilities	24
Lake Mills Light and Water Dept.	20
City of Oconomowoc	21
Slinger Utilities	22
Waterloo Water & Light Commission	23
Ten wholesale customers of Wisconsin Michigan	
Clintonville Water & Electric Utility	24
City of Crystal Falls	36
Florence Water and Light Commission	38
New London Electric and Water Utility	41
Oconto Falls Water & Light Commission	39
City of Shawano	33
Upper Peninsula Power Company	25
Oconto Electric Cooperative	32
Alger Delta Cooperative Electric Assn. (6 pts. of Del.)	51
Ontonagon County Rural Electrification Assn. (2 pts. of Del.)	52

The companies request that the proposed rates be made effective on January 1, 1976. The proposed changes would increase revenues from jurisdictional sales and service by $3,053,000 based on projected sales for the 12-month period ending July 1976. Changes in blocking are proposed in the demand and energy rate schedules; customer and minimum charges are proposed to replace the minimum demand charge in the presently suspended rate schedule; and the fuel cost adjustment factor has been revised to conform with Commission requirements.

Wisconsin Electric System contends that the increase in rates of approximately 22.6 per cent is necessary to bring the rate of return on wholesale business into line with the required rate of return on overall electric business to yield a rate of return of 10.431 per cent. The filing also proposed to unify the rate schedules for wholesale service furnished by Wisconsin Electric and Wisconsin Michigan to all wholesale for resale customers. The broadening of the fuel cost adjustment to include nuclear fuel will serve to keep revenue in line with all fuel expense without the necessity of a rate proceeding.

Copies of the filing were served upon the public utilities' jurisdictional customers and the public service commission of Wisconsin and Michigan.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on December 12, 1975. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before January 9, 1976, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

INTERSTATE COMMERCE COMMISSION

Request for clearance of a new schedule, Schedule 10000, Competitive Bidding—Clayton Antitrust Act, to be added to the annual reports of the following common carriers: railroads, electric railways, refrigerator car lines, holding companies subject to Section 5(3), pipe lines, express companies, motor carriers of passengers (class I only), motor carriers of property (classes I and II), inland and coastal waterways carriers (classes A and B), freight forwarders (class A), and maritime carriers. Schedule 10000 will be added to the annual report forms to enable the Commission to readily identify those carriers complying with the provisions of section 10 of the Clayton Antitrust Act and Commission regulations thereunder. Pertinent information relative to competitive bidding is retained in carrier files and statements relating thereto on file with the Commission. Therefore, any additional reporting burden for the 4,643 carriers subject to the requirement will be insignificant. Although the schedule will appear in the annual report forms of the carriers listed, only those carriers engaging in reportable competitive bidding practices within the reporting year will be required to list the data. This may involve no more than 100 carriers with an estimated burden of one hour per report. Reports are mandatory and are available for use by the public.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 75-102]

PRIVACY ACT

Proposed Notice of System of Records

Pursuant to the requirements of the Privacy Act of 1974 (5 U.S.C. 552a, Pub. L. 93-579) the National Aeronautics and Space Administration hereby gives notice of the maintenance of the following system of records.

This system of records was in existence on September 27, 1975, but due to administrative oversight the notice was not previously published. Accordingly, public comment on the system is invited.

Written comments should be addressed to the NASA Privacy Officer, Mail Code AE, National Aeronautics and Space Administration, Washington, D.C. 20546. All comments received by January 23, 1976, will be considered by NASA before taking final action on the system notice. Any comments received will be available for public inspection at the National Aeronautics and Space Administration, Room 7137, 400 Maryland Avenue SW., Washington, D.C. 20546, between the hours of 9 a.m. and 4 p.m. Monday through Friday (except holidays), until 4 p.m. January 23, 1976.

It is proposed that this system notice shall be finally effective on January 30, 1976.

DUWARD L. CROW,
Associate Deputy Administrator.

PRIVACY ACT

NASA 10 HERD

System name: Human Experimental and Research Data Records—NASA.

System Location: Locations 2, 3, and 5 of Appendix A. (See FEDERAL REGISTER of September 22, 1975, 40 FR 184, 43687.)

Categories of individuals covered by the system: Individuals who have been involved in space flight, aeronautical research flight, and/or participated in NASA tests or experimental or research program; Civil Service employees, military, employees of other Government agencies, contractor employees, students, human subjects (volunteer or paid), and other volunteers on whom information is collected as part of an experiment or study.

Categories of records in the system: Data obtained in the course of an experiment, test, or research medical data from inflight records; other information collected in connection with an experiment, test, or research.

Authority for maintenance of the system: 42 USC 2473, 44 USC 3101.

Routine uses of records maintained by the system, including categories of users and the purposes of such uses: The information contained in this system of records is used by NASA for the purposes of evaluating new analytical techniques, equipment, and re-examining flight data for alternative interpretations, developing applications of experimental techniques or equipment, reviewing and improving operational procedures with respect to experimental protocols (both inflight and ground), life support systems operating procedures, determining human engineering requirements, and carrying out other research.

In addition to the internal use of the information contained in this system of records, the following are routine uses outside of NASA: (1) Disclosures to other individuals or organizations, including Federal, State, or local agencies, and nonprofit, educational, or private entities, who are participating in NASA programs or are otherwise furthering the understanding or application of biological, physiological, and behavioral phenomena as reflected in the data contained in this system of records; and (2) the standard routine uses 1 through 4 inclusive as set forth in Appendix B. (See FEDERAL REGISTER of September 22, 1975, 40 FR 184, 43688.)

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Storage: Records are in file folders; on punch cards, magnetic tapes, or disks; on microfilm, microfiche, still photographs, or motion picture film; and on various medical recordings such as electrocardiographic tapes, stripcharts, and x-rays.

Retrievability: By name, experiment or test; arbitrary experimental subject number; flight designation; or crew member designation on a particular space or aeronautical flight.

Safeguards: Access is limited to Government personnel requiring access in the discharge of their duties, and to appropriate support contractor employees on a need-to-know basis. Computerized records are identified by code number and records are maintained in locked rooms or files. Records are protected in accordance with the requirements and procedures which appear in the NASA rules section of the FEDERAL REGISTER. (40 FR 184, 43668)

Retention and Disposal: Astronaut records are retained indefinitely. Ground test and research data are retained for varying periods of time depending on the need for use of the files, and are destroyed or otherwise disposed of when no longer needed, except that significant medical data will be handled in accordance with CSC regulations and NASA Control Schedule 11.

System manager and address: Director, Office of Occupational Medicine, Location 1.

Subsystem managers: Research Assistant to the Director, Location 2; Director of Man/Systems Integration Division, Location 3; Deputy Director, Life Sciences Directorate, Location 5.

Notification procedure: Information may be obtained from the system or subsystem manager named above.

Record access procedures: Requests from individuals should be addressed to the same address as stated in the notification section above.

Contesting record procedures: The NASA rules for access to records and for contents and appealing initial determinations by the individual concerned appear in the NASA rules section of the FEDERAL REGISTER (40 FR 184, 43668).

Record source categories: Experimental test subjects, physicians, principal investigators and other researchers, and previous experimental test or research records.

[FR Doc.75-34168 Filed 12-19-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEES ON SAFEGUARDS FOR SPECIAL NUCLEAR MATERIAL AND SECURITY OF NUCLEAR FACILITIES

Meeting

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittees on Safeguards for Special Nuclear Material and Security of Nuclear Facilities will hold a joint meeting on January 6, 1976 in Room 1062, 1717 H St., N.W., Washington, D.C. 20555. This meeting will be closed to the public.

The Subcommittees will meet in closed session with various licensees and the NRC Staff to discuss the following topics as they relate to the processing of plutonium and enriched uranium:

1. Control of personnel access to plant working areas and to special nuclear materials.
2. Detection of the diversion or theft of special nuclear materials.
3. Methods of knowing the amounts of special nuclear material in various locations and in various steps in the nuclear fuel cycle.
4. Methods of screening and choosing personnel for positions of trust.
5. Methods to prevent sabotage or to mitigate the consequences of sabotage and plans to cope with various contingencies.

Persons wishing to submit written statements regarding the above agenda topics may do so by sending a readily reproducible copy in time for consideration at this meeting. Comments should be addressed to Mr. J. C. McKinley, ACRS, NRC, Washington, D.C. 20555.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that it is necessary to conduct this meeting in closed session to protect plant security information (5 U.S.C. 552(b)(4)) and to protect the free interchange of internal views in the final stages of the Subcommittees' deliberative process (5 U.S.C. 552(b)(5)). Separation of factual material from individuals' advice, opinions

V 40 246 DEC 22 75 XUM

and recommendations while this meeting is in progress is considered impractical.

Dated: December 17, 1975.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[Docket No. 50-324]

CAROLINA POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 8 to Facility Operating License No. DPR-62 issued to Carolina Power & Light Company for operation of the Brunswick Steam Electric Plant, Unit 2, located in Brunswick County, North Carolina. The amendment is effective as of its date of issuance.

The amendment raises the torus water level setpoint at which the high pressure coolant injection pump suction values switch suction from the condensate storage tank to the torus from −2'3" to −2'0".

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not invlove a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated October 22, 1975, (2) Amendment No. 8 to License No. DPR-62, with Change No. 7, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Southport-Brunswick County Library, 109 W. Moore Street, Southport, North Corolina 28461.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 15th day of December 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

[FR Doc.75-34318 Filed 12-19-75;8:45 am]

[Docket No. 27-47]

CHEM-NUCLEAR SYSTEMS, INC.

Proposed Amendment of Byproduct, Source, and Special Nuclear Material License

Please take notice that Chem-Nuclear Systems, Inc., with principal office at Bellevue, Washington, holder of License No. 46-13536-01 which authorizes the receipt and possession of packaged waste byproduct, source, and special nuclear material in any state of the United States except in Agreement States has applied for a license amendment which would authorize the possession and subsequent burial of up to 1,000 grams of uranium 235 at its burial ground located near Barnwell, South Carolina.

Chem-Nuclear Systems, Inc., has been licensed by the State of South Carolina to dispose of waste byproduct, source, and special nuclear material by burial in the ground. The maximum amount of uranium 235 which an Agreement State may license for possession and subsequent burial is 350 grams. Since the quantity would exceed that which may be licensed in South Carolina, an Agreement State, Chem-Nuclear Systems, Inc., has applied for an amendment to Nuclear Regulatory Commission License No. 46-13536-01.

Under the amendment proposed by the applicant, the maximum quantity which would be contained in any single package would be 50 grams and minimum volume of a package would be 7.35 cubic feet. The packaged waste uranium 235 will be buried in trenches approximately 400 feet long, 15 feet deep, and 50 feet wide.

The geological and hydrological characteristics of the site have been reviewed by the State of South Carolina with the assistance of the U.S. Geological Survey. The site was found to be satisfactory for the burial of radioactive wastes.

The Commission has determined that Chem-Nuclear Systems, Inc., has adequate facilities, equipment, and procedures for receipt, possession, storage, and burial of radioactive wastes at its facility in South Carolina.

The Nuclear Regulatory Commission has the Chem-Nuclear Systems, Inc., application for license amendment and has found that the issuance of the proposed amendment will not be inimical to the common defense and security or the health and safety of the public and that the application complies with the requirements of the Atomic Energy Act of 1954, as amended, and Commission regulations.

The Nuclear Regulatory Commission proposes to issue the requested amendment unless within fifteen (15) days after publication of this notice in the FEDERAL REGISTER, the applicant files a request for a hearing or a petition for leave to intervene is filed with the Commission by any person whose interest may be affected by the proceeding in the manner prescribed in the Commission's "Rules of Practice," 10 CFR Part 2 or unless the Commission, upon further consideration on its own motion, directs such a hearing be held.

Dated at Bethesda, Maryland, December 12, 1975.

For the Nuclear Regulatory Commission.

BERNARD SINGER,
Chief, Radioisotopes Licensing Branch, Division of Fuel Cycle and Material Safety.

[FR Doc.75-34319 Filed 12-19-75;8:45 am]

[Docket No. 50-358]

CINCINNATI GAS AND ELECTRIC CO., ET AL. (WILLIAM H. ZIMMER NUCLEAR POWER STATION, UNIT 1)

Assignment of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR § 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for this operating license proceeding:

Richard S. Salzman, Chairman, Dr. Lawrence R. Quarles, Michael C. Farrar

Dated: December 15, 1975.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[Docket No. 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 18 to Facility Operating License No. DPR-30, issued to the Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company), which revised Technical Specifications for operation of the Quad Cities Station Unit 2 (the facility) located in Rock Island County, Illinois. The amendment was effective as of November 14, 1975.

This amendment extended the allowable period of reactor operation with the Reactor Core Isolation Cooling System inoperable for 72 hours beyond 12:00 noon on November 14, 1975 provided that the operability of the High Pressure Coolant Injection System is demonstrated every 12 hours during the additional outage period.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated November 13, 1975, (2) Amendment No. 18 to License No. DPR-30, with Change No. 32, and (3) the Commission's concurrently issued related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Moline Public Library, 504 17th Street, Moline, Illinois 60625. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 8th day of December, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief Operating Reactors Branch No. 2, Division of Reactor Licensing.

[Docket No. 50-286]

CONSOLIDATED EDISON CO. OF NEW YORK, INC. INDIAN POINT NUCLEAR GENERATING UNIT NO. 3

Issuance of Facility Operating License

Notice is hereby given that pursuant to the Order of the Atomic Safety and Licensing Board, dated April 8, 1975, and the Commission's Memorandum and Order dated December 2, 1975, the Nuclear Regulatory Commission (the Commission) has issued Facility Operating License No. DPR-64 to Consolidated Edison Company of New York, Inc. permitting fuel loading and subcritical testing of the Indian Point Nuclear Generating Unit No. 3 (facility). The Indian Point Nuclear Generating Unit No. 3 is a pressurized water nuclear reactor located at the licensee's site in Westchester County, New York, on the east bank of the Hudson River in the Village of Buchanan. The facility is designed for operation at approximately 3025 megawatts thermal, but in accordance with the provisions of Facility Operating License No. DPR-64 and the Technical Specifications appended thereto, activities under the license are restricted to fuel loading and subcritical testing and it is provided that at no time shall the reactor be made critical following fuel loading.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license. The application for the license complies with the standards and requirements of the Act and the Commission's rules and regulations.

The license is effective as of its date of issuance and shall expire six (6) months from said date, unless extended for good cause shown, or upon eralier issuance of a subsequent licensing action.

A copy of (1) the Order, dated April 8, 1975; (2) Facility Operating License No. DPR-64, complete with Technical Specifications (Appendices "A" and "B"); (3) the report of the Advisory Committee on Reactor Safeguards, dated November 14, 1973; (4) the Division of Reactor Licensing's (formerly the Directorate of Licensing) Safety Evaluation Report, dated September 21, 1973, and Supplements No. 1 and 2 to the Safety Evaluation Report, dated January 16, 1975 and December 12, 1975 respectively; (5) the Final Facility Description and Safety Analysis Report and amendments thereto; (6) the applicant's Enivronmental Report dated June 14, 1971 and supplements thereto; (7) the Draft Environmental Statement dated October 1973; and (8) the Final Environmental Statement dated February 1975, are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., and at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York. A copy of the license and the Safety Evaluation Report may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 12th day of December, 1975.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Chief, Light Water Reactors Project Branch 1-1, Division of Reactor Licensing.

[Docket Nos. 50-424, 50-425]

GEORGIA POWER CO. (ALVIN W. VOGTLE NUCLEAR PLANT, UNITS 1 AND 2)

Prehearing Conference

DECEMBER 15, 1975.

Please take notice that pursuant to § 2.752 of the Commission's Rules of Practice (10 CFR Part 2) and the Atomic Energy Act of 1954, as amended, the Atomic Safety and Licensing Board (the Board) will conduct a special prehearing conference for this limited, remanded proceeding, concerning proposed amendments to the Applicant's construction permits, on January 6, 1976, starting at 9:00 A.M., e.s.t., at the following location:

U.S. District Courthouse, 2nd Floor Courtroom, 8th and Telfair Sts., Augusta, Georgia 30902

This prehearing conference is preliminary to a public evidentiary hearing[1] that is now scheduled to be held on January 27, 1976. The matters to be considered at the prehearing conference are as follows:

(1) Simplification, clarification, and specification of the issues;

(2) The necessity or desirability of amending the pleadings;

(3) The obtaining of stipulations and admissions of fact and of the contents and authenticity of documents to avoid unnecessary proof;

(4) Identification of witnesses and the limitation of the number of expert witnesses, and other steps to expedite the presentation of evidence;

(5) The setting of a hearing schedule; and

(6) Such other matters as may aid in the orderly disposition of the proceeding.

Interested members of the public are invited to attend this prehearing conference.

It is so ordered.

Issued at Bethesda, Maryland, this 15th day of December, 1975.

For the Atomic Safety and Licensing Board.

THOMAS W. REILLY,
Chairman.

[Docket No. 50-219]

JERSEY CENTRAL POWER AND LIGHT CO.

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR-16 issued to Jersey Central Power & Light Company which revised Technical Specifications for operation of the Oyster Creek Nuclear Generating Station, located in Ocean County, New Jersey. The amendment is effective as of its date of issuance.

The amendment modifies the provisions in the Technical Specifications relating to temperature limits for the pressure suppression pool water.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Provisional Operating License in connection with this action was published in the FEDERAL REG-

[1] See this Board's "Notice of Supplemental Hearing on Proposed Amendment to Construction Permits" dated September 3, 1975, which was published in the FEDERAL REGISTER on September 8, 1975 (40 F.R. 41569).

V40246 DEC 22 75 XUM

ISTER on October 15, 1975 (40 FR 48407). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the letter from K. Goller to I. R. Finfrock, Jr. dated July 16, 1975 and the letter from I. R. Finfrock, Jr. dated August 8, 1975, (2) Amendment No. 11 to License No. DPR–16, with Change No. 27 and (3) the Commission's related Safety Evaluation dated October 6, 1975. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 11th day of December, 1975.

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 18 to Facility Operating License No. DPR–46, issued to the Nebraska Public Power District (the licensee), which revised the license and Technical Specifications for operation of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date if issuance.

This amendment revises those portions of the license and the appended Technical Specifications for the facility relating to the receipt, possession and use of byproduct, source and special nuclear materials to delete reference to these materials by quantitative limits to reduce the number of licensing actions required as a result of changes in possession limits of these materials.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated June 20, 1975, and supplement thereto dated September 22, 1975, (2) the applications filed beginning April 8, 1971, for a Byproduct Material License and amendments thereto (which are concurrently being placed in the 50–298 docket records maintained at the locations indicated below), (3) Amendment No. 18 to License No. DPR–46, with Change No. 21, (4) the Commission's concurrently issued Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Auburn Public Library, 1888—15th Street, Auburn, Nebraska 68305. A copy of items (3) and (4) may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 11th day of December, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Reactor Licensing.

[Docket No. 50-423]

NORTHEAST NUCLEAR ENERGY CO., ET AL.[1]

Issuance of Amendment to Construction Permit

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 3 to Construction Permit No. CPPR–113 issued to the Northeast Nuclear Energy Company, et al. The amendment reflects a change in ownership of Millstone Nuclear Power Station, Unit No. 3 (the facility), located in New London County, Connecticut. The amendment is effective as of its date of issuance.

The amendment permits the Green Mountain Power Corporation to transfer its 1.450% ownership interest to the New England Power Company.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the amendment.

For further details with respect to this action, see (1) the application for amendment contained in the letter dated October 17, 1975, (2) Amendment No. 3 to Construction Permit No. CPPR–113, and (3) the Commission's related Safety Evaluation contained in the Commission's letter to Northeast Nuclear Energy Company. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut.

A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington D.C. 20555, Attention: Director of the Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 10th day of December, 1975.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Chief, Light Water Reactors Project Branch 1–1, Division of Reactor Licensing.

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO. (PEBBLE SPRINGS NUCLEAR PLANT, UNITS 1 AND 2)

Schedule for Evidentiary Hearing

The evidentiary hearing for the above proceeding will resume at 10:00 a.m., local time, on Tuesday, January 13, 1976, at the following location:

U.S. Court of Appeals Courtroom, Second Floor, The Pioneer Courthouse, 555 S.W. Yamhill, Portland, Oregon 97204

It is so ordered.

Dated at Bethesda, Maryland this 15th day of December 1975.

For the Atomic Safety and Licensing Board.

JAMES R. YORE,
Chairman.

[FR Doc.75-34327 Filed 12-19-75;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.88, Revision 1, "Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records," describes a method acceptable to the NRC staff for complying with the Commission's regulations with regard to collection, storage, and maintenance of quality assurance records for all types of nuclear power plants. This guide endorses ANSI Standard N45.2.9–1974, "Requirements for Collection, Storage, and Maintenance of Quality Assurance Records for Nuclear Power Plants."

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.88, Revision 1, will, however, be particularly useful in evaluating the need for an early revision if received by February 20, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

Dated at Rockville, Maryland this 15th day of December 1975.

(5 U.S.C. 552(a))

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director,
Office of Standards Development.

[FR Doc.75-34328 Filed 12-19-75;8:45 am]

REGULATORY GUIDE

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.13, Revision 1, "Spent Fuel Storage Facility Design Basis," describes a method acceptable to the NRC staff for satisfying regulations with regard to the design of fuel storage and handling systems to ensure adequate safety under normal and postulated accident conditions. The original guide was revised in order to add an alternative solution that was proposed by a number of applicants. Following review by the NRC staff, the alternative solution was found to be acceptable.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.13, Revision 1, will, however, be particularly useful in evaluating the need for an early revision if received by February 16, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

Dated at Rockville, Maryland this 11th day of December 1975.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on December 18, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

UNITED STATES RAILWAY ASSOCIATION

[Docket No. 211–6]

CONSOLIDATED RAIL CORP.

Notice of Application for a Loan

Section 211 of the Regional Rail Reorganization Act of 1973, as amended (45 U.S.C. 721) (the Act), authorizes the United States Railway Association (Association) to make loans to the Consolidated Rail Corporation (ConRail) for purposes of achieving the goals of the Act. Section 211(b) requires that the Association publish notice of the receipt of any application thereunder in the FEDERAL REGISTER and afford interested parties an opportunity to comment thereon.

Regulations implementing Section 211 were published by the Association in the FEDERAL REGISTER on July 24, 1974 and on May 28, 1975. (49 CFR Part 921) Notice is hereby given that, on December 19, 1975, ConRail filed an application pursuant to those regulations for a loan of $79,200,000 to enable ConRail to enter into contractual arrangements for preconveyance delivery of equipment, materials and repair parts and to place orders for post-conveyance delivery of necessary items with a long order lead time. The application estimates that $45,800,000 will be expended prior to conveyance with the remaining $33,400,000 being allocated for estimated cancellation charges that would be incurred if for any reason conveyance were not to occur. The application states that the loan will be repaid from the initial proceeds of long-term financing recommended in the Final System Plan or from working capital. The Association has previously approved loans to ConRail aggregating $11,000,000 for funding administrative and operating expenses to be incurred prior to the conveyance of assets under Section 303 of the Act.

Interested parties are invited to submit written comments relevant to this application. Any such submissions must identify, by its Docket No., the application to which it relates, and must be filed with the Docket Clerk, United States Railway Association, Room 2222, Transpoint Building, 2100 Second Street SW., Washington, D.C. 20595, within 15 days after publication of this notice, to enable timely consideration by USRA. The docket containing the original application and all submissions received shall be available for public inspection at that address, Monday through Friday (holidays excepted) between 8:30 a.m. and 5:00 p.m.

Dated at Washington, D.C., this 19th day of December, 1975.

JAMES A. HAGEN,
President, U.S. Railway Association.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–11913; File No. SR–CBOE–75–6]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Act of June 4, 1975, Pub. L. No. 94–29, section 16, 84 Stat. 147, notice is hereby given that on November 12, 1975 the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The above-mentioned filing with the Securities and Exchange Commission on November 12, 1975 constitutes (1) a proposed amendment to Rule 7.5 of the Chicago Board Options Exchange, Inc. ("the Exchange") to broaden the obligation of supplemental market makers, and (2) proposed amendments to Rule 12.3 of the Exchange to strengthen the Exchange's initial and maintenance margin requirements. The text of the proposed amendments follows.

Rule 7.5. At the request of a Floor Broker who holds an order for a particular option contract, or before any crossing transaction is effected in accordance with Rule 6.74, or whenever in the Board Broker's opinion the interests of a fair, orderly and competitive market are best served by such action, a Board Broker shall call upon those Market-Makers with Principal Appointments and, whenever it is requested or in his opinion it is needed, Supplemental Appointments (appointed to act as such) in that class of option contracts to make bids and/or offers that contribute to meeting the standards set forth in Rule 8.7. To the extent practicable, and in a form prescribed by the Exchange, the Board Broker shall keep a record of the responses of Market-Makers that provide or improve upon a market commensurate with these standards. If satisfactory responses are not forthcoming promptly, the Board Broker shall make a record of this fact. Copies of all records kept in accordance with this Rule shall be forwarded to the Department of Compliance.

PROPOSED AMENDMENT TO RULE 12.3

* * * * * * *

(b) * * *
(1) * * *

(C) When a call option contract dealt in on an exchange is carried in a short position, and there is carried for the same customer a long position in a security (including options to the extent set forth in subparagraph (E) hereof) exchangeable or convertible (in accordance with paragraph (A) above) into the underlying security in the number of units subject to the option contract, and minimum margin required on such positions shall be the amount by which any amount of money payable upon such exchange or conversion exceeds the exercise price of the short option contract; provided that (i) in the event money is payable upon the exchange or conversion of the long security such security shall not be deemed to have market value for margin purposes; (ii) in the event no money is payable upon the exchange or conversion of the long security, such security shall be valued for margin purposes at not more than the exercise price of the option contract carried in the short position; (iii) the exception set forth in this paragraph (C) shall not be applicable if the right to exchange or convert the security carried in the long position expires by its terms prior to the expiration date of the option contract carried in the short position; and (iv) if the expiration of the right to exchange or convert the security held in the wrong position is accelerated (whether by reason of redemption or acceleration of such long security, or otherwise), then the exception provided by this paragraph (C) shall not be applicable from and after such date as may be fixed in respect thereof by the President of the Exchange (but in no event after the later of the fifth business day prior to the date on which such right to exchange or convert expires or the business day immediately following the day on which the Member Organization receives notice of such expiration.)

* * *

(E) For the purposes of paragraphs (A) and (C) above, call option contracts dealt in on an exchange shall be deemed to be a security exchangeable for the underlying security within ninety days. Call option contracts which are not dealt in on an exchange shall not be deemed an exchangeable security for such purposes without the express approval of the Exchange.

PROPOSED AMENDMENT TO RULE 12.3

* * * * * * *

(d) For the purpose of effecting new securities transactions and commitments in an account, the margin required in the account shall be an amount equivalent to the requirements of parts (a), (b), and (c) hereof, with a minimum equity in the account of at least $2,000 except that cash need not be deposited in excess of the cost of any security purchased. The foregoing minimum equity and cost of purchase provisions shall not apply to "when distributed" securities in cash accounts and the exercise of rights to subscribe. Withdrawals of cash or securities may be made from any account which has a debit balance, short position, or commitments, provided that after such withdrawal the equity in the account is at least the greater of $2,000 or the amount required by parts (a), (b), and (c) hereof.

STATEMENT OF BASIS AND PURPOSES

The basis and purpose of the foregoing proposed rule changes are as follows:

The purpose of the proposed changes to CBOE Rule 7.5 is to broaden the obligation of Supplemental Market-Makers. The purpose of the proposed amendments to CBOE Rule 12.3(b)(1)(C) and new CBOE Rule 12.3(d) is to strengthen CBOE's initial and maintenance margin requirements.

Consistent with its obligations to protect investors and the public interest and to remove impediments to and perfect the mechanism of a free and open market and national market system, the CBOE has undertaken a review of the obligations of its Market-Makers as contained in its Rules. In that connection it seeks, by the proposed change to CBOE Rule 7.5, to broaden the obligations of Supplemental Market-Makers so as to subject them to a request from a Floor Broker, in addition to a request from a Board Broker, for bids and/or offers in that class of options to which the Supplemental Market-Maker is appointed. It is believed that this revision will contribute to the further maintenance of a fair and orderly market on the floor of the CBOE, for greater numbers of Market-Makers may be assembled whenever Floor Brokers, and not just Board Brokers, determine the need therefor.

Consistent with its obligations to protect investors and the public interest, to remove impediments to and perfect the mechanism of a free and open market and national market system, and to promote just and equitable principles of trade, the CBOE has undertaken to strengthen its initial and maintenance margin requirements and to bring about substantial uniformity among the major exchanges in such exchanges' general margin treatment of option positions and in certain option spread positions.

In that connection, the CBOE proposed that new clauses (i) and (ii) of the proviso to paragraph (C) of Rule 12.3(b)(1) be inserted. Clause (i) provides that where money is required to be paid upon exchange or conversion of the long security, the long security shall not have market value for margin purposes. Clause (ii) provides that where no money is required to be paid upon exchange or conversion of the long security, the long security shall be valued no higher than the exercise value of the short option.

In order to provide further margin safety, the CBOE proposes that new clauses (iii) and (iv) of the proviso to paragraph (C) of Rule 12.3(b)(1) also be added. These proposed changes will, respectively, provide that (1) a long position in an exchangeable or convertible security be disallowed in determining the margin requirement on the short option position if the right to exchange or convert the long security expires prior to the expiration of the short option position; and (2) if the expiration of the right to exchange or convert a security in a long position is accelerated then such long position should be disallowed in determining margin requirements on the short option position for a certain period of time prior to the expiration of the right to exchange or convert. In addition, as a result of the requirement of clause (iii) to the proviso of paragraph (C), it is felt that the proviso presently contained in paragraph (E) may be deleted.

In order to strengthen financial responsibility and to achieve greater uniformity with New York Stock Exchange margin requirements, the CBOE proposes New Rule 12.3(d). The $2,000 initial margin and minimum equity requirement of proposed new part (d) would be applicable to all accounts. Therefore, each account which proposes to engage in margin transactions must contain at least $2000 at the initiation of trading and must maintain such $2000 minimum amount as long as the account contains a debit balance.

Comments were not solicited with respect to the proposed rule change.

CBOE believes that no burden on competition will be imposed by the proposed amendments to CBOE Rule 7.5 and to CBOE Rule 12.3(b)(1)(C), and the proposed addition of CBOE Rule 12.3(d).

On or before January 28, 1976, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 21, 1976.

For the Commission by the Division of Market Regulation, pursuant to the delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 10, 1975.

[FR Doc.75–34374 Filed 12–19–75;8:45 am]

[Release No. 34–11910; File No. SR–NYSE–75–18]

NEW YORK STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Act of June 4, 1975, Pub. L. No. 94–29, section 16, 84 Stat. 147, notice is hereby given that on November 21, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The above-mentioned filing with the Securities and Exchange Commission on November 21, 1975, constitutes a proposed deletion of Rule 421.50 from the rules of the New York Stock Exchange, Inc. ("the Exchange"). The text of Rule 421.50 is as follows:

Each member organization carrying accounts or doing a principal business in securities is required to submit monthly, using Form MF–6, data as to listed or unlisted securities, and age of its open fail to receive and fail to deliver "contracts" as indicated on the form. These reports will show the responding organization's open fail positions

V40246 DEC 22 75 XUM

as of its normal month-end closing date. The reports are to be submitted by the 10th of each month following the month of the report.

It will be necessary for member organizations and individual direct clearing members to file with the Exchange complete reports covering all open fail contracts, whether or not in listed securities. The Exchange understands that any member organization filing with the Exchange will be excused from also reporting open fail contracts with either the NASD or the American Stock Exchange.

Reports should be sent to the Chief Examiner, New York Stock Exchange, Inc., Department of Member Firms, 4 New York Plaza, New York, New York 10004. If a member organization has no open fail contracts as of any given month-end period, a report should be filed noted to that effect. Fail "contracts" originate when the selling broker or dealer in a transaction fails to deliver the securities on the normal settlement date of the trade to the buying broker or dealer. On the books of the selling broker or dealer a Fail to Deliver is thus created and, conversely on the books of the buying broker or dealer a Fail to Receive is created.

Acting under Article III, Section I, of the Constitution, the Board of Governors may impose charges on member organizations and individual direct clearing members based on the "contract" values of their Fail to Deliver items outstanding beyond certain periods of time, as specified from time to time by the Board. Inquiries should be directed to the Department of Member Firms, telephone 623-6922.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

PURPOSE OF PROPOSED RULE CHANGE

A particular function of the Exchange is to oversee securities transactions of its member organizations involving fail to deliver and fail to receive contracts. Presently, it is the practice of the Exchange to perform this function by reviewing certain data set forth in a multi-purpose reporting form known as the Joint Regulatory Report. Previously, however, the Exchanage performed the surveillance function in question by examining similar data which is received from member organizations on Form MF-6 pursuant to existing Exchange Rule 421.50.

Despite the fact that (1) the Joint Regulatory Report, as a practical matter, replaced Form MF-6 and (2) the information reported on Form MF-6 does not relate to any other self-regulatory function, the reporting requirement embodied in Rule 421.50 has never been rescinded. Consequently, a duplicative reporting system, which, unequivocally, is both unnecessary and burdensome, currently exists with respect to fail contracts. Thus, the sole purpose of the instant proposed rule change is to eliminate this duplicative practice by abrogating the reporting rule (i.e., Rule 421.-50) which is no longer consistent with self-regulatory surveillance practices.

An additional noteworthy consideration in this context is that Form MF-6 sets forth more detailed information regarding fail contracts than that which is routinely reported in the Joint Regulatory Report. However, the mechanisms of the Report can generate a more detailed schedule of fails on an exception basis.

BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

The intrinsic purpose of the proposed deletion of Rule 412.50 is to eliminate a duplicative reporting practice in connection with the surveillance of securities transactions involving fail contracts. Accordingly, the Exchange believes that the instant proposed rule change will foster cooperation and coordination with persons engaged in regulating such transactions.

COMMENTS RECEIVED FROM OTHERS ON PROPOSED RULE CHANGE

In a letter to the Staff of the Securities and Exchange Commission dated July 21, 1975, the Exchange solicited the comments of the Commission concerning the basic elements relating to the proposed rule change in question. A written response thereto, dated September 5, 1975, was subsequently received from the Commission's Division of Market Regulation. The Commission Staff concurred with the proposed elimination of Form MF-6 on the condition that a detailed schedule of fails can be collected by the Exchange in a timely manner when it appears necessary from the standpoint of surveillance.

BURDEN ON COMPETITION

The Exchange submits that the proposed elimination of Rule 421.50 does not impose any burden on competition.

The foregoing rule change has become effective, pursuant to section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before January 21, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

DECEMBER 9, 1975.

SMALL BUSINESS ADMINISTRATION

[SBLC No. 0001]

FIRST FACTORS

Determination of Eligibility To Continue Participation With SBA Under Revised Business Loan Policy Regulations

Notice is given that First Factors, a copartnership comprising Herman Goldwyn and Ralph N. Goldwyn, located at 1060 Crenshaw Boulevard, Los Angeles, California 90019, has been determined eligible to continue its participation with the Small Business Administration in loans to small businesses under SBA's revised business loan policy regulations adopted February 21, 1975. First Factors was approved as eligible for SBA-loan participation on August 22, 1973, under the regulations then applicable to non-bank lenders; has actively participated in that capacity; and has SBA loans in its portfolio dating back to June 1974.

The operations of First Factors have been reviewed under the new regulatory provisions contained in 13 CFR sec. 120.4 (40 FR 7622). The supervision and examination requirements of subparagraph 120.4(a)(4) have been met by the applicant's agreement to accept and be subject to SBA regulation and supervision and to accept and bear the expense of SBA's annual examination of its books of account and related records. This arrangement is provided for in subparagraph 120.4(b)(3) of the revised regulations. Subparagraph 120.4(b)(1) provides that a participating lender under subsection 120.4(b) shall be a corporation and shall engage solely in making of loans in participation with SBA. In view of the preexisting relationship between First Factors and SBA, and the conformance pledged by the copartnership to all other relevant regulatory requirements, SBA will refrain from enforcing the provisions of subparagraph 120.4(b)(1) of the regulations against First Factors.

This notice of the determination of eligibility of First Factors to continue its participation with SBA as a Subsection (b) Lender (Small Business Lending Company) is issued under authority vested by the Small Business Act and the regulations promulgated thereunder.

Dated: December 15, 1975.

LOUIS F. LAUN, *Acting Administrator.*

VETERANS ADMINISTRATION

PRIVACY ACT OF 1974

Systems of Records

On page 48670 of the FEDERAL REGISTER of October 16, 1975, there was published a notice of proposed addition by the Veterans Administration of the following statement to each of the systems of records described and adopted in the notice published in the FEDERAL REGISTER October 10, 1975 (40 FR 47930): "Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual." The proposed amendment was recommended by the Office of Management and Budget in a memorandum of October 3, 1975 directed to the heads of Executive Departments and Establishments. The recognition of this routine use would obviate the need for the written consent of a constituent in every case where the constituent requests assistance of the Member which would entail a disclosure of information pertaining to the constituent.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed statement.

One written comment on the proposed statement was received from a Congressman. This comment was directed to the interpretation to be placed on its language. The Congressman commented as follows: "As I understand this amendment, no written request need ever be filed by a Congressional office, and constituent requests by telephone may be accepted as adequate from Members of Congress. Also, many of my constituents contact my office in behalf of their friends and relatives, who are unavailable or unable to contact me directly. As I understand the VA's proposed amendment, requests from these individuals which are not in writing, will also be answered uncategorically."

We do not agree that written requests would never need to be filed by a Congressional office. Supplemental guidelines on implementing the Privacy Act of 1974 were sent to the heads of agencies on November 21, 1975 by the Director of the Office of Management and Budget. They supplement OMB guidelines published in the FEDERAL REGISTER July 9, 1975 (40 FR 28949-28978), and add the following instruction: "In those cases where the congressional inquiry indicates that the request is being made on behalf of a person other than the individual whose record is to be disclosed, the agency should advise the congressional office that the written consent of the subject of the record is required." However, pursuant to 5 U.S.C. 552a(b)(9), we have been advised by and agree with both Veterans' Affairs Committee Chairmen of Congress that individual "case work" or "claims work" done by each member of the Committee and/or by any member of the staff of either the full Committee or any Subcommittee thereof, with respect to any matter pertaining to any program or benefit under Title 38, United States Code, constitutes a part of the Committee's oversight responsibility and assists the Committee in carrying out that responsibility. In view of this the Privacy Act limitation on the disclosure of personal information contained in any Veterans Administration system of records shall not apply to any member of the Veterans' Affairs Committees of the House of Representatives or the United States Senate or to any staff member of either such full Committee or any Subcommittee of such Committees, with respect to any matter pertaining to a program or benefit under Title 38, United States Code.

For the above reasons the proposed statement is hereby adopted without change.

Effective date. This routine use statement is effective September 27, 1975.

Approved: December 15, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN, *Deputy Administrator.*

DEPARTMENT OF LABOR

Office of the Secretary

[TA-W-377]

ALAN JOHN MANUFACTURING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Alan John Manufacturing Company, San Diego, California (TA-W-377). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits, sportcoats, and leisure suits produced by Alan John Manufacturing Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

V 40 246 DEC 22 75 XUM

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-375]

ALBEX CONTRACTORS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Albex Contractors, Incorporated, Brooklyn, New York (TA-W-375). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's sport jackets and suits produced by Albex Contractors, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

[TA-W-376]

A. BRASH AND SONS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of A. Brash and Sons, Incorporated, Baltimore, Maryland (TA-W-376). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's and boys' sport jackets produced by A. Brash and Sons, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washingtno, D.C. this 5th day of December 1975.

Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-34481 Filed 12-19-75;8:45 am]

[TA-W-202]

BATESVILLE R & P, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-202: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 2, 1975 in response to a worker petition received on that date which was filed by the United Rubber, Cork, Linoleum, and Plastic Workers of America on behalf of workers formerly producing rubber heels, soles, and crepe soling slabs at the Batesville, Arkansas plant of Batesville R & P, Inc.

The notice of investigation was published in the Federal Register on October 15, 1975 (40 FR 48411-48412). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Batesville R & P, Inc. its customers, industry analysts, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers at Batesville R & P declined 64 percent in the first half of 1975 compared to the first half of 1974. All production-related employment at Batesville R & P was terminated by the end of June 1975.

Sales or production, or both, have decreased absolutely. Sales of rubber heels, soles and crepe soling slabs for Batesville R & P declined 19 percent in 1974 from 1973 and declined 66 percent in the first half of 1975 compared to the first half of 1974.

Increased imports contributed importantly. Imports of rubber heels and soles have comprised less than 1 percent and 2 percent, respectively, of domestic consumption of such products in each year since 1971. Imports of rubber and plastic soling slabs comprised seven percent of domestic consumption of such soling slabs in 1974. The evidence developed in the Department's investigation of Batesville R & P, Inc. indicates that declines in sales of heels, soles, and soling slabs in 1974 and the first half of 1975 were due to a general decline in domestic demand for such products by domestic footwear manufacturers.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with heels, soles, and soling slabs produced by the Batesville, Arkansas plant of Batesville R & P, Inc. did not contribute importantly to the total or partial separations of the workers of that plant.

Signed at Washington D.C. this 11th day of December 1975.

JAMES F. TAYLOR,
Director Planning and Evaluation Staff.

[TA-W-368]

BIRWIN TROUSERS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Birwin Trousers, Incorporated, New York, New York (TA-W-368). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's trousers produced by Birwin Trousers, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

[TA-W-368]

BROWN & SHARPE MANUFACTURING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the International Molders and Allied Workers Union, on behalf of the workers and former workers of Brown & Sharpe Manufacturing Company, North Kingstown, Rhode Island (TA-W-368). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with precision tools and machine tools produced by Brown & Sharpe Manufacturing Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,

[TA-W-378]

BROWN SHOE CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Shoe Workers of America on behalf of the workers and former workers of Bernie, Missouri division of Brown Shoe Company, St. Louis, Missouri (TA-W-378). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with women's footwear produced by Brown Shoe Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

V 401246 DEC 22 75 XUM

CIGAR LEAF WRAPPER TOBACCO

Adjustment Assistance; Import Relief Investigation

On November 5, 1975, the International Trade Commission (ITC) unanimously determined that increased import of cigar leaf wrapper tobacco are not a substantial cause of serious injury to the domestic industry for purposes of the import relief provisions of the Trade Act of 1974 (40 FR 52668).

Section 224 of the Trade Act directs the Secretary of Labor to initiate an industry study whenever the ITC begins an investigation under the import relief provisions of the Act. The purpose of the study is to determine the number of workers in the domestic industry petitioning for import relief who have been or are likely to be certified as eligible for adjustment assistance and the extent to which existing programs can facilitate the adjustment of such workers to import competition. The Secretary is required to make a report of this study to the President and also make the report public (with the exception of information which the Secretary determines to be confidential).

The Department of Labor has concluded its report on cigar wrapper tobacco. The findings of this report are as follows:

1. No petitions have been filed with the Secretary of Labor for worker adjustment assistance under the Act as of October 31, 1975.

2. Of approximately 1,050 workers who may be dislocated over the next 12 months, about 300 could petition and possibly be certified as eligible to apply for adjustment assistance.

3. There will be difficulty in placing dislocated workers in the Florida-Georgia area because of the lack of demand for unskilled agricultural workers in other farms in that area. Reemployment, if sought, will involve considerable retraining and relocation.

4. The Comprehensive Employment and Training Act (CETA) programs appear to be insufficient to meet the needs of those who are likely to seek Employment Training services. The Employment Training Administration through its State Employment Service has the authority to purchase training when CETA funds are not available.

Copies of the Department report containing the nonconfidential information developed in the course of the 6-month investigation may be obtained, upon request, from the Office of Trade Adjustment Assistance, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (phone 202-523-7665).

Signed at Washington, D.C. this 11th day of December 1975.

JOEL SEGALL,
Deputy Under Secretary International Affairs.

[TA-W-391]

DE GRAFF OF CALIFORNIA, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of De Graff of California, Incorporated, Los Angeles, California (TA-W-391). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with women's coats and suits produced by De Graff of California or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constituiton Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-34485 Filed 12-19-75;8:45 am]

[TA-W-79]

ELECTRO MOTIVE CORP.

Revised Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, on September 8, 1975 the Department of Labor issued a certification of eligibility to apply for adjustment assistance applicable to certain workers and former workers of the Willimantic, Connecticut plant of Electro Motive Corporation (TA-W-79). The notice of certification was published in the FEDERAL REGISTER (40 FR 42617) on September 15, 1975.

At the request of the petitioners, a further investigation was instituted by the Acting Director of the Office of Trade Adjustment Assistance. The evidence developed in the further investigation indicated that a significant number of workers engaged in employment related to the production of variable capacitors at the Willimantic plant became totally or partially separated after November 25, 1974. Since the intent of the certification is to cover all such adversely affected workers, the certification issued by the Department on September 8, 1975 is hereby revised to include such additional workers not previously covered.

The revised certification is hereby made as follows:

All hourly, piecework, and salaried workers engaged in employment related to the production of variable capacitors at the Willimantic, Connecticut plant of Electro Motive Corporation who became totally or partially separated from employment on of after November 26, 1974 are ligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of December 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

[FR Doc.75-34478 Filed 12-19-75;8:45 am]

[TA-W-392]

GTE SYLVANIA, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Electrical Radio and Machine Workers of America, on behalf of the workers and former workers of the Receiving Tube plant, Emporium, Pennsylvania of GTE Sylvania, Inc., Stanford, Connecticut (TA-W-392). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with electron tubes (receiving tubes) produced by GTE Sylvania, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or

subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

HERDA CONTRACTING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Herda Contracting Company, Long Island City, New York (TA-W-369). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suit coats and sportcoats produced by Herda Contracting Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

HOUDAILLE INDUSTRIES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Automobile, Aerospace and Agricultural Implement Workers of America on behalf of the workers and former workers of Detroit, Michigan plant of Houdaille Industries, Incorporated, Buffalo, New York (TA-W-386). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with bumper support systems and finder shields produced by Houdaille Industries, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave. NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MANHATTAN COAT CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Manhattan Coat Company, New York, New York (TA-W-373). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suit jackets and sportcoats produced by Manhattan Coat Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave. NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

[TA-W-222]

MARYLAND HAMPSTEAD CO. AND PARAMOUNT CLOTHING CO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-222; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 3, 1975 in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's suits and sportcoats at the Hampstead and Baltimore, Maryland plants.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 48559) on October 16, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Maryland Hampstead Company and the Paramount Clothing Company and their customer, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers at the Maryland Hampstead Company and the Paramount Clothing Company decreased 18 percent and 28 percent, respectively in the first nine months of 1975 compared to the like period in 1974.

Sales or production, or both, have decreased absolutely. Sales of men's suit coats and sportcoats decreased 24 percent in quantity and 20 percent in value for both plants in the first nine months of 1975 compared to the same period in 1974. Sales of men's suit pants decreased 33 percent in quantity and 25 percent in value for both plants in the first nine months of 1975 compared to the same period in 1974.

Increased imports contributed importantly. Imports of men's and boys' suits increased both absolutely and relatively in the first seven months of 1975 compared to the same period in 1974. Imports of men's and boys' suits increased from 875,000 to 2,018,000 in the first seven months of 1975 compared to the same period in 1974. The ratio of imports to production increased from 7.7 in the first seven months of 1974 to 22.1 for the same period in 1975.

Imports of men's and boys' sportcoats increased relatively in the first seven months of 1975 compared to the same period in 1974. Imports of men's and boys' sportcoats declined from 2,980,000 in the first seven months of 1974 to 2,660,000 in the same period in 1975. The ratio of imports to production increased from 24.5 in the first seven months of 1974 to 36.7 for the same period in 1975.

The evidence developed by the Department's investigation indicated that the Maryland Hampstead and the Paramount Clothing Companies had only one customer. Contrary to the trends in aggregate industry data, the customer's purchases of imports of men's suits and sportcoats declined 86 percent in the first half of 1975 compared to the same period in 1974 while the customer's domestic purchases of men's and boys' suits and sportcoats declined 13 percent in the first half of 1975 compared to the same period in 1974. Reduced purchases of these products are attributable to the general economic recession.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's suits and sportcoats produced at the Maryland Hampstead Company, Hampstead, Maryland and the Paramount Clothing Company, Baltimore, Maryland did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 10th day of December 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

[TA-W-387]

McDONNELL DOUGLAS ASTRONAUTICS CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the International Association of Machinists and Aerospace Workers on behalf of the workers and former workers of Vandenberg Air Force Base, California, Delta Vehicle Launch Operations of McDonnell Douglas Astronautics Company, Huntington Beach, California, a division of McDonnell Douglas Corporation, St. Louis, Missouri (TA-W-387). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with missiles produced by McDonnell Douglas Astronautics Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MR. NED, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Mr. Ned, Incorporated, New York, New York (TA-W-370). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's and women's suits, sportcoats, pants and overcoats produced by Mr. Ned, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

[TA-W-374]

M'SIEUR SLACKS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of M'Sieur Slacks, Incorporated, Brooklyn, New York (TA-W-374). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's slacks produced by M'Sieur Slacks, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

NL INDUSTRIES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Oil, Chemical and Atomic Workers, on behalf of the workers and former workers of Process Control and R&D Technicians, Titanium Pigment Division of NL Industries, Inc., Sayreville, New Jersey (TA-W-389). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with titanium dioxide produced by NL Industries, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

SKF INDUSTRIES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Auto Workers on behalf of the workers and former workers of the Shippensburg, Pennsylvania plant of SKF Industries, Inc., Philadelphia, Pennsylvania (TA-W-390).

Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with component parts of ball and roller bearings (cage or retainer) produced by SKF Industries, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

[TA-W-385]

STROUDSBURG ENGINE WORKS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the International Association of Machinists and Aerospace Workers on behalf of the workers and former workers of Stroudsburg Engine Works, Incorporated, Stroudsburg, Pennsylvania (TA-W-385). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with hoists used for fishing vessels and replacement parts produced by Stroudsburg Engine Works, Incorporated or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-383]

TELEDYNE VASCO

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Teledyne Vasco, East Latrobe, Pennsylvania, a division of Teledyne Incorporated, Los Angeles, California (TA-W-383). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with specialty steels, high speed steels, tool steel bars, coils, and special shapes produced by Teledyne Vasco or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-384]

THERMATOMIC CARBON CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Oil, Chemical and Atomic Workers on behalf of the workers and former workers of Thermatomic Carbon Company, Sterlington, Louisiana (TA-W-384). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with thermal black produced by Thermatomic Carbon Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-224]

TOWN AND COUNTRY SHOES, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-224; investigation regarding certifi-

V40246 DEC 22 75 XUM

cation of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 10, 1975 in response to a worker petition received on October 10, 1975 which was filed by the Teamsters Union on behalf of workers and former workers producing women's non-rubber footwear at the Sedalia, Missouri plant.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 49162) on October 21, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Town and Country Shoes, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the American Footwear Association, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers declined 7 percent in the fourth quarter of 1974 compared to the like quarter in 1973 than declined 8 percent in the first 8 months of 1975 compared to the like period in 1974. Average weekly hours declined 15 percent in the first 8 months of 1975 compared to the like period in 1974.

Sales or production, or both, have decreased absolutely. Sales at the Sedalia plant declined 11 percent in the fourth quarter of 1974 compared to the like period in 1973, sales further declined 35 percent in value in the first 8 months of 1975 compared to the first 8 months of 1974. Production declined 20 percent in the fourth quarter of 1974 compared to the like period in 1973, production further declined 40 percent in quantity in the first 8 months of 1975 compared to the first 8 months of 1974.

Increased imports contributed importantly. In 1974, imports of women's and misses' non-rubber footwear constituted 103 percent and 51 percent respectively, of domestic production, and consumption compared with 66 percent and 40 percent respectively, in 1970.

Imports of articles like or directly competitive with those produced at the Sedalia plant increased relative to domestic production and consumption in the first 6 months of 1975 compared to the first 6 months of 1974.

The ratios of imports to domestic consumption and production increased from 51 percent and 105 percent, respectively in the first 6 months of 1974 to 55 percent and 123 percent in the first 6 months of 1975.

The evidence developed by the Department's investigation indicate that customers reduced or discontinued purchases of Town and Country's shoes in favor of imports that were priced lower and styled better. Customers indicated that imports have been the fashion setters and trend setters for women's footwear. The increase in imports caused sales and production to decline at Town and Country. The company responded to reduced sales and production both by reducing the workforce in the latter half of 1974, then reducing employment and hours worked in the first 8 months of 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's non-rubber footwear produced at the Town and Country plant contributed importantly to the total or partial separation of the workers at that plant. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried workers at the Sedalia plant of Town and Country Shoes, Incorporated who became totally or partially separated from employment on or after October 10, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 10th day of December 1975.

GLORIA G. PRATT,
Director, Office of Foreign Economic Policy.

UNIVERSAL-CYCLOPS SPECIALTY STEEL CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975, the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Universal-Cyclops Specialty Steel Company, Pittsburgh, Pennsylvania, a division of Cyclops Corporation, Mount Lebanon, Pennsylvania (TA-W-379). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with stainless sheet & plate, high speed steel, & tool steel produced by Universal-Cyclops Specialty Steel Company or an appropriate subdivision thereof have contributed importantly to an absolue decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

UNIVERSAL-CYCLOPS SPECIALTY STEEL CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On December 5, 1975 the Department of Labor received a petition filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Universal-Cyclops Specialty Steel Company, West Aliquippa, Pennsylvania, a division of Cyclops Corporation, Mount Lebanon, Pennsylvania (TA-W-380). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with stainless wire rod, stainless sheet and plate, high speed steel, and tool steel produced by Universal-Cyclops Specialty Steel Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 92 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than December 31, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of December 1975.

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 17, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43090—*Lumber Articles, from, to, and between Southwestern Territory.* Filed by Southwestern Freight Bureau, Agent, No. B-579), for interested rail carriers. Rates on lumber and related articles, in carloads, as described in the application, from points in southwestern territory, to Long Lake, Roseville, and Wayzata, Minnesota.

Grounds for relief—Market competition, rate relationship, modified short-line distance formula and grouping.

Tariff—Supplement 123 to Southwestern Freight Bureau, Agent, tariff SW/W-2006-J, ICC 5056. Rates are published to become effective on January 16, 1976.

FSA No. 43091—*Joint Water-Rail Container Rates—Kawasaki Kisen Kaisha, Ltd.* Filed by Kawasaki Kisen Kaisha, Ltd., (No. 15), for and on behalf of itself and interested rail carriers. Rates on general commodities, from rail carrier's terminal at Freeport, Texas, to ports in the Far East.

Grounds for relief—Water competition.

FSA No. 43092—*Joint Rail-Water Container Rates—United States Lines, Inc.* Filed by United States Lines, Inc., (No. 101), for and on behalf of itself and interested rail carriers. Rates on general commodities, from ports in the Far East, to rail carriers' terminals at Lake Charles, La., North Bergen, N.J., and Beaumont and Port Arthur, Tex.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 144]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 18, 1975.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 4405 (Sub-No. 526TA), filed December 8, 1975. Applicant: DEALERS TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Leonard L. Bennett (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers, semi-trailers and trailer chassis*, other than those designed to be drawn by passenger automobiles, in initial movements, in truckaway and driveaway service and (2) *Tractors*, in secondaray movements in driveaway service only when drawing trailers, semi-trailers and trailer chassis in initial movements in driveaway service; (1) from Oregon, Ill., to points in the United States (except Alaska and Hawaii); (2) from Oregon, Ill., to points in Arizona, Nevada, Oregon and Vermont, for 180 days. Supporting shipper: E. D. Etnyre and Company, Roger L. Etnyre, Secretary-Treasurer, 200 Jefferson St., Oregon, Ill. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 51146 (Sub-No. 453TA), filed December 8, 1975. Applicant: SCHNEIDER TRANSPORT, INC., 2661 S. Broadway St., Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refrigerated coolers and freezers*, from the facilities of Hercules, Inc./Lincoln Sales Division, at Manitowoc and Hudson, Wis., to points in North Dakota, South Dakota, Minnesota, and the Upper Peninsula of Michigan, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Hercules, Inc./Lincoln Sales Division, P.O. Box 2477, Green Bay, Wis. 54306. Send protests to: John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203.

No. MC 90760 (Sub-No. 14TA), filed December 1, 1975. Applicant: CLIFTON A. SCHULTZ, doing business as, ILLINOIS MIDWEST EXPRESS, 1012 E. William St., Danville, Ill. 61832. Applicant's representative: Steven A. Schultz (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe, vinyl siding, vinyl regrind, plastic pipe fittings, plastic pipe accessories, vinyl siding accessories*, (1) from Danville, Ill., to Grinnell, Iowa and Kansas City, Mo., and (2) from Grinnell, Iowa and Kansas City, Mo., to Danville, Ill., under a continuing contract with Robintech, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Robintech, Inc., Matthew Singleton, Traffic Manager, P.O. Box 753, Danville, Ill. Send protests to: Patricia A. Roscoe, Transportation Assistant, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 107295 (Sub-No. 792TA), filed December 10, 1975. Applicant: PRE-FAB TRANSIT CO., 100 South Main St., Farmer City, Ill. 61842. Applicant's representative: Duane Zehr (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building and construction materials*, from the plantsite and storage facilities of Donn Products, Inc., located in Medina County, Ohio, to points in Arkansas, Colorado, Illinois, Iowa, Kansas,

Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Mexico, New York, North Dakota, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Texas, Vermont, Virginia, West Virginia and Wisconsin, for 180 days. Supporting shipper: Carl J. Walkush, President, Traffic & Distribution Services, Inc., 1643 Lee Road, P.O. Box 18310, Cleve Heights, Ohio 44118. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 107544 (Sub-No. 123TA), filed December 10, 1975. Applicant: LEMMON TRANSPORT COMPANY, INCORPORATED, P.O. Box 580, Marion, Va. 24354. Applicant's representative: Daryl J. Henry (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum lubricating oil*, in bulk, in tank vehicles, from Bluefield and Hugheston, W. Va., to points in Buchanan, Russell, Tazewell and Wise Counties, Va. (except points in Tazewell County, Va., from Hugheston, W. Va.), for 180 days. Supporting shipper: Texaco, Inc., 1111 Rusk Ave., Houston, Tex. 77052. Send protests to: Danny R. Beeler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 210, Roanoke, Va. 24011.

No. MC 108207 (Sub-No. 429TA), filed December 3, 1975. Applicant: FROZEN FOOD EXPRESS, INC., 318 Cadiz St., P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: J. B. U.S. SAVINGS BONDS, SERIES E

Dept. Circular No. 653,
9th Rev.
1st Amendment

V40I246 DEC 22 75 XUM

Title 31—Money and Finance

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 316—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES E

Extended Terms and Improved Yields for Bonds

Department of the Treasury Circular No. 653, Ninth Revision, dated April 23, 1974, and the tables incorporated therein, as supplemented (31 CFR, Part 316), are hereby amended for the purpose of granting a second 10-year extended maturity period to United States savings bonds, Series E, bearing issue dates of February 1, 1957, through November 1, 1965, and providing tables of redemption values and investment yields for the next extended maturity period for bonds bearing issue dates of December 1, 1945, through November 1, 1946; December 1, 1955, through November 1, 1956; February 1, 1957, through November 1, 1957; December 1, 1968, through May 1, 1969; and December 1, 1969, through November 1, 1970.

Section 316.8(a) (3) and (4) is accordingly revised, and Tables 13–A, 14–A, 41–A, 42–A, 43–A, 44–A, 46–A, 47–A, 48–A, 87–A, 89–A and 90–A are added, as follows:

§ 316.8 Extended terms and improved yields for outstanding bonds.

(a) *Extended maturity periods.* • • •

(3) *Bonds with issue dates May 1, 1952, through November 1, 1965.* Owners of Series E bonds with issue dates of May 1, 1952, through November 1, 1965, may retain their bonds for a second extended maturity period of 10 years.

(4) *Bonds with issue dates of December 1, 1965, or thereafter.* Owners of Series E bonds with issue dates of December 1, 1965, or thereafter, may retain their bonds for an extended maturity period of 10 years.

• • • • •

The foregoing revisions and amendments were effected under authority of Section 22 of the Second Liberty Bond Act, as amended (49 Stat. 21, as amended; 31 U.S.C. 757c), and 5 U.S.C. 301. Notice and public procedures thereof are unnecessary as the fiscal policy of the United States is involved.

Dated: December 9, 1975.

DAVID MOSSO,
Fiscal Assistant Secretary.

TABLE 13-A

U.S. SAVINGS BONDS, SERIES H

Dept. Circular No. 905,
6th Rev.
1st Amendment

V40I246 DEC 22 75 XUM

Title 31—Money and Finance

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 332—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES H

Extended Terms and Improved Yields for Bonds

Department of the Treasury Circular No. 905, Sixth Revision, dated March 18, 1974, and the tables incorporated therein (31 CFR Part 332), are hereby amended for the purpose of granting a second 10-year extended maturity period to United States saving bonds, Series H, bearing issue dates of February 1, 1957, through May 1, 1959, and providing tables showing the schedule of interest payments and investment yields for the next extended maturity period for bonds bearing issue dates of October 1, 1955, through January 1, 1957; June 1, 1965, through November 1, 1966.

Section 332.8(a) (2) and (3) is accordingly revised, and Tables 9–A, 10–A, 11–A, 29–A, 30–A and 31–A are added, as follows:

§ 332.8 **Extended terms and improved yields for outstanding bonds.**

(a) *Extended maturity periods.* • • •

(2) *Bonds with issue dates June 1, 1952, through May 1, 1959.* Owners of Series H bonds with issue dates of June 1, 1952, through May 1, 1959, may retain their bonds for a second extended maturity period of 10 years.

(3) *Bonds with issue dates of June 1, 1959, or thereafter.* Owners of Series H bonds with issue dates of June 1, 1959, or thereafter, may retain their bonds for an extended maturity period of 10 years.

• • • • • •

The foregoing revisions and amendment were effected under authority of section 22 of the Second Liberty Bond Act, as amended (49 Stat. 21, as amended; 31 U.S.C. 757c), and 5 U.S.C. 301. Notice and public procedures thereon are unnecessary as the fiscal policy of the United States is involved.

Dated: December 9, 1975.

DAVID MOSSO,
Fiscal Assistant Secretary.

National Poultry Improvement Plan and Auxiliary Provisions

V40246 DEC 22 75 XUM

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[9 CFR Parts 445, 447]

NATIONAL POULTRY IMPROVEMENT PLAN AND AUXILIARY PROVISIONS

Proposed Miscellaneous Changes

Notice is hereby given, under the administrative procedure provisions of 5 U.S.C. 553, that the Department of Agriculture has under consideration proposed amendments of the National Poultry Improvement Plan and Auxiliary Provisions recommended by the General Conference Committee, National Poultry Improvement Plan at their September 9–10, 1975 meeting, and that pursuant to section 101(b) of the Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429), it is proposed to revise Parts 445 and 447 of Title 9, Chapter IV, Subchapter A, Code of Federal Regulations, to incorporate such recommended amendments and to make incidental changes for clarity and consistency.

These proposed amendments are concerned with the voluntary "U.S. Salmonella Controlled" program for turkey breeding flocks. They would amend the criteria for the program to provide monitoring techniques to measure the effectiveness of the sanitation practices carried out by the turkey breeder and hatcheryman.

Parts 445 and 447 would be amended in the following respects:

1. Section 445.1 would be amended by adding new paragraphs (cc) and (dd) to read as follows:

§ 445.1 Definitions.

• • • • • •

(cc) *Salmonella.* Any of the species of the bacteria belonging to the Salmonella genus.

(dd) ***Colon bacilli.*** For the purpose of this chapter, those organisms which are gram negative, non spore-forming bacilli, which ferment lactose with gas formation, and serve as an index of fecal contamination.

2. Section 445.10(f) would be revised to read as follows:

§ 445.10 Terminology and classification; flocks, products, and States.

• • • • • •

(f) *U.S. Salmonella Monitored*—(see § 445.43(f).)

Figure 7

• • • • •

3. Section 445.43(f) would be revised to read as follows:

§ 445.43 Terminology and classification.

• • • • • •

(f) *U.S. Salmonella Monitored.* (1) A flock meeting the following management, premises, and egg sanitation requirements as determined by the Official State Agency and the Service.

(i) (*a*) The flock is maintained in compliance with the appropriate paragraphs found in § 447.21 of this chapter as determined by the Official State Agency.

(*b*) Hatching eggs will be handled as described in § 447.22 of this chapter and fumigated on the farm, as described in § 447.25 (a) of this chapter: *Provided,* That alternative sanitizing procedures may be used with the approval of the Official State Agency in each specific instance and with the general concurrence of the Service in the policy adopted by the Official State Agency. Approval of alternative sanitizing procedures will not be considered an indication of their relative effectiveness.

(ii) Cloacal swabs or environmental samples will be collected by a State Inspector or Authorized Agent from each tom and hen flock between 16 and 32 weeks of age, as described in § 447.12 of this chapter. These samples will be cultured for Salmonella organisms by an authorized laboratory. If Salmonella is isolated, the State Inspector will conduct, at the onset of egg production, an inspection of the breeding flock premises, egg handling and sanitation facilities, and management practices in order to determine if adequate sanitation practices exist, and will review his findings with the participant or his designated representative.

(iii) The flock, flock premises, and egg handling and sanitation facilities and procedures will be inspected by a State Inspector twice during the egg production season for compliance with sanitation requirements. At each visit, the shells of 120 sanitized, cased, hatching eggs will be swabbed, and the swabs bacteriologically examined for the presence of colon bacilli as described in § 447.13 of this chapter and none found: *Provided,* That if the tests indicate the presence of a colon bacilli, the Official State Agency shall immediately contact the participant to report the findings and to inform him that corrective measures are required within 48 hours. Effectiveness of corrective measures will be evaluated by a series of tests of sanitized eggs conducted by a State Inspector as described above. The first test of the series should be made within 5 days of finding the positive sample, and may be made from eggs in the breeding flock's egg room or at the hatchery. Subsequent tests will be at 5 day intervals and will continue until two consecutive negative tests are obtained.

(2) This classification may be revoked by the Official State Agency, if the participant fails to follow recommended corrective measures.

4. Subpart B would be amended by adding a new § 447.13 to read as follows:

Sec.
447.13 Procedure for bacteriological culturing of eggshells for colon bacilli organisms.

5. Part 447, Subpart B, would be amended by adding a new § 447.13 to read as follows:

§ 447.13 Procedure for bacteriological culturing of eggshells for colon bacilli organisms.

Proper precautions to avoid environmental contamination of the samples during the collection and laboratory process, and proper handling of the samples following collection are essential. Each State Inspector involved in eggshell culture activities must receive instruction in the necessary sanitation procedures, sampling procedures, and sample handling by the authorized laboratory involved. The Official State Agency will maintain a record showing that the required instruction was given to each State Inspector.

(a) *Sample selection.* Forty (40) eggs in the top flats of each of three randomly selected cases of sanitized eggs from each flock will be utilized for each sampling.

(b) *Swab procedure.* A 2.5 centimeter diameter circular area of the large end of each of the eggs will be rubbed with a sterile swab previously moistened with sterile lactose broth, or other suitable liquid media provided by the authorized laboratory. One swab will be used for five eggs, and four swabs will be pooled to each sterile, capped tube provided by the authorized laboratory.

(1) From the tube containing four swabs and lactose broth or other suitable media, 1 ml. will be transferred to 10 ml. lactose in a fermentation tube.

(2) Incubate at 37°C for 48 hours. The presence of acid, and gas in the amount of 10 percent or more after 24 and 48 hours of incubation, provides a presumptive conclusion of the presence of colon bacilli organisms.

6. Section 447.21 would be amended by adding a new paragraph (i) to read as follows:

§ 447.21 Flock sanitation.

• • • • • •

(i) Feed, pelleted by heat process, should be fed to all age groups. Proper feed pelleting procedures can destroy many disease producing organisms contaminating feedstuffs.

7. Section 447.22 would be amended by revising paragraphs (d) and (e) and adding paragraphs (f) and (g) as follows:

§ 447.22 Hatching egg sanitation.

• • • • • •

(d) Egg handlers should thoroughly wash their hands with soap and water and change to clean outer garments prior to handling the sanitized eggs. Sanitized eggs should be immediately removed from the cleaning and grading area and preferably removed to a separate clean and sanitized room. A wall-installed fumigation cabinet (or authorized sanitizing equipment) through which eggs can be passed from the receiving and cleaning area to the sanitary packing and storage areas is a good practice.

(e) The sanitized eggs should be placed in new flats or sanitized reuseable flats or racks. New or clean, fumigated, used cases should be utilized for packing. Proper temperature and humidity in the egg cleaning, packing, and storage areas should be maintained. Eggs should be stored no longer than necessary before setting.

(f) The entire egg processing area should be cleaned and sanitized daily on a routine basis; dust, insects, feathers, and other airborne debris should be effectively controlled to prevent recontamination of sanitized eggs. Ink stamps and pads shall be maintained in a sterile condition.

(g) The egg processing building or area should be designed, located, and constructed of such materials as to assure that proper egg sanitation procedures can be carried out, and that the building itself can be easily, effectively, and routinely sanitized. The egg processing building or area should be considered part of a hatchery and the same construction details and physical and personnel sanitation requirements implemented.

9. Section 447.25(a)(1) would be revised to read as follows:

§ 447.25 Fumigation.

• • • • • •

(a) • • •

(1) Provide a room or cabinet proportionate to the number of eggs to be handled. The room or cabinet should be airtight and must be equipped with a fan to circulate the gas during fumigation and to expel it after fumigation.

• • • • • •

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments to the National Poultry Improvement Plan and Auxiliary Provisions may do so by filing them with the Chairman, Animal Physiology and Genetics Institute, Bldg. 161, BARC-East, Beltsville, Maryland 20705 by January 22, 1976.

All written submissions made pursuant to this notice will be made available for public inspection at said Institute at times and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 15th day of December 1975.

T. W. EDMINSTER,
Administrator,
Agricultural Research Service.

PART V:

FEDERAL ELECTION COMMISSION

ADVISORY OPINIONS

Requests 1975–119 Through 1975–121

V40246 DEC 22 75 XUM

FEDERAL ELECTION COMMISSION

[Notice 1975-96, AOR 1975-119—AOR 1975-120—AOR 1975-121]

ADVISORY OPINION REQUESTS

In accordance with the procedures set forth in the Commission's Notice 1975-4, published on June 24, 1975 (40 FR 26660), Advisory Opinion Requests 1975-119 through 1975-121 are published today.

Interested persons wishing to comment on the subject matter of any Advisory Opinion Request may submit written views with respect to such requests on or before January 2, 1976. Such submission should be sent to the Federal Election Commission, Office of General Counsel, Advisory Opinion Section, 1325 K Street, NW., Washington, D.C. 20463. Persons requiring additional time in which to respond to any Advisory Opinion Request will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered by the Commission before it issues an advisory opinion. The Commission recommends that comments on pending Advisory Opinion Requests refer to specific AOR number of the Request commented upon, and that statutory references be to the United States Code citations, rather than to the Pub. L. Citations.

AOR 1975-119: PAYMENT OF HONORARIUM BY CORPORATION TO FEDERAL CANDIDATE APPEARING OUTSIDE ELECTORATE (REQUEST EDITED BY COMMISSION)

SIRS: We would appreciate an advisory opinion on the following situation regarding (18 U.S.C. 616) • • • concerning honorariums.

A Senator, who is a candidate in 1976, has been invited to address a private luncheon meeting of approximately 100 executives who work at the corporate headquarters of an international business organization. While the headquarters is not located in the Senator's home state, it is anticipated that approximately 20 executives attending reside in the Senator's home state.

The corporation extended the invitation to the Senator in order to get his views on a number of issues before the Senate that will impact the economy generally, and the business community specifically.

Can the Senator accept an honorarium? Will such honorarium be considered a campaign contribution and charged against his limitations under the provisions of section 608(c), 1(C)?

/S/ J. BENNETT JOHNSTON.
TED STEVENS.

Source: Democratic Senatorial Campaign Committee, J. Bennett Johnston, Chairman, Senate Office Building, Washington, D.C. 20510 (November 21, 1975).

National Republican Senatorial Committee, Ted Stevens, Chairman, Senate Office Building, Washington, D.C. 20510 (November 21, 1975).

AOR 1975-120: REFUND OF CONTRIBUTION BY A STATE PARTY SUBCOMMITTEE (REQUEST EDITED BY THE COMMISSION)

(COMMISSIONERS): (This is a request for an advisory opinion on the following matter). • • • The Clifford Allen for Congress Committee received a check in the amount of Two Thousand Five Hundred Dollars ($2,500) from the Tennessee Democratic Party Telethon Committee. • • •

The Chairman of the Tennessee Democratic Party and the Treasurer of the Tennessee Democratic Party had stated to the Clifford Allen Committee that the check was from the Tennessee Democratic Party. Members of our staff failed to recognize that the check was drawn on a account labeled Tennessee Democratic Party Telethon Committee • • • (a committee) • • • registered with the United States House of Representatives in July 1975.

In order to avoid even the appearance of impropriety we have refunded One Thousand Five Hundred ($1,500) Dollars to the Tennessee Democratic Party Telethon Committee while we await your advisory opinion • • • concerning this matter. Our questions are (1) does a subcommittee of a State Committee of a political party come within the exception in section 608(f)(1); (2) is our committee required by law to refund any portion of this check to the Tennessee Democratic Party Telethon Committee; (3) if a refund is required, what amount must be refunded; (4) may a portion of the check be allocated for the primary election and another portion allocated for the general election? • • •

• • • • •

/S/ JOE HAMNER.

Source: Clifford Allen For Congress, Joe Hamner, Chairman, 212 25th Avenue, North, Parkview Towers, Nashville, Tennessee 37203 (November 24, 1975).

AOR 1975-121: STATE POLITICAL COMMITTEE'S FINANCIAL ORGANIZATION (REQUEST EDITED BY THE COMMISSION)

SIRS: • • • [T]he Indiana Democratic State Central Committee respectfully requests an Advisory Opinion from the Federal Election Commission with respect to • • • its financing plans. • • • [T]he Indiana Democratic State Central Committee is in the process of restructuring its financial affairs. • • • This restructing will result in the State Committee operating three accounts: • • •

I. *State Committee General Account.* • • • This is the account of record for the State Committee. The elected chairman of the State Committee and the elected Treasurer of the State Committee will serve as officers of the Account. The Account will not register with the Federal Election Commission nor will it file reports with the Commission. • • • The Account will be the depository for all general receipts of the State Committee • • •. Neither corporate nor union contributions will be solicited for this fund but, since corporate and union contributions to state and local candidates and committees are permitted under Indiana law, • • • funds transferred to the Account from local committees or candidates may include some corporate or union donations. • • • The Account will be used to meet the ordinary and necessary operating expenses of the State Committee and used to support Democratic candidates. However, no money from the account will be contributed to, transferred to or spent on behalf of any candidate for Federal office or [to] the Congressional Victory Fund.

II. *State Committee Development Fund.* • • • The 1974 Indiana General Assembly • • • removed Indiana's ban on corporate and union political contributions. • • • The Development Fund is designed to be the depository for such contributions. • • • The Development Fund will not register with the Federal Election Commission nor will it file reports with the Commission. • • •

[The Development Fund will make expenditures similar in purpose to disbursements from the General Account] • • • [N]o money from the Development Fund will be contributed to, transferred to or spent on behalf of any candidate for Federal office or to the Congressional Victory Fund.

• • • The Development Fund will publish a periodic newsletter designed to inform contributors to the Development Fund and others with a close affinity to the Democratic Party. • • • Mention may be made in the newsletter of candidates for Federal office. • • • In addition, the newsletter may be used to solicit contributions but no contributions will be solicited in the newsletter for any candidate for Federal office or for the Congressional Victory Fund.

III. *Indiana Democratic State Central Committee Congressional Victory Fund.* • • • The Indiana Democratic State Central Committee will establish a separate Federal campaign committee which will designate a segregated Federal campaign account in either a state or national bank. The account will not receive contributions other than contributions earmarked for the Fund and any contribution or expenditure from the Fund will be made exclusively to or for a candidate or candidates for Federal office. This Fund will not receive transfers from any account established by the State Committee or any subordinate committee of the State Committee unless they are Federal campaign committees. • • • The Fund will have a chairman and treasurer. • • • The Fund will file a Statement of Organization with the Commission and will file reports and statements of contributions received and expenditures made. • • •

• • • It is anticipated that Democratic candidates for Congress in Indiana will play an active role in soliciting contributions for the Congressional Victory Fund. Such solicitations shall clearly identify the purpose of such contributions so that earmarking of contributions to specific candidates does not occur. • • •

• • • The Fund will advise:

(1) All individual contributors that contributions to the Fund are included in the $25,000 aggregate [calendar year] limit (18 U.S.C. 608(b)(3));

(2) All contributors that the Fund will not accept earmarked contributions for specific candidates for Federal office. • • •

• • • • • •

The Fund will make every effort to expand $10,000 on behalf of each Indiana Democratic Congressional candidate in the general election, • • • adjusted by any increase in the "cost-of-living". • • •

The State Committee may delegate responsibility for expenditure of some or all of these sums on candidate's behalf to subordinate committees of the state committee. • • • Should the Fund receive insufficient contributions to permit expenditures on behalf of candidates at the maximum level permitted by law (18 U.S.C. 608(f)(3)(B)), or should, for any reason, the Fund not expend the maximum amount on behalf of any candidate (resulting in a surplus of funds), the Indiana Democratic State Central Committee will determine the allocation and distribution of such funds. • • • The Fund may, in certain circumstances, make direct contributions to a candidate. • • •

Signed BILL K. TRISLER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions

CHAPTER IV—MISCELLANEOUS AGENCIES (PRIVACY REGULATIONS)

PART 420—DEFENSE MANPOWER COMMISSION

Implementation

On August 27, 1975, there was published in the FEDERAL REGISTER (40 FR 39197), a notice of proposed rule making, setting forth the procedures by which an individual can determine if the Defense Manpower Commission maintains a systems of records which includes a record pertaining to the individual, and by which an individual can gain access to a record pertaining to him for the purpose of review, amendment and/or correction. Interested parties were given the opportunity to submit, not later than September 27, 1975 comments regarding the proposed rules.

As a result of comments received, the following changes in the proposed rules are made:

1. A sentence which reads "within ten (10) days, the Executive Director will acknowledge in writing whether or not access can be granted and, if so when" is added to § 420.3 at the suggestion of the Office of Management and Budget (OMB).

2. The requirement for identification and access to their records by an individual is § 420.4 is changed to allow access either in person or by mail, as recommended by the OMB.

3. The procedures for Disclosure of request information in § 420.5 is changed to allow the individual to be accompanied for the purpose by a person of his or her choosing, and to make available all information to the individual in the record of accounting of disclosures, as suggested by the OMB.

4. The procedures for review of a request for correction or amendment of the record in § 420.7 is changed to insure a copy of the disputed portions, clearly noted, is sent to prior recipients of the record, and that in subsequent disclosures from the record, the disputed portion will be noted and disagreements attached, as recommended by the OMB.

Accordingly, 1 CFR Part 420, proposed rules are adopted as changed and are set forth below.

Effective date December 17, 1975.

Signed at Washington, D.C. on December 17, 1975.

BRUCE PALMER, Jr.,
General, USA (Ret.)
Executive Director.

Part 420 is added to Title I of the Code of Federal Regulations as follows:

Sec.
420.1 Purpose and scope.
420.2 Definitions.
420.3 Procedures for requests pertaining to individual records in a record system.
420.4 Times, places and requirements for the identification of the individual making a request.
420.5 Disclosure of request information to the individual.
420.6 Request for correction or amendment to the record.
420.7 Agency review of request for correction or amendment of the record.
420.8 Appeal of an initial adverse agency determination on correction or amendment of the record.
420.9 Disclosure of record to a person other than the individual to whom the record pertains.
420.10 Fees.

AUTHORITY: 5 U.S.C. 552a, Pub. L. 73–579.

§ 420.1 Purpose and scope.

The purposes of these regulations are to: (a) Establish a procedure by which an individual can determine if the Defense Manpower Commission (hereafter known as the Commission) maintains a system of records which includes a record pertaining to the individual; and (b) Establish a procedure by which an individual can gain access to a record pertaining to him for the purpose of review; amendment and/or correction.

§ 420.2 Definitions.

For the purpose of these regulations: (a) The term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence; (b) The term "maintain" includes maintain, collect, use or disseminate; (c) The term "record" means any item, collection or grouping of information about an individual that is maintained by the Commission including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph; (d) The term "system of records" means a group of any records under the control of the Commission from which information is retrieved by the named of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual; and (e) The term "routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

§ 420.3 Procedures for requests pertaining to individual records in a record system.

An individual must submit a request to the Executive Director of the Commission to determine if a system of records named by the individual contains a record pertaining to the individual. The individual must submit a request to the Executive Director of the Commission which states the individual's desire to review his record. Within ten (10) days, the Executive Director will acknowledge in writing whether or not access can be granted and, if so, when.

§ 420.4 Times, places and requirements for the identification of the individual making a request.

Individuals may be granted access to their records either in person or by having copies mailed to them. An individual making a request to the Executive Director pursuant to § 420.3 may present the request at the Commission's offices, 1111 18th St., N.W., Room 301–F, Washington, D.C. 20036, on any ousiness day between the hours of 8:30 a.m. and 5:00 p.m. The individual submitting the request is required to present himself at the Commission's offices with a form of identification which will permit the Commission to verify that the individual is the same individual as contained in the record requested. Mail requests will be submitted to the same address above.

§ 420.5 Disclosure of request information to the individual.

Upon verification of identity the Commission shall disclose to the individual the information contained in the record which pertains to that individual.

(a) The individual may be accompanied for the purpose by a person of his choosing.

(b) Upon request of the individual to whom the record pertains, all information in the accounting of disclosures will be made available.

§ 420.6 Request for correction or amendment to the record.

The individual must submit a request to the Executive Director of the Commission which states the individual's desire to correct or to amend his record. This request is to be made in accord with the provisions of § 420.4.

V 40 247 DEC 23 75 XUM

§ 420.7 Agency review of request for correction or amendment of the record.

Within ten (10) days (excluding Saturdays, Sundays and legal public holidays) of the receipt of the request to correct or to amend the record, the Executive Director must acknowledge, in writing, such receipt and promptly, either—

(a) Make any correction or amendment of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(b) Inform the individual of his refusal to correct or to amend the record in accordance with the request, the reason for the refusal, and the procedures established by the Commission for the individual to request a review of that refusal.

(c) A copy of the individual's record with the disputed portions clearly noted, will be sent to prior recipients of the record and that, in subsequent disclosures from the record, the disputed portion will be clearly noted and any statements of disagreement attached.

§ 420.8 Appeal of an initial adverse agency determination on correction or amendment of the record.

An individual who disagrees with the refusal of the Executive Director of the Commission to correct or to amend his record may submit a request for a review of such refusal to the Chairman of the Commission, Dr. Curtis W. Tarr, 1111 18th Street, N.W. Washington, D.C. 20036. The Chairman shall, not later than thirty (30) days (excluding Saturdays, Sundays, and legal public holidays) from the date on which the individual requests such review, complete such review and make a final determination unless, for good cause shown, the Chairman extends such thirty (30) day period. If, after his review, the Chairman also refuses to correct or to amend the record in accordance with the request, the individual may file with the Commission a concise statement setting forth the reasons for his disagreements with the refusal of the Commission and may seek judicial review of the Chairman's determination under 5 U.S.C. section 552a(g)(1)(A).

§ 420.9 Disclosure of record to a person other than the individual to whom the record pertains.

The Commission shall not disclose a record to any individual other than to the individual to whom the record pertains without receiving the written consent of the individual to whom the record pertains.

§ 420.10 Fees.

If an individual requests copies of his record he shall be charged ten cents per page, excluding the cost of any search for and review of the record.

[FR Doc.75-34525 Filed 12-22-75;8:45 am]

PART 430—PRIVACY PROTECTION STUDY COMMISSION

Implementation

On November 7, 1975, there was published in the FEDERAL REGISTER (40 FR 52058) a notice of proposed regulations for the implementation of the Privacy Act of 1974. Interested parties were given until December 4, 1975, to submit comments regarding the proposed regulations.

Having received no comments, the Commission duly adopted the regulations without change at the December 12, 1975, Commission meeting, as set forth below.

Effective date. These regulations became effective as of November 4, 1975.

Signed the 18th day of December, 1975.

CAROLE W. PARSONS,
Executive Director, Privacy Protection Study Commission.

Part 430 is added to read as follows:

Sec.

430.1 Purpose and scope.
430.2 Definitions.
430.3 Disclosure of records.
430.4 Accounting of disclosures.
430.5 Procedures for requests to gain access to individual records.
430.6 Requests for correction or amendment of record.
430.7 Appeal of refusal to correct or amend an individual's record.
430.8 Judicial review.
430.9 Fee schedule.

§ 430.1 Purpose and scope.

The purpose of these regulations are to:

(a) Establish procedures by which an individual can ascertain if the Privacy Protection Study Commission (hereafter referred to as the Commission) maintains a system of records in which there is a record pertaining to the individual.

(b) Establish procedures by which an individual may gain access to a record or information maintained on that individual and have such record or information disclosed for the purpose of review, copying, correction and/or amendment.

§ 430.2 Definitions.

(a) For the purpose of these regulations:

(1) the term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

(2) the term "maintain" includes maintain, collect, use, or disseminate;

(3) the term "record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;

(4) the term "system of records" means a group of any records under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual;

(5) the term "statistical record" means a record in a system of records maintained for statistical research or reporting purposes only and not used in whole or in part in making any determination about an identifiable individual, except as provided by Section 8 of Title 13; and

(6) the term "routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

§ 430.3 Disclosure of records.

No official or employee of the Commission shall disclose any record contained in a system of records to any person or to another agency without the express written consent of the subject individual unless the disclosure is:

(a) To officers or employees who have a need for the information in the official performance of their duties;

(b) Pursuant to the provisions of the Freedom of Information Act;

(c) For a routine use as published in the annual notice in the FEDERAL REGISTER;

(d) To the Bureau of the Census for uses pursuant to Title 13, United States Code;

(e) To a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record. The record shall be transferred in a form that is not individually identifiable. The written statement should include at a minimum:

(1) A statement of the purpose for requesting the records; and

(2) Certification that the records will be used only for statistical purposes.

These written statements should be maintained by the Commission. In addition to deleting personal identifying information from records released for statistical purposes, the system manager shall ensure that the identity of the individual cannot reasonably be deduced by combining various statistical records.

(f) To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government;

(g) To another agency or instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal enforcement activity, if the activity is authorized by law, and if the head of the agency or instrumentality or his designated representative has made a written request to the Commission specifying the particular portion desired and the law enforcement activity for which the record is sought;

(h) To a person showing compelling circumstances affecting the health and safety of an individual, not necessarily the individual to whom the record pertains (Upon such disclosure, a notification must be sent to the last known address of the subject individual.);

(i) To either House of Congress or to a subcommittee or committee (joint or of either House, to the extent that the subject matter falls within their jurisdiction);

(j) To the Comptroller General or any of his authorized representatives in the course of the performance of the duties of the General Accounting Office; or

(k) Pursuant to the order of a court of competent jurisdiction. Except for paragraphs (a), (b) and (c) of this section on the disclosure of records, such disclosure will be made only if:

(1) The request is made in writing to the Executive Director of the Commission describing what records are being requested to be disclosed and explaining the basis of the request including the anticipated uses of the information.

§ 430.4 Accounting of disclosures.

(a) An accurate accounting of each disclosure except those for intra-agency use and those under the Freedom of Information Act shall be made and retained for 5 years after the disclosure or for the life of the record, whichever is longer. The accounting shall include the date, nature, and purpose of each disclosure, and the name and address of the person or agency to whom the disclosure is made.

(b) The System manager also shall maintain in conjunction with the accounting of disclosures:

(1) A full statement of the justification for the disclosure;

(2) All documentation surrounding disclosure of a record for statistical or law enforcement purposes; and

(3) Evidence of written consent to a disclosure given by the subject individual.

(c) Except for the accounting of disclosures made to agencies or instrumentalities in law enforcement activities or of disclosures made from exempt systems, the accounting of disclosures shall be made available to the individual upon request. Procedures for requesting access to the accounting are the same as access to individual records.

§ 430.5 Procedures for requests to gain access to individual records.

An individual seeking to ascertain the existence of a record in any system of records of the Commission or to gain access to such record should either: (a) Submit a request in writing to the Commission; or (b) present himself in person to the Commission offices. If the request is made in writing, it should be addressed to the Public Affairs Officer, Privacy Protection Study Commission, 2120 L Street, Suite 424, Washington, D.C. 20506. The envelope carrying the request, as well as the request letter itself, should bear the legend, "Privacy Act Request." For purposes of identifying the individual in the system of records, the request letter should contain the name and address of the subject individual, the identity of the system to be searched, and a brief description of the nature of the contact with the Commission so that proper identification of the individual can be made. Under no circumstances will the requester need to justify his request. To assure that the subject individual is the person making the request when seeking access to personnel records, the letter must be notarized. If the nature of the record contained in a system of records is such that its disclosure is required under the Freedom of Information Act, the identifying procedures will not be applied. If the request is made in person at the Commission offices, the requesting individual should present himself to the Public Affairs Officer or his designated staff on any working day between the hours of 9 a.m. and 5 p.m. The individual may be asked to fill out a form identifying the system to be searched and a brief description of the nature of the contact with the Commission so that proper identification of the individual in the system can be made. If a requested record exists in the system of records maintained by the Commission, the subject individual will be notified within 10 working days of the receipt of the request. If the individual had requested a copy of the record, a copy would accompany the notification. Copying of material on the request of the individual will be subject to a fee as stated in a subsequent relevant section. If the individual does not request a copy of the record at the time of making the original request for access, either in writing or in person, the individual may either (1) request in writing a copy of the record upon notification of its existence or (2) present himself in person at the Commission offices for personal inspection of the record upon notification of its existence. If the individual requests to inspect the record in person, he may be required to identify himself by a standard method, *e.g.*, driver's license. He may also be accompanied by a person of his choice to inspect the records. If accompanied, the requester may be required to sign a written statement granting the other person access. If the requested record does not exist in the system of records maintained by the Commission, the subject individual will be so notified within 10 working days of the receipt of the request.

§ 430.6 Requests for correction or amendment of record.

Upon disclosure of information to the individual about whom the record had been maintained by the Commission, if the subject individual desires to correct or amend the record, the subject individual shall make a separate written request to the Public Affairs Officer of the Commission explaining why the individual believes a portion(s) of the record to be either inaccurate, irrelevant, untimely or incomplete. Upon the receipt of a request to correct or amend information maintained on the subject individual, the Public Affairs Officer shall submit it to the Executive Director who shall respond to the requester within 10 working days of the receipt of the request indicating either:

(a) The requested correction or amendment is being made to that portion(s) of the record the subject individual believed to be inaccurate, irrelevant, untimely or incomplete; or

(b) The requested correction or amendment to the individual's record is being refused, the reason for the refusal and the procedures established by the Commission for the individual to appeal that decision. If the nature of the request or the system of records precludes completing the review within 10 working days, the required acknowledgement must be provided within 10 working days and the review should be completed as soon as reasonably possible, normally within 30 working days of the receipt of the request unless unusual circumstances preclude completing action within that time.

§ 430.7 Appeal of refusal to correct or amend an individual's record.

An individual has 30 calendar days from the receipt of the Executive Director's decision in which to appeal that decision or refusal to make the requested correction or amendment to the subject individual's record. The individual should submit a written appeal addressed to the Secretary of the Commission, Privacy Protection Study Commission, 2120 L Street, Suite 424, Washington, D.C. 20506. The Secretary of the Commission shall transmit the appeal to the full Commission for the final administrative determination. The individual shall be advised of the final administrative determination by the Chairman of the Commission within 30 working days of the receipt of the appeal, unless the Commission has shown good cause for extending the response time for another 30 working days. If after review by the full Commission the final administrative determination is a continued refusal to correct or amend the individual's record as requested by the subject individual, the individual shall be so notified by letter from the Chairman of the Commission and advised of his rights to judicial review of the Commission's administrative action.

§ 430.8 Judicial review.

Within 2 years of the receipt of a final adverse administrative determination an individual may seek judicial review of that adverse determination as provided in 5 U.S.C. § 552a(g)(1)(A).

§ 430.9 Fee schedule.

If a request for information is answered by the return of copies of an individual's record upon the individual's request to the requesting individual, he will be charged $0.10 per page, excluding the cost of any search for and review of the material.

V 40247 DEC 23 75 XUM

PART 431—PRIVACY PROTECTION STUDY COMMISSION

Implementation

On November 7, 1975, there was published in the FEDERAL REGISTER (40 FR 52054) a notice of proposed regulations for the implementation of the Freedom of Information Act. Interested parties were given until December 4, 1975, to submit comments regarding the proposed regulations.

Having received no comments, the Commission duly adopted the regulations without change at the December 12, 1975, Commission meeting, as set forth below.

Effective date. These regulations became effective as of November 4, 1975.

Signed the 18th day of December, 1975.

CAROLE W. PARSONS,
Executive Director, Privacy Protection Study Commission.

Part 431 is added to read as follows:

Sec.

431.1 Scope.
431.2 Purpose.
431.3 Application.
431.4 Definitions.
431.5 Availability of records.
431.6 Exemptions.
431.7 Categories of records exempt from disclosure under 5 U.S.C. 552.
431.8 Submission of requests for described records.
431.9 Denial of request.
431.10 Appeal.
431.11 Judicial relief available to the public.
431.12 Extension of time limits.
431.13 Exhaustion of administrative remedies.
431.14 Service of process.
431.15 Fee schedule.
431.16 Form of payment.
431.17 Prepayment of fees over $25.
431.18 Exemptions from fee.
431.19 Annual report.

§ 431.1 Scope.

These regulations set forth policies and procedures concerning the disclosure and availability to the public of records and information held by the Privacy Protection Study Commission with respect to: (a) Agency organization, functions, decisionmaking channels, and rules and regulations of general applicability, (b) Agency final opinions and orders, including policy statements and staff manuals, (c) Operational and other appropriate agency records, and (d) Agency proceedings. The part also covers exemptions from disclosure of such materials, procedures for guidance of the public in obtaining information and inspecting records, service or subpoena or other legal demand with respect to records.

§ 431.2 Purpose.

The purpose of these regulations is to prescribe procedures under which the public may obtain information and inspect records of the Privacy Protection Study Commission under the Freedom of Information Act.

§ 431.3 Application.

These procedures apply to all records and informational materials generated, developed, or held by the Privacy Protection Study Commission which come within the purview of 5 U.S.C. 552, as amended.

§ 431.4 Definitions.

For purposes of these procedures, the following terms have the meanings ascribed to them in this section.

(a) Records. The term "records" means all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics made or received by the Privacy Protection Study Commission in pursuance of Federal law or in connection with the transaction of public business and preserved or appropriate for preservation as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Privacy Protection Study Commission or because of the informational value of data contained therein. The term does not include:

(1) Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and of processed documents; or

(2) Objects or articles, such as structures, furniture, paintings, sculpture, models, vehicles, or equipment.

(b) Availability. The term "availability" signifies the right of the public to obtain information, purchase materials, and inspect and copy records and other pertinent information.

(c) Reasonably described. The term "reasonably described," when applied to a requested record, means identifying it to the extent that it will permit the location of the particular document with a reasonable effort.

(d) Requester. The term "requester" means any party who submits a written request for records pursuant to this part.

(e) Agency. The term "agency," as defined in section 552(e) of title 5, United States Code, includes any executive department, military department, Government corporation, Government-controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

§ 431.5 Availability of records.

Privacy Protection Study Commission records are available, to the greatest extent possible, in keeping with the spirit and intent of the Freedom of Information Act and will be furnished promptly to any member of the public upon request addressed to the office designated in the relevant subsequent section at such fees as are specified in the relevant subsequent section. The person making the request need not have a particular interest in the subject matter, nor must he provide justification for the request. The requirement of 5 U.S.C. 552 that records be available to the public refers only to records in being at the time the request for them is made.

§ 431.6 Exemptions.

The exemptions enumerated in 5 U.S.C. 552(b), under which the provisions for availability of records and informational materials will not apply, are general in nature. The Privacy Protection Study Commission will decide each case on its merits. Except when a record is classified or when disclosure would violate any other Federal statute, the authority to withhold a record from disclosure will not be invoked unless there is a compelling reason to do so. In the absence of such compelling reason, records and other information will be disclosed although otherwise subject to exemption.

§ 431.7 Categories of records exempt from disclosure under 5 U.S.C. 552.

5 U.S.C. 552(b) provides that the requirements of the statute do not apply to matters that are:

(a) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are, in fact, properly classified pursuant to such Executive Order.

(b) Related solely to the internal personnel rules and practices of an agency.

(c) Specifically exempted from disclosure by statute.

(d) Trade secrets and commercial or financial information obtained from a person and privileged or confidential.

(e) Inter-agency or intra-agency memoranda or letter which would not be available by law to a party other than an agency in litigation with the agency.

(f) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

(g) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would:

(1) Interfere with enforcement proceedings;

(2) Deprive a person of a right to a fair trial or an impartial adjudication;

(3) Constitute an unwarranted invasion of personal privacy;

(4) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source.

(5) Disclose investigative techniques and procedures; or

(6) Endanger the life or physical safety of law enforcement personnel.

(h) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.

(i) Geological and geophysical information and data, including maps.

Any reasonably segregable portion of a record shall be provided to any person requesting the record after deletion of the portions which are exempt under this section.

§ 431.8 Submission of requests for described records.

For Privacy Protection Study Commission records, requests shall be submitted in writing to the Public Affairs Officer, Privacy Protection Study Commission, 2120 L Street, Suite 424, Washington, D.C. 20506. Requests should bear the legend, FREEDOM OF INFORMATION REQUEST, prominently marked on both the face of the request letter and the envelope. Requests shall be answered within 10 working days of the receipt of the request. When a request is approved, records will be made available promptly in accordance with the terms of the request. Copies may be furnished or the records may be inspected at the office of the Privacy Protection Study Commission. Upon receipt of a request which does not reasonably describe the records requested, the Privacy Protection Study Commission shall contact the requester to seek a more specific description. The 10 working day time limit established for the answering of requests shall be tolled while the Privacy Protection Study Commission expeditiously seeks from the requester a more specific description of the records requested to assist the Commission in establishing the existence or nonexistence of the records.

§ 431.9 Denial of request.

If a request is denied, the requester shall be advised within ten working days of the receipt of the request and furnished written reasons for the denial. The denial will (a) describe briefly the records or records requested, (b) state the legal basis for nondisclosure, (c) state the name and titles or positions of the official responsible for the denial of such requests, and (d) state the requester's appeal rights.

§ 431.10 Appeal.

A requester denied access, in whole or in part, to the Privacy Protection Study Commission records may appeal that decision with the Privacy Protection Study Commission. All appeals should be addressed to the Executive Director, Privacy Protection Study Commission, 2120 L Street, Suite 424, Washington, D.C. 20506. An appeal must be received in the Privacy Protection Study Commission office no later than thirty calendar days after receipt by the requester of the initial denial of access in the case of a total denial, or thirty calendar days after receipt by the requester of records made available in the case of a partial denial. An appeal must be in writing and may contain a brief statement of the reasons why the records should be released, and enclose copies of the initial request and denial. The appeal letter should bear the legend, FREEDOM OF INFORMATION APPEAL, conspicuously marked on both the face of the appeal letter and on the envelope. The Privacy Protection Study Commission has twenty working days after the receipt of an appeal to make a determination with respect to such appeal. Upon receipt of an appeal, the Executive Director will consult with the General Counsel and the official who made the initial denial. If the Executive Director determines that the appeal should be granted, he shall so notify the requester and make the records available to him. If the Executive Director decides that the appeal should be denied the requester shall be so notified that this is the final administrative determination. The Executive Director, shall, however, following such determination, inform the Commission as a whole of each final denial at its next scheduled meeting and the Commission shall retain the authority to order documents released, notwithstanding the decision of the Executive Director. The notification letter shall contain: (1) A brief description of the record or records requested; (2) a statement of the legal basis for nondisclosure; (3) a statement of the name and title or position of the official or officials responsible for the denial of the initial request and the denial of the appeal; and (4) a statement of the requester's rights of judicial review.

§ 431.11 Judicial relief available to the public.

(a) Upon denial of a requester's appeal by the Executive Director, the requester may file a complaint in a district court of the United States in the district in which the complainant resides, or has his principal place of business, or in the District of Columbia, pursuant to 5 U.S.C. 552(a)(4)(B).

(b) The Executive Director of the Privacy Protection Study Commission will be the named defendant in any action filed.

§ 431.12 Extension of time limits.

In unusual circumstances as specified in this section, the time limits prescribed in these procedures may be extended by the Executive Director upon the request of the Public Affairs Officer. The Privacy Protection Study Commission will provide written notice to the requester setting forth the reasons for such extension and the date on which a determination is expected. Such notice will specify no date that would result in an extension of more than ten work days. In unusual circumstances, the Executive Director may authorize more than one extension, divided between the initial request stage and the appeal stage, but in no event will the combined periods of extension exceed ten working days. As used in this subsection, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request:

(a) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(b) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request.

§ 431.13 Exhaustion of administrative remedies.

Any person making a request to the Privacy Protection Study Commission for records shall be deemed to have exhausted his administrative remedies with respect to the request if the agency fails to comply within the applicable time limit provisions set forth in these procedures.

§ 431.14 Service of process.

A subpoena duces tecum or other legal demand for the production of records held by the Privacy Protection Study Commission should be addressed to the Executive Director, Privacy Protection Study Commission, 2120 L Street, Suite 424, Washington, D.C. 20506. When such a subpoena or demand is served on any person other than the Executive Director, he shall decline respectively to produce such records on the ground that he is without authority to accept such subpoena or demand.

§ 431.15 Fee schedule.

In computing applicable fees, the Privacy Protection Study Commission will consider only the following costs in providing the requested records.

(a) Reproduction fees. (1) The fee for reproducing copies of the Privacy Protection Study Commission records (by routine electrostatic copying) up to and including material 8½ x 14 inches shall be $0.10 per page. (2) The fee for reproducing copies of the Privacy Protection Study Commission records over 8½ x 14 inches or whose physical characteristics do not permit reproduction by routine electrostatic copying shall be the direct cost of reproducing the records through Government or commercial sources.

(b) Search fees. (1) The standard search fee shall be $4 per hour or fraction thereof beyond the initial half hour used to locate the requested records. (2) When professional staff must be used to search for the requested records because clerical staff would be unable to locate them, the search fee shall be $8 per hour or fraction thereof beyond the initial half hour used to locate the requested records. (3) When the search includes nonpersonnel expenditures to locate and extract requested records, such as computer time or transportation expenses, the applicable fee shall be the direct cost to the Privacy Protection Study Commission.

§ 431.16 Form of payment.

Payment shall be by check or money order payable to the Privacy Protection Study Commission and shall be addressed to the Public Affairs Officer.

§ 431.17 Prepayment of fees over $25.

(a) When the Public Affairs Officer determines that the anticipated total fee (search and reproduction) is likely to exceed $25, he shall notify the requester that he must repay the anticipated fee prior to the Privacy Protection Study Commission making the records available. The Privacy Protection Study Commission will remit the excess

V 40247 DEC 23 75 XUM

paid by the requester or bill the requester for an additional amount according to variations between the final fee charged and the amount prepaid.

§ 431.18 Exemptions from fee.

When the Public Affairs Officer determines that at least one of the following conditions exists, he shall waive the fee requirement and provide one copy of the Commission records without charge to the requester.

(a) When the incremental cost of collecting the fee would be an unduly large part of or an amount greater than the fee;

(b) When the reproduction is for a foreign, State, or local government of international agency and furnishing it without charge is an appropriate courtesy;

(c) When it is determined that it would be in the public interest or primarily benefiting the general public to waive the fee.

§ 431.19 Annual Report.

On or before March 1 of each calendar year, the Privacy Protection Study Commission shall submit to the Speaker of the House of Representatives and President of the Senate, for referral to the appropriate committees of the Congress, a report on the Privacy Protection Study Commission's implementation of 5 U.S.C. 552 which covers the preceding calendar year.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 932—OLIVES GROWN IN CALIFORNIA

Increase in Expenses for the 1975–76 Fiscal Year

This document authorizes an increase in expenses of $6,100 from $870,450 to $876,550 to support the activities of the Olive Administrative Committee for the 1975–76 fiscal year under Marketing Order No. 932. All of the increase is to be applied to the committee's production and marketing research program expenditures.

On December 3, 1975, notice of rulemaking was published in the FEDERAL REGISTER (40 FR 56457) regarding a proposed increase in expenses previously approved for the fiscal year ending August 31, 1976, pursuant to the marketing agreement, as amended, and Order No. 932, as amended (7 CFR Part 932) regulating the handling of olives grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice afforded interested persons an opportunity to submit written data, views, or arguments in connection with the proposal. None were submitted.

After consideration of all revelant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Olive Administrative Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that the provisions of paragraph (a) of § 932.210 Expenses, rate of assessment, and carryover of unexpended funds (40 FR 54236) be amended to read as follows:

§ 932.210 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Olive Administrative Committee, during the period September 1, 1975, through August 31, 1976, will amount to $876,550.

* * * * *

It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the increase in the expenses set forth does not involve an increase in the rate of assessment heretofore established by the Secretary (40 FR 56457); (2) the said committee has research expenses planned in excess of those previously thought likely to be incurred; and (3) it is essential that the specification of expenses herein provided be issued immediately so that the committee can meet its obligations and perform its duties and funtions within the fiscal period in accordance with the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 18, 1975.

CHARLES R. BRADER,
Deputy Director Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-34614 Filed 12-22-75;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 91—INSPECTION AND HANDLING OF LIVESTOCK FOR EXPORTATION

Ports of Export With Limited Facilities Available for Certain Species of Animals; Cincinnati, Ohio, Added as an Airport

This amendment adds Cincinnati, Ohio, to the list of airports designated as ports of export with limited facilities available for certain species of animals.

Statement of considerations. The purpose of this amendment is to add Cincinnati, Ohio, to the list of designated airports in § 91.3(a)(1)(ii) with limited facilities available for certain species of animals. The limited airport export inspection facilities at Cincinnati, Ohio, have been inspected by the Animal and Plant Health Inspection Service and were found to comply with the standards for approved export inspection facilities contained in § 91.3(c) of Part 91, 9 CFR.

Accordingly, in § 91.3, paragraph (a)(1)(ii) is revised to read:

§ 91.3 Ports of export.

(a) * * *

(1) (i) * * *

(ii) New York, New York, Cincinnati, Ohio, and San Juan, Puerto Rico: Limited facilities are available for certain species of animals.[1]

(Secs. 4, 5, 23 Stat. 32, as amended; sec. 1, 32 Stat. 791, as amended; sec. 10, 26 Stat. 417; secs. 12, 13, 14, 18, 34 Stat. 1263, as amended; 81 Stat. 584, 588, 592; secs. 3 and 11, 76 Stat. 130, 132; sec. 1109, 72 Stat. 799, as amended (21 U.S.C. 105, 112, 113, 120, 121, 134b, 134f, 612, 613, 614, 618; 49 U.S.C. 1509(d)); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective December 23, 1975.

The amendment relieves certain restrictions by permitting the exportation of livestock through an additional port of export with limited facilities available for certain species of animals, and should be made effective promptly to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 17th day of December, 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-34547 Filed 12-22-75;8:45 am]

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 1—INVESTMENT SECURITIES REGULATION

Securities Eligible for Underwriting and Unlimited Holding

The following new sections are added to 12 CFR Part 1:

Sec.
1.397 New York State Medical Care Facilities Finance Agency, Bond Anticipation Notes.
1.398 El Cajon—San Diego County Civic Center Authority, City Hall Revenue Bonds.
1.399 New York State Medical Care Facilities Finance Agency Bonds.
1.400 City-Housing Authority Building Authority (Napa, California).
1.401 Alabama Public School and College Authority.
1.402 City of Inglewood—Los Angeles County Civic Center Authority.
1.403 Industry Urban-Development Agency (California).
1.404 Municipal Assistance Corporation for the City of New York.
1.405 Parking Authority of the City of Oakland (California).
1.406 Hospitals Authority of Philadelphia (University of Pennsylvania).
1.407 Tredyffrin Township Guaranteed Sewer Revenue Bonds.
1.408 Mt. Diablo Hospital Authority (California).
1.409 Washington Public Power Supply System.
1.410 Hospitals Authority of Philadelphia (Thomas Jefferson University).

AUTHORITY: (§§ 1.397–1.410 issued under R.S. 324 *et seq.*, as amended, paragraph Seventh of R.S. 5136, as amended; 12 U.S.C. 1 *et seq.*, 24(7), unless otherwise noted.

§ 1.397 New York State Medical Care Facilities Finance Agency, Bond Anticipation Notes.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $43,000,000 New York Medical Care Facilities Finance Agency Hospital and Nursing Home Project Bond Anticipation Notes dated 12/23/74 maturing 4/25/75 for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The New York State Medical Care Facilities Finance Agency is a corporate governmental agency of the State and a public benefit corporation created in 1973 by the New York State Medical Care Facilities Finance Agency Act to encourage the investment of private capital in various projects including hospitals and nursing homes. The Agency is authorized to make mortgage loans to nursing home companies and to hospital corporations and to borrow money and to issue negotiable bonds and notes to fund these programs and to pay the notes and refund the bonds of the Agency issued for such purpose. These notes are being sold for that purpose.

(2) The Agency is issuing these notes in anticipation of bonds which will later be issued to provide funds to pay the cost of the project relating to the note issue and has promised to pay the principal and interest on the notes from the proceeds of such bonds.

(3) The State of New York has required with respect to Hospital and Nursing Home Project Bonds (but not the notes) of the New York State Medical Care Facilities Finance Agency, the maintenance of a reserve fund sufficient to meet the maximum of any succeeding year's annual requirements for bond principal and interest payments and has provided for the annual apportionment and payment from State funds for deposit to the reserve fund of such sum as is certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds and notes issued in anticipation thereof and payable therefrom.

(c) *Ruling.* It is our conclusion that the $43,000,000 New York State Medical Care Facilities Finance Agency Hospital and Nursing Home Project Bond Anticipation Notes dated 12/23/74 maturing 4/25/75 are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and accordingly are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Dec. 12, 1974.)

§ 1.398 El Cajon—San Diego County Civic Center Authority, City Hall Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $6,400,000 El Cajon—San Diego County Civic Center Authority 1975 City Hall Revenue Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The El Cajon—San Diego County Civic Center Authority is a public entity created under the laws of California by an agreement between the City of El Cajon and the County of San Diego. Under this agreement, the Authority is authorized to construct, maintain and lease public buildings and related facilities necessary for the development of a civic center and to issue bonds to finance such projects. The Authority is issuing these bonds to finance the construction of a city hall which will be leased to the City.

(2) The City has unconditionally promised in the lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $6,400,000 El Cajon-San Diego County Civic Center Authority 1975 City Hall Revenue Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Feb. 4, 1975.)

§ 1.399 New York State Medical Care Facilities Finance Agency Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $82,000,000 New York State Medical Care Facilities Finance Agency Hospital and Nursing Home Project Bonds, 1975 Series A for purchase, dealing in underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The New York Medical Care Facilities Finance Agency is a corporate governmental agency of the State and a public benefit corporation created in 1973 by the New York State Medical Care Facilities Finance Act to encourage the investment of private capital in various projects including hospitals and nursing homes. The Agency is authorized to make mortgage loans to nursing home companies and to hospital corporations and to borrow money and to issue negotiable bonds and notes to fund these programs and to pay the notes and refund the bonds of the Agency issued for such purpose. These bonds are being sold for that purpose.

(2) The State of New York has required, with respect to Hospital and Nursing Home Project Bonds of the New York State Medical Care Facilities Finance Agency, the maintenance of a reserve fund sufficient to meet the maximum of any succeeding year's annual requirements for bond principal and interest payments and has provided for the annual apportionment and payment from State funds for deposit to the reserve fund of such sum as is certified to be necessary to restore the fund to the required level. The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $82,000,000 New York State Medical Care Facilities Finance Agency Hospital and Nursing Home Project Bonds 1975 Series A are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and accordingly are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Apr. 9, 1975.)

§ 1.400 City-Housing Authority Building Authority (Napa, California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $1,150,000 City-Housing Authority Building Authority 1975 Building Facility Revenue Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The City-Housing Authority Building Authority is a public entity created under the laws of California by an agreement between the City of Napa and the Housing Authority of the City of Napa. Under this agreement the Building Authority is authorized to acquire, construct, maintain, operate and lease to the City a building for municipal purposes and to issue bonds to finance the project. The Authority is issuing these bonds to finance the acquisition, remodeling and improvement of a building which will be leased to the City. The completed project will provide office space for the City, the Housing Authority and the Redevelopment Agency of the City.

(2) The City, as required by its agreement with the Housing Authority, has unconditionally promised in the lease rental agreement to pay annual rentals to the Building Authority in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The City, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $1,150,000 City-Housing Authority Building Authority 1975 Building Facility Revenue Bonds are general obligations of a State or a political Subdivision

V401247 DEC 23 75 XUM

thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Apr. 11, 1975.)

§ 1.401 Alabama Public School and College Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of bonds of the Alabama Public School and College Authority for purchase, dealing in, and holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* Alabama Public School and College Authority, a public corporation and instrumentality of the State of Alabama, is authorized to issue bonds to finance the construction of capital improvements for public educational purposes in the State. The proceeds from such bonds are to be allocated among colleges and universities, junior colleges and vocational-technical institutes, elementary and secondary schools and other educational projects.

(c) *Ruling.* It is our conclusion that bonds of the Alabama Public School and College Authority issued for capital improvements to colleges, universities, junior colleges and vocational-technical institutes are issued by an agency of the State of Alabama for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the 10 percent limitation with respect to aggregate holdings of obligations issued by the Alabama Public School and Colleges Authority.

(Comptroller's letter dated May 19, 1975.)

§ 1.402 City of Inglewood-Los Angeles County Civic Center Authority.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $22,150,000 City of Inglewood-Los Angeles County Civic Center Authority, Municipal Court Building and Parking Structure Revenue Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The City of Inglewood-Los Angeles County Civic Center Authority is a public entity created under the laws of California by an agreement between the City of Inglewood and the County of Los Angeles. Under this agreement, the Authority is authorized to acquire, construct and lease public buildings, and to issue bonds to finance such projects. The Authority is issuing these bonds to finance the construction of a municipal court building and parking structure for the Inglewood area to be leased to and operated by the County.

(2) The County has unconditionally promised in the lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds, as well as other necessary expenses. The County, which possesses general powers of taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $22,150,000 City of Inglewood-Los Angeles County Civic Center Authority, Municipal Court Building and Parking Structure Revenue Bonds, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated May 20, 1975.)

§ 1.403 Industry Urban-Development Agency (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $52,010,000 Industry Urban-Development Agency Special Revenue Refunding Bonds, 1975 for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion* (1) Industry Urban-Development Agency is a public body corporate and politic created by the Community Redevelopment Law of California but authorized to function only upon a finding of need. The City of Industry has made the appropriate finding. The Agency is authorized to issue bonds for any of its corporate purposes.

(2) The Agency is issuing these bonds and $25,000,000 in Tax Allocation Refunding Bonds to provide for the establishment of an escrow account which will provide for the payment of interest on outstanding tax allocation bonds in the total amount of $30,000,000 issued by the Agency in 1971, 1972 and 1973 and redemption of the principal amount thereof on their first par call dates, in 1996 and 1997.

(3) The refunding program is being undertaken to restructure the Agency's indebtedness, reduce the amount of tax allocation revenues required to be accumulated in reserves, generate additional working capital for the Agency, and facilitate the issuance of additional parity Tax Allocation Bonds to finance future project improvements.

(4) Principal and interest on these bonds (Special Revenue Refunding Bonds) will be payable principally from interest earnings received from the investments in the escrow account which will consist of obligations issued by, or otherwise supported by the full faith and credit of, the United States, and from other funds including proceeds from the sale of the bonds. The interest earnings together with the other funds are required to be sufficient to provide for the timely payment of all principal and interest on the bonds. These bonds will thus be supported by obligations of the United States.

(c) *Ruling.* It is our conclusion that the $52,010,000 Industry Urban-Development Agency Special Revenue Refunding Bonds, 1975 are eligible for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(Comptroller's letter dated June 13, 1975.)

§ 1.404 Municipal Assistance Corporation for the City of New York.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of $1,000,000,000 Municipal Assistance Corporation for the City of New York 1975 Series A Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Municipal Assistance Corporation for the City of New York is a corporate governmental agency and instrumentality of the State of New York and a public benefit croporation created in June, 1975, by an act of the legislature of the State of New York, to assist the City in providing essential services to its inhabitants without interruption and in creating investor confidence in the soundness of the obligations of the City. To carry out such purposes, the Corporation is empowered, among other things, to issue and sell bonds and notes and to pay or lend funds received from such sale to the City and to exchange the Corporation's obligations for obligations of the City.

(2) Other laws of the State enacted or amended in June, 1975, provide for the suspension of the existing New York City Sales tax until all the notes and bonds of the Corporation shall have been fully paid; for the imposition of a new State sales tax within the City of New York and for the appropriation of the new tax to the Corporation to enable it to fulfill the terms of any agreement made with the holders of its notes and bonds and to carry out its corporate purposes including the maintenance of a capital reserve fund. The balance of the tax, if any, is to be appropriated to the City. It is expected that the taxes to be appropriated will be more than sufficient to pay the annual debt service of the $3,000,000,000 bonds authorized to be issued.

(3) Provision is also made for the gradual establishment (by 25% annual steps beginning in 1977 reaching the full requirement in 1980) and maintenance of a capital reserve fund and for the annual appropriation by the State and payment to the Corporation of the amount required to restore any deficiency in such fund. The reserve fund when fully established is to be in an amount not less than the amount of principal and interest maturing in the succeeding calendar year on bonds then to be issued and on all other outstanding bonds of the Corporation.

(4) The State, which possesses general powers of taxation, has thus committed its faith and credit in support of these bonds.

(c) *Ruling.* It is our conclusion that the $1,000,000,000 Municipal Assistance Corporation for the City of New York 1975 Series A Bonds are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated June 26, 1975.)

§ 1.405 Parking Authority of the City of Oakland (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $3,000,000 1975 Parking Lease Revenue Bonds, Series of 1974, of the Parking Authority of the City of Oakland for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Parking Authority of the City of Oakland is a public body corporate and politic created by the laws of California but authorized to function only upon a finding of need. The City has made the appropriate finding and, in accordance with the law, has appointed a five member board as the governing board of the Authority. Under the law, a parking authority is authorized to issue revenue bonds to finance public parking facilities and may issue such bonds without obtaining the approval of the electors of the city where the bonds are issued to finance a project which is to be leased to the City and where the principal of and interest on the bonds are to be payable from rentals paid by the city under such lease.

(2) The Authority is issuing these bonds to finance the construction and equipment of a five-level, 450 space, concrete parking facility at 19th and Franklin Street in the downtown area of the City. The completed facility will be leased by the Authority to the City.

(3) Under the lease rental agreement the City unconditionally promises to pay annual rentals to the Authority in an amount sufficient to meet annual interest and principal payments on these bonds as well as other necessary expense. The City, which possesses general powers of taxation will thus commit its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion that the $3,000,000 1975 Parking Lease Revenue Bonds of the Parking Authority of the City of Oakland are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated July 21, 1975.)

§ 1.406 Hospitals Authority of Philadelphia (University of Pennsylvania).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of approximately $34,000,000, The Hospitals Authority of Philadelphia, Hospital Revenue Bonds (The Hospital of the University of Pennsylvania) Series of 1975 for purchase, dealing in, underwriting and holding by national banks under paragraph Seventh of 12 U.S.C. 24 subject to the ten percent limitation thereof.

(b) *Opinion.* (1) The Hospitals Authority of Philadelphia is a body politic and corporate organized by the City of Philadelphia under the Pennsylvania Municipal Authorities Act of 1945. The Authority is authorized by law to issue bonds to finance the construction of buildings to be devoted wholly or partially to public uses including hospitals.

(2) The Authority is issuing these bonds to finance the cost of constructing a 14-level ambulatory and in-patient care facility to be known as the Silverstein Pavilion which will be an integral part of the Hospital of the University of Pennsylvania. The Hospital is a division of the University which is a private nonprofit educational corporation organized under the laws of Pennsylvania.

(3) The project will provide a new emergency service area, a cancer research center, ambulatory care physicians' office space, and 210 hospital beds. The construction of the facility constitutes a major element of the plan of the University to modernize the Hospital's facilities which are used by the University in the traditional manner of a teaching hospital.

(4) The Authority will have a leasehold interest in the existing hospital facilities and will lease the completed facilities to the University for annual rentals sufficient to meet annual interest and principal payments on the bonds as well as other necessary expenses.

(c) *Ruling.* It is our conclusion that the approximately $34,000,000 The Hospitals Authority of Philadelphia, Hospital Revenue Bonds (The Hospital of the University of Pennsylvania) Series of 1975 are issued by an agency of a State or a political subdivision for University purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the ten percent limitation with respect to aggregate holdings of obligations issued by The Hospitals Authority of Philadelphia.

(Comptroller's letter dated Aug. 4, 1975.)

§ 1.407 Tredyffrin Township Guaranteed Sewer Revenue Bonds.

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $4,350,000 Tredyffrin Township Guaranteed Sewer Revenue Bonds Series of 1975 for purchase, dealing in, underwriting and unlimited holding under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Tredyffrin Township Municipal Authority is a body politic and corporate organized by the Township of Tredyffrin under the Pennsylvania Municipal Authorities Act of 1945. The Authority is authorized by law to issue bonds to finance the construction of sewers, sewer systems or parts thereof and sewage treatment works.

(2) The Authority has, at the request of the Township, constructed a sewage collection system to serve areas in the eastern section of the Township. It is issuing these bonds to finance, together with federal grants, the construction of a sewage project consisting of three parts. The first part is a sewage collection facility to serve the developed and unsewered western section of the Township, known as the Paoli area, and most of the other developed and developing areas in the western section of the Township. The other two parts are shared with other authorities and the Authority is financing only its own share of the costs of construction. These parts include a trunk sewer to be constructed by the Authority to also serve others and a regional sewage treatment plant to be constructed by another authority.

(3) The bonds are to be issued under a supplemental indenture, equally and ratably secured with prior series of bonds, by the revenues of the Atuhority from a sewer system owned by the Authority and leased to the Township of Tredyffrin. The lease requires the Township to pay semi-annual rentals equal to 120% of the average annual debt service on the Authority's bonds. Under the lease the Township operates the system and imposes annual sewer rentals on the users of the system, which provides the funds for payment of the fixed lease rentals.

(4) The Township is authorized by law and will unconditionally guarantee the full and prompt payment when due of each of the payments of the principal and interest on these bonds.

(c) *Ruling.* It is our conclusion that the $4,350,000 Guaranteed Sewer Revenue Bonds, Series of 1975, are general obligations of a State or political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Aug. 8, 1975.)

§ 1.408 Mt. Diablo Hospital Authority (California).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of the $1,650,000 Mt. Diablo Hospital Authority Hospital Facilities Revenue Bonds, Second Issue, for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Mt. Diablo Hospital Authority is a public entity created pursuant to the laws of California by an agreement between the County of Contra Costa and the Mt. Diablo Hospital District to construct and finance additional hospital facilities to be leased to and operated by the District. The Authority has issued $8,900,000 of its 1972 revenue bonds to finance an expansion and remodeling program which added a new six story wing. The new wing has been completed and is occupied. The Authority is issuing these bonds to finance alterations to the old building to provide for the expansion of radiology, nuclear medicine and medical records.

(2) The Mt. Diablo Hospital District is a municipal corporation created pursuant to the laws of California to provide hospital services within a district encompassing approxmately 60 square miles in central Contra Costa County and having a population in excess of 120,000. Under the law, the District is managed by elected directors and may be financed by assessment on real personal property within the district.

(3) The District has unconditionally promised in the amended lease rental agreement to pay annual rentals to the Authority in an amount sufficient to meet annual principal and interest payments on the original and the second issue of bonds. The District, which pos-

V 40247 DEC 23 75 XUM

sesses powers of general property taxation, has thus committed its faith and credit in support of the bonds.

(c) *Ruling.* It is our conclusion, in accordance with our ruling of November 10, 1972, (12 CFR 1.359) relating to the 1972 bonds, that the $1,650,000 Mt. Diablo Hospital Authority Hospital Facalities Revenue Bonds, Second Issue, are general obligations of a State or a political subdivision thereof under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Aug. 19, 1975.)

§ 1.409 Washington Public Power Supply System.

(a) Request. The Comptroller of the Currency has been requested to rule on the eligibility of $175,000,000 Washington Public Power Supply System, Nuclear Project No. 1, 1975 Revenue Bonds for purchase, dealing in, underwriting and unlimited holding by national banks under paragraph Seventh of 12 U.S.C. 24.

(b) *Opinion.* (1) The Washington Public Power Supply System, a municipal corporation and joint operating agency of the State of Washington is authorized to acquire, construct and operate plants and facilities for the generation and transmission of electric power and energy and to issue revenue bonds to finance such activities.

(2) The System is issuing these bonds to finance a portion of the cost of acquiring and constructing Nuclear Project No. 1, a 1,250 mw pressurized water reactor electric generating station located on the Hanford Reservation in the State of Washington.

(3) The Project is part of a long term hydrothermal power program for the Pacific Northwest. Bonneville Power Administration, which was established in 1937, operates transmission facilities and markets power from federal hydroelectric plants to publicly owned electric utilities referred to as preference customers.

(4) The Project's entire electric capability has been sold by the System to one hundred and four of these preference customers and assigned by them to Bonneville under agreements that provide that each customer is obligated to pay the System its share of the Project's annual costs and Bonneville is obligated to credit the amounts so paid against amounts owed to Bonneville by such customer for the power and services it provides. Bonneville will use its revenues to pay any costs billed to such customers which are not so offset.

(5) Bonneville has been authorized by federal law to acquire from preference customers the generating capability of thermal plants constructed under the hydrothermal power program and to pay for such acquisition by net billing and also by the expenditure of funds.

(6) Through these arrangements the United States acting through Bonneville has undertaken an obligation to make available to the System amounts sufficient to meet annual interest and principal payments on these bonds as well as all other costs of operating the Project.

(c) *Ruling.* It is our conclusion that the $175,000,000 Washington Public Power Supply System, Nuclear Project No. 1, 1975 Revenue Bonds are obligations of the United States under paragraph Seventh of 12 U.S.C. 24 and are eligible for purchase, dealing in, underwriting and unlimited holding by national banks.

(Comptroller's letter dated Aug. 27, 1975.)

§ 1.410 Hospitals Authority of Philadelphia (Thomas Jefferson University).

(a) *Request.* The Comptroller of the Currency has been requested to rule on the eligibility of approximately $81,650,000, The Hospital Authority of Philadelphia, Hospital Gross Revenue Bonds, Series of 1975 (Thomas Jefferson University) for purchase, dealing in, underwriting and holding by national banks under paragraph Seventh of 12 U.S.C. 24 subject to the ten percent limitation thereof.

(b) *Opinion.* (1) The Hospitals Authority of Philadelphia is a body politic and corporate organized by the City of Philadelphia under the Pennsylvania Municipal Authority Act of 1945. The Authority is authorized by the law to issue bonds to finance the construction of buildings to be devoted wholly or partially to public uses including hospitals.

(2) The Authority is issuing these bonds to finance the cost of constructing a ten level multi-use hospital building and an enclosed over-street bridge connecting to one of the existing buildings of the Thomas Jefferson University Hospital. The Hospital is a division of the University which is a private nonprofit educational corporation organized under the laws of Pennsylvania.

(3) The new building will contain 411 acute care beds, 110 physicians' offices, and most of the Hospital's diagnostic, therapeutic and support services and will substantially replace inpatient functions of two buildings now in use. The Hospital serves as the principal teaching hospital of the University and provides a complete range of inpatient and outpatient services.

(4) The Authority will have a leasehold interest in the existing hospital facilities and will lease the completed facilities to the University for annual rentals sufficient to meet annual interest and principal payments on the bonds as well as other necessary expenses.

(c) *Ruling.* It is our conclusion that the approximately $81,650,000 The Hospitals Authority of Philadelphia, Hospital Gross Revenue Bonds, Series of 1975 (Thomas Jefferson University Hospital) are issued by an agency of a State or a political subdivision for university purposes and are eligible under paragraph Seventh of 12 U.S.C. 24 for purchase, dealing in, underwriting and holding by national banks within the ten percent limitation with respect to aggregate holdings of obligations issued by The Hospitals Authority of Philadelphia.

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

[No. 75-1114]

PART 546—MERGER, DISSOLUTION, REORGANIZATION, AND CONVERSION

Mergers

DECEMBER 10, 1975.

The following summary of the amendment adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. *Present Regulation*—Federal mutual associations are not required to notify their members when they file a merger application.

II. *Amended Regulation*—Requires merger applicants, within 15 days after submitting a completed application for a merger in which one or more of the applicants is a Federal mutual association, either to publish a notice of the filing of such completed application in a general circulation newspaper in the community or communities being served by the merging associations and the resulting association or mail such notice to members of each Federal mutual association.

III. *Reason for Amendment*—To better inform the members of Federal mutual associations of merger plans.

The Federal Home Loan Bank Board, by Resolution No. 75-567, dated June 25, 1975, proposed an amendment to § 546.2 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 546.2) in order to require merger applicants, after submitting a completed application for a merger in which one or more of the applicants was a Federal association, to publish a notice of the filing of such application in a newspaper having general circulation in the community or communities being served by the merging associations and the resulting association. By a companion Resolution (Resolution No. 75-568, dated June 25, 1975), the Board proposed a similar amendment to Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563). Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on July 2, 1975 (40 F.R. 27953-54) with an invitation for interested persons to submit written comments by August 8, 1975.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends § 546.2, with several minor changes from the proposal, by redesignating as paragraphs (f), (g), and (h) respectively, paragraphs (d), (e), and (f) thereof and adding thereto new paragraphs (d) and (e), to read as set forth below, effective January 26, 1976. By a companion Resolution (Resolution No. 75-1115) the Board today adopts a similar amendment to § 563.22 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.22).

This amendment differs from the proposal in five ways. First, merger applicants will be given 15 days, rather than 10, in which to make proper notification of the merger application. Second, the proposed requirement that a translation of the notice be published where a significant number of the members of either applicant speak a language other than English is deleted. Third, reference is made in the final amendment to the fact that the applications, related information, and communications (including those from notified members) are available for public inspection unless excepted from disclosure under the Freedom of Information Act. Fourth, the amendment applies only to Federal mutual associations. Fifth, the merging associations are authorized to mail the notices to members as an alternative to publication.

Previously, the only relevant regulatory provision that concerned membership notice was § 546.2(d), dealing with mergers in which one of the associations is a Federal. That section, now redesignated as § 546.2(f), provides that "the Board may, where it deems appropriate, require that the plan of merger be submitted to the voting members of either or both associations at a duly called meeting or meetings and that the plan, to become effective, be approved by them." The Board believes that, whether or not member approval is required in a given case, the members of Federal mutual associations are entitled to notification of the filing of a merger application.

The amendment requires the merger applicants, after being informed by the Supervisory Agent that an application for approval of a merger in which one or more of the associations is a Federal mutual association is complete, either to publish, within 15 days from the date of such advice, in a newspaper or newspapers printed in the English language and having general circulation in the community or communities being served by the merging associations and the resulting association, or to mail to the members of each merging Federal mutual association, within such 15-day period, a notice, in the form prescribed by the Board, of the filing of such application. The notice must contain the names of the associations involved, identify the proposed home office location, state specifically whether all branch offices are being continued or list those branch offices that are being discontinued, and indicate where interested persons may file communications concerning such application. Subdivision 546.2(d)(2) provides for an explicit exception to the notice requirement for mergers instituted for supervisory reasons.

§ 546.2 (d) (1) and (2) and (e), are revised as follows:

§ 546.2 Procedure; effective date.

* * * * *

(d) (1) Upon determination by the Supervisory Agent that an application for approval of a merger in which one or more of the associations is a Federal mutual association is complete, the Supervisory Agent shall advise the applicants, in writing, either to publish, within 15 days from the date of such advice, in a newspaper or newspapers printed in the English language and having general circulation in the community or communities being served by the merging associations and the resulting association, or to mail to the members of each such Federal mutual association, within such 15-day period, a notice of the filing of the application in the following form:

NOTICE OF FILING OF MERGER APPLICATION

Notice is hereby given that, pursuant to the provisions of § 546.2 of the Rules and Regulations for the Federal Savings and Loan System, the ---------- Savings and Loan Association, ----------, ---------, (city) (state) and the ---------- Savings and Loan Association, ----------, ---------- have filed (city) (state) an application with the Federal Home Loan Bank Board for permission to merge, ---------- Savings and Loan Association to be the resulting association, operating under the (same name) (name of ---------- Savings and Loan Association). (The previous sentence should be appropriately modified if an acquisition of assets and assumption of liabilities is involved.) The resulting association intends to have its home office at ----------, (street address) ----------, --------- (and to maintain all (city) (state) (or the) present branch offices (or office) or to discontinue a branch office (or offices) at the following location (or locations): ----------, ----------, ---------) (street address) (city) (state) The application has been delivered to the Office of the Supervisory Agent of the said Board, located at the Federal Home Loan Bank of ----------, ----------, (city) (street address) ----------, --------- Any person may file (city) (state) communications concerning said application at the aforesaid office of the Supervisory Agent within 10 days (or within 30 days if advice is filed within the first 10 days stating that more time is needed to furnish additional information) after the date of this publication. Four copies of any communication should be filed. The application, information submitted therewith, and all communications are available for inspection, unless excepted from disclosure pursuant to the Freedom of Information Act, by any person at the aforesaid office of the Supervisory Agent in accordance with the rules and regulations of the Federal Home Loan Bank Board.

---------- Savings and Loan Association ----------

(2) The requirements of this paragraph (d) do not apply to any merger authorized by the Board to be instituted for supervisory reasons.

(e) Promptly after publication or mailing of the notice or notices required under paragraph (d) of this section, the merger applicants shall transmit two copies thereof to the Supervisory Agent, accompanied by two copies of either a publisher's affidavit of publication or the applicant's affidavit of mailing, depending upon the method of notification chosen.

* * * * *

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. §1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.; Sec. 406, 48 Stat. 1259, as amended; 12 U.S.C. § 1729)

[No. 75-1115]

PART 563—OPERATIONS

Mergers

DECEMBER 10, 1975.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulation.

I. *Present Situation*—State-chartered insured institutions do not have to notify their members when they file a merger application with the Board unless required by State law.

V 40 247 DEC 23 75 XUM

II. *Amended Regulation*—Requires a State-chartered mutual insured institution, within 15 days after submitting its completed merger application, either to publish a notice of the merger application in a general circulation newspaper in the community or communities being served by the merging associations and the resulting association or to mail such notice to members of the State-chartered mutual insured institution.

III. *Reason for Amendment*—To better inform the members of State-chartered mutual insured institutions of merger plans.

The Federal Home Loan Bank Board, acting in its capacity as head of the Federal Savings and Loan Insurance Corporation, by Resolution No. 75–568, dated June 25, 1975, proposed an amendment to § 563.22 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.22) in order to require a merger applicant, after submitting its completed application, to publish in a newspaper having general circulation in the community or communities being served by the merging associations and the resulting association a notice of the filing of such application. By a companion Resolution (Resolution No. 75–567, dated June 25, 1975), the Board proposed a similar amendment to Part 546 of the Rules and Regulations for the Federal Savings and Loan System. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on July 2, 1975 (40 F.R. 27954–55) with an invitation for interested persons to submit written comments by August 8, 1975.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board hereby amends § 563.22, with several minor changes from the proposal, by redesignating as paragraph (a) the present undesignated paragraph thereof and adding thereto new paragraphs (b), (c), and (d), to read as set forth below, effective January 26, 1976. By a companion Resolution (Resolution No. 75–1114) the Board today adopts a similar amendment to § 546.2 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 546.2).

This amendment differs from the proposal in five ways. First, merger applicants will be given 15 days, rather than 10, in which to make proper notification of the merger application. Second, the proposed requirement that a translation of the notice be published where a significant number of the members of either applicant speak a language other than English is deleted. Third, reference is made in the final amendment to the fact that the applications, related information, and communications (including those from notified members) are available for public inspection unless excepted from disclosure under the Freedom of Information Act. Fourth, the amendment applies only to institutions whose accountholders or borrowers have voting rights, *e.g.*, mutual institutions. Fifth, merging associations are authorized to mail the notices to members as an alternative to publication.

Section 563.22 prohibits an insured institution from increasing its accounts of an insurable type as a part of any merger or consolidation with another institution or through the purchase of bulk assets, without application to and approval by the Federal Savings and Loan Insurance Corporation. With regard to mergers involving State-chartered insured institutions subject to the Board's jurisdiction, the Board has not required approval by members unless State law or a State-chartered association's charter or bylaws require it. However, the Board believes that, whether or not member approval is required in a given case, the members of a mutual insured institution are entitled to notification of the filing of a merger application.

The amendment requires a merger applicant whose accountholders have voting rights, after being informed by the Supervisory Agent that an application for approval of a merger is complete, either to publish, within 15 days from the date of such advice, in a newspaper or newspapers printed in the English language and having general circulation in the community or communities being served by the merging associations and the resulting association, or to mail to the members of each such insured institution, a notice, in the form prescribed by the Board, of the filing of such application. The notice must contain the names of the institutions involved, identify the proposed home office location, state specifically whether all branch offices are being continued or list those branch offices that are being discontinued, and indicate where interested persons may file communications concerning such application. Subdivision 563.22(d)(2) provides for an explicit exception to the notice requirement for mergers instituted for supervisory reasons. Subdivision 563.22(d)(1) defers to State law or the charter or bylaws of the State-chartered institution where they require notice no less timely, informative and widely circulated than the notice the Board would require.

Section 563.22 is revised as follows:

§ 563.22 Merger, consolidation, or purchase of bulk assets.

(a) No insured institution may at any time increase its accounts of an insurable type as a part of any merger or consolidation with another institution or through the purchase of bulk assets, without application to and approval by the Corporation. Application for such approval shall be upon forms prescribed by the Corporation and such information shall be furnished therewith as the Corporation may require.

(b) Except as provided in paragraph (d) of this section, upon determination by the Supervisory Agent that an application for approval of a merger is complete, the Supervisory Agent shall advise the applicants, in writing, either to publish, within 15 days from the date of such advice, in a newspaper or newspapers printed in the English language and having general circulation in the community or communities being served by the merging associations and the resulting association, or to mail to the members of each such insured institution, a notice, in the form prescribed by the Board, of the filing of such application. The notice must contain the names of the institutions involved, identify the proposed home office location, state specifically whether all branch offices are being continued or list those branch offices that are being discontinued, and indicate where interested persons may file communications concerning such application. Subdivision 563.22(d)(2) provides for an explicit exception to the notice requirement for mergers instituted for supervisory reasons. Subdivision 563.22(d)(1) defers to State law or the charter or bylaws of the State-chartered institution where they require notice no less timely, informative and widely circulated than the notice the Board would require.

Section 563.22 is revised as follows:

§ 563.22 Merger, consolidation, or purchase of bulk assets.

(a) No insured institution may at any time increase its accounts of an insurable type as a part of any merger or consolidation with another institution or through the purchase of bulk assets, without application to and approval by the Corporation. Application for such approval shall be upon forms prescribed by the Corporation and such information shall be furnished therewith as the Corporation may require.

(b) Except as provided in paragraph (d) of this section, upon determination by the Supervisory Agent that an application for approval of a merger is complete, the Supervisory Agent shall advise the applicants, in writing, either to publish, within 15 days from the date of such advice, in a newspaper or newspapers printed in the English language and having general circulation in the community or communities being served by the merging associations and the resulting association, or to mail to the members of each such insured institution, within such 15-day period, a notice of the filing of the application in the following form:

NOTICE OF FILING OF MERGER APPLICATION

Notice is hereby given that, pursuant to the provisions of § 563.22 of the Rules and Regulations for Insurance of Accounts, the _____ Savings and Loan Association, _____, _____, and the _____ (city) (state) _____ Savings and Loan Association, _____, _____ have filed an application with the Federal Savings and Loan Insurance Corporation for permission to merge, _____ Savings and Loan Association to be the resulting association, operating under the (same name) (name of _____ Savings and Loan Association). (The previous sentence should be appropriately modified if an acquisition of assets and assumption of liabilities is involved.) The resulting association intends to have its home office at _____, _____, _____ (street address) (city), (state) (and to maintain all (or the) present branch offices (or office) or to discontinue a branch office (or offices) at the following location (or locations); _____, _____, _____.) The (street address) (city) (state) application has been delivered to the office of the Supervisory Agent of the said Board, located at the Federal Home Loan Bank of _____, _____, _____, _____ (city) (street address) (city) (state) .) Any person may file communications concerning said application at the aforesaid office of the Supervisory Agent within 10 days (or within 30 days if advice is filed within the first 10 days stating that more time is needed to furnish additional information) after the date of this publication. Four copies of any communication should be filed. The application, information submitted therewith, and all communications are available for inspection, unless excepted from public disclosure pursuant to the Freedom of Information Act, by any person at the aforesaid office of the Supervisory Agent in accordance with the rules and regulations of the Federal Home Loan Bank Board.

_____ Savings and Loan Association _____

(c) Promptly after publication of the notice or notices required under paragraph (b) of this section, the applicants shall transmit two copies thereof to the Supervisory Agent, accompanied by two copies of either a publisher's affidavit of publication or the applicants' affidavit of mailing, depending upon the method of notification chosen.

(d)(1) In the case of an insured institution which is not a Federal association, the requirements of paragraph (b) of this section shall not apply if, under applicable State law or such institution's charter or bylaws, a notice to members is required which is no less timely, informative and widely distributed than the notice required under said paragraph (b). (2) The requirements of paragraph (b) do not apply to any merger authorized by the Corporation to be instituted for supervisory reasons or to any merger which does not involve an insured institution whose accountholders or borrowers have voting rights as such therein.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. §§ 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

EXPORT REGULATIONS

Revisions and Amendments

Part 375 of the *Export Administration Regulations* has been revised editorially to eliminate unnecessary duplication, provide for better organization of material, eliminate inconsistencies, and simplify the instructions for preparing and forwarding export control supporting documents relating to exports and reexports. Some of the more important features of this revision are:

(a) An introduction has been added containing a chart that identifies the documents required in support of certain applications and the specific sections of the *Regulations* where instructions on the use of these documents may be found;

(b) The statements required from the ultimate consignee and purchaser (Single Transaction Statement by Consignee and Purchaser, Form DIB–626P and Multiple Transactions Statement by Consignee and Purchaser, Form DIB–627P) have been combined into a single form (Form DIB–629P, Statement by Ultimate Consignee and Purchaser), which should result in savings to both the exporter and the Office of Export Administration; and

(c) The instructions for preparing and forwarding various supporting documents to the Office of Export Administration have been consolidated and included in one section since the instructions for each document are similar. This has resulted in elimination of repetitive and duplicate instructions throughout Part 375.

Effective date of action: December 17, 1975.

Accordingly, Part 375 of the *Export Administration Regulations* (15 CFR Part 375) is revised to read as follows:

PART 375—DOCUMENTATION REQUIREMENTS

Sec.

375.1 Introduction.
375.2 Form DIB–629P, Statement by Ultimate Consignee and Purchaser.
375.3 International Import Certificate and Delivery Verification Certificate.
375.4 Swiss Blue Import Certificate.
375.5 Yugoslav End-Use Certificate.
375.6 Documents accompanying applications.
375.7 Special provisions.

SUPPLEMENT No. 1—AUTHORITIES ADMINISTERING IMPORT CERTIFICATE/DELIVERY VERIFICATION SYSTEM IN FOREIGN COUNTRIES

AUTHORITY: (Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945 and E.O. 11038.)

§ 375.1 Introduction.

Most individual export license applications and certain reexport authorization requests must be accompanied by supporting documents designed to elicit information concerning the disposition abroad of the goods intended for export or reexport. The following chart describes in brief the documents that are required in support of various types of proposed export transactions. Specific regulations governing the submission of these documents follow as indicated on the chart. See also § 375.7 for provisions common to two or more of the required documents.

If the commodity is—	And the country of destination is—	Required document is—	For specific regulations see—
1. Identified by the code letter A following the Export Control Commodity Number.	Austria, Belgium, Denmark, Federal Republic of Germany, France, Greece, Hong Kong, Italy, Japan, Luxembourg, Netherlands, Norway, Portugal, Turkey, or United Kingdom.	International Import Certificate issued by the government of the country of destination.	§ 375.3
2. Identified by the code letter B, C, or M.	do	Statement by Ultimate Consignee and Purchaser (form DIB–629P).	§ 375.2
3. Identified by the code letter A, B, C, or M.	Switzerland	Swiss Blue Import Certificate issued by Swiss Government.	§ 375.4
4. Identified by the code letter A, B, C, or M.	Yugoslavia	Yugoslav End-Use Certificate issued by Yugoslav Chamber of Economy.	§ 375.5
5. Identified by the code letter A, B, C, D, F, J, or M.	All other destinations except those included in Country Group T.	Statement by Ultimate Consignee and Purchaser (form DIB–629P).	§ 375.2

In addition, the exporter may also be required to obtain from the ultimate consignee and/or purchaser a document issued by the consignee and/or purchaser's government after shipment has been made. Detailed regulations governing submission of this document are contained in § 375.3(i).

§ 375.2 Form DIB–629P, Statement by ultimate consignee and purchaser.

(a) *Scope.* A Form DIB–629P, Statement by Ultimate Consignee and Purchaser, is required, unless one or more of the exemptions set forth in (b) below apply, in support of each individual export license application where the country of ultimate destination is in Country Group Q, S, V, W, Y, or Z. In addition, a Form DIB–629P is required in support of (a) Time Limit (TL) license applications and (b) reexport authorization requests involving shipments to certain countries as specified in Part 374. This document may be completed, at the ultimate consignee's option, to cover a single transaction or multiple transactions. Detailed instructions for completion and use of the form are set forth in § 375.2 (c) through (j) below. The Form DIB–629P is required by the Office of Export Administration to assure that foreign consignees and purchasers are fully aware of their responsibilities for the representations made to the Office of Export Administration and for the disposition of the licensed commodities only in those foreign countries where the Office of Export Administration has specifically authorized disposition.

(b) *Exemptions.* The provisions of this § 375.2 do not apply if the license application covering the proposed shipment shows that any of the following conditions is present:

(1) An International Import Certificate (§ 375.3), a Swiss Blue Import Certificate (§ 375.4), or a Yugoslav End-Use Certificate (§ 375.5) is required in support of the application;

(2) The total value of commodities classified under a single entry on the Commodity Control List (as shown on the export order covering the application) is less than $2,200. However, these total value exemptions do not apply to an application supported by a Form DIB–629P covering multiple transactions; or

(3) Both the ultimate consignee and purchaser are a foreign government(s) or foreign government agency(ies). However, if either is not a foreign government or government agency, then a statement from that nongovernmental party is required. For the purpose of this regulation, the term "government agency" is defined as follows:

(i) National governmental departments operated by government-paid personnel performing governmental administrative functions; e.g., Finance Ministry, Ministry of Defense, Ministry of Health, etc., Municipal or other local government entities must submit consignee statements.

(ii) National government-owned public service entities; e.g., nationally owned railway, postal telephone, telegraph, broadcasting, and power systems, etc. The term "government agency" does not include government corporations, quasi-government agencies, and state enterprises engaged in commercial, industrial and manufacturing activities, such as petroleum refineries, mines, steel mills, retail stores, automobile manufacturing plants, airlines, or steamship lines that operate between two or more countries, etc.;

(4) Shipment will be made by a relief agency registered with the Advisory Committee on Voluntary Foreign Aid, U.S. Agency for International Development, to a member agency in the foreign country;

V40247 DEC 23 75 D XUM

(5) The applicant is the same person as the ultimate consignee, provided he furnishes on the license application all the applicable information that would be required in a consignee/purchaser statement. This exemption does not apply where the applicant and the consignee are separate entities, such as parent and subsidiary, or affiliated or associated firms;

(6) The export will be made for display at a trade fair or exhibition, or for demonstration or testing purposes (see § 372.8(c));

(7) The ultimate consignee is an institution of higher learning (e.g., university, academy, college, etc.), located in Country Group T (under the Time Limit License Procedure), or Country Group V. The institution must have actually placed the order with the applicant and will take delivery when the shipment is received in the importing country. This exemption does not apply if the commodities to be exported are listed in Supplement No. 1 to Part 373, "Commodities Excluded From Certain Special License Procedures";

(8) Shipment is to be made to Country Group Y of a commodity(ies) classified under an entry on the Commodity Control List (§ 399.1) that requires a validated license for Country Groups S, Y, and Z only;

(9) Shipment will be made under the short supply provisions of Part 377; or

(10) The license application is for a Project License (373.2), Distribution License (373.3), Service Supply License (373.7); or is supported by a Statement by Foreign Importer of Aircraft or Vessel Repair Parts, Form DIB–686P or FC–43 (373.8), or a Request for Authorization To Distribute United States-Origin Commodities Stocked Abroad to Approved Customers, Form DIB–624P or FC–143 (373.4).

NOTE: Pursuant to § 372.5, the Office of Export Administration may require an applicant to furnish a Form DIB–629P, Statement by Ultimate Consignee and Purchaser, in support of a pending application even though the document is exempted by this § 375.2(b).

(c) *Applications Filed Without Statements.* Where an application requiring a consignee/purchaser statement is not accompanied by such statement, the application will be returned without action to the applicant. However, if an applicant can show that he has made diligent efforts to obtain such statement and has been unable to do so, he may advise the Office of Export Administration in a letter attached to his application, giving the reasons stated by the ultimate consignee or purchaser for failing or refusing to supply the statement. If satisfied by the evidence presented, the Office of Export Administration will consider the application for approval.

(d) *Single/Multiple Transactions.* (1) Completion of Form DIB–629P, Statement by Ultimate Consignee and Purchaser.[1] Form DIB–629P, Statement by Ultimate Consignee and Purchaser, is designed for use in support of (i) an application covering a single purchase order placed with one exporter by one ultimate consignee (and only one purchaser if different from the ultimate consignee) for one or more commodities or (ii) a series of applications involving recurring orders from the same consignee and/or purchaser for the same commodity(ies) to the same destinations and for the same end uses. Use of Form DIB–629P as a multiple consignee/purchaser statement is suggested when the exporter has a continuing and regular business relationship with the ultimate consignee.

(2) Single Purchase Order. When Form DIB–629P is to be used as a single transaction statement, Item 2 should be completed by checking box "a"; and item 3 should be completed by specifying quantity and value as well as commodity description. See § 375.2(e) for detailed instructions related to information required on the Form.

(3) Multiple Purchase Orders. When Form DIB–629P is to be used as a multiple transactions statement or in support of a Time Limit (TL) license application, Item 2 should be completed by checking box "b" and specifying the expiration of the statement only if earlier than June 30 of the second year after signing. Item 3 should be completed by entering a description of the commodity (ies) in terms sufficiently definite to identify them clearly, but broad enough to include all commodities to which the statement applies. DO NOT ENTER QUANTITY OR VALUE. If either quantity or value is included, the statement will be considered a single transaction statement and will be limited to such quantity or value. See § 375.2(e) below for detailed instructions related to information required on the Form.

(4) Number of copies to be submitted. Only the original Form 629P need be submitted for a single transaction. The original *and* one copy must be submitted for multiple transactions.

(e) *Information Required on Form DIB–629P.* All of the information required by this § 375.2(e), or by Form DIB–629P, shall be furnished if applicable to the transaction. If such information is unknown, the fact should also be disclosed. The printed name, address, or nature of business of the ultimate consignee or purchaser appearing on his letterhead or order form shall not constitute evidence of either his identity, the country of ultimate destination, or end use of the commodities described in the application. Any additional facts that the consignee or purchaser believes will be of value to the Office of Export Administration in the consideration of license applications submitted in his behalf by the U.S. exporter should be entered in the space entitled "Additional Information," or on an attachment.

(1) Assistance in preparing form. The applicant or his agent may assist in completing the form prior to its being signed by the consignee and purchaser, if necessary and appropriate. If so, the name of the person assisting shall be shown in the space entitled "Assistance in Preparing Statement."

(2) Commodity description. The commodities to which the Statement applies shall be described in terms that will enable the Office of Export Administration to determine readily that the commodities on a license application are adequately covered by the commodity description on the related Form DIB–629P. If not, the applicant should add an explanatory note on the application in the space entitled "Commodity Description" or on an attachment, to make the relationship clear. When Form DIB–629P is completed as a single transaction statement, the commodities should be described in detail, giving such particulars as the name, model or type number, basic ingredients, composition, size, gauge, grade, or horsepower. If possible, describe in accordance with the Commodity Control List (§ 399.1). Where Form DIB–629P is completed as a multiple transaction statement, the commodity description shall be stated in terms sufficiently definite to identify the commodities clearly but broad enough to include all commodities to which the statement applies; e.g., a commodity description set forth in a bold-faced capitalized subsection title, if any, under a Section title of the Commodity Control List, such as, "Crude Rubber, including Synthetic and Reclaimed Rubber" (see Commodity Control List, page CCL–1), or "Metalliferous Ores and Metal Scrap" (see Commodity Control List, page CCL–), usually would be a satisfactory description modity Control List, page CCL–2), usually would be a satisfactory description for any or all of the commodities included under that subsection title.

(3) Commodities to be reexported. Acceptance of a Form DIB–629P as a supporting document shall not be construed as an authorization by the Office of Export Administration to reexport the commodities in the form in which received even though the intention to reexport is indicated thereon. Such authorization to reexport is not granted on the basis of information on this form but as a result of a specific request by the U.S. exporter on the license application, or upon request of the consignee (either directly or through the U.S. exporter) after the license is issued (see Part 374 on reexports).

(4) Commodities to be used as components in foreign manufacture. Form DIB–629P requires information as to the

[1] Present stocks of the Single Transaction Statement by Consignee and Purchaser, Form DIB–626P or FC–842; and Multiple Transactions Statement by Consignee and Purchaser, Forms DIB–627P or FC–843, may continue to be used until exhausted.

specific end use of the commodities. If the ultimate consignee will use the commodity(ies) to produce other end products, he should show in the space entitled "The specific end use by my customer will be," the names of the end products to be manufactured, the country(ies) where the production or manufacture will take place, and the country(ies) in which the end product will be distributed, if these facts are known.

(5) Quantity and value on Form DIB–629P. When Form DIB–629P is prepared as a single transaction statement, the quantity and (if known) the value of commodities ordered should be shown in the appropriate items of the Form. If actual value is not known, an estimated value should be shown and labeled "estimate." If it is impossible to determine an estimated value, the word "Unknown" should be shown, together with an explanation of the reason why an actual or estimated value cannot be provided. If the commodity is licensed in terms of dollar value and the statement indicates that the value is "unknown," the Office of Export Administration will consider the approval of one application against the Form DIB–629P provided the applicant states on the license application that the transaction described on the application is the same as that described on the Form DIB–629P. An application for an export license will not be approved for a quantity or value significantly in excess of the actual or estimated quantity or value shown on the Form DIB–629P. When Form DIB–629P is prepared as a Multiple Transactions Statement, quantity and value should be omitted, since the form will cover all transactions between the named parties for a period of as much as 18 to 30 months. Forms indicating quantity or value will be treated as Single Transaction Statements.

(6) Validity period. The original of a Form DIB–629P prepared as a single transaction statement should be submitted to the Office of Export Administration with the first applicable license application. The period within which the statement may be submitted to the Office of Export Administration is limited to 180 days after it is signed by the consignee or purchaser, whichever date is later. There is no specific time limit for submitting a DIB–629P prepared as a multiple transactions statement to the Office of Export Administration, but such statement may not be used to support license applications filed after the termination date shown in Item 2. The form will expire June 30 of the *second* year following the year in which it is signed, unless the consignee or purchaser enters an earlier date in Item 2. For example, a Form DIB–629P signed any time between January 1, 1976 and December 31, 1976, could be used to support license applications filed on or before June 30, 1978 if no earlier date is entered in Item 2. If, in this example, an earlier termination date than June 30, 1978 is entered in Item 2 of the form, the DIB–629P could be used to support only applications filed before that date. During its validity period, a Form DIB–629P prepared as a multiple transactions statement will be deemed as supporting all exports of the specified commodities from the U.S. exporter to the same consignee and purchaser for which license applications are submitted to the Office of Export Administration, *including* those that are based on export orders of less than $2,200, and would therefore not be subject to this same requirement under the procedure for a single transaction statement.

(7) Signatures. The Form DIB–629P must be manually signed either by

(i) the ultimate consignee (the person abroad who is actually to receive the material for the designated end use), and by the purchaser (the person abroad who has entered into the export transaction with the applicant to purchase the commodities for delivery to the ultimate consignee) if the purchaser is not the same party as the ultimate consignee, or

(ii) responsible officials representing the ultimate consignee and purchaser, respectively, who have personal knowledge of the information included in the statement, who have authority to bind the ultimate consignee and purchaser for whom they sign, and who have the power and authority to control the use and disposition of the licensed commodities in the country of ultimate destination. The authority to sign this statement may not be delegated to any person (agent, employee, or other) whose authority to sign is not inherent in his official position with the ultimate consignee or purchaser for whom he signs. The signing official may be located in the United States or in a foreign country; his official title must be included with his signature. Where the purchaser is not the ultimate consignee, the purchaser may execute a separate statement if more convenient. The purchaser's statement must meet the same requirements of content, signatures, etc., as required for the ultimate consignee's statement.

(f) *Responsibility of Parties to Transaction.* (1) Order party must sign in some cases. If the applicant for license is not named on the consignee/purchaser statement, the order party provisions of § 372.6(c) must be observed.

(2) Ultimate consignee and purchaser. In accordance with the certification on the Form DIB–629P, the consignee and/or purchaser must submit information that is true and correct to the best of their knowledge and belief and must promptly send a supplemental statement to the U.S. exporter if changes in the facts or intentions as set forth in their statement(s) occur after such statement has been forwarded. Further, no commodities covered by the statement may be disposed of contrary to: (i) the representations made in the statement, or (ii) the limitations on countries of distribution indicated on the bill of lading, commercial invoice, or other comparable documents, without obtaining approval of the Office of Export Administration, through the U.S. exporter, prior to such disposition. Misrepresentations, either through failure to disclose facts, concealing a material fact, or furnishing false information, will subject the ultimate consignee and/or purchaser to administrative action by the Office of Export Administration, which may include suspension, revocation, or denial of licensing privileges and denial of other participation in exports from the United States.

(g) *Corrections, Additions, or Alterations.* After a Statement by Ultimate Consignee and Purchaser, Form DIB–629P, has been signed by the consignee or purchaser, no corrections, additions, or alterations may be made by any person other than the consignee or purchaser. (The signing of the exporter's certification on the form is not construed to be a correction, addition, or alteration of the form within the meaning of this § 375.2(g). If the signed statement is incomplete or incorrect in any respect, the applicant shall obtain a corrected statement from the consignee and/or purchaser. Where the statement contains corrections, additions, or alterations that appeared on the statement at the time of receipt from the ultimate consignee or purchaser, the applicant shall sign the certification in the "Certification for Use of U.S. Exporter" space on the form or attach the following certification to the statement:

I (We) certify that no corrections, additions, or alterations were made on the attached Form DIB–629P by me (us) after the form was signed by the (ultimate consignee) (purchaser).

If the applicant or agent makes any corrections, additions, or alterations on the form when assisting in its preparation (as explained in § 375(2)(e)(1) above) the applicant shall advise the Office of Export Administration in writing of the change(s) made and reason(s) for making them. The letter shall also include the certification shown above.

(h) *Amendment of Statement by Ultimate Consignee and Purchaser, Form DIB–629P.* Where a Form DIB–629P is on file in the Office of Export Administration, an amendment to the statement may be submitted in the form of an additional Form DIB–629P or the original or copy of a wire or cable from the ultimate consignee. Sufficient information must be submitted with the amendment to permit the Office of Export Administration to identify if with the statement already on file, such as name of consignee or purchaser, date of signing; case number of the license application with which the statement was submitted to the Office of Export Administration; applicant's reference number; etc.

(i) *Extension of Validity Period of Statement by Ultimate Consignee and Purchaser.* The validity period of a Form DIB–629P prepared as a multiple transactions statement may be extended only by the submission of a new Form DIB–629P prior to the expiration of a current form.

(j) *License Applications Supported by Form DIB–629P, Statement by Ultimate*

V401247 DEC 23 75 XUM

Consignee and Purchaser. (1) Relationship of information on Statement by Ultimate Consignee and Purchaser to license application and export license. Information supplied by a consignee or purchaser on a Form DIB–629P cannot be construed as extending or expanding the specific information on a license application or an export license resulting therefrom. With regard to disclosure of facts pertaining to an individual export transaction, the license application covering the transaction must be self-contained. The authorizations contained in the resulting export license are not extended by the general information contained in the Statement by Ultimate Consignee and Purchaser with regard to reexport from the country of destination or with regard to any other facts relative to the transaction as reported on the application.

(2) Multiple Transactions. A license application supported by a Form DIB–629P, with Item 2b completed, shall contain the following statement in the item entitled "Additional Information" or on an attachment:

This application is supported by the Multiple Transactions Statement by Ultimate Consignee and Purchaser dated ---------- from the named consignee to this applicant.

(3) Single Transaction. Where a Form DIB–629P has Item 2a completed and the statement (Form DIB–629P) covers a purchase order for commodities that require more than one license application, each application supported by a Statement by Ultimate Consignee and Purchaser must contain the following certification by the applicant in the space entitled "Additional Information" or on an attachment:

I (We) certify that the quantities of commodities shown on all export licenses based on the Single Transaction Statement by Ultimate Consignee and Purchaser dated ----------, when added to the quantities shown on all additional applications pending in the Office of Export Administration based on the same Statement by Ultimate Consignee and Purchaser, including the present application, do not total more than the quantities shown on that statement. This Statement by Ultimate Consignee and Purchaser was submitted in support of application number (*insert case number, or if case number is unknown, the applicant's reference number, date of submission of the application to which the Statement by Ultimate Consignee and Purchaser was attached, and Export Control Commodity Numbers and Processing Number shown on that application*).

§ 375.3 International Import Certificate and Delivery Verification Certificate.

(a) *Scope.* The International Import Certificate is a document issued by the government of a country listed in § 375.3 (b) below and represents an undertaking by the issuing government to exercise legal control over the disposition of the commodities covered. It is obtained by the importer (ultimate consignee or purchaser) and transmitted to the exporter (applicant). The document is required by the Office of Export Administration in support of an individual export license application, unless one or more of the exemptions set forth in 375.3(d) below apply, to export a commodity(ies) identified by the code letter "A" following the Export Control Commodity Number on the Commodity Control List to one of the country destinations listed in § 375.3 (b) below. It may also be required for transactions not involving an export from the United States (See 368.2(a)(8).) The Delivery Verification Certificate is a document issued by the governments of the countries listed in § 475.3(b) below, after the export has taken place and the commodities have either entered the export control jurisdiction of the recipient country or are otherwise accounted for by the importer to the issuing government. The Delivery Verification Certificate is required by the Office of Export Administration on a selective basis as set forth in § 375.3(i) below.

The control exercised by the government issuing an International Import Certificate or Delivery Verification Certificate is in addition to conditions and restrictions placed on the export by the Office of Export Administration. The laws and regulations of the United States are in no way modified, changed, or superseded by the issuance of an International Import Certificate or a Delivery Verification Certificate.

(b) *Destinations.* The following country destinations are subject to the International Import Certificate/Delivery Verification Certificate System requirements.[1]

Austria	Hong Kong (see § 375.3(c)(3) below)
Belgium	Italy
Denmark	Japan
France	Luxembourg
Germany, Federal Republic of (including West Berlin)	Netherlands
Greece	Norway
	Portugal
	Turkey
	United Kingdom

(See Supplement No. 1 to this Part 375 for list of addresses in the above country destinations where foreign importers may obtain International Import Certificates.) Facsimiles of International Import Certificates issued by each of the above destinations may be inspected at any U.S. Department of Commerce District Office (see list on page 1 under District Office Addresses), or at the Office of Export Administration, Exporters' Service Section, U.S. Department of Commerce, 14th and "E" Streets, NW., Washington, D.C. The provisions of this § 375.3 do not apply to any overseas territories of the above destinations unless specially listed.

(c) *Documentation Provisions.* (1) Terms used. As used in this § 375.3, the terms "International Import Certificate," "Delivery Verification Certificate," "Hong Kong Import License," and "Landing Certificate" refer to the documents issued by governments of the countries listed in § 375.3(b) above to importers in such countries and are equivalent documents to the International Import Certificate, DIB–645P or FC–826 and U.S. Delivery Verification Certificate, Form DIB–647P or FC–908, issued to U.S. importers (see §§ 368.2 and 368.3).

(2) Triangular symbol. In accordance with international practice, the government issuing office may stamp a triangular symbol on the International Import Certificate. This symbol is notification that the importer does not intend to import or retain the commodities in the country issuing the import certificate, but that, in any case, the commodities will not be delivered to any destination except in accordance with the export regulations of the issuing country.

(3) Special provisions for Hong Kong. With regard to exports to Hong Kong, the term "Import Certificate" means the DUPLICATE copy of Form 3, Hong Kong Import License, containing one of the following stamped endorsements signed by a Hong Kong Government Official:

For use in Hong Kong. Diversion en route prohibited. Reexport not permitted except under special license.

or

For reexport to (destination). Diversion en route prohibited. To be delivered by shipping or airline company concerned to Govt-designated godown. Overside delivery not permitted. Release from godown subject to approval of export license.

The term "Delivery Verification Certificate" means the C&I Form 229, Hong Kong Delivery Verification, or the C&I Form 42, Hong Kong Landing Certificate. C&I Form 42 is acceptable only where the Hong Kong Government does not issue C&I Form 229. (See § 375.3(i) for delivery verification certificate requirements.)

(d) *Exemptions.* Import Certificate requirements shall not apply to:

(1) A license application to export commodities classified in a single entry on the Commodity Control List, the total value of which, as shown on the export order, is less than $2,200, except where a multiple transactions Import Certificate is filed in accordance with § 375.3 (g)(2) below;

(2) A license application to export commodities to a foreign government or government agency that actually placed the order with the applicant and will take delivery of the commodities when received in the importing country (see § 375.2(b)(3) for definition of "government agency");

(3) A license application filed by a relief agency registered with the Advisory Committee on Voluntary Foreign Aid, Agency for International Development, for export of commodities to a member agency in the foreign country;

(4) A license application to export commodities for exhibition, demonstration, or testing purposes (see § 372.8(c));

(5) A license application to export commodities to an institution of higher learning (e.g., university, academy, college, etc.). The institution must have actually placed the order with the applicant and will take delivery when received in the importing country. This exemption does not apply if the commodities to be exported are listed in Supplement No. 1 to Part 373, "Commodities Excluded From Certain Special License Procedures;

(6) A license application filed under the short supply provisions Part 377; or

(7) A license application for a Project License (373.2), Distribution License (373.3), Service Supply License (373.7); or supported by a Statement by Foreign Importer of Aircraft or Vessel Repair Parts, Form DIB–686P or FC–43 (373.8); or a Request for Authorization To Distribute United States-Origin Commodities Stocked Abroad to Approved customers, Form DIB–624P or FC–143 (373.4).

(e) *Exceptions.* (1) Grounds for exception. Favorable consideration of a request for exception generally, will be given where the International Import Certificate requirement:

(i) Imposes an undue hardship on the applicant and/or ultimate consignee (e.g., refusal by the foreign government to issue an Import Certificate and such refusal constitutes discrimination against the U.S. exporter); or

(ii) Cannot be complied with (e.g., the commodities will be held in a foreign trade zone or bonded warehouse for subsequent distribution in one or more countries); or

(iii) Is not applicable to the transaction (e.g., the commodities will not be imported for consumption into the named country of destination).

An exception will not be granted contrary to the objective of the U.S. export control program. The procedure to follow in requesting an exception is set forth in § 375.7(g).

(f) *Relationship to Form DIB–629P, Statement by Ultimate Consignee and Purchaser.* (1) The requirement of a Form DIB–629P, Statement by Ultimate Consignee and Purchaser (§ 375.2) is not applicable where an International Import Certificate is required by this § 375.3.

(2) Where an International Import Certificate is not specifically required by this § 375.3, an export to a country destination listed in § 375.3(b) above is subject to the requirement of a Statement by Ultimate Consignee and Purchaser, Form DIB–629P, and an Import Certificate may not be substituted for that statement.

(3) When the code letter "A" following the Export Control Commodity Number is replaced by another code letter, the commodities covered by that entry are removed from the International Import Certificate requirements of this § 375.3. Neither a new International Import Certificate nor an International Import Certificate previously submitted to the Office of Export Administration will be accepted in lieu of the required Statement of Ultimate Consignee and Purchaser in support of a license application that is submitted to the Office of Export Administration after the change in the code letter (See § 375.7(b) for Grace Period.)

(g) *Submission of International Import Certificate.* (1) Single Transaction Certificate: (i) The applicant shall attach to his license application covering a proposed export the original International Import Certificate, bearing the official authentication of the government authorities in the importing country, issued to the named importer or his agent and covering the commodity(ies) described in the application. A reproduced copy (photocopy or other type) of the International Import Certificate will not be accepted by the Office of Export Administration.

(ii) Where the single transaction International Import Certificate covers commodities for which more than one license application is submitted, the original Import Certificate should be attached to the first such application, and each subsequent application should show the following certification in the "Additional Information" space or on an attachment:

I (We) certify that the quantities of commodities shown on all export licenses based on the (name of country) International Import Certificate (or Hong Kong Import License) Number ------, when added to the quantities shown on all additional applications pending in the Office of Export Administration based on the same Import Certificate, including the present application, do not total more than the quantities shown on that Import Certificate. This Import Certificate was submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number; date of submission of the application to which the Import Certificate or Hong Kong Import License was attached; and Export Control Commodity Numbers and processing Number shown on that application*).

Failure to supply the case number or other identifying information may result in delay in processing the application.

(2) Multiple Transactions Certificate. A multiple transactions International Import Certificate is an officially authenticated original of an Import Certificate that covers more than one proposed transaction. If a multiple transactions Import Certificate specifies the amount of the commodities (in terms of either quantity or value), all export licenses, including those covering a commodity valued at less than $2,200, will be charged against the amount specified. The applicant should attach the original multiple transactions Import Certificate, bearing the official authentication of governmental authorities in the importing country, to his first application the Certificate is intended to support. A reproduced copy (photocopy or other type) of the Import Certificate is not acceptable. On each subsequent application submitted against that Certificate, one of the following certifications, as appropriate, signed by the applicant, shall be inserted in the space entitled "Additional Information" or on an attachment:

(i) If quantity or value is shown on the Certificate:

I (We) certify that the quantities (values) of commodities shown on all export licenses based on the (*name of country*) International Import Certificate (or Hong Kong Import License) Number ------, when added to the quantities (values) shown on all additional applications pending in the Office of Export Administration based on the same Import Certificate, including the present application, do not total more than the quantities (values) shown on that Import Certificate. This Import Certificate was submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number, date of submission of the application to which the Import Certificate or Hong Kong Import License was attached, and Export Control Commodity Numbers and Processing Number shown on that application*).

or

(ii) If quantity or value is not shown on the Certificate:

I (We) certify that this application is supported by the (*name of country*) multiple transactions International Import Certificate (or Hong Kong Import License) Number ------, which was submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number, date of submission of the application to which the Import Certificate or Hong Kong Import License was attached, and Export Control Commodity Numbers and Processing Number shown on that application*).

(h) *Requirements Applicable to Both Single and Multiple Transactions Import Certificates.* (1) Parties named on Import Certificate. The International Import Certificate may be accepted if made out to either the ultimate consignee or the purchaser if they are different parties located in the same country. If they are not located in the same country, an Import Certificate, a consignee/purchaser statement, or other applicable equivalent document is required from the party located in the country of ultimate destination. The U.S. exporter named in the Import Certificate must appear as applicant, supplier, or order party on license applications submitted to the Office of Export Administration.

(2) Commodity description. The exporter should furnish his consignee the commodity description shown on the Commodity Control List and advise him to use this description when applying for the International Import Certificate from his government. In addition, where the commodity is a new or highly technical product, it is advisable also to furnish a manufacturer's catalog or bulletin, or printed pages describing the commodity. This will assist the foreign government in determining whether the commodity meets the criteria for the issuance of an International Import Certificate.

(3) Validity period. The International Import Certificate must be submitted to the Office of Export Administration within the period shown thereon, which in no case will exceed six months from the date it is issued by the foreign government. In addition, any license application supported by such Certificate must be submitted within 12 months from the date the Certificate was initially submitted to the Office of Export Administration. The expiration of an Import Certificate will in no way affect the validity period of the resultant export license(s).

[1] See § 375.4 for Swiss Blue Import Certificate requirements and 375.5 for Yugoslav End Use Certificate Requirements.

V40247 DEC 23 75 XUM

(4) Triangular transactions. Whenever an International Import Certificate bearing a triangular symbol is submitted to the Office of Export Administration, the U.S. exporter shall advise the Office of Export Administration of all parties to the transaction, including parties located outside the country that issued the Import Certificate. If the importer objects to giving this information to the U.S. exporter, he may submit it directly to the Office of Export Administration through a U.S. Foreign Service post or in a sealed envelope to the exporter, marked "To be opened by the Office of Export Administration only."

(5) Reexports. Submission of an International Import Certificate does not relieve the parties to the transaction from compliance with the reexport provisions of Part 374.

(6) Alterations. After an International Import Certificate is issued by the foreign government, no corrections, additions, or alterations may be made on such Certificate by any person. (See § 387.8 on unauthorized use and alterations of export control documents.) If the exporter desires to explain any information on the Certificate, he may attach thereto a signed statement to that effect.

(i) *Delivery Verification Certificate.* (1) Notification of requirement. (i) Delivery Verification Certificates are required by the Office of Export Administration on a selective basis. They may be required for exports of commodities exported under a validated license to any of the country destinations listed in § 375.3(b) above, including commodities not identified by the code letter "A" following the Export Control Commodity Number on the Commodity Control List (§ 399.1) and commodities for which an exemption or exception to the Import Certificate requirement has been established in accordance with §§ 375.3 (d) or (e) above. Where verification of delivery is required, the words "Delivery Verification required, see attached Form DIB–648P" will be stamped on the face of the export license. In addition, Notification of Delivery Verification Requirement, Form DIB–684P or IA–863; will be attached to the license.[1] Where the license is sent directly to an agent or freight forwarder of the licensee, such agent or freight forwarder is responsible for notifying the licensee immediately in writing that a Delivery Verification Certificate is required. (See Supplement No. 1 to Part 375 for list of addresses where importers may obtain Delivery Verification Certificates.) Facsimilies of Delivery Verification Certificates issued by each of these destinations may be inspected at any U.S. Department of Commerce District Office (see list on page i under District Office Addresses), or at the Office of Export Administration, Exporters' Service Station, U.S. Department of Commerce, 14th and "E" Streets, N.W., Washington, D.C.

[1] In certain instances, the licensee may be requested to submit a Delivery Verification Certificate under alternative procedures.

(ii) The Delivery Verification Certificate requirement for a particular export transaction is cancelled automatically if, subsequent to the issuance of a license, (a) the code letter "A" is replaced by another code letter for the commodity involved, and (b) the exporter returns the original copy of Form DIB–684P or IA–863 to the Office of Export Administration with a statement that the code letter "A" has been replaced by another code letter.

(2) Submission to the Office of Export Administration. When notified to do so by the Office of Export Administration, any person issued a license covering a shipment within the scope of § 375.3 shall:

(i) Transmit to the foreign importer a written request for a Delivery Verification Certificate at the time of making each shipment under the license (whenever possible, this request should be submitted together with the related bill of lading or air waybill). The request must include the number of the International Import Certificate for the transaction referred to in Form DIB–648P or IA–863, and notify the foreign importer that this same International Import Certificate number should be shown on the Delivery Verification Certificate;

(ii) Obtain from the named importer a Delivery Verification Certificate that has been issued to the importer by his government covering the commodities described on the export license, or as much thereof (when complete shipment against the license will not be made) as the licensee has shipped; and

(iii) Send the original copy of the Delivery Verification Certificate to the Office of Export Administration within a reasonable time after the last shipment has been made against the license. If verification of delivery is required for commodities covered by a license against which partial shipments have been made, the licensee shall obtain the required verification of delivery for each partial shipment. When all the Delivery Verification Certificates have been received, they shall be forwarded in one package to the Office of Export Administration.

(3) Inability to obtain Delivery Verification Certificates. If an exporter is unable to obtain the required Delivery Verification Certificate from his importer, he shall promptly notify the Office of Export Administration and, upon request, make available to that office all information and records, including correspondence, regarding his attempt to obtain the required document.

§ 375.4 Swiss Blue Import Certificate.

(a) *Requirement.* (1) Submission of Certificate. A license application for export of commodities to Switzerland or Liechtenstein, regardless of value, must be accompanied by the original Swiss Blue Import Certificate. This certificate is issued to the importer by the Swiss Federal Department of Public Economy, Division of Commerce, Import and Export Control, covering the proposed export from the United States. The certificate may cover more than one purchase order and more than one commodity. Where the Certificate includes commodities for which more than one license application will be submitted, the original Certificate shall be attached to the first such application. Each subsequent application shall include the following certification in the space entitled "Additional Information" or on an attachment:

I (We) certify that the quantities of commodities shown on all export licenses based on the Swiss Blue Import Certificate No. ------, when added to the quantities shown on all additional applications pending in the Office of Export Administration based on the same Certificate, including the present application, do not total more than the quantities shown on that Certificate. This Certificate was submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number, date of submission of application to which the Swiss Blue Import Certificate was attached, and Export Control Commodity Numbers and Processing Number shown on that application*).

(b) *Exemptions.* (1) Shipments to government agencies. A license application to export commodities to a Swiss or Liechtenstein Government agency, as defined in § 375.2(b)(3), is exempted from the Swiss Blue Import Certificate requirement if the Government agency actually placed the order with the applicant and will accept delivery of the export.

(2) Approved Form DIB–686P or FC–43 and DIB–624P or FC–143. A license application to export commodities to Switzerland or Liechtenstein is exempted from the Import Certificate requirement if such license application is supported by Statement by Foreign Importer of Aircraft or Vessel Repair Parts, Form DIB–686P or FC–43, or Form DIB–624P or FC–143, Request for Authorization To Distribute United States Origin Commodities Stocked Abroad to Approved Customers; or the current Station Number or validation number of either of these forms. However, this exemption does not relieve an exporter or his distributor from the requirement under the Foreign-Based Warehouse Procedure that a Swiss Blue Import Certificate be obtained and held available for inspection. (See § 373.4).

(3) Temporary exports. A license application to export commodities for temporary exhibition, demonstration, or testing purposes in Switzerland or Liechtenstein (see § 372.8(c)) does not require a Swiss Blue Import Certificate.

(c) *Exceptions.* An applicant for an export license subject to the requirement for a Swiss Blue Import Certificate in accordance with the provisions of § 375.4(a) above may request an exception to this requirement. Favorable consideration of a request for exception generally will be given where the Swiss Blue Import Certificate requirement:

(1) Imposes an undue hardship on the applicant and/or ultimate consignee (e.g., the Swiss Government refuses to issue an Import Certificate and such refusal constitutes discrimination against the U.S. exporter);

(2) Cannot be complied with (e.g., the commodities will be held in a foreign trade zone or bonded warehouse in Switzerland or Liechtenstein for subsequent distribution in one or more countries); or

(3) Is not actually applicable to the transaction (e.g., the commodities will not be imported for consumption into Switzerland or Liechtenstein).

An exception will not be granted contrary to the objectives of the U.S. export control program. The procedure to follow in requesting an exception is set forth in § 375.7(g).

§ 375.5 Yugoslav End-Use Certificate.

(a) *Requirements.* A license application to export commodities to Yugoslavia, regardless of value, must be accompanied by the original End-Use Certificate issued to the Yugoslav importer by the Yugoslav Chamber of Economy in Belgrade covering the proposed export.[1] The certificate may cover more than one purchase order and more than one commodity. Where the Certificate includes commodities for which more than one license application will be submitted, the original of the Certificate shall be attached to the first such application. Each subsequent application shall include the following certification in the space entitled "Additional Information" or on an Attachment:

I (We) certify that the quantities of commodities shown on all export licenses based on the Yugoslav End-Use Certificate No. ------, when added to the quantities shown on all additional applications pending in the Office of Export Administration based on the same End-Use Certificate, including the present application, do not total more than the quantities shown on that certificate. This End-Use Certificate was submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number, date of submission of the application to which the End-Use Certificate was attached, and Export Control Commodity Numbers and Processing Number on that application*).

(b) *Exemptions.* (1) Shipments to government agencies. A license application to export commodities to a Yugoslav Government agency, as defined in § 375.2(b)(3), is exempted from the Yugoslav End-Use Certificate requirement if the government agency actually placed the order with the applicant and will accept delivery of the export.

(2) Approved Form DIB–686P or FC–43 and DIB–624P or FC–143. A license application to export commodities to Yugoslavia is exempted from the requirement for a Yugoslav End-Use Certificate if such application is supported by Statement by Foreign Importer of Aircraft or Vessel Repair Parts, Form DIB–686P or FC–43; or Request for Authorization to Distribute United States Origin Commodities Stocked Abroad to Approved Customers, Form DIB–624P or FC–143; or the current Station Number or validation number of either of these forms. However, this exemption does not relieve an exporter or his distributor from the requirement under the Foreign-Based Warehouse Procedure that a Yugoslav End Use Certificate be obtained and forwarded to the Office of Export Administration, as required by § 373.4.

(3) Temporary exports. A license application to export commodities for temporary exhibition, demonstration, or testing purposes in Yugoslavia (see § 372.8(c)) does not require an End-Use Certificate.

(c) *Exceptions.* The Office of Export Administration will consider the granting of an exception to the Yugoslav End-Use Certificate requirement where the ultimate consignee has been unable to obtain the Certificate and the granting of an exception will not be contrary to the objectives of the U.S. export control program. The Office of Export Administration may also waive the End-Use Certificate requirement where refusal by the Yugoslav Government to issue the Certificate discriminates against the U.S. exporter, or for any other valid reason of similar importance. The procedure to follow in requesting an exception is set forth in § 375.7(g)

§ 375.6 Documents accompanying applications.

(a) *Copies in Lieu of Originals.* A document submitted in support of an application for an individual or other validated license will not be returned to the applicant or his agent, except when the application is returned without action or this Part 375 provides for the return of an unused or partially used International Import Certificate, Swiss Blue Import Certificate, or Yugoslav End-Use Certificate. An original document, other than one required by this Part 375, which an exporter may subsequently have need for, does not have to be submitted unless it is specifically required by the provisions of another section of the Export Administration Regulations. In lieu thereof, a photocopy or other copy of an original document is acceptable. An individual certification of a copy of an original document is not required by the Office of Export Administration. By signing the application, the applicant certifies and represents that any copy of a document submitted with the application, or at any time before or after it is filed, is a true copy of the original document. His signature also certifies and represents that the information contained in such document is true, correct, and complete to the best of his knowledge and belief.

(b) *Availability of Original.* The Office of Export Administration may demand the original of any copy of a document submitted in support of a license application. Such original must be kept and made available for inspection in accordance with the provisions of § 387.11. However, after a year from the beginning of the prescribed detention period, a reproduction of the original document may be substituted.

(c) *Identification of Document.* Any document that is submitted separately from the application must be identified clearly as part of that application by the following statement:

This document is submitted in support of application number (*insert case number or, if case number is unknown, the applicant's reference number; date of submission of the application to which the document is related and Export Control Commodity Numbers and Processing Number shown on the application*).

Unless a document filed separately from the license application is so identified, it will not be accepted by the Office of Export Administration.

(d) *Number of Copies Required.* A document submitted with an application that will ultimately become a part of the license, such as a list of consignees, must be submitted in duplicate. A copy of such document will become a part of the license, if issued, and must remain affixed thereto. Only one copy is required of a document that will not become a part of the license; for example, evidence of an order.

§ 375.7 Special provisions.

The following special provisions apply as indicated to Consignee/Purchaser Statements, International Import Certificates, Delivery Verification Certificates, Swiss Blue Import Certificates, Yugoslav End-Use Certificates, and other documents submitted in support of export license applications.

(a) *Coded Terms and Translation Requirements.* All abbreviations, coded terms, or other expressions on consignee/purchaser statements, International Import Certificates, Delivery Verification Certificates, Swiss Blue Import Certificates, Yugoslav End-Use Certificates and other documents having special significance in the trade or to the parties to the transaction must be explained on an attachment to the document. Documents in a foreign language must be accompanied by an attachment giving an accurate translaction, either made by a translating service or certified by the applicant to be correct. Exporters may provide foreign customers with Form DIB–629P translated into the customers' language but the Office of Export Administration will not provide foreign language copies. Explanations or translations should not be entered on the documents themselves, as such action constitutes an alteration of the document (see § 375.2(g) above on alteration of a consignee/purchaser statement).

(b) *Grace Period.* (1) Consignee/Purchaser Statement. Whenever the requirement for a consignee/purchaser statement for any commodity is extended by reason of the addition of a country group(s) in the column on the Commodity Control List titled "Validated License Required for Country Groups shown Below," or by replacement of the code letter "A" following the Export Control Commodity Number with another code letter, an application for license need not conform to the requirements of § 375.2 for a period of 30 days after the date that the commodity becomes subject to the new requirement. In lieu thereof, applications filed during the 30-day grace period shall be accompanied by any evidence available to the applicant that will support his rep-

[1] Foreign consignees may obtain End-Use Certificates from the Yugoslav Chamber of Economy, Knez Mihailova 10, Belgrade.

V 401247 DEC 23 75 D XUM

resentations concerning the ultimate consignee, ultimate destination, and end-use, such as copies of the order, letters of credit, correspondence between the exporter and ultimate consignee, or other documents received from the ultimate consignee.

(2) International Import Certificate. Whenever the requirement for an International Import Certificate is extended by the addition of a commodity or country, the change shall become effective 45 days from the date of such addition.

(3) Swiss Blue Import Certificates and Yugoslav End-Use Certificates. Whenever the requirement for a Swiss Blue Import Certificate or a Yugoslav End-Use Certificate is extended to any commodity by the addition of Country Group V to the column on the Commodity Control List entitled "Validated License Required for Country Groups Shown Below," a license application for such commodity need not conform to this requirement for 45 days from the date such commodity becomes subject to the requirement.

(c) *Applicant's Responsibility for Full Disclosure.* In submitting a Consignee/Purchaser Statement, International Import Certificate, Swiss Blue Import Certificate or Yugoslav End-Use Statement, the applicant is not relieved of his responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, even if inconsistent with the representations set forth in the above-mentioned documents. In accordance with the provisions of §§ 372.6(g) and 387.5(c), the applicant shall promptly notify the Office of Export Administration of any change in the facts set forth in the document that comes to his attention subsequent to the issuance date of the document.

(d) *Supporting Document as a Licensing Factor.* The Office of Export Administration reserves the right in all respects to determine to what extent any license will be issued covering commodities for which a foreign government has issued a document required by this Part 375. Generally, commodities licensed by the Office of Export Administration on the basis of dollar value will not be licensed in excess of the dollar value shown on the relevant document issued by the foreign government, and commodities licensed on the basis of units of measure will not be licensed in excess of the units shown on such document. The Office of Export Administration will not seek or undertake to give consideration to recommendations from the foreign government as to the U.S. exporter whose license application should be approved. A supporting document issued by a foreign government will be only one of the considerations upon which the Office of Export Administration will base its licensing action, since quotas, end uses, and other considerations are important factors in export licensing.

(e) *Request for Return of Certificates.* A U.S. exporter may be requested by his foreign importer to return an unused or partially used International Import Certificate, Swiss Blue Import Certificate, or Yugoslav End-Use Certificate (hereinafter referred to as Certificate). In such instances, the U.S. exporter should forward the Certificate to his importer as soon as he determines that the Certificate will not be used with a new or resubmitted license application or an appeal. To meet such requests, Certificates on file in the Office of Export Administration will be returned to exporters in accordance with the following procedures:

(1) Quantity on Certificate more than quantity on application. When a Certificate covers a quantity in excess of the license application(s) submitted against it, the Office of Export Administration will retain the Certificate unless the exporter requests its return. To request the return of the Certificate the exporter should write to the Office of Export Administration (Room 1617M), U.S. Department of Commerce, Washington, D.C. 20230, giving the name and address of the importer, the case numbers to which the Certificate applies, the Certificate number, and a statement that the Certificate will not be used in connection with another license application. Appropriate notation will be placed on the Certificate by the Office of Export Administration before it is returned.

(2) Certificate and license application in same quantities but not licensed in full. The Office of Export Administration will usually return a Certificate to the U.S. exporter whenever a license application covers the same type and amount of the commodity as that shown on the Certificate but such application is rejected or approved in a reduced quantity. Appropriate notation will be placed on the Certificate by the Office of Export Administration.

(3) Quantities licensed but not shipped. Where the U.S. exporter does not intend to ship all of the commodities for which a license has been issued and desires the return of the Certificate, he shall submit his request in writing as follows:

(i) *Unexpired export license.* If the license has not expired but no further shipment will be made, the written request for return of the Certificate shall be accompanied by the license. If a further shipment(s) is contemplated, the request for return of the Certificate should be accompanied by a request to amend the license to show the total quantity to be shipped against it. The amendment request must be submitted on Request for and Notice of Amendment Action, Form DIB–685P or IA–763. (See § 372.11 for regular amendment procedure.)

(ii) *Expired export license.* If the license has expired, the written request shall be accompanied by the license, or should indicate that the license has already been returned. Form DIB–685P or IA–763 need not be submitted. Appropriate notation will be placed on the Certificate by the Office of Export Administration before it is returned to the applicant.

(f) *Request for Amendment of Export License.*[1] (1) Change in consignee or purchaser. A new Statement by Ultimate Consignee and Purchaser, or an appropriately amended International Import Certificate, Swiss Blue Import Certificate or Yugoslav End-Use Certificate, shall accompany a request for an amendment of an export license that proposes a change in the consignee or purchaser in the transaction named in the export license if the proposed amendment is not in accordance with the statement or certificate previously submitted to the Office of Export Administration.

(2) Increase in quantity. A new Statement by Ultimate Consignee and Purchaser, or a letter, wire, or cable from the ultimate consignee and purchaser (if applicable) confirming the change, or an appropriately amended International Import Certificate, Swiss Blue Import Certificate or Yugoslav End-Use Certificate, shall accompany a request for an amendment of an export license that proposes any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with a single transaction Statement by Ultimate Consignee and Purchaser, or Certificate previously submitted to the Office of Export Administration. If a proposed quantitative amendment is in accordance with the previously submitted single transaction Statement by Ultimate Consignee and Purchaser or Certificate, the amendment request shall include the following certification as appropriate:

I (We) certify that this request for amendment of export license number ------, if granted, will not exceed the total quantity covered by the Statement by Consignee and Purchaser against which this export license was issued.

or

I (We) certify that this request for amendment of export license number ------, if granted, will not exceed the total quantity authorized under the (*name of country*) International Import Certificate (or Hong Kong Import License, Swiss Blue Import Certificate, or Yugoslav End-Use Certificate) Number -------.

Where the export license is based on a multiple transactions Statement by Ultimate Consignee and Purchaser, an additional Statement is not required from the consignee or purchaser to support a proposed license amendment for increase in quantity. In lieu thereof, the following certification shall be placed on the amendment request:

I (We) certify that the license listed above is supported by a Statement by Ultimate Consignee and Purchaser.

(g) *Request for Exception.* A request for exception to a requirement for submission of an International Import Certificate, Swiss Blue Import Certificate, or Yugoslav End-Use Certificate[2] may

[1] Paragraph 372.11(l) contains other provisions applicable to amendments of licenses covered by a consignee/purchaser statement.

[2] See 375.2(c) for exceptions to a consignee/purchaser statement.

involve either a single transaction or, where the reason necessitating the request is continuing in nature, multiple transactions.

(i) The single transaction exception relates to a single export order and, if granted, will cover the application(s) that the exporter submits to ship the single export order; or

(ii) The multiple transactions exception relates to multiple export orders and, if granted, will cover all applications submitted by the exporter during all or any part of the period ending no later than June 30 of the year following the year during which the request is submitted, unless an earlier termination date is requested.

(1) How to submit request. (i) The request for exception should be submitted with the application to which it relates. Where the request relates to more than one application, it should be submitted with the first application and referred to in the "Additional Information" space on any subsequent application.

(ii) Each request for exception shall be by letter, in duplicate, addressed to the Office of Export Administration (Room 1617M), U.S. Department of Commerce, Washington, D.C. 20230. It shall be accompanied by a Statement by Ultimate Consignee and Purchaser in accordance with § 375.2, unless such statement is already on file in the Office of Export Administration.

(iii) As a minimum, the letter request shall include:

(*a*) Name and address of ultimate consignee;

(*b*) Name and address of purchaser, if different from ultimate consignee;

(*c*) Location of foreign trade zone or bonded warehouse if the commodities will be exported to a foreign trade zone or bonded warehouse;

(*d*) Type of request, i.e., whether for a single transaction or multiple transactions;

(*e*) Full explanation of the reason(s) for requesting the exception;

(*f*) Nature and duration of the business relationship between the applicant and importer shown on the license application;

(*g*) Whether the exporter has previously submitted to the Office of Export Administration a Certificate issued in the name of the importer and a listing of the case number(s) to which the certificate(s) applied;

(*h*) Whether a Statement by Ultimate Consignee and Purchaser, in accordance with § 375.2, is on file with the Office of Export Administration;

(*i*) Requested date of expiration if a multiple transactions exception is requested and the exporter wishes the exception period to expire before June 30 of the next year; and

(*j*) Any other facts to justify granting an exception.

(2) Action by Office of Export Administration.

(i) *Single transaction request.* Where a single transaction is involved, the Office of Export Administration will act on the request for exception at the same time as the license application with which the request is submitted. In those instances where the related application is approved, the issuance of the export license will serve as an automatic notice to the exporter that the exception is also approved. However, if any restrictions are placed on the approval or if the request is disapproved, the Office of Export Administration will advise the exporter by letter.

(ii) *Multiple transactions request.* Where multiple transactions are involved, the Office of Export Administration will advise the exporter by letter of the action taken on the exception request. The letter will contain any conditions or restrictions that the Office of Export Administration finds necessary to impose. In addition, a written acceptance of these conditions or restrictions will be required from the parties to the transaction.

[2] IC—Import Certificate and/or DV—Delivery Verification

The Export Administration Regulations concerning restrictive trade practices or boycotts were revised in several important respects effective December 1, 1975. These regulations were published in the Federal Register on November 26, 1975 (15 CFR 54769). This edition of the Federal Register provides a Table of Contents for those regulations to read as follows:

PART 369—RESTRICTIVE TRADE PRACTICES OR BOYCOTTS

Sec.
369.1 General policy.
369.2 Discrimination on the basis of race, color, religion, or national origin.
369.3 Other restrictive trade practices or boycotts.
369.4 Reporting requirements.
369.5 Effect of other provisions.

PART 372—INDIVIDUAL VALIDATED LICENSES AND AMENDMENTS

The Export Administration Regulations are revised to provide the correct cross references to CFR Part 375 which was revised in its entirety by this issuance. Also, instructions are provided for submitting Form DIB–629P, Statement by Ultimate Consignee and Purchaser when a request for amendment of an export license proposes a change in the consignee or purchaser or when an application is submitted for a license to replace an expiring or an expired license.

Paragraph (k) of § 372.11 is revised as follows:

§ 372.11 Amending Export Licenses.

• • • • • •

(k) *License Covered by an International Import Certificate, a Swiss Blue Import Certificate, or a Yugoslav End-Use Certificate.* A request to amend an export license covering a commodity subject to an International Import Certificate (§ 375.3), Swiss Blue Import Certificate (§ 375.4), or Yugoslav End-Use Certificate (§ 375.5) that changes any party to the transaction named on the license or increases the net quantity set

V401247 DEC 23 75 XUM

forth on the license, shall be accompanied by a new or appropriately amended document if the proposal is not in accordance with the document previously submitted. If a proposed quantitative amendment is in accordance with the previously submitted document, the request shall include the following certification:

I (We) certify that this request for amendment of export license number ------, if granted, will not exceed the total quantity authorized under the (*Name of country*) (Import Certificate) (End-Use Certificate) (Import License) number -------.

(l) *Licensees Covered by Consignee Purchaser Statement.* A new consignee/purchaser statement shall accompany a request for an amendment of an export license that proposes a change in the consignee or purchaser in the transaction named in the export license, if the proposed amendment is not in accordance with the consignee/purchaser statement previously submitted. For a single transaction, a new Form DIB–629P, Statement by Ultimate Consignee and Purchaser with Item 2a completed (or Form DIB–626P or FC–842), or a letter, wire, or cable from the ultimate consignee and purchaser, if applicable, confirming the change, shall accompany a request for an amendment of an export license that proposes any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with the consignee/purchaser statement previously submitted. If a proposed quantitative amendment is in accordance with the previously submitted consignee/purchaser statement, the amendment request shall include the following certification"

I (We) certify that this request for amendment of export license number ----------, if granted, will not exceed the total covered by the consignee/purchaser statement against which the export license was issued.

Where the export license is based on a Form DIB–629P with Item 2b completed (or a Form DIB–627P or IC–843), a new consignee/purchaser statement is not required from the consignee or purchaser to support a proposed license amendment for an increase in quantity. In lieu thereof, the following certification shall be entered on the Form 685P:

I (We) certify that the license(s) described in Item 3 (is) (are) supported by a statement by consignee and purchaser covering multiple transactions.

Paragraphs (d) and (e) of § 372.12 are revised as follows:

§ 372.12 Special Provisions for an Amendment to Extend the Validity of a License.

* * * * *

(d) *New License Application to Replace Expiring or Expired License.* Where an application is submitted for a new license to replace an expiring or expired license, the applicant shall (1) indicate on the new application that it is being submitted to replace (expiring) (expired) export license bearing license number (*insert number*), and (2) submit new documentation in the following circumstances:

(i) if current Export Administration Regulations require the application to be supported by a consignee/purchaser statement, a new consignee/purchaser statement must be furnished unless a current Form DIB–629P, Statement by Ultimate Consignee and Purchaser, with Item 2b completed (or a Form DIB–627P or FC–843), is already on file in the Office of Export Administration;

(ii) if current Export Administration Regulations require the application to be supported by any document that was not submitted with the application upon which the license was based, this document must be furnished; and

(iii) if the Office of Export Administration requests the applicant to furnish a specific document, this document must be furnished.

(e) *Action on Extension Request.* Action on an extension request will be made in the same manner as other amendments. (See § 372.11(i).)

PART 370—EXPORT LICENSING GENERAL POLICY AND RELATED INFORMATION

PART 372—INDIVIDUAL VALIDATED LICENSES AND AMENDMENTS

PART 378—SPECIAL NUCLEAR CONTROLS

PART 379—TECHNICAL DATA

PART 385—SPECIAL COUNTRY POLICIES AND PROVISIONS

The Export Administration Regulations are being amended editorially to change the names of "East Germany" and "West Germany" to "German Democratic Republic" and "Federal Republic of Germany", respectively. Various references referring to these two countries are hereby changed in the above mentioned Parts effective on publication in the Federal Register.

PART 373—SPECIAL LICENSING PROCEDURES

Change in Title and Form No. of Consignee Purchaser Statement: The cross references that refer to Part 375 regarding the use of the consignee purchaser statement have been revised to show the new title and form No. as published in CFR Part 375 of this issuance. Accordingly, Part 373 of the Export Administration Regulations (CFR Part 373) is amended to read by revising § 373.5(d)(2) as follows:

§ 373.5 Periodic Requirements (PRL) License.

* * * * *

(d) Application Procedure.

* * * * *

(2) Supporting documentation. An application for a PRL License shall be supported by the following for each consignee where the destination is in Country Group V: A Form DIB–629P, Statement by Ultimate Consignee and Purchaser, with Item 2b completed (or a Form DIB–627P or FC–843), an Import Certificate, or other documentation, whichever is required by the provisions of Part 375 for the commodity and destination on the application.

* * * * *

Section 373.6 (b)(2) and (d)(2) are revised as follows:

§ 373.6 Time Limit (TL) License.

* * * * *

(b) Preparation of a TL License Application.

* * * * *

(2) Consignee/purchaser statement for multiple transactions. Each TL License application shall be supported by a Form DIB–629P, Statement by Ultimate Consignee and Purchaser with Item 2b filled in (or a Form DIB–627P or FC–843). A form must be completed in accordance with § 375.2 by each ultimate consignee named on the application.

* * * * *

(d) Amendments.

* * * * *

(2) Addition of new ultimate consignee. A request to amend an outstanding TL License to add a new ultimate consignee shall be submitted on a Request for and Notice of Amendment Action, Form DIB–685P or IA–763 (see § 372.11). The amendment request must be supported by a Form DIB–629P, with Item 2b completed, or a Form DIB–627P or FC–843 (see § 373.6(b)).

* * * * *

(Sec. 3, 63 Stat. 7; 50 U.S.C. App. 2023; E.O. 10945 and E.O. 11038.)

RAUER H. MEYER,
Director,
Office of Export Administration.

Title 6—Economic Stabilization

CHAPTER VII—COUNCIL ON WAGE AND PRICE STABILITY

PART 704—INVESTIGATIONS

Inflationary and Potential Inflationary Activities

On October 10, 1975, the Council on Wage and Price Stability ("Council") published in the FEDERAL REGISTER a proposed rulemaking establishing procedures for the Council's investigations into inflationary and potential inflationary activities in the public and private sectors of the economy (40 FR 47801). The regulations would establish a new Part 704 of Chapter 7, in Title 6 of the Code of Federal Regulations, consisting of four subparts: Subpart A—General; Subpart B—Subpoenas; Subpart C—Periodic Reports; and Subpart D—Data From Other Agencies.

The notice of the proposed rulemaking allowed thirty (30) days for comments from interested persons. Comments were received from the American Bar Association, the Whirlpool Corporation, Financial Executive Institute, Allegheny Ludlum Industries, Inc., and Weil, Gotshal & Manges. Each comment has been carefully considered in arriving at the final regulations published below.

Our discussion of the final regulations below highlights the major comments made, and the reasons that we have either accepted or rejected them.

Two principal comments were submitted about the proposed rules. First, it was suggested that the Council on Wage and Price Stability Act authorized the subpoena or periodic reporting of information only that related to certain listed categories of information ("wages, costs, products, prices, sales, profits, imports and exports") and therefore that § 704.7 of the proposed rules could not validly in addition authorize the subpoena of "other information." As explained below, the legislative history of the Act shows that the above listed categories were intended to be illustrative of the types of data subject to subpoena rather than strict limitations. Therefore we have rejected the suggestion to remove the "other information" language from § 704.7, but have clarified it to apply only to documents relating to "other aspects of business operations."

The report of the House Committee on Banking, Currency and Housing on H.R. 8731, the House bill that amended the Council on Wage and Price Stability Act to authorize the issuance of subpoenas, refers to the above statutory categories of data as "cost, price, and *other* data for specific products involved" in a Council investigation. See House Report No. 94–389 at 6. (Emphasis added). More to the point, the discussion at the markup session of the Subcommittee on Economic Stabilization of the House Committee on Banking, Currency, and Housing on H.R. 4594 indicates that the enumeration of specific categories in Section 2(g) was intended to cover the *entire range* of the Council's responsibility to monitor the economy. In fact, this language reflects an expansion from a smaller list of categories in the original bill:

Mr. LaFalce. Let me make a suggestion. In your bill, you say documents relating to wages, prices, costs, and profits. In the act itself when they charged the Council with responsibility, they say monitor the economy as a whole by requiring its appropriate reports on wages, costs, productivity, prices, sales, profits, imports, and exports. And I was going to offer an amendment deleting wages, prices, costs, and profits, and including wages, costs, productivity, prices, sales, profits, imports and exports, as subject to the subpoena power which conforms with that exact language that we have in the act right now.

Mr. McKinney. I don't see any problem with that.

Mr. Ashley. * * * All right. So the amendment is adopted. (Transcript, Wednesday, July 16, 1975, at 35–36.)

Restricting the Council's subpoena power to categories specifically mentioned in the Act would prevent the Council from obtaining data regarding such matters as inventories, shipments, and shortages. This would hinder the Council from performing several of the tasks prescribed by Congress such as working with industrial groups to encourage price restraint and promoting public scrutiny of inflationary problems in various sectors of the economy.

The second principal comment submitted to the Council was that § 704.6 of the proposed rules, which now provides for the Chairman or Director of the Council to request that the Attorney General commence any appropriate enforcement proceeding in the event of noncompliance with a subpoena or periodic report order, should be limited to noncompliance with subpoenas. This comment is based on the fact that the language in Section 2(g) of the Council on Wage and Price Stability Act authorizing such District Court enforcement proceedings refers expressly only to subpoenas.

In our view, the language of Section 2(a) which authorizes the Council to *require* periodic reports and the legislative history of that provision clarifies that Congress intended the above enforcement remedy to apply also to periodic report orders. When enacting the periodic report authority in Public Law 94–78, Congress was expressly aware that reports had previously been voluntarily submitted to the Council. As was expressly noted in the report of the House Committee on Banking, Currency and Housing and in the floor debate of the House, the periodic report and the subpoena authorities were intended to employer the Council to act on the occasions that firms or unions refused voluntarily to submit reports and data. (See, for example, House Report No. 94–389 at 5–6). Thus, Public Law 94–78 was enacted to authorize the Council to "*require* periodic reports." (Section 3 of Public Law 94–78, amending Section 2 of the Council on Wage and Price Stability Act.) In the Council's view, this language and legislative history clarify that any periodic report order issued by the Council was also intended to be enforceable by the Attorney General.

The legislative history shows that there was no Congressional intent to distinguish periodic reports and subpoenas, for purposes of enforcement. The statutory language quoted above that does expressly refer only to noncompliance with subpoenas, was quickly referred to in a House Banking, Currency and Housing Committee mark-up of H.R. 8731 as "normal boilerplate." (Transcript, Thursday, July 17, 1975 at 54.) In the Council's view, the unfortunate failure to conform this boilerplate to the specific provisions of H.R. 8731 does not invalidate the clear Congressional intent that the Council have the enforceable, mandatory authority to require periodic reports.

Finally, we note that § 704.6 of the regulations authorizes the Chairman or Director only to request whatever enforcement relief the Attorney General would subsequently determine to be appropriate.

In addition to the above comments, several others were made about the Council's proposed rules. These are briefly discussed below, on a section-by-section basis.

Section 704.2 *Investigational Policy.* We have rejected the suggestion to amplify the regulations with regard to the Council's policy to "encourage parties voluntarily to provide data requested by the Council." Likewise, we have rejected the suggestion that the regulations be amended to include

[P]rocedures to assure that the authority to subpoena information and require periodic reports will be employed only when absolutely necessary to carry out the purposes for which the Council has been established.

These changes are unneeded in light of the policy clearly announced in § 704.2 of the rules and in the third paragraph of the notice of the proposed rulemaking and is set forth below:

It is our intention to continue our practice of seeking voluntary cooperation in data collection. The rules set forth herein specify the Councils procedures for issuing subpoenas or requiring periodic reports in the event such cooperation is not forthcoming. The Council anticipates that individuals and firms will continue their practice of voluntary cooperation with Council investigations and that the compulsory processes discussed in these regulations would be infrequently needed.

The specific recommendation set forth in one comment illustrates the potentially harmful effect which such "procedures" would likely have on the Council:

One such procedure would be to include in the regulations a provision whereby the Council's authority to issue subpoenas and require the submission of periodic reports could be employed only in cases where specified government economic indicators, such as the Wholesale or Consumer Price Indices, signal that the rate of inflation in a particular industry is such that the Council's monitoring authority should be brought to bear.

The suggested procedure would severely inhibit the Council from examining cost and other data of companies which announce future price increases prior to implementing them. This technique has been successfully applied by the Council with regard to price increases in the Aluminum, Steel, and Industrial Chemical industries.

Section 704.4 *Confidentiality of Information.* Several constructive suggestions were made for clarifying the protections afforded to persons submitting confidential information and the procedures established in this section. We have therefore substantially revised each of the following subsections.

Subsection (a) as revised provides that all information obtained by subpoena or by order requiring periodic reports shall be considered as confidential and shall not be disclosed by the Council.

Subsection (b) provides that a person submitting information pursuant to subpoena or order requiring periodic reports shall designate the information which he (or she) believes to be confidential. In the absence of a designation, the General Counsel shall make a determination.

Subsection (c) provides that information voluntarily submitted to the Council for which confidential treatment is requested and granted shall be considered as confidential and not disclosed by the Council. That is, voluntary submissions

V 40247 DEC 23 75 D XUM

determined to be confidential will be given the treatment provided in § 704.4(a).

Subsection (d) provides that upon receipt of a request for disclosure of confidential information under the Freedom of Information Act or other provision of law, the Council shall notify the party that submitted that information. This section follows Section 702 of 6 CFR.

Subsection (e) provides that all data obtained by the Council may be published when aggregated in a manner that does not separately disclose any data obtained from individual firms or persons. The legislative history of Public Law 94–78 makes it clear that such disclosure was contemplated by Congress: The House Report on H.R. 4594 states:

> This provision [Section 4(f)(1)] would allow the public disclosure of data aggregated in a way so as to not disclose any single firm's data, and thus would protect the confidentiality of the single firm data. (House Report No. 94–389, page 7).

The House Report goes on to cite approvingly the Council's "practice" of including "aggregated data in its published staff reports and quarterly reports," but not including "single firm data." (Page 7). We specifically reject the notion that the authority granted the Council in this section "will foster dissemination by the Council of inaccurate, misleading information." The Council has taken great care in the past to publish fair and accurate information. We intend to follow this policy in the future.

Section 704.7 *Authority to Issue Subpoenas.* We have amended subsection (b), as suggested, to make certain that it includes all of the forms of organization the Council may wish to investigate. The new language tracks the definition of firm which was used by the Cost of Living Council (6 CFR 150.31). We have also amended this subsection to make clear that the period in which annual gross revenues of an entity should be measured is the most recently completed fiscal year.

Section 704.8 *Service of Subpoenas.* We have modified this section slightly to require a written receipt if a subpoena is sent by registered or certified mail. This section also provides that service is complete if the subpoena is left at the principal office or place of business of the entity to be served.

Section 704.9 *Proof of Service of Subpoenas.* We have adopted the suggestion that if service of subpoena is by mail, it is complete upon receipt. In such a case, the written receipt constitutes proof of service.

Section 704.10 *Satisfactory Compliance and Extension of Time.* We adopt the suggestion to establish a fixed period of time within which a subpoena is returnable. Unless otherwise specified by the issuing officer, subpoenas are returnable within twenty (20) days. If a return date other than twenty days is chosen, the subpoena or an accompanying letter shall explain the reasons therefor.

We have not adopted the suggestion that the return date be set at thirty days after service. First of all, the regulations now provide that service by mail is complete only upon receipt (§ 704.9). Second, since the Council will seek voluntary cooperation before resorting to a subpoena, the entity will have ample notice. Finally, the ten day time period for objections is used by other agencies. See, *e.g.*, 16 CFR 2.7(b).

Section 704.11 *Procedure for Objections and Requests.* We have clarified this section by stating that if the return data on a subpoena is less than ten (10) days after service of a subpoena, objections or requests may be filed at any time prior to the subpoena's return date.

Section 704.12 *Contents of Objections and Requests.* We have modified Subsection (b) to conform with the gross revenue test specified in § 704.7. For all purposes under the Act an entity's annual gross revenues shall refer to the entity's most recently completed fiscal year.

Section 704.13 *Director's Decision.* We have adopted the suggestion that the regulations provide that the Director's decision is the final agency action, and that the Director's decision and the reasons therefore be transmitted to the objecting party.

Section 704.14 *Investigational Hearing.* We have modified the language of this section to clarify the nature of investigational hearings pursuant to this section. Investigational hearings held pursuant to section 2(g) of the Act, are strictly for the purpose of hearing testimony of subpoenaed witnesses and receiving subpoenaed documents and other data relevant to any subject under investigation. Investigational hearings should not be confused with public hearings held under section 3(a)(4) of the Act.

Section 704.15 *Rights of Witnesses in Investigational Hearings.* We have modified this section to make clear that any person who testifies or appears in an investigational hearing shall have the rights described herein.

Subsection (b) has been clarified to indicate that objections raised at an investigational hearing are limited to those that could not reasonably have been raised pursuant to § 704.12.

Subsection (c) provides for the discretionary review by the Director of objections made at investigational hearings. If the Director overrules an objection he shall notify the party of his decision, and if within five working days the party has not fully complied, the Director may request the assistance of the Attorney General pursuant to § 704.6.

Section 704.16 *Authority to Require Periodic Reports.* We have amended Subsection (a) to clarify that periodic reports may be required for "other aspects of business operations" in addition to those categories specifically stated in the Act. The reasons for this change were stated above (§ 704.7).

Subsection (c) has been amended to provide that orders requiring periodic reports shall be in compliance with the Federal Reports Act.

A new Subsection (d) provides that orders requiring periodic reports shall state the date(s) when the periodic reports shall be submitted.

Section 704.17 *Definition of Periodic Reports.* We have amended the definition of periodic reports to better track the language in House Report 94–389 at page 7. Periodic reports shall mean reports of specific information prepared especially for the Council relating to any matter under investigation by the Council.

Section 704.18[1] *Service of Orders Requiring Periodic Reports.* This new section mirrors the procedures for service of subpoenas described above in § 704.8.

Section 704.19[2] *Proof of Service of Orders Requiring Periodic Reports.* This new section mirrors the procedures described above in § 704.9.

Section 704.24 *Director's Decision.* We have amended this section to provide that the Director's decision is a final agency action and that the Director shall transmit the decision and the reasons therefore to the objecting party.

Section 704.25 *Authorization to Request Data From Other Agencies.* We have rejected the suggestion that the Council is precluded from requesting from other government agencies data which is confidential under the Freedom of Information Act. Section 4(c) of the Act provides:

> Disclosure by the Council of information obtained from a Federal, State, or local agency or department must be in accord with section 552 of title 5, United States Code, and all the applicable rules of practice and procedure of the agency or department from which the information was obtained.

This section implies that the Council would obtain from other agencies data which would be confidential and that this information would be protected.

Accordingly, a new Part 704 of 6 CFR is issued in Washington D.C. on December 18, 1975 to become effective immediately.

MICHAEL H. MOSKOW,
Director.

Subpart A—General

Sec.
704.1 Purpose.
704.2 Investigational policy.
704.3 Notification of purpose.
704.4 Confidentiality of information.
704.5 Immunity of periodic reports from legal process.
704.6 Noncompliance.

Subpart B—Subpoenas

704.7 Authority to issue subpoenas.
704.8 Service of subpoenas.

704.25 Authorization to request data from other agencies.
704.26 Procedure for requests by the council.
704.27 Responses by agencies.
704.28 Confidentiality of data obtained from other agencies.
704.29 Compliance with Privacy Act.

AUTHORITY: Council on Wage and Price Stability Act, Pub. L. 93–387, as amended Pub. L. 94–78 (12 U.S.C. 1904, note).

Subpart A—General

§ 704.1 Purpose.

This part establishes the Council's procedures (a) for issuing subpoenas for for testimony and documentary evidence, and (b) for requiring the submission of periodic reports, pursuant to the Council on Wage and Price Stability Act, Public Law 93–387, as amended by Public Law 94–78, 12 U.S.C. Section 1904 note, and procedures for filing objections and requests related thereto. This Part also establishes the Council's procedures for requesting data or information from other agencies pertaining to the economy or any sector of the economy.

§ 704.2 Investigational policy.

From time to time, the Council shall conduct investigations related to its responsibilities under the Council on Wage and Price Stability Act, as amended, to monitor inflationary activities and potentially inflationary activities in the public and private sectors of the economy. In these investigations, the Council will encourage parties voluntarily to provide data requested by the Council. Where the public interest requires, however, the Council may, in any matter under investigation, invoke any or all of the compulsory processes authorized by the Council on Wage and Price Stability Act.

§ 704.3 Notification of purpose.

Subpoenas and orders requiring periodic reports issued subject to this Part shall notify the respondent of the purpose and scope of the Council's investigation.

§ 704.4 Confidentiality of information.

(a) Product line or other such category information relating to an individual firm or person obtained by subpoena, or obtained by order requiring periodic reports, shall be considered as confidential and exempt from public disclosure under section 552(b)(4) of Title 5 of the United States Code, the Freedom of Information Act, and shall not be disclosed by the Council.

(b) A firm or person submitting information pursuant to a subpoena or an order requiring periodic reports which he (or she) believes to be protected under Section (a) shall designate such information as confidential. In the absence of such designation, the General Council shall determine whether the information is confidential pursuant to Section (f)(1) of the Council on Wage and Price Stability Act.

(c) A firm or person voluntarily submitting information to the Council who believes that, although not within the provision of § 704.4(a), such information warrants treatment as confidential information under the Freedom of Information Act should specifically identify the records for which confidential treatment is requested, stating the basis for the request pursuant to Part 702. Information submitted voluntarily to the Council and determined to be confidential under the criteria and procedures in Part 702 shall be considered as confidential and exempt from public disclosure under section 552(b)(4) of Title 5 of the United States Code, the Freedom of Information Act, and shall not be disclosed by the Council.

(d) Whenever the Council receives a request under the Freedom of Information Act, Section 552 of Title 5 of the United States Code or other provision of law for the disclosure of confidential information submitted voluntarily, or information obtained by subpoena or by order requiring periodic reports, notice shall be given to the party who has submitted that information.

(e) Nothing stated herein shall prohibit the Council from publishing data submitted voluntarily or obtained by subpoena or by order requiring periodic reports, when aggregated in a manner that does not separately disclose any data obtained from an individual firm or person.

§ 704.5 Immunity of periodic reports from legal process.

Periodic reports obtained by the Council pursuant to an order and determined to be in compliance with that order, all pursuant to Subpart C of this Part, and copies thereof which are retained by the reporting firm or person, shall be immune from legal process as provided by the Council on Wage and Price Stability Act.

§ 704.6 Noncompliance.

In cases of failure to comply with any subpoena, order requiring periodic reports, or part thereof, the Chairman or Director of the Council or a duly authorized representative may request the Attorney General to initiate any appropriate enforcement proceeding in a United States District Court.

Subpart B—Subpoenas

§ 704.7 Authority to issue subpoenas.

(a) The Chairman or the Director of the Council or in the absence of both of the above a duly authorized representative may sign subpoenas issued by the Council for the attendance and testimony of witnesses and the production of relevant books, papers and other documents, relating to wages, costs, productivity, prices, sales, profits, imports and exports and other aspects of business operations, all by product line or by such other category as the Council may prescribe for any purpose related to the Council on Wage and Price Stability Act.

(b) Subpoenas may be issued to any entity whose gross annual revenues are in excess of $5,000,000. For purposes of this Subsection, "entity whose annual gross revenues are in excess of $5,000,000" shall include without limitation (1) any association, company, corporation, estate, individual, joint-venture, partnership, or sole proprietorship or any other entity however organized, including charitable, educational or eleemosynary institutions, or subsidiary or affiliated thereof, whose consolidated gross receipts from whatever source derived during the most recently completed fiscal year are in excess of $5,000,000, and (2) any labor union, or any local or other unit thereof, whose consolidated gross receipts for the most recently completed fiscal year from membership dues, return on investments or other sources are in excess of $5,000,000.

§ 704.8 Service of subpoenas.

Service of subpoenas may be effected as follows:

(a) By registered or certified mail. A copy of the subpoena shall be addressed to the entity to be served at its principal office or place of business, registered or certified, and mailed. A return receipt shall be requested; or

(b) By delivery. A copy thereof may be (1) delivered to an individual authorized, to accept service for the entity to be served, or (2) left at the principal office or place of business of the entity to be served.

§ 704.9 Proof of service of subpoenas.

When service is by registered or certified mail, it is complete upon receipt. A return receipt constitutes proof of service by mail. When service is by delivery, it is complete upon delivery to an individual authorized to accept service or upon being left at the principal office or place of business of the entity to be served. The verified return or certificate of the person serving the document by delivery shall be proof of the service of the document.

§ 704.10 Satisfactory compliance and extension of time.

(a) Subpoenas are returnable within twenty (20) days or such other period the Chairman, Director, or a duly authorized representative, determines to be warranted under the circumstances of a particular case. If a return date of other than twenty (20) days is chosen, the reasons therefor shall be explained in the subpoena or accompanying letter.

(b) The Director or his authorized representative are each authorized to

V40247 DEC 23 75 XUM

negotiate and approve the terms of satisfactory compliance with the subpoena and, for good cause shown, may extend the time prescribed for compliance with the subpoena.

§ 704.11 Procedure for objections and requests.

Any objections or requests related to a subpoena shall be filed in triplicate with the Director of the Council at Room 3235, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20506, within ten (10) days after service of the subpoena, or, if the return date is less than ten (10) days after service of the subpoena, at any time prior to the subpoena's return date. A timely filing under this section shall stay the requirement of a return on the portion of the subpoena challenged if the Director has not ruled by the return date.

§ 704.12 Contents of objections and requests.

(a) Any filing that objects to a subpoena shall identify those portions of the subpoena which are challenged and also those portions not challenged. With regard to the portions challenged, the filing shall indicate the relief requested and the reasons why the relief should be granted.

(b) Any filing that objects to a subpoena on the ground that the subpoenaed entity is not an entity whose annual gross revenues are in excess of $5,000,000, as defined by § 704.7(b), shall submit documentary proof of its annual sales, dues, or other appropriate data from whatever source derived during its most recently completed fiscal year.

§ 704.13 Director's decision.

Within twenty (20) working days of the receipt of any objections or requests filed pursuant to § 704.11, the Director shall make a decision and shall transmit the decision and the reasons therefor to the objecting party. The Director's decision is a "final agency action" within the meaning of 5 U.S.C., section 704. The Director shall specify a new return date, if appropriate.

§ 704.14 Investigational hearings.

(a) Investigational hearings for the purpose of hearing the testimony of subpoenaed witnesses and receiving subpoenaed documents and other data relative to any subject under investigation, shall be presided over by the Council, one or more of its members, or the Director, or a duly designated representative. The presiding officer at such a hearing is authorized to administer oaths to witnesses.

(b) Witnesses subpoenaed shall be paid the same fees and mileage as are paid to witnesses in the Courts of the United States.

§ 704.15 Rights of witnesses in investigational hearings.

(a) Any person who testifies or appears in an investigational hearing shall be entitled, on payment of lawfully prescribed costs, to procure a copy of his own testimony as transcribed stenographically or electronically.

(b) Any person who appears in person in an investigational hearing may be represented by counsel. Counsel shall be permitted to make objections on the record that could not reasonably been raised pursuant to Section 704.12, above, and to state briefly the basis for such objections.

(c) The Director may review any objections made at investigational hearings. If he finds that the objections are without merit and that the witness has failed to comply fully with the subpoena, he shall notify the party of his finding. If within five (5) working days the party has not fully complied, the Director may request the assistance of the Attorney General pursuant to Section 704.6.

Subpart C—Periodic Reports

§ 704.16 Authority to require periodic reports.

(a) The Chairman, the Director, or in the absence of both of the above a duly authorized representative, may sign orders issued by the Council to require periodic reports derived from information maintained in the ordinary course of business relating to wages, costs, productivity, prices, sales, profits, imports, and exports, and other aspects of business operations, all by product line or by such other category the Council may prescribe for any purpose related to the Council on Wage and Price Stability Act.

(b) A single report from a single entity, separate single reports from two or more entities, and multiple reports from one or more entities are all authorized under this Part.

(c) Orders requiring periodic reports shall be in compliance with the Federal Reports Act, 44 U.S.C. Section 3501 *et seq.*

(d) Orders requiring periodic reports shall state the date(s) when the periodic reports shall be submitted.

§ 704.17 Definition of periodic reports.

For the purpose of this Part, "periodic report" shall mean a report of specific information requested by the Council and for the Council relating to any matter under investigation by the Council.

§ 704.18 Service of orders requiring periodic reports.

Service of orders requiring periodic reports may be effected as follows:

(a) *By registered or certified mail.* A copy of the order shall be addressed to the entity to be served at its principal office or place of business, registered or certified, and mailed. A return receipt shall be requested; or

(b) *By delivery.* A copy thereof may be (1) delivered to an individual authorized to accept service for the entity to be served, or (2) left at the principal office or place of business of the entity to be served.

§ 704.19 Proof of service of orders requiring periodic reports.

When service is by registered or certified mail, it is complete upon receipt. A return receipt constitutes proof of service by mail. When service is by delivery, it is complete upon delivery to an individual authorized to accept service or upon being left at the principal office or place of business of the entity to be served. The verified return or certificate of the person serving the document by delivery shall be proof of the service of the document.

§ 704.20 Statement accompanying periodic report.

All responses to an order requiring periodic reports shall be signed by a representative authorized to file the document, indicating that he (or she) has examined the statements contained in the submittal or response, and that all such statements are true and correct to the best of his (or her) knowledge, information, and belief.

§ 704.21 Procedure for objections and requests.

Any objections or requests related to an order requiring periodic reports shall be filed in triplicate with the Director of the Council at Room 3235, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20506, within ten (10) days after service of the order requiring periodic reports. A timely filing under this section shall stay the requirement of a return on the portion of the order challenged if the Director has not ruled by the return date.

§ 704.22 Contents of objections and requests.

(a) Any filing that objects to an order requiring periodic reports shall identify those portions which are challenged and also those portions not challenged. With regard to the portions challenged, the filing shall indicate the relief requested and the reasons why the relief should be granted.

(b) Any filing that objects to an order requiring periodic reports on the ground that the order requires information in categories not maintained in the ordinary course of business shall identify any alternative categories or types of information maintained in the ordinary course of business which bear on the Council's inquiry or shall demonstrate that such an identification would be unreasonably burdensome.

§ 704.23 Satisfactory compliance and extensions of time.

(a) The Director or his authorized representative may negotiate and approve the terms of satisfactory compliance with the order requiring periodic reports. For good cause shown, they may extend the time prescribed for compliance.

(b) The Director may determine that any portion or all of a periodic report which contains substantially less or substantially more information that was ordered is not in compliance with that order.

§ 704.24 Director's decision.

Within twenty (20) working days of the receipt of any objections or requests filed pursuant to § 704.19, the Director shall make a decision and shall transmit the decision and the reasons therefore to the objecting party. The Director's decision is a "final agency action" within the meaning of 5 U.S.C. Section 704. The Director shall specify a new return date, if appropriate.

Subpart D—Data From Other Agencies

§ 704.25 Authorization to request data from other agencies.

The Chairman of the Council has authorized the Director to exercise all of the authority vested in him by section 4(a) of the Act and to delegate any or all of these authorities (39 FR 44068). The Director, the Assistant Director for Wage and Price Monitoring, the Assistant Director for Government Operations and Research, and their representatives are each authorized to request data and information pertaining to the economy or any sector of the economy from any department or agency of the United States and any state or local agency or department, which collects, generates, or otherwise prepares or maintains data or information.

§ 704.26 Procedure for requests by the Council.

(a) Any Council request for data from another governmental department or agency shall be addressed to the head of the agency or to any other appropriate official of the agency.

(b) The time and manner of an agency's response to a Council request for data shall be determined by consultation with the appropriate official from that agency.

§ 704.27 Responses by agencies.

When supplying data and information to the Council, the Federal, state or local agency shall (i) indicate whether the data and information are confidential, and (ii) specify all the applicable rules of practice and procedure governing the disclosure of the material supplied.

§ 704.28 Confidentiality of data obtained from other agencies.

(a) Upon request for disclosure for information obtained from a Federal, state, or local agency, the Council will be guided by section 552 of Title 5, United States Code, and all the applicable rules of practice and procedure of the agency or department from which the information was obtained.

(b) If the agency or department from which the information was obtained has no rules of practice and procedure governing disclosure, the Council shall apply its own rules set forth at 6 CFR, Part 702.

§ 704.29 Compliance with Privacy Act.

Submissions made by any agency in response to a Council request shall be made in compliance with the Privacy Act, 5 U.S.C. Section 552a.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33-5648, 34-11878, 35-19267, IC-9057, AS-184]

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS

Accounting Series Releases Regulation S-X

I. Introduction

Since the issuance of Accounting Series Release (ASR) No. 147 (October 5, 1973) [38 FR 29215] requiring additional disclosure about leases, ASR No. 148 (November 13, 1973) [38 FR 32439] regarding disclosure of compensating balances and short-term borrowing arrangements, and ASR No. 149 (November 28, 1973) [38 FR 33282] setting forth improved disclosure requirements for income tax expense items, registrants have pointed out certain editorial inconsistencies or ambiguities in the associated Regulation S-X [17 CFR Part 210] rule changes and guidelines. Registrants also noted that a materiality test in ASR No. 149 results in disclosure of de minimum amounts and that ASR No. 148 disclosures are not required for several types of companies covered by separate rule sections in Regulation S-X.

On May 27, 1975, rule changes were proposed to correct such items as well as making an editorial change in one of the ASR No. 148 guidelines (Securities Act Rel. No. 5587, Securiites Exchange Act Rel. No. 11442, Public Utility Holding Company Act Rel. No. 19005, Investment Company Act Rel. No. 8801) [40 FR 25605]. Based on letters of comment some modifications of the proposals have been made as noted below. None of the modifications constitute substantive changes from those originally proposed.

II. Discussion of the Amendments

Most of the amendments constitute minor editorial changes of existing requirements. However, the following amendments constitute changes in the substance of such requirements.

A. Rule 3-16(o)(1) [§ 210.3-16(o)(1)] has been amended to avoid disclosure of immaterial components of deferred tax expense. Changes made to the proposal based on the letters of comment will now meet this objective. Also, Rule 3-16(o)(3) [§ 210.3-16(o)(3)] has been amended to call specifically for reconciliations in loss situations. Most registrants have been providing such reconciliations but the amendment now resolves any ambiguity about this issue.

B. Proposed changes in Rule 3-16(q)(2) [§ 210.3-16(q)(2)] have been modified to eliminate the requirement to disclose minimum rental commitments for more than the date of latest balance sheet required.

C. The last sentence of Rule 5-02-1 [§ 210.5-02-1] has been amended to eliminate the unintended requirement for separate disclosure of a compensating balance related to an unused portion of a regular line of credit when a total compensating balance amount, covering both used and unused lines of credit, is presented.

D. Rule 5-02-25 [§ 210.5-02-25] has been amended to require separate disclosure of borrowings from factors and other financial institutions in addition to banks and commercial paper holders as presently required. Combined information about short-term borrowing rates from banks, factors or other financial institutions, and commercial paper holdings will now be required.

E. Article 6 (Management Investment Companies) [§§ 210.6-01 to 210.6-10], Article 6B (Face Amount Certificate Investment Companies) [§§ 210.6-20 to 210.6-24], and Article 7A (Life Insurance Companies) [§§ 210.7A-01 to 210.7A-06] of Regulation S-X have been amended to include many of the disclosures now required by ASR No. 148 for other types of companies. Rules 6-03-1 and 6-22-1 [§§ 210.6-03-1 and 210.6-22-1] have been modified to include specific reference to time deposits as part of cash on hand and demand deposits. Although the Commission is concerned about the classification of such items for purposes of meeting the requirements of a "diversified company" under Section 5(b)(1) of the Investment Company Act of 1940, it has determined not to conclude on this matter at this time.

F. The guidelines and interpretations section of ASR No. 148 contains a paragraph dealing with criteria for classifying short-term debt which is intended to be rolled over at maturity. Since the issuance of ASR No. 148, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 6 ("Classification of Short-term Obligations Expected to Be Refinanced," May 1975) which established standards in this area. Accordingly, this paragraph is now rescinded. (ASR No. 172, June 13, 1975) [40 F.R. 27441]

G. As noted above, Article 6, Article 6B and Article 7A have been amended to include for other types of companies many of the disclosure now required by ASR No. 148 for Article 5 companies. The Guidelines and Interpretations set forth in Section C of ASR No. 148 are now applicable to companies covered by Articles 6, 6B and 7A of Regulation S-X to the extent that equivalent rules have been amended in such Articles.

III. Commission Action

The Commission hereby amends §§ 210.3-16(o), 210.3-16(q), 210.5-02-1, 210.5-02-18, 210.5-02-25, 210.6-03-11, 210.6-03-12, 210.6-03-16, 210.6-22-1, 210.6-22-15, 210.6-22-17, 210.6-22-19, 210.6-22-21, 210.7A-03-2, 210.7A-03-8,

V40247 DEC 23 75 XUM

210.7A–03–17, and guideline under caption, Unused Lines of Credit or Commitments, in § 211.148 (ASR No. 148) all of 17 CFR Chapter II, to read as given below.

---

1. In § 210.3–16, paragraph (o) is revised, and paragraph (q) is amended as follows:

§ 210.3–16 General notes to financial statements. (See Release No. AS–4.)

• • • • • •

(o) *Income tax expense.* (1) Disclosure shall be made, in the income statement or a note thereto, of the components of income tax expense, including (i) taxes currently payable; (ii) the net tax effects, as applicable, of (a) timing differences (Indicate separately the amount of the estimated tax effect of each of the various types of timing differences, such as depreciation, warranty costs, etc., where the amount of each such tax effect exceeds five percent of the amount computed by multiplying the income before tax by the applicable statutory Federal income tax rate; other differences may be combined.) and (b) operating losses; and (iii) the net deferred investment tax credits. Amounts applicable to United States Federal income taxes, to foreign income taxes and to other income taxes shall be stated separately for each major component. Amounts applicable to foreign or other income taxes each of which are less than five percent of the total of the major component need not be separately disclosed.

(2) If it is expected that the cash outlay for income taxes with respect to any of the succeeding three years will substantially exceed income tax expense for such year, that fact should be disclosed together with the approximate amount of the excess, the year (or years) of occurrence and the reasons therefor.

(3) Provide a reconciliation between the amount of reported total income tax expense (benefit) and the amount computed by multiplying the income (loss) before tax by the applicable statutory Federal income tax rate, showing the estimated dollar amount of each of the underlying causes for the difference. If no individual reconciling item amounts to more than five percent of the amount computed by multiplying the income before tax by the applicable statutory Federal income tax rate, and the total difference to be reconciled is less than five percent of such computed amount, no reconciliation need be provided unless it would be significant in appraising the trend of earnings. Reconciling items that are individually less than five percent of the computed amount may be aggregated in the reconciliation. The reconciliation may be presented in percentages rather than in dollar amounts. Where the reporting person is a foreign entity, the income tax rate in that person's country of domicile should normally be used in making the above computation, but different rates should not be used for subsidiaries or other segments of a reporting entity. When the rate used by a reporting person is other than the United States Federal corporate income tax rate, the rate used and the basis for using such rate shall be disclosed.

• • • • • •

(q) *Leased assets and lease commitments.* Any contractual arrangement which has the economic characteristics of a lease, such as a "heat supply contract" for nuclear fuel, shall be considered a lease for purposes of this rule. Leases covering oil and gas production rights and mineral and timber rights are not to be considered leases for purposes of this rule. For purposes of this rule, a financing lease is defined as a lease which, during the noncancelable lease period, either (i) covers 75 percent or more of the economic life of the property or (ii) has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans. The disclosures set forth under sections (1) and (2) below are only required if gross rental expense in the most recent fiscal year exceeds one percent of consolidated revenues.

(1) Total rental expense (reduced by rentals from subleases, with disclosure of such amounts) entering into the determination of results of operations for each period for which an income statement is required shall be disclosed. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based upon usage or sales, shall be reported separately from the basic or minimum rentals. Rentals on noncapitalized financing leases shall be shown separately for both categories of rentals reported.

(2) The minimum rental commitments under all noncancelable leases shall be disclosed, as of the date of the latest balance sheet required, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (i) each of the five succeeding fiscal years; (ii) each of the next three five-year periods; and (iii) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancelable subleases (with disclosure of the amounts of such rentals). For purposes of this rule, a noncancelable lease is defined as one that has an initial or remaining term of more than one year and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

• • • • • •

(4) For all noncapitalized financing leases there shall be disclosed:

(i) The present values of the minimum lease commitments in the aggregate and by major categories of properties, such as real estate, aircraft, truck fleets and other equipment. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated, or actual amounts, if any, applicable to taxes, insurance, maintenance and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease. Such disclosure shall be made as of the date of any balance sheet required. If the present value of the minimum lease commitments is less than five percent of the sum of long-term debt, stockholders' equity and the present value of the minimum lease commitments, and if the impact on net income required to be disclosed under (iv) below is less than three percent of the average net income for the most recent three years, this disclosure is not required;

• • • • • •

(iv) The impact upon net income for each period for which an income statement is required if all noncapitalized financing leases were capitalized, related assets were amortized on a straight-line basis and interest cost was accrued on the basis of the outstanding lease liability. The amount of amortization and interest cost included in the computation shall be separately identified. If the impact on net income is less than three percent of the average net income for the most recent three years, that fact may be stated in lieu of this disclosure. In calculating average net income, loss years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

• • • • • •

2. In § 210.5–02, items 1, 18 and 25 are revised as follows:

§ 210.5–02 Balance sheets.

1. *Cash and cash items.* State separately (a) cash on hand and unrestricted demand deposits; (b) legally restricted deposits held as compensating balances against short-term borrowing arrangements; (c) time deposits and certificates of deposit (excluding amounts included in (b) above or § 210.5–02–18 (c) below); (d) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; and (e) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g., special purpose funds. The general terms and nature of such repayment provisions in (d) and withdrawal or usage restrictions in (b) or (e) shall be described in a note referred to herein. In cases where compensating balance arrangements exist but are not agreements which legally restrict the use of cash amounts shown on the balance sheet, describe in the notes to the financial statements these arrangements and the amounts involved,

if determinable, for the most recent audited balance sheet required and for any subsequent unaudited balance sheet required in the notes to the financial statements. Compensating balances that are maintained under an agreement to assure future credit availability shall be disclosed in the notes to the financial statements along with the amount and terms of such agreement.

• • • • • •

18. *Other assets.* State separately (a) noncurrent receivables from persons specified in captions 3(a) (1) and (4) above; (b) each pension or other special fund; (c) legally restricted deposits held as compensating balances against long-term borrowing arrangements; and (d) any other item not properly classed in one of the preceding asset captions which is in excess of five percent of total assets.

• • • • • •

25. *Accounts and notes payable.* (a) State separately amounts payable to (1) banks for borrowings; (2) factors or other financial institutions for borrowings; (3) holders of commercial paper; (4) trade creditors; (5) parents and subsidiaries; (6) other affiliates and other persons the investments in which are accounted for by the equity method; (7) underwriters, promoters, directors, officers, employees and principal holders (other than affiliates) of equity securities of the person and its affiliates; and (8) others. Exclude from (7) amounts for purchases from such person subject to usual trade terms, for ordinary travel expenses and for other such items arising in the ordinary course of business. With respect to (5) and (6), state separately in the registrant's balance sheet the amounts which in the related consolidated balance sheet are (i) eliminated and (ii) not eliminated.

(b) The weighted average interest rate and general terms (as well as formal provisions for the extension of the maturity) of each category of aggregate short-term borrowings (the sum of items (a)(1), (a)(2) and (a)(3) above) reflected on each balance sheet required shall be disclosed along with the maximum amount of aggregate short-term borrowings outstanding at any month end (or similar time period) during each period for which an end-of-period balance sheet is required. In addition, the approximate average aggregate short-term borrowings outstanding during the period and the approximate weighted average interest rate (and a brief description of the means used to compute such averages) for such aggregate short-term borrowings shall be disclosed in the notes to the financial statements.

• • • • • •

3. In § 210.6–03, items 1, 11, and 12 are revised, and 16(d) is added as follows:

§ 210.6–03 Balance sheets; statements of assets and liabilities.

• • • • • •

1. *Cash and cash items.* State separately (a) cash on hand, unrestricted demand deposits, and time deposits; (b) call loans; (c) legally restricted deposits held as compensating balances against short-term borrowing arrangements; (d) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; and (e) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g., special purpose funds. The general terms an nature of such repayment provisions in (d) and withdrawal or usage restrictions in (c) or (e) shall be described in a note referred to herein (see § 210.5–02–1).

• • • • • •

11. Other assets. State separately (a) total of amounts due from directors and officers, not included under caption 6 above; (b) each pension or other special fund; (c) real estate and improvements not included under caption 8 above; (d) furniture and fixtures; (e) legally restricted deposits held as compensating balances against long-term borrowing arrangements; and (f) any other item not properly classed in one of the preceding asset captions which is in excess of five percent of total assets.

12. *Notes payable.* (a) State separately amounts payable within one year (1) to banks and (2) to others, and (b) provide here or in a note to the financial statements the information required under § 210.5–02–25(b) and (c). See also caption 16(a).

• • • • • •

16. *Long-term debt.* • • •

(d) The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of significant unused commitments for long-term debt that would be disclosed under this rule if used shall be disclosed in the notes to the financial statements.

• • • • • •

4. In § 210.6–22, items 1, 15 and 17(a) are revised as follows:

§ 210.6–22 Balance sheets.

1. *Cash and cash items.* State separately (a) cash on hand, unrestricted demand deposits, and time deposits; (b) call loans; (c) legally restricted deposits held as compensating balances against short-term borrowing arrangements; (d) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; and (e) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g., special purpose funds. The general terms and nature of such repayment provisions in (d) and withdrawal or usage restriction in (c) or (e) shall be described in a note referred to herein (see § 210.5–02–1).

• • • • • •

15. *Other assets.* State separately (a) amounts due from directors and officers, (b) legally restricted deposits held as compensating balances against long-term borrowing arrangements, and (c) any other items in excess of five percent of the amount of all assets other than qualified assets.

• • • • • •

17. *Current liabilities, exclusive of certificate liabilities.*

(a) *Notes payable.* (i) State separately amounts payable within one year (1) to banks and (2) to others, and (ii) provide in a note to the financial statements the information required under § 210.5–02–25 (b) and (c).

• • • • • •

19. Funded debt. (a) If any amount included herein will fall due within one year, indicate such amount and explain in a note the reason for not including such amount as a current liability.

(b) The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of significant unused commitments for long-term debt that would be disclosed under this rule if used shall be disclosed in the notes to the financial statements.

21. *Other long-term debt.* Indicate whether secured. State separately (a) total of amounts due directors and officers; and (b) other long-term debt specifying any material item. State separately by years, in the balance sheet or in a note therein referred to, total amounts of respective maturities for the 5 years following the date of the balance sheet. The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of significant unused commitments for long-term debt that would be disclosed under this rule if used shall be disclosed in the notes to the financial statements.

• • • • • •

5. In § 210.7A–03, items (2), (8), and (17) are revised as follows:

§ 210.7A–03 Balance sheets.

• • • • • •

2. *Cash and cash items.* State separately (a) cash on hand and unrestricted demand deposits; (b) legally restricted deposits held as compensating balances against short-term borrowing arrangements; (c) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; and (d) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g., special purpose funds. The general terms and nature of such repayments provisions in (c) and withdrawal or usage restrictions in (b) or (d) shall be described in a note referred to herein (see § 210.5–02–1).

• • • • • •

8. *Other assets.* State separately any other item not properly classed in one of the preceding asset captions which is in excess of five percent of total assets. Include legally restricted deposits held as compensating balances against long-term borrowing arrangements.

• • • • • •

17. *Other liabilities.* State separately any other item not properly classed in one of the preceding liability captions which is in excess of five percent of total liabilities. The amount and terms (including commitment fees and the conditions under which commitments may be withdrawn) of unused commitments for

V 40 247 DEC 23 75 XUM

long-term financing arrangements not provided for under § 210.7A–03–14 shall be disclosed in the notes to the financial statements if significant.

• • • • •

§ 211.148 [Amended]

In § 211.148 (ASR No. 148) the second sentence of the third full paragraph of the guidelines set forth under the caption "Unused Lines of Credit or Commitments" is revised to read as follows:

For this purpose usable lines are construed to be total lines used to support commercial paper and other debt arrangements less lines needed to meet "clean-up" provisions of a borrowing arrangement.

• • • • •

(Secs. 6, 7, 8, 10 and 19(a) [15 U.S.C. 77f, 77g, 77h, 77j, 77s] of the Securities Act of 1933; Sections 12, 13, 15(d) and 23(a) [15 U.S.C. 78l, 78m, 78o(d), 78w] of the Securities Exchange Act of 1934; secs. 5(b), 14 and 20(a) [15 U.S.C. 79e, 79n, 79t] of the Public Utility Holding Company Act of 1935; and secs. 8, 30, 31(c) and 38(a) [15 U.S.C. 80a–8, 80a–29, 80a–30(c), 80a–37(a)] of the Investment Company Act of 1940)

IV. EFFECTIVE DATE

These amendments shall be applicable to all financial statements filed with the Commission for all fiscal periods ending subsequent to December 25, 1975. Earlier application is encouraged.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75–34566 Filed 12–22–75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Docket No. 75N–0027]

PART 522—IMPLANTATION OR INJECTABLE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Ketamine Hydrochloride Injection

The Commissioner of Food and Drugs has evaluated a new animal drug application (92–116V) filed by Bristol Laboratories, Division of Bristol-Myers Co., P.O. Box 657, Syracuse, NY 13201, proposing safe and effective use of a combination drug containing ketamine hydrochloride, promazine hydrochloride, and aminopentamide hydrogen sulfate as an anesthetic agent in cats. The application is approved, effective December 23, 1975.

The Commissioner is amending Part 522 to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness of data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), § 522.1222 is redesignated as § 522.1222a, and new §§ 522.1222 and 522.1222b are added, to read as follows:

§ 522.1222 Ketamine hydrochloride injectable dosage forms.

§ 522.1222a Ketamine hydrochloride injection.

(a) *Chemical name.* 2-(o-Chlorophenyl) - 2 - (methylamino) cyclohexanone hydrochloride.

(b) *Specifications.* The drug is a sterile aqueous solution and each milliliter contains: Ketamine hydrochloride equivalent to 100 milligrams ketamine base activity and 1:10,000 benzethonium chloride.

(c) *Sponsors.* (1) See No. 000015 in § 510.600(c) of this chapter.

(2) See No. 000071 in § 510.600(c) of this chapter.

(d) *Special considerations.* Store in a cool place. Protect from light. Do not use if precipitate appears.

(e) *Conditions of use.* (1) In cats: (i) It is used for restraint or as the sole anesthetic agent in diagnostic or minor, brief surgical procedures that do not require skeletal muscle relaxation.

(ii) It is administered intramuscularly at a recommended dose that ranges from 5 to 15 milligrams per pound of body weight depending on the effect desired.

(ii) It is administered intramuscularly

(2) In subhuman primates: (i) It is used for restraint.

(ii) It is administered intramuscularly at a recommended dose that ranges from 3 to 15 milligrams per kilogram of body weight depending upon the species, general condition, and age of the subject.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

§ 522.1222b Ketamine hydrochloride with promazine hydrochloride and aminopentamide hydrogen sulfate injection.

(a) *Chemical name.* Ketamine hydrochloride, (±),-2-(o-chlorophenyl)-2-(methylamino) cyclohexanone hydrochloride, with promazine hydrochloride, 10-[3-(dimethylamino) propyl] phenothiazine monohydrochloride, and aminopentamide hydrogen sulfate.

(b) *Specifications.* The drug is a sterile aqueous solution and each milliliter contains: Ketamine hydrochloride equivalent to 100 milligrams ketamine base activity, 7.5 milligrams of promazine hydrochloride, and 0.0625 milligram of aminopentamide hydrogen sulfate, with 1:10,000 benzethonium chloride.

(c) *Sponsor.* See Code No. 000015 in § 510.600(c) of this chapter.

(d) *Special considerations.* Store in a cool place. Protect from light. Do not use if precipitate appears.

(e) *Conditions of use.* (1) It is used in cats as the sole anesthetic agent in diagnostic or surgical procedures.

(2) It is administered intramuscularly at a recommended dose from 15 to 20 milligrams ketamine base per pound of body weight, depending on the effect desired.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective December 23, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: December 16, 1975.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FI–816]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 F.R. 26186–93). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of

the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. § 551. The entry reads as follows:

§ 1914.4 List of Eligible Communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository

Issued: December 3, 1975.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[FR Doc.75–34461 Filed 12–22–75;8:45 am]

V 40247 DEC 23 75 XUM

[Docket No. FI-824]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 93 F.R. 26186–93). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street SW., Washington D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. § 551. The entry reads as follows:

§ 1914.4 List of Eligible Communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Alabama	Crenshaw	Unincorporated areas	Dec. 15, 1975. Emergency	Dec. 6, 1974

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Washington State Poster

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 26, 1973, a notice was published in the FEDERAL REGISTER (38 FR 2421) of the approval of the Washington plan and the adoption of Subpart F to Part 1952 containing the decision. On October 8, 1974, the State of Washington submitted a supplement to the plan involving a developmental change (see Subpart B of 29 CFR Part 1953). Final approval of this supplement was delayed pending the adoption of appropriate regulations on requirements for approval of State posters (see Subpart A of 29 CFR Part 1952 as amended November 5, 1974, (39 FR 39036)). As initially submitted, the State of Washington's poster did not include the required reference to employee protection against discharge or discrimination under section 11(c) of the Act. The State has since printed a new poster meeting all requirements and began distribution on October 6, 1975.

On April 29, 1974, the enabling legislation for the Washington State Plan (Senate Bill No. 2386, Chapter 80, Laws of 1973) was submitted for public comment (39 FR 14978) and notice of approval was published in the FEDERAL REGISTER on July 10, 1974 (39 FR 25325).

2. *Description of the supplement.* The supplement contains the Washington Poster which is to be posted at all covered workplaces in the State. Among other things, the poster contains provisions notifying employees of their obligations and protections under the Washington Industrial Safety and Health Act (hereinafter called WISHA), their right to request workplace inspections and their right to participate in inspections, their protection against discharge or discrimination under both Federal and State law for the exercise of their rights under Federal and State law and their right to file complaints with the Occupational Safety and Health Administration concerning the administration of the State program.

3. *Location of the plan and its supplement for inspection and copying.* A copy of the poster, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Technical Data Center, Room N–3620, 200 Constitution Avenue, N.W., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 6048, 909 First Avenue, Federal Office Building, Seattle, Washington 98174; and the Department of Labor and Industries, General Administration Building, Olympia, Washington 98504.

4. *Public participation.* Under § 1953.2 of this chapter, the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Washington State Poster incorporates all of the provisions required under 29 CFR 1952.10(a) (5) and 29 CFR 1903.2 (a) (3) (39 FR 39306, November 5, 1974). Accordingly, it is found that further opportunity for public comment and notice is unnecessary.

The legislation, submitted for public comment on April 29, 1974, was approved by the Assistant Secretary on July 3, 1974.

5. *Decision.* After careful consideration, the Washington plan sunpplemet outlined above is approved under Part 1953. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, Subpart F of 29 CFR Part 1952 is amended to reflect the completion of a developmental step upon the approval of the State Poster, and to codify the approval of the Washington legislation. Accordingly, § 1952.124 of Subpart F of Part 1952 for the reason stated in 4 above is hereby amended as follows:

§ 1952.124 Completed developmental steps.

(a) In accordance with the requirements of § 1952.123(a) the Washington Industrial Safety and Health Act of 1973, hereinafter referred to as WISHA (S.B. 2386, RCW Chapter 49.17), signed by the Governor on March 9, 1973, effective on June 7, 1973, was approved July 3, 1974 (39 FR 25326).

(b) In accordance with the requirements of § 1952.10, the Washington State Poster submitted on October 6, 1975, was approved by the Assistant Secretary on December 17, 1975.

Signed at Washington, D.C. this 17th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

V40247 DEC 23 75 XUM

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Pension, Compensation, and Dependency and Indemnity Compensation; Awards to Remarried Widows and Widowers

On page 49580 of the FEDERAL REGISTER of October 23, 1975, there was published a notice of proposed regulatory development relating to awards to remarried widows and widowers whose subsequent marriages have terminated. Section 3.700(b)(1) requires that, when there is entitlement to benefits based on the death of more than one veteran spouse, the widow or widower must elect which benefit she or he will receive. The amendment to § 3.700(b)(1) provides that where benefits are elected in the case of one spouse the award will be made subject to any prior payments in the case of the other spouse. The purpose of this amendment is to permit payment of the greater benefit from the earliest applicable effective date when a widow or widower has been awarded benefits based on the death of one spouse and is subsequently determined eligible for benefits at a higher rate based on the death of another spouse. This constitutes an exception to the provision in § 3.400(j) that the effective date of an award based on an election will be the date of receipt of the election. Additional editorial changes are made in § 3.700 to delete obsolete material related to periods for which compensation may or may not be paid to veterans who received readjustment pay and to update a citation to the United States Code. Editorial changes are made in both sections to reflect the provisions apply equally to male and female beneficiaries.

Interested persons were given 30 days in which to submit comments, suggestions, or objections, regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These VA Regulations are effective December 16, 1975.

Approved: December 16, 1975.

By direction of the Administrator:

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

1. In § 3.700, the introductory portion preceding paragraph (a) and paragraphs (a)(1)(i)(a)(2) and (b) are revised to read as follows:

§ 3.700 General.

Not more than one award of pension, compensation, or emergency officers', regular or reserve retirement pay will be made concurrently to any person based on his or her own service except as provided in § 3.803 relating to naval pension and § 3.750(c) relating to waiver of retirement pay. Not more than one award of pension, compensation, or dependency and indemnity compensation may be made concurrently to a dependent on account of more than one period of service of a veteran. (38 U.S.C. 3104(a))

(a) *Veterans*—(1) *Active service pay.* (i) Pension, compensation, or retirement pay on account of his or her own service will not be paid to any person for any period for which he or she receives active service pay. (38 U.S.C. 3104(c)) This includes "sick pay" or "incapacitation pay" received by a member of a reserve component who suffers injury on a training tour and continues to receive such "pay" after expiration of scheduled training pay and not in an active duty status. The "sick pay" or "incapacitation pay" is "active service pay."

* * * * *

(2) *Lump-sum readjustment pay.* (i) A veteran who has received a lump-sum readjustment payment may receive disability compensation for disability incurred in or aggravated by service prior to the date of receipt of lump-sum readjustment payment subject to deduction of an amount equal to 75 percent of the amount received as readjustment payment.

(ii) The receipt of readjustment pay does not affect the payment of disability compensation based on a subsequent period of service. Compensation payable for service-connected disability incurred or aggravated in a subsequent period of service will not be reduced for the purpose of offsetting readjustment pay based on a prior period of service. (10 U.S.C. 687(b))

* * * * *

(b) *Dependents*—(1) *Widows and widowers.* The receipt of pension, compensation or dependency and indemnity compensation by a widow or widower on account of the death of any veteran, or receipt of pension or compensation on account of his or her own service, shall not bar the payment to him or her of pension, compensation, or dependency and indemnity compensation on account of the death or disability of any other veteran; however, other than insurance, concurrent benefits under laws administered by the Veterans Administration may not be authorized to a widow or widower by reason of the death of more than one veteran to whom he or she has been married. Effective January 1, 1971, the widow or widower may elect to receive benefits based on the death of one such spouse and the election places the right to benefits based on the deaths of other spouses in suspense. The suspension may be lifted at any time by another election based on the death of another spouse. Benefits payable in the elected case will be subject to prior payments for the same period based on the death of the other spouse where, under the provisions of § 3.400(c), there is entitlement in the elected case prior to date of receipt of the election.

(2) *Children.* Except as provided in § 3.703, the receipt of pension, compensation, or dependency and indemnity compensation by a child on account of the death of a veteran or the receipt by the child of pension or compensation on account of his or her own service will not bar the payment of pension, compensation, or dependency and indemnity compensation on account of the death or disability of any other veteran.

(3) *Parents.* The receipt of compensation or dependency and indemnity compensation by a parent on account of the death of a veteran or receipt by him or her of pension or compensation on account of his or her own service, will not bar the payment of pension, compensation, or dependency and indemnity compensation on account of the death or disability of any other person. (38 U.S.C. 3104(b))

2. In § 3.701, paragraph (a) is revised to read as follows:

§ 3.701 Elections of pension or compensation.

(a) *General.* Except as otherwise provided, a person entitled to receive pension or compensation under more than one law or sections of a law administered by the Veterans Administration may elect which benefit to receive regardless of whether it is the greater or lesser benefit and even though the election results in reducing the benefits of his or her dependents. This person may at any time elect or reelect the other benefit. An election by a veteran controls the rights of all dependents in that case and an election by a widow or widower controls the claims of the children as well, including children over age 18 and children not in the widow's or widower's custody. Termination of a marriage or marital relationship which had been the reason for terminating an award of pension based on a veteran's service in World War I or later war periods does not restore to the widow or widower the right to receive protected pension. The claimant's entitlement, if otherwise established, is under the current provisions of 38 U.S.C. 541.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 51c—PROJECT GRANTS FOR HEALTH SERVICES DEVELOPMENT

Continuation Projects

Section 501(b) of Public Law 94–63 (84 Stat. 304), enacted on July 29, 1975, repealed section 314(e) of the Public Health Service Act, the statutory authority under which a number of grant programs for health services (including the neighborhood health center, family health center, and community health network programs) were conducted. Section 501(a) of Public Law 94–63 replaced section 314(e) with section 330, the principal purpose of which is to provide authority to make grants for the planning, development and operation of "community health centers" as defined in section 330(a). In enacting section 330, however, Congress clearly indicated that

it intended, inter alia, that the neighborhood health center, family health center and community health network programs be continued even where grantees under those programs are not "community health centers" as newly defined, and provided, in section 330(d)(1)(B), statutory authority under which such programs could continue to be carried out until the grantees brought themselves into conformity with the provisions of of section 330.

Section 330(d)(1)(B) authorizes the Secretary to make grants for the costs of operation of public and private nonprofit entities which provide health services to medically underserved populations but which do not meet each of the requirements applicable to community health centers. In light of the clear Congressional intent that this provision be used to continue programs and activities previously conducted under section 314(e), the Secretary has determined that funds under the continuing resolution (Public Law 94–41) may be used to fund grants under section 330(d)(1)(B). Projects previously funded under section 314(e) which are hereafter funded under section 330(d)(1)(B) will of course be governed by the requirements of the latter section. The regulations set forth below establish factors to be considered by the Secretary in the designation of "medically underserved populations" for purposes of awarding such continuation grants under section 330(d)(1)(B).

The Secretary intends to issue in the near future regulations governing the grant programs authorized by section 330. No new projects will be funded under section 330 until those regulations become effective. In the interim, however, grants made under section 314(e) to a number of projects which are eligible for funding under section 330(d)(1)(B) will be expiring. In view of the necessity to continue to fund such projects in order to carry out the clear Congressional intent that the program be continued, the Secretary has determined that, pending the issuance of complete regulations to govern sec. 330 grants, continuation awards may be made to projects heretofore supported under section 314(e) which meet the requirements of section 330(d)(1)(B). Also in view of such necessity, the Secretary has further determined that public participation in rulemaking and postponement of effective date with respect to the regulations set forth below would be impracticable and contrary to the public interest. Accordingly, the regulations set forth below are effective December 22, 1975.

Title 42, CFR, is amended by the addition of a new Part 51c, as set forth below.

Dated: October 9, 1975.

THEODORE COOPER,
Assistant Secretary for Health.

Approved: December 12, 1975.

DAVID MATHEWS,
Secretary.

Sec.
51c.101 *Designation of medically underserved populations.*

AUTHORITY: Sec. 215, 58 Stat. 690 (42 U.S.C. 216).

§ 51c.101 Designation of medically underserved populations.

In designating medically underserved populations for the purposes of making continuation grants under section 330(d)(1)(B) of the Public Health Service Act to projects previously funded under section 314(e) of such Act, the Secretary of Health, Education, and Welfare will take into account factors including the following:

(a) The shortage of health personnel and health care facilities in the area served by the project;

(b) Health status indicators, such as infant and maternal mortality rates, and other indicators of the existence of special health problems affecting the need for health care services in the area; and

(c) The accessibility and availability of health care services in the area and the ability to obtain these services when required on a timely and effective basis.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5565; F-031025]

ALASKA

Partial Revocation of Public Land Order No. 715; Lands Available for Native Selection

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 715 of April 20, 1951, withdrawing lands for use of the Department of the Air Force for military purposes, is hereby revoked so far as it affects the following described land:

A tract of land at Kaktovik Island, Barter Island Group, Alaska, more particularly described as:

Beginning at U.S.C. & G.S. triangulation station "Barter Astro;" thence along an approximate bearing of South 71°20'00" East, a distance of 2,600.00 feet, more or less, to a point on the mean high water line of the Arctic Ocean and the True Point of Beginning; thence West, a distance of 6,060.00 feet, more or less; thence North, a distance of 6,440.00 feet, more or less, to a point on the mean high water line of the Arctic Ocean; thence in a generally westerly direction to the left along said mean high water line for a distance of 12.7 miles, more or less, to the point of beginning.

Containing approximately 3,577.30 acres.

2. The lands described in paragraph 1 are withdrawn under Public Land Order No. 2214 of December 8, 1960, as part of the Arctic National Wildlife Range, and under section 11(a)(1) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, for selection by the village of Kaktovik.

3. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

ROYSTON C. HUGHES,
Assistant Secretary of the Interior.

DECEMBER 17, 1975.

[FR Doc.75-34542 Filed 12-22-75;8:45 am]

[Public Land Order 5566; AA-8253]

ALASKA

Partial Revocation of Public Land Order No. 5550; Withdrawal of Lands for Native Selection

By virtue of the authority vested in the President and pursuant to section 11(b)(3) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 700 (hereinafter referred to as the Act), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 5550 of December 1, 1975, which reserved lands for the U.S. Coast Guard for defense purposes, is hereby revoked as to the following described lands:

KODIAK ISLAND

PARCEL 1

Beginning at a point which is due west, 10,668.12 feet from Corner No. 1 of U.S. Survey No. 2539:

Thence due west 8,400 ft. to point 1B; thence N. 34°41' W., 7,907.16 ft. to point 1C; thence S. 85°45'15" W., 4,157.22 ft. to point 1D; thence N. 89°25'45" W., 5,957.22 ft. to point 1E; thence S. 52°28'30" W., 10,567.29 ft. to point 1F; thence S. 13°10'30" W., 9,085.74 ft. to point 1G; thence S. 6°34' E., 4,371.48 ft. to point 1H; thence S. 87°18'35" E., 12,715.45 ft. to point 2A, which is the true point of beginning; thence N. 75°25' E. 9,281 ft. to a point on the summit of Barometer Mountain; thence S. 64°41' E., 2,900 ft. to a point; thence S. 44°02' E., 5,210 ft. to a point; thence S. 51°30' W., 3,500 ft. to a point; thence S. 38°30' E., to a point which lies 300 ft. N. 38°30' W., from the centerline of the Chiniak Road as shown on CG Dwg. F-81;

Thence meandering southerly and westerly along a meander line which is offset 300 feet northerly and westerly from the centerline of the Chiniak Road to a point at the intersection of said meander line with a line which bears S. 25°40'30" E., and is tangent to the south mean high water line of the spit leading to Frye Point; thence S. 85°10'30" W., 3,960 feet to a point; thence N. 40°49'30" W., 6,400 feet to a point; thence N. 28°10'30" E., 4,500 feet to a point; thence north 1,251.45 feet to the point of beginning.

PARCEL 2

Beginning at a point which is due west 10,668.12 feet from Corner No. 1 of U.S. Survey No. 2539:

V 40247 DEC 23 75 XUM

Thence due south 3,750 feet; thence S. 39°57' W., 2,130 feet; thence S. 18°24' W., 1,300 feet; thence due south 510 feet; thence S. 77°26' E., 1,520 feet; thence N. 77°00' E., 990 feet; thence S. 45° E., 2,980 feet more or less to a point on the mean lower water line; thence S. 27° E., approximately 13,250 feet to the most northerly point of Cliff Point at the mean high water line; thence southerly and easterly on a meander line along the mean high water line to the most southeasterly point of Cliff Point; thence due east to a point which is 5,060.4 ft. due south of Corner No. 11, U.S. Survey No. 2539; thence due north 5,060.4 ft. to Corner No. 11, U.S. Survey No. 2539; thence N. 5°05'30" W., 9,856.04 feet to a point; thence N. 45°00' W., 11,954.64 feet to a point; thence due west 2,968.12 feet to the point of beginning.

2. The lands described in paragraph 1 are hereby withdrawn pursuant to section 11(b)(3) of the Act for selection by the Koniag Regional Corporation and appropriate village corporations within that region.

3. The lands described in paragraph 1 shall continue to be withdrawn by Public Land Order No. 5187 and shall remain subject to all of the terms and conditions contained therein.

4. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

5. This action is taken in part in consideration of the waiver of tort liability and in order to allow Native village corporations and the regional corporation of Koniag to select from the lands in paragraph 1.

THOMAS S. KLEPPE,
Secretary of the Interior.

DECEMBER 17, 1975.

[FR Doc.75-34543 Filed 12-22-75;8:45 am]

[Public Land Order 5567; AA-8909]

ALASKA

Withdrawal of Lands for Selection by the Kenai Native Association, Inc.

By virtue of the authority vested in the Secretary of the Interior by section 14(h) of the Alaska Native Claims Settlement Act, 85 Stat. 688, 704 (hereinafter referred to as the Act) it is ordered as follows:

1. Subject to valid existing rights, the following described lands are hereby withdrawn from all forms of appropriation under the public land laws, including leasing under the Mineral Leasing Act of February 25, 1920, as amended, 30 U.S.C. 181–287 (1970), and are hereby reserved so that the Kenai Native Association, Inc., may select from these lands under section 14(h)(3) of the Alaska Native Claims Settlement Act:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 4 N., R. 8 W.,
secs. 1 and 2.
T. 6 N., R. 7 W.,
sec. 19, SW¼, W½SE¼, SE¼SE¼;
secs. 29 thru 32.
T. 6 N., R. 8 W.,
secs. 19 thru 36.
T. 6 N., R. 9 W.,
secs. 1 thru 3;
Sec. 4, E½E½;
secs. 7 thru 36.
T. 6 N., R. 11 W.,
sec. 11;
sec. 12, W½, SE¼;
secs. 13 and 14.

The areas described aggregate approximately 37,550 acres, of which the Kenai Native Association, Inc., may select no more than 18,775 acres.

2. By virtue of the authority vested in the Secretary of the Interior by section 22(h)(4) of the Act, the Secretary has determined that none of the lands described in paragraph 1 which are within 2 miles of the city of Kenai are subject to selection by any Native village or regional corporation under any provisions of said Act because of their location within 2 miles of the boundary of the city limits of Kenia, as set forth in section 22(l) of the Act, and any withdrawals of the lands for such selection are hereby terminated.

3. Prior to the conveyance of any of the lands withdrawn by this order, the lands remain subject to administration by the Secretary of the Interior under applicable laws and regulations, as part of the Kenai National Moose Range, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this withdrawal. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), shall be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing. Any conveyances of the lands withdrawn by this order shall be subject to section 22(g) of the Alaska Native Claims Settlement Act.

ROYSTON C. HUGHES,
Assistant Secretary of the Interior.

DECEMBER 17, 1975.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 310—MERCHANT MARINE TRAINING

Admission and Training of Midshipmen at the United States Merchant Marine Academy

Part 310 of Title 46 of the Code of Federal Regulations is hereby amended. This amendment increases the pay that midshipmen of the United States Merchant Marine Academy receive while assigned to merchant vessels for sea year training.

The purpose of this amendment is to implement the Maritime Administration policy that midshipmen shall receive the same rate of pay from their steamship company employers for the sea year training as cadets receive at the Federal academies.

Since the rate of pay received by midshipmen while assigned to subsidized merchant vessels is a matter of public contract with the owners of such vessels, this amendment to the Merchant Marine Training regulations is adopted without notice of proposed rule making.

Part 310 of Title 46 of the Code of Federal Regulations is amended by revising the first sentence of paragraph (c) of § 310.58 to read as follows:

§ 310.58 Training on subsidized vessels.

* * * * * *

(c) *Pay*—Midshipmen shall receive pay, while attached to merchant vessels, at the rate of $333.00 per month from their steamship company employers.

* * * * * *

Effective date: This amendment shall become effective January 20, 1976.

(Section 204(b), Merchant Marine Act, 1936, as amended (49 Stat. 1987, 46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 842) as amended by P.L. 91-469 (84 Stat. 1036), Department of Commerce Order 10-8 (38 F.R. 19707, July 23, 1973).)

Catalog of Federal Domestic Assistance Program No. 11-507 U.S. Merchant Marine Academy (Kings Point).

Dated: December 16, 1975.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

By Order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

MacKay Island National Wildlife Refuge, N.C., Va.

The following special regulations are issued and are effective during the period January 1, 1976 through December 31, 1976.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

NORTH CAROLINA AND VIRGINIA

MACKAY ISLAND NATIONAL WILDLIFE REFUGE

Entry on foot, horseback, bicycle or motor vehicle from the Knotts Island Causeway is permitted during daylight hours on designated travel routes for the purpose of nature study, photography, and hiking. Boat access on navigable water and land access to other designated portions of the refuge for the above purposes is permitted only from March 15, 1976 through October 15, 1976. Pets on a leash not exceeding 10 feet in length are permitted. Boats may be launched from the Knotts Island Causeway throughout the year at the Corey's ditch bridge. Boat launching at other points on the causeway is permitted only from March 15 through October 15, 1976. Airboats are not permitted.

Organized groups of more than ten persons requesting use of the refuge for nature study are required to contact the Refuge Manager for a permit.

The refuge, comprising 7,024 acres, is delineated on a map available from the Refuge Manager, Back Bay National Wildlife Refuge, Pembroke #2 Bldg., Suite 218, 287 Pembroke Office Park, Virginia Beach, Virginia 23462, or from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1976.

HOWARD N. LARSEN,
Regional Director,
U.S. Fish and Wildlife Service.

DECEMBER 16, 1975.

[FR Doc.75-34564 Filed 12-22-75;8:45 am]

PART 33—SPORT FISHING

Mark Twain National Wildlife Refuge; Illinois, Iowa, Missouri

The following special regulation is issued and is effective December 23, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ILLINOIS-IOWA-MISSOURI

MARK TWAIN NATIONAL WILDLIFE REFUGE

Sport fishing on the Mark Twain National Wildlife Refuge, Illinois, Iowa, and Missouri, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 10,257 acres, are delineated on maps available at the refuge headquarters and from the office of the Regional Director, United States Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

ILLINOIS

(1) The open season for sport fishing on the Batchtown and Calhoun Divisions of the Mark Twain National Wildlife Refuge extends from January 1, 1976, through October 15, 1976, with the exception of certain designated areas which are open until December 31, 1976.

(2) The open season for sport fishing on the Keithsburg Division of the Mark Twain National Wildlife Refuge extends from January 1, 1976, through October 15, 1976.

(3) The open season for sport fishing on the Gardner Division of the Mark Twain National Wildlife Refuge extends from January 1, 1976, through October 15, 1976.

(4) (a) The open season for sport fishing on the Chautauqua National Wildlife Refuge extends from December 15, 1975 through October 15, 1976, with the exception of certain designated areas in Chautauqua Lake, Goofy Ridge Ditch, and all water areas of the public hunting area which are open until December 14, 1976.

(b) The use of boats, powered by motors of ten (10) horsepower or less, is permitted in the waters of Lake Chautauqua.

(c) No person shall enter upon or fish from any dike, water control structure or shoreline within the refuge except at the Recreation Area, Boatyard No. 3, or along the cross dike.

IOWA

(1) The open season for sport fishing on the Louisa Division of the Mark Twain National Wildlife Refuge extends from January 1, 1976, through September 30, 1976, with the exception of certain areas adjacent to the Port Louisa Road which are open until December 31, 1976.

(2) The open season for sport fishing on the Big Timber Division of the Mark Twain National Wildlife Refuge extends from January 1, 1976, through December 31, 1976.

MISSOURI

(1) The open season for sport fishing on the Clarence Cannon National Wildlife Refuge is limited to Bryants Creek which is open from January 1, 1976, through December 31, 1976.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through December 31, 1976.

HOWARD A. LUPER,
Refuge Manager, Mark Twain National Wildlife Refuge.

DECEMBER 15, 1975.

[FR Doc.75-34528 Filed 12-22-75;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 69-19; Notice 10]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Lamps, Reflective Devices, and Associated Equipment

This notice amends 49 CFR 571.108, Motor Vehicle Safety Standard No 108, *Lamps, Reflective Devices, and Associated Equipment*, to clarify the electrical terminal specifications for Type 1A rectangular headlamps.

Standard No. 108 was amended on November 30, 1973, (38 FR 33084) to specify requirements for rectangular headlamps that may be used as an option in a four-headlamp system. Figure 2 of the amended standard specifies certain interchangeability features of Type 1A and 2A rectangular headlamps, including location and arrangement of the electrical terminals. The three terminals shown in Figure 2 are designated as "ground," "lower beam," and "Type 2A upper beam." The terminal designated as "lower beam" is used as the terminal for the upper beam on Type 1A headlamps. This is implied by the notation, "no connection or terminal for Type 1A headlamp," under the phrase "Type 2A upper beam," since the ground is not a connection, but the figure may not be sufficiently clear on that point. In order to make it clear, this notice amends Figure 2 so that the "lower beam" terminal is redesignated as the "Type 2A lower beam or Type 1A upper beam" terminal.

It has also come to the attention of this agency that certain dimensional tolerances of Figure 2 are unnecessarily restrictive and that other methods of dimensioning are more applicable in certain cases. In addition, an optional terminal configuration permitted for other headlamps is not currently included for the Type 1A and 2A headlamps.

Accordingly, Figure 2 is being revised to provide a tolerance change to the overall lamp width (6.58 inches) and height (4.20 inches). The lamp corner radius of 0.56 inch is changed to 0.54 inch, a terminal spacing of 0.333 inch is changed to 0.335 inch, and an optional terminal configuration is specified. A dimension is included for the seating lugs, and a different method of dimensioning the locating lug is specified.

These changes do not affect interchangeability or performance of the lamps and are specified only to relieve unnecessary restrictions.

V 40 247 DEC 23 75 D XUM

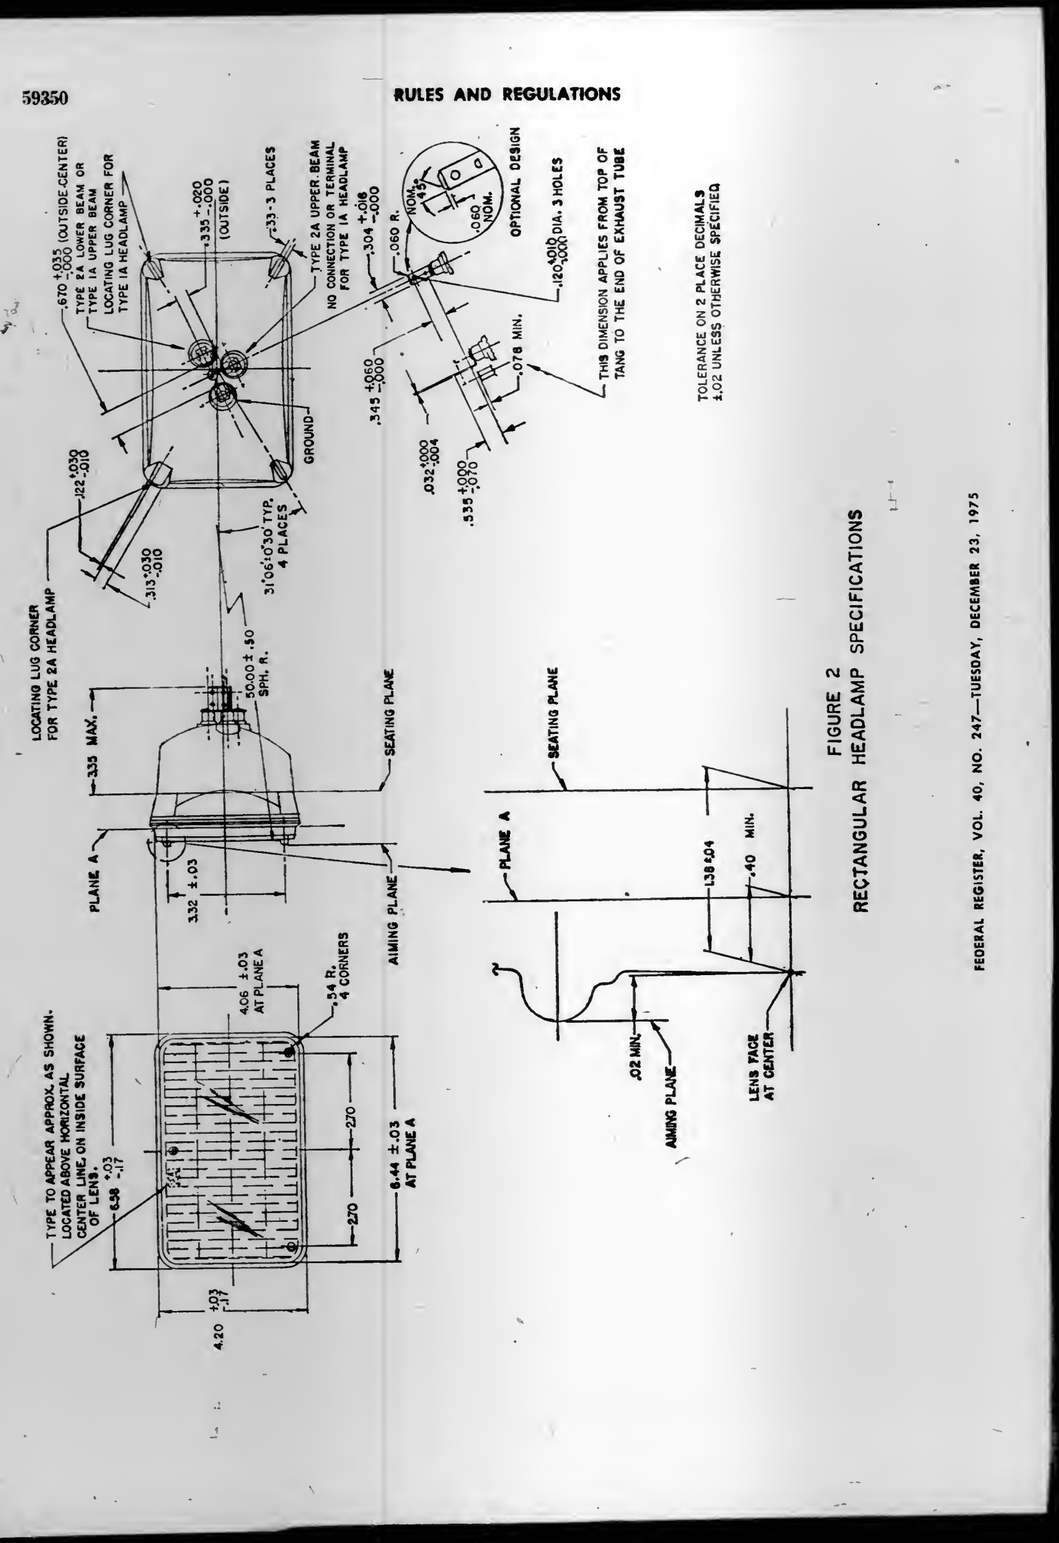

FIGURE 2
RECTANGULAR HEADLAMP SPECIFICATIONS

Effective date: Because the amendment creates no additional burden upon any person it is found for good cause shown that an immediate effective date is in the public interest.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.50)

Issued on December 3, 1975.

JAMES B. GREGORY,
Administrator.

Title 45—Public Welfare

CHAPTER XVI—LEGAL SERVICES CORPORATION

PART 1603—STATE ADVISORY COUNCILS

Adoption of Regulations

Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-2996l ("the Act"). Section 1004(f) of the Act, 42 U.S.C. 2996c(f), provides that within six months after the first meeting of the Board of Directors of the Corporation, the Board shall request the Governor of each state to appoint a state advisory council for legal services programs.

On page 53272 of the FEDERAL REGISTER of November 17, 1975, the Corporation published proposed regulations for the establishment of state advisory councils. Interested persons were given until December 18, 1975 to submit comments, suggestions or objections to those proposed regulations. All comments received were given consideration by the Corporation. The following regulations were duly adopted by the Corporation. They represent changes from the proposed regulations in the following ways:

1. A definition of the term "apparent violation" was added to § 1603.2.

2. Section 1603.4 was re-drafted to clarify the recommended appointment procedure for naming council members. A sentence setting forth the power of the Board of Directors to appoint a council if the Governor does not was struck as redundant of the Act. A new provision was added to treat procedures for dealing with vacancies on the council after the original members' terms expire.

3. Section 1603.5(b) was substantially shortened to clarify the duties of state advisory councils when they receive a complaint about legal services programs.

4. Former § 1603.5(c) was struck as redundant because of the redrafted § 1603.5(b).

5. Former § 1603.5(d) is now § 1603.5(c). The present § 1603.5(c) now obligates the Corporation to inform a state advisory council of any action which the Corporation takes on a complaint which comes to the Corporation directly.

6. Section 1603.7(c) was revised by striking the limitation of four meetings annually for a council.

7. Section 1603.7(e) was struck as redundant of Section 1004(g) of the Act, which provides that meetings of state advisory councils shall be open to the public.

8. Section 1603.8(a) was entirely rewritten to state that the Corporation will provide specified amounts of money for the conduct of council business and reasonable travel expenses for members.

9. The second sentence of § 1603.8(b) was struck as redundant.

10. Section 1603.8(c) was redrafted to place the burden of posting notices in local offices on the recipient, rather than on the person in charge of the local office.

11. Section 1603.9 was amended to give state advisory councils more latitude regarding the subject matter of their annual reports.

12. Section 1603.10 was amended to state that a council must forward notifications of apparent violations to the local and administrative offices of a recipient, where a recipient operates in more than one state.

13. Several additional minor changes of a perfecting or stylistic nature, not having substantive implications, were made throughout the text.

Accordingly, the state advisory council regulations are adopted as set forth below, to become effective 30 days hereafter, pursuant to Section 1008(e) of the Act.

PART 1603—STATE ADVISORY COUNCILS

Sec.
1603.1 Purpose.
1603.2 Definitions.
1603.3 Composition and term of office of council membership.
1603.4 Procedure for appointment of council.
1603.5 Council purpose and duties.
1603.6 Duties of corporation on receipt of notification of violation.
1603.7 Organization and procedural functioning of council.
1603.8 Corporation support of council.
1603.9 Annual report of council.
1603.10 Multi-state recipients.

AUTHORITY: Sec. 1004(f), 88 Stat. 379-380 (42 U.S.C. 2996c(f)).

§ 1603.1 Purpose.

The purpose of this part is to implement section 1004(f) of the Legal Services Corporation Act of 1974, 42 U.S.C. 2996c(f), which provides authority for the appointment of state advisory councils.

§ 1603.2 Definitions.

As used in this part, the term—

(a) "Act" means the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-29961;

(b) "apparent violation" means a complaint or other written communication alleging facts which, if established, constitute a violation of the Act, or any applicable rules, regulations or guidelines promulgated pursuant to the Act;

(c) "Board" means the Board of Directors of the Legal Services Corporation;

(d) "Corporation" means the Legal Services Corporation established under the Act;

(e) "council" means a state advisory council established pursuant to Section 1004(f) of the Act;

(f) "eligible client" means any person financially unable to afford legal assistance;

(g) "Governor" means the chief executive officer of a State;

(h) "recipient" means any grantee, contractee, or recipient of financial assistance described in clause (A) of Section 1006(a)(1) of the Act;

(i) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

§ 1603.3 Composition and term of office of council membership.

A council shall be composed of nine members. A majority of the members of a council shall be attorneys admitted to practice in the State. It is recommended that the remainder of the council, to the maximum extent possible, be broadly representative of persons concerned with the effective functioning of legal services programs. Membership of a council shall be subject to annual reappointment, but it is recommended that no member of a council be appointed to serve for more than three consecutive years.

§ 1603.4 Procedure for appointment of council.

At the formal request of the Board, to be made before January 14, 1976, the Governor may appoint a council for the State. Those council members who are attorneys admitted to practice in the State shall be appointed by the Governor after recommendations have been received from the State bar association. In making such appointments, it is recommended the the Governor consult with other bar associations in the State, representatives of groups concerned with the interests of recipients, eligible clients and other interested groups. It is recommended that the Governor appoint attorneys who have interest in and knowledge of the delivery of quality legal services to the poor, and that the remaining members of the council, who are not attorneys, be selected after the Governor has consulted with representatives of groups concerned with the interests of eligible clients. It is recommended that the Governor seek recommendations from recipients in the State before appointing any members to the council. Sixty days prior to the expiration of a member's term, the Governor shall notify those groups mentioned in this Section so that their recommendations may be solicited for purposes of appointment of a new member or reappointment of an incumbent member of the council.

§ 1603.5 Council purpose and ruties

(a) The purpose of the council shall be to notify the Corporation of any apparent violation as defined in § 1603.2 (b) of this chapter.

(b) In fulfilling the purpose set forth in paragraph (a) of this Section, the

V 401247 DEC 23 75 XUM

council shall forward any apparent violation to the Corporation. The Chairperson of the council shall inform the complainant, the Corporation and the recipient of any action taken on the complaint. Notification of an apparent violation forwarded by the council to the Corporation shall not necessarily constitute a position of the council concerning the apparent violation.

(c) These procedures are not exclusive. Complaints may be submitted to the Corporation, and complaints submitted to a council may be submitted to the Corporation without regard to council action. The Corporation shall inform the complainant, the council and the recipient of all action taken on the complaint.

§ 1603.6 Duties of Corporation upon receipt of notification of violation.

(a) Upon receipt of a notification of an apparent violation, the matters contained therein shall be investigated and resolved by the Corporation in accordance with the Act and rules and regulations issued thereunder.

(b) Upon receipt from a council of a notification of an apparent violation, the Corporation shall allow any recipient affected thereby a reasonable time (but in no case less than thirty days) to reply to any allegation contained in the notication.

(c) The Corporation shall inform the Chairperson of a council of the action, if any, the Corporation has taken with regard to any notification received from such council.

§ 1603.7 Organization and procedural functioning of council.

(a) Within 30 days after the appointment of the council, and annually thereafter, the Governor shall send to the Secretary of the Corporation in Washington, D.C., a list of the members of the council for the State that shall include the name, address and telephone number of each council member, and indicate which members are attorneys.

(b) It is recommended that the Governor appoint from among those named to the council a Chairperson of the council.

(c) It is recommended that each council establish at its first meeting such fair and reasonable procedures for its operation as it may deem necessary to carry out the purpose set forth in § 1603.5(a) of this Chapter. The procedures for operation of the council shall include provisions for notifying the appropriate regional director of the Corporation of the time and place of any meeting of the council.

(d) It is recommended that a council meet at the call of the Chairperson thereof, or at the request to the Chairperson of at least four members thereof, at such times as may be necessary to carry out its duties, but at least annually.

§ 1603.8 Corporation support of council.

(a) The Corporation shall inform the Chairperson of each council of the funds available to the council from the Corporation for actual and reasonable expenses incurred by members of the council to pursue council business.

(b) It shall be the duty of the President of the Corporation to keep the Chairperson of each council informed of the work of the Corporation.

(c) The Secretary of the Corporation shall mail annually to each recipient the name and address of the Chairperson of the appropriate council and a form of notice indicating where complaints may be sent. The recipient shall post said name and address of the Chairperson and said notice in plain public view in each office of the recipient.

§ 1603.9 Annual report of council.

On or before March 31, 1977, and on or before March 31 of each succeeding year, a council shall submit to the Corporation a report of the activities of the council during the previous calender year. The report may contain comments or suggestions regarding how best to provide high quality legal assistance to the poor, and regarding such other matters having to do with provision of legal services to eligible clients in the State as the council may deem advisable.

§ 1603.10 Multi-state recipients.

Where a recipient has offices in more than one State, the council of the State in which the apparent violation occurred has the responsibility for notifying the Corporation and the recipient at its local and administrative offices.

Effective date: January 23, 1976.

DAVID S. TATEL,
Acting General Counsel.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 233]

NEED STANDARDS; FACTORS SPECIFIC TO AFDC

Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations would amend 45 CFR 233.20 and 233.90 to clarify Federal policy on determining need and amount of assistance as a result of the decision of the U.S. Supreme Court in *Van Lare et. al.* v. *Hurley et. al.*, May 19, 1975. The Court rendered invalid a New York State regulation which required a pro rata reduction in the shelter allowance of a family receiving AFDC solely because a parent allowed a non-legally responsible individual to reside in the home. It found that Federal law bars States from assuming that non-legally responsible individuals will apply their resources to aid a child receiving AFDC, and that prorating the shelter allowance in such circumstances constitutes an impermissible assumption of income.

The proposed regulations amend 45 CFR Part 233 by (1) deleting the requirement under § 233.20(a)(2)(iv) relating to methods for determining needs, as this requirement has become obsolete through statutory and regulatory changes in the administration of the public assistance programs; and (2) by adding a new requirement under §§ 233.20(a)(2)(iv) and 233.90(a) to specifically provide that a State may not prorate or otherwise reduce the money amount of any item in its need standard on the assumption that a non-legally responsible individual residing in the household contributed to the support of the assistance unit.

Prior to the adoption of the proposed regulations, consideration will be given to written comments, suggestions, or objections thereto addressed to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, and received on or before January 22, 1975.

Such comments will be available for public inspection in Room 5225 of the Department's offices at 330 C Street, S.W., Washington, D.C., beginning approximately two weeks after publication of this Notice in the FEDERAL REGISTER, on Monday through Friday of each week from 8:30 a.m., to 5 p.m. (area code 202–245–0950).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

(Catalog of Federal Domestic Assistance Program No. 13.761, Public Assistance—Maintenance Assistance (State Aid))

Dated: August 22, 1975.

JOHN A. SVAHN,
Acting Administrator,
Social and Rehabilitation Service.

Approved: December 17, 1975.

MARJORIE LYNCH,
Acting Secretary.

Part 233, Chapter II, Title 45 of the Code of Federal Regulations is amended by revising § 233.20(a)(2)(iv) and 233.90(a), as set forth below:

§ 233.20 Need and amount of assistance.

(a) • • •

(2) • • •

• • • • • •

(iv) Provide that the money amount of any need item included in the standard will not be prorated or otherwise reduced merely because of the presence in the household of a non-legally responsible individual; and the agency will not assume any contribution by such individual for the support of the assistance unit.

• • • • • •

§ 233.90 Factors specific to AFDC.

(a) *State plan requirement.* A State plan under title IV–A of the Social Security Act must provide that the determination whether a child has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or (if the State plan includes such cases) the unemployment of his father, will be made only in relation to the child's natural or adoptive parent, or in relation to the child's stepparent who is ceremonially married to the child's natural or adoptive parent and is legally obligated to support the child under State law of general applicability which requires stepparents to support stepchildren to the same extent that natural or adoptive parents are required to support their children. Under this requirement, the inclusion in the family, or the presence in the home, of a "substitute parent" or "man-in-the-house" or any individual other than one described in this paragraph is not an acceptable basis for a finding of ineligibility or for assuming the availability of income by the State; nor may the State agency prorate or otherwise reduce the money amount for any need item included in the standard on the basis of assumed contributions from nonlegally responsible members of the household. In establishing financial eligibility and the amount of the assistance payment, only such net income as is actually available for current use on a regular basis will be considered, and the income only of the parent described in the first sentence of this paragraph will be considered available for children in the household in the absence of proof of actual contributions.

V 40 247 DEC 23 75 D XUM

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 25]

[Docket No. 13696; Notice No. 75–40]

TRANSPORT CATEGORY AIRPLANES TYPE A PASSENGER EMERGENCY EXIT CAPACITY

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending §§ 25.807(c)(2) and (c)(3) of the Federal Aviation Regulations (FARs) to revise the maximum passenger seating configuration permitted for each pair of Type A exits from 100 to 110 for the type certification of transport category airplanes. An advance notice of proposed rule making (ANP RM) was published on May 10, 1974, (Notice 74–19; 39 FR 16900) soliciting the views of all interested persons on six questions which the FAA believed would elicit information upon which to base a notice of proposed rule making. All comments received have been considered in the formulation of the amendments proposed herein.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before February 23, 1976, will be considered by the Administrator before taking action on the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket, both before and after the closing date for comments, for examination by interested persons.

The regulatory provisions relating to Type A exits in § 25.807 of the FARs were adopted by Amendment 25–15, effective October 24, 1967. That amendment also established the provision in § 25.803(c) that manufacturers show by demonstration that the maximum seating capacity of an airplane having a capacity of more than 44 passengers can be evacuated to the ground within 90 seconds, under conditions prescribed in the regulation. As discussed in the preamble to Amendment 25–15, the allowable passenger seating limit of 100 that was established for each pair of Type A exits was less than the evacuation capacity that had been demonstrated by test.

As also indicated in Notice 74–19, data and information received by the FAA indicated that the passenger seating limit of 100 for Type A exits may be overly conservative and that the factors whose consideration originally led to the establishment of that limit may have changed to an extent that they now warrant its revision. However, to obtain all relevant data on the safety and cost considerations attendant to a change in the passenger seating limit, Notice 74–19 was issued. In order to facilitate consideration and comment on this notice, the six questions asked in Notice 74–19 are listed, and the comments received in response to that notice are discussed, below:

1. Do the data available on evacuation tests and in-service incidents that relate to the evacuation capacity of Type A exits under emergency conditions indicate that the 100 passenger limitation may safely be increased?

2. What reliability has been demonstrated for Type A exit systems by service experience and tests?

3. What relationships may be established between reliability and passenger emergency evacuation capability of Type A exits?

4. How would the emergency evacuation capability of Type A exits be affected by specific increases in passenger seating capacity and by specific passenger seating configuration considerations?

5. If there are other factors that should be considered, how should the relevant data be related to the emergency evacuation capability of Type A exits?

6. If the commentator recommends specific passenger capacities for consideration, what economic and safety benefits or penalties would be associated with them?

Six comments were received in response to Notice 74–19. Three of those comments favored an increase in the passenger seating limit applicable to Type A exits. Two commentators objected to such an increase. The final commentator presented a number of factors for consideration with respect to the questions listed in the notice.

In general, the commentators that favored an increase, in answering the listed questions, referred to emergency evacuation demonstration test data to indicate that the passenger seating limit for Type A exits can be safely increased. Those commentators also stated that Type A exit systems have demonstrated good reliability in service and tests and that the reliability problems that have arisen have been resolved by taking necessary corrective actions. Furthermore, these commentators also contended that reliability is not an important factor with respect to establishing passenger seating limits for exits since, as one commentator pointed out, demonstrations are conducted with only half the exits usable and more than half the exits have been available during the occasions that Type A emergency exits have been used in service. It was also pointed out by certain of these commentators that with any increase in the passenger seating limit adequate access would be assured by the current FAR requirements and that with adequate access and exit distribution a change in the passenger seating limit for an exit would not have an effect on the evacuation system capability.

The two commentators opposed to an increase in the passenger seating limit for Type A exits questioned the reliability of those exit systems and claimed that on a number of occasions in service Type A exit systems have failed to operate properly. Both commentators argued that current emergency evacuation demonstration requirements are not sufficiently realistic. The commentators also questioned the capability of presently installed Type A exit slide/rafts to accommodate increased numbers of occupants. One of the commentators also argued that seat-to-exit distance is a critical factor with respect to successful emergency evacuations.

The FAA has considered the comments submitted in response to Notice 74–19 and has reviewed the available data that is relevant to the passenger seating limit applicable to Type A exits. Based on the comments and review, the FAA believes that the passenger seating limit applicable to Type A exits can be safely increased. This belief is based on a more complete understanding of Type A exit systems, and the improvements in the design and maintenance of Type A exit systems which have occurred since the original establishment of a passenger seating limit for those exits. With this increased understanding and these improvements, the passenger seating limit of 100 has become overly conservative.

With respect to the comments received in opposition to an incerase in the passenger seating limit, the FAA believes—1) with respect to system reliability, Type A exist systems now exhibit a degree of reliability that warrants an increase in the passenger seating limit for the exit; 2) with respect to evacuation demonstration realism, the purpose of emergency evacuation demonstrations is not to duplicate an emergency condition in all details, but to provide a standardized method of evaluation of a total evacuation system whose components comply with detailed individual quantitative requirements in the FARs; and 3) with respect to the comment relating to seat-to-exit distance, that distance is an important emergency evacuation factor, and with respect to current aircraft incorporating Type A exists, seat-to-exit distances will not significantly change if the passenger seating limit applicable to those exits is increased. In regard to the comment relating to slide/rafts, if the passenger capacity of an aircraft is increased, the requirements relating to sufficient raft capacity must be met at the increased capacity.

With respect to a recommended passenger seating limit, one commentator suggested the establishment of a passenger seating limit based entirely on realistic evacuation tests. Another commentator felt that the passenger seating limit for a particular type of exit should, when established, be associated with a particular aircraft. The FAA does not agree. Service experience indicates that a combination made up of the quantitative evacuation system standards and demonstration provisions of the FARs results in a highly satisfactory overall evacuation requirement. The FAA believes, at this time, that any deviation from this approach would not be in the interest of safety.

Two specific passenger seating limits were recommended by commentators. One commentator expressed the belief that a 130-passenger seating limit could be established with no safety penalty. The FAA does not agree since this value is based for the most part solely on the results of evacuation demonstrations.

Another commentator suggested the passenger seating limit for Type A exits be increased to 110, but the commentator requested that the evacuation test be waived. Based on the data available, the FAA believes that conservatively increasing the passenger seating limit for Type A exits from 100 to 110, as suggested, will provide for more economic airplane utilization with no adverse effect on safety. Accordingly, it is proposed herein to amend §§ 25.807(c)(2) and (c)(3) to provide for such a change. However, the FAA does not agree with the commentator's suggestion that the evacuation demonstra be waived. The evacuation demonstration requirements of § 25.803 are necessary to properly evaluate the entire emergency evacuation system.

These amendments are proposed under the authority of Sections 313(a), 601, and 603, of the Federal Aviation Act of 1958 (48 U.S.C. 1354(a), 1421, and 1423), and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 25 of the Federal Aviation Regulations as follows:

§ 25.807 [Amended]

1. By revising the table in § 25.807(c)(2), to read as follows:

• • • • •

(c) • • •

(2) • • •

Additional emergency exits (each side of fuselage):

	Increase in passenger seating configuration allowed
Type A	110
Type I	45
Type II	40
Type III	35

• • • • •

2. By amending the last sentence in § 25.807(c)(3), to read "A passenger seating configuration of 110 seats is allowed for each pair of Type A exits and a passenger seating configuration of 45 seats is allowed for each pair of Type I exits."

Issued in Washington, D.C. on December 16, 1975.

J. A. FERRARESE,
Acting Director
Flight Standards Service.

[FR Doc.75–34533 Filed 12–22–75;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1952]

HAWAII

Proposed Supplements to Approved Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) under which the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) will review changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the Federal Register of the approval of the Hawaii plan and of the adoption of Subpart Y of Part 1952 describing the plan and containing the approval decision (39 FR 1010). On April 21, 1975, and May 29, 1975, the State of Hawaii submitted supplements to its plan involving State-initiated changes and evaluation changes. (see Subparts D and E of 29 CFR Part 1953).

2. *Description of the supplements.* One State-initiated change concerns a revision of the State's compliance manual. The compliance manual has been updated and more accurately reflects procedures prescribed for the Hawaii program.

A second supplement concerns amendments to the Hawaii enabling legislation, chapter 396, Hawaii Revised Statutes. The amendments, Act 50, were passed by the Hawaii legislature in its 1975 session and were signed by the Governor and became effective on May 6, 1975.

Two of the amendments were initiated by the State. One concerns a revision of the definition of a place of employment under section 396–3 of the Hawaii Revised Statutes to exclude "a place the exclusive safety jurisdiction over which is vested by law in any federal agency." A second amendment extends criminal sanction to persons who violate the certification or permit requirements for users of explosives under section 396–9 (f) of the Hawaii Revised Statutes. Other amendments were in response to recommendations of the Occupational Safety and Health Administration following evaluation of the plan in actual operation. The amendments provide for the following:

(a) The designated agency, the Department of Labor and Industrial Relations, is provided the right to appeal adverse administrative decisions to the courts (sections 396–4(d)(7), 396–11, H.R.S., as amended);

(b) Citations are required to be posted at or near the place where a violation occurs rather than merely in a "prominent place" (Section 396–10(1), H.R.S., and amended);

(c) A proposed penalty is final and unreviewable unless an employer contests the proposed penalty within 20 days of its receipt (Section 396–11, H.R.S., as amended);

(d) Employees or their representatives may file an appeal alleging that the time prescribed for abatement of a violation is unreasonable (Section 396–11, H.R.S., as amended);

(e) The provision of Section 396–11 providing that the filing of a petition for review before the appeals board shall not stay or suspend the operation of an order and prohibiting the appeals board from granting such a stay has been deleted;

(f) The appeals board is authorized to issue orders as may be appropriate to protect the confidentiality of trade secrets (Section 396–13, H.R.S., as amended).

3. *Location of the plan and its supplements for inspection and copying.* A copy of the proposed supplements along with the approved plan may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N–3608, 200 Constitution Avenue, N.W., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94210; and the Department of Labor and Industrial Relations, Room 308, 825 Milani Street, Honolulu, Hawaii 96813.

4. *Public participation.* Interested persons are hereby given until January 22, 1976, to submit written data, views and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Associate Assistant Secretary at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements by filing particularized written objections with respect thereto within the time allowed for comments specified above. If, in the opinion of the Assistant Secretary, substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart Y of Part 1952 and initiate further appropriate proceedings if necessary.

Signed at Washington, D.C., this 17th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.75–34535 Filed 12–22–75;8:45 am]

V 40 247 DEC 23 75 D XUM

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notice CM-5/137]

INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR); STUDY GROUP 5 OF THE U.S. NATIONAL COMMITTEE

Notice of Meeting

The Department of State announces that Study Group 5 of the U.S. National Committee of the International Radio Consultative Committee (CCIR) will meet on January 16, 1976, at 9:00 a.m. in Room 4071, ComSat Corporation, 950 L'Enfant Plaza, S.W., Washington, D.C.

Study Group 5 deals with propagation of radio waves (including radio noise) at the surface of the earth, through the non-ionized regions of the earth's atmosphere, and in space where the effect of ionization is negligible. The purpose of the meeting on January 16 will be:

1. Final preparations for the International meeting of Study Group 5 in 1976.

2. Review of objectives and priorities for U.S. Study Group 5.

3. Scheduling of work for the next cycle of activity.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

DECEMBER 16, 1975.

[Public Notice CM-5/135]

INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR); STUDY GROUPS 10 AND 11 OF THE U.S. NATIONAL COMMITTEE

Notice of Meeting

The Department of State announces that Study Groups 10 and 11 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet jointly on January 15, 1976, under the chairmanship of Mr. Harold L. Kassens. The meeting will convene at 9:30 a.m. in Room A-110, Federal Communications Commission Annex, 1229 20th Street, N.W., Washington, D.C.

Study Group 10 deals with questions relating to sound broadcasting; Study Group 11 deals with questions relating to television broadcasting. The main purpose of the meeting on January 15 will be a final review of documents on broadcasting satellites for submission to the special meeting of international Study Groups in 1976.

Members of the general public may attend the meeting and join in the discussions subject to instructions of the Chairman. Admittance of public members will be limited to the seating available.

Dated: December 15, 1975.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

[Public Notice CM-5/136]

SHIPPING COORDINATING COMMITTEE; SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Notice of Meeting

The working group on radiocommunications of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Thursday, January 15, 1976, in Room 752 of the Federal Communications Commission Building, 1919 M Street, N.W., Washington, D.C.

The purpose of the meeting is to prepare position documents for the Sixteenth Session of the Subcommittee on Radiocommunications of the Intergovernmental Maritime Consultative Organization (IMCO). In particular, the working group will discuss the following topics:

Promulgation of navigational warnings to shipping.

Training and qualification of radio officers, radio operators and radiotelephone operators.

Operational standards for shipboard radio equipment.

Operational requirements for emergency position-indicating radio beacons and portable radio apparatus for survival craft.

Matters resulting from the World Maritime Administrative Radio Conference, 1974, and the work of the International Radio Consultative Committee.

Requests for further information on the meeting should be directed to LCDR B. M. Chiswell, United States Coast Guard. He may be reached by telephone on (area code 202) 426-1345.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman
Shipping Coordinating Committee.

DECEMBER 15, 1975.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[Notice No. 75-7; Ref. Nos. ATF O 1200.7 & IC 75-21]

ADMINISTRATIVE ACTION GUIDELINES

Publication of Administrative Actions Taken by ATF

As a result of consumer and industry interest in administrative actions taken by ATF on behalf of the consumer, we have reviewed our policy with respect to public release of information relating to offers-in-compromise, suspensions and revocations. At the same time, we have also been reviewing our procedures relating to products withdrawn from the market for reasons of consumer concern, and have concluded that such information should be made available to consumers on a regular basis.

We, therefore, announce the following policy changes, which will become effective January 1, 1976. These changes will not generally apply to offers or other actions in process on or before that date. They will, however, apply to actions taken after that date.

1. Information concerning Bureau administrative actions will be handled as follows:

a. Regional directors, with prior Headquarters approval, will be authorized to issue press releases on offers-in-compromise, suspensions and revocations, where the violation involved consumer deception, or where the Bureau determines that public release will serve as a deterrent against violations in a particular market area.

Such releases will include the name of the proponent of an offer in compromise or the violator in the case of suspension or revocation, administrative action taken, circumstances which caused ATF to take action, and corrective action. Information relating to trade secrets, operations, style of work or apparatus, or confidential data, will not be released. No releases will be made until ATF has completed action in the case.

b. Publication of administrative actions in the ATF Bulletin will be expanded to include suspensions and revocations, as well as offers-in-compromise. Bulletin publications will include information as outlined in (a) above.

2. Information concerning deficient alcoholic products withdrawn from the market (i.e., recalls of products which have reached the retail or consumer level) will be handled as follows:

a. Instances involving mislabeling, gross underproofing or underfilling, or other similar violations will be announced in the ATF Bulletin on a monthly basis. The Bulletin announcement will contain enough specific information to enable consumers to identify the deficient product.

b. In cases involving significant consumer deception, large quantities of a deficient product, or a health hazard, ATF Headquarters will issue an immediate press release outlining the particulars of the matter. The release will include the name and address of the producer, and the measures employed by ATF and the producer to remove the product from the market or ensure minimal adverse impact on the consumer. It should be noted that any determination as to whether a product deficiency constitutes a health hazard will be made by ATF in conjunction with the Food and Drug Administration.

Signed: December 16, 1975.

REX D. DAVIS,
Director.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON VERIFICATION

Notice of Advisory Committee Meeting

The Defense Science Board Task Force on Verification will meet in closed session on January 21, 1976, at The Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an analysis of U.S. capabilities for verifying compliance with potential provisions of future strategic arms limitation agreements.

In acordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in Section 552(b) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Correspondence and Directives OASD (Comptroller).

DECEMBER 18, 1975.

DEFENSE SCIENCE BOARD TASK FORCE ON SURFACE NAVAL WARFARE

Notice of Advisory Committee Meeting

The Defense Science Board Task Force on Surface Naval Warfare will meet in closed session on 21-22 January 1976. The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering to provide long range guidance in these areas to the Department of Defense.

The Task Force will undertake a review of the adequacy and direction of U.S. Navy programs in surface offensive operations in the face of continuing increases in Soviet capabilities in naval weapons, command and control, and out-of-area operations. The Task Force will concentrate first on U.S. programs in tactical surface engagements to help assure that our R&D investments yield the greatest improvement in our total force capabilities, when deployed in quantities we can afford. Classified details of U.S. and Soviet systems will be reviewed.

In accordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in Section 552(b) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES V. FOOTE MINERAL COMPANY AND METALLGESELLSCHAFT, A.G.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Eastern District of Pennsylvania in Civil Action No. 74-1652, *United States v. Foote Mineral Company and Metallgesellschaft, A.G.* The complaint in this case alleges that Foote Mineral Company and Metallgesellschaft, A.G. engaged in an unlawful combination and conspiracy to restrain foreign and interstate trade and commerce in lithium and lithium products by dividing the world market for lithium sales into exclusive territories and allocating the exclusive territories between themselves. The proposed consent judgment prohibits the consenting defendants from dividing or allocating territories, customers or markets for the manufacture, sale or use of lithium, prohibits any payment from one defendant to the other, including a commission payment, which may tend to allocate or divide markets or customers between the defendants, requires defendants to cancel certain provisions of existing contracts between them, including provisions obligating one defendant to pay the other defendant a "commission" if it sells into the other defendant's service area, and enjoins the defendants for a period of three years from acting as agents for each other with respect to lithium. Public comment is invited on or before. February 23, 1976. Such comments and responses thereto will be published in the Federal Register and filed with the Court. Comments should be directed to Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

THOMAS E. KAUPER,
Assistant Attorney General
Antitrust Division.

Dated: December 16, 1975.

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF PENNSYLVANIA

Civil No. 74-1652 Filed: December 16, 1975

United States of America, Plaintiff, v. Foote Mineral Company and Metallgesellschaft, A.G., Defendants.

STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A final judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed final judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: December 16, 1975

For the Plaintiff: Thomas E. Kauper, Assistant Attorney General; Baddia J. Rashid, Joel Davidow, Charles F. B. McAleer, C. Forrest Banhan, William J. Kananack, Stephen F. Sonnett, Attorneys, Antitrust Division, U.S. Department of Justice.

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF PENNSYLVANIA

Civil No. 74-1652, Filed: December 16, 1975

United States of America, Plaintiff, v. Foote Mineral Company and Metallgesellschaft, A.G., Defendants.

FINAL JUDGMENT

Plaintiff, United States of America, having filed its complaint herein on June 28, 1974, and the defendants having filed their answers thereto denying the material allegations of the complaint and plaintiff and defendants, by their respective attorneys, having consented to the entry of this Final Judgment without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting any evidence or admission by any party hereto with respect to any such issue:

Now, therefore, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting any evidence or admission by any party hereto with respect to any such issue, and upon consent of the parties hereto it is hereby

Ordered, Adjudged and Decreed as follows:

I. This Court has jurisdiction of the subject matter hereof and of the parties consenting hereto. The complaint states a claim upon which relief may be granted against the defendants under Section 1 of the Act of Congress of July 2, 1890, entitled "An act to protect trade and commerce against unlawful restraints and monopolies," commonly known as the Sherman Act, as amended (15 U.S.C. § 1).

II. Entry of this Judgment is in the public interest.

III. As used in this Final Judgment: (A) "Foote" shall mean the defendant Foote Mineral Company, a corporation organized and existing under the laws of the State of Pennsylvania;

(B) "Metall" shall mean the defendant Metallgesellschaft, A.G., a limited liability corporation presently headquartered in Frankfurt am Main, Federal Republic of Germany (West Germany);

(C) "Person" shall mean any individual, partnership, firm, corporation, association or other business or legal entity;

(D) "Lithium" shall mean (1) lithium ores and concentrates, (2) lithium metal, (3) lithium chemicals and compounds;

(E) "United States trade in lithium" shall mean activities which directly or indirectly affect sales within, exports from or imports to the United States of lithium;

(F) "Manufacture" shall mean the recovery of lithium by extraction, evaporation or otherwise; and/or the refining and/or processing of lithium;

(G) "Agency" shall mean any relationship in which one defendant directly or indirectly acts to purchase or sell lithium products for the other.

IV. The provisions of this Final Judgment shall apply to defendants and to each of their respective directors, officers, agents, employees, subsidiaries, successors and assigns, and to all persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise. This Final Judgment shall apply only to acts which affect United States trade in lithium.

V. The defendants are each enjoined and restrained from directly or indirectly in any manner entering into, adhering to, enforcing, claiming any rights under or in any other way maintaining, any contract, agreement or understanding with each other or with any other person to allocate, divide, or restrict customers, territories, or markets for the manufacture, sale or use of lithium.

VI. The defendants are each enjoined and restrained from directly or indirectly paying to or receiving from the other defendant any payment in any form the purpose or effect of which is or may tend to allocate, divide, or restrict territories, customers or markets for any sale of lithium. Nothing contained herein shall prohibit Foote, without more, pursuant to formulae contained in the Supply Agreements dated June 19, 1964, and December 13, 1966, from reducing the contract price of the lithium covered by those contracts to Metall if Foote makes direct sales of such lithium to Europe.

VII. Defendants are ordered, within ninety (90) days from the date of entry of this Final Judgment, to cancel the following provisions of the existing contracts between them:

(A) The entire Agency Agreement dated June 19, 1964, between Metall and Foote;

(B) The entire Agency Agreement executed December 13, 1966, between Foote and Metall;

(C) Paragraphs 7(b) and 7(d) and the phrase "or is in fact shipped to Europe" contained in paragraph 7(c) of the Supply Agreement dated June 19, 1964, between Foote and Metall; and

(D) Paragraphs 6(c) and 6(e) and the phrase "or is in fact shipped to Europe" contained in paragraph 6(d) of the Supply Agreement dated December 13, 1966, between Foote and Metall.

VIII. For a period of three (3) years from the date of entry of this Final Judgment, defendants are enjoined and restrained from directly or indirectly acting in an agency relationship for each other. Defendants may enter into new agency agreements with each other upon the expiration of this period with the consent of the plaintiff, or upon a showing to the satisfaction of this Court that such agency will not lessen competition or tend to create a monopoly.

IX. (A) For the purpose of securing or determining compliance with this Final Judgment with regard to Defendant Foote and for no other purpose, upon written request of the Attorney General, or the Assistant Attorney General in charge of the Antitrust Division, or his agent, and on reasonable notice to the defendant at its principal place of business and subject to any legally recognized privilege: (i) duly authorized representatives of the Department of Justice shall be permitted access at defendant's place of business in the United States during the regular business hours of the defendant, who may have counsel present, to those books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of the defendant which delate to any matters contained in this Final Judgment; (ii) duly authorized representatives of the Department of Justice shall be permitted, subject to the reasonable convenience of the defendant and without restraint or interference from it, to interview officers or employees of such defendant, who may have counsel present, regarding such matters; and (iii) defendant Foote shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may, from time to time, be requested.

(B) For the purpose of securing or determining compliance with this Final Judgment with regard to Defendant Metall and for no other purpose, upon written request of the Attorney General, or the Assistant Attorney General in charge of the Antitrust Division, or his agent, and on reasonable notice to defendant at either its principal business office in Frankfurt Am Main, West Germany or any successor location, and subject to any legally recognized privilege: (i) within 60 days of receipt of a request for books, ledgers, accounts, correspondence, memoranda, and other records in the possession or under the control of defendant, defendant shall provide duly authenticated copies of such documents at the Department of Justice in Washington, D.C.; and (ii) defendant Metall shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may, from time to time, be requested; provided, however, as to both (i) and (ii) of this subparagraph that defendant shall not be required to bring to the United States or to disclose the content of any books or other records or copies thereof, or other information, when such action is prohibited by the laws of West Germany or of any country or treaty organization with jurisdiction over defendant and defendant has exercised good faith efforts to obtain permission of the appropriate authorities but such permission has not been secured. Defendant shall promptly notify Plaintiff of any change of address of its principal business office.

No information obtained by the means provided in this section shall be divulged by any representatives of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the plaintiff, except in the course of legal proceedings in which the United States is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

X. Jurisdiction is retained by this Court for the purpose of enabling any of the parties consenting to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions thereof, for the enforcement of compliance therewith, and for the punishment of any violations hereof.

Dated: Philadelphia, Pennsylvania, , 1976.

United States District Judge

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF PENNSYLVANIA

Civil No. 74-1652, Filed: December 16, 1975.

United States of America, Plaintiff, v. Foote Mineral Company and Metallgesellschaft, A.G., Defendants.

COMPETITIVE IMPACT STATEMENT

Pursuant to Section 2(b) of the *Antitrust Procedures and Penalties Act* (15 U.S.C. § 18 (b)-(h), P.L. 93-528 (December 21, 1974), the United States of America hereby files this Competitive Impact Statement relating to the proposed consent judgment in this civil antitrust proceeding.

NATURE AND PURPOSE OF THE PROCEEDING

This is a civil antitrust action by the United States Department of Justice against Foote Mineral Company ("Foote"), Exton, Pennsylvania, and Metallgesellschaft A.G. ("Metall"), Frankfurt am Main, Federal Republic of Germany (West Germany). The complaint, which was filed on June 28, 1974, alleges that defendants, Foote and Metall, have engaged in an unlawful combination and conspiracy to restrain foreign and interstate trade and commerce in lithium and lithium products in violation of Section 1 of the Sherman Act (15 U.S.C. §1).

PRACTICES AND EVENTS GIVING RISE TO THE ALLEGED VIOLATION OF THE ANTITRUST LAWS

Lithium, as used in the complaint and defined in the proposed consent judgment, refers to ores and concentrates, lithium metal, and lithium chemicals and chemical compounds. This definition includes lithium in any and all forms. Foote is one of five enterprises worldwide which recovers lithium in its natural state. The natural state lithium which Foote recovers in various forms is processed and converted by Foote into primarily spodumens ore concentrates and lithium carbonate. It is estimated that Foote's recovery by all methods accounts for 45 percent of all natural state lithium produced in the United States. Metall does not recover lithium in its natural state; rather it purchases (primarily from Foote) lithium chemicals and concentrates for further sale or for further processing and sale. It is estimated that Metall is responsible for over half of total European lithium sales.

On June 19, 1964, after engaging for some time in what appears to have been strictly a purchase and sale arrangement, Foote and Metall entered into a series of contracts, the net effect of which was to divide the world market for lithium sales into exclusive territories and to allocate the exclusive territories between themselves (Foote's being the Western Hemisphere and Metall's being Europe and Great Britain). These contracts included two sales agency agreements, a long-term supply contract and a reciprocal know-how license agreement, all of which were executed by the defendants on June 19, 1964. In addition, on December 13, 1966, the defendants entered into a second long-term supply contract and a sales agency agreement which superseded its earlier counterpart dated June 19, 1964.

Under the 1964 and 1966 sales agency agreements each defendant appoints the other as the exclusive agent for lithium sales in the agent's territory, reserving the right to sell for shipment into such territory conditioned upon a payment to the other defendant of five percent of the invoice value of such sales. This requirement of payment for sales in the other's territory, also contained in the two long-term supply contracts, is key to the market allocation arrangement of the defendants. Since there is no obligation that the defendant receiving such a payment perform any service, the automatic payment provision appears to be a penalty for sales in the other's territory and it would seem virtually to insure that the lithium products of one defendant cannot be price competitive in the other's territory.

The long-term supply contracts, each dealing with lithium produced at a separate Foote facility (spodumene from King's Mountain, North Carolina and lithium carbonate from Silver Peak, Nevada), provide essentially that over the life of the contracts (the contracts terminate when Foote has delivered a specified quantity of lithium to Metall, a period which may continue until the year 2025), Foote will supply lithium to Metall at a price determined by formulae in the contracts. Although most of Metall's lithium requirements are presently supplied by Foote, the contracts do not prohibit Metall from purchasing lithium from a source other than Foote. Additionally, these contracts require Foote to reduce the price charged Metall if it (Foote) sells lithium from these facilities at a price less than the contract price to third parties in Europe or to third parties which in fact ship the lithium to Europe (hereinafter referred to as the "price adjustment provision"). So long as these below-contract-price sales by Foote to customers in Europe continue, Metall will receive an appropriate reduction. The price adjustment provision, however, has never been invoked. Finally, the supply agreements require Metall to ship and further process outside of the Western Hemisphere all lithium purchased by Metall under the contracts.

In addition to these provisions, each defendant has continuously refused to offer lithium for sale either directly into the other's territory or indirectly, i.e., where it was believed that a purchaser would reship its order into such territory. Rather, Foote and Metall would each refer inquiries from potential customers to the other defendant if the potential customer or end-user was located in the other's territory.

The complaint alleges that these contracts, agreements and understandings between Foote and Metall, as well as actions undertaken by the defendants pursuant to them, unreasonably restrain trade in violation of Section 1 of the Sherman Act. The agreements and actions of the defendants restrain trade because competition between Foote and Metall in the United States and foreign markets for the sale of lithium is foreclosed and because consumers have been deprived of free and open competition in the purchase of lithium.

EXPLANATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment applies to the defendants and to each of their respective directors, officers, agents, employees, subsidiaries, successors and assign, and to all persons in active concert or participation with the defendants who receive actual notice that the proposed consent judgment has been entered. It applies to all actions which directly or indirectly affect imports of lithium to the United States, exports of lithium from the United States and sales of lithium within the United States. As such, the power of this Court to enforce the decree extends to the fullest limits of the United States Court's jurisdiction.

Under the proposed consent judgment, defendants, Foote and Metall, are prohibited from entering into any contract, agreement or understanding with each other or with any other person or business entity to allocate, divide or restrict territories, customers or markets for the manufacture, sale of use of lithium. This general injunctive provision of the decree prohibits any and all such actions by the defendants, including systematic referral of potential customers.

Defendants are further enjoined from paying to or receiving from the other defendant any payments the effect or purpose of which is or may tend to be to allocate, divide or restrict territories, customers or markets for any sale of lithium. The proposed judgment also orders defendants to cancel, within ninety (90) days from the date the proposed judgment is entered, the sales agency agreements of June 19, 1964, and December 13, 1966, and the following provisions of the long-term supply contracts: (1) those paragraphs which require payments by one defendant for sales made by that defendant in the other defendant's territory, (2) those clauses requiring Metall to ship and further process lithium (spodumene and lithium carbonate) outside the Western Hemisphere, and (3) that part of the "price adjustment provision" granting a reduction in the sales price to Metall if lithium (spodumene and lithium carbonate from the respective Foote facilities) sold by Foote to a third party is in fact shipped to Europe.

Section VIII of the proposed judgment prohibits Foote and Metall from entering into or continuing an agency relationship with each other with respect to the purchase or sale of lithium. This prohibition is applicable for a three year period after which defendants, with consent of the plaintiff or upon a showing to the satisfaction of the Court that such agency will not lessen competition or tend to create a monopoly, may enter into new agency agreements with each other. An injunction of longer duration is deemed unnecsary in that the Department of Justice anticipates that during this three year period each defendant will integrate forward by establishing its own sales network and/or enter into arrangements with third parties for the distribution of lithium within the other's territory. Moreover, by requiring defendants to obtain approval of the plaintiff or this Court before resuming an agency relationship, the decree insures that the defendants will have to make a bona fide attempt to establish an independent distribution network in the other's territory. An automatic renewal of the relationship attacked by the complaint will not be allowed.

It is recognized that the proposed final decree allows the price adjustment provision, as amended by the proposed final decree, to remain in the long-term supply contracts dated June 19, 1964, and December 13, 1966. Thus, any direct sales to Europe by Foote of the lithium products covered by the two contracts at a price below Metall's contract price will cause a reduction in the price charged Metall. While such a provision could limit Foote's incentive to sell certain products to Europe in competition with Metall, its retention is, on balance, beneficial from a competitive standpoint. Metall is presently dependent on Foote for its supply of the basic lithium which it further refines and markets. Its costs under the long-term supply contracts are established by formulae and the price adjustment provision protects Metall from a Foote imposed price squeeze. For example, if Metall began competing in the United States, and there was no price adjustment provision, Foote could retaliate by selling in Europe below Metall's cost.

The proposed consent judgment affords the plaintiff a method of detecting any new violations or continuing past violations of the decree by inspection of documents and records in the control of the defendants. Metall, however, is not required to bring any books or other records to the United States when such action is prohibited by the laws of West Germany or of any country or treaty organization with jurisdiction over Metall. In such event, Metall must make a good faith effort to obtain permission of the appropriate authorities to produce the documents requested.

COMPETITIVE EFFECTS OF THE FINAL JUDGMENT

The provisions of the proposed consent judgment should serve to increase competition by removing and prohibiting, under penalty of contempt of court, unreasonable restraints on lithium trade artificially imposed by Foote and Metall. Lithium distributors and consumers in the United States and Europe will have the opportunity, denied until now, of purchasing lithium directly from Metall and Foote, respectively, at competitive prices. Furthermore, since defendants are prohibited from selling lithium through each other for a minimum period of three years, and since an automatic payment for sales in the other's territory is prohibited, it is anticipated that each defendant will establish new distributive arrangements for lithium sales in the other's former territory. Lithium products should, thus, be available to consumers from more sources and at more competitive prices.

ALTERNATE RELIEF CONSIDERED

Alternative relief considered by the Department of Justice included a provision which would have abrogated the reciprocal know-how agreement executed by the parties in June 1964, and amended in March of 1973. Under the original know-how contract, each

V 40 247 DEC 23 75 XUM

defendant granted the other the rights to make, use and sell lithium products manufactured with its patents and know-how in a specified territory (Foote's territory being the Western Hemisphere and Metall's being Europe and Great Britain), and non-exclusive rights to sell such products throughout the rest of the world, including the grantor's territory. In 1973, this contract was amended by the defendants to revoke the reciprocal grant of non-exclusive rights to use the other's know-how in Asia and part of Africa. Initially, it was thought that the know-how contract, as amended, was a further instrument for the defendants' division and allocation of world markets since it established a territory outside the United States and Europe in which the defendants cannot make, use and sell lithium products manufactured under the other's know-how and patents unless the other party agreed in writing to such use. However, we have subsequently learned that the defendants agreed to amend the contract so that Foote would be able to grant both exclusive and non-exclusive rights in this territory to a third party to induce its entrance into the lithium business. (The Department of Jusice has not at this time considered any collateral issues presented by the third party license agreement.) Therefore, the contract is neither symptomatic of an agreement to allocate world markets between the defendants, nor does it have that effect. Moreover, to the extent that the know-how contract has any restrictive impact on United States interstate and foreign commerce, its operations is enjoined by paragraph V of the Final Judgment. Finally, since it appears that a new competitive force for downstream lithium products may be the ultimate result of amending the contract, and since effective relief will be provided without cancellation of the know-how agreement, it was determined that such relief was unnecessary.

Another relief provision which was contemplated by the Department of Justice would have prohibited defendants from entering into or maintaining any contract, agreement or understanding to condition the price of lithium sold by one defendant to the other on the terms, conditions, or prices extended by the vendor defendant to third parties. This injunction was directed at abrogating in their entirety the "price adjustment provisions" of the two long-term supply contracts. However, cancellation of this provision in the two contracts was subsequently deemed to be inappropriate. As noted above, it is arguable that these provisions will dull Foote's incentive to compete with Metall in Europe with respect to the two semi-raw lithium products covered by the supply contracts because Metal will receive the same price as any other distributor in Europe. On the other hand, these provisions do prevent Foote from choosing to undercut Metall's position in Europe because of the latter company's sales elsewhere, e.g., the United States. Morever, Metall is afforded protection by the "price adjustment provisions" for only two lithium products, spodumene and lithium carbonate. On balance, then, it is the view of the Department that the interests of competition are best served in this case by assuring Metall of a continued supply of lithium products at competitive prices.

EFFECTS ON PRIVATE PLAINTIFFS

Section 4 of the Clayton Act (15 U.S.C. § 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages such person has suffered, as well as costs and reasonable attorney's fees. The entry of the proposed consent judgment will not have any effect on the right of any potential private plaintiffs who claim they have been damaged by the alleged violation to sue for monetary damages or any other legal or equitable remedies. However, this consent judgment may not be used as prima facie evidence in private litigation pursuant to Section 5(a) of the Clayton Act, as amended, 15 U.S.C. § 16(a).

PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment is subject to a stipulation between the United States and the consenting defendants which provides that the United States may withdraw its consent to the proposed consent judgment until such time as the court has found that entry of the proposed judgment is in the public interest. The proposed judgment provides for retention of jurisdiction of this action by the Court to permit, among other things, the parties thereto to apply to the court for such orders as may be necessary or appropriate for its modification.

As provided by the *Antitrust Procedures and Penalties Act*, any persons believing that the proposed judgment should be modified may, for a 60-day period prior to the effective date of the proposed judgment, submit written comments to the United States Department of Justice, Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Washington, D.C. 20530. The comments and the response to them will be filed with the court and published in the Federal Register. The Department of Justice will thereafter evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed consent judgment.

DETERMINATIVE DOCUMENTS

There are no materials or documents which the Government considered determinative in formulating this proposed consent judgment. Therefore, none is being filed along with this competitive impact statement.

Dated: December 16, 1975.

Respectfully submitted,

DOUGLAS E. ROSENTHAL
C. FORREST BANNAN
WILLIAM J. KANANACK

LAW ENFORCEMENT ASSISTANCE ADMINISTRATION

Private Security Relationship Study Committee; Meeting

Notice is hereby given that the Law Enforcement/Private Security Relationship Study Committee of LEAA's Private Security Advisory Council (PSAC) will meet Wednesday and Thursday, January 7–8, 1976. The meeting will convene at 12:00 Noon, Wednesday, January 8, at the Maison DuPuy Hotel, 1001 Toulous Street, in New Orleans, Louisiana. The meeting is scheduled to adjourn by Noon, Thursday, January 8.

The Committee will continue development of its study of the relationships between public law enforcement and private security; review a draft working paper on this subject; finalize a survey instrument to obtain data on these relationships; and consider recommendations for improving these relationships. The meeting will be open to the public.

For further information, please contact: Mr. John Marshall, Office of National Priority Programs, LEAA, U.S. Department of Justice, 633 Indiana Avenue, NW., Washington, D.C. 20531. 202/376-3830.

GERALD H. YAMADA,
Attorney-Advisor
Office of General Counsel.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

CREEK NATION OF OKLAHOMA

Plan for the Use and Distribution

DECEMBER 15, 1975.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use or distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Acts of December 15, 1971, 85 Stat. 627 and July 1, 1973, 87 Stat. 99, in satisfaction of the awards granted to Creek Nation of Oklahoma in Indian Claims Commission Dockets 167 and 273. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated August 22, 1975, and was received (as recorded in the Congressional Record) by the House of Representatives on September 3, 1975, and as reported by the Senate on September 3, 1975. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on November 16, 1975, as provided by Section 5 of the 1973 Act, *supra*.

The plan reads as follows:

The funds appropriated by the Acts of December 15, 1971, 85 Stat. 627, and July 1, 1973, 87 Stat. 99, in satisfaction of awards granted to the Creek Tribe of Oklahoma in Dockets 167 and 273, respectively, before the Indian Claims Commission, including all interest and investment income accrued, less attorney fees and litigation expenses, shall be utilized by the tribe for the purposes and in the manner set out in the plan:

(a) Such funds as needed to liquidate all indebtedness owed to the American Indian National Bank in the construction of the Creek Nation Office Complex, Okmulgee, Oklahoma, are approved for disbursement, subject to the approval of the Secretary of the Interior.

(b) Any balance remaining shall be available for additional development of facilities of the Creek Nation Capital Complex as recommended by the Principal Chief and approved by the Secretary of the Interior. Such use of these funds shall be in accordance with an approved plan of operation as set forth in annual tribal budgets approved by the Secretary of the Interior.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

NAVAJO TRIBE

Plan for the Use and Distribution

DECEMBER 15, 1975.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use or distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Act of May 29, 1967, 81 Stat. 30, in satisfaction of the award granted to the Navajo Tribe in United States Court of Claims Case 49692. The plan for the use and distribution of the funds was submitted to the Congress with a letter dated August 5, 1975, and was received (as recorded in the Congressional Record) by the House of Representatives on September 3, 1975, and by the Senate on September 4, 1975. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on November 17, 1975, as provided by Section 5 of the 1973 Act, *supra*.

The plan reads as follows:

The funds appropriated by the Act of May 29, 1967, 81 Stat. 30, in satisfaction of the award granted to the Navajo Tribe in United States Court of Claims Case 49692, plus the funds awarded to the tribe in case 49692 which were placed to the credit of the tribe pursuant to 31 U.S.C. 724a, including all interest accrued, less attorney fees and litigation expenses, shall be utilized for scholarship and other educational purposes designated by the Navajo Tribal Council pursuant to Section 7 of the Act of April 19, 1950, 64 Stat. 44, 46; 25 U.S.C. § 637.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

WESTERN NAVAJO AGENCY, EASTERN NEVADA AGENCY AND PIERRE INDIAN LEARNING CENTER

Notice of Name and Location Changes

DECEMBER 15, 1975.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that: 1. The name of the Tuba City Agency in Arizona is changed to Western Navajo Agency.

2. The headquarters of the Eastern Nevada Agency is changed from Owyhee, Nevada to Elko, Nevada 89801.

3. The name of the Pierre Boarding School in South Dakota is changed to Pierre Indian Learning Center.

These changes were requested by the majority of the Indian groups serviced by the Western Navajo Agency, Eastern Nevada Agency and Pierre Indian Learning Center.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Bureau of Land Management

[NM 27135]

NEW MEXICO

Notice of Application

DECEMBER 11, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for one 4½ inch natural gas pipeline right-of-way across the following land:

New Mexico Principal Meridian, New Mexico
T. 26 N., R. 12 W.,
Sec. 33, N½SE¼.

This pipeline will convey natural gas across .124 of a mile of national resource land in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief Branch of Lands and Minerals Operations.

WEST BURLEY SERVICE

Notice of Availability of Draft Supplement to Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Bonneville Power Administration has prepared a draft facility location supplement to its Fiscal Year 1977 Environmental Statement. This supplement covers the proposal for West Burley Service.

The West Burley Service proposal involves the construction of approximately 7 miles of 138-kV transmission line between the planned, customer-constructed West Burley Substation and the BPA Unity Substation. Additional facilities will be installed to integrate the higher voltages at BPA's Substation.

Copies of the draft supplement are available for inspection in the library of the headquarters office of Bonneville Power Administration, 1002 NE Holladay Street, Portland, Oregon 97232; the Washington, D.C. Office in the Interior Building, Room 5600; and at the Idaho Falls District Office, 531 Lomax Street, Idaho Falls, Idaho 83401. Copies are also available at the following Government Depository Libraries:

V40247 DEC 23 75 XUM

COLORADO RIVER STORAGE PROJECT

Notcie of Proposed Allocation of Peaking Power

Pursuant to Public Law 84–485, April 11, 1956 (70 Stat. 105), and by virtue of authority under the Reclamation Project Act of 1939, August 4, 1939 (53 Stat. 1187, 1194, 1198), the Secretary of the Interior proposes to allocate additional power from the Colorado River Storage Project (CRSP).

There will be 108 megawatts of peaking power available without energy for each summer season (April through September) and 277 megawatts without energy for each winter season (October through March) beginning with the 1977–78 winter season and extending through the end of the 1989 summer season.

Public comments on the proposed allocation should be submitted in writing by March 1, 1976, to the following office:

Regional Director,
Upper Colorado Region,
Attention: Code 600,
Bureau of Reclamation,
Department of the Interior,
Salt Lake City, Utah 84147,
Telephone (801) 524–5493.

The detailed analysis of the proposal and the principles involved are reproduced below and also are available at the Bureau's office in Washington, D.C., and at Bureau regional offices in Denver, Colorado; Salt Lake City, Utah; Boulder City, Nevada; and Amarillo, Texas.

Dated: December 17, 1975.

ROLAND G. ROBISON, JR.,
Deputy Assistant Secretary of the Interior.

PROPOSED ALLOCATION OF POWER FROM COLORADO RIVER STORAGE PROJECT (CRSP)

I. *Power Marketing Area*

The area in which power is marketed consists of two divisions:

A. *Northern Division*—The States of Colorado, New Mexico, Utah, and Wyoming.

B. *Southern Division*—The State of Arizona, that part of the State of Neveda in Clark, Lincoln, and Nye Counties which forms the southern portion of the State, and that part of the State of California east of the 115th degree of longitude or, generally, the area contiguous to the Colorado River.

II. *Background*

In April 1963, preference customers in both divisions were allocated all of the power assured to be available. For various reasons, certain allottees did not contract for the power available to them, and this power was redistributed among the remaining existing customers and additional preference customers who were not original allottees. The Southern Division was permanently allocated a total of 240 megawatts in the summer season and 84 megawatts in the winter season (20 percent and 7 percent, respectively, of the net project capability). Since Northern Division customers did not initially require all of their contractual amounts, the unneeded portion was contracted for by Southern Division customers on a recapturable basis, subject to recapture April 1, 1976. This action was in accordance with the CRSP "General Power Marketing Criteria," approved March 1, 1962. Certain allottees in the Southern Division did not place any of their nonrecapturable power under contract, and these quantities were reallocated in September 1975. The reallocation was published in the FEDERAL REGISTER on October 1, 1975, 40 F.R. 45209.

III. *Proposed Allocation of Peaking Power*

The proposed allocation of peaking power is based on the principles set forth below.

A. *Power Available to Serve Load*—After reexamining project capability resulting from the addition of the Crystal Dam and Powerplant and from present and future water flow and storage conditions, and after reevaluating requirements for reserves, plant use, losses and load diversity, it has been determined that a total of 1,324 MW are available to serve CRSP loads.

B. *Priority Uses*—Through 1984, an estimated 55 MW will be required during the summer seasons to firm up the Rio Grande Project generation and to supply project pumping loads. This load consists of the following:

Purpose:	*Summer Load (MW)*
Central Utah Project—Jensen	1
Dallas Creek	3
Navajo Indian Irrigation Project	39
Colorado River Salinity Control	2
Rio Grande Project (firming)	10
Total	55

After 1984, any future pumping loads are expected to be picked up by the Central Utah Project generating plants.

C. *Net Available for Load*—The following is a breakdown of the loads which will be supplied from the Storage Project generation:

Purpose	Load (megawatts)	
	Summer	Winter
Priority uses	55	6
Long-term firm	1,161	1,041
Peaking allocation	108	277
Total available	1,324	1,324

It is proposed that the amounts available be allocated for peaking power sales, without energy, among the existing CRSP preference customers in both the Northern and Southern Divisions.

The CRSP seasonal peaking power obligation will be only during the hours of the season when, and in the amounts by which, the customer's total system load (L) in that hour, minus the CRSP firm power obligation (F) in that same hour, exceeds an amount equal to his seasonal peakload (M), less his firm contract rate of delivery (H), less his contract rate of delivery for peaking power (C). Thus, the CRSP peaking obligation in any hour may be expressed in the following equation:

$P=(-F)-(M-H-C)$, in which P must be a positive number and M must be greater than $(H+C)$.

The value of F is determined by the ratio:

$$\frac{F}{L}=\frac{H}{M}$$

The CRSP seasonal peaking power obligation will be determined under the following three conditions:

1. At the time of the customer's seasonal peak, CRSP will be obligated to furnish the sum of the customer's ultimate seasonal contract rate of delivery (CRD) for firm power and his seasonal CRD for peaking power. (The difference between the customer's seasonal peakload and the sum of the CRSP seasonal CRD's is the customer's seasonal obligation.)

2. At any other time, CRSP will be obligated to furnish the kilowatt difference between the customer's load in that hour and the customer's seasonal obligation as established in 1. above. (CRSP firm capacity obligation in that hour plus peaking as required up to the maximum CRD of peaking power.)

3. Unless otherwise agreed, the customer must schedule his CRSP energy at approximately his hourly load pattern so that in any month of the season the customer's total energy taken from CRSP will approximate the estimated energy obligation[b] of CRSP for that month, and the energy obligation for the season will not be exceeded.

The amounts which CRSP will furnish customers who use an auxiliary supply and purchase CRSP peaking power will be determined through the following process:

1. Receive from each customer the previous year's system peakload in kilowatts for each month of each season.

a. Apply a mutually agreeable increase or decrease for the ensuing season estimate of peak kilowatts and establish monthly total system peakloads in kilowatts.

b. Determine the ratio of the firm kilowatt obligation of CRSP to the system peak for season. Utilize this ratio to determine the CRSP firm obligation for all the other months of the season.

c. The difference between the monthly system peak kilowatts under (a) above and the CRSP firm monthly obligation under (b) above gives the balance of the monthly kilowatts needed to be supplied from the auxiliary supply and/or by CRSP peaking power.

2. Receive from each customer the previous year's system monthly kilowatthour load for each season.

a. Apply a mutually agreeable increase or decrease for the current season's estimate to establish the expected monthly total system loads in killowatthours.

b. Subtract the CRSP firm contract obligation in kilowatthours from the seasonal kilowatthours for the system load; establish the difference as the kilowatthours needed from the auxiliary supply for the season.

c. Calculate the percentage of energy for each month of the previous corresponding season to the total system energy for that season, and use this percentage of energy to determine the CRSP energy for each month of the current season. The difference between these two figures will be the monthly amount needed from the auxiliary supply. The monthly amount of CRSP energy will then be supplied at approximately the customer's hourly load pattern.

The Bureau's seasonal energy obligation will be limited to 2,550 kilowatthours per kilowatt of the existing ultimate contract rate of delivery for long-term firm power or the amount determined by applying the customer's system seasonal load factor to the CRD, whichever is less. Deliveries of energy will be scheduled to follow approximately the customer's normal load pattern over the season in accordance with contractual provisions. Sixty days before the beginning of each season a mutually agreeable estimate of the customer's peakload for that season will be made.

3. Any power and/or energy used above the CRSP obligation determined before the start of the season will be deemed to have come from the auxiliary supply.

IV. *Allocation*

According to the "General Power Marketing Criteria" approved in March 1962, the Southern Division is entitled to 20 percent of the net power capability in summer seasons and 7 percent in winter seasons. These amounts are 264,000 kW and 92,700 kW, respectively. Subtracting the long-term firm CRD's (existing ultimate CRD's) from these amounts establishes 24,800 kW in the summer and 8,700 kW in the winter available as peaking power for the Southern Division customers. The remaining amounts of peaking power (83,200 kW summer and 368,300 winter) are available for the Northern Division customers.

Because of a mutual misunderstanding during the 1963–1970 period, the Energy Resources and Development Administration (ERDA) should be offered an allocation of 15 MW of peaking power from CRSP. This leaves 68,200 kW to be allocated among the remaining Northern Division customers. Deducting the 14,600 kW currently under contract to ERDA leaves a total under contract to the remaining Northern Division customers of 907,335 kW.

On the basis of these considerations, individual allocations of peaking power have been made in proportion to the amount of long-term firm power under contract. Allocations for the summer season are as follows:

Northern Division (ND):

$$Y=\frac{68{,}200}{907{,}335}$$

X=Present ND customer long-term firm CRD.

Y=Proposed ND customer peaking power allocation.

Southern Division (SD):

$$Y=\frac{24{,}800}{240{,}000}$$

X=Present SD customer long-term firm CRD.

Y=Proposed SD customer peaking power allocation.

The winter allocations were calculated in a similar manner. All proposed allocations are tabulated in Table I below.

V. *Contractual Arrangements*

A. *Term of Contracts*—For existing customers having long-term firm power under contract, the sale of long-term peaking power will be for the term of the existing contracts but not later than September 30, 1989.

B. *Deadline*—Each allottee must place its allocation under contract by December 1, 1976, or the allocation will be automatically rescinded.

VI. *Action Required by Allottees*

A. *Acceptance of Allotments*—Each allottee should state by letter no later than March 1, 1976, whether or not it wishes to contract for either or both of the summer and winter season allocations. The absence of any such statement will constitute automatic rescission.

B. *Request for Additional Peaking Power*—Each allottee should also state the amount of additional peaking power it could use each season if it became available.

C. *Reallocation of Rescinded Amounts*—All rescinded allocations will be offered first to existing customers which so requested additional amounts of peaking power, then to preference customers without CRSP contracts, and finally to private utilities.

D. *Peaking Power Rate*—The tentative peaking power rate of $8.04/kW season is currently under review in accordance with the notice published in the FEDERAL REGISTER on September 4, 1975, 40 F.R. 40667. When the final rate is adopted, it will be implemented by modification of Rate Schedule UC–FP1.

E. *Customer Comments*—The Bureau will accept comments until March 1, 1976, and reallocate, if necessary, on the basis of these comments. An additional period will be established to again receive comments prior to announcing the final allocation. Contracts will be executed by December 1, 1976. Comments should be directed to any one of the following Reclamation offices:

Regional Director, Lower Colorado Region, Attention: Code 600, Bureau of Reclamation, Department of the Interior, P.O. Box 427, Boulder City, Nevada 89005, Telephone (702) 293–2161.

Regional Director, Upper Colorado Region, Attention: Code 600, Bureau of Reclamation, Department of the Interior, Salt Lake City, Utah 84147, Telephone (801) 524–5493.

Regional Director, Lower Missouri Region, Attention: Code 600, Bureau of Reclamation, Department of the Interior, Denver Federal Center, Building 20, Denver Colorado 80225, Telephone (303) 234–3131.

HOP MARKETING ADVISORY BOARD

Notice of Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463; 86 Stat. 770), notice is given of a meeting of the Hop Marketing Advisory Board at 8:30 a.m. m.s.t., January 14, 1976, at the Rodeway Inn, Boise, Idaho

The purpose of the meeting is to discuss reserve pool matters, marketing research and development projects, and marketing policy and related matters. The meeting will be open to the public.

The Hop Marketing Advisory Board is established under Marketing Order No. 991, as amended (7 CFR Part 991), regulating the handling of hops of domestic production. The marketing order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

The names of Board members, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Robert H. Eaton, Manager, Hop Administrative Committee, Room 1002, Corbett Building, 430 S.W. Morrison Street, Portland, Oregon 97204, telephone 503–224–1823.

Dated: December 18, 1975.

DONALD E. WILKINSON,
Administrator.

Forest Service

GUNNISON AND WHITE RIVER NATIONAL FORESTS

Notice of Availability of Draft Environmental Statement on East River and Upper Crystal River Land Use Plan

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the East River and Upper Crystal River Land Use Plan on the Gunnison and White River National Forests. The Forest Service report is USDA–FS–R2–DES(Adm) FY–76–02.

The environmental statement is a proposal to update existing Multiple Use Management Direction on National Forest land in the East River Unit of the Gunnison National Forest and the Upper Crystal River Unit of the White River National Forest in Gunnison County, Colorado.

This draft environmental statement was transmitted to CEQ on December 16, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, So. Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, P.O. Box 138, Delta, Colorado 81416.
USDA, Forest Service, 11177 West 8th Avenue, P.O. Box 25127, Deaver, Colorado 80225.
USDA, Forest Service, P.O. Box 948, Glenwood Springs Colorado 81601.

A limited number of single copies are available upon request to J. R. Wilkins, Forest Supervisor, USDA Forest Service, Gunnison National Forest, P.O. Box 138, Delta, Colorado 81416 and Thomas C. Evans Forest Supervisor, USDA Forest Service, White River National Forest, P.O. Box 948, Glenwood Springs, Colorado 81601.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to either J. W. Wilkins, Forest Supervisor, USDA Forest Service, Gunnison National Forest, P.O. Box 138, Delta, Colorado 81416, or Thomas C. Evans, Forest Supervisor, USDA Forest Service, White River National Forest, P.O. Box 948, Glenwood Springs, Colorado 81601. Comments must be received by February 16, 1975, in order to be considered in the preparation of the final environmental statement.

CLAYTON B. PIERCE,
Director, Multiple Use and Environmental Quality Coordination.

DECEMBER 16, 1975.

MT. WELBA LAND USE PLAN

Notice of Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for management of the Mt. Welba Unit. The Forest Service Report Number is USDA–FS–R2–DES(Adm) FY–76–03.

This environmental statement concerns a management proposal which emphasizes both non-consumptive values and production of tangible products, with management activities restricted on an area of highly unstable soils. It would permit a mixture of needed land uses and activities in the future that are environmentally acceptable and compatible with the area's economic and social potential. The initial activity would consist of constructing about four miles of road and harvesting four million board feet of timber. The proposed Plan does not retain any of the 8,650 acres of Roadless Area DF (Mt. Welba) in designated roadless status.

This draft environmental statement was transmitted to CEQ on December 16, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agricultural Bldg., Room 3230, 12th St. & Independence Ave. SW., Washington, D.C. 20250.
USDA Forest Service, 137–10th Street, Steamboat Springs, Colorado 80477.
USDA Forest Service, 11177 West Eight Avenue, Lakewood, Colorado 80225.
USDA Forest Service, 580 Pershing, Craig, Colorado 81625.

A limited number of single copies are available upon request to: J. Merle Prince, Forest Supervisor, Routt National Forest, P.O. Box 1198, Steamboat Springs, Colorado 80477.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact included for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to J. Merle Prince, Forest Supervisor, Routt National Forest, P.O. Box 1198, Steamboat Springs, Colorado 80477. Comments must be received by February 16, 1976, in order to be considered in the preparation of the final environmental statement.

December 16, 1975.

J. MERLE PRINCE,
Forest Supervisor.

DECEMBER 16, 1975.

Soil Conservation Service

GOOSE CREEK WATERSHED PROJECT, WASHINGTON

Notice of Availability of Draft Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Goose Creek Watershed Project, Lincoln County, Washington, USDA–SCS–EIS–WS–(ADM)–76–1–(D)–WA.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment, supplemented by a multipurpose flood control and recreation structure and recreation facilities, channel work, and minor flood control structures and diversion channels. The multipurpose structure will create a maximum recreational reservoir of 235 acres and recreation facilities on a 114 acre area. The reservoir and facilities will account for an estimated 14,520 angler days and 39,980 general recreation visits annually. Channel work will be limited to removing a rock ledge from approximately 0.1 mile of previously modified, perennial stream. The diversion channels will consist of approximately 7,100 feet of new channels. Associated with the diversion channels is a small diversion dam and a debris basin.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 360 U.S. Courthouse, Spokane, Washington 99201.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Galen S. Bridge, State Conservationist, Soil Conservation Service, 360 U.S. Courthouse, Spokane, Washington 99201.

Comments must be received on or before February 10, 1976, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

Dated: December 16, 1975.

JOSEPH W. HAAS,
Deputy Administrator for Water Resources, Soil Conservation Service.

JOSEF CREMER AND GRABNER G.M.B.H.

Order Terminating Indefinite Denial Order

In the matter of Josef Cremer, dba J. Cremer Export-Import, Prinz Eugen Strasse 44/9, 1040 Vienna, Austria, and Grabner G.m.b.H. (related party), respondents.

An order was entered on March 10, 1964, 29 FR 3207, against Josef Cremer, trading as J. Cremer Export-Import denying him for an indefinite period all privileges involving commodities or technical data exported or to be exported from the United States. The order was issued in accordance with the Export Regulations, 15 CFR 388.15 (previously § 382.15) because respondent Cremer failed to answer interrogatories without showing adequate reason for such failure. Inasmuch as respondent Cremer was engaged as the managing director of Grabner, G.m.b.H., a related party determination was entered against respondent Grabner on April 25, 1975, 40 FR 19857.

Respondent Cremer recently answered the interrogatories and explained his reason for failing to do so at an earlier time. The record data indicates that Josef Cremer and Grabner G.m.b.H., have abided by the denial order of March 10, 1964, and are not shown suspect in connection with any United States exports.

Accordingly, the indefinite denial order against Josef Cremer and the related party determination covering respondent Grabner G.m.b.H., is hereby terminated.

Dated: December 17, 1975.

RAUER H. MEYER,
Director, Office of Export Administration.

Patent and Trademark Office

INTERNATIONAL PROTECTION OF GOVERNMENT EMBLEMS AND SEALS

Invitation for Comments

The Patent and Trademark Office, Department of Commerce, intends to forward the publication "Seals and Other Devices in Use at the Government Printing Office" to the World Intellectual Property Organization (WIPO) in order to obtain protection under Article 6*ter* of the Paris Convention for the Protection of Industrial Property for the Federal and State government seals and emblems contained therein.

Under Article 6*ter*, the member countries of the Paris Convention have agreed to prevent the registration as trademarks and to prohibit by appropriate means the unauthorized use of government emblems submitted through the intermediary of WIPO and accepted by the countries for such protection.

Federal agencies and State governments are requested to notify the Patent and Trademark Office by February 2, 1976, of any emblem in the above publication which they do not want submitted for protection under Article 6*ter*.

Federal agencies and State governments are also requested to notify the Patent and Trademark Office, at any time, of emblems not contained in the above publication which they believe should be submitted under the Article. If the notified emblem is appropriate for international protection, the Patent and Trademark Office will so advise and request 350 copies of the emblem for submission to WIPO.

Address all correspondence to: Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Dated: December 17, 1975.

C. MARSHALL DANN,
Commissioner of Patents and Trademarks.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Administration on Aging

NEVADA; FISCAL YEAR 1976 STATE PLAN

Notice of Hearing; Change of Date

Notice was given in the Federal Register for November 19, 1975 (40 FR 53608) that the Commissioner on Aging would hold a hearing on December 19, 1975 in Carson City, Nevada, to decide whether the Fiscal Year 1976 State Plan submitted by the State of Nevada conform to requirements under the Older Americans Act.

The State of Nevada has moved that a hearing officer, rather than the Commissioner on Aging, conduct the hearing, and that motion has been granted.

As a result, the hearing has been postponed to a time to be set later, and certain changes have been made in the Rules of Practice and Procedure for these proceedings.

Following is the notice of the granting of this motion and of the procedural changes.

December 17, 1975.

DEAR MR. LIST: I have received your motion, filed on December 9, 1975, that I disqualify myself and appoint an administrative hearing officer for the hearing to decide whether the State's Fiscal Year 1976 State Plan submitted by the State of Nevada under Section 304 of the Older Americans Act conforms to Federal requirements.

I grant that motion. The following modifications are made in the announced arrangements and procedures for that hearing that were originally stated in my letter to Governor O'Callaghan:

1. The hearing will not be held on December 19, 1975 because it is not possible to obtain the services of a hearing officer before that date. The hearing will be set for a date as soon as feasible, and I anticipate that this will be sometime around the last week in January 1976.

2. I will make the decision on the approval of the plan after the hearing officer has prepared a recommended decision, and after all parties have had an opportunity to file their views on the recommended decision and to appear before me to present their views.

3. I am enclosing amendments to the Rules of Practice and Procedure for these proceedings. The amendments make the necessary changes because the hearing will be conducted by a hearing officer.

Please get in touch with me if you have any further questions.

Very sincerely and cordially yours,

ARTHUR S. FLEMMING,
Commissioner on Aging.

Further information on the hearing may be obtained from the Office of the Commissioner, Administration on Aging, Room 4030, Donohoe Building, 400 Sixth Street SW., Washington, D.C. 20201, telephone 202–245–2205.

Dated: December 17, 1975.

ARTHUR S. FLEMMING,
Commissioner on Aging.

Office of Education

INDIAN ELEMENTARY AND SECONDARY SCHOOL ASSISTANCE

Notice of Closing Date for Receipt of Applications

Notice is hereby given that, pursuant to the authority contained in Section 305 of the Indian Elementary and Secondary School Assistance Act, as enacted in Title IV, Part A of Pub. L. 92–318 and amended in Title VI, Part C of Pub. L. 93–380 (20 U.S.C. 241aa–241ff), applications are being accepted from eligible local educational agencies for grants which will provide financial assistance for programs designed to meet the special educational needs of Indian students. Eligibility is, in general, determined on the basis of a local educational agency's Indian student enrollment.

Assistance under the Act may be used by local educational agencies for the purpose of developing and carrying out elementary and secondary school programs specially designed to meet the special educational needs of Indian students, with the involvement of the Indian community and parents of the Indian children to be served.

Applications must be received by the U.S. Office of Education Application Control Center on or before February 27, 1976.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Grant and Procurement Management Division, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention: 13.534. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than February 23, 1976, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. Hand delivered applications. An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m., Washington, D.C. time, except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

C. Program information and forms. Requests for additional information and application forms should be addressed to: Director, Division of Local Educational Agency Assistance (Part A), Office of Indian Education, U.S. Office of Education, Regional Office Building Three, Room 3662, 7th and D Streets, S.W., Washington, D.C. 20202.

D. Applicable regulations. Awards made pursuant to this notice will be subject to: (1) the Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a) and (2) regulations for the Indian Elementary and Secondary School Assistance Act, 45 CFR Part 186.

(20 U.S.C. 241aa-241ff)

(Catalog of Federal Domestic Assistance No. 13.534, Indian Education—Grants to Local Educational Agencies (Part A))

Dated: December 17, 1975.

T. H. BELL,
U.S. Commissioner of Education.

PRESIDENT'S COMMISSION ON OLYMPIC SPORTS

Meeting

Notice is hereby given, pursuant to P.L. 92–463, that the President's Commission on Olympic Sports, established by the President in Executive Order No. 11868 dated June 19, 1975, amended by Executive Order No. 11873 dated July 21, 1975, will meet on Thursday, January 8, 1976, at 1 p.m., Friday, January 9, 1976, at 8:45 a.m. in the Champagne Room, and Saturday, January 10, 1976 at 10 a.m. in the Burgundy Room at the Beverly Wilshire Hotel, 9500 Wilshire Boulevard, Beverly Hills, California. The Commission will consider matters pertaining to its study of Olympic sports problems and will hear testimony from several individuals who are familiar with these problems.

The meeting is open to the public on Thursday, January 8, 1976, from 1 p.m. to 6 p.m. and Friday, January 9, 1976, from 8:45 a.m. to 6 p.m. The meeting will be closed to the public on Saturday, January 10, 1976 from 10 a.m. to 12 p.m. A determination to close this portion of the meeting was made by the Assistant Secretary for Administration and Management for the Department of Health, Education and Welfare on December 15, 1975. This portion will consist of a discussion of individuals which if open to the public would constitute a clearly unwarranted invasion of personal privacy of the individuals concerned within the meaning of Exemption (b)(6) of the Freedom of Information Act, 5 U.S.C. 552(b)(6).

Further information on the Commission, including summary minutes of the closed portion of the meeting, may be obtained from Mr. Michael T. Harrigan, Executive Director, President's Commission on Olympic Sports, Room 3002, 2025 M Street, N.W., Washington, D.C. 20506, telephone (202) 254–8410.

Date: December 16, 1975.

MICHAEL T. HARRIGAN,
Executive Director.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

Notice of Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the Ad Hoc Committee on Parent Involvement of the National Advisory Council on the Education of Disadvantaged Children will meet on January 19, 1976, from 10:00 a.m.–2:00 p.m. The meeting will be held at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

Because of limited space, all persons wishing to attend should call for reservations by December 31, 1975, Area Code 202/382–6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C.

Signed at Washington, D.C., on December 17, 1975.

ROBERTA LOVENHEIM,
Executive Director.

Notice of Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the Health Insurance Benefits Advisory Council (HIBAC), established pursuant to Section 1867 of the Social Security Act, as amended, which advises the Secretary of Health, Education, and Welfare on Medicare and Medicaid matters will meet on Thursday, January 22 at 9:00 a.m. and Friday, January 23, 1976 at 8:00 a.m. in Room 5051 of the Department of Health, Education, and Welfare's North Building, Third and C Streets SW., Washington, D.C. Principal consideration and discussion will pertain to matters of general policy related to Medicare and Medicaid programs. These meetings are open for public observation.

Further information on the Council may be obtained by contacting Ronald M. Klar, M.D., M.P.H., Executive Secretary, Health Insurance Benefits Advisory Council, Room 17A–31, 5600 Fishers Lane, Rockville, Maryland 20852, telephone (301) 443–3274 or 443–4728.

Dated: December 12, 1975.

RONALD M. KLAR,
Executive Secretary Health Insurance Benefits Advisory Council.

National Institutes of Health

PULMONARY YOUNG INVESTIGATOR GRANT COMMITTEE

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Pulmonary Young Investigator Grant Committee, National Heart and Lung Institute, January 8 and 9, 1976, National Institutes of Health, Building 31, Conference Room 4. This meeting will be open to the public from 8:00 a.m. to 9:00 a.m. on January 8, 1976 for an introduction to the program and discussion of review procedures. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5) and 552(b)(6), Title 5, U.S. Code and Section 10(d) of P.L. 92–463, the meeting

V 40 247 DEC 23 75 XUM

of the Pulmonary Young Investigator Grant Committee will be closed to the public on January 8 from 9:00 a.m. to adjournment on January 9, 1976, for the review, discussion and evaluation of individual initial pending grant applications. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, NHLI, NIH, Building 31, Room 5AO3, Bethesda, Maryland 20014, telephone 301/496–4236, will provide summaries of the meeting and rosters of the committee members. Dr. Robert C. Stroud, Review Branch, Division of Extramural Affairs, National Heart and Lung Institute, Westwood Building, Room 552A, telephone 301/496–7915, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program N o. 13.838, National Institutes of Health).

Dated: December 19, 1975.

SUZANNE L. FREMEAU,
Committee Management Officer, NIH.

REGIONAL ADMINISTRATORS, ET AL.

Amendment to Redelegation of Authority

Section B.3 of the Redelegation of Authority from the Assistant Secretary to Regional Administrators published February 5, 1975 (40 FR 5386) is changed to read as follows:

3. Approve applications under section 107, except section 107(a)(3), and section 107(a)(6) (42 USC 5307) where the provisions of 24 CFR § 570.408(c)(3) apply.

(Sec. 7(d), Department of HUD Act, 42 USC 3535(d)).

Effective date. This amendment is effective December 18, 1975.

DAVID O. MEEKER, JR.,
Assistant Secretary for Community Planning and Development.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS; SPECIAL COMMITTEE 125—MLS IMPLEMENTATION

Notice of Meeting

Notice is hereby given that the Radio Technical Commission for Aeronautics (RTCA) Special Committee 125—MLS Implementation, which is being utilized as an advisory committee within the meaning of the Federal Advisory Committee Act, 5 U.S.C. Appendix I, will meet January 14–15, 1976, in Conference Room 3201, FAA Trans Point Building, 2100 Second Street, SW., Washington, D.C. 20591, commencing at 9:30 a.m. Agenda items include:

1. Approval of November 14–15, 1975, meeting minutes, RTCA Paper 238–75/SC–125–39.

2. Reports on: (a) Informal Coordination Group Meeting; (b) FAA Transition Plan; (c) DOD–FAA MLS R&D Status; and (d) Status of December 6–10, 1975, Benefits Informal Group Activities and future work program.

3. Report by Implementation Strategy Informal Group on interface with Benefits Informal Group.

4. Discussion of "Strawman" Final Report.

5. Review of Pert Chart action items as a result of discussions.

Meetings of Special Committee 125 are open to the public, subject to limitations of space available. Subject to time being available, any member of the public may present oral statements at the meeting, or may submit written statements to the RTCA Secretariat. Requests to receive additional information or to be heard should be made by contacting 1717 H Street, NW., Washington, D.C. 20006, or telephone Area Code (202) 296–0484.

Issued in Washington, D.C., on December 10, 1975.

EDGAR A. POST,
Designated Officer.

Hazardous Materials Operations Office

SPECIAL PERMITS ISSUED

Pursuant to 49 CFR § 170.15, of the Department's Hazardous Materials Regulations, issued May 22, 1968 (33 FR 8277), as it was in effect on October 15, 1975, the following is a list of new Special Permits upon which action was completed during November 1975.

Special permit No.	Issued to—subject	Mode or modes of transportation
SP 7063	Hooker Chemicals & Plastics Corp., Niagara Falls, N.Y., to ship phosphorus pentachloride in single-trip, molded, removable-head, polyethylene container not exceeding 5-gal capacity.	Motor vehicle, rail freight.
SP 7064	Hercules Inc., Wilmington, Del., to ship slurry-type high explosives in non-DOT specification fiberboard box having inside packaging in compliance with Sec. 173.61(d).	Motor vehicle.
SP 7067	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del., to ship dichlorodifinoromethane in British-made portable tanks comparable to DOT specification 51.	Cargo vessel, motor vehicle.
SP 7068	Thiokol Corp., Brigham City, Utah, to ship high explosives, liquid in certain DOT specification metal drums, each having inside DOT–2S container, packed inside DOT–6J drums.	Motor vehicle.
SP 7070	Lea-Ronal, Inc.; Engelhardt Industries; American Chemical & Refining Co.; Technic, Inc.; Auric Corp.; and Oxy Metal Industries Corp.; to ship a poisonous solid, n.o.s., packaged in compliance with Sec. 173.364, via air and exempt from the requirements of 14 CFR 103.35.	Passenger-carrying aircraft, cargo-only aircraft.
SP 7071	U.S. Department of Defense, Washington, D.C., to ship certain corrosive liquids in inside polyethylene bottles packed with nonhazardous materials in same outside fiberboard box.	Cargo vessel, motor vehicle, rail freight.
SP 7072	Registered shippers to ship certain corrosive liquids in a non-DOT specification molded polyethylene container (Delex 55), of 55-gal marked (rated) capacity, manufactured by Container Corp. of America.	Do.
SP 7075	Great Lakes Chemical Corp., West Lafayette, Ind., to ship chlorine in an insulated, non-DOT specification portable tank having a design pressure of 225 lb/in² and built-in compliance with the ASME Code.	Motor vehicle.
SP 7076	The LaMotte Chemical Products Co., Chestertown, Md., to ship chemical kits containing corrosive liquids packed with nonhazardous articles.	Motor vehicle, rail freight.
SP 7077	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del., to ship certain compressed gases in non-DOT specification 180-type portable tank having a design working pressure of 200 lb/in².	Cargo vessel, motor vehicle.
SP 7078	Carroll Air Service, Inc., Kingston, N.Y., to transport radioactive materials in excess of 14 CFR 103.19(b) limitations under specified conditions.	Cargo-only aircraft.
SP 7080	Phillips Petroleum Co., Borger, Tex., to ship isobutane in 5 non-DOT specification portable tanks comparable to DOT specification 51 tank.	Cargo vessel, motor vehicle.
SP 7082	Registered shippers, to ship certain corrosive liquids in a non-DOT specification molded polyethylene container, of 55 gal marked (rated) capacity, manufactured by Igloo Corp.	Cargo vessel, motor vehicle, rail freight.
SP 7083	Turner Co., and Bernz-O-Matic Corp., to ship propane in non-DOT specification steel cylinders, not exceeding 100 in³ volumetric capacity, patterned after DOT specification 4B.	Cargo vessel, motor vehicle, cargo-only aircraft, rail freight.

This constitutes the last publication of Special Permits issued due to implementation of procedures under 49 CFR, Part 107.

ALAN I. ROBERTS,
Director, Office of Hazardous Materials Operations.

[FR Doc.75–34546 Filed 12–22–75;8:45 a.m.]

CIVIL AERONAUTICS BOARD

[Docket 28657]

EMERGENCY AIR TRANSPORTATION REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of December, 1975.

On September 1, 1975, National Airlines discontinued all service because of a strike which has not yet been settled. On December 6, 1975, United Air Lines also suspended operations due to a labor dispute. Consequently, there is currently no service by two carriers who account for approximately 25 percent of the revenue passenger miles of all scheduled domestic interstate traffic. Therefore, a particularly acute emergency has been created for many individuals because the year-end holiday season is a period of maximum air travel.

Under these circumstances, it is expected that other scheduled and supplemental carriers will petition the Board for, respectively, exemption authority under section 416(b) or special operating authorizations under section 417 of the Federal Aviation Act to serve markets temporarily which have been left unserved, or insufficiently served, by the grounding of United and National.[1] To fail to deal with such requests expeditiously would in many cases vitiate any relief which might be brought to the traveler. Therefore, we have decided to delegate authority to the Director, Bureau of Operating Rights, for a period beginning on December 17, 1975, and terminating on December 23, 1975 (unless sooner terminated), to act upon the applications of scheduled certificated air carriers and intrastate air carriers[2] under section 416(b) of the Act, and of supplemental carriers under section 417 of the Act, to provide service temporarily in markets in which United or National, individually or collectively, provided 25 percent or more of the scheduled flights as of September 1, 1975.[3]

Applications may be submitted in writing or orally. Rule 410 of the Rules of Practice will govern written applications. In the case of oral applications, the applicant will be required to follow its request with a telegraphic communication within 24 hours and a written application within 5 days.[4] In all cases, applicants will conform to the service requirements of the Board's rules. The Director, Bureau of Operating Rights, will be given the right to act before the filing of answers, and petitions for review of any of the actions of the Director under the terms of this order shall not stay the effective date of those actions. Any carrier seeking authority of the nature contemplated herein, shall certify, as part of its application, that the service proposed will not interfere with the provision of regular scheduled or charter service nor inconvenience passengers holding reservations. Memoranda listing applications received and action thereon will be posted in the Board's Docket Section for public inspection.

We emphasize that it is not our intention to intervene in a labor controversy nor to favor one side against the other; we do not believe that the strictly limited procedural steps taken herein will have that effect. Our sole purpose is to alleviate, to the extent possible, the public hardships which inevitably result from such strikes. We believe that actions by the Director pursuant to the authority granted herein can have only an extremely negligible effect, if any at all, upon the economic forces normally in play between management and labor.

Accordingly, it is ordered that:

1. Authority is hereby delegated to the Director, Bureau of Operating Rights, to act for the Board on requests by any scheduled certificated air carrier or any intrastate air carrier under section 416(b) of the Act, or any supplemental air carrier under section 417 of the Act, for temporary authority to provide service during the work stoppage and resultant cessation of service by United Air Lines or National Airlines, in markets in which United or National, individually or collectively, provided 25 percent or more of the scheduled flights as of September 1, 1975;

2. In the absence of a further order of the Board, all operating authority granted pursuant to this order of delegation shall expire not later than December 23, 1975;

3. In the exercise of the delegated authority, the Director, Bureau of Operating Rights, is authorized, in his discretion, to act before the receipt of answers, and petitions for review of decisions of the Director shall not stay the effective date thereof;

4. Applications subject to the procedures established herein may be made orally, but such applications shall be put into telegraphic or written form within 24 hours and, if in telegraphic form, shall be followed within five days with a written application served in accordance with the Board's Rules of Practice;

5. Any scheduled certificated air carrier, intrastate air carrier or supplemental air carrier seeking authority under the procedures established herein shall certify, as part of its application, that the proposed service will neither interfere with the provision of its regular scheduled or charter service nor inconvenience passengers holding reserved accommodations;

6. Any interested person objecting to any provisions of this order shall file such objections with the Board within five (5) days from the date of service of this order but the filing of objections shall not stay the effectiveness of this order;

7. The delegated authority granted herein shall be effective on December 17, 1975, and shall expire on December 23, 1975 unless sooner terminated by order of the Board;

8. This order may be amended or revoked at any time in the discretion of the Board; and

9. This order shall be served on all scheduled certificated air carriers, intrastate air carriers and supplemental air carriers, the United States Postal Service, and the Federal Aviation Administration.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–34599 Filed 12–22–75;8:45 am]

[1] Although not of the same magnitude as the 1966 work stoppage affecting five trunk carriers, the existing reductions of service warrant action similar to that taken by the Board in Order E–23928, July 9, 1966.

[2] The term "intrastate air carriers" includes only those defined as such in section 101(22) of the Act, as amended by Pub. L. No. 93–366, Sec. 205, 88 Stat. 418 (1974).

[3] Since the authority granted herein is directed toward the broad transportation needs of the country, we have decided to rely upon the same 25 percent standard that was specified in Order E–23928 during the 1966 disruption. In markets where it appears that the bulk of the traffic moves on connecting flights, "scheduled flights" shall be construed to include on-line connecting services published in the Official Airline Guide. To the extent that special circumstances not within this guideline or within existing delegations arise, the Director of the Bureau of Operating Rights will refer requests for relief to the Board.

[4] Of course, if a written application is filed within 24 hours, telegraphic confirmation need not be submitted.

[Dockets 24760, 24986, 25172, 28656]

FLYING TIGER TRANSPACIFIC

Order for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of December, 1975.

Flying Tiger Transpacific, Renewal Case; application of the Flying Tiger Line Inc. for renewal and amendment of its certificate of public convenience and necessity for route 163.

By Order 68–12–105, the Board awarded The Flying Tiger Line Inc. (FTL) a certificate for route 163 for a temporary five-year period, after which the Board would "determine whether that award should be expanded, curtailed, terminated or otherwise reshaped."[1] In Docket 24760, FTL requests renewal of its authority to engage in overseas and foreign air transportation with respect to property and mail on route 163.[2] In addition, FTL requests in Docket 24986 authority to serve Singapore, Malaysia and Indonesia on route 163. Finally, in Docket 25172, FTL requests the inclusion of Anchorage as an additional U.S. coterminal on route 163, as well as authority to transport property and mail between Anchorage and all other domestic points on route 163 to the extent that space is not utilized to transport property and mail to overseas and foreign points on route 163.[3][4]

[1] Order 68–12–105, p. 30.

[2] Route 163 authorizes service between the coterminal points Boston, New York-Newark, Philadelphia, Cleveland, Detroit, Chicago, Seattle-Tacoma, Portland, San Francisco-Oakland-San Jose, Los Angeles-Ontario-Long Beach, and intermediate points within Japan, Korea, Okinawa, Taiwan, Hong Kong, the Philippines and VietNam, and beyond VietNam, intermediate points and a terminal point in Thailand.

[3] By Order 73–3–140, March 30, 1973, the Board denied FTL's motions for an immediate hearing on and consolidation of its applications in Dockets 24760, 24986, and 21860 (the predecessor to Docket 25172).

[4] On September 29, 1975, FTL filed a motion to consolidate Dockets 24760 and 25172. On October 1, 1975, FTL filed a motion for expedited consideration of its applications in Docket 24760 and Docket 25172. Alaska Airlines, Northwest Airlines, and Western Air Lines filed answers principally opposing FTL's request for Anchorage-U.S. traffic rights. The Department of Justice answered in support of the Anchorage-U.S. fill-up request. In addition, Northwest opposes expedited treatment of FTL's renewal request.

V 40 247 DEC 23 75 XUM

Upon consideration of the foregoing and all other pertinent matters, the Board has decided to set for hearing, in a proceeding designated as the *Flying Tiger Transpacific Renewal Case*, FTL's renewal application, as well as the carrier's requests to add Malaysia, Singapore, Indonesia and Anchorage to route 163.

We will not include as an issue in this case the question of fill-up rights on flights between Anchorage and other U.S. coterminals. Expansion of the issues to include fill-up rights is undesirable because it would divert the focus of the case away from the primary issues of renewal and improved all-cargo transpacific authority, and into the arena of domestic all-cargo operations.

ACCORDINGLY, IT IS ORDERED THAT:

1. A proceeding to be known as the *Flying Tiger Transpacific Renewal Case*, Docket 28656, be and it hereby is instituted and shall be set down for hearing before an Administrative Law Judge of the Board at a time and place hereafter designated, as the orderly administration of the Board's docket permits;

2. The proceeding instituted in paragraph 1, above, shall include consideration of the following issues:

(a) Do the public convenience and necessity require the renewal, modification, or amendment of the temporary certificate authority held by Flying Tiger for route 163?

(b) Do the public convenience and necessity require the amendment of the certificate for route 163 held by Flying Tiger to include Indonesia, Singapore, Malaysia as additional foreign points and Anchorage, Alaska, as an additional domestic coterminal?

(c) If any authority is awarded in this case, what terms, conditions, and limitations, if any, should be attached thereto?

3. Insofar as thy conform to the scope of this proceeding, the applications in Dockets 24760, 24986 and 25172 of Flying Tiger be and they hereby are consolidated with the proceeding instituted in paragraph 1, above, and to the extent not consolidated, the foregoing applications be and they hereby are dismissed without prejudice;

4. Applications, motions to consolidate and petitions for reconsideration of this order shall be filed 20 days from the service date of this order and answers thereto shall be filed 10 days thereafter;

5. Flying Tiger and all other carriers filing applications in this proceeding shall file an environmental evaluation pursuant to section 312.12 of the Board's Procedural Regulations within 45 days of this order; and

6. A copy of this order shall be served upon persons filing in the captioned dockets and the following: The Departments of State, Interior, Transportation, Commerce, and Housing and Urban Development; the National Aeronautics and Space Administration; the Federal Aviation Administration; the General Services Administration and the Environmental Protection Agency.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-34598 Filed 12-22-75;8:45 am]

[Docket 27813; Agreement C.A.B. 25550 R-1 through R-16; Agreement C.A.B. 25564]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Passenger Fares

DECEMBER 15, 1975.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreements were adopted at the Composite Passenger Traffic Conferences held in Nice/Cannes, France during October and November 1975.

Agreement C.A.B. 25550, proposed for effect January 1, 1976, which only affects air transportation indirectly, would revalidate the present South Atlantic fare structure due to expire March 31, 1976, through March 31, 1977.[1] In general, specified fares would be increased by three percent across the board and applicable currency adjustment resolutions would be amended to reflect the current monetary relationships within the South Atlantic market area. Agreement C.A.B. 25564 would establish Mid Atlantic 14-28 Day Group Inclusive Tour Fares from Cuba to Eastern European Countries. We will approve those portions of the agreements governing fares which are combinable with fares to/from United States points and thus have indirect application in air transportation as defined by the Act, but will disclaim jurisdiction with respect to fares which are not similarly combinable.

Pursuant to authority duly delegated by the Board in the Board's Regulations 14 CFR 385.14:

1. It is not found that the following resolutions, incorporated in agreements indicated, and which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
25550: R-1	001b	South Atlantic Special Effectiveness Resolution (Tie-in)	1/2. 1/2/3 (via Atlantic except TC2 and TC3 via TC1).
R-2	001dd	South Atlantic Escape for Normal and Special Fares	1/2. 1/2/3.
R-3	001u	Special Escape for South Atlantic Agreement	1/2. 1/2/3.
R-4	002	Standard Revalidation Resolution (South Atlantic)	1/2. 1/2/3.
R-5	003	Special Recession Resolution (South Atlantic)	1/2. 1/2/3.
R-6	022h	JT12/JT123 (South Atlantic) Special Rules for Sales of Passenger Air Transportation (Revalidating and Amending).	1/2. 1/2/3.
R-7	022w	JT12 (South Atlantic) Special Rules for Sales of Passenger Air Transportation Between TC2 and TC1 (Revalidating and Amending).	1/2.
R-8	050	First Class Conditions of Service (Revalidating and Amending)	1/2. 1/2/3.
R-9	054c	South Atlantic Normal First Class Fares	1/2.
R-10	054d	South Atlantic Supersonic Fares (New)	1/2.
R-11	060	Economy Class Conditions of Service (Revalidating and Amending)	1/2/3.
R-12	064c	South Atlantic Economy Class Fares	1/2.

2. It is not found that the following resolutions, incorporated in agreements indicated, affect air transportation within the meaning of the Act:

Agreement CAB	IATA No.	Title	Application
25550: R-13	070y	South Atlantic 60-Day Economy Class Excursion Fares (Revalidating and Amending).	1/2.
R-14	071y	South Atlantic 45-Day Economy Class Excursion Fares (Revalidating and Amending).	1/2.
R-15	081k	South Atlantic 28-Day Group Inclusive Tour Fares (Revalidating and Amending).	1/2. 1/2/3.
R-16	094c	Emigrant Fares—Portugal to Brazil (Revalidating and Amending).	1/2.
25564	084gg	Mid-Atlantic 14- to 28-Day Group Inclusive Tour Fares Cuba to Eastern European Countries (New) (Expedited).	1/2.

Accordingly, IT IS ORDERED THAT:

1. Those portions of Agreement C.A.B. 25550, described in finding paragraph 1 above, which have indirect application in air transportation as defined by the Act, be and hereby are approved; and

2. Jurisdiction be and hereby is disclaimed with respect to those portions of

[1] Certain special fare categories normally applicable through April will expire a month later on April 30, 1977.

Agreements C.A.B. 25550 and C.A.B. 25564 described in finding paragraph 2 above.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

NATIONAL AIR CARRIER ASSOCIATION v. LUFTHANSA GERMAN AIRLINES ENENFORCEMENT PROCEEDING

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled matter is assigned to be held on February 3, 1976, at 10:00 a.m. (local time), in Room 1003-B, North Universal Building, 1875 Connecticut Avenue, N.W., Washington, D.C., before Administrative Law Judge Richard V. Backley.

Dated at Washington, D.C., December 17, 1975.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

[FR Doc.75-34594 Filed 12-22-75;8:45 am]

[Docket 28610]

PAN AMERICAN WORLD AIRWAYS, INC.

Order Granting Temporary Emergency Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of December, 1975.

Application of Pan American World Airways, Inc. for a temporary emergency exemption to engage in domestic air transportation in the San Francisco-Seattle Market.

By telegraphic application dated December 11, 1975, Pan American World Airways requested an exemption pursuant to section 416(b) of the Act and Rule 410 of the Board's Rules of Practice to enable Pan American, inter alia, to carry traffic between San Francisco and Seattle on currently scheduled Pan American flights over that sector for the duration of the work stoppage resulting in a cessation of service by United Air Lines, Inc. We have decided to grant Pan American's exemption request for the period December 18, 1975 through December 23, 1975, to enable the carrier to engage in daily interstate air transportation between San Francisco and Seattle on its Flight #124 departing San Francisco at 11:00 a.m. and arriving in Seattle at 12:50 p.m., and its Flight #125 departing Seattle at 4:10 p.m. and arriving in San Francisco at 5:55 p.m.

By Order 75-12-77, issued December 17, 1975, we have granted Pan American similar authority with respect to the New York-San Francisco market. The same factors alleged by Pan American in support of its exemption request with respect to that market are also cited concerning its request in the San Francisco-Seattle market.

Emery Air Freight Corp. and the American Society of Travel Agents, Inc. answered in support of Pan American's request, while the Airline Pilots Association International, the United Airlines Master Executive Council, and United Air Lines answer in opposition. The allegations made in those answers with respect to the San Francisco-Seattle market are substantially the same as those cited in Order 75-12-77 with respect to the New York-San Francisco market. In addition, Western Air Lines has filed an answer opposing Pan American's exemption request for authority in the San Francisco-Seattle market stating: that contrary to Pan American's allegations, Western's flights between San Francisco and Seattle have been running less than full since commencement of the United work stoppage; that there is no stranded traffic in that market; that the carriers serving San Francisco-Seattle are providing adequate capacity to meet the market's demands; that under all of the circumstances Pan American has not made a case for the grant of the requested exemption; and that to grant the exemption under the circumstances of a lawful work stoppage would constitute an unlawful and unwarranted interference with the collective bargaining process.[1]

The Board has decided to grant an exemption to Pan American pursuant to section 416(b) of the Act from the provisions of sections 401 and 403 that would otherwise prevent the carrier from engaging in interstate passenger air transportation between San Francisco and Seattle. As indicated above, this temporary emergency authority will permit Pan American to carry domestic passenger traffic on presently scheduled flights at the fares currently provided in the tariffs of United Air Lines for the very limited period from December 18 through 23, 1975, inclusive.

The factual situation involved here is substantially similar to that of the New York-San Francisco market in which the Board, by companion order, granted Pan American a temporary emergency exemption.[2] Here, however, there is only one carrier offering nonstop service in the San Francisco-Seattle market rather than two. The incumbent carrier in this market, Western, has supplied data indicating that a number of passengers are waitlisted on its San Francisco-Seattle flights between December 17 and 23 and has also stated that, with the exception of one extra section scheduled to operate December 20, no crews or aircraft are available for extra section flights during this period. Since United had been offering eight nonstop round trips in this market before the cessation of service,[3] the Board finds that the market will not receive the same capacity it would have received if United were operating, and thus it is likely that some travelers who would have used United's services (or Western's services which have been prematurely closed out because of the work stoppage at United) will be unable to travel. In these circumstances, the public interest clearly requires that the unused capacity on Pan American's existing San Francisco-Seattle-London flights be made available to accommodate San Francisco-Seattle pre-Christmas peak period travelers. A more extended discussion of the reasons underlying the grant of this type of exemption authority to Pan American is contained in Order 75-12-77, and we fully incorporate that discussion and the related findings and conclusions herein.[4] It would be an undue burden on Pan American, because of the limited extent of its operations, to require a certificate proceeding which in any event could not be effected in time to meet traffic requirements. Moreover, the cost of processing such an application would be disproportionate to the limited revenues which would accrue to Pan American. In addition, it is to be noted that the only injury that can be claimed by the incumbent carrier is de minimis revenue diversion.

Additionally, we have determined that our action herein does not result in a major Federal Action significantly affecting the quality of the Environment within the meaning of the National En-

[1] We will accept Western's answer which was filed by telegraphic communication for the reasons stated in Footnote 1 to Order 75-12-77.

[2] Order 75-12-77, December 17, 1975.

[3] Western offers 7-1/2 nonstop round trips.

[4] For the same reasons expressed in Order 75-12-77, we also deny Pan American cargo authority over the San Francisco-Seattle segment and prohibit Pan American from publicly advertising its services or operating extra sections. To avoid any potential for misleading the public by conveying an intimation of permanence or greatly increased services in what is, in fact, authority of extremely short duration, involving limited additional capacity, the Board has determined that it would not serve the public interest to allow Pan American publicly to advertise the services authorized in this order. However, the Board will expect Western—and United, to the extent its reservations service is still operating—to notify travelers making inquiries (including those already on their own waitlists) whom these carriers are unable to accommodate, of the availability of Pan American's service during this limited time. As an alternative, these carriers may make available their waitlists to Pan American so that the latter may contact the travelers.

V 401247 DEC 23 75 XUM

vironmental Policy Act of 1969 since Pan American is at present operating the flights.

In sum, we find that enforcement of sections 401 and 403 of the Act, insofar as they would otherwise prevent the services authorized herein, would be an undue burden upon Pan American by reason of the limited extent of its operations and is not in the public interest.

Accordingly, it is ordered that:

1. Pan American World Airways, Inc. be and it hereby is exempted from section 401 of the Act and the terms, limitations and conditions of its certificate for Route 132 to the extent necessary to enable it to engage in, during the period December 18, 1975 through and including December 23, 1975, interstate air transportation of passengers between San Francisco, California and Seattle, Washington on its daily Flight #124 and Flight #125: *Provided*, That, extra sections shall not be operated and that Pan American shall not advertise the services;

2. Pan American World Airways, Inc. be and it hereby is exempted from the tariff filing requirements of section 403 of the Act and the Board's regulations thereunder for the services authorized herein, *Provided*, That, it shall charge the fares currently provided in the tariffs of United Air Lines, Inc.; and

3. The Board reserves the right to revoke or modify the authority conferred by this order as circumstances may warrant.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-34596 Filed 12-22-75;8:45 am]

[Dockets 21779, 24391, 26213, 26250, 27196, 27217, 27293, 27605, 28655]

SEATTLE GATEWAY-JAPAN SERVICE INVESTIGATION

Institution

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of December, 1975.

Seattle Gateway-Japan Service Investigation; application of Braniff, Continental, Pan American, United, Western for amendments to certificates of public convenience and necessity; petition of Dallas/Fort Worth, Las Vegas, New Orleans, St. Louis, and the Washington Parties for institution of an investigation; petition of Portland, Oregon for institution of an investigation.

A number of applications seeking the institution of a new transpacific combination passenger and cargo investigation are presently pending before the Board.[1]

We have considered these applications and have decided to institute an investigation, to be referred to as the Seattle Gateway-Japan Service Investigation, to determine whether additional U.S.-flag service should be authorized between the coterminal point Seattle, Washington, and points in Japan.

In determining the scope of this investigation, we have been persuaded by the fact that the petitions requesting an immediate transpacific proceeding focus primarily upon Seattle, on the one hand, as the U.S. gateway point for transpacific service, and upon Japan, on the other hand. Because of its traffic flow potential and geographic location, Seattle is a logical city for consideration of additional Japan authority. It is ideally situated to garner the traffic necessary to support such service and it can easily serve as a focal point for flowing transpacific traffic generated from interior points. Indeed, in the Transpacific Route Investigation, the Board specifically found that competitive authority on an Orient route from the Pacific Northwest is "clearly required and sustainable."[2]

By instituting this investigation we do not intend to predetermine the question of whether the new authority to be considered in the scope of this proceeding is in fact presently required. In the past, it has sometimes been assumed that the initiation of a service investigation by the Board was tantamount to a decision that the authority in issue was to be awarded and that the principal question to be decided by the hearing process was that of carrier selection. No such conclusion should be drawn from the Board's action today.

Although the institution of this investigation is not intended to imply any prejudgment of the need for additional service between the United States and Japan, or any predetermination that such service as may be found to be required would be provided by a U.S. carrier not presently designated by the United States Government to serve Japan, this case does nonetheless raise issues similar to those that concerned the President in the Service to Saipan Case, Docket 24421.

As a result of the President's communication to the Board in that case, we reopened the record for a consideration of information to be provided by the Departments of Transportation and State on economic issues and foreign policy concerns.[3] We propose to solicit the views of those Departments on these issues in the instant case as well.

As the Board has previously noted, it is of vital importance that federal agencies and Department of the Executive Branch participate in Board cases where their views and expertise are relevant to the issues. The Board discussed this question in the Pacific Islands Local Service Case:

> "If the Board is to make the best possible decision—and, from the President's viewpoint, decisions he can sustain—it must have the best possible record on which to decide. In many cases such a record can only be assured by the participation of Federal Agencies which have information and viewpoints not available to or expressed by the private parties appearing before the Board. Agency participation is also a matter of fairness to the parties whose economic interests are at stake, since it would provide the only practical and proper forum for testing those agency allegations which might be of decisional significance by presentation of further information, opposing views, and arguments, and by appropriate cross-examintaion . . . Order 71-7-170, pp. 5-6.

Accordingly we will accord the Departments of Transportation and State full party status in this proceeding and urge them to participate.

We will not consider additional U.S. points for coterminal status since the traffic-generating capability and geographic location of those other cities seeking coterminal status render it unlikely that new nonstop service to Japan would be viable from these points.[4]

In fact, the pleadings in Dockets 27217 and 26250 indicate that any new service from interior U.S. points will likely flow over Seattle or other existing transpacific gateways. If a new carrier is authorized to provide Seattle-Japan service, it will be free to tack such authority onto its existing system and provide single-plane service opportunities to interrior U.S. points. Thus, even though coterminal stauts for interior U.S. points will not be considered, the issues in this case will allow all interested carrier and civic parties ample opportunity to present evidence demonstrating the need for single-plane service to the Orient from interior U.S. cities by means of tacking a Seattle-Japan route onto the route system of any applicant carrier.

In view of the small amounts of traffic between the United States and points beyond Japan we do not believe that the case should be expanded to include any points beyond Japan.[5]

We have determined that the proceeding instituted herein is by its very nature not one which could lead to a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(c) of the National Environmental Policy Act of 1969 (NEPA). In a case such as the instant one all prospective environmental effects, direct and secondary, proceed in the first instance from changes in aircraft schedules and levels of service.

Our conclusion in regard to the environment is largely based, therefore, upon our finding that no environmentally significant changes in such schedules and service levels are likely should new service be authorized. In view of the size of the markets[6] and the present level of existing service,[7] it is doubtful that there will be a significant increase in total frequencies by any candidate for the instant authority. This fact also must be placed in the context of the large overall level of traffic at the Seattle/Tacoma Airport. Seattle ranked twenty-first among U.S. airports in air carrier passenger enplanements for fiscal year 1972. In 1973 there were 153,000 aircraft operations at Seattle-Tacoma International Airport, with 171,000 projected for 1975 and 181,000 for 1976.[8]

Accordingly, we are not directing our staff to undertake the preparation of an environmental assessment. Our conclusion herein is not intended to foreclose any party from presenting evidence (subject to the usual evidentiary rules in force in C.A.B. proceedings) or from making arguments with respect to relevant environmental issues. Nor is our conclusion intended to foreclose our consideration of environmental impacts resulting from the contemplated licensing action which, although of a lesser magnitude than those required to trigger the NEPA procedures, might nonetheless be relevant to our decision.[9]

---

[1] Appendix A sets forth a list of all pending applications and petitions. Requests for expedition under sec. 399.60 of the Board's Policy Statements were requested by Portland in Docket 27196; the Washington Parties in Docket 27217, United in Docket 21779, and Las Vegas in Docket 27217. Northwest attached a motion to its answer to Portland's motion requesting the Board to withhold certain international O&D data from public disclosure. We will deny Northwest's motion. We find that the data with respect to the U.S.-Japan market are material and relevant to this proceeding. Accordingly, pursuant to section 399.100 of the Board's Policy Statements such data shall be disclosed.

[2] Order 68-12-105 (December 18, 1968) at page 18. The Board authorization of additional competitive authority in this market on economic grounds was disallowed by the Executive for foreign policy reasons (Orders 69-4-90 and 69-5-121).

[3] Order 75-11-59 (November 17, 1975).

[4] While Portland is similar to Seattle in terms of geographic location as a gateway, its traffic-generating potential vis-a-vis Seattle is not as great. In 1974 Seattle generated 2.9 million enplaned passengers, while Portland generated 1.5 million enplaned passengers. Seattle's metropolitan area population was 1,394.5 million in 1974 compared to Portland's population of 1,080.5 million. In addition there are substantially more air services at Seattle than at Portland (49,587 scheduled departures at Seattle compared to 37,234 departures at Portland). Moreover, because of Portland's close proximity to the existing Seattle gateway, new gateway status for Portland is no more desirable—and, due to the lower level of service, may be less desirable—for interior U.S. pasengers than Seattle.

[5] We note that several appplications seek authority to serve the People's Republic of China. In view of the unique circumstances involved, we do not believe it appropriate to expand the issues in this case to include consideration of service to the People's Republic of China.

[6] The number of O&D passengers on U.S. carriers between Seattle and Tokyo was 14,570 in calendar 1974. In addition, 41,490 passengers from interior U.S. points to Japan flowed over Seattle.

[7] Northwest provides one daily round trip between Seattle and Japan.

[8] *Terminal Area Forecast*, 1975-1985, Department of Transportation FAA, Office of Aviation Economics, Aviation Forecast Division, July 1973, page NW 16. (The forecasts in this study were prepared before the energy crisis in the fall of 1973 and therefore do not reflect its impact on future activity levels).

[9] By its terms, the provisions of the newly enacted Procedural Regulation regarding environmental matters do not apply to "proceedings . . . in which an application has been docketed." Section 312.4(e). Accordingly, this proceeding shall be governed, unless the Board orders otherwise, by the procedures set forth in the former section 399.110 of the Board's Policy Statements.

Accordingly, it is ordered that:

1. A proceeding, to be known as the Seattle Gateway-Japan Service Investigation, Docket 28655, be and it hereby is instituted and shall be set down for hearing before an Administrative Law Judge of the Board at a time and place hereafter designated, as the orderly administration of the Board's docket permits;

2. The proceeding instituted in paragraph 1, above, shall include consideration of whether the public convenience and necessity require, and should the Board authorize, the certification of an air carrier or air carriers to engage in competitive foreign air transportation between the coterminal point Seattle, Washington, and points in Japan and if so, which air carrier(s) should be authorized to engage in such service and what terms, conditions, and limitations, if any, should be placed on the authorizations of such carrier(s);

3. The Departments of Transportation and State are hereby accorded status as parties to this proceeding;

4. Applications, motions to consolidate, and petitions for reconsideration of this order shall be filed within 30 days of this order and answers thereto shall be filed within 15 days thereafter;

5. To the extent not granted herein the petitions for an investigation in Dockets 27217, and 27196 and all motions in Dockets 27217, and 21779 (other than petitions to intervene) be and they hereby are denied;

6. The motion of Northwest to withhold from public disclosure be and it hereby is denied; and

7. A copy of this order shall be served upon persons filing in the captioned dockets and the following: the Departments of State, Interior, Transportation, Commerce, Housing and Urban Development; the National Aeronautics and Space Administration; the Federal Aviation Administration; the General Services Administration; and the Environmental Protection Agency.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX A.—*Pending transpacific applications for combination passenger/cargo authority*

Docket	Applicant	Authority
21896	American Airlines	Between the United States and the People's Republic of China.
26570	Braniff Airways	Between the U.S. coterminals Houston, Dallas/Fort Worth, Seattle/Tacoma, Portland, on the one hand, and Japan, on the other hand.
27293	Continental Air Lines	Between the coterminals Seattle/Tacoma, Portland, Denver, Houston, Dallas/Fort Worth, and New Orleans, on the one hand, and Tokyo and Osaka, Japan, on the other hand.
27217	Dallas/Fort Worth, Las Vegas, New Orleans, St. Louis, and Washington parties.	Petition for new or improved air service between points in the United States and Japan.
5168	Northwest	Renewal of authority to serve the People's Republic of China.
24391	Pan American	Between the People's Republic of China, on the one hand, and Fairbanks, New York, San Francisco, and Los Angeles, on the other hand.
26212	do	Inclusion of Portland and Seattle/Tacoma as coterminals on route 130 and elimination of condition 8 on route 130.
5710	do	Renewal of authority to serve the People's Republic of China.
27196	Portland, Oreg	Petition for new U.S.-flag air service between Portland, on the one hand, and Japan, Korea, and the People's Republic of China, on the other hand.
5065	TWA	Renewal of authority to serve the People's Republic of China.
21779	United Air Lines	Between the terminal Seattle/Tacoma, on the one hand, and Tokyo, Japan, and the People's Republic of China, on the other hand.
27605	Western Air Lines	Between the coterminals Los Angeles, San Francisco, Seattle/Tacoma, Anchorage, and Fairbanks, on the one hand, and Japan, Hong Kong, the People's Republic of China, Manila, Bangkok, and Singapore, on the other hand.

COMMISSION ON CIVIL RIGHTS

CALIFORNIA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the California Advisory Committee (SAC) to this Commission will convene at 6:30 p.m. and end at 9:30 p.m. on February 6, 1976, at the Airport Hilton, Vintage Room 6 and 7, San Francisco, California.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Western Regional Office of the Commission, Room 1015, 312 North Spring Street, Los Angeles, California 90012.

The purpose of this meeting will be a business and planning meeting of the California Advisory Committee.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 16, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.75-34572 Filed 12-22-75;8:45 am]

COLORADO ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Colorado Advisory Committee (CAC) to this Commission will convene at 9:00 a.m. and end at 12:00 noon on January 10, 1976, at the Quality Inn Motel, 1840 Sherman Street, Denver, Colorado 80203.

V 40 247 DEC 23 75 XUM

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Mountain States Regional Office of the Commission, Room 216, 1726 Champa Street, Denver, Colorado 80202.

The purpose of this meeting is to discuss plans for Committee involvement in the Commissions investigation of desegregation in public schools.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., December 16, 1975.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS FROM EL SALVADOR

Withdrawing Proposed Restraint

DECEMBER 19, 1975.

On July 31, 1975, the United States Government, in furtherance of the objectives of, and under the terms of, the Arrangement Regarding International Trade in Textiles, done at Geneva on December 20, 1973, requested the Government of El Salvador to enter into consultations concerning exports to the United States of man-made fiber textile products in Categories 224 (only women's, girls', and infants' knit coats) and 229 (woven coats), produced or manufactured in El Salvador. Public notice of this request was published in the FEDERAL REGISTER on August 11, 1975 (40 F.R. 33702) and public comment and/or submission of additional information was invited by September 10, 1975.

Because of the levels of trade in the foregoing categories have declined in recent months, the United States Government has notified the Government of El Salvador that it will not implement the proposed restraints at this time. However, the United States Government reserves the right to keep this trade under constant surveillance and to take appropriate action under the pertinent articles of the Arrangement should exports of textile products in Categories 224 (pt) and 229, or other categories, produced or manufactured in El Salvador, increase in volume so as to cause, or threaten to cause, disruption of the U.S. market.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance U.S. Department of Commerce.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 472-4; OPP-42006]

STATE OF WEST VIRGINIA

Submission of State Plan for Certification of Pesticide Applicators

In accordance with the provisions of Section 4(a)(2), of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136) and 40 CFR Part 171 [39 FR 36446 (October 9, 1974) and 40 FR 11698 (March 12, 1975)], the Honorable Arch A. Moore, Jr., Governor of the State of West Virginia, has submitted a State Plan for certification of Commercial and Private Applicators of Restricted Use Pesticides to the Environmental Protection Agency (EPA) for approval on a contingency basis, pending promulgation of implementing regulations. A copy of the proposed regulations is attached to the plan.

Notice is hereby given of the intention of the Regional Administrator, EPA Region III, to approve this plan on a contingency basis.

A summary of this plan follows: The plan, together with all attached appendices, except for examination questions, may be examined during normal business hours at the following locations:

West Virginia Department of Agriculture, Room E-121, Capitol Building, Charleston, West Virginia 25305, Phone: 304/348-2203.
U.S. Environmental Protection Agency, Region III, Air & Hazardous Materials Division—Pesticides Branch, 6th & Walnut Streets, Room 3323, Philadelphia, Pennsylvania 19106, Phone: 215/597-9869.
Room 401, East Tower, Waterside Mall, 401 "M" Street SW., Washington, D.C. 20460. [Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Phone: 202/755-4854].

SUMMARY OF WEST VIRGINIA STATE PLAN

The West Virginia Department of Agriculture has been designated as the State Lead Agency solely responsible for the administration and enforcement of the pesticide applicator certification program. The Plant Pest Control Division, West Virginia Department of Agriculture, is responsible for the program's implementation and enforcement, with the exception of dealer licensing, dealer certification and pesticide registrations. The Consumer Protection Division of the West Virginia Department of Agriculture is responsible for dealer licensing, certification, and pesticides registrations.

Cooperating agencies are the West Virginia Cooperative Extension Service and the West Virginia Presticide Advisory Board. The Cooperative Extension Service is responsible for conducting certification training courses, and selection of distribution of Core training materials. The Pesticide Advisory Board will advise the Commissioner of Agriculture on problems relating to the use and application of pesticides.

Legal authority for the program is contained in the following sections of Chapter 19, Article 16B, of the Code of West Virginia of 1931, as amended, the West Virginia Pesticide Use and Application Act fo 1975, Sections 2, 4(a), 6(b), 7, 14, 17, 21, 22, 24, and the Regulations soon to be promulgated under the Act.

The plan indicates that the State Lead Agency and cooperating agencies have sufficient qualified personnel and funds necessary to carry out the proposed programs. The funding in support of this program for the fiscal year 1976 is $63,000.

The States estimates that 2,048 commercial applicators and 28,984 private applicators will need to be certified. Wallet size identification certificates containing all necessary information will be furnished to all applicators, to present to the dealer at the time of restricted use pesticide purchase.

The State Lead Agency will submit an annual report to EPA on or before March 1 of each year, and special reports as required.

The commercial applicator categories proposed are those which are listed in 40 CFR 171.3. No new categories are proposed. New subcategories proposed are as follows:

(1) Agricultural Plant Pest Control: (a-1) Agricultural Plant Pest Control Aerial Applicator.
(2) Forest Pest Control: (a) Aerial Forest Pest Control.
(3) Ornamental and Turf Pest Control: (a) Aerial Ornamental and Turf Pest Control.
(5) Aquatic Pest Control: (a) Aerial Aquatic Pest Control.
(6) Right of Way Pest Control: (a) Aerial Right of West Pest Control.
(7) Industrial, Institutional, Structural and Health Related Pest Control:
(a) General Pest Control.
(b) Structural Pest Control.
(c) Fumigation Pest Control.
(8) Demonstration and Research Pest Control.
(a) Demonstration Pest Control.
(b) Research Pest Control.

V40247 DEC 23 75 DUM

The State of West Virginia identifies three classes of commercial applicators, which are defined in section 19–16B–3 of their Act. They are: Commercial Applicator, Licensed Applicator (one who owns or manages a pesticide application business), and Licensed Public Operator (a government employee).

All three classes of Commercial Applicators will be certified by means of written examinations, one covering the general or "core" material and the other(s) covering specific requirement of the category(s) or subcategory(s). The primary method of training for certification in West Virginia will be that of home study, with the West Virginia Cooperative Extension Service supplying all Applicators with the Northeast Regional Pesticide Applicators Training Manual (core material) plus supplementary educational material. For those applicators desiring face-to-face training, Extension Agents and Specialists will be available to schedule training meetings. All training materials and courses will comply with the competency standards outlined in 40 CFR 171.4 and 40 CFR 171.6.

Private Applicators will become certified after demonstrating competency by means of a voluntary written examination or an oral examination. The Northeast Regional Pesticide Applicators Training Manual will be used as the core material, utilizing home study as the primary training mechanism. Supplements to the Core Manual will be made available as considered necessary by the Extension Service and Department of Agriculture. Face-to-face training meetings will also be conducted by Extension Agents for those who require this method of training. Private applicator certification requirements comply with competency standards outlined in 40 CFR 171.5 and 40 CFR 171.6.

In any case, where a person at the time of testing for certification as a private applicator is unable to read a label, the Commissioner may employ a testing procedure, previously approved by the Administrator of EPA, which can adequately assess the competence of such person. Certification must be related and limited to the use and handling of each individual pesticide for which he desires certification at anytime. Therefore, the applicator will be authorized to use only the pesticide(s) for which he has demonstrated competence.

Sample examination questions are attached to the plan as provided for by 40 CFR 171.7(e)(1)(i)(D).

When an employee of any agency of the Federal Government has been qualified in any category as competent to apply restricted use pesticides under the Government Agency Plan (GAP) or under other plans judged by the Commissioner to be at least equal to the West Virginia Plan, such employees will be certified by the Commissioner in the same category or categories without the need for a written examination nor for the payment of any fee.

A commercial applicator who is certified in another state, and who desires Commercial or Licensed Commercial Applicator certification in West Virginia, can apply to the Commissioner for West Virginia credentials by submitting a true copy of his credentials from the other state, along with the proper fee and other details required by the Act. If the Commissioner approves the credentials, West Virginia certification will be issued in the category(s) for which he is certified in another state without a written examination, provided that the state having certified the applicator will similarly certify holders of West Virginia certificates.

When a private applicator is certified in another state and owns, leases, or manages land in West Virginia on which restricted use pesticides are needed, the Commissioner will issue a West Virginia private applicator certification on receipt of a properly completed application, proper fee and a true copy of the applicant's out-of-state certification.

After reciprocity agreements between West Virginia and other states have been negotiated, copies will be made available to the Administrator of the Environmental Protection Agency for inclusion in the State Plan.

Other regulatory activities listed in the State Plan which will supplement the West Virginia certification program are State registration, inspection, sampling of pesticide products, and a permit system to allow applicators to apply restricted use pesticides in an emergency situation. Under the proposed regulations, all dealers handling restricted use pesticides will be licensed and records will be subject to inspection by the West Virginia Department of Agriculture.

Certification of all applicators will be renewed on January 1 of each year, and re-examination will not be repeated before a three year period has elapsed unless an applicator does not file to renew his certification by March 1 (as provided for in Code 19–16B–12). Furthermore, Code 19–16B–8(d) and Code 19–16B–10(c) provide for a certificate indicating attendance of a workshop or training session approved by the Commissioner to be acceptable for re-certification after the initial three year period.

Enforcement of the West Virginia certification program will be carried out by inspectors who will spot check commercial and private applicators to insure that they comply with State and Federal laws and regulations. They will perform regular inspections and follow-up reports of suspected violations.

PUBLIC COMMENTS

Interested persons are invited to submit written comments on the proposed State Plan for the State of West Virginia to the Chief, Pesticides Branch, Region III, Environmental Protection Agency, 6th & Walnut Streets, Room 3323, Philadelphia, Pennsylvania 19106. The comments must be received on or before January 22, 1976, and should bear the identifying notation OPP–42006. All written comments filed pursuant to this notice will be available for public inspection at the above mentioned locations from 8:30 a.m. to 3:30 p.m. Monday through Friday.

Dated: November 14, 1975.

A. R. MORRIS,
Deputy Regional Administrator, Region III.

FEDERAL RESERVE SYSTEM

BANKS OF IOWA, INC.

Acquisition of Bank

Banks of Iowa, Inc., Cedar Rapids, Iowa, has applied for the Board's approval under Section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 94.8 percent or more of the voting shares of the First National Bank in Sioux City, Sioux City, Iowa. The factors that are considered in acting on the application are set forth in Section 3(c) of the Act (12 U.S.C. 1842(c)).

Banks of Iowa, Inc. is also engaged in the nonbank activity of performing data processing services. In addition to the factors considered under Section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activity and the provisions and prohibitions in Section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 13, 1976.

Board of Governors of the Federal Reserve System, December 12, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75–34603 Filed 12–22–75;8:45 am]

MORRILL & JANES BANCSHARES, INC.

Formation of Bank Holding Company

Morrill & Janes Bancshares, Inc., Hiawatha, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of The Morrill and Janes Bank and Trust Company, Hiawatha, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than January 8, 1976.

Board of Governors of the Federal Reserve System, December 12, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75–34604 Filed 12–22–75;8:45 am]

SOUTHERN BANCORP., INC.

Order Approving Acquisition of Nonbank Assets

Southern Bancorporation, Inc. (Applicant), Greenville, South Carolina, a bank holding company within the meaning of the Bank Holding Company Act (Act), has applied for the approval of the Board of Governors of the Federal Reserve System under Section 4(c)(8) of the Act and Section 225.4(b)(2) of the Board's Regulation Y, of its proposed acquisition of all of the assets of F. & I. Finance Company, Inc. (Company), Tyler, Texas, indirectly through World Finance Corporation of Texas, a wholly owned subsidiary of Applicant's direct subsidiary, World Acceptance Corporation (World), Greenville, South Carolina.

Company is engaged in the activity of making installment loans to individuals pursuant to a "B" Consumer Finance License issued under the laws of Texas. A "B" Consumer Finance License restricts Company's operations to direct cash loans of $100 or less. Such activity has been determined by the Board of Governors to be closely related to banking (12 CFR 225.4(a)(1)).

Applicant has caused appropriate notice of its proposal to be published in a newspaper of general circulation in the area to be served and the Board of Governors has duly published in the FEDERAL REGISTER a notice of the application affording opportunity for interested persons to submit comments and views on the public interests factors. The time for filing comments and views has expired and the Reserve Bank has considered the application and all comments received in light of the public interests factors set forth in Section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant is the fifth largest banking organization in South Carolina through its control of Southern Bank and Trust Company, Greenville, South Carolina. As of June 30, 1975, Applicant's banking subsidiary had deposits of approximately $265.2 million, which represented 6.7 percent of the total bank deposits in the state as of that date.

Company is a consumer finance company operating out of an office in Tyler, Texas, and has total assets of approximately $57,000 (as of April 30, 1975). Company's relevant geographic market is approximated by an area within a 10-mile radius of Tyler, within which 93 percent of Company's active accounts are derived. Applicant's nonbanking subsidiary, World, makes direct installment loans to individuals through 51 branch offices located in South Carolina, Georgia, and Texas. Of the 16 branch offices of World that operate in Texas, the branch office nearest to Tyler is located in Longview, approximately 30 miles away. None of World's loans originate in Company's market area. Therefore, consummation of the proposed acquisition would not result in the elimination of any existing competition between Applicant and Company. In addition, potential competition would not be significantly affected by approval of the proposed acquisition since it appears unlikely that Applicant would enter the relevant market on a de novo basis.

Applicant's greater financial resources should provide Company with a more ready access to funds and thereby permit it to offer explanded services to its customers. Furthermore, Company's competitive strength in its market would be increased so that it may be a more effective competitor. There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based on the foregoing and other considerations reflected in the record, the Reserve Bank has determined, in accordance with the provisions of section 4(c)(8) of the Act, that consummation of the proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved by the Reserve Bank under § 265.2(f)(31) of the Board's Rules Regarding Delegation of Authority. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y (12 CFR 225.4(c)) and to the authority of the Board of Governors to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board may find necessary to assure compliance with the provisions and purpose of the Act and the Board's regulations or orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this order under such period is extended for good cause by the Board or by the Federal Reserve Bank of Richmond.

By order of the Federal Reserve Bank of Richmond acting pursuant to authority delegated by the Board of Governors of the Federal Reserve System, effective December 15, 1975.

ROBERT P. BLACK,
President.

INTERNATIONAL TRADE COMMISSION

[332–77]

CONDITIONS OF COMPETITION BETWEEN DOMESTIC AND IMPORTED SHRIMP

Notice of Termination of Investigation

Notice is hereby given that the United States International Trade Commission, on December 11, 1975, terminated investigation No. 332–77 relating to conditions of competition between domestic and imported shrimp instituted by the Commission on its own motion on August 8, 1975, under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)). The termination is made by reason of the Commission's institution of an investigation under section 201(b)(1) of the Trade Act of 1974 (88 Stat. 1978) with respect to the same articles, viz., shrimp, fresh, chilled, frozen, prepared, or preserved (including pastes and sauces) provided for in item 114.45 of the Tariff Schedules of the United States, following receipt by the Commission of a petition of the National Shrimp Congress for import relief. The report to be issued in connection with the section 201 investigation (Investigation No. TA–201–12, Shrimp) will contain at least as much data as would be included in a section 332 investigation report, and the information collected during the course of the section 332 investigation (Investigation No. 332–77) will be used in the section 201 report.

Notice of institution of the section 332 investigation and of hearings held in connection therewith was published in the FEDERAL REGISTER on September 9, 1975 (40 FR 41857).

By order of the Commission.

Issued: December 18, 1975.

[SEAL] KENNETH R. MASON,
Secretary.

[TA–201–12]

SHRIMP

Notice of Investigation and Hearing

Investigation instituted. Following receipt of a petition on November 17, 1975, filed by the National Shrimp Congress, the United States International Trade Commission, on December 11, 1975, instituted an investigation under section 201(b) of the Trade Act of 1974 to determine whether shrimp, fresh, chilled, frozen, prepared, or preserved (including pastes and sauces), provided for in item 114.45 of the Tariff Schedules of the United States, is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

Public hearings ordered. Public hearings in connection with this investigation will be held in Brownsville, Texas, beginning on January 27, 1976, at a time and place to be announced; and in Savannah, Georgia, beginning on February 3, 1976, at a time and place to be an-

V 40247 DEC 23 75 XUM

nounced. Requests for appearances at any of the hearings should be received in writing by the Secretary of the Commission at his offices in Washington not later than noon of the fifth calendar day preceding the hearing for which appearance is requested

Inspection of petition. The petition filed in this case is available for public inspection at the Office of the Secretary, United States International Trade Commission, and at the New York City office of the United States International Trade Commission located at 6 World Trade Center.

By order of the Commission:

Issued: December 18, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL CAPITAL PLANNING COMMISSION

CHAIRMAN OF THE COMMISSION, ET AL.

Delegations of Authority

The National Capital Planning Commission, at its December 4, 1975 meeting, adopted the following delegations of authority:

I. DEFINITIONS

The following terms, which are *italicized* wherever they appear herein, shall have the following meanings, unless a different meaning clearly appears from the context:

"Agency" means the District of Columbia Redevelopment Land Agency established by the *Redevelopment Act*.

"Commission" means the National Capital Planning Commission created by the *Planning Act*.

"Comprehensive Plan" means the Comprehensive Plan for the National Capital prepared and adopted pursuant to the *Planning Act*.

"Council" means the Council of the District of Columbia as defined in Section 103 of the *Home Rule Act*.

"environs" means the territory surrounding the District of Columbia within the National Capital Region as defined in Section 1(b) of the *Planning Act*.

"Executive Director" means the Director employed by the *Commission* pursuant to Section 2(c) of the *Planning Act*.

"Home Rule Act" means the District of Columbia Self-Government and Governmental Reorganization Act (December 24, 1973, 87 Stat. 774).

"Mayor" means the Mayor of the District of Columbia as defined in Section 103 of the *Home Rule Act*.

"Planning Act" means the National Capital Planning Act of 1952, as amended (40 U.S.C. 71–71i, 72, 73, 74; D.C. Code, secs. 1–1001 to 1–1013).

"Redevelopment Act" means the District of Columbia Redevelopment Act of 1945, as amended (D.C. Code, secs. 5–701 to 5–719).

"Zoning Act" means the Act of June 20, 1938, 52 Stat. 797, as amended (D.C. Code, secs. 5–413 to 5–428).

"Zoning Commission" means the Zoning Commission created by Section 1 of the Act of March 1, 1920, 41 Stat. 500, as amended (D.C. Code, sec. 5–412).

"Zoning Regulations" means the regulations, including the maps, and amendments thereto, promulgated by the *Zoning Commission*, pursuant to the Zoning Act.

II. DELEGATIONS TO CHAIRMAN

The *Commission* delegates to the Chairman of the *Commission* the functions of:

1. Requesting the *Council* to grant, pursuant to Section 2.(a)(4)(E) of the *Planning Act*, an extension of any time limitation contained in Section 2. of the *Planning Act;*

2. Employing an *Executive Director* and a *Secretary* to the *Commission* pursuant to Section 2.(c) of the *Planning Act;*

3. Requesting the *Zoning Commission* to recess a public hearing on a proposed amendment to the *Zoning Regulations* to provide an opportunity for the *Commission* to present a further report to the *Zoning Commission*, pursuant to Section 8.(b) of the *Planning Act;*

4. Executing agreements with state officials as to the arrangements for acquisition by the *Commission* of lands in Maryland and Virginia for the National Capital park, parkway, and playground system pursuant to Section 11. of the *Planning Act;*

5. Executing agreements with state officials as to the control lands acquired in Maryland and Virginia, pursuant to Section 12. of the *Planning Act;*

6. Reporting annually to Congress the lands acquired during the preceding fiscal year, pursuant to Section 13. of the *Planning Act;*

7. Submitting to the Office of Management and Budget on or before September 15 of each year an estimate of the appropriations for land acquisition for the succeeding fiscal year, pursuant to Section 13. of the *Planning Act;*

8. Making favorable recommendations to the *Council* on proposed closings of streets, roads, highways, and alleys, or parts thereof, pursuant to Section 1 of the Street Readjustment Act of the District of Columbia (December 15, 1932, 47 Stat. 747, as amended; D.C. Code, sec. 7–401), where such proposed closings conform to master plans or site and building plans approved by the *Commission* pursuant to Section 5.(a) of the *Planning Act* or to urban renewal plans, and modifications thereof, adopted by the *Commission* and approved by the *Council* pursuant to Sections 6 and 12 of the *Redevelopment Act;*

9. Approving transfers of jurisdiction over properties within the District of Columbia owned by the United States or the District among or between Federal and District authorities, pursuant to Section 1 of the Act of May 20, 1932, 47 Stat. 161, as amended (40 U.S.C. 122; D.C. Code, sec. 8–115), where such transfers of jurisdiction conform to master plans or site and building plans approved by the *Commission* pursuant to Section 5.(a) of the *Planning Act* or to urban renewal plans, and modifications thereof, adopted by the *Commission* and approved by the *Council* pursuant to Sections 6 and 12 of the Redevelopment Act; and

10. Approving leasing, for terms not exceeding five years, by the Administrator of General Services of land acquired for park, parkway, or playground purposes pending their need for public uses, pursuant to Section 2 of the Act of December 22, 1928, 45 Stat. 1070 (40 U.S.C. 72b; D.C. Code, sec. 8–105).

III. DELEGATIONS TO EXECUTIVE DIRECTOR

The *Commission* delegates to the *Executive Director* the functions of:

1. Establishing, jointly with the *Mayor*, procedures for appropriate meaningful continuing consultation throughout the planning process for the National Capital pursuant to Section 2.(a)(4)(F) of the *Planning Act;*

2. Employing technical and administrative personnel, except a Secretary to the *Commission*, and, by contract or otherwise, the temporary or intermittent services of experts and fixing the rate of compensation therefor pursuant to Section 2.(c) of the *Planning Act;*

3. Establishing the representation of agencies of the Federal and District of Columbia Governments on, and invite representatives of the planning and developmental agencies of the environs to participate in the work of, the Coordinating Committee established by resolution of the *Commission* adopted August 8, 1952, pursuant to Section 2.(d) of the *Planning Act;*

4. Determining appropriate Federal and District of Columbia authorities to whom Federal elements of the *Comprehensive Plan*, or amendments thereto, shall be presented for comment and recommendations prior to adoption thereof, pursuant to Section 4.(e) of the *Planning Act;*

5. With respect to plans and programs submitted to the *Commission* pursuant to Section 5.(a) of the *Planning Act* for projects in the *environs* on reservations or sites for which the *Commission* has submitted to the agency its report and recommendations on the master plan therefor, making environmental impact findings on and approving:

(1) Preliminary and final site and building plans for proposed temporary or permanent additions of less than 10,000 square feet of floor area to existing structures and for proposed new temporary or permanent structures of less than 10,000 square feet of floor area, if the *Executive Director* determines that (a) the proposed development (I) is consistent with the recommendations of the *Commission* on the land use and circulation plan elements of the master plan, (ii) will have no significant adverse impact on the environment, access and egress facilities, and utilities, and (iii) is compatible with existing and proposed developments in its immediate vicinity, and (b) the addition or relocation of employees to the proposed development would not cause a significant impact on low- and/or moderate-income housing needs in the vicinity of the development; and

(2) Final site and building plans where such plans conform to applicable recommendations made by the *Commission* in its review of the preliminary site and building plans for the project and of any environmental statement or description of the environmental impact submitted pursuant to the *Commission's* Policies and Procedures for the Protection and Enhancement of Environmental Quality in the National Capital Region.

6. Advising and consulting with appropriate planning agencies having jurisdiction over the affected part of the *environs* with respect to general plans for proposed Federal and District developments and projects within the *environs* and with respect to plans for proposed developments or projects submitted pursuant to Section 5.(a) of the *Planning Act* involving a major change in the character or intensity of an existing use in the *environs*, pursuant to Section 5.(d) of the *Planning Act;*

7. Requesting Federal and District governmental agencies to furnish plans, data, and records necessary to the *Commission* and furnish related plans, data, and records to Federal and District of Columbia governmental agencies upon request, pursuant to Section 5.(e) of the *Planning Act;*

8. Conferring with Federal and District authorities and the *Agency* in the *preparation* of the general plan under Section 6.(a) of the *Redevelopment Act* and with respect to urban renewal planning under Section 6.(b) of the *Redevelopment Act*, pursuant to Section 6.(c) of the *Redevelopment Act;* and

9. Aiding the *Mayor* in making a survey of the "Old Georgetown" area pursuant to Section 4 of the Act of September 22, 1950, 64 Stat. 904 (D.C. Code, sec. 5–804).

IV. DELEGATIONS TO SECRETARY

The *Commission* delegates to the Secretary to the *Commission* the functions of:

1. Publishing, jointly with the *Mayor*, from time to time as appropriate, the Comprehensive Plan pursuant to Section 2.(a)(4)(D) of the *Planning Act;* and

2. Certifying to the *Agency* urban renewal plans adopted by the *Commission* and approved by the *Council* under Section 6.(b)(2) of the *Redevelopment Act*, pursuant to Section 6.(d) of the *Redevelopment Act.*

V. REPORTS TO COMMISSION

The Chairman of the *Commission*, the *Executive Director*, or the Secretary to the *Commission* shall report the exercise of any delegation of authority pursuant to Parts II, III, or IV, respectively, to the *Commission* at its meeting next following the exercise of such delegation.

VI. RESERVATIONS OF FUNCTIONS

The *Commission*, by majority vote at any meeting of the *Commission* and prior to the exercise of any delegation of authority pursuant to Parts II, III, or IV, may reserve to the *Commission* the performance, in general or with respect to a particular matter, of the function as to which such delegation is granted.

DANIEL H. SHEAR,
Secretary.

DECEMBER 11, 1975.

[FR Doc.75-34590 Filed 12-22-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-324]

CAROLINA POWER & LIGHT CO.

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-62 issued to Carolina Power & Light Company (the licensee) for operation of the Brunswick Steam Electric Plant, Unit No. 2 (the facility) located in Brunswick County, North Carolina.

This amendment would revise the Technical Specifications to add requirements that would limit the period of time operation can be continued with immovable control rods that could have control rod mechanism collet housing failures.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By January 22, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of this amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Richard E. Jones, Esq., Carolina Power & Light Company, 336 Fayetteville Street, Raleigh, North Carolina 27602, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposion of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the Commission's letter to the licensee dated September 23, 1975, and the attached proposed Technical Specifications and Safety Evaluation by the Commission's staff and the licensee's letter dated October 13, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Southport-Brunswick County Library, 109 W. Moore Street, Southport, North Carolina 28461. The license amendment and Safety Evaluation may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 15th day of December 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[FR Doc.75-34317 Filed 12-23-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; WORKING GROUP ON ANTICIPATED TRANSIENTS WITHOUT SCRAM

Meeting

In accordance with the purposes of Section 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2233b.), the ACRS Working Group on Anticipated Transients Without Scram (ATWS) will hold a meeting on January 7, 1976, in Washington, D.C. The purpose of this meeting is to continue the review of certain proposed reactor design changes

V 40247 DEC 23 75 XUM

for Class B plants. A Class B plant, as categorized in WASH-1270, "Technical Report on Anticipated Transients Without Scram for Water-Cooled Power Reactors," is a plant for which the application for a construction permit was docketed from early 1968 to October 1, 1976. The design changes are those which are required to make the consequence of an ATWS acceptable and to correct those portions of the reactor shutdown system found to be particularly vulnerable to common mode failure in the event of an ATWS.

The agenda for subject meeting shall be as follows:

Wednesday, January 7, 1976, 8:00 a.m. The Working Group will meet in closed Executive Session, with any of its consultants who may be present, to explore their preliminary opinions, based upon their independent review of safety reports, regarding matters which should be considered during the open session in order to formulate a Working Group report and recommendations to the full Committee.

8:30 a.m. until conclusion of business, the Working Group will meet in open session to hear presentations and hold discussions with representatives of the NRC Staff and vendors concerning design changes to their reactors.

At the conclusion of the open session, the Working Group will caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the project is ready for review by the full Committee. During the session Working Group members and consultants will discuss their final opinions and recommendations on these matters. Upon conclusion of this caucus, the Working Group may meet again in brief open session to announce its determination.

In addition to these closed deliberative sessions, it may be necessary for the Working Group to hold one or more closed sessions for the purpose of exploring with the NRC Staff and reactor vendors matters involving proprietary information, particularly with regard to specific features of the plant design and plans related to plant security.

I have determined, in accordance with Subsection 10(d) of Public Law 92-463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Working Group's deliberative process (5 U.S.C. 552(b)(5)) and to protect confidential proprietary or plant security information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Working Group is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing a readily reproducible copy to the Working Group at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than December 30, 1975 to Mr. T. G. McCreless, ACRS, NRC, Wash., D.C., 20555 will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room 1717 H St. NW., Washington, D.C. 20555.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Working Group will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Working Group.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on January 5, 1976 to the Office of the Executive Director of the Committee (telephone 202/634-1374, Attn: Mr. T. G. McCreless) between 8:15 a.m. and 5:00 p.m. e.s.t.

(d) Questions may be propounded only by members of the Working Group and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information, other than plant security information, may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. T. G. McCreless of the ACRS Office prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after January 13, 1976 at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555.

Copies of the minutes of the Meeting will be made available for inspection at the NRC Public Document Room, 1717 H St. NW., Washington, D.C. 20555 after April 6, 1975. Copies may be obtained upon payment of appropriate charges.

Date December 17, 1975.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[Docket No. 50-552]

GENERAL ELECTRIC CO. AND GENERAL ELECTRIC TECHNICAL SERVICES CO., INC.

Application for and Consideration of Issuance of Facility Export License

Please take notice that General Electric Company and General Electric Technical Services Company, Inc., San Jose, California, has submitted to the Nuclear Regulatory Commission an application for a license to authorize the export of two boiling water reactors each with a thermal power level of 2894 megawatts to Italy and that the issuance of such licence is under consideration by the Nuclear Regulatory Commission.

No license authorizing the proposed reactors export will be issued until the Nuclear Regulatory Commission determines that such export is within the scope of and consistent with the terms of an applicable agreement for cooperation arranged pursuant to Section 123 of the Atomic Energy Act of 1954, as amended (Act), nor until the Nuclear Regulatory Commission has found that:

(a) The application compiles with the requirements of the Act, and the Commission's regulations set forth in 10 CFR, Chapter 1, and

(b) The reactors proposed to be exported are utilization facilities as defined in said Act and regulations.

In its review of applications solely to authorize the export of production or utilization facilities, the Nuclear Regulatory Commission does not evaluate the health and safety characteristics of the facilities to be exported. Consequently, there are no safety analysis reports or Advisory Committee on Reactor Safeguards reports.

Unless on or before January 7, 1976, a request for a hearing is filed with the Nuclear Regulatory Commission by the applicant, or a petition for leave to intervene is filed by any person whose interest may be affected by the proceeding, the Director of the Office of Nuclear

Material Safety and Safeguards may, upon the determinations and findings noted above, cause to be issued to General Electric Company and General Electric Technical Services Company, Inc., a facility export license and may cause to be published in the FEDERAL REGISTER a notice of issuance of the license. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in the notice, the Nuclear Regulatory Commission will issue a notice of hearing or an appropriate order.

A copy of the application is on file in the Nuclear Regulatory Commission's Public Document Room located at 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Maryland, this 15th day of December, 1975.

For the Nuclear Regulatory Commission.

G. WAYNE KERR,
Chief, Agreements and Exports Branch, Division of Fuel Cycle and Material Safety.

[FR Doc.75-34585 Filed 12-22-75;8:45 am]

REGULATORY GUIDE

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techiques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 4.8, "Environmental Technical Specifications for Nuclear Power Plants," provides guidance to applicants on the preparation of proposed environmental technical specifications and includes a standard format and an identification of their principal content. Standard format and content for reporting nonradiological operational data are currently being developed; the information will be incided in the first revision of this guide.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 4.8 will, however, be particularly useful in evaluating the need for an early revision if received by February 23, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 16th day of December 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[Docket No. 50-331]

IOWA ELECTRIC LIGHT AND POWER CO., ET AL.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative, Corn Belt Power Cooperative which revised Technical Specifications for operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment modifies provisions in the Technical Specifications to permit operation of facility (1) using operating limits based on General Electric Thermal Analysis Basis (GETAB), and (2) using modified operating limits based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirement of the Commission's regulations in 10 CFR Part 50, Section 50.46.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. (Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on August 25, 1975 (40 FR 37274). No reuqest for a hearing or petition for leave to intervene was filed following notice of the proposed action).

For further details with respect to this action, see (1) the application for amendment dated July 8, 1975, (2) Amendment No. 15 to License No. DPR-49, with Change No. 16, (3) the Commission's related Safety Evaluation, and (4) the Commission's Negative Declaration dated (which is also being published in the FEDERAL REGISTER) and associated Environmental Impact Appraisal, all of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue SE., Cedar Rapids, Iowa 52401.

A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 16th day of December 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

[FR Doc.75-34586 Filed 12-22-75;8:45 am]

[Docket No. 50-331]

DUANE ARNOLD ENERGY CENTER

Negative Declaration Regarding Proposed Changes to Technical Specifications

The Nuclear Regulatory Commission (the Commission) has considered the issuance of changes to the Technical Specifications of Facility Operating License No. DPR-49. These changes would authorize the Iowa Electric Light and Power Company (the licensee) to operate the Duane Arnold Energy Center (located in Linn County, Iowa) with changes to limiting conditions for operation associated with fuel assembly specific power resulting from application of the Acceptance Criteria for Emergency Core Cooling System (ECCS). This change would result in a limited power reduction to an estimated 85 percent full power for a period of less than one year.

The U.S. Nuclear Regulatory Commission, Division of Reactor Licensing has prepared an environmental impact appraisal for the proposed changes to the Technical Specifications of License No. DPR-49, Duane Arnold Energy Center, described above. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for the particular action is not warranted because there will be no environmental impact attributable to the proposed action other than that which has already been predicted and described in the Commission's Final Environmental Statement for Duane Arnold Energy Center issued in March 1973. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue SE., Cedar Rapids, Iowa.

Dated at Rockville, Maryland, this 3rd day of October 1975.

For the Nuclear Regulatory Commission.

WM. H. REGAN, Jr.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

OFFICE OF MANAGEMENT AND BUDGET

AMERICAN STATISTICAL ASSOCIATION ADVISORY COMMITTEE ON STATISTICAL POLICY

Notice of Public Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the American Statistical Association Advisory Committee on Statistical Policy to be held in Room 10104, New Executive Office Building, 726 Jackson Place NW., Washington, D.C., on February 13, 1976 at 10 a.m.

The purpose of the meeting is to hear remarks from the Deputy Associate Director for Statistical Policy on recent actions which affect the Federal statistical system. The Committee will hear reports on the statistical planning process and the 1977 Budget's Special Analysis of Principal Federal Statistical Programs and give counsel on statistical policy issues in relation to the Commission on Federal Paperwork. The meeting will be open to public observation and participation.

Anyone wishing to participate should contact the Deputy Associate Director for Statistical Policy, Room 10202, New Executive Office Building, Washington, D.C. 20503, telephone (202) 395–3836.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[FR. Doc. 75–34529 Filed 12–22–75; 8:45 am]

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on December 17, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–11925; File No. SR–NYSE–75–24]

NEW YORK STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on December 11, 1975, the above-mentioned self-regulatory organizations filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The following rule amendments are for the purpose of eliminating the 80/20 business mix test adopted pursuant to Rule 19b–2 under the Securities Exchange Act of 1934.

1. Text of Amendment to Article IX, Section 7(k); deleted language in brackets [ ].

MEMBER CORPORATIONS

[(k) Not less than 80% of the total value of all purchases and sales of securities effected on all United States securities exchanges by or through a member firm or member corporation (including any subsidiary thereof) or by or through a member who is not a general partner in a member firm or a holder of voting stock in a member corporation, shall be for the accounts of other than affiliated persons. With respect to members, member firms and member corporations of the Exchange on the effective date of this subsection, the Board of Directors shall provide such period of time as it deems appropriate within which such members, member firms and member corporations shall come into compliance with the provisions of this subsection.]

Text of Amendment to Rule 318

Rule 318. (a) The primary purpose of every member organization shall be the transaction of business as a broker or dealer in securities. With the prior approval of the Exchange, member organizations may engage in any activities kindred to the securities business.

[In determining compliance at any time with subsection (k) of Article IX, Section 7 of the Constitution all purchases and sales of securities during the immediately preceding six calendar months effected on all United States securities exchanges by or through the member organization or member shall be used as the basis.

Every member organization or member not in compliance with the requirements of subsection (k) of Article IX, Section 7 on January 16, 1973 shall nevertheless be presumed for a period of three years following such date to be in compliance with such subsection (k) if

(1) within 30 days after the date on which such subsection (k) becomes effective such member organization or member shall furnish a written commitment to the Exchange to make good faith efforts to comply with the requirements of such subsection (k) accomplished by a written plan setting forth in detail the steps such member organization or member intends to take to comply with such requirements and

(2) prior to the expiration of each of the first two one-year periods immediately following January 17, 1973, such member organization shall file with the Exchange a statement, setting forth the steps which have been taken leading toward compliance with the requirements of such subsection (k), together with an updated plan specifying all further action such member organization or member intends to take to achieve such compliance.

No plan filed pursuant to this rule shall be deemed to satisfy the requirements hereof unless the plan has been declared effective by the Exchange after the Exchange has first reviewed the plan and determined that it is reasonably calculated to enable such member organization or member to comply with the requirements of such subsection (k) within three years from January 16, 1973.

No member or member organization shall utilize any scheme, device, arrangement, agreement or understanding designed to circumvent or avoid by reciprocal means or in any other manner, the provisions of subsection (k) of Article IX, Section 7 of the Constitution or the rule thereunder.

(b) Unless otherwise permitted by the Exchange every individual member must be actively engaged in the securities business and

devote the major portion of his time thereto, and every member and allied member in a member organization must be actively engaged in the business of his organization and devote the major portion of his time thereto.

Without prior approval of the Exchange, no individual member and no member or allied member in a member organization shall become:

(1) A partner in any non-member business organization;

(2) An officer or employee of any non-member business corporation, firm or association;

(3) An employee of any firm or individual engaged in business; or

(4) Associated with any outside securities, financial or kindred business.

* * * * *

.12 Definitions.—For the purposes of this rule, a member organization's activities shall be considered to be the "transaction of business as a broker or dealer in securities" when such member organization including its approved corporate affiliates and subsidiaries acts as a Floor trader, specialist, so-called "two dollar broker", odd lot broker, arbitrageur, or holds itself out to, and transacts business generally with, the public as a broker or dealer in securities, including servicing customers' accounts and introducing them to another member organization. A member organization's "primary purpose" shall be presumed to be the transaction of business as a broker or dealer in securities, if its gross income (including the gross income of its corporate affiliates and subsidiaries controlled by the member organization) from activities of the type described in the preceding sentence and from interest charges imposed with respect to debt balances in customers' accounts is at least 50% of its total gross income (including the gross income of its corporate affiliates and subsidiaries controlled by the member organization). Any member organization whose gross income fails to satisfy the above requirement shall be presumed not to have as its primary purpose the transaction of business as a broker or dealer in securities. Any such presumption may be rebutted by evidence but shall continue until a determination to the contrary has been made by the Board of Directors.

[The following terms shall have the following meanings for the purposes of subsection (k) of Article IX, Section 7 of the Constitution and this Rule:

The term "affiliated person" shall include:

(1) Any person directly or indirectly controlling, controlled by or under common control with the member or member organization, whether by contractual arrangement or otherwise, provided that the right to exercise investment discretion with respect to an account, without more, shall not constitute control.

(2) Any principal officer, stockholder or partner of such member or member organization, or any person in whose account such person has a direct or material indirect beneficial interest;

(3) Any investment company of which the member or member organization, or any person controlling, controlled by or under common control with the member or member organization, is an investment advisor within the meaning of the Investment Company Act of 1940; and

(4) The member or member organization to the extent he or it trades for his or its own account, excluding from such trades, however, such transactions effected by such member or member organization as are enumerated under (1) through (b) below.

(a) Any transaction by a registered specialist in a security in which he is so registered;

(b) Any transaction for the account of an odd-lot dealer in a security in which he is so registered;

(c) Any transaction by a block positioner acting as such, except where an affiliated person is a party to the transaction. For the purpose hereof, a block positioner shall mean a member organization which engages, either regularly or on an intermittent basis, in a course of business of acquiring positions to facilitate the handling of customers' orders;

(d) Any transaction effected in conformity with a plan designed to eliminate floor trading activities which are not beneficial to the market, which plan has been adopted by the Exchange and declared effective by the Securities and Exchange Commission;

(e) Any stabilizing transaction effected in compliance with Rule 10b–7 under the Securities Exchange Act of 1934 to facilitate a distribution of such security in which the member organization effecting such transaction is participating;

(f) Any bona fide arbitrage transaction, including hedging between an equity security and a security entitling the holder to acquire such equity security, or any risk arbitrage transaction in connection with a merger, acquisition, tender offer or similar transaction involving a recapitalization;

(g) Any transaction made with the prior approval of a Floor Official to permit the member effecting such transaction to contribute to the maintenance of a fair and orderly market, or any purchase or sale to reverse any such transaction; or

(h) Any transaction to offset a transaction made in error.

A person shall be presumed to control another person, for purposes of this Rule, if such person has a right to participate to the extent of more than 25% in the profits of such other person or owns beneficially, directly or indirectly, more than 25% of the outstanding voting securities of such person.

The principal officers of a member organization include the president, executive vice president, treasurer, secretary or any other person performing a similar function for an incorporated or unincorporated organization. A principal stockholder or partner of a member organization is any natural person actively engaged in the business of the member organization and beneficially owning, directly or indirectly, more than 5% of the outstanding voting securities of the member organization or having the right to participate to the extent of more than 5% in the profits of the member organization.

The term "investment company" shall have the meaning given that term by Section 3 of the Investment Company Act of 1940.

NEW YORK STOCK EXCHANGE'S STATEMENT OF BASIS AND PURPOSE

2. *Purpose of Proposed Rule Changes.*

The recent amendments to the Securities Exchange Act of 1934 contained in Sec. 11(a) have the effect of rescinding SEC Rule 19b–2. The Commission adoption of Rule 19b–2 required national securities exchanges to adopt rules identical thereto, permitting differences in language to conform with existing Exchange rules. The New York Stock Exchange adopted Article IX, Sec. 7(k) of the Constitution and Rule 318 to comply with the mandate of 19b–2. This proposed action has been undertaken to comply with Section 11(a). The Congressional Conference Committee Report is clear in underscoring its intention toward abolition of the so-called 80/20 test. Speaking with regard to the SEC's authority to regulate or prohibit transactions not made unlawful under the statute they state,

Most particularly, the conferees caution that any Commission action which has the effect of limiting Exchange membership to firms with an 80/20 business mix such as is contained in SEC Rule 19b–2, would violate both the letter and spirit of the Exchange Act.

The purpose of the proposed rule changes contained herein is to conform with the spirit and letter of the Exchange Act by eliminating such a business mix.

3. *Basis Under the Act for the Proposed Rule Changes.*

A. The proposed rule changes are based on Section 11(a) of the Securities Exchange Act of 1934:

The proposed rule changes relate to the Exchange's capacity to carry out the purposes of the Act and to comply, and to enforce compliance by its members and persons associated with its members with the act and rules and regulations thereunder by clarifying the Exchange's regulatory responsibility to enforce a public business test under the 1934 Act as amended.

The proposed rule changes relate to the ability of any registered broker or dealer or natural person associated with a registered broker or dealer to become a member of or associated with a member by eliminating the 80/20 business mix test as a factor in determining who may qualify for membership on the Exchange.

The proposed rule changes remove an impediment to and promote the perfection of the mechanism of a free and open market and a national market system by eliminating restrictions not included in the Act with respect to the type of business mix required for membership on the New York Stock Exchange.

4. *Comments Received from Members, Participants or Others on Proposed Rule Changes.*

No comments were solicited or received respecting these proposed changes.

5. *Burden on Competition.*

In applicable. On or before January 27, 1976, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file num-

[V-75-13]

SMITH INDUSTRIES, INC.

Notice of Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of Application.* Notice is hereby given that Smith Industries, Inc., 8300 Hempstead Highway, Houston, Texas 77008 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 far a variance and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.22 (c) Covers and Guardrails and 1910.23 (c) (3) Protection of Open-sided Floors, Platforms and Runways.

The address of the place of employment that will be affected by the application is as follows

Smith Industries, Inc., 8300 Hempstead Highway, Houston, Texas 77008

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.22(c) and 29 CFR 1910.23(c)(3). Section 1910.22(c) requires that "Covers and or guardrails shall be provided to protect personnel from the hazards of open pits, tanks, vats, ditches, etc." Section 1910.23 (c)(3) requires that galvanizing tanks and similar hazards be guarded with a standard railing and toe board.

The applicant states that it has a galvanizing tank in its Fastener Division which has a wall around it 24¾ inches in height and 33½ inches in width. A six-inch guardrail will be installed on top of the existing wall, bringing the dimensions to a 30¾ inch height and 33½ inch width.

The applicant asserts that the erection of a guardrail of standard height would seriously interfere with the moving of items in and out of the galvanizing tank and with the skimming of the zinc. In addition, it states that use of a standard guardrail would create an additional hazard by increasing the possibility of splashing zinc. However, the applicant contends that the combination of the 30¾ inch height and the 33½ width will provide protection equivalent to that which would be provided by use of a standard guardrail. A visit was made to the worksite to evaluate the situation. Based on this first hand observation it would appear that a 30 inch height and at least 24 inch width would provide a safe place of employment.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N3603, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor,
Occupational Safety and Health Administration,
555 Griffin Square Building, Room 602,
Dallas, Texas 75202

U.S. Department of Labor,
Occupational Safety and Health Administration,
2320 Le Branch Street, Room 2118,
Houston, Texas 77004

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than January 22, 1976. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than January 22, 1976, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. *Interim Order.* It appears from the application for a variance and interim order, and from a visit which was made to the worksite, that a wall around a galvanizing tank which is 30 inches in height and at least 24 inches in width will provide a place of employment as safe as that required by the standard. Therefore, it is ordered, pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.11(c) that Smith Industries be, and it is hereby, authorized to use its galvanizing tank with a wall of 30¾ inches in height and 33½ inches in width in lieu of a standard guardrail.

Smith Industries, Inc., shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective Date. This interim order shall be effective as of December 23, 1975, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 17th day of December, 1975.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.75-34633 Filed 12-22-75;8:45 am]

[TA-W-183]

AL-BERTO, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-183: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 26, 1975 in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of workers formerly producing men's suit coats and sportscoats at the W. Baltimore Street plant, Baltimore, Maryland.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 46368) on October 7, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Al-Berto, Inc., its customers, the U.S. Department of Commerce, and the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATION

The average number of production workers declined 6.9 percent in the first half of 1975 compared to the like period in 1974. Average weekly hours declined 8.6 percent in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at the W. Baltimore Street plant declined 2.9 percent in the first half of 1975 compared to the first half of 1974. Production declined 16.1 percent in the first half of 1975 compared to the first half of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of men's custom tailored apparel are not separately identified in the Tariff Schedules of the United States but are included with the aggregate data on imports of men's tailored apparel. This data show that import of men's suits increased both absolutely and relatively in the first seven months of 1975 compared to the first seven months of 1974 and that imports of men's sportcoats increased relatively during this same period.

The evidence developed by the Department's investigation indicated that Al-Berto's sales and production have declined at a time when major customers have indicated that they have reduced purchases from Al-Berto because of a decline in demand for men's customized suit coats and sportcoats associated with the United States.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's suit coats and sportcoats produced at the W. Baltimore Street plant did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 15th day of December 1975.

GLORIA G. PRATT,
Director,
Office of Foreign Economic Policy.

[FR Doc.75-34627 Filed 12-22-75;8:45 am]

[TA-W-187]

CARROLL MANUFACTURING CO. AND ENGLISH AMERICAN TAILORING CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-187: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 26, 1975 in response to a worker petition received on that date which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's made-to-measure suits and sportcoats at the Carroll Manufacturing Company plant in Westminster, Maryland and the English American Tailoring Company in Baltimore, Maryland. These firms are manufacturing divisions of Tom James of America, Inc., Nashville, Tennessee.

The notice of investigation was published in the FEDERAL REGISTER on October 7, 1975 (40 FR 46375). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Carroll Manufacturing Company and the English American Tailoring Company, their customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers on men's made-to-measure suits and sportcoats declined 27 and 25 percent, respectively at the Carroll Manufacturing Company and the English American Tailoring Company in the first nine months of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales were the same for both plants since they worked together to produce made-to-measure men's suits and sportcoats. Sales in quantity declined 10.3 percent in the first nine months of 1975 compared to the same period in 1974. Production equalled sales.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of made-to-measure tailored men's suits, and sportcoats are not separately identified in the Tariff Schedules of the United States, they are included with the aggregate data on imports of tailored suits and sport coats. This data show that imports of men's suits increased both absolutely and relatively in the first seven months of 1975 compared to the first seven months of 1974 and that imports of men's sportcoats increased relatively during this same period.

The evidence developed by the Department's investigation indicated that Carroll Manufacturing Company and English American Tailoring Company sales and production have declined at a time when their customers reported that they have reduced purchases because of a decline in demand for men's customized suits and sportcoats associated with the general economic downturn in the United States.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's made-to-measure suits and sportcoats produced at the Westminster, Maryland and Baltimore, Maryland plants of Tom James of America did not contribute importantly to the total or partial separation of the workers of those plants.

Signed at Washington, D.C. this 10th day of December 1975.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.75-34628 Filed 12-22-75;8:45 am]

[TA-W-197]

H. FREEMAN & SON, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-197: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 26, 1975 in response to a worker petition received on September 26, 1975 which was filed by the Amalgamated Clothing Workers of America on behalf of workers formerly producing men's suiting trousers at the Norristown, Pennsylvania plant of H. Freeman & Son, Inc. The investigation was subsequently expanded to include workers producing men's suits, sportcoats and overcoats at the firm's Philadelphia, Pennsylvania plant.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 46372) on October 7, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of H. Freeman & Son, its customers, the U.S. Department of Commerce, the National Cotton Council of America, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed

V401247 DEC 23 75 XUM

importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of hourly workers employed at H. Freeman's Philadelphia and Norristown plants declined 3 percent and 12 percent, respectively, from 1973 to 1974 and declined 18 percent and 13 percent, respectively, in the first nine months of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at H. Freeman's Philadelphia and Norristown plants declined 11 percent and 15 percent, respectively, from 1973 to 1974 and declined 35 percent and 24 percent, respectively, in the first nine months of 1975 compared to the like period in 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

From 1973 to 1974, imports of men's tailored suits, trousers and overcoats decreased absolutely and as a ratio to domestic production and consumption. During the same period, imports of men's tailored sportcoats decreased absolutely but increased as a ratio to domestic production and consumption.

In the first seven months of 1975, imports of men's tailored suits and trousers increased absolutely while imports of men's tailored sportcoats and overcoats decreased absolutely when compared with the like period in 1974.

Major customers of H. Freeman, which are primarily men's stores that sell only top quality merchandise, indicated that they do not buy any imported menswear. Those customers who reduced purchases from Freeman did so because of decreased demand associated with the recession and because of Freeman's high pricing structure relative to other domestic manufacturers in the same class.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's tailored suits, sportcoats, trousers and overcoats produced at the Philadelphia and Norristown, Pennsylvania plants of H. Freeman & Son, Inc. did not contribute importantly to the total or partial separation of the workers at such plants.

Signed at Washington, D.C. this 5th day of December 1975.

JAMES F. TAYLOR,
Director
Planning and Evaluation Staff.

[FR Doc.75-34629 Filed 12-22-75;8:45 am]

[TA-W-175]

HAAS TAILORING COMPANY, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-175; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 26, 1975 in response to a worker petition received on September 26, 1975 which was filed by the Amalgamated Clothing Workers' of America on behalf of workers and former workers producing men's suits, sportcoats and tailored trousers at the Baltimore, Maryland plant of The Haas Tailoring Company, Inc.

The notice of investigation was published in the FEDERAL REGISTER on October 7, 1975 (40 FR 46371). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of The Hass Tailoring Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 9 percent in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Baltimore plant declined 17.5 percent in the first three quarters of 1975 compared to the first three quarters of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of men's custom tailored apparel are not separately identified in the Tariff Schedules of the United States, they are included with the aggregate data of imports of men's tailored apparel. This data show that imports of men's suits increased both absolutely and relatively in the first seven months of 1975 compared to the first seven months of 1974 and that imports of men's sportcoats increased relatively during this same period.

In recent years the men's clothing industry has been subject to the adverse impact of changes in fashions; the economic recession; and competition from lower priced imported apparel.

Customers of Haas responding to a survey reported that the decline in orders for apparel of the type produced by Haas was caused by the switch of consumer preferences to lower priced imported apparel. Customers of Haas usually displayed imports of men's suits and sportcoats within the same department The readily available price comparison by consumers caused a decline in orders for Haas' type apparel.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's suits, sportcoats and tailored trousers produced at The Haas Tailoring Company, Inc. contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried workers engaged in employment related to the production of men's suits, sportcoats and tailored trouser's at the Baltimore, Maryland plant of The Haas Tailoring Company, Inc. who became totally or partially separated from employment on or after December 28, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of December 1975.

GLORIA G. PRATT,
Director,
Office of Foreign Economic Policy.

[FR Doc.75-34630 Filed 12-22-75;8:45 am]

[TA-W-206]

LOUSONS KNITTING MILLS, INC. AND MARDER KNITTING MILLS, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-206; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 2, 1975 in response to a worker petition received on that date which was filed by the International Ladies' Garment Workers Union (AFL-CIO) on behalf of workers and former workers producing men's, boys', and ladies' sweaters at Lousons Knitting Mills, Inc. and Marder Knitting Mills, Inc., Philadelphia, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 48558-48559) on October 16, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lousons Knitting Mills, its customers, industry analysts, and Department files, the U.S. Department of Commerce, and the U.S. International Trade Commission.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Production at Lousons and Marder is integrated and data for the two firms is combined.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at Lousons and Marder declined 43 percent in the first nine months of 1975 compared to the like period in 1974. Average weekly hours for production workers declined 33 percent in the first nine months of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Men's sweaters have comprised approximately 90 percent of Louson's sales in recent years. Production at Louson's and Marder declined 44 percent in value in the first nine months of 1975 compared to the first nine months 1974. Production operations were sharply curtailed in June and July 1975.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Domestic production of knit sweaters has been adversely affected by both the economic recession and increased import competition. With the exception of one year during the 1970-1974 period, imports of men's and boys' sweaters increased in both absolute and relative terms. Imports in the first seven months of 1975 were 60 percent greater than during the same period in 1974.

Major U.S. retailers have significantly increased their purchases of imported sweaters relative to purchases of domestic sweaters in the first half of 1975. Lousons sole customer sharply reduced purchases from Lousons in early 1975 as a result of its own reduced sales at the retail level.

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's and ladies' sweaters produced by Lousons Knitting Mills, Inc., and Marder Knitting Mills, Inc. contributed importantly to the total or partial separation of the workers of those firms. Separations of workers related to increased imports began in January 1975. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All hourly, piecework, and salaried employees of Lousons Knitting Mills, Inc., Philadelphia, Pennsylvania and Marder Knitting Mills, Inc., Philadelphia, Pennsylvania, who became totally or partially separated from employment on or after January 11, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 5th day of December 1975.

GLORIA G. PRATT,
Director,
Office of Foreign Economic Policy.

[FR Doc.75-34631 Filed 12-22-75;8:45 am]

[TA-W-134]

SCOTT AND WILLIAMS, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-134; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 4, 1975 in response to a worker petition received on September 4, 1975 which was filed by the United Steel Workers of America, Locals 4524 and 7077, on behalf of workers and former workers producing circular knitting machines for fabric and hosiery, and their replacement parts at the Lakeport, New Hampshire plant of Scott and Williams, Inc.

The notice of investigation was published in the FEDERAL REGISTER on September 16, 1975 (40 FR 42808). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Scott and Williams, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

During the course of the Department's investigation, industry analysts conducted a special survey of the circular knitting machine industry.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers fell 35 percent from 1973 to 1974 and 85 percent in the first half of 1975 compared to the like period in 1974. Average weekly hours declined six percent in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of fabric circular knitting machines at the Lakeport, New Hampshire plant declined 49 percent both from 1972 to 1973 and from 1973 to 1974. In the first half of 1975 sales fell 84 percent compared to the first half of 1974. The company ceased production of hosiery circular knitting machines in late 1973. Sales of hosiery machines terminated in May 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of fabric circular knitting machines like or directly competitive with those produced at the Lakeport, New Hampshire plant decreased from 5,747 units in 1972 to 1,603 units valued at 30.3 million dollars in 1974.

The ratios of imports to domestic consumption and production for fabric machines decreased from 73.3 percent and 151.6 percent, respectively in 1972 to 66.3 percent and 72.4 percent, respectively in 1974. In the first nine months of 1975, the ratios of imports to domestic consumption and production decreased to 49.7 and 58.5 percent, respectively from 51.0 and 71.4 in the first nine months of 1974.

A decline in demand for knitted fabrics, coupled with an increase in demand for woven fabrics, after 1973 caused the

V401247 DEC 23 75 XUM

U.S. market for fabric circular knitting machines to fall sharply.

The majority of customers surveyed did not switch from purchases of Scott and Williams machines to imported machines. Several customers preferred domestically manufactured machines to imports because of ease of obtaining replacement parts and speed of delivery.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with fabric circular knitting machines produced at the Lakeport, New Hampshire plant of Scott and Williams Inc. did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 12th day of December 1975.

GLORIA G. PRATT,
Director,
Office of Foreign Economic Policy.

ASSIGNMENT OF HEARINGS

DECEMBER 18, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

Correction

WC-23 KGW Towing Company, Inc.—Investigation and Revocation of Certificates, W-C-25, Waxler Towing Company, Incorporated—Investigation and Revocation of Certificate, W-C-26, A. & O. Barge Line, Inc.—Investigation and Revocation of Certificates and W-C-27, IGERT—Investigation and Revocation of Certificate, now being assigned January 22, 1976 (2 days), at Memphis, Tenn.; in a hearing room to be later designated.

This notice is to correct the hearing date in Federal Register dated November 17, 1975, Notice No. 917.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 19, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before January 2, 1976. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 45736 (Sub-No. E2), (Correction), filed May 17, 1974, published in the FEDERAL REGISTER October 15, 1975. Applicant: GUIGNARD FREIGHT LINES, INC., Highway 21N, P.O. Box 26067, Charlotte, N.C. 28213. Applicant's representative: Edward G. Villalon, Suite 1032, 13 Pennsylvania Ave, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment; (a) between points in North Carolina on and bounded by a line beginning at Concord, N.C., and extending along North Carolina Highway 73 to junction, * * * to point of beginning, on the one hand, and, on the other, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line and extending along U.S. Highway 521 to junction South Carolina Highway 200, thence along South Carolina Highway 200 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 301, thence along U.S. Highway 301 to the South Carolina-Georgia State line, and on and east of Interstate Highway 85; (c) * * * and on and east of U.S. Highway 1, which points are within 225 miles of Concord, N.C., on the one hand, and, on the other, points in South Carolina on and west of a line beginning at the South Carolina-North Carolina State line, and extending along U.S. Highway 521 to junction South Carolina Highway 200, thence along South Carolina Highway 200 to junction U.S. Highway 21, thence along U.S. Highway 21 to junction U.S. Highway 301, thence along U.S. Highway 301 to the South Carolina-Georgia State line, and on and east of Interstate Highway 85; (d) between points in North Carolina bounded on and west of U.S. Highway 1 and on and east of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220, * * *; (e) between points in North Carolina within 225 miles of Concord, N.C., which are on and east of U.S. Highway 1, on the one hand, and, on the other, points in South Carolina on and west of U.S. Highway 29; (f) between points in North Carolina on and bounded by a line beginning at Concord, N.C., and extending along U.S. Highway 29 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 311, thence along U.S. Highway 311 to junction North Carolina Highway 89, thence along North Carolina Highway 89 to junction North Carolina Highway 8, thence along North Carolina Highway 8 to the North Carolina-Virginia State line extending along U.S. Highway 21 to junction North Carolina Highway 152, thence along North Carolina Highway 152 to junction North Carolina Highway 153, * * * The purpose of this partial correction is to correct the territorial descriptions above. The remainder of this letter-notice and the gateway remains as previously published.

No. MC 52917 (Sub-No. E1), filed June 4, 1974. Applicant: CHESAPEAKE MOTOR LINES, INC., 6748 Dorsey Road, Rt. 176, Baltimore, Md. 21227. Applicant's representative: Lynwood M. Robinson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fresh meats and processed foods*, in vehicles equipped with mechanical refrigeration, from New York, N.Y., and Jersey City, Kearny, and Newark, N.J., to points in Alleghany, Washington, Frederick, Howard, Montgomery, Anne Arundel, Prince George's, Charles, Calvert and St. Mary's Counties, Md., and points in that part of Carroll County, Md., on and south of a line beginning at the Frederick-Carroll County line extending along Maryland Highway 77 to Keymar, thence on and along the Mt. Union Road to junction Maryland Highway 31, thence along Maryland Highway 31 to junction Maryland Highway 482, thence along Maryland Highway 482 to junction Maryland Highway 30, thence along Maryland Highway 30 to the Carroll County-Baltimore County line; points in Morgan, Berkeley and Jefferson Counties, W. Va., and Frederick, Clarke, Loudoun, Fauquier, Fairfax, Prince William, Stafford, King George, Westmoreland, Culpeper, Rappahannock and Warren Counties, Va.;

(2) *Fresh meats and processed foods*, in vehicles equipped with mechanical refrigeration, from Philadelphia, Pa., to points in that part of Alleghany, Washington, Frederick, Montgomery, Anne Arundel, Prince George's, Charles, Calvert and St. Mary's Counties, Md., on, south and west of a line beginning at the Potomac River at the Millstone Maryland Interchange of Interstate Highway 70 thence along the Potomac River to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Maryland Highway 68, thence along Maryland Highway 68 to junction Maryland Highway 65, thence along Maryland Highway 65 to junction Interstate Highway 70 to junction U.S. Highway 40, thence along U.S. Highway 40 to Frederick, thence along Interstate Highway 70 to junction Maryland Highway 75, thence along Maryland Highway 75 to junction Maryland Highway 122, thence along Maryland Highway 122 to junction Maryland Highway 27, thence along Maryland Highway 27 to junction Maryland Highway 108, thence along Maryland Highway 108 to junction Maryland Highway 650, thence along Maryland Highway 650 to junction Maryland Highway 198, thence along Maryland Highway 198 to the Montgomery-Prince George's County line, thence along the County line to junction Maryland Highway 212, thence along Maryland Highway 212 to junction Powder Mill Road, thence along Powder Mill Road to junction Maryland Highway 197, thence along Maryland Highway 197 to junction Maryland Highway 564, thence along Maryland Highway 564 to junction Maryland Highway 193, thence along Maryland Highway 193 to junction Maryland Highway 556, thence along Maryland Highway 556 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Maryland Highway 424, thence along Maryland Highway 424 to junction Maryland Highway 2, thence along Maryland Highway 2 to junction Maryland Highway 255, thence along Maryland Highway 255 to Galesville, thence along West River to Idlewilde, Md., and points in Morgan, Berkeley and Jefferson Counties, W. Va., and Frederick, Clarke, Loudoun, Fauquier, Fairfax, Prince William, Stafford, King George, Westmoreland, Culpeper, Rappahannock and Warren Counties, Va. The purpose of this filing is to eliminate the gateway of Washington, D.C.

No. MC 72243 (Sub-No. E5), filed May 30, 1974. Applicant: AETNA FREIGHT LINE, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Edward G. Villalon, 1032 Penn. Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel* and *iron or steel articles*, which because of size or weight require the use of special equipment, (1) from points in Illinois on and north of U.S. Highway 36, to points in New York and Pennsylvania (except Greene, Fayette and Washington Counties) (Jackson, Mich.*); (2) from points in New York and Pennsylvania (except Greene, Fayette and Washington Counties), to points in Illinois on and north of U.S. Highway 36 (Ohio, and points in Michigan within 300 miles of Chicago, Ill.*); (3) from points in Illinois on and north of U.S. Highway 36, to points in Connecticut and Massachusetts (Jackson, Mich., and New York, N.Y.*); (4) from points in Connecticut and Massachusetts, to points in Illinois on and north of U.S. Highway 36 (New York, N.Y., Pennsylvania or Ohio, and points in Michigan within 300 miles of Chicago, Ill.*); (5) from points in Illinois on and north of U.S. Highway 36, to points in New Jersey, Delaware, the District of Columbia, and Maryland (except south and west of U.S. Highway 40) (Jackson, Mich., and points in Pennsylvania within 150 miles of Philadelphia, Pa.*); (6) from points in New Jersey, Delaware, the District of Columbia, and Maryland (except south and west of U.S. Highway 40), to points in Illinois on and north of U.S. Highway 36 (points in Pennsylvania within 150 miles of Philadelphia, Pa., Ohio, and points in Michigan within 300 miles of Chicago*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 72243 (Sub-No. E10), filed February 3, 1975. Applicant: THE AETNA FREIGHT LINES, INC., 2507 Youngstown Road, SE., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Mr. Edward G. Villalon, Suite 1032 Penn. Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel and iron or steel articles*, which because of size or weight, require the use of special equipment, (A) (1) between points in Alabama, Louisiana, Mississippi, points in Tennessee on and east of U.S. Highway 11, and points in Kentucky on and east of U.S. Highway 23, on the one hand, and, on the other, points in Ohio; (2) from points in Alabama, Louisiana, Mississippi, points in Tennessee on and east of U.S. Highway 11, and points in Kentucky on and east of U.S. Highway 23, to points in Michigan on and east of a line beginning at the Michigan-Ohio State line extending along U.S. Highway 27 to junction Interstate Highway 75, thence along Interstate Highway 75 to Lake Huron (Boyd County, Ky., and Lawrence County, Ohio*); (B) from points in Michigan on and east of a line beginning at the Michigan-Ohio State line extending along U.S. Highway 27 to junction Interstate Highway 75, thence along Interstate Highway 75 to Lake Huron, to points in Alabama, Louisiana, Mississippi, points in Tennessee on and east of U.S. Highway 11, and points in Kentucky on and east of U.S. Highway 23 (Jackson, Mich., Lawrence County, Ohio and Boyd County, Ky.*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 72243 (Sub-No. E24), filed May 30, 1974. Applicant: AETNA FREIGHT LINES, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Edward G. Villalon, 1032 Penn. Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel* and *iron or steel articles*, which because of size or weight require the use of special equipment, between points in Colorado, Nebraska, South Dakota, Wyoming, Minnesota, points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 30 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Iowa-Illinois State line, points in Iowa on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 61 to junction U.S. Highway 92, thence along U.S. Highway 92 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 5, thence along U.S. Highway 5 to the Iowa-Missouri State line, points in Kansas on, north and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 75 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 56, thence along U.S. Highway 56 to the Kansas-

V 401247 DEC 23 75 XUM

Oklahoma State line, points in Missouri on and north of U.S. Highway 136 and on and west of Missouri Highway 5, on the one hand, and, on the other, (1) points in Ohio (points in the Chicago, Ill., commercial zone which are in Illinois*); (2) points in New York and Pennsylvania (points in the Chicago, Ill., commercial zone which are in Illinois; and Ohio*); (3) points in Massachusetts and Connecticut (points in the Chicago, Ill., commercial zone which are in Illinois; Ohio; and points in New York, N.Y., commercial zone*); (4) points in New Jersey, Maryland, Delaware, and the District of Columbia (points in the Chicago, Ill., commercial zone which are in Illinois; Ohio; and points in Pennsylvania within 150 miles of Philadelphia, Pa.*). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 72243 (Sub-No. E25), filed May 30, 1974. Applicant: AETNA FREIGHT LINE, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Edward G. Villalon, 1032 Penn. Bldg. Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel* and *iron or steel articles*, which because of size or weight require the use of special equipment, (1) between points in New Jersey, Delaware, and points in Maryland on and east of U.S. Highway 15, on the one hand, and, on the other, points in the Lower Peninsula of Michigan on and north of Interstate Highway 94 and on and west of Interstate Highway 69, points in the Upper Peninsula of Michigan on and south of a line beginning at the Michigan-Wisconsin State line extending along U.S. Highway 41 to junction U.S. Highway 28, thence along U.S. Highway 28 to Lake Superior, and points in Indiana on, west and north of a line beginning at the Indiana-Ohio State line extending along Interstate Highway 69 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction U.S. Highway 74, thence along U.S. Highway 74 to the Indiana-Illinois State line (Lock Haven, Pa.*); (2) between points in New Jersey, Delaware, and points in Maryland on and east of U.S. Highway 15, on the one hand, and, on the other, points in Wisconsin on and south of a line beginning at the Michigan-Wisconsin State line extending along U.S. Highway 77 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Wisconsin-Minnesota State line, points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line, points in Iowa and Minnesota (Lock Haven, Pa., and Chicago, Ill.*); the purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 72243 (Sub-No. E26), filed May 30, 1974. Applicant: AETNA FREIGHT LINE, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Edward G. Villalon, 1032 Penn. Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel* and *iron or steel articles*, which because of size or weight require the use of special equipment, and *heavy machinery*, between points in Connecticut and Massachusetts on the one hand, and, on the other, points in Ohio, West Virginia, Maryland, Delaware, and points in Pennsylvania on, south and west of a line beginning at Lake Erie extending along U.S. Highway 8 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 144, thence along U.S. Highway 144 to junction U.S. Highway 322, thence along U.S. Highway 322 to junction Interstate Highway 83, thence along Interstate Highway 83 to the Maryland-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of the New York, N.Y., commercial zone.

No. MC 72243 (Sub-No. E27), filed May 30, 1974. Applicant: AETNA FREIGHT LINE, INC., P.O. Box 350, Warren, Ohio 44482. Applicant's representative: Edward G. Villalon, 1032 Penn Bldg., Pennsylvania Ave. and 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron, steel* and *iron or steel articles*, between points in West Virginia, on the one hand, and, on the other, points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 30 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line. The purpose of this filing is to eliminate the gateway of Ohio, and points in the Chicago, Ill., commercial zone.

No. MC 92983 (Sub-No. E21), filed June 4, 1974. Applicant: AMERICAN BULK TRANSPORT CO., 818 Grand Ave., P.O. Box 2508, Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Acids and Chemicals*, in bulk, in tank vehicles, (1) from Lake Charles, La., to points in Idaho, Montana, North Dakota, South Dakota, and Wyoming; (2) from Lake Charles, La., to points in Oregon, and to points in California located in and north of Mono, Tuolomine, Calaveras, San Joaquin, Contra Costa and San Francisco Counties, to points in Nevada located in and north of White Pine County and that portion of Nye, Esmeralda and Mineral Counties located on and north and west of U.S. Highway 6 and to points in Utah located in and north and west of Uintah, Carbon, San Pete, Sevier and Millard Counties;

(3) From Lake Charles, La., to points in Colorado located in and north of Mesa, Delta, Pitkin, Lake, Park, Teller, Lincoln and Cheyenne Counties and points in El Paso County located on and north of a line extending from the western border along Colorado Highway 122 to the junction of U.S. Highway 85, thence along U.S. Highway 85 to the junction of Colorado Highway 94, thence along Colorado Highway 94 to the eastern border of El Paso County, to points in Kansas located in and north of Greeley, Wichita, Scott, Lane, Ness, Rush, Barton, Rice, McPherson, Marion, Chase, Lyon, Osage, Franklin and Miami Counties, to points in Missouri located in and north of Bates, Henry and Morgan Counties and points in Benton County located north of the Lake of the Ozarks, and points located on and north of a line, extending from Osage River along U.S. Highway 54 to the Missouri-Illinois State line, including the Jefferson City and Louisiana Commercial Zones, to points in Illinois located on and north of a line extending from Lake Michigan along Illinois Highway 120 to the junction of Illinois Highway 83, thence along Illinois Highway 83 to the junction of Illinois Highway 176, thence along Illinois Highway 176 to the junction of Illinois Highway 59, thence along Illinois Highway 59 to the junction of Interstate Highway 90, thence along Interstate Highway 90 to the junction of Illinois Highway 31, thence along Illinois Highway 31 to the junction of Illinois Highway 64, to the junction of Illinois Highway 53, thence along Illinois Highway 53 to the junction of U.S. Highway 6, thence along U.S. Highway 6 to the junction of Illinois Highway 89, thence along Illinois Highway 89 to the northern border of Tazewell County, thence along the northern, eastern and southern border of Tazewell County to the Illinois River, thence along the Illinois River to the junction of U.S. Highway 36, thence along U.S. Highway 36 to the junction of U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line, and to points in Iowa and Nebraska.

(4) from Lake Charles, La., to points in Michigan located in and north of Mason, Lake, Osceola, Clare, Gladwin and Arenac Counties; (5) from Lake Charles, La., to points in Wisconsin; (6) from Lake Charles, La., to points in Minnesota located in and north of Traverse, Stevens, Swift, Kandiyohi, Renville, Nicollet, Blue Earth, Waseca and Freedom Counties; (7) from Lake Charles, La., to points in Washington; (8) from Lake Charles, La., to points in Indiana located on and north of a line extending from

the Illinois-Indiana State line, along Interstate Highway 94 to the junction of Indiana Highway 149, thence along Indiana Highway 149 to the junction of U.S. Highway 12, thence along U.S. Highway 12 to the Indiana-Michigan State line, including the Gary and Michigan City Commercial Zones, (B) *Sulfuric Acid*, in bulk, in tank vehicles, (1) from points in Louisiana to Neodesha, Kans., (2) from points in Louisiana to Perry, Iowa; (3) from points in Louisiana (except Morehouse, West Carroll, East Carroll, Washington, St. Tammany and Calcasieu Parishes) to Joplin, Mo., (4) from points in Calcasieu Parish, La., to points in Missouri located in and north of McDonald, Barry, Lawrence, Greene, Dallas, Laclede, Camden, Miller, Osage, Montgomery and Pike Counties; (5) from points in Louisiana located in Morehouse, West Carroll and East Carroll Parishes to points in Kansas (except those located in Cherokee, Crawford and Bourbon Counties and Neodesha, Kans.); (6) from points in Louisiana (except those located in Morehouse, West Carroll and East Carroll Parishes) to points in Kansas (except Neodesha); (C) *Acids and Chemicals* (except Petroleum chemicals from within 150 miles of Henderson, Texas and except liquid petroleum gases and except oakite compound from Baton Rouge), in bulk, in tank vehicles, from points in Louisiana located in and south and west of Clairborne, Lincoln, Jackson, Winn, La Salle, Avoyelles, Point Coupee, West Baton Rouge, Iberville, Assumption and Terre Bonne Parishes, including Baton Rouge to Iowa City, Ia.

(D) *Caustic Soda*, in bulk, in tank vehicles, from points in Louisiana to Wichita, Kansas; (E) *Acids and Chemicals* (except petroleum chemicals from within 150 miles of Henderson, Texas and Except liquid Petroleum gases and except Oakite Compound from Baton Rouge and except anhydrous ammonia, nitrogen solutions and nitric acids from Luling, La.), in bulk, in tank vehicles; (1) from points in Louisiana located in and east of Union, Lincoln, Jackson, Caldwell, La Salle, Avoyelles, St. Landry, St. Martin and Iberia Parishes to points in located in and west of Burralo, Chippewa, Rusk, Sawyer and Ashland, Counties, to points in Eau Claire County, Wis., located on and west of a line extending from the southern border of Eau Claire County along Wisconsin Highway D to the junction of Wisconsin Highway K, thence along Wisconsin Highway K to the northern border of Eau Claire County; (2) from points in Louisiana located in and west of Clairborne, Bienville, Winn, Grant, Rapides, Evangeline, Acadia, Lafayette and Vermilion Parishes to points in Illinois located on and west the Galena River, to points in the upper Peninsula of Michigan located on and west of a line extending from Ft. Patterson on Lake Michigan along Unnumbered Highway to the junction of U.S. Highway 2 at Gould City, thence along U.S. Highway 2 to the junction of Michigan Highway 117, thence along Michigan Highway 117 to the junction of Michigan Highway 28, thence along Michigan Highway 28 to the junction of Michigan Highway 221, thence along Michigan Highway 221 to the junction Interstate Highway 75, thence along Interstate Highway 75 to the United States-Canada Border and to points in Wisconsin (except those located in and east of Green, Rock, Jefferson, Waukesha, Washington and Sheboygan Counties.

(3) From points in Louisiana to Turner, Kans; (F) *Acids and Chemicals*, (except petrochemicals from within 150 miles of Henderson, Tex., and except liquid petroleum gases), in bulk, in tank vehicles; (1) from points in Louisiana located in Cameron, Calcasieu, Beauregard, , Vernon, Sabine and De Soto Parishes to points in Massachusetts, points in Connecticut, (except Fairfield County), points in New York (except points south of U.S. Highway 202), and points in Pennsylvania located in Erie, Crawford, Warren, McKean, Potter, Tioga, Bradford, Susquehanna, Wyoming, Lackawanna, Wayne and Pike Counties; (2) from points in Louisiana located in Caddo Parish to points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, points in Indiana located on and north of a line extending from the Indiana Illinois State line along U.S. Highway 24 to junction Indiana Highway 124, thence along Indiana Highway 124 to the Indiana-Ohio State line, points in Ohio located on and north of U.S. Highway 30, points in West Virginia located in Ohio, Brooke and Hancock Counties and points in Delware located in New Castle County; (G) *Acids and Chemicals*, (except petroleum chemicals, synthetic resins and varnishes and except liquid petroleum gases and except oakite compounds from Baton Rouge and except anhydrous ammonia, nitrogen solutions and nitric acide from Luling, Louisiana), in bulk, in tank vehicles, from points in Louisiana (except Lake Charles) to points in Minnesota; (H) *Acids and chemical* (except petroleum chemicals from within 150 miles of Henderson, Texas and except liquid petroleum gases and except oakite compound from Baton Rouge and Except anhydrous, ammonia, nitrogen solutions and nitric acid from Luling, Louisiana), in bulk, in tank vehicles.

(1) From points in Louisiana to points in Idaho, Montana, North Dakota, South Dakota and Wyoming; (2) from points in Louisiana located in and west of Union, Lincoln, Jackson, Caldwell, La Salle, Avoyelles, Pointe Coupee, Iberville, Assumption and Terrebonne Parishes to points in California located in and north of Marin, Mapa, Solano, Sacramento, Amador and Alpine Counties, to points in Nevada located in and north of Douglas, Lyon, Churchill, Lander, Eureka and White Pine Counties, to points in Oregon and points in Utah, located in and north of Juab, Utah, Carbon and Unitah Counties; (3) from points in Louisiana located in and east of Morehouse, Ouachita, Richland, Franklin, Catahoula, Concordia, West Feliciana, East Baton Rouge, West Baton Rouge, Ascension, St. James and La Fourche Parishes to points in California located in and north of Santa Cruz, Santa Clara, Merced, Madera and Mono Counties, to points in Nevada located on and north of a line extending from the Nevada-California State line along Nevada Highway 3 to the junction of U.S. Highway 95, thence along U.S. Highway 95 to the junction of U.S. Highway 6, thence along U.S. Highway 6 to the junction of Nevada Highway 25, thence along Nevada Highway 25 to the Nevada-Utah State line, to points in Oregon and to points in Utah located in and north of Iron, Beaver, Piute, Wayne and Grand Counties; (4) from points in Louisiana located in and east of Bossier, Bienville, Winn, Grant, Rapides, Avoyelles, St. Landry, St. Martin and Iberia Parishes to points in Iowa located in and west of Ringgold, Clarke, Warren, Jasper, Tama, Black Hawk, Fayette, and Allamakee Counties and to points in Missouri located in and west of Harrison, Gentry, De Kalb, Clinton and Platte Counties, points in Clay county located on and west of Interstate Highway 35 and the Kansas City Commercial Zone.

(5) From points in Louisiana located in and west of Caddo, Red River, Natchitoches, Vernon, Allen, Evangeline, Acadia, Lafayette and Vermilion Parishes to points in Iowa and to points in Missouri located in and west of Cass, Johnson, Saline, Chariton, Macon, Knox and Clark Counties; (5) from points in Louisiana located in and west of Union, Lincoln, Jackson, Winn, Grant, Rapides, Evangeline, Acadia and Vermilion Parishes to points in Colorado located in and north of Garfield, Eagel, Summit, Clear Creek, Jefferson, Douglas and Kit Carson Counties and points in Elbert and Lincoln Counties located on and north of U.S. Highway 24, to points in Kansas located in and north of Sherman, Thomas, Sheridan, Graham, Rooks, Osborne, Mitchell, Ottawa, Clay, Geary, Wabuansee, Shawnee, Douglas and Johnson Counties and to points in Nebraska; (6) from points in Louisiana located in and east of Morehouse, Ouachita, Caldwell, La Salle, Avoyelles, St. Landry, Lafayette, and Iberia Parishes to points in Colorado located in and north of Mesa, Delta, Gunnison, Chaffee, Park, Teller, El Paso, Lincoln, and Kiowa Counties, to points in Kansas located in and north of Greeley, Wichita, Scott, Lane, Ness, Rush, Barton, Rice, McPherson, Marion, Chase, Lyon, Osage, Franklin and Miami Counties to points in Nebraska; (7) from points in Louisiana to points in Washington; (I) *Liquid Sugar*, in bulk in tank vehicles, (1) from points in Louisiana on and west of a line beginning at the Louisiana-Arkansas State line and extending south along U.S. Highway 71 to junction with Louisiana Highway 1, thence along Louisiana Highway 1 to junction with Louisiana Highway 175, thence along Louisiana Highway 175 to junction with U.S. Highway 171, thence along U.S. Highway 171 to junction with U.S. Highway 190, thence along U.S. Highway 190 to the Texas-Louisiana State line, to Roby, Indiana;

V 40 247 DEC 23 75 XUM

(2) from points in Louisiana to Cedar Rapids, Iowa.

(3) From points in Louisiana located on and west of a line beginning at the Mississippi-Louisiana State line extending south along Louisiana Highway 67 to junction with U.S. Highway 61, thence along U.S. Highway 61 to junction with the eastern boundary of St. James Parish, thence along the Eastern and southern border of St. James Parish to junction with Louisiana Highway 20, thence along Louisiana Highway 20 to junction with the eastern border of Terrebonne Parish, thence along the eastern border of Terrebonne Parish to the Gulf of Mexico, to Clinton and Keokuk, Ia.; (J) *Vegetable Oil and Vegetable Oil Products*, in bulk, in tank vehicles: (1) from points in Louisiana located in and east of St. Helena, Livingston, Ascension, Assumption, and Terrebonne Parishes to points in Delaware, Indiana, Kentucky, Maryland, New Jersey, Ohio, Virginia and West Virginia; (2) from points in Louisiana located in and west of east Feliciana, East Baton Rouge, Iberville, Iberia, St. Martin and St. Mary Parishes (except Caddo Parish) to points in Delaware, Indiana, Kentucky, Maryland and New Jersey, to points in North Carolina (except those located in Cherokee, Graham, Swain, Clay, Macon, Jackson, Haywood, Transylvania, Henderson, Polk, Rutheford, Cleveland, Gaston, Mecklenburg, Union, Anson, Richmond and Scotland Counties), to points in Ohio, Virginia and West Virginia; (3) from points in Louisiana located in and west of Union, Ouachita, Caldwell, La Salle, Rapides, Evangeline, Acadia and Vermillion Parishes (except those points in Louisiana described in (2) above) to points in Delaware, Indiana, Kentucky, Maryland, North Carolina, and Ohio, to points in South Carolina (except Jasper County) and to points in Virginia, and West Virginia; (4) from Caddo Parish in Louisiana to points in Delaware, to points in Florida located in and south of Nassau, Duval, Clay, Putnam, Volusia, Lake, Polk, Hillsboro and Pinellas Counties and to points in Indiana, Kentucky, Maryland, New Jersey, North Carolina, Ohio, South Carolina, Virginia, and West Virginia,

(5) From points in Louisiana (except those located in and east of St. Helena, East Baton Rouge, Ascension, Assumption and Terrebonne Parishes) to points in Arkansas located in Clay, Greene, Craighead, Poinsett, Mississippi and Crittenden Counties, (6) from points in Louisiana located in and east of St. Helena, East Baton Rouge, Ascension, Assumption, and Terrebonne Parishes (except Orleans, Plaquemines and St. Bernard Parishes) to points in Arkansas located in and east of Carroll, Boone, Searcy, Stone, Cleburne, White, Woodruff, St. Francis and Lee Counties; (7) from points in Louisiana located in Orleans, Plaquemines and St. Bernard Parishes to points in Arkansas located in and north of Crawford, Franklin, Johnson, Pope, Conway, Faulkner and Lee Counties and points in that part of Lonoke, Prairie and Monroe Counties located on and north of U.S. Highway 70 and the Ft. Smith Commercial Zone; (8) from points in Louisiana located in and east of East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption, and Terrebonne Parishes to points in Iowa, Illinois, Minnesota, Missouri, and Wisconsin; (9) from points in Louisiana located in and east of Morehouse, Ouachita, Caldwell, La Salle, Evangeline, Acadia and Vermillion Parishes and points in Rapides Parish located on and east of U.S. Highway 165, (except those points in Louisiana described in (8) above), to points in Iowa, Illinois, Minnesota, and Wisconsin and points in Missouri located in, north and east of Jackson, Johnson, Pettis, Benton, Hickory, Dallas, Laclede, Wright, Texas and Howell Counties;

(10) From points in Louisiana located on and east of a line extending from Calcasieu Pass along Louisiana Highway 27 to the junction of Interstate Highway 90, thence along Interstate Highway 90 to the junction of U.S. Highway 171, thence along U.S. Highway 171 to the junction of Louisiana Highway 8, thence along Louisiana Highway 8 to the junction of Louisiana Highway 117, thence along Louisiana Highway 117 to the junction of Louisiana Highway 6, thence along Louisiana Highway 6 to the junction of U.S. Highway 84, thence along U.S. Highway 84 to the junction of U.S. Highway 167 to the Louisiana-Arkansas State line, (except those points in Louisiana described in (8) and (9) above) to points in Iowa (except those located in Mills, Fremont, and Page Counties), to points in Illinois, Minnesota, and Wisconsin and to points in Missouri located in and east of Worth, Harrison, Grundy, Livingston, Chariton, Howard, Cooper, Moniteau, Miller and Pulaski Counties and points on and east of a line extending from the Missouri-Arkansas State line along Missouri Highway H to the junction of Missouri Highway 142, thence along Missouri Highway 142 to the junction of Missouri Highway E, thence along Missouri Highway E to the junction of Missouri Highway 19, thence along Missouri Highway 19 to the junction of Missouri Highway 106, thence along Missouri Highway 106 to the junction of Missouri Highway 17, thence along Missouri Highway 17 to the Southern border of Pulaski County; (11) from points in Louisiana (except those points in Louisiana described in (8), (9), (10) above) to points in Iowa located in and east of Winnebago, Hancock, Franklin, Hardin, Marshall, Jasper, Marion, Monroe and Appanoose Counties, to points in Illinois, to points in Minnesota (except those located in and south of Lac Qui Parle, Yellow Medicine, Redwood, Cottonwood and Martin Counties), to points in Missouri located in and east of Schuyler, Adair, Macon, Randolph, Boone, Cole, Osage, Maries, Phelps, Dent, Reynolds, Carter and Ripley Counties and to points in Wisconsin.

(12) From points in Louisiana located in Morehouse, Ouachita, Caldwell, La Salle, Evangeline, Acadia, Vermilion, St. Landry, Avoyelles, Catahoula, Franklin, Richland and West Carroll Parishes and points in Rapides Parish located on and east of U.S. Highway 165 to points in Kansas located in Wyandotte, Leavenworth, Atchison, Doniphan, Brown, Nemaha, Marshall and Washington Counties and to points in Nebraska (except those located in Chase, Dundy, Hayes, Hitchcock, Frontier, Red Willow, Gosper, Furnas, Phelps, Harlan, Franklin, and Webster Counties); (13) from points in Louisiana located on and east of a line extending from Calcasieu Pass along Louisiana Highway 27 to the junction of Interstate Highway 90, thence along Interstate Highway 90 to the junction of U.S. Highway 171, thence along U.S. Highway 171 to the junction of Louisiana Highway 8, thence along Louisiana Highway 8 to the junction of Louisiana Highway 117, thence along Louisiana Highway 117 to the junction of Louisiana Highway 6, thence along Louisiana Highway 6 to the junction of U.S. Highway 84, thence along U.S. Highway 84 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line (except points located in and east of Morehouse, Ouachita, Caldwell, La Salle, Evangeline, Acadia, Vermilion, St. Landry, Avoyelles, Catahoula, Franklin, Richland, and West Carroll Parishes and points in and east of Rapides Parish located on and east of U.S. Highway 65), to points in Nebraska located on and north of a line extending from the Nebraska-Wyoming State line along the North Platte River to the junction of Nebraska Highway 61, thence along Nebraska Highway 61 to the junction of Nebraska Highway 92, thence along Nebraska Highway 92 to the Nebraska-Iowa State line.

(14) From points in Louisiana located in Orleans, Plaquemines and St. Bernard Parishes to points in Kansas and Nebraska, to points in Oklahoma located in and north of Sequoyah, Muskogee, Wagoner, Tulsa, Creek, Payne, Dewey and Ellis Counties and points in Blaine, Kingfisher and Logan Counties located on and north of Oklahoma Highway 33, to points in Texas located in Lipscomb, Ochiltree, Hansford, Sherman and Dallam Counties; (15) from points in Louisiana located in and east of East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption, and Terrebonne Parishes (except Orleans, Plaquemines and St. Bernard Parishes) to points in Kansas located in and north of Cherokee, Labette, Montgomery, Chautauqua, Elk, Butler, Sedgwick, Kingman, Pratt, Kiowa, Finney, Kearny and Hamilton Counties and points in Ford and Gray Counties located on and north of a line extending from the eastern border of Ford County along U.S. Highway 154 to the junction of U.S. Highway 56 thence along U.S. Highway 56 to the western border of Gray County and to points in Nebraska; (16) from points in Louisiana located in East Carroll, Madison, Tensas, Concordia, Pointe Coupee, West Feliciana, Iberville, St. Martin, Lafayette Iberia and St. Mary Parishes to points in Kansas located in

and north of Cheyenne, Rawlins, Decatur, Norton, Phillips, Smith, Jewell, Mitchell, Cloud, Clay, Geary Wabaunsee, Osage, Franklin and Anderson Counties and points in Bourbon County located on and north of U.S. Highway 54 and to points in Nebraska; (17) from points in Louisiana located in and east of East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption and Terrebonne Parishes to points in Colorado (except those located in Baca, Las Animas, Huerfano, Constilla, Alamosa, Conejos and Archuleta Counties).

(18) From points in Louisiana located on and east of a line extending from the Louisiana-Arkansas State line along U.S. Highway 167 to the Junction of the Vermillion River at Abbeville, thence along the Vermillion River to the Gulf of Mexico (except those points located in and east of East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption and Terrebonne Parishes), to points in Colorado located in Moffat, Routt, Jackson, Larimer, Logan, Sedgwick and Phillips Counties and points in Weld County located on and north of U.S. Highway 34; (K) *Soybean Oil, Corn Oil and Salad Oil*, in bulk, in tank vehicles: (1) from points in Louisiana located in and west of Union, Lincoln, Jackson, Winn, Grant, Rapides, Evangeline, Acadia and Vermillion Parishes to points in North Dakota located in and north of Cass, Barner, Stutsman, Kidder, Burleigh, Morton, Stark, Billings and Golden Valley Counties; (2) from points in Louisiana located in Morehouse, Quachita, Caldwell, La Salle, Avoyelles, St. Landry, Lafayette, Iberia, St. Mary, St. Martin, Iberville, Pointe Coupee, West Feliciana, Concordia, Catahoula, Tensas, Franklin, Madison, Richland, West Carroll and East Carroll Parishes to points in North Dakota to points in South Dakota located in and north of Brookings, Kingsbury, Beadle, Hand, Hyde, Hughes, Stanley and Kaakon Counties and points in Pennington County located on, west and north of a line extending from the southern border along the Cheyenne River to the junction of U.S. Highway 16, thence along U.S. Highway 16 to the eastern border; (3) from points in Louisiana located in and east of East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption and Terrebonne Parishes to points in North Dakota and South Dakota; (L) *Soybean Oil*, in bulk, in tank vehicles, from points in Louisiana to points in Michigan located in and north of Ottawa, Kent, Montcalm, Isabella, Midland and Bay Counties; (M) *Vegetable Oils*, in bulk, in tank vehicles.

(1) From points in Louisiana to points in New York and points in Pennsylvania (except Somerset, Bedford, Fulton, Franklin, Adams, Cumberland, Perry, Dauphin, York, Lancaster, Lebanon, Berks, Chester, Delaware, Philadelphia, Montgomery and Bucks Counties); (2) from points in Louisiana located in and west and north of East Feliciana, East Baton Rouge, Iberville, Assumption and St. Mary Parishes to points in Pennsylvania located in Somerset, Bedford, Fulton, Franklin, Adams, Cumberland, Perry Dauphin, York, Lancaster, Lebanon, Berks, Chester, Delaware, Philadelphia, Montgomery and Bucks Counties; (N) *Refined Vegetable Oils, Shortenings and Fatty Acids*, in bulk, in tank vehicles; from points in Louisiana to points in Michigan; (O) *Vegetable Oil*, in bulk, in tank vehicles; (1) from points in Louisiana located west of a line extending from the Gulf of Mexico along the Vermillion River to the junction of Louisiana Highway 14, thence along Louisiana Highway 14 to the junction of Louisiana Highway 13, thence along Louisiana Highway 13 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line to points in Nevada located in Humboldt County and points in Washoe County located on and north of a line extending from the eastern border along Nevada Highway 34 to junction of Nevada Highway 8A, thence along Nevada 8A to the western border; (2) from points in Louisiana located on and east of a line extending from the Gulf of Mexico along the Vermillion River to the junction of Louisiana Highway 14, thence along Louisiana Highway 14 to the junction of Louisiana Highway 13, thence along Louisiana Highway 13 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line, including the Alexandria Commercial Zone, (except Orleans, Plaquemines and St. Bernard Parishes) to points in Nevada located on and north of U.S. Highway 50, including the Carson City Commercial Zone.

(3) from points in Louisiana located in Orleans, Plaquemines and St. Bernard Parishes to points in Nevada located on and north of a line extending from the Nevada-Utah State line along Nevada Highway 25 to the junction of U.S. Highway 6, thence along U.S. Highway 6 to the junction of U.S. Highway 95, thence along U.S. Highway 95 to the junction of Nevada Highway 3, thence along Nevada Highway 3 to the Nevada-California State line; (P) *Vegetable Oil*, in bulk, in tank vehicles: (1) from points in Louisiana located on and east of a line extending from the Gulf of Mexico along the Vermillion River to the junction of Louisiana Highway 14, thence along Louisiana Highway 14 to the junction of Louisiana Highway 13, thence along Louisiana Highway 13 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line, including the Alexandria Commercial Zone to points in Idaho, Oregon, Washington and Wyoming; (2) from points in Louisiana located west of a line extending from the Gulf of Mexico along the Vermillion River to the junction of Louisiana Highway 14, thence along Louisiana Highway 14 to the junction of Louisiana Highway 13, thence along Louisiana Highway 13 to the junction of U.S. Highway 167, thence along U.S. Highway 167 to the Louisiana-Arkansas State line (excluding the Alexandria Commercial Zone) to points in Idaho located on, west and north of a line extending from the Idaho-Utah State line along unnumbered Highways through Stone, Holbrook, Buist and Crystal to the junction of U.S. Highway 191, thence along U.S. Highway 191 to the juntion of U.S. Highway 26, thence along U.S. Highway 26 to the junction of Idaho Highway 31, thence along Idaho Highway 31 to the Idaho-Wyoming State line, to points in Oregon and Washington and to points in Wyoming located on and north of a line extending from the Wyoming-South Dakota State line along Interstate Highway 90 to the junction of U.S. Highway 16, thence along U.S. Highway 16 to the junction of U.S. Highway 89, thence along U.S. Highway 89 to the junction of Wyoming Highway 22, thence along Wyoming Highway 22 to the Wyoming-Idaho State line.

(3) from points in Louisiana located west of a line extending from the Louisiana-Arkansas State line along the Ouachita River to the northern border of Catahoula Parish, thence along the northern and western borders of Catahoula Parish to the Red River, thence along the Red River to the Atchafalaya River, thence along the Atchafalava River to the western border of Iberville Parish, thence along the Western and southern borders of Iberville Assumption and Terrebonne Parishes to points in California located in Modoc, Siskiyou, Del Norte, Humboldt and Trinity Counties and points in Shasta County located on, north and west of a line extending from the eastern border along California Highway 299 to the junction of California Highway A16, thence along California Highway A16 to the southern border; (4) from points in Louisiana located on and eas tof a line extending from the Louisiana-Arkansas State line along the Ouachita River to the northern border of Catahoula Parish, thence along the northern and western borders of Catahoula Parish to the Red River, thence along the Red River to the Atchafalaya River, thence along the Atchafalava River to the western border of Iberville Parish, thence along the western and southern borders of Iberville, Assumption, and Terrebonne Parishes (except Orleans, Plaquemines and St. Bernard Parishes) to points in California located in and north of San Francisco, Contra Costa, Calaveras and Alpine Counties and points in San Joaquin County located on and north of California Highway 4; (5) from points in Louisiana located in Orleans, Plaquemines and St. Bernard Counties to points in California located in and north of Inyo and Kern Counties and points in Santa Barbara County located on and north of California Highway 166, including the Santa Maria Commercial Zone; (Q) *Acetic Acid*, in bulk, in tank vehicles.

(1) from points in Louisiana (except Cotton Valley) located in and north and west of Morehouse, Ouachita, Jackson, Winn, Natchitoches and Sabine Parishes to points in Georgia located in and north of Chatham, Effingham, Jenkins, Burke, Jefferson, Washington, Hancock, Putnam, Jasper, Newton, Rockdale, De Kalb, Douglas, Paulding and Polk Counties and points in Alabama located in Cherokee, Etowah, De Kalb, Jackson, Marshall, Madison, Morgan, Limestone, Lawrence,

V 401247 DEC 23 75 XUM

Lauderdale, and Colbert Counties; (2) from points in Louisiana (except Cotton Valley) to Louisville, Ky; (3) from points in Louisiana (except Cotton Valley) in and west of East Feliciana, East Baton Rouge, Iberville and Iberia Parishes to Asheville, N.C.; (4) from points in Louisiana (except Cotton Valley) in and west of Concordia, Avoyelles, St. Landry, Lafayette and Vermillion Parishes to Greenville, Ware Shoals and Spartanburg, S. Carolina; (5) from points in Louisiana (except Cotton Valley) to points in Wisconsin, points in Iowa located in and north and east of Worth, Cerro Gordo, Butler, Grundy, Tama, Iowa, Washington, Louisa and Des Moines Counties and points in Illinois located in and north of Henderson, Warren, Knox, Peoria, Marshall, La Salle, Grundy and Will Counties; (6) from points in Louisiana located in and east of Morehouse, Ouachita, Caldwell, La Salle, Grant, Rapides, Allen, Calcasieu and Cameron Parishes to points in Iowa located in and north and east of Lyon, Obrien, Cherokee, Sac, Calhoun, Greene, Boone, Polk, Jasper, Mahaska, Keokuk, Jefferson, Henry and Des Moines Counties (except those points in Iowa described in (5) above); (7) from points in Louisiana to points in Michigan located in and north of Ottawa, Kent, Montcalm, Isabella, Midland and Bay Counties.

(8) from points in Louisiana located in and south and east of Morehouse, Ouachita, Caldwell, La Salle, Grant, Rapides and Vernon Parishes to points in Minnesota located in and north and east of Freeborn, Waseca, Blue Earth, Nicollet, Renville, Kandiyohi, Pope, Douglas, Otter Tail and Clay Counties: (R) *Liquid Petroleum Wax*, in bulk, in tank vehicles: (1) from Baton Rouge, La. to points in Minnesota and to points in Wisconsin on and north of a line beginning at the Wisconsin-Illinois State line and extending north along Wisconsin Highway 69 to junction with Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction with U.S. Highway 14, thence along U.S. Highway 14 to junction with Wisconsin Highway 89, thence along Wisconsin Highway 89 to junction with Highway A, thence along Highway A through Tibbet to junction with Wisconsin Highway 67, thence along Wisconsin Highway 67 to junction with Wisconsin Highway 59, thence along Wisconsin Highway 59 to junction with Wisconsin Highway 164, thence along Wisconsin Highway 164 to junction with Wisconsin Highway 175, thence along Wisconsin Highway 175 to junction with U.S. Highway 45, thence along U.S. Highway 45 to junction with Wisconsin Highway 33 to Port Washington on Lake Michigan; (2) from Baton Rouge, La., to the Upper Peninsula of Michigan; (3) from Baton Rouge, La., to points in Illinois and Kansas; (4) from Baton Rouge, La., to points in South Dakota located on and north of a line extending from the Minnesota-South Dakota State line along U.S. Highway 212 to the South Dakota-Wyoming State line and points in North Dakota; (5) from Baton Rouge, La., to points in Indiana on and north of a line beginning at the Illinois-Indiana State line and extending east along Indiana Highway 54 to junction with the western border of Monroe County, thence along the western, southern and eastern borders of Monroe County to intersection with the northern border of Jackson County, thence along the northern and western border of Jackson, Jennings, Ripley and Dearborn Counties to the Ohio-Indiana State line.

(6) from Baton Rouge, La., to points in California on and north of a line beginning at the California-Arkansas State line extending west along the northern and western border of Imperial County to junction with California Highway 78, thence along California Highway 78 to junction with California Highway 79, thence along California Highway 79 to junction with U.S. Highway 80, thence along U.S. Highway 80 to junction with California Highway 52, thence along California Highway 52 to junction with California Highway 94, thence along California Highway 94 to junction with unnumbered Highway, thence along Unnumbered Highway through Tecate to the United States–Mexican Border; (7) from Baton Rouge, La., to points in Iowa; (S) *Acids and Chemicals* (except petroleum chemicals and except synthetic resins and varnishes), in bulk, in tank vehicles; from points in Louisiana (except Lake Charles or Plaquemines, La., and points within 10 miles of Either City and except the Plant of Monsanto Chemical Co., near Luling, La.) to points in Minnesota; (T) *Acids and Chemicals*, in bulk, (1) from points in Louisiana to points in Idaho, Montana, North Dakota, South Dakota, and Wyoming; (2) from points in Louisiana (except Lake Charles and Plaquemines and within 10 miles of Either City and except from the plant of Monsanto Chemical Co., near Luling, La) to points in Oregon and to points in Utah located in and north and west of Uintah, Carbon, San Pete, Sevier and Millard Counties and to points in Nevada located in and north of White Pine County and that portion of Nye, Esmeralda and Mineral Counties located on and north and west of U.S. Highway 6 including Tonopah.

(3) From points in Louisiana located in and east of Union, Ouachita, Caldwell, La Salle, Catahoula, Concordia, Point Coupee, West Baton Rouge, East Baton Rouge, Ascension, St. James and La Fourche Parishes (except Plaquemines and 10 miles thereof, and except from the plant of Monsanto Chemical Co., near Luling, La.) to points in Utah located in and south of Beaver, Piute, Wayne, Emery, and Grand counties and to points in Nevada located in Lincoln County and that portion of Nye County located south and east of a line extending from the eastern boundary of the county, along U.S. Highway 6 to junction with Nevada Highway 25, thence along Nevada Highway 25 to the eastern boundary of the county and to that portion of Esmeralda and Mineral Counties located south and east of U.S. Highway 6; (4) from points in Louisiana (except Lake Charles and Plaquemines and within 10 miles of Either City and except from the plant of Monsanto Chemical Co., near Luling, La.) to points in California located in and north of Mono, Tuolomine, Calaveras, San Joaquin, Contra Costa and San Francisco Counties; (5) from points in Louisiana located in and east of Webster, Bienville, Red River, Natchitoches, Rapides, Evangeline, Acadia and Vermillion Parishes (except Plaquemines and 10 miles in California located in San Mateo, Alameda, Stanislaus Merced, Mariposa, Madera, Santa Clara and Santa Cruz Counties; (6) from points in Louisiana located in and east of Union, Ouachita, Caldwell, La Salle, Catahoula, Concordia, Point Coupee, West Baton Rouge, East Baton Rouge, Ascension, St. James and La Fourche Parishes (except Plaquemines and 10 miles thereof and except the plant of Monsanto Chemical Co., near Luling, La.) to points in California located in Inyo, Fresno, San Benito, Monterey, San Luis Obispo County and that portion of Kern County located on and north of California Highway 178 extending to and including Bakersfield, thence along California Highway 58 to the western boundary of the county.

(U) *Acids and Chemicals*, in bulk, in tank or hopper vehicles: (1) from points in Louisiana located in and east of Bossier, Bienville, Winn, Grant, Rapides, Avoyelles, St. Landry, St. Martin and Iberia Parishes to points in Iowa (except those located in Lee, Des Moines, Scott, Clinton and Jackson Counties) and to points in Missouri located in and west of Cass, Jackson, Lafayette, Carroll, Chariton, Macon, Knox and Scotland Counties; (2) from points in Louisiana located in and west of Caddo, Red River, Natchitoches, Vernon, Allen, Evangeline, Acadia, Lafayette and Vermillion Parishes to points in Iowa, to points in Illinois located in and west of Adams, Hancock, McDonough, Warren, Knox, Henry, Whiteside, Ogle and Winnebago counties and to points in Missouri located in and north of Cass, Johnson, Pettis, Cooper, Howard, Randolph, Monroe and Marion Counties; (3) from points in Louisiana located in and west of Union, Lincoln, Jackson, Caldwell, La Salle, Avoyelles, Pointe Coupee, Iberville, Iberia, St. Martin and St. Mary Parishes to points in Colorado located in and north of Mesa, Delta, Park, Teller, El Paso, Lincoln, and Cheyenne Counties and points in Gunnison and Chaffee Counties located on and north of a line extending from the western border of Gunnison County along Colorado Highway 133 to the junction of Colorado Highway 135, thence along Colorado Highway 135 to the junction of unnumbered Highway at Almont, thence along Unnumbered Highway to the junction of Colorado Highway 306, thence along Colorado Highway 306 to the junction of U.S. Boundary of the county and U.S. Highway 24, thence along U.S. Highway 24 to the junction of U.S. Highway 285, thence along U.S. Highway 285 to the eastern border of Chaffee County to

points in Kansas located in and north of Wallace, Logan, Gove, Trego, Rush, Barton, Rice, McPherson, Marion, Chase, Lyon, Osage, Franklin and Miami Counties and to points in Nebraska.

(4) From points in Louisiana located in and east of Morehouse, Ouchita, Richland, Franklin, Catahoula, Concordia, West Feliciana, East Baton Rouge, West Baton Rouge, Ascension, Assumption and Terrebonne Parishes to points in Colorado (except those located in Archuleta, Conejos, Costilla, Las Animas and Baca Counties), to points in Kansas located in and north of Hamilton, Kearny, Finney, Hodgeman, Pawnee, Stafford, Reno, Harvey, Butler, Greenwood, Coffey, Anderson and Linn Counties and to points in Nebraska; restricted in (U)(1)–(4) against the transportation of acids and chemicals from Lake Charles and Plaquemines, La., and points within 10 miles thereof, and from the plant of Monsanto Chemical Co., near Luling, La.; (V) *Acids and Chemicals*, in bulk, in tank or hopper vehicles, (1) from points in Louisiana located in Bossier, Caddo, De Soto, Sabine, Beauregard, Calcasieu and Cameron Parishes and points in Vernon Parish located on and west of a line extending from the northern border along Louisiana Highway 117 to the junction of Louisiana Highway 8, thence along Louisiana Highway 8 to the junction of U.S. Highway 171, thence along U.S. Highway 171 to the southern border, (except from Lake Charles), to points in Michigan located in and north of Mason, Lake, Osceola, Clare, Gladwin and Arenac Counties; (2) from points in Louisiana located in and east of Morehouse, Richland, Franklin, Catahoula, Concordia, Pointe Coupee, Iberville, St. Martin and Iberia Parishes to points in Wisconsin located in St. Croix, Polk, Barren, Burnett, Washburn and Douglas Counties and points in Sawyer and Bayfield Counties located on and west of a line extending from the western border of Sawyer County along Wisconsin Highway F to the junction of U.S. Highway 27, thence along U.S. Highway 27 to the western border of Bayfield County.

(3) From points in Louisiana located in and west of Union, Ouachita, Caldwell, La Salle, Avoyelles, St. Landry, Lafayette and Vermillion Parishes (except the Shreveport Commercial Zone) to points in Wisconsin located in and west of Crawford, Vernon, Monroe, Jackson, Wood, Marathon, Langlade, Forest and Florence Counties; (4) from Shreveport, La., and its commercial Zone to points in Wisconsin; (5) from points in Louisiana (except those located in Orleans, Plaquemines and St. Bernard Parishes) to points in Minnesota located in, north and east of Mower, Steele, Rice, Le Seuer, Sibley, McLeod, Meeker, Kandiyohi, Pope, Grant and Wilkin Counties; (6) from points in Louisiana located in Orleans, Plaquemines and St. Bernard Parishes to points in Minnesota located in, north and east of Mower, Steele, Waseca, Blue Earth, Brown and Yellow Medicine Counties and points in Lyon and Redwood Counties located on, north and east of a line extending from the southern borders of Redwood County along Unnumbered Highway, through Lamberton to the junction of Minnesota Highway 68, thence along Minnesota Highway 68 to the western border of Lyon County; restricted in (V)(2)–(6) against transportation from Lake Charles and Plaquemines, La., and points within ten miles thereof and the plant of Monsanto Chemical Co., near Luling, La; (W) *Acids and Chemicals*, in bulk: (1) from points in Louisiana (except Lake Charles or Plaquemines, La., and points within 10 miles of either city and except from the plant of Monsanto Chemical Co., near Luling, La.) to points in Washington; and (2) from Caddo Parish, La., to points in Lake, Porter and La Porte Counties, Ind. The purpose of this filing is to eliminate the following gateways.

(A)(1) Kansas City, Kans.; (2) Kansas City, Mo.; (3) Olathe, Kans., a point in the Kansas City, Mo.-Kansas City, Kans. Commercial Zone; (4) Olathe, Kansas (Kansas City, Kansas Commercial Zone) and Blockson Chemical Co., at or near Joliet, Illinois; (5) Olathe, Kans. (Kansas City, Kans., Kansas City, Mo., Commercial Zone) and Burlington, Iowa; (6) Olathe, Kansas (Kansas City, Kans. Commercial Zone) and Iowa-Guttenberg Terminal, Inc., approximately two miles south of Guttenberg, Iowa; (7)–(8) Kansas City, Mo.; (B)(1)–(6), (C) (D), (E), (F), Tulsa, Okla.; (G)–(H) (1)–(3) Tulsa, Okla., and Kansas City, Kans.-Kansas City, Mo., Commercial Zone (formerly a point known as Turner, Kans.); (H)(4)–(6) Tulsa, Okla., and points that are in both the Okla., and Kansas City, Kans.,-Kansas Commercial Zone (formerly a point known as Turner, Kans.); (H)(7) Tulsa, Okla., and Kansas City, Kans.,-Kanssas City, Mo., Commercial Zone (formerly a point known as Turner, Kans.); (I) Kansas City, Mo.; (J) Memphis, Tenn; (K) Memphis, Tenn., and Clinton, Iowa; (L) Memphis, Tenn., and Muscatine, Iowa; (M) Memphis, Tenn., and St. Louis, Mo.; (N) Memphis, Tenn., and Champaign, Ill.; (O) Memphis, Tenn., and Nebraska; (P)(1)–(2) Memphis, Tenn., and Kansas; (P)(3)–(5) Memphis, Tenn., and Colorado; (Q) (1)–(4) Memphis, Tenn.; (Q)(5)–(6) Memphis, Tenn., and Burlington, Iowa; (Q)(7) Memphis, Tenn., Burlington, Iowa and Muscatine, Iowa; (Q)(8) Memphis, Tenn., Burlington, Iowa and Plantsite of the Hawkeye Chemical Co., at or near Clinton, Iowa; (R)(1) Canton, Mo., and Guttenberg, Iowa; (2) Canton, Mo., Guttenberg, Iowa, and Eau Claire, Wisconsin; (3) Missouri; (4) & (5) Missouri and Berwyn, Ill.; (6) Missouri and Kansas; (7) Trenton, Mo.; (S) points in the Kansas City, Mo. Kansas City, Kans., Commercial zone (a points formerly known as Turner, Kans.); (T)(1) Kansas City, Kans. (a point formerly known as Turner, Kans.); (2)–(6) Kansas City, Kans.-Kansas City, Mo., Commercial Zone (a point formerly known as Turner, Kans.); (U) points that are in both the Olathe, Kans., and the Kansas City, Kans., Commercial Zones (a point formerly known as Turner, Kans.); (V)(1) points that are in both the Olathe, Kans., and Kansas City, Kans., Commercial Zone (a point formerly known as Turner, Kans.), and the plantsite of Blockson Chemical Co., at or near Joliet, Ill.; (2)–(4) points that are in both the Olathe, Kans., and Kansas City, Kans., Commercial Zone (a point formerly known as Turner, Kans.), and Burlington, Iowa; (5) & (6) points that are in both the Olathe, Kans., and Kansas City, Kans., Commercial Zone (a point formerly known as Turner, Kans.) and the plantsite of Iowa-Guttenberg Terminal Inc., located approximately two miles south of Guttenberg, Iowa; (W) Kansas City, Mo.-Knasas City, Kans., Commercial Zone (a point formerly known as Turner, Kans.).

No. MC 92983 (Sub-No. E23), filed June 4, 1974. Applicant: AMERICAN BULK TRANSPORT CO., 818 Grand Ave., Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Contractors' materials and supplies*, in bulk, from points in Kansas, located within 300 miles of Ames, Iowa, to Indianapolis, Ind.; (B) *Such petroleum products*, as are embraced within contractors' materials and supplies, in bulk, in tank vehicles, from points in Kansas located within 300 miles of Ames, Iowa, to points in Illinois located in and north of Adams, Brown, Cass, Menard, Logan, DeWitt, and Piatt Counties and located on and west of U.S. Highway 45 from the southern border of Champaign County to the Illinois-Wisconsin State line; (C) *Such petroleum* and *petroleum products*, as are embraced within contractors' materials and supplies, in bulk, in tank vehicles, from points in Kansas, located within 300 miles of Ames, Iowa, to points in the Upper Peninsula of Michigan; (D) *Such paint* and *paint materials*, as are embraced within contractors' materials and supplies, in bulk, in tank vehicles, (1) from points in Kansas, located within 300 miles of Ames, Iowa, to points in Wisconsin, and (2) from points in Kansas, located within 300 miles of Ames, Iowa, to points in Minnesota located in and east of Lake of the Woods, Beltrami, Hubbard, Wadena, Todd, Stearns, Meeker, McLeod, Sibley, Nicollet, Blue Earth, and Faribault Counties; (E) *Such liquid petroleum gas* as is embraced within contractors' materials and supplies, in bulk, in tank vehicles, from points in Kansas located within 300 miles of Ames, Iowa, to points in Illinois located in and north of Rock Island, Henry, Bureau, Putnam, LaSalle, Grundy, and Kankakee Counties; (F) *Alcoholic beverages*, in bulk, in tank vehicles, from Atchison, Kans., to points in Maryland and New Jersey.

(G) *Sulphuric acid* (except sulphuric acid derived from petroleum or petroleum products), in bulk, in tank vehicles, from the Sunflower Ordnance Works near DeSoto, Kans., to points to Minnesota; (H) *Sulphuric acid*, in bulk, in tank vehicles, (1) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Georgia,

V 40247 DEC 23 75 XUM

Idaho, Indiana, Montana, North Dakota, South Dakota, Washington, and Wyoming, (2) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Kentucky, North Carolina, South Carolina, Delaware, District of Columbia, Maryland, Virginia, and West Virginia, (3) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Arkansas, Colorado, Illinois, and Kansas (except Atchison, Jackson, Pottawatomie, Riley, Geary Wabaunsee, Shawnee, Osage, Jefferson, Douglas, Franklin, Leavenworth, Wyandotte, and Johnson Counties), and to points in Oklahoma, (4) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Arizona, California, Nevada, New Mexico, Oregon, Utah, and Dallas, Tex., (5) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Texas (except Harris, Jefferson, and Orange Counties), and (6) from the Sunflower Ordnance Works near DeSoto, Kans., to points in Missouri and Tennessee: (I) *Soybean oil*, in bulk, in tank vehicles, from points in Kansas to points in New York, restricted against the transportation of crude soybean oil to Port Ivory, and New York City; (J) *Corn oil*, in bulk, in tank vehicles, from points in Kansas to points in New York; (K) *Corn syrup*, in bulk, in tank vehicles, from points in Kansas to points in New York; (L) *Unprocessed vegetable oils*, in bulk, in tank vehicles, from points in Kansas to Champaign, Ill.; (M) *Vegetable oils*, in bulk, in tank vehicles, (1) from points in Kansas to points in Ohio, (2) from points in Illinois located on, south, and east of a line extending from the Illinois-Missouri State line along Illinois Highway 140 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 48, thence along Illinois Highway 48 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 66, thence along U.S. Highway 66 to Chicago (except Champaign), and (3) from points in Kansas on and south of U.S. Highway 24 to points in Illinois located on, south, and east of a line extending from the Illinois-Missouri State line along U.S. Highway 67 to junction Illinois Highway 111, thence along Illinois Highway 111 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Illinois-Wisconsin State line (except those points in Illinois described in (2) above; and (N) *Liquid chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Rhode Island.

The purpose of this filing is to eliminate the gateways of: (A) above, Iowa; in (B) above, Alexandria, Mo.; in (C) above, Guttenberg, Iowa, and Eau Claire, Wis.; in (D) above, Iowa (except Bettendorf, Clear Lake, Coralville, and Dubuque); in (E) above, the site of the terminal outlet of the Mid-American Pipeline Co., at or near Iowa City, Iowa; in (F) above, Kentucky; in (G) above, Kansas City, Mo.; in (H)(1) above, Kansas City, Mo. (Kansas City, Kans., commercial zone); in (H)(2) & (4) above, Kansas City, Mo.; in (H)(3) above, Olathe, Kans. (Kansas City, Mo., commercial zone); in (H)(5) above, Olathe, Kans. (Kansas City Mo., commercial zone), and Lawrence, Kans.; in (H)(6) above, Saginaw, Mo., and points within 15 miles thereof; in (I), (J), & (K) above, Clinton, Iowa; in (L) above, St Louis, Mo.; in (M) above, St. Louis, Mo. (Dupo, Ill., commercial zone); and in (N) above, Muscatine, Iowa.

No. MC 92983 (Sub-No. E24), filed June 4, 1974. Applicant: AMERICAN BULK TRANSPORT CO., 818 Grand Ave., P.O. Box 2508, Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *such polyvinyl acetate, linseed oil, linseed oil blends and products*, and *paint materials*, in bulk, in tank vehicles, as are embraced within acids and chemicals, from Lawrence, Kans., to Houston, Tex.; (B) *Liquid chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Michigan; (C) *Acids* and *chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Kentucky, North Carolina, Ohio, and South Carolina; (D) *Trichloromonofluoromethane, dichlorodifluoromethane, monochlorodifluoremethane, trichlorotrifluoroethane, dichlorothetrafluoroethane*, and *mixtures* thereof, in bulk, in tank vehicles, from Lawrence, Kans., to points in Alabama (except Fox); (E) *Chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Virginia, and West Virginia; (F) *Chemicals* (except those derived from petroleum and petroleum products, synthetic resins and varnishes), in bulk, in tank vehicles, from Lawrence, Kans., to points in Minnesota; (G) *Acids* and *chemicals*, in bulk, in tank vehicles, (1) from Lawrence, Kans., to points in Wisconsin located on and east of a line beginning at the Mississippi River at LaCrosse, Wis., along U.S. Highway 53 to junction with the southern boundary of Eau Claire County, thence along the southern and western boundaries of Eau Claire County and the western boundaries of Chippewa and Rusk Counties, thence along the western boundary of Sawyer County to junction with Namekagon River, thence along the Namekagon River to the southern boundary of Bayfield County, thence along the southern and western boundaries of Bayfield County to Lake Superior, (2) from Lawrence, Kans., to points in Idaho, Montana, North Dakota, South Dakota, and Wyoming.

(3) from Lawrence, Kans., to points in Arizona, California, Nevada, New Mexico, Oregon, and Utah, and (4) from Lawrence, Kans., to points in Arkansas, Colorado, Illinois, Oklahoma, and points in that part of Kansas located in; south, and east of Norton, Graham, Ellis, Barton, Stafford, Reno, Kingman, and Sumn Counties: (H) *Such fats and oils and blends and products thereof* (except those derived from petroleum, soap products, and paints), in bulk, in tank vehicles, as are embraced within chemicals, from Lawrence, Kans., to points in Florida; (I) *Agricultural insecticides*, in bulk, in hopper vehicles and *arsenic acid*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Alabama (except Bay Minette); (J) *Acids* and *chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Mississippi and Tennessee; (K) *Anhydrous ammonia*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Alabama within 400 miles of Woodstock, Tenn.; (L) *Phosphoric acid*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Alabama (except those located in Mobile and Baldwin Counties); (M) *Acids* and *chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Louisiana and Washington; (N) *Chemicals* (except cryogenic liquids), in bulk, in tank vehicles, from Lawrence, Kans., to points in Minnesota (except points east of Minnesota Highway 43); (O) *Chemicals* (except liquid hydrogen, liquid nitrogen, and liquid oxygen to Georgia), in bulk, in tank vehicles, from Lawrence, Kans., to points in Connecticut, Georgia, and Indiana; (P) *Liquid chemicals*, in bulk, in tank vehicles, from Lawrence, Kans., to points in Texas located in, south, and east of Bowie, Morris, Marion, Harrison, Gregg, Rusk, Cherokee, Anderson, Freestone, Limestone, McLennan, Coryell, Hamilton, Mills, Brown, McCulloch, Menard, Scheicher, Crockett, Pecos, and Jeff Davis Counties and points in Reeves County located on and south of U.S. Highway 80; (Q) *Fats*, in bulk, in tank vehicles, from Kansas City, to points in Illinois located in, south, and west of Madison, Macoupin, Sangamon, Menard, Mason, Tazewell, Peoria, Stark, Bureau, Lee, Ogle, and Winnebago Counties (except Champaign); (R) *Unprocessed fats* and *grease*, in bulk, in tank vehicles, from Kansas City, Kans., to Champaign, Ill.; (S) *Fats, grease*, and *tallows*, in bulk, in tank vehicles, from Kansas City, Kans., to Chicago, Illinois, Cincinnati, Ohio, and Memphis, Tenn.

(T) *Fats* (except those used as ingredients in feed), from Kansas City, Kans., to points in Ohio); (U) *Petroleum products* (except cryogenic liquids), requiring temperature control in transit to maintain liquid form, in bulk, in tank vehicles, (1) from points in Kansas to points in Iowa located in and east of Lee, Henry, Louisa, Johnson, Cedar, Jones, Delaware, Clayton, and Allamakee Counties, (2) from points in Kansas to points in Wisconsin located in and east of Ozaukee, Washington, Dodge, Columbia, Sauk, Richland, Vernon, LaCrosse, Jackson, Clark, Marathon, Lincoln, Oneida, and Forest Counties, (3) from points in Kansas located in and south of Hamilton, Kearny, Finney, Hodgeman, Pawnee, Barton, Rice, McPherson, Marion, Chase, Lyon, Greenwood, Woodson, Neosho, and Labette Counties to points in Minnesota located on and east of Minnesota Highway 43 and to points in Wisconsin located in Milkwaukee, Racine, Kenosha, Waukesha, Walworth, Jefferson, Rock, Dane, Green, Iowa, Lafayette, Grant,

Crawford, Trempealeau, Eau Claire, Chippewa, Taylor, Price, Ashland, Iron, and Vilas Counties, (4) from points in Kansas to points in Ohio, Pennsylvania, New York, and West Virginia, (5) from points in Kansas located in and south of Miani, Anderson, Woodson, Greenwood, Elk, Cowley, and Sumner Counties to points in Indiana and points in Kentucky located in and east of Henderson, Daviess, Ohio, Butler, Warren, and Allen Counties, to points in Tennessee located in and east of Macon, Trousdale, Smith, DeKalb, Warren, Grundy, and Marion Counties, and to points in Michigan, and (6) from points in Kansas located in, north, and west of Johnson, Franklin, Coffey, Lyon, Chase, Butler, Sedgwick, Kingman, and Harper Counties to points in Indiana, Kentucky, Tennessee, and Michigan; (V) *Such acids and chemicals* as are embraced within contractor's materials and supplies, in bulk, from points in Kansas located in and west of Sumner, Sedgwick, Harvey, McPherson, Dickinson, Clay, and Washington Counties (except Military and Lawrence), to Indianapolis, Ind.; (W) *Such petroleum products* as are embraced within chemicals, in bulk, in tank vehicles, from points in Kansas (except Military and Lawrence) to points in Wisconsin within the territory bounded by a line beginning at the Mississippi River and extending along U.S. Highway 63 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction U.S. Highway 16, thence along U.S. Highway 16 to LaCrosse, Wis., thence along the Mississippi River to the point of beginning.

(X) *Liquid chemicals* except petroleum products), in bulk, in tank vehicles, (1) from points in Kansas (except Military and Lawrence), to points in Wisconsin (except Polk, Burnett, Washburn, Douglas, and Bayfield Counties), and (2) from points in Kansas located in and south of Atchison, Jackson, Shawnee, Wabaunsee, Geary, Dickinson, Saline, McPherson, Rice, Stafford, Pawnee, Edwards, Ford, Gray, Haskell, Stevens, and Morton Counties (except Military and Lawrence), to points in Wisconsin located in Polk, Burnett, Washburn, Douglas, and Bayfield Counties; and (Y) *Chemicals* (except petroleum chemicals), in bulk, in tank vehicles, (1) from points in Kansas (except Military and Lawrence), located in and east of Smith, Mitchell, Lincoln, Saline, McPherson, Harvey, Butler, and Cowley Counties to points in Iowa located in and east of Winneshiek, Fayette, Buchanan, Linn, Johnson, and Louisa Counties, and (2) from points in Kansas located in and west of Phillips, Osborne, Russell, Ellsworth, Rice, Reno, Sedgwick, and Sumner Counties to points in Iowa located on and east of U.S. Highway 218.

The purpose of this filing is to eliminate the gateways of: in (A), (C), (E), (F), (G)(3), (M), (O), and (U)(4)–(6) above, Kansas City, Mo.; in (B) above, Muscatine, Iowa; in (D) above, Kansas City, Mo., and Marshall County, Ky.; in (G)(1) above, Burlington, Iowa; in (G)(2) above, Kansas City, Kans.; Kansas City, Mo., commercial zone; in (G)(4) above, Kansas City, Kans.-Kansas City, Mo., commercial zone (Olathe, Kans.); in (H),(I) above, Kansas City, Kans.-Kansas City, Mo., commercial zone (Olathe, Kans.), and those points in Arkansas which are in the Memphis, Tenn., commercial zone; in (J) above, Saginaw, Mo., and points within 15 miles thereof; in (K) above, Saginaw, Mo., and points within 15 miles thereof and Woodstock, Tenn.; in (L) above, Saginaw, Mo., and points within 15 miles thereof and Columbia, Tenn.; in (N) above, Fremont, Nebr.; in (P) above, Verona, Mo.; in (Q) above, those points that are in both the St. Louis, Mo.-Dupo, Ill., comercial zones; in (R)&(S) above, St. Louis, Mo.; in (T) above, those points that are both the St. Louis, Mo., and Dupo, Ill., commercial zones; in (U) (1) above, Alexandria, Mo.; in (U)(2)&(3) above, Alexandria, Mo., and Guttenberg, Iowa; in (V) above, Iowa City, Iowa; in (W) above, Coralville, Iowa, a point within five miles of Iowa City, Iowa; and in (X) & (Y) above, Iowa City, Iowa, a point within 15 miles of Windham.

No. MC 92983 (Sub-No. E25), filed June 4, 1974. Applicant: AMERICAN BULK TRANSPORT CO., 818 Grand Ave., P.O. Box 2508, Kansas City, Mo. 64142. Applicant's representative: H. B. Foster (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *such chemicals*, as are embraced within contractors materials and supplies, in bulk, and *chemicals* (except petroleum and petroleum products), in bulk, (1) from points in Kansas (except Military and Lawrence), to points in Minnesota located in Goodhue, Wabasha, Olmstead, Winona, Fillmore, and Houston Counties, (2) from points in Kansas located in Phillips, Norton, Decatur, Rawlins, and Cheyenne Counties to points in Illinois located in and north of Hancock, Schuyler, Cass, Sangamon, Christian, Shelby, Effingham, Jasper, Richland, and Wabash Counties, (3) from points in Kansas located in and west of Republic, Cloud, Mitchell, Lincoln, Russell, Barton, Pawnee, Ford, and Meade Counties (except Phillips, Norton, Decatur, Rawlins, and Cheyenne Counties), to points in Illinois located in and north of Henderson, Warren, Knox, Peoria, Tazewell, McLean, DeWitt, Piatt, Douglas, and Edgar, and (4) from points in Kansas (except Military and Lawrence), located east of Republic, Cloyd, Mitchell, Lincoln, Russell, Barton, Pawnee, Ford, and Meade Counties to points in Illinois located in and north of Mercer, Knox, Stark, Marshall, LaSalle, Grundy, and Kankakee Counties; (B) *Liquid chemicals* (except petroleum products), in bulk, in tank vehicles, (1) from points in Kansas located on and north of U.S. Highway 36 and on and west of U.S. Highway 183 to points in Tennessee located on and east of a line extending from the Tennessee-Kentucky State line along U.S. Highway 27 to the northern boundary of Roane County, thence along the Roane County line to Meigs County, thence along the boundary of Meigs County line to Bradley County, thence along the west boundary of Bradley County to the Tennessee-Georgia State line, (2) from points in Kansas (except Military and Lawrence) to points in Connecticut, New Jersey, and Pennsylvania (except Washington and Greene Counties) and points in Rhode Island, (3) from points in Kansas (except Crawford, Labette, and Cherokee Counties and except Lawrence) to points in Pennsylvania located in Washington and Greene Counties.

(4) From points in Kansas located in and north of Brown, Nemaha, Marshall, Washington, Cloud, Mitchell, Osborne, Rooks, Graham, Sheridan, Thomas, Logan, and Wallace Counties to points in North Carolina located in and west of Surry, Yadkin, Davie, Davidson, Montgomery, Richmond, and Scotland Counties and points in Robeson County located west of Interstate Highway 95, (5) from points in Kansas located in, north, and west of Wyandotte, Leavenworth, Douglas, Osage, Lyon, Chase, Marion, Harvey, Sedgwick, Kingman, and Harper Counties (except Lawrence), to points in North Carolina located in and east of Stockes, Forsyth, Guilford, Randolph, Moore, and Hoke Counties and points in Robeson County located on and east of Interstate Highway 95 (except Pasquotank, Camden, and Currituck Counties), (6) from points in Kansas (except Lawrence and Military) to points in North Carolina located in Pasquotank, Camden, and Currituck Counties, (7) from points in Kansas (except Lawrence and Military) to points in Michigan, (8) from points in Kansas located in, west, and north of Atchison, Jefferson, Shawnee, Wabunsee, Lyon, Chase, Butler, and Sumner Counties to points in Ohio located in and south of Van Wert, Allen, Hardin, Marion, Morrow, Knox, Coshocton, Guernsey, Harrison, and Belmont Counties, (9) from points in Kansas (except Military and Lawrence), to points in Ohio located in and north of Paulding, Putnam, Hancock, Wyandote, Crawford, Richland, Ashland, Holmes, Tuscarawas, and Carroll Counties and points in Jefferson County located on and north of U.S. Highway 22, including the Steubenville commercial zone, (10) from points in Kansas located in Cheyenne and Rawlins Counties to points in Indiana, (11) from points in Kansas located in and west of Republic, Cloud, Ottawa, Lincoln, Ellsworth, Rice, Stafford, Pratt, Kiowa, and Comanche Counties (except Cheyenne and Rawlins Counties (to points in Indiana located in and north of Warren, Fountain, Montgomery, Hendricks, Marion, Hancock, Rush, Fayette, and Union Counties, (12) from points in Kansas (except Lawrence and Military) to points in Indiana located in and north of Newton, Jasper, Pulaski, Fulton, Kosciusko, Whitley, and Allen Counties, and (13) from points in Kansas located in and north of Washington, Republic, Jewell, Smith, Phillips, Norton, Sheridan, Thomas, Logan, and Wallack Counties to points in Kentucky located in and east of Gallatin, Owen, Scott, Fayette, Madison, Jackson, Clay, Knox, and Bell Counties.

V 40 247 DEC 23 75 D XUM

(C) *Chemicals* (except petroleum chemicals) in bulk, in tank vehicles, (1) from points in Kansas located in and surrounded by Johnson, Franklin, Coffey, Greenwood, Butler, Cowley, Sumner, Harper, Barber, Kingman, Reno, McPherson, Saline, Ottawa, Clay, Washington, Marshall, Nemaha, Brown, Doniphan, Atchison, Leavenworth, and Wyandotte Counties (except Lawrence) to points in New York located on and north of a line extending from Lake Ontario along New York Highway 13 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line, thence along the New York Pennsylvania State line to junction New York Highway 17B, thence along New York Highway 17B to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 209, thence along U.S. Highway 209 to junction U.S. Highway 44, thence along U.S. Highway 44 to the New York-Connecticut State line, and (2) from points in Kansas located in and west of Republic, Cloud, Mitchell, Lincoln, Ellsworth, Rice, Stafford, Pratt, Kiowa, and Comanche Counties to points in New York; (D) *Caustic soda*, in bulk, in tank vehicles, from points in Kansas to Houston, Tex.; (E) *Chemicals* (except liquid hydrogen, liquid oxygen, and liquid nitrogen, to missile storage, or missile launching sites, missile test facilities, or manufacturing plants producing liquid oxygen, liquid hydrogen, and liquid nitrogen, and except sulphuric acid from Galena, Kans., and anhydrous ammonia, nitrogen fertilizer solution, aqua ammonia, methanol and antifreeze preparations from Military, Kans.), in bulk, in tank vehicles, from points in Kansas to Memphis, Tenn.; (F) *Chemicals*, in bulk, in tank vehicles, (1) from points in Kansas located in and south of Cheyenne, Rawlins, Decatur, Sheridan, Graham, Rooks, Osborne, Lincoln, Saline, Dickinson, Morris, Lyon, Coffey, Anderson, and Linn Counties to points in New York, (2) from points in Kansas located in, south, and west of Jewell, Cloud, Clay, Riley, Wabaunsee, Osage, Franklin, and Miami Counties to points in Connecticut, Delaware, Massachusetts, New Jersey and to points in New York located in and east of Oswego, Cayuga, Tompkins, and Chemung Counties, (3) from points in Kansas located in and west of Decatur, Sheridan, Graham, Ellis, Barton, Rice, Reno, Sedgwick, and Cowley Counties to points in Kentucky, (4) from points in Kansas located in, west, and south of Phillips, Osborne, Lincoln, Saline, Marion, Chase, Greenwood, Woodson, Neosho, and Crawford Counties to points in Kentucky located in and south of Simpson, Allen, Barren, Metcalfe, Adair, Russell, Pulaski, Clay, Owsley, Breathitt, Knott, Floyd, and Pike Counties.

(5) From points in Kansas located in and south of Cheyenne, Rawlins, Thomas, Sheridan, Graham, Rooks, Russell, Lincoln, Saline, Marion, Chase, Lyon, Coffey, Anderson, and Bourbon Counties to points in Pennsylvania, (6) from points in Kansas located in, south, and west of Jewell, Cloud, Clay, Riley, Wabaunsee, Shawnee, Douglas, and Miami Counties to points in Pennsylvania located in and east of Bradford, Sullivan, Columbia, Schuylkill, Lebanon, and Lancaster Counties, (7) from points in Kansas located in, west, and south of Norton, Graham, Rooks, Russell, Lincoln, Saline, Marion, Chase, Greenwood, Woodson, Neosho, and Crawford Counties to points in West Virginia, (8) from points in Kansas located in and south of Wallace, Logan, Gove, Ness, Rush, Barton, Rice, Reno, Harvey, Butler, Greenwood, Wilson, Neosho, Labette, and Cherokee Counties to points in Ohio, (9) from points in Kansas located in and south of Sherman, Thomas, Gove, Trego, Ellis, Russell, Ellsworth, Saline, Marion, Chase, Lyon, Coffee, Anderson, and Linn Counties to points in Ohio located in and east of Cuyahoga, Summit, Stark, Tuscarawas, Guernsey, Noble, and Washington Counties, (10) from points in Kansas located in and south of Greeley, Wichita, Finney, Hodgeman, Edwards, Pratt, Kingman, Sedgwick, Cowley, Chautauqua, and Montgomery Counties to points in the Lower Peninsula of Michigan, (11) from points in Kansas located in and south of Wallace, Logan, Scott, Lane, Ness, Rush, Barton, Rice, Reno, Harvey, Butler, Greenwood, Wilson, Neosho and Crawford Counties to points in Michigan located in and east of Bay, Saginaw, Shiawassee, Ingham, Jackson, and Hillsdale Counties, (12) from points in Kansas located in and south of Hamilton, Kearny, Finney, Gary, Ford, Kiowa, Pratt, Kingman, Sumner, Cowley, Chautauqua, Montgomery, Labette, and Cherokee Counties to points in Indiana, (13) from points in Kansas located in and south of Greeley, Wichita, Finney, Hodgeman, Pawnee, Stafford, Reno, Sedgwick, Butler, Elk, Wilson, Neosho, and Crawford Counties to points in Indiana located in and east of Elkhart, Kosciusko, Fulton, Cass, Howard, Clinton, Boone, Hendricks, Putnam, Owen, Greene, Daviess, Pike, and Warrick Counties, (14) from points in Kansas located in and south of Hamilton, Kearney, Finney, Gray, Ford, Kiowa, Barber, and Harper Counties to points in Illinois located in, south, and east of Madison, Macoupin, Sangamon, Logan, McLean, Livingston, Grundy, Kendall, Kane, Cook, and Lake Counties, and points in Wisconsin located in Milwaukee, Racine, and Kenosha Counties.

(15) From points in Kansas located in and south of Greeley, Wichita, Finney, Hodgeman, Edwards, Pratt, Kingman, and Sumner Counties to points in Illinois located in and south of Randolph, Perry, Jefferson, Wayne, Richland, and Lawrence Counties, restricted in (F) against the transportation of sulphuric acid from Galena, Kans., and of anhydrous ammonia, nitrogen fertilizer solution, aqua ammonia, methanol and anti-freeze preparations, from Military, Kans.; (G) *Cottonseed oil, soybean oil, blends* and *products* thereof (except those derived from soap products and paint), in bulk, in tank vehicles, from points in Kansas to Macon, Ga., and Jackson, Miss.; (H) *Vegetable oil* and *vegetable oil products* (except those derived from soap products and paint), in bulk, in tank vehicles, (1) from points in Kansas to points in Alabama, Georgia (except Macon), points in Louisiana located in Washington, St. Tammany, Jefferson, Orleans, St. Bernard and Plaquemines Parishes and to points in Mississippi (except Claiborne, Jefferson, Adams, Franklin, Wilkinson, and Amite Counties and except Jackson), (2) from points in Kansas (except those located in and south of Stanton, Grant, Haskell, Gray, Ford, Kiowa, Barber, Harper, Sumner, Cowley, and Chautauqua Counties to points in Louisiana located in West Feliciana, East Feliciana, East Baton Rouge, West Baton Rouge, Ascension, St. James, Assumption, Terrebonne, LaFourche, St. Charles, St. John The Baptist, Livingston, Tangipahoe and St. Helena Parishes and to points in Mississippi located in Claiborne, Jefferson, Adams, Franklin, Wilkinson, and Amite Counties, (3) from points in Kansas located in and north of Decatur, Norton, Phillips, Rooks, Osborne, Mitchell, Ottawa, Clay, Geary, Wabaunsee, Shawnee, Douglas, and Johnson Counties to points in Louisiana located in and surrounded by Morehouse, Quachita, Caldwell, LaSalle, Avoyelles, St. Landry, Lafayette, Iberia, St. Mary, St. Martin, Iberville, Pointe Coupee, Concordia, Tensas, Madison, East Carroll, and West Carroll Parishes, (4) from points in Kansas located in and south of Cheyenne, Rawlins, Decatur, Sheridan, Graham, Rooks, Osborne, Lincoln, Saline, Dickinson, Morris, Lyon, Coffey, Anderson, and Linn Counties to points in New York located in Bronx, New York, Kings, Queens, Nassau, and Suffolk Counties and to points in Pennsylvania located in Philadelphia and Delaware Counties.

(5) From points in Kansas located in and south of Sherman, Logan, Scott, Lane, Ness, Rush, Barton, Rice, McPherson, Marion, Chase, Greenwood, Woodson, Allen, and Bourbon Counties to points in New York located on and east of a line beginning at the United States-Canada International Boundary line along Interstate Highway 81 to junction New York Highway 38, thence along New York Highway 38 to junction New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line (except Bronx, New York, Queens, Nassau, and Suffolk Counties) and to points in Pennsylvania located on and east of a line beginning at the New York-Pennsylvania State line along U.S. Highway 220 to junction Pennsylvania Highway 42, thence along Pennsylvania Highway 42 to junction Pennsylvania Highway 61, thence along Pennsylvania Highway 61 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Pennsylvania Highway 72, thence along Pennsylvania Highway 72 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction B.R. U.S. Highway 15, thence along B.R. U.S. Highway 15 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-Maryland State line (except Delaware and Philadelphia Counties), and (6) from points in Kansas located in and south of Hamilton, Kearny, Finney, Gray, Ford, Kiowa, Pratt, Kingman, Sumner, Cowley, and Chautauqua Counties to points in New York located in and west of Cayuga, Tompkins, and Chemung Counties and to points in Pennsylvania (except as described in (4) and (5) above); (I) *Vegetable* and *animal fats* and *oils*, in bulk, in tank vehicles, (1) from Kansas City, Kans., to points in Arkansas located in and east of Mississippi, Poinsett, Cross, Woodruff, Monroe, Arkansas, Lincoln, Drew, and Ashley Counties, and (2) from Kansas City, Kans., to points in North Carolina, South Carolina, Florida, and points in West Virginia located in McDowell, Mercer, and Monroe Counties and points in Virginia located in and south and west of Alleghany, Rockbridge, Augusta, Albemarle, Greene, Madison, Culpepper, and Stafford Counties and points in Maryland located in and south of Charles, Calvert, and Dorchester Counties and points in Delaware located in Kent and Sussex Counties.

(J) *Crude soybean oil* and *inedible fats* (except inedible animal fats from Wichita), in bulk, in tank vehicles, (1) from points in Kansas to Chicago, Chicago Heights, and Rockford, Ill., (2) from points in Kansas (except Crawford, Cherokee, and Labette Counties), to Decatur, Ill., (3) from points in Kansas located in, north, and west of a line extending from the Kansas-Oklahoma State line along U.S. Highway 83 to to Decatur, Ill., (3) from points in Kanjunction U.S. Highway 56, thence along U.S. Highway 56 to junction Kansas Highway 23, thence along Kansas Highway 23 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction US. Highway 183, thence along U.S. Highway 183 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction US. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line to East St. Louis, Ill., (4) from points in Kansas to New York City and Port Ivory, N.Y., (5) from points in Kansas located in, north, and west of a line extending from the Missouri-Kansas State line along Kansas Highway 96 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Kansas-Oklahoma State line to Cincinnati and Ivorydale, Ohio, and (6) from points in Kansas to Faribault, Minneapolis, and St. Paul, Minn.; (K) *Animal fats* and *oils* (except animal fats from Wichita, Kans.), in bulk, in tank vehicles, (1) from points in Kansas to points in Michigan, (2) from points in Kansas located in and west of Nemaha, Marshall, Riley, Geary, Dickinson, McPherson, Reno, Pratt, and Barber Counties to points in North Carolina located in and east of Granville, Durham, Wake, Harnett, Cumberland, Bladen, Columbus, and Brunswick Counties, (3) from points in Kansas located in and west of Nemaha, Marshall, Washington, Cloud, Mitchell, Osborne, Rooks, Trego, Gove, Logan, Wallace, and Greeley Counties to points in North Carolina located in and west of Person, Orange, Chatham, Lee, Moore, Hoke, and Robeson Counties, and in and east of U.S. Highway 25 and points in South Carolina located in and east of Greenville, Laurens, Newberry, Saluda, Lexington, Orangeburg, Dorchester, and Charleston Counties, (4) from points in Kansas located in and west of Phillips, Graham, Sheridan, Thomas, Logan, and Wallace Counties to points in Kentucky located in and east of Kenton, Pendleton, Harrison, Bourbon, Clark, Estill, Jackson, and Clay Counties and that part of Knox and Bell Counties on and east of a line beginning at the Kentucky-Tennessee State line along U.S. Highway 25E to junction Kentucky Highway 11, thence along Kentucky Highway 11 to the Knox-Clay County line and to points in Tennessee located in and east of Hamblen and Cocke Counties and that part of Clairborne and Grainger Counties on and east of U.S. Highway 25E.

(5) From points in Kansas located in and west and north of Johnson, Franklin, Coffey, Greenwood, Butler, and Cowley Counties to points in Virginia located on and east of a line beginning at the Virginia-North Carolina State line along Virginia Highway 35, to junction U.S. Highway 301, thence along U.S. Highway 301 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Virginia-West Virginia State line, (6) from points in Kansas located in and west of Marshall, Riley, Geary, Dickinson, Marion, Harvey, Sedgwick, Kingman, and Harper Counties to points in Virginia located in and west of Craig, Roanoke, Bedford, Pittsylvania, and in and west of Greensville, Dinwiddie, Amelia, Cumberland, Buckingham, and Nelson Counties, (7) from points in Kansas located in and west of Phillips, Graham, Sheridan, Thomas, Logan, and Wallace Counties to points in Virginia located in and west of Giles, Montgomery, Floyd, Franklin, and Henry Counties, (8) from points in Kansas located in and west of Republic, Cloud, Mitchell, Lincoln, Russell, Barton, Pawnee, Hodgeman, Ford, and Meade Counties to points in West Virginia, (9) from points in Kansas located in and west of Marshall, Riley, Geary, Dickinson, Marion, Harvey, Sedgwick, Kingman, and Harper Counties (except as described in (8) above), to points in West Virginia located in and north and east of Wood, Wirt, Calhoun, Braxton, Nicholas, and Greenbriar Counties, (10) from points in Kansas to points in Connecticut, Delaware, District of Columbia, Maine, points in Maryland located in and east of Carroll, Howard, Montgomery, Prince Georges, Charles and St. Marys Counties, points in Massachusetts, New Hampshire, New Jersey, and New York (except New York City and Port Ivory), points in Pennsylvania located on and east of a line beginning at the Pennsylvania-Ohio State line along U.S. Highway 422 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641, thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 233, to junction U.S. Highway 30, thence along U.S. Highway 30 to junction B.R. U.S. Highway 15, thence along B.R. U.S. Highway 15 and U.S. Highway 15 to the Pennsylvania-Maryland State line, points in Rhode Island and Vermont.

(11) from points in Kansas located in, north, and west of Wyandotte, Johnson, Franklin, Coffey, Greenwood, Butler, and Cowley Counties to points in Maryland and Pennsylvania (except as described in (10) above), (12) from points in Kansas (except as described in (13) below) to points in Ohio located in and north of Williams, Fulton, Lucas, Wood, Sandusky, Erie, Lorain, Guyahoga, Summit, and Portage Counties and that part of Mahoning County north of U.S. Highway 224, (13) from points in Kansas located in and west of Republic, Cloud, Lincoln, Ellsworth, Barton, Pawnee, Edwards, Kiowa, and Clark Counties to points in Ohio located on and north of a line beginning at the Ohio-Indiana State line at Union City, Ohio, extending along Ohio Highway 47 to junction Ohio Highway 185, thence along Ohio Highway 185 to junction Ohio Highway 48, thence along Ohio Highway 48 to junction Ohio Highway 41, thence along Ohio Highway 41 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction with the western boundary of Gallia County, thence along the western boundary of Gallia County to the Ohio River, (14) from points in Kansas to points in Indiana located in Lake, Porter, LaPorte, St. Joseph, Elkhart, LaGrange, and Steuben Counties, (15) from points in Kansas located in and west of Republic, Cloud, Mitchell, Lincoln, Russell, Barton, Pawnee, Hodgeman, Ford, and Meade Counties to points in Idiana located on and north of a line beginning at the Indiana-Illinois State line along U.S. Highway 24 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 29, thence along Indiana Highway 29 to junction Indiana Highway 26, thence along Indiana Highway 26 to junction Indiana Highway 13, thence along Indiana Highway 13 to junction Indiana Highway 28, thence along Indiana Highway 28 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction Indiana Highway 32, thence along Indiana Highway 32 to the Indiana-Ohio State line (except as described in (14) above).

(16) From points in Kansas (except as described in (17) below) to points in Illinois located in and north of Whiteside, Lee, DeKalb, Kane, DuPage, and Cook Counties (except to Chicago, Chicago Heights, and Rockford), and (17) from points in Kansas located in and west of Phillips, Rooks, Ellis, Ness,

V 40247 DEC 23 75 XUM

Hodgeman, Ford, and Meade Counties to points in Illinois located in and north of Mercer, that portion of Knox on and north of U.S. Highway 150, Stark, Marshall, that portion of Livingston, Ford, and Iroquois on and north of a line beginning at the Livingston-Woodford County line along Illinois Highway 116 to junction U.S. Highway 45. The purpose of this filing is to eliminate the gateways of: (A) Iowa, or Iowa City, Iowa, a point within 15 miles of Windham, Iowa; (B)(1) points in (A) above, and Selma, Mo., and points within 5 miles thereof; (B)(2)–(12) Iowa City, Iowa, a point within 15 miles of Windham, Iowa, and Muscatine, Iowa; (B)(13) Iowa City, Iowa, a point within 15 miles of Windham, Iowa, and the plant site of Hawkeye Chemicals Co., at or near Clinton, Iowa; (C) Iowa City, Iowa, a point within 15 miles of Windham, Iowa, and Des Moines, Iowa; (D)(E)(F) Tulsa, Okla.; (G)(H)(I) Memphis, Tenn.; (J) Iowa; and (K) Dubuque, Iowa.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 101]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 19, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating right's applications directly related to and processed on a consolidated record with finance applications filed under Sections 5(2) and 212(b); (4) notices of filing of Sections 5(2) and 210a(b) finance applications; and (5) notices of filing of Section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirement of 49 C.F.R. § 1100.250.

Protests to the granting of the requested authority must be filed with the Commission on or before January 22, 1976 (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commission's General Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest (except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) or section 240(c)(4) of the special rules, and shall include the certification required therein.

No. MC 3700 (Sub-No. 25) (Notice of filing of petition to amend restriction), filed November 19, 1975. Petitioner: MANHATTEN TRANSIT COMPANY, a Corporation, Rte. 46, Elmwood Park, N.J. 07407. Petitioner's representative: Robert E. Goldstein, 8 West 40th Street, New York, N.Y. 10018. Petitioner holds a motor *common carrier* certificate in No. MC 3700 (Sub-No. 25), issued June 24, 1949, authorizing transportation, over regular routes, of *Passengers and their baggage, and express, mail, and newspapers* in the same vehicle with passengers, Between Little Ferry, N.J., and Union City, N.J.: From the intersection of Sylvan Avenue (New Jersey Highway 6) and Main Street in Little Ferry, over Main Street to the junction of Main and Liberty Streets, thence over Liberty Street to Moonachie, N.J., thence over Moonachie Road to Carlstadt, N.J., thence over Washington Avenue to East Rutherford, N.J., thence over Paterson Plank Road to the junction of Paterson Plank Road and New Jersey Highway 3, thence over New Jersey Highway 3 to Secaucus, N.J., also from the junction of New Jersey Highway 3 and renumbered New Jersey Highway 3 (east of the Hackensack River in Secaucus), over renumbered New Jersey Highway 3 (north of the Secaucus business center), to its junction with New Jersey Highway 3 at or near Union Avenue in Secaucus, thence over New Jersey Highway 3 to North Berger, N.J., thence over New Jersey Highway 3 and Depressed Highway to Union City, N.J., and return over the same routes except over Paterson Plank Road. Service is authorized to and from all intermediate points in Little Ferry, Moonachie, and Carlstadt only.

By the instant petition, petitioner seeks to amend the restriction in the above authority so as to authorize service to and from all intermediate points in Little Ferry, Moonachie, Carlstadt, and the New Jersey Sports and Exposition Complex at East Rutherford, N.J. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

Nos. MC 71221 and (Sub-No. 1) (Notice of filing of petition for interpretation or modification of certificates), filed November 19, 1975. Petitioner: THEODORE R. FULLER doing business as TED FULLER'S EXPRESS, 789 Page Blvd., Springfield, Mass. 01104. Petitioner's representative: David M. Marshall, 135 State Street—Suite 200, Springfield, Mass. 01103. Petitioner holds motor *common carrier* certificates in Nos. MC 71221 and (Sub-No. 1), issued June 12, 1941 and May 18, 1950, respectively, authorizing transportation, over irregular routes, in MC 71221, of *Household goods*, between Springfield, Mass., and points in Massachusetts within ten miles of Springfield, on the one hand, and, on the other, points in New Hampshire, Maine, Vermont, Rhode Island, Connecticut, and New York; in MC 71221 (Sub-No. 1), of *New Furniture*, uncrated, between Springfield, Mass., and points within ten miles thereof, on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, and New York.

Petitioner states that the Commission has advised (A) that the commodity description in MC 71221 household goods does not authorize the transportation of gas and electrical appliances from manufacturers to stores and warehouses, and (B) the commodity description in MC 71221 (Sub-No. 1) new furniture covered by cardboard wrappings is not authorized.

By the instant petition, petitioner (1) seeks interpretation of Certificate No. MC 71221 as authorizing by its commodity description, the transportation of "electric and gas appliances"; (2) in the alternative, modify Certificate No. MC 71221 by adding to the commodity description the words "and electric and gas appliances"; (3) interpret Certificate No. MC 71221 (Sub-No. 1) as authorizing the transportation of new furniture whether or not wrapped in paper or cardboard protective coverings (except in crates); (4) in the alternative, modify Certificates No. MC 71221 (Sub-No. 1) by deleting from the commodity description the phrase "uncrated" and substituting therefor the phrase (except in crates); and (5) Grant such other and further relief as is fair and equitable in the circumstances. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 114552 (Sub-No. 31) (Notice of filing of petition to modify certificate), filed November 19, 1975. Petitioner: SENN TRUCKING COMPANY, a Corporation, P.O. Drawer 220, Newberry, S.C. 29108. Petitioner's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, Arlington, Va. 22201. Petitioner holds a motor *common carrier* certificate in No. MC 114552 (Sub-No. 31), issued June 12, 1968, authorizing transportation, over irregular routes, of *Plywood, and molding and stain* when moving at the same time, and in the same vehicle with plywood, from the plant site and warehouse facilities of Vancouver Plywood Company at Charlotte, N.C., to points in Alabama, Delaware, Georgia, Indiana, Kentucky, Maryland, Mississippi, New Jersey, New York, Pennsylvania, Tennessee, and West Virginia.

By the instant petition, petitioner seeks to delete the plant site and warehouse facilities of Vancouver Plywood Company as an origin point in the above authority, and to substitute in lieu thereof, Charlotte, N.C. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 124813 (Sub-No. 61) (Notice of filing of petition to modify certificate), filed November 20, 1975. Petitioner: UMTHUN TRUCKING CO., a Corporation, 910 S. Jackson Street, P.O. Box 166, Eagle Grove, Iowa 50533. Petitioner's representative: James M. Hadge, 1980 Eagle Grove, Iowa 50533. Petitioner's representative: James M. Hadge, 1980 Financial Center, Des Moines, Iowa 50309. Petitioner holds a motor *common carrier* certificate in No. MC 124813 (Sub-No. 61), issued February 2, 1970, authorizing transportation, over irregular routes, of *Dry phosphatic feed ingredients*, from the facilities of Borden, Inc. Chemical Division Smith-Douglass, located in the Port Neal Industrial Complex in Woodbury County, Iowa, to points in Minnesota, Missouri, Kansas, and Colorado, restricted to the transportation of traffic originating at the named origin and destined to points in the states specified.

By the instant petition, petitioner seeks to delete Port Neal Industrial Complex as the location of the shipper in the above authority, and to substitute in lieu thereof "Big Soo Terminal, located in Woodbury County, Iowa. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 134734 (Sub-No. 5) (Correction of notice of filing petition to modify permit), filed October 31, 1975, and published in the FEDERAL REGISTER issue of November 19, 1975, and republished as corrected this issue. Petitioner: NATIONAL TRANSPORTATION, INC., P.O. Box 37465, 14031 L. Street, Omaha, Nebr. 68137. Petitioner's representative: Frederick J. Coffman, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Petitioner holds a motor *contract carrier* permit in No. MC 134734 (Sub-No. 5), issued June 14, 1973, authorizing transportation, over irregular routes, of *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Norfolk, Nebr., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and the District of Columbia, restricted to a transportation service to be performed, under a continuing contract, or contracts, with National Foods, Inc., of Norfolk, Nebr.

By the instant petition, petitioner seeks to modify the contract shipper to read, restricted to a transportation service to be performed under a continuing contract, or contracts, with National Foods, Inc., of Norfolk, Nebr., and Midwestern Beef, Inc., of Lexington, Nebr.

NOTE.—The purpose of this corrected republication is to indicate that petitioner seeks to include Midwestern Beef, Inc., of Lexington, Nebr., in the above described authority, which was omitted from the original publication. Pleadings may be filed with respect to MC 134734 (Sub-No. 5) pursuant to this corrected republication. Any interested person or persons desiring to participate may file an original and six copies of his written representatives, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 111398 (Sub-No. 16), filed November 14, 1975. Applicant: FISCHBACH TRUCKING CO., a Corporation, 921 Sherman Street, Akron, Ohio 44309. Applicant's representative: John P. McMahon, Suite 1800, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between Akron, Ohio, on the one hand, and, on the other, points in Ohio.

NOTE.—The purpose of this application is to convert a Certificate of Registration applicant is seeking to acquire to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) proceeding in MC-F-12656 published in the FEDERAL REGISTER issue of October 30, 1975. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 141490 (Correction) filed October 28, 1975, published in the FEDERAL REGISTER issue of December 4, 1975, and republished, as corrected, this issue. Applicant: QUINCIE W. GIBSON, doing business as, GIBSON TRANSFER CO., 408 East 21st Street, Wichita, Kans. 67214. Applicant's representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products and meat by-products, and articles* distributed by meat packing houses as described in Sections A and C of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in containers (except hides, skins and pieces thereof), from the plant site of Dold Packing Company, Inc., at or near Wichita, Kans., to points in Colorado, Nebraska, Missouri, Oklahoma, Iowa, Arkansas, Louisiana, and Texas and (2) *materials and supplies* used in the processing and packaging of the above-described commodities (except in bulk), from the above-described destination points, to the plant site of Dold Packing Company, Inc., at or near Wichita, Kans.

NOTE.—The purpose of this republication is to state the correct publication. The purpost of this application is to convert a Certificate of Registration applicant is seeking to acquire to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) proceeding in MC-F-12544 published in the FEDERAL REGISTER issue of June 18, 1975. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC-F-12711. Authority sought for purchase by MARTIN TRUCKING, INC., East Poland Ave., Bessemer, PA 16112, of the operating rights and property of MORGAN FREEZE WAY, INC., 165 Brugh Ave., Butler, PA 16001, and for acquisition by W. THAYER MARTIN, also of Bessemer, PA 16112, of control of such rights and property through the purchase. Applicants' attorneys: Henry M. Wick, Jr., 2310 Grant Bldg., Pittsburgh, PA 15219, and Samuel P. Delisi, 604 Law & Finance Bldg., Pittsburgh, PA 15219. Operating rights sought to be transferred: *Fresh meats*, as a *common carrier* over irregular routes, (1) from Denison, Cedar Rapids, Ottumwa, and Estherville, Iowa, and points in Kentucky, to the facilities of Kress-Dobkin Co., Inc., at Pittsburgh, Pa., (2) from points in that part of the New York, N.Y., Commercial Zones as defined by the Commission within which dual operations may be conducted pursuant to the exemption provided in section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), to the facilities described in part (1) above, with restrictions; *meat and meat products*, etc., from Pittsburgh, Pa., to points in New York, New Jersey, Maryland, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in Pennsylvania, Ohio, West Virginia, Maryland, New York, New Jersey, Delaware, Indiana, Illinois, Virginia, Michigan, Kentucky, Tennessee, Missouri, Wisconsin, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12712. Authority sought for purchase by COLONIAL FAST FREIGHT LINES, INC., P.O. Box 10327, Birmingham, AL 35202, of a portion of the operating rights of COLONIAL REFRIGERATED TRANSPORTATION, INC., and for acquisition by C. E. McBRIDE, all of the above-mentioned address, of control of such rights through the purchase. Applicants' attorney: Terry P. Wilson, P.O. Box 10327, Birmingham, AL 35201. Operating rights sought to be transferred: *Aluminum sheets, plates, coils, and tubing*, as a *common carrier* over irregular routes, from the plant site of Revere Copper and Brass, Incorporated, at or near Scottsboro, Ala., to points in Arkansas, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and return with *Aluminum ingots* and *scrap aluminum*, with restriction. Vendee is authorized to operate as a *common carrier* in Alabama, Arkansas, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia. Application has not been filed for tempor ry authority under section 210a(b).

No. MC-F-12713. Authority sought for purchase by CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, MO 65801, of a portion of the operating rights of TRANAMERICAN FREIGHT LINES, INC. (Harold O. Love, Receiver), 5650 Foremost Drive SE., Grand Rapids, MI 49506, and for acquisition by F. G. CAMPBELL, also of Springfield, MO 65801, of control of such rights through the purchase. Applicants' attorneys: Phineas Stevens, P.O. Box 22567, Jackson, MS 39205, and Charles F. Rodgers, 744 Broad St., Newark, NJ 07102. Operating rights sought to be transferred: *General commodities*, with the usual exceptions, as a *common carrier* over regular routes, between Cincinnati, Ohio and St. Louis, Mo., between Cincinnati, Ohio and Pittsburgh, Pa., between St. Louis, Mo., and Indianapolis, Ind., between St. Louis, Mo., and Louisville, Ky., between Cleveland, Ohio and Pittsburgh, Pa., between Cleveland, Ohio and Pittsburgh, Pa., between Indianapolis, Ind., and Cleveland, Ohio, between Springfield and Eaton, Ohio, between Columbus and Cincinnati, Ohio, between Cleveland, Ohio and Buffalo, N.Y., between points in New York, serving the plant sites of the Indiana-Michigan Electric Company and Ayrshire Collieries Corporation located in Sullivan County, Ind., near Fairbanks, Ind., between Rockport, Mo., and St. Joseph, Mo., serving the intermediate points of Fairfax, Craig, and Mound City, Mo., between Shenandoah, Iowa, and the junction of U.S. Highways 59 and 275, two miles south of Tarkio, Mo., serving the intermediate point of Tarkio, Mo., and the off-route point of Westboro, Mo., with restriction, between Sidney, Iowa, and Omaha, Nebr., serving the intermediate and off-route points of Council Bluffs, Knox, and Anderson, Iowa, between Bedford, Iowa, and Omaha, Nebr., serving all intermediate points, and the off-route points of Gravity, Yorktown, Braddyville, Essex, Farragut, Randolph, Malvern, and Coin, Iowa, between Seneca, Kans., and St. Joseph, Mo., serving all intermediate points, and the off-route points of Robinson, Kans., and those in Kansas within 25 miles of Seneca, between Seneca, Kans., and Kansas City, Mo., serving the intermediate and off-route points of Kansas City, Kans., and points in Kansas within 12 miles of Seneca, between St. Joseph, Mo., and Marysville, Kans., serving the intermediate and off-route points of Seneca, Horton, Everset, Denton, Baker, Willis, Severance, Waterville, Blue Rapids, Irving, Bendena, Reserve, White Cloud, and Iowa Point, Kans., between Smithville, Mo., and Kansas City, Kans., serving the intermediate and off-route points of Nashau, Gashland, Linden, Trimble, Platte City, Parkville, Grayson, and Gower, Mo., and those in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, as defined by the Commission, serving the site of the General Electric Company Parts Warehouse located near New Concord, Ohio, as an off-route point in connection with carrier's presently authorized regular-route operations, serving Ingomar, Ohio (located approximately 2.4 miles south of U.S. Highway 35 in Preble County, Ohio), as an off-route point in connection with carrier's regular route operations between Springfield and Eaton, Ohio.

General commodities, with the usual exceptions over irregular routes, between points in that part of Atchison County, Mo., south of Missouri Highway 4 (not including Tarkio and Rockport, Mo.), and that part of Holt County, Mo., north of U.S. Highway 59 (not including Mound City and Craig, Mo.), on the one hand, and, on the other, Omaha, Nebr., and points in Iowa south of U.S. Highway 6 and west of U.S. Highway 65, between points in Atchison County, Mo., and that part of Holt County, Mo., within 20 miles of Fairfax, Mo., on the one hand, and, on the other, points in Iowa, with restriction, between Kansas City, North Kansas City, and Independence, Mo., Kansas City, Kans., and points within ten miles of the points named; over one alternate route for operating convenience only. Vendee is authorized to operate as a *common carrier* in Alabama, Arkansas, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Wisconsin and the District of Columbia. Application has been filed for temporary authority under section 210a (b).

No. MC-F-12714. Authority sought for control by LOWELL L. TREFFERT, INC., 3323 Rodney Lane, Racine, WI 53406, of H. IMME & SONS, INC., W145 S6550 Tess Corners Drive, Muskego, WI 53150. Applicants' attorney: Richard C. Alexander, 710 North Plankinton Ave., Milwaukee, WI 53203. Operating rights sought to be controlled: Prepared foods, as a *contract carrier* over irregular routes, from Milwaukee, Wis., to points in the Upper Peninsula of Michigan. LOWELL L. TREFFERT, INC., is authorized to operate as a *common carrier* in Ohio and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

NOTICE

POTT INDUSTRIES, INC., 611 East Marceau Street, St. Louis, Missouri 63111, represented by Mr. Charles W. Chapman, 425 Thirteenth Street NW., Suite 1212, Washington, D.C. 20004, hereby gives notice that, on the 25th day of November, 1975, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act seeking retroactive approval of its 1969 and 1973 acquisitions, through stock ownership, of Gulf Mississippi Marine Corporation and DeFelice Marine Contractors, Inc., which application is assigned Finance Docket No. 28068. The latter two companies are not subject to Interstate Commerce Commission jurisdiction except that they both engage in Gulf-Coast marshland chartering operations exempted from regulation under Section 302(e) of the Act pursuant to the Commission's decision in Ex Parte No. 146.

Until recently, it had been held that approval of such acquisitions under Section 5(2) of the Act was not needed. *The Valley Line Co. v. United States*, 390 F. Supp. 435 (W.D. Pa. 1975) set aside this rule and, thereafter, the Commission issued a Notice in the FEDERAL REGISTER on July 28, 1975, directing that parties having consummated transactions of this kind, cure any technical deficiencies by filing appropriate applications with the Commission. This application's being filed in accordance with the said Notice. Applicant performs no common carrier operations itself, although it does control Federal Barge Lines, Inc., and Gulf Canal Lines, Inc., two common carriers which together operate throughout the inland waterways system of the United States.

No application for temporary authority has been filed under Section 311(b) of the Act.

In the opinion of the applicant, the application shows that its approval will not constitute a major Federal action which will have a significant effect on the quality of the human environment. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of an effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), *supra*, Part (b)(1)-(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than thirty days from the first publication in the FEDERAL REGISTER.

POTT INDUSTRIES, INC.

NOTICE

ROBERT W. BLANCHETTE, RICHARD C. BOND AND JOHN H. McARTHUR, TRUSTEES OF THE PROPERTY OF PENN CENTRAL TRANSPORTATION COMPANY, 6 Penn Center Plaza, Philadelphia, County of Philadelphia, Pennsylvania, 19104, and DELAWARE AND HUDSON RAILWAY COMPANY, 40 Beaver Street, Albany, New York 12207, represented by Mr. John A. Daily, Commerce Counsel, Penn Central Transportation Company, Room 1138, Six Penn Center Plaza, Philadelphia, Pennsylvania 19104, and Mr. William P. Quinn, Strong, Barnett, Hayes & Quinn, Room 1700, Two Girard Plaza, Broad & South Penn Square, Philadelphia, Pennsylvania 19102, hereby give notice that, on the 1st day of December, 1975, they filed with the Interstate Commerce Commission at Washington, D.C., a joint application under Section 5(2) of the Interstate Commerce Act for an order seeking approval of their joint control over the Albany Port Railroad Corporation, which application is assigned Finance Docket No. 28072.

It is proposed that the Albany Port Railroad Corporation will ease the existing railroad properties of the Albany Port District Commission lying in the County of Albany, State of New York, which application was filed with the Interstate Commerce Commission under Section 1(18) and assigned Finance Docket No. 28069, and will thereafter conduct the railroad operations presently being conducted by the Albany Port District Commission.

In the opinion of the applicants, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Natl. Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), *supra*, Part (b)(1)-(5), 340 ICC 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

Robert W. Blanchette, Richard C. Bond and John H. McArthur, Trustees of the property of Penn Central Transportation Company and the Delaware and Hudson Railway Company.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 145]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 23, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 12, 1976. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75986. By order of December 18, 1975 the Motor Carrier Board approved the transfer to Pernsteiner Trucking, Inc., Medford, Wisconsin, of that portion of Permit No. MC 133967 (Sub-No. 8), issued June 5, 1962, to John R. McCormick, doing business as McCormick Trucking, (Ronald E. Priebe, Trustee in Bankruptcy), Catawba, Wisconsin, authorizing the transportation of doors, sashes, window units, screens, frames and window blinds, from Ladysmith, Wis., to points in South Dakota, North Dakota, Montana, Minnesota, Wisconsin, Illinois, Indiana, Ohio, Kentucky, Michigan, Nebraska, Pennsylvania, West Virginia, and Iowa for the account of Weather Shield Mfg., Inc. of Medford, Wis. Frank L. Nikolay, Box 455, Colby, Wis. 54421, attorney for applicants.

No. MC-FC-76103. By order entered December 15, 1975 the Motor Carrier Board approved the transfer to Southern Germent Distributing Corp., Miami, Fla., of the operating rights set forth in Certificate No. MC-121120 (Sub-No. 2), issued November 18, 1971, to Miji Corporation, doing business as Jerry Lang and Sons Delivery Service, Inc., N. Miami, Fla., authorizing the transportation of general commodities, with exceptions, between specified counties in Florida. Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048, practitioner for applicants.

No. MC-FC-76199. By order entered December 18, 1975, the Motor Carrier Board approved the transfer to Carravelle Airways Inc., Niagara Falls, N.Y., of the operating rights set forth in Certificate No. MC-116658, issued August 5, 1959, to Philip Dury, Sr., Niagara Falls, N.Y., authorizing the transportation of passengers and their baggage, in special operations, in round-trip sightseeing or pleasure tours, limited to the transportation of not more than seven passengers in any one vehicle, but not including the driver thereof and not including children under ten years of age who do not occupy a seat or seats, in seasonal operations, between April 15 and October 15, inclusive, of each year, beginning and ending at Niagara Falls, N.Y., and points in Niagara County, N.Y., within six miles thereof, and extending to ports of entry on the United States-Canada Boundary line at Niagara Falls and Lewiston, N.Y. Howard C. Heaney, 2634 Welch Ave., Niagara Falls, N.Y. 14303 for transferee and Philip Dury, Sr., 631 35th St., Niagara Falls, N.Y., 14301, transferor.

No. MC-FC-76243. By order entered December 18, 1975, the Motor Carrier Board approved the transfer to Interstate Van & Storage Co., Inc., Brooklyn, N.Y., of the operating rights set forth in Certificate No. MC-70691, issued November 14, 1962, to Archie Rowe Moving & Storage, Inc., Brooklyn, N.Y., authorizing the transportation of household goods, as defined by the Commission, between New York, N.Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. Morris Honig, 150 Broadway, New York, N.Y. 10038, attorney for applicants.

[Notice No. 44]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 19, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice

V 401247 DEC 23 75 XUM

thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969,, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 11220 (Deviation No. 27), GORDONS TRANSPORTS, INC., 185 W. McLemore Ave., Memphis, Tenn. 38101, filed December 5, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Memphis, Tenn., over U.S. Highway 78 to Tupelo, Miss., thence over U.S. Highway 45 to Shannon, Miss., thence over Alternate U.S. Highway 45 to junction U.S. Highway near Brooksville, Miss., thence over U.S. Highway 45 to Mobile, Ala., thence over Interstate Highway 10 to the Alabama-Mississippi State line, thence over U.S. Highway 90 to Orange Grove, Miss., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Memphis, Tenn., over U.S. Highway 51 to Jackson, Miss., thence over U.S. Highway 49 to Hattiesburg, Miss., thence over U.S. Highway 98 to Lucedale, Miss., thence over Mississippi Highway 63 to Pascagoula, Miss., thence over U.S. Highway 90 to Orange Grove, Miss., and return over the same route.

No. MC 41432 (Deviation No. 27) (Correction), EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207, filed November 21, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Memphis, Tenn., over Interstate Highway 40 to Nashville, Tenn., thence over Interstate Highway 65 to Louisville, Ky., thence over Interstate Highway 71 to junction Interstate Highway 75, thence over Interstate Highway 75 to Detroit, Mich., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Memphis, Tenn., over U.S. Highway 61 to junction U.S. Highway 67, thence over U.S. Highway 67 to St. Louis, Mo., thence over U.S. Highway 66 to Chicago, Ill., thence over U.S. Highway 20 to Elkhart, Ind., thence over Indiana Highway 15 to the Michigan-Indiana State line, thence over Michigan Highway 103 to Mottville, Mich., thence over U.S. Highway 12 to Detroit, Mich., and return over the same route. (The purpose of this republication is to show the correct destination point as Toledo, Ohio in lieu of Detroit, Mich., on applicant's deviation route and service route.)

No. MC 59856 (Deviation No. 5), SALT CREEK FREIGHTWAYS, 3333 West Yellowstone, Casper, Wyo. 82601, filed December 9, 1975. Carrier's representative: John Davidson, Suite 805, Midland Bank Bldg., Billings, Mont. 59101. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Atlantic City, Wyo., over Wyoming Highway 28 to Farson, Wyo., thence over U.S. Highway 187 to Jackson, Wyo., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Atlantic City, Wyo., over Wyoming Highway 28 to junction U.S. Highway 287, thence over U.S. Highway 287 to Lander, Wyo., thence over Wyoming Highway 789 to Riverton, Wyo., thence over U.S. Highway 26 to Jackson, Wyo., and return over the same route.

By the Commission.

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

DECEMBER 19, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Colorado Docket No. 28609—Extension filed August 20, 1975. Applicant: CITY STORAGE AND TRANSFER, INC., 3625 Walnut Street, Boulder, Colo. 80301. Applicant's representative: Stockton and Lewis, The 1650 Grant St. Bldg., Denver, Colo. 80203. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of (1) *General commodities*, (except household goods), between points in the Counties of Boulder, Larimer and Weld, State of Colorado, and for occasional service throughout the State of Colorado and each of the counties thereof. Restriction: The holder or operator herein when transporting commodities other than those exempt by the Commission from the 20 percent penalty clause shall charge a rate which is at least 20 percent greater than the rate charged on scheduled line-haul service by competing carriers; and (2) *household goods*, between points in the State of Colorado. Household goods as used in part (2) means personal effects and property used or to be used in a dwelling when part of the equipment or supply of such dwelling; furniture, fixtures, equipment and the property of stores, offices, museums, institutions, hospitals or other establishments when part of the stock, equipment or supply of such stores, offices, museums, institutions, hospitals or other establishments; and articles which because of their unusual nature or value require specialized handling and equipment usually employed in moving household goods, including objects of art, displays and exhibits. Restriction: Applicant shall not be permitted to establish a branch office or employ an agent in any other town or city except in the County of Boulder. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place scheduled for February 25, 1976 at 10 a.m., in the Hearing Room of the Commission, 500 Columbine Bldg., 1845 Sherman Street, Denver, Colo. Requests for procedural information should be addressed to the Department of Regulatory Agencies, The Public Utilities Commission, 500 Columbine Building, 1845 Sherman Street, Denver, Colo. 80203 and should *not* be directed to the Interstate Commerce Commission.

Florida Docket No. 750721-CCT filed December 2, 1975. Applicant: CROWN COURIER SYSTEMS, INC., 9999 N.E. 2nd Avenue, Miami, Fla. 33138. Applicant's representative: Richard B. Austin, 214 Palm Coast II Bldg., 5255 N.W. 87th Avenue, Miami, Fla. 33178. Certificate of Public Convenience and Necessity sought to operate a freight service as a common carrier as follows: Transportation of *Advertising material; accounting data and papers; legal documents and papers; manufacturers' samples; medical equipment, supplies, materials and medical treatment items; machine tools, parts and replacement parts; data processing equipment, supplies, parts and data processing products; business machines; replacement parts and business machines supplies; business papers and records; engineering and architectural documents and papers; and printed material*, between all points and places in Dade, Broward, Palm Beach, and Monroe Counties, Florida on irregular routes and schedules the transportation

of the above commodities under the following conditions: Restricted to shippers having exclusive use of the vehicle in which their shipment moves and with all deliveries to be performed within four hours or pick up.

Service to be performed on an on-call basis, 24 hours a day, seven days a week, with exclusive use of vehicle being from point of origin to point of destination. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304 and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

TUESDAY, DECEMBER 23, 1975

PART II:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Human Development

REHABILITATION PROGRAMS AND ACTIVITIES

Vending Facilities for Blind Licensees

V40247 DEC 23 75 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Human Development

[45 CFR Part 1369]

REHABILITATION PROGRAMS AND ACTIVITIES

Vending Facilities for Blind Licensees

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Commissioner of the Rehabilitation Services Administration with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations revoke Part 409 of Chapter IV of Title 45 of the Code of Federal Regulations and amend Chapter XIII of Title 45 of the Code of Federal Regulations by adding Part 1369 in order to implement the Randolph-Sheppard Act Amendments of 1974 (Pub. L. 93–516).

Part 1369 provides for the designation of the State vocational rehabilitation agency administering the State's vocational rehabilitation program for blind individuals as the State licensing agency for purposes of administering the State's vending facility program for blind licensees. Part 1369 also specifies the role of the State licensing agency in the location and operation of vending facilities on Federal property and provides for the distribution of vending machine income from certain vending machines on Federal property to blind licensees operating vending facilities on such Federal property, or, as appropriate, to the State licensing agency in accordance with an established distribution formula.

In addition, Part 1369 provides for arbitration by an ad hoc arbitration panel established by the Secretary of Health, Education, and Welfare in a dispute arising between a blind licensee and a State licensing agency or between a State licensing agency and a property managing department, agency or instrumentality of the United States.

Additional requirements relating to the provision to blind licensees of vocational and other training services, as vocational rehabilitation services, and the role and function of an elected State Committee of Blind Licensees have also been added.

Part 1369 also incorporates new comprehensive rules covering the maintenance and operation of Federal property by any property managing department, agency, or instrumentality of the United States, insofar as vending facilities are affected. These comprehensive rules cover such matters as the assigning of priority to blind licensees of State licensing agencies in the operation of vending facilities on Federal property except where the interests of the United States would be adversely affected; the designation of satisfactory sites for the location and operation of vending facilities in Federal property to be acquired or otherwise occupied; the operation of cafeterias by blind licensees; and the terms of permits issued by property managing departments, agencies, or instrumentalities of the United States for the operation of vending facilities by blind licensees.

Special attention is directed to § 1369.31 concerning the acquisition and occupation of property by any department, agency, or instrumentality of the United States. Since Section 2(d) of the Act provides that any determination affecting the inclusion of a satisfactory site on property to be acquired or otherwise occupied by the Federal Government is the joint responsibility of the Secretary of Health, Education, and Welfare and the appropriate State licensing agency, the absence of written objections from State licensing agencies concerning this proposed policy during the comment period will be considered to constitute concurrence with the Secretary's determination that, as indicated in § 1369.31(c), a building which (a) does not contain a minimum of 15,000 square feet of interior space when the building provides services to the public, or (b) houses fewer than 100 Federal Government employees, is not capable of supporting a vending facility operated by a blind person.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Commissioner, Rehabilitation Services Administration, Department of Health, Education, and Welfare, Washington, D.C. 20201, on or before February 6, 1976. Such comments will be open for inspection in Room 3323 of the Department's offices at 330 C Street, SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m., (Area Code 202, 245–0079).

Dated: August 11, 1975.

ANDREW S. ADAMS,
Commissioner, Rehabilitation Services Administration.

Approved: August 11, 1975.

STANLEY B. THOMAS, Jr.,
Assistant Secretary for Human Development.

Approved: December 12, 1975.

DAVID MATHEWS,
Secretary.

Chapter IV of Title 45 of the Code of Federal Regulations is revised by revoking Part 409 and Chapter XIII of Title 45 of the Code of Federal Regulations is amended by adding Part 1369 as follows:

PART 1369—VENDING FACILITY PROGRAM FOR THE BLIND ON FEDERAL AND OTHER PROPERTY

Sec.

Subpart A—Definitions

1369.1 Terms.

Subpart B—The State Licensing Agency

1369.2 Application for designation as a State licensing agency; general.
1369.3 Application for designation as State licensing agency; content.
1369.4 State rules and regulations.
1369.5 Approval of application for designation as State licensing agency.
1369.6 Operator ownership of vending facilities.
1369.7 The issuance and conditions of licenses.
1369.8 Distribution and use of income from vending machines on Federal property.
1369.9 The setting aside of funds by the State licensing agency.
1369.10 The maintenance and repair of vending facilities.
1369.11 Training programs for blind licensees.
1369.12 Access to program information.
1369.13 Evidentiary hearings and arbitration of operator complaints.
1369.14 The State Committee of Blind Vendors.
1369.15 Use of serving arrangements.
1369.16 Permit for the establishment of vending facilities.
1369.17 Suspension of designation as State licensing agency.

Subpart C—Federal Property Management

1369.30 The location and operation of vending facilities for blind licensees on Federal property.
1369.31 Acquisition and occupation of Federal property.
1369.32 Collection and distribution of vending machine income from vending machines on Federal property.
1369.33 Operation of cafeterias by blind licensees.
1369.34 Application for permits.
1369.35 Terms of permit.
1369.36 Enforcement procedures.
1369.37 Arbitration of State licensing agency complaints.
1369.38 Reports.

AUTHORITY: Sec. 2, 49 Stat. 1559, as amended; 20 U.S.C. 107a.

Subpart A—Definitions

§ 1369.1 Terms.

Unless otherwise indicated in this part, the terms below are defined as follows:

(a) "Act" means the Randolph-Sheppard Vending Stand Act (Pub. L. 74–732), as amended by Pub. L. 83–565 and Pub. L. 93–516, 20 U.S.C., ch. 6A, Sec. 107.

(b) "Blind licensee" means a blind person licensed to operate a vending facility on Federal or other property.

(c) "Blind person" means a person who, after examination by a physician skilled in diseases of the eye or by an optometrist, whichever such person shall select, has been determined to have

(1) Not more than 20/200 central visual acuity in the better eye with correcting lenses, or

(2) An equally disabling loss of the visual field as evidenced by a limitation to the field of vision in the better eye to such a degree that its widest diameter subtends an angle of no greater than 20°.

(d) "Commissioner" means the Commissioner of the Rehabilitation Services Administration.

(e) "Direct competition," when referring to a vending machine or a vending facility other than a vending facility operated by a blind licensee, means the presence and operation of such vending machine or such vending facility on the same premises as a vending facility operated by a blind licensee, which vends articles or services of a type authorized by a permit and is so located that it attracts customers who would otherwise patronize the vending facility operated by a blind licensee, except that vending machines or vending facilities operated in areas serving employees the majority of whom normally do not have direct access to the vending facility operated by a blind licensee shall not be considered to be in direct competition with the vending facility operated by a blind licensee.

(f) "Federal property" means any building, land, or other real property owned, leased, or occupied by any department, agency or instrumentality of the United States (including the Department of Defense and the United States Postal Service), or any other instrumentality wholly owned by the United States, or by any department or agency of the District of Columbia or any territory or possession of the United States.

(g) "Individual location, installation, or facility" means a building configuration which houses Federal employees.

(h) "License" means a written instrument issued by the State licensing agency to a blind person under this part, authorizing such person to operate a vending facility on Federal or other property.

(i) "Net proceeds" means the amount remaining from the sale of articles or services of vending facilities, and any vending machine income accruing to blind licensees after the cost of such sale and other expenses (excluding set-aside charges required to be paid by such blind licensees) have been deducted.

(j) "Nominee" means a nonprofit agency or organization designated by the State licensing agency through a written agreement to act as its agent in the provision of services to blind licensees under the State's vending facility program.

(k) "Operator" means a blind person licensed to operate a vending facility on Federal or other property.

(l) "Other property" means property which is not Federal property and on which vending facilities are established or operated by the use of any funds derived in whole or in part, directly or indirectly, from the operation of vending facilities on any Federal property.

(m) "Permit" means the official authorization given a State licensing agency by a department, agency or instrumentality in control of the maintenance, operation, and protection of Federal property, or person in control of other property, whereby the State licensing agency is authorized to establish a vending facility.

(n) "Program" means all the activities of the licensing agency under this part related to vending facilities on Federal and other property.

(o) "Satisfactory site" means an area determined by the Secretary

(1) to have a minimum of 150 square feet available for vending facility purposes; and

(2) to have sufficient electrical, plumbing, heating, and ventilation outlets for the location and operation of a vending facility by a blind licensee.

(p) "Secretary" means the Secretary of Health, Education, and Welfare.

(q) "State" means a State, territory, possession, Puerto Rico, or the District of Columbia.

(r) "State vocational rehabilitation agency" means that agency in the State providing vocational rehabilitation services to the blind as the sole State agency under a State plan for vocational rehabilitation services approved pursuant to the provisions of the Rehabilitation Act of 1973 (29 U.S.C., ch. 16).

(s) "State licensing agency" means the State agency designated by the Commissioner under this part to issue licenses to blind persons for the operation of vending facilities on Federal and other property, and may also refer to the State vocational rehabilitation agency.

(t) "United States" includes the several States, territories, and possessions of the United States, Puerto Rico, and the District of Columbia.

(u) "Vending facility" means automatic vending machines, (other than those operated by the United States Postal Service for the sale of postage stamps or other postal products and services), cafeterias, snack bars, cart service, shelters, counters, and such other appropriate auxiliary equipment which may be operated by blind licensees and which is necessary for the sale of newspapers, periodicals, confections, tobacco products, foods, beverages, and other articles or services dispensed automatically or manually and prepared on or off the premises in accordance with all applicable health laws, and including the vending or exchange of chances for any lottery authorized by State law and conducted by an agency of a State within such State.

(v) "Vending machine", for the purpose of assigning vending machine income under this part, means an unattended coin or currency operated machine which dispenses any articles automatically or manually or which dispenses services when such services are authorized under a permit to be sold by a blind licensee, except that those machines operated by the United States Postal Service for the sale of postage stamps or other postal products and services shall not be considered to be vending machines.

(w) "Vending machine income" means receipts (other than those of a blind licensee) from vending machine operations on Federal property, after cost of goods sold (including reasonable service and maintenance costs such as payroll and related expenses, depreciation, insurance, repairs, waste removal, taxes and licenses, warehousing, delivery and similar expenses including reserves for replacement), where the machines are operated, serviced, or maintained by, or with the approval of, a department, agency, or instrumentality of the United States, or commissions paid (other than to a blind licensee) by a commercial vending concern which operates, services, and maintains vending machines on Federal property for, or with the approval of, a department, agency, or instrumentality of the United States.

(x) "Vocational rehabilitation services" means those services as defined in § 1361.1(ee) (1) and (2) of this chapter.

Subpart B—The State Licensing Agency

§ 1369.2 Application for designation as a State licensing agency; general.

(a) An application for designation as a State licensing agency may be submitted only by the State vocational rehabilitation agency providing vocational rehabilitation services to the blind under an approved State plan for vocational rehabilitation services under Part 1361 of this chapter.

(b) Such application shall be:

(1) Submitted in writing to the Commissioner;

(2) Approved by the chief executive of the State; and

(3) Transmitted over the signature of the executive officer of the State agency making application.

§ 1369.3 Application for designation as State licensing agency; content.

(a) An application for designation as a State licensing agency under § 1369.2 shall indicate:

(1) The State licensing agency's legal authority to administer the program, including its authority to promulgate rules and regulations to govern the program;

(2) The State licensing agency's organization for carrying out the program, including a description of the methods for coordinating the State's vending facility program and the State's vocational rehabilitation program, with special reference to the provision of such post-employment services necessary to assure that the maximum vocational potential of each operator is achieved;

(3) The broad policies and standards to be employed in the selection of suitable locations for vending facilities;

(4) The policies to be followed in making suitable vending facility equipment and adequate initial stocks of merchandise available to an operator, and the sources of funds to be used therefor;

(5) The sources of funds for the management of the program and the amounts of funds, if any, to be set aside from the proceeds of the operation of vending facilities;

(6) The policies and standards governing the relationship of the State licensing agency to the operators, including their selection, duties, supervision, transfer, promotion, financial participation, rights to a full evidentiary hearing concerning a State licensing agency action, and, where necessary, rights for the submittal of complaints to an arbitration panel;

(7) The methods to be followed in providing suitable training, including on-the-job training and, where appropriate, upward mobility training, to blind persons selected for licensing under the program;

(8) The arrangements made or contemplated, if any, for the utilization of the services of any nominee agency or organizations other than the State li-

V 401247 DEC 23 75 XUM

censing agency under § 1369.15; the agreements therefor and the services to be provided; the procedures for the supervision and control of the services provided by such agency or organization and the methods used in evaluating services received, the basis for remuneration, and the fiscal controls and accounting procedures;

(9) The arrangements made or contemplated, if any, for the vesting in accordance with the laws of the State, of the right, title to, and interest in vending facility equipment or stock (including vending machines), used in the program, in a nominee of the State licensing agency to hold such right, title to, and interest for program purposes; and

(10) The assurances of the designated State licensing agency that it will:

(i) Cooperate with the Commissioner in carrying out the purposes of the Act;

(ii) Take effective action, including the termination of licenses, to carry out full responsibility for the management and operating of each vending facility in its program in accordance with its established rules and regulations, this part, and the terms and conditions governing the permit;

(iii) Submit promptly to the Commissioner for approval a description of any changes in the legal authority of the State licensing agency, its rules and regulations, operator agreements, schedules for the setting aside of funds, contractual arrangements for the furnishing of services by a nominee of the State licensing agency, and any other matters which form a part of the application.

(iv) If it intends to set aside, or cause to be set aside, funds from the net proceeds of the operation of vending facilities, obtain a prior determination by the Commissioner that the amount of such funds to be set aside is reasonable;

(v) Furnish each operator a copy of its rules and regulations and a description of the arrangements for providing services, and take adequate steps to assure that each operator understands the provisions of the permit and any agreement under which he operates, as evidenced by his signed statements;

(vi) Submit to an arbitration panel those grievances of any blind licensee unresolved after a full evidentiary hearing;

(vii) Adopt accounting procedures and maintain financial records in a manner necessary to provide for each vending facility and for the State's vending facility program a classification of financial transactions in such detail as is sufficient to enable evaluation of performance; and

(viii) Maintain records and make reports in such form and containing such information as the Commissioner may require, make such records available for audit purposes, and comply with such provisions as the Commissioner may find necessary to assure the correctness and verification of such reports.

(b) An application submitted by a State licensing agency under § 1369.2 shall be accompanied by a copy of State rules and regulations (or proposed rules and regulations) affecting the administration and operation of the State's vending facility program.

§ 1369.4 State rules and regulations.

(a) The State licensing agency shall promulgate rules and regulations which have been approved by the Commissioner and which shall be adequate to enable the State licensing agency to carry out its full responsibilities under this part. Such rules and regulations shall be adequate to assure the effective conduct of the State's vending facility program and the operation of each vending facility in accordance with this part and with the regulations and conditions of each department, agency, and instrumentality in control of the maintenance, operation, and protection of Federal property, including the conditions contained in permits, as well as in all applicable Federal and State laws, local ordinances and regulations.

(b) Such rules and regulations and amendments thereto shall be filed or published in accordance with State law.

(c) Such rules and regulations shall include provisions adequate to insure that the right, title to, and interest in each vending facility used in the program and the stock will be vested in accordance with the laws of the State in only the following:

(1) The State licensing agency; or

(2) Its nominee, subject to the conditions specified in § 1369.15(b); or

(3) The operator, in accordance with State determination.

(d) Notwithstanding the provisions of paragraph (c) of this section, any right, title to, or interest which existed on June 30, 1955, in stock may continue so long as:

(1) The interest is in the stock of a facility established under the program prior to July 1, 1955, and

(2) The operator was licensed in the program (whether or not for the operation of the vending facility in question) prior to July 1, 1955.

§ 1369.5 Approval of application for designation as State licensing agency.

When the Commissioner determines that an application submitted by a State vocational rehabilitation agency under § 1369.2, and the accompanying rules and regulations (or proposed rules and regulations) indicate a plan of program operations which will stimulate and enlarge the economic opportunities for the blind, and which will meet all other requirements of this part, he shall approve the application and shall designate the applying State vocational rehabilitation agency as the State licensing agency.

§ 1369.6 Operator ownership of vending facilities.

(a) If a State licensing agency determines under § 1369.4(c) that the right, title to, and interest in a vending facility may be vested in the operator, the State licensing agency shall enter into a written agreement with each operator who is to have such ownership. Such agreement shall contain in full the terms and conditions governing such ownership in accordance with criteria in the State licensing agency's regulations, any applicable Federal regulations, and the terms and conditions of the permit. The criteria established to govern the determination that the title may be so vested shall contain reasonable provisions to enable an operator to purchase vending facility equipment and to ensure that no individual will be denied the opportunity to become an operator because of his inability to purchase the vending facility equipment or the initial stock;

(b) The State licensing agency shall establish in writing and maintain policies determining whether the operator-owner or the State licensing agency shall be required to maintain the vending facility in good repair and in an attractive condition and replace worn-out or obsolete equipment; and if the former, such policies shall provide that upon such operator-owner's failure to do so, the State licensing agency may make or cause to be made, the necessary maintenance, replacement, or repairs and make equitable arrangements for reimbursement;

(c) Where the operator owns such equipment and is required to maintain the vending facility in good repair and in an attractive condition and replace worn-out or obsolete equipment, or agrees to purchase additional new equipment, service charges for determining such amount shall be established by the State licensing agency in writing;

(d) Where the operator owns such equipment, the State licensing agency shall retain a first option to repurchase such equipment, and in the event the operator-owner dies, or for any other reason ceases to be a licensee, or transfers to another vending facility, ownership of such equipment shall become vested in the State licensing agency subject to an obligation on its part to pay to such operator-owner or his estate, the fair value therein as determined in accordance with methods defined in its regulations;

(e) The owner-operator, his personal representative or next of kin shall be entitled to an opportunity for a full evidentiary hearing with respect to the determination of the amount to be paid by the State licensing agency for an operator's ownership in the equipment.

§ 1369.7 The issuance and conditions of licenses.

(a) The State licensing agency shall establish in writing and maintain objective criteria for licensing qualified applicants, including a provision for giving preference to blind persons who are in need of employment. Such criteria shall also include provisions to assure that licenses will be issued only to persons who are determined by the State licensing agency to be:

(1) Blind;

(2) Citizens of the United States; and

(3) Certified by the State vocational rehabilitation agency as qualified to operate a vending facility.

(b) The State licensing agency shall further provide for the issuance of licenses for an indefinite period but subject to suspension or termination if, after affording the operator an opportunity for a full evidentiary hearing, the State licensing agency finds that the vending facility is not being operated in accordance with its rules and regulations, the terms and conditions of the permit, or the terms and conditions of the agreement with the operator.

(c) The State licensing agency shall further establish in writing and maintain policies governing the duties, supervision, transfer and financial participation of the operators.

§ 1369.8 Distribution and use of income from vending machines on Federal property.

(a) Vending machine income from vending machines on Federal property which has been disbursed to the State licensing agency by a property managing department, agency, or instrumentality of the United States under § 1369.32 shall accrue to each blind licensee operating a vending facility on Federal property in each State in an amount not to exceed the average net income of the total number of blind licensees within such State, as determined each fiscal year on the basis of each prior year's operation, except that vending machine income shall not accrue to any blind licensee in any amount exceeding either the average net income of the total number of blind licensees in the United States, or the amount that such licensee was receiving on January 1, 1974, whichever is higher. No limitation shall be imposed on income from vending machines, combined to create a vending facility, when such facility is maintained, serviced, or operated by a blind licensee. Vending machine income disbursed by a property managing department, agency or instrumentality of the United States to a State licensing agency in excess of the amounts eligible to accrue to blind licensees in accordance with this paragraph shall be retained by the appropriate State licensing agency.

(b) Vending machine income which is retained under paragraph (a) of this section by a State licensing agency shall be used by such agency for the esablishment of retirement or pension plans, for health insurance contributions, and for the provision of paid sick leave and vacation time for blind licensees in such State, if it is so determined by a majority vote of blind licensees licensed by the State licensing agency, after such agency has provided to each such licensee information on all matters relevant to such purposes. Any vending machine income not necessary for such purposes shall be used by the State licensing agency for the maintenance and replacement of equipment, the purchase of new equipment, management services, and assuring a fair minimum return to operators of vending facilities. Any assessment charged to blind licensees by a State licensing agency shall be reduced pro rata in an amount equal to the total of such remaining vending machine income.

§ 1369.9 The setting aside of funds by the State licensing agency.

(a) The State licensing agency shall establish in writing the extent to which funds are to be set aside or caused to be set aside from the net proceeds of the operation of the vending facilities and, to the extent applicable, from vending machine income under § 1369.8(b) in an amount determined by the Commissioner to be reasonable.

(b) Funds may be set aside under paragraph (a) of this section only for the purposes of:

(1) Maintenance and replacement of equipment;

(2) The purchase of new equipment;

(3) Management services;

(4) Assuring a fair minimum of return to operators of vending facilities; or

(5) The establishment and maintenance of retirement or pension funds, health insurance contributions, and provision for paid sick leave and vacation time, if it is so determined by a majority vote of blind licensees licensed by the State licensing agency, after such agency provides to each such licensee information on all matters relevant to such proposed purposes.

(c) The State licensing agency shall further set out the method of determining the charge for each of the above purposes listed in paragraph (b) of this section, which will be designed to prevent, so far as is practicable, a greater charge for any purpose than is reasonably required for that purpose. The State licensing agency shall maintain adequate records to support the reasonableness of the charges for each of the purposes listed in this section.

§ 1369.10 The maintenance and repair of vending facilities.

The State licensing agency shall maintain (or cause to be maintained) all vending facilities in good repair and in an attractive condition and shall replace or cause to be replaced worn-out and obsolete equipment as required to ensure the continued successful operation of the facility.

§ 1369.11 Training program for blind licensees.

The State licensing agency shall ensure that effective programs of vocational and other training services, including personal and vocational adjustment, books, tools, and other training materials, shall be provided to blind individuals as vocational rehabilitation services under the Rehabilitation Act of 1973 (Pub. L. 93–112), as amended by the Rehabilitation Act Amendments of 1974 (Pub. L. 93–516). Such programs shall include on-the-job training in all aspects of vending facility operation for blind persons with the capacity to operate a vending facility, and upward mobility training (including further education and additional training or retraining for improved work opportunities) for all blind persons to whom licenses have been issued. The State licensing agency shall further ensure that post-employment services shall be provided to blind licensees as vocational rehabilitation services as necessary to assure that the maximum vocational potential of such licensees is achieved and suitable employment of such licensees is maintained.

§ 1369.12 Access to program information.

Each blind licensee under this part shall be provided access to all financial data of the State licensing agency relevant to the operation of the State vending facility program, including quarterly and annual financial reports, provided that such disclosure does not violate applicable Federal or State laws pertaining to the disclosure of confidential information. State licensing agency staff shall be available at the request of a blind licensee to assist in the interpretation of such financial data.

§ 1369.13 Evidentiary hearings and arbitration of operator complaints.

(a) The State licensing agency shall specify in writing and maintain procedures whereby such agency affords an opportunity for a full evidentiary hearing to each blind licensee (which procedures shall also apply to cases under § 1369.6(e)) dissatisfied with any State licensing agency action arising from the operation or administration of the vending facility program. When such blind licensee is dissatisfied with any action taken or decision rendered as a result of such hearing, he may file a complaint with the Secretary.

(b) The filing of a complaint under paragraph (a) of this section with either the State licensing agency or the Secretary shall indicate consent by the blind licensee for the release of such information as is necessary for the conduct of a full evidentiary hearing or the hearing of an ad hoc arbitration panel.

(c) Upon receipt of a complaint filed by a blind licensee under this section, the Secretary shall convene an ad hoc arbitration panel which shall, in accordance with the provisions of 5 U.S.C. ch. 5, subchapter II, give notice, conduct a hearing, and render its decision which shall be final and binding on the parties except that such decision shall be subject to appeal and review as a final agency action for purposes of the provisions of 5 U.S.C. ch. 7.

(d) The arbitration panel convened by the Secretary to hear the grievances of blind licensees shall be composed of three members appointed as follows:

(1) One individual designated by the State licensing agency;

(2) One individual designated by the blind licensee; and

(3) One individual not employed by the State licensing agency or, where appropriate, its parent agency, who shall be jointly designated by the other members of the panel and who shall serve as chairman of the panel.

(e) If either the State licensing agency or the blind licensee fails to designate a member of an arbitration panel, the Secretary shall designate such member on behalf of such party.

V 40247 DEC 23 75 XUM

(f) The decisions of an arbitration panel convened by the Secretary under this section shall be matters of public record and shall be published in the FEDERAL REGISTER.

(g) The Secretary shall pay all reasonable costs of arbitration under this section in accordance with a schedule of fees and expenses which shall be published in the FEDERAL REGISTER.

(h) The provisions of this section shall not require the participation of grantors of permits for the operation of vending facilities on property other than Federal property.

§ 1369.14 The State Committee of Blind Vendors.

(a) The State licensing agency shall provide for the biennial election of a State Committee of Blind Vendors which shall be fully representative of all blind licensees in the State program.

(b) The State Committee of Blind Vendors shall:

(1) Participate with the State licensing agency in major administrative decisions and policy and program development decisions affecting the overall administration of the State's vending facility program;

(2) Receive and transmit to the State licensing agency grievances at the request of blind licensees and serve as advocates for such licensees in connection with such grievances;

(3) Participate with the State licensing agency in the development and administration of a State system for the transfer and promotion of blind licensees;

(4) Participate with the State licensing agency in the development of training and retraining programs for blind licensees; and

(5) Sponsor, with the assistance of the State licensing agency, meetings and instructional conferences for blind licensees within the State.

§ 1369.15 Use of servicing arrangements.

(a) The State licensing agency may enter into an agreement whereby another agency or organization undertakes to furnish services to licensed operators. Such agreement shall be in writing and shall contain provisions which:

(1) Clearly insure the retention by the State licensing agency of full responsibility for the management and operation of all phases of the program;

(2) Specify the type and extent of the services to be provided under such agreement;

(3) Provide that no charges will be collected from operators except as specified in such agreement;

(4) Specify that such other agency or organization may not be allowed to exercise any function with respect to funds for the purchase of new equipment or for assuring a fair minimum of return to operators, except to collect and hold solely for disposition in accordance with the order of the State licensing agency any charges authorized for those purposes by the licensing agency; and

(5) Specify that only the State licensing agency shall have control with respect to selection, placement, financial participation and termination of the operators, and the preservation, utilization, and disposition of program assets.

(b) If the State licensing agency permits any agency or organization other than an operator to hold any right, title to, or interest in vending facilities or stock, the arrangement shall be one permitted by State law and shall specify in writing that all such right, title to, or interest is held by such agency or organization as the nominee of the State licensing agency for program purposes and subject to the paramount right of the State licensing agency to direct and control the use, transfer, and disposition of such vending facilities or stock.

§ 1369.16 Permit for the establishment of vending facilities.

Prior to the establishment of each vending facility, the State licensing agency shall submit and have approved, in accordance with the requirements of this part (or in accordance with procedures of the person in control of other property), an application for a permit setting forth the location, the amount of space to be occupied, the type of facility or equipment, the types of articles and services to be offered for sale at each vending facility, including the number, location and type of vending machines and other terms and conditions desired to be included in the permit.

§ 1369.17 Suspension of designation as State licensing agency.

(a) If the Commissioner has reason to believe that, in the administration of the program, there is a failure on the part of any State licensing agency to comply substantially with the Act and this part, he shall so inform such agency in writing, setting forth, in detail, the areas in which there is such failure and giving it a reasonable opportunity to comply.

(b) If, after the lapse of a reasonable time, the Commissioner is of the opinion that such failure to comply still continues and that the State licensing agency is not taking the necessary steps to comply, he shall offer to such agency, by reasonable notice in writing thereto and to the chief executive of the State, an opportunity for a hearing before the Secretary (or person designated by the Secretary) to determine whether there is a failure on the part of such agency to comply substantially with the provisions of the Act and of this part.

(c) If it is thereupon determined that there is a failure on the part of such agency to comply substantially with the Act and this part, appropriate written notice shall be given to such agency and to the chief executive of the State suspending such agency's designation as licensing agency effective 90 days from the date of such notice. Upon the suspension of such designation, vending machine income from vending machines on Federal property due for accrual to the State licensing agency under § 1369.32 shall be retained in escrow by the department, agency, or instrumentality of the United States responsible for the maintenance, operation and protection of the Federal property on which such vending machines are located, pending redesignation of the State licensing agency.

(d) If, before the expiration of such 90 days, the Secretary (or person designated by him) determines that the State licensing agency is taking the necessary steps to comply, he may postpone the effective date of such suspension for such time as he deems necessary in the best interest of the program.

(e) If, prior to the effective date of such suspension, the Secretary (or person designated by him) finds that there is no longer a failure on the part of the State licensing agency to comply substantially with the provisions of the Act and this part, he shall so notify the agency and the chief executive of the State, in which event the suspension of the designation shall not become effective.

Subpart C—Federal Property Management

§ 1369.30 The location and operation of vending facilities for blind licensees on Federal property.

(a) Each department, agency, or instrumentality of the United States in control of the maintenance, operation, and protection of Federal property shall assure that, whenever feasible, one or more vending facilities for operation by blind licensees shall be located on all Federal property *Provided* that the location or operation of such facility or facilities would not adversely affect the interests of the United States.

(b) Blind persons licensed by State licensing agencies shall be given priority in the operation of vending facilities on any Federal property except where the interests of the United States would be adversely affected.

(c) Any limitation on the location or operation of a vending facility for blind licensees by a department, agency or instrumentality of the United States based on a finding that such location or operation or type of location or operation would adversely affect the interests of the United States shall be fully justified in writing to the Secretary who shall determine whether such limitation is warranted. A determination made by the Secretary concerning such limitation shall be binding on any department, agency, or instrumentality of the United States affected by such determination. The Secretary shall publish such determination in the FEDERAL REGISTER along with supporting documents directly relating to the determination.

(d) A vending facility for a blind licensee shall not be located or operated in any area which directly interferes with employee work stations.

(e) Priority in the awarding of contracts for the operation of concessions in areas administered by the National Park Service shall be given in accordance with the provisions of Pub. L. 89-249 (October 9, 1965).

§ 1369.31 Acquisition and occupation of Federal property.

(a) Effective January 2, 1975, no department, agency, or instrumentality of the United States shall undertake to acquire by ownership, rent, or lease, or to otherwise occupy, in whole or in part, any building unless, after consultation with the head of such department, agency, or instrumentality and with the State licensing agency, it is determined by the Secretary that such building includes a satisfactory site or sites for the location and operation of a vending facility by a blind licensee. In those cases where a purchase contract, an agreement to lease, or other similar commitment was entered into prior to January 2, 1975, the provisions of this paragraph shall not apply.

(b) Effective January 2, 1975, no department, agency, or instrumentality of the United States shall undertake to occupy, in whole or in part, any building which is to be constructed, substantially altered, or renovated, or in the case of a building which is occupied on January 2, 1975 by a department, agency, or instrumentality of the United States, no such department, agency, or instrumentality shall undertake to substantially alter or renovate such building, unless it is determined by the Secretary that the design for such construction, substantial alteration, or renovation includes a satisfactory site or sites for the location and operation of a vending facility by a blind licensee. In those cases where a design contract or other similar commitment was entered into prior to January 2, 1975, the provisions of this paragraph shall not apply.

(c) The provisions of paragraphs (a) and (b) of this section shall not apply when the Secretary and State licensing agency concur in determining that the number of people using the property is or will be insufficient to support a vending facility. The Secretary has determined that buildings in which fewer than 100 Federal Government employees are or will be located each normal working day or which contain less than 15,000 square feet of interior space to be utilized for Federal Government purposes when such buildings will be utilized to provide services to the public, constitute buildings which meet the foregoing requirement.

(d) Pursuant to paragraphs (a) and (b) of this section, each such department, agency, or instrumentality planning to undertake the occupation, acquisition, renovation, or relocation of a building shall provide to the appropriate State licensing agency and to the Secretary written notice of its intention to occupy, acquire, renovate, or relocate such building at least 60 days prior to such intended occupation, acquisition, renovation or relocation. Such written notice shall be by certified or registered mail with return receipt and shall provide assurances that a satisfactory site or sites for the location or operation of a vending facility by a blind person is included in such plans and that the State licensing agency shall be afforded the opportunity to determine the suitability of the proposed site or sites for the location and operation of a vending facility by a blind person prior to the completion of the final space layout for the building. The receipt of such written notice shall be acknowledged in writing promptly by the State licensing agency but no later than within 30 days.

(e) When the State licensing agency determines under this section that the Federal property does not contain a satisfactory site because the number of persons frequenting the Federal property is or will be insufficient to support a vending facility, and the Secretary concurs with such determination, the provisions of paragraphs (a), (b), and (d) of this section shall not apply.

(f) Each department, agency, and instrumentality of the United States, when leasing property in privately owned buildings, shall make every effort to lease property capable of accommodating a vending facility. When, however, such department, agency, or instrumentality is leasing part of a privately owned building in which prior to the execution of the lease, the lessor or any of his tenants had entered into a contract for the operation of a restaurant or other food facility in a part of the building not included in such lease and the operation of a vending facility by a blind person would be in proximate and substantial direct competition with such restaurant or other food facility, the provisions of paragraphs (a), (b), and (d) of this section shall not apply.

§ 1369.32 Collection and distribution of vending machine income from vending machines on Federal property.

(a) The on-site official responsible for the Federal property of each property managing department, agency, or instrumentality of the United States, in accordance with established procedures of such department, agency, or instrumentality, shall be responsible for the collection of, and accounting for, vending machine income from vending machines on Federal property under his control and shall otherwise ensure compliance with the provisions of this section.

(b) Effective January 2, 1975, 100 per centum of all vending machine income from vending machines on Federal property which are in direct competition with a vending facility operated by a blind licensee shall accrue to the State licensing agency which shall disburse such income to such blind licensee operating such vending facility on such property provided that the total amount of such income accruing to such blind licensee does not exceed the maximum amount determined under § 1369.8(a). In the event that there is income from such vending machines in excess of the maximum amount which may be disbursed to the blind licensee under § 1369.8(a), such additional income shall accrue to the State licensing agency for purposes determined in accordance with § 1369.8(b).

(c) Effective January 2, 1975, 50 per centum of all vending machine income from vending machines on Federal property which are not in direct competition with a vending facility operated by a blind licensee shall accrue to the State licensing agency which shall disburse such income to the blind licensee operating such vending facility on such property. In the event that there is no blind licensee, such income shall accrue to the State licensing agency, except as indicated under paragraph (d) of this section. The total amount of such income disbursed to such blind licensee shall not exceed the maximum amount determined under § 1369.8(a). In the event that there is income from such vending machines in excess of the maximum amount which may accrue to the blind licensee under § 1369.8(a), such additional income shall accrue to the State licensing agency for purposes determined in accordance with § 1369.8(b).

(d) Effective January 2, 1975, 30 per centum of all vending machine income from vending machines, which are not in direct competition with a vending facility operated by a licensee and which are on Federal property at which at least 50 per centum of the total hours worked on the premises occurs during a period other than normal working hours, shall accrue to the State licensing agency which shall disburse such income to the blind licensee operating a vending facility on such property. In the event that there is no blind licensee on such property, such income shall accrue to the State licensing agency. The total amount of such income disbursed to such blind licensee shall not exceed the maximum amount determined under § 1369.8(a). In the event that there is income from such vending machines in excess of the maximum amount which may be disbursed to the blind licensee under § 1369.8(a), such additional income shall accrue to the State licensing agency for purposes determined in accordance with § 1369.8(b).

(e) The determination that a vending machine on Federal property is in direct competition with a vending facility operated by a blind licensee shall be the responsibility of the on-site official responsible for the Federal property of each property managing department, agency or instrumentality of the United States, in consultation with the State licensing agency.

(f) In the case of vending machine income which, prior to the effective date of this part, has been disbursed to a blind licensee by a property managing department, agency, or instrumentality from proceeds which accrued from operations subsequent to January 2, 1975, pursuant to agreements in effect prior to such time, such income may be deducted, at the discretion of such property managing department, agency or instrumentality, from vending machine income due to the State licensing agency under paragraphs (b), (c), or (d) of this section.

(g) All arrangements pertaining to the operation of vending machines on Federal property not covered by contract with, or by permits issued to, State

V 40247 DEC 23 75 D XUM

licensing agencies, shall be renegotiated on the scheduled date of renewal subsequent to January 1, 1975 for consistency with the provisions of this section.

(h) The provisions of this section shall not apply to income from vending machines within retail sales outlets under the control of post exchange or ships' stores systems authorized under Title 10 of the United States Code; to income received from the Veterans Canteen Services; or to income from vending machines not in direct competition with a blind vending facility at individual locations, installations, or facilities on Federal property the total of which at such individual locations, installations, or facilities does not exceed $3,000 annually.

(i) The provisions of this section shall not operate to preclude pre-existing or future arrangements, or regulations of departments, agencies or instrumentalities of the United States, under which blind licensees or State licensing agencies may:

(1) Receive a greater percentage or amount of vending machine income than that specified in paragraphs (b), (c), and (d) of this section, or

(2) Receive vending machine income from individual locations, installations, or facilities on Federal property the total of which at such individual locations, installations, or facilities does not exceed $3,000 annually.

§ 1369.33 Operation of cafeterias by blind licensees.

(a) Priority in the operation of cafeterias on Federal property shall be afforded to blind licensees when the Secretary determines, on an individual basis, and after consultation with the appropriate property managing department, agency, or instrumentality, that such operation can be provided at a reasonable cost, with food of a high quality comparable to that currently provided employees, whether by contract or otherwise.

(b) In order to establish the ability of blind licensees to operate a cafeteria in such a manner as to provide food service at comparable cost and of comparable high quality as that available from other providers of cafeteria services, the appropriate State licensing agency shall be invited to respond to solicitations for offers when a cafeteria contract is contemplated by the appropriate property managing department, agency, or instrumentality. Such solicitatons for offers shall establish criteria under which all responses will be judged. Such criteria may include sanitation practices, personnel, staffing, menu pricing and portion sizes, menu variety, budget and accounting practices. If the proposal received from the State licensing agency is judged to be within a competitive range, the property managing department, agency, or instrumentality shall consult with the Secretary as required under paragraph (a) of this section.

(c) All arrangements pertaining to the operation of cafeterias on Federal property not covered by contract with, or by permits issued to, State licensing agencies shall be renegotiated on the scheduled date of renewal pursuant to the provisions of this section.

§ 1369.34 Application for permits.

Applications for permits for the operation of vending facilities other than cafeterias shall be made in writing on the appropriate form, submitted to the on-site official responsible for the Federal property of the property managing department, agency, or instrumentality and approved by the delegated representative of the head of such department, agency, or instrumentality.

§ 1369.35 Terms of permit.

Every permit shall describe the location of the vending facility and vending machines located other than on the facility premises and shall be subject to the following provisions:

(a) The permit shall be issued in the name of the applicant State licensing agency which shall:

(1) Prescribe such procedures as are necessary to assure that in the selection of operators and employees for vending facilities there shall be no discrimination because of sex, race, age, creed, color, national origin, or political affiliation; and

(2) Take the necessary action;

(i) To assure that operators of vending facilities do not discriminate against any person or persons because of sex, race, creed, color, or national origin in furnishing, or by refusing to furnish, to such person or persons the use of any vending facility, including any and all services, privileges, accommodations, and activities provided thereby, and

(ii) To assure compliance by such operators with Title VI of the Civil Rights Act of 1964 and regulations of the appropriate department, agency or instrumentality of the United States, issued pursuant thereto.

(b) The permit shall be issued for an indefinite period of time.

(c) The permit shall provide that:

(1) No charge shall be made to the State licensing agency for the use of Government furnished space and for normal cleaning, maintenance, and repair of the building structure in and adjacent to the vending facility areas;

(2) Cleaning necessary for sanitation, and the maintenance of vending facilities and vending machines in an orderly condition at all times, and the installation, maintenance, repair, replacement, servicing, and removal of vending facility equipment shall be without cost to the department, agency, or instrumentality responsible for the maintenance of the Federal property; and

(3) Articles sold at vending facilities operated by blind licensees may consist of newspapers, periodicals, publications, confections, tobacco products, foods, beverages, and other articles or services dispensed automatically or manually and prepared on or off the premises in accordance with all applicable health laws, chances for any lottery authorized by State law and conducted by an agency of a State within such State, and such other articles as may be determined by the State licensing agency, in consultation with the on-site official responsible for the Federal property of the property managing department, agency or instrumentality, to be suitable for a particular location.

(d) The permit shall further provide that vending facilities shall be operated in compliance with applicable health, sanitation, and building codes or ordinances.

(e) The permit shall further provide that installation, modification, relocation, removal, and renovation of vending facilities shall be subject to the prior approval and supervision of the on-site official responsible for the Federal property of the property managing department, agency, or instrumentality, and the State licensing agency; that costs of relocations initiated by the State licensing agency shall be paid by the State licensing agency; and that costs of relocations initiated by the department, agency, or instrumentality shall be borne by such department, agency, or instrumentality.

§ 1369.36 Enforcement procedures.

(a) Day-to-day matters pertaining to the operation of the vending facility shall be resolved by the on-site official responsible for the property of the property managing department, agency, or instrumentality, with the participation of the blind operator of the vending facility and, when appropriate, with the State licensing agency.

(b) Unresolved violations of the terms of the permit, the Act, or the regulations in this part and any other unresolved matters shall be reported in writing to the State licensing agency by the on-site official responsible for the property of the property managing department, agency, or instrumentality.

(c) Upon failure to reach agreement on any unresolved matter, the question shall be referred to the on-site official responsible for the property of the property managing department, agency, or instrumentality, who will consult with the Secretary and the designated State licensing agency in an attempt to resolve the issue.

§ 1369.37 Arbitration of State licensing agency complaints.

(a) Whenever any State licensing agency determines that any department, agency, or instrumentality of the United States which has control of the maintenance, operation, and protection of Federal property is failing to comply with the provisions of the Act or of this part, such licensing agency may file a complaint with the Secretary.

(b) Upon receipt of a complaint filed under paragraph (a) of this section, the Secretary shall convene an ad hoc arbitration panel which shall, in accordance with the provisions of 5 U.S.C. ch. 5, subchapter II, give notice, conduct a hearing and render its decision which shall be final and binding on the parties except that such decision shall be subject to appeal and review as a final agency action for purposes of the provisions of 5 U.S.C. ch. 7. The arbitration panel convened by the Secretary to hear complaints filed by a State licensing agency shall be composed of three members appointed as follows:

(1) One individual designated by the State licensing agency;

(2) One individual designated by the head of the Federal department, agency, or instrumentality controlling the Federal property over which the dispute arose; and

(3) One individual, not employed by the Federal department, agency, or instrumentality controlling the Federal property over which the dispute arose, who shall be jointly designated by the other members of the panel and who shall serve as chairman of the panel.

(c) If either the State licensing agency or the head of the Federal department, agency, or instrumentality fails to designate a member of an arbitration panel, the Secretary shall designate such member on behalf of such party.

(d) If the panel finds that the acts or practices of any department, agency, or instrumentality are in violation of the Act or of this part, the head of any such department, agency, or instrumentality (subject to any appeal under paragraph (b) of this section) shall cause such acts or practices to be terminated promptly and shall take such other action as may be necessary to carry out the decision of the panel.

(e) The decisions of an arbitration panel convened by the Secretary under this section shall be matters of public record and shall be published in the FEDERAL REGISTER.

(f) The Secretary shall pay all reasonable costs of arbitration under this section in accordance with a schedule of fees and expenses which shall be published in the FEDERAL REGISTER.

§ 1369.38 Reports.

At the end of each fiscal year, each property managing department, agency, or instrumentality of the United States shall report to the Secretary the total number of applications for vending facility locations received from State licensing agencies, the number accepted, the number denied, the number still pending, the total amount of vending machine income collected and the amount of such vending machine income disbursed to the State licensing agency in each State.

FEDERAL ENERGY ADMINISTRATION

Cases Filed With the Office of Exceptions and Appeals

■

Week of December 5 to December 12, 1975

V40247 DEC 23 75 XUM

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of December 5 to December 12, 1975

Notice is hereby given that during the week of December 5 to December 12, 1975, the appeals and applications for exception or other relief listed in the Appendix to this notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be December 23, 1975 or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

MICHAEL F. BUTLER,
General Counsel.

DECEMBER 17, 1975.

APPENDIX.—*List of cases received by the Office of Exceptions and Appeals, Dec. 5–12, 1975*

Date	Name of applicant	Case No.	Location	Type of submission
Dec. 5	Great Southern Oil & Gas Co., Inc. (If granted: Great Southern Oil & Gas Co., Inc., would be permitted to sell crude oil produced from the Breaux No. 1 well at exempt prices.)	FEE-2106	Lafayette, La.	Price exception: (212.72).
Do.	Placid Oil Co. (If granted: Placid would be allowed to retain for utilization in its own refinery 15,725 bbl/d of crude oil which it is presently required to sell to 3d parties under the provisions of 10 CFR 211.63(a). Placid would also be relieved of the obligation to pay $0.30 per barrel handling fee for purchases of crude oil under the FEA crude oil buy/sell program.)	FEE-2112	Port Allen, La.	Application for exception from the provisions of 10 CFR 211.63(a) and 10 CFR 212.94(b).
Do.	Ranchers Exploration & Development Corp. (If granted: Ranchers Exploration & Development Corp. would be assigned a new supplier of diesel fuel to replace its base period supplier, Mobil Oil Corp.)	FEE-2107	Miami, Ariz.	Exception to change supplier based on a poor supplier/purchaser relationship.
Dec. 8	Duval Corp. (If granted: Duval Corp. would be permitted to use No. 6 fuel oil on an emergency basis in case of curtailment of its supplies of natural gas.)	FEE-2110	Houston, Tex.	Exception to pt. 215.
Do.	Farmers Union Central Exchange Refinery. (If granted: Farmers Union Central exchange Refinery would not be required to purchase entitlements for its receipts of old oil in excess of the adjusted national old oil supply ratio.)	FEE-2108	St. Paul, Minn.	Exception to the old oil entitlements program.
Do.	Good Hope Industries, Inc. (If granted: Good Hope Industries, Inc., would receive an extension of the entitlement exception relief granted in FEA's Nov. 11, 1975, decision and order.)	FEE-2109	Springfield, Mass.	Extension of FEA's entitlement exception relief: Good Hope Refineries, Inc., 2 FEA, par. —— (Nov. 11, 1975)
Do.	Newhall Refining Co., Inc. (If granted: FEA's Nov. 6, 1975, decision and order would be rescinded and Newhall Refining Co. would not be required to purchase entitlements for its receipts of old oil in excess of the adjusted national old oil supply ratio.)	FEA-0682	Newhall, Calif.	Appeal of FEA's entitlement exception decision and order: Newhall Refining Co., Inc., 2 FEA, par. —— (Nov. 6, 1975).
Do.	Seminole Asphalt Refining, Inc. (If granted: Seminole Asphalt Refining, Inc., would receive a refund for license fees paid on 60,000 bbl of crude oil imported by the petitioner on Nov. 1, 1975.)	FPI-0079	St. Marks, Fla.	Exception to the base fee requirements.
Do.	Texaco, Inc. (If granted: FEA's Nov. 6, 1975, decision and order would be rescinded and Texaco, Inc., would be permitted to earn entitlements for petroleum products refined by its affiliates in Trinidad and Panama and imported into the United States.)	FEA-0683	Washington, D.C.	Appeal of FEA's entitlement exception decision and order: Texaco, Inc., 2 FEA, par. —— (Nov. 6, 1975).
Dec. 9	Chaisson, Joel T. (La-Tex Barge, Inc.) (If granted: Would result in the issuance of an order determining that brokers of covered petroleum products are not subject to mandatory petroleum price regulations and would prohibit any remedial action against petitioners with respect to brokerage activities.)	FSG-0015	Luling, La.	Request for special redress.
Do.	Continental Oil Co. (If granted: Continental Oil Co. would be permitted to charge rent payments in excess of the base rent to Vickers Conoco based on additional improvement to the station.)	FEE-2111	Houston, Tex.	Rent exception.

Date	Name of applicant	Case No.	Location	Type of submission
Do.	Exxon Co., U.S.A. (If granted: FEA's Oct. 31, 1975, assignment order would be rescinded and Exxon Co., U.S.A., would not be required to supply Tri-par Combustion Corp. with No. 2 heating oil for its 8(a) contracts.	FEA-0684	Houston, Tex.	Appeal of FEA's Oct. 31, 1975, assignment order.
Dec. 10	West Coast Oil Co. (If granted: West Coast Oil Co. would receive an extension of the entitlement relief granted in FEA's Nov. 3, 1975, decision and order.)	FEE-2113	Newport Beach, Calif.	Extension of FEA's entitlement relief: West Coast Oil Co., 2 FEA, par. —— (Nov. 3, 1975).
Dec. 11	Edmiston Oil Co. (If granted: Edmiston Oil Co. would receive a refund and would not be required to roll back prices based on its acceptance of stripper well prices for condensate prior to Jan. 1, 1975.)	FEE-2115	Wichita, Kans.	Price exception (ruling 1974–28).
Do.	Mobil Oil Corp. (If granted: Mobil Oil Corp. would be permitted to retroactively treat its refined products other than covered products as general refinery products.)	FEE-2116	New York, N.Y.	Price exception (sec. 212.83).
Do.	Newhall Refining Co. (If granted: Newhall Refining Co., Inc., would not be required to purchase entitlements for its receipts of old oil in excess of the adjusted national old oil supply ratio.)	FEE-2117	Newhall, Calif.	Exception to the old oil entitlement program.
Do.	Pioneer Natural Gas Co. (If granted: Pioneer Natural Gas Co. would not be required to file form FEA G318-M-O indicating its underground gas storage as required by the Sept. 15, 1975, FEA letter.)	FEE-2119	Amarillo, Tex.	Exception to the underground gas storage report.
Do.	T. W. Phillips Gas & Oil Co. (If granted: T. W. Phillips Gas & Oil Co. would not be required to file form FEA G318-M-O indicating its underground gas storage as required by the Sept. 15, 1975, FEA letter.)	FEE-2118	Butler, Pa.	Exception to the underground g s storage report.
Do.	Roy I. Thompson (If granted: FEA's Nov. 14, 1975, decision and order would be rescinded and crude oil produced from the Samuel Coleman lease would be sold at exempt prices.)	FEA-0685	Evansville, Ind.	Appeal of FEA's exception decision and order: Roy I. Thompson, 2 FEA, par. —— (Nov. 14, 1975).
Do.	Union Oil Co. (If granted: Union Oil Co. would be permitted to file amended forms FEA P-102-M-O for the months of November 1974 through October 1975 to receive an adjustment in its entitlement purchase obligations.)	FEE-2114	Palatine, Ill.	Exceptions to the reporting requirements of the old oil entitlements program.
Do.	Victor Gas Co. (If granted: Victor Gas Co. would not be required to file form FEA G318-M-O indicating its underground gas storage as required by the Sept. 15, 1975, FEA letter.)	FEE-2120	Ashland, Ky.	Exception to the underground gas storage report.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 78—BRUCELLOSIS

Quarantine Areas

● Purpose. The purposes of these amendments to Part 78 are: (1) to add a new section for Quarantined Areas, and (2) to add a new section and amend certain definitions in order to provide for the movement of cattle from Quarantined Areas. ●

Statement of considerations. Great progress has been made in the Cooperative State-Federal Brucellosis Eradication Program in recent years. Because of the failure on part of the State of Texas to comply with the Uniform Methods and Rules for the eradication of brucellosis and because of the high incidence of brucellosis infection that exists in that State, and because measures in effect in that State to eradicate brucellosis are not deemed adequate to prevent the interstate spread of that disease it has been determined that the interstate movement of cattle from Texas without further restrictions constitutes a threat to the livestock of the United States. Therefore, the entire State of Texas is quarantined to prevent the interstate spread of brucellosis from that State. A new § 78.22a is added to the regulations quarantining the State of Texas and a new § 78.12a is added prohibiting the movement of cattle from quarantined areas other than in accordance with restrictions deemed necessary to prevent the interstate spread of the disease.

Definitions of "Qualified Herds" and "Herds of Unknown Status" are amended, and a new definition of "Quarantined Areas" is added, to reflect the changes and to clarify the regulations. Further, in order to conform the existing regulations to the amendments, all references to Texas in §§ 78.20, 78.21, and 78.22 are deleted.

Accordingly, Part 78, Title 9, Code of Federal Regulations, is amended in the following respects:

1. In § 78.1, paragraphs (o) and (aa) are revised and a new paragraph (ee) is added to read:

§ 78.1 Definitions.

• • • • • •

(o) *Qualified herd.* Any herd as defined in paragraphs (a) (1) or (2) of this section.

(1) *Qualified herd in a noncertified area.* Any herd of cattle in a noncertified area which is not known to be affected with brucellosis and for which the State has records showing that the herd has been tested for brucellosis in accordance with the procedures for herd tests for initial Modified Certified Brucellosis Area status specified in the Uniform Methods and Rules, chapter I, part V–A, within 12 months prior to interstate movement of any cattle from such herd.

(2) *Qualified herd in a quarantined area.* Any herd of cattle in a quarantined area which is not known to be affected with brucellosis and which has been subjected to two consecutive official tests for brucellosis and found negative. The first of these two official tests of the herd shall be conducted not more than 240 days nor less than 120 days prior to the date of classification as a qualified herd and the second official test not more than 120 days prior to the date of such classification and such tests shall be performed not less than 90 days nor more than 150 days apart. In order to remain a qualified herd a herd shall be subjected to successive requalifying official tests and found negative. Each such requalifying test shall be conducted not more than 120 days from the date of the immediately preceding official test. All cattle added to a qualified herd must have been included in the preceding two official tests to qualify as cattle from the qualified herd.

• • • • • •

(aa) *Herd of unknown status.* Any herd as defined in paragraphs (aa) (1) or (2) of this section.

(1) *Herd of unknown status in a noncertified area.* A herd of cattle in a noncertified area which has not been tested for brucellosis in accordance with the procedure for herd tests for initial modified certified area certification specified in chapter 1, part V–A of the Uniform Methods and Rules within 12 months prior to the interstate movement of any cattle from such herd.

(2) *Herd of unknown status in a quarantined area.* Any herd of cattle in a quarantined area except a qualified herd or a herd known to be affected.

• • • • • •

(ee) *Quarantined area.* Any area listed in § 78.22a.

2. A new section 78.12a is added to read:

§ 78.12a Cattle from quarantined areas.

Notwithstanding any provisions in the regulations to the contrary, cattle may be moved interstate from a quarantined area only in accordance with the provisions of this section.

(a) *Steers and spayed heifers.* Steers and spayed heifers over 6 months of age may be moved without restrictions.

(b) *Brucellosis reactor cattle.* Brucellosis reactor cattle may be moved in accordance with the provisions of § 78.7.

(c) *Brucellosis exposed cattle.* Brucellosis exposed cattle may be moved in accordance with the provisions of § 78.8 (a) or (b).

(d) *Movement from qualified herds.* Cattle from qualified herds in any quarantined area may be moved interstate in accordance with the conditions specified in any one of the following paragraphs:

(1) *Movement for immediate slaughter.* (i) Such cattle may be so moved for immediate slaughter either directly from a farm of origin or through a specifically approved stockyard if they are accompanied by a certificate, are subjected to an official test for brucellosis and found negative within 30 days prior to such interstate movement and the certificate shows, in addition to items required under § 78.1(u), the test dates and results of the official test; or (ii) such cattle may move in accordance with the provisions of § 78.8(b); or

(2) *Movement to quarantined feedlots.* (i) Such cattle may be so moved to a quarantined feedlot either directly from a farm of origin or through a specifically approved stockyard if they are accompanied by a certificate, are subjected to an official test for brucellosis and found negative within 30 days prior to such interstate movement and the certificate shows, in addition to items required under § 78.1(u), the test dates and results of the official test; or (ii) such cattle may move in accordance with the provisions of § 78.8(a); or

(3) *Movement for purposes other than in paragraphs (d) (1) and (2) of this section.* Cattle in qualified herds may be so moved either directly from a farm of origin or through a specifically approved stockyard for purposes other than those specified in paragraphs (d) (1) and (2) of this section if they are accompanied by a certificate and such cattle, except official vaccinates less than 12 months of age and calves less than 6 months of age, are subjected to an official test for brucellosis and found negative within 30 days prior to such interstate movement, and the certificate shows, in addition to items required under § 78.1(u), the test dates and results of the official test.

(e) *Movement from herds of unknown status.* Cattle which originate in herds of unknown status in a quarantined area may be moved interstate only for immediate slaughter or directly to a quarantined feedlot in accordance with § 78.8 (a) or (b).*

§§ 78.20, 78.21, 78.22 [Amended]

3. In §§ 78.20, 78.21, and 78.22 all references to Texas are deleted.

4. A new § 78.22a is added to read:

*A herd of unknown status in a quarantined area may become a qualified herd upon compliance with the provisions of § 78.1(o).

V 40 248 DEC 24 75 XUM

§ 78.22a Quarantined areas.

Notice is hereby given that because of the existence of the contagion of brucellosis and the nature and extent of such contagion in certain areas which do not have control and eradication procedures adequate to prevent the interstate dissemination of the disease, the following areas are quarantined:

The entire State of Texas.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–114a–1, 115, 117, 120, 121, 123–125, 134b, 134f); 37 FR 28464, 28477; 38 FR 19111.)

Effective date. The foregoing amendments shall become effective January 5, 1976.

The amendments impose restrictions necessary in order to prevent the interstate spread of brucellosis and they must be made effective immediately to accomplish their purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of December, 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER A—GENERAL

[No. 75-1138]

PART 500—ORGANIZATION AND CHANNELING OF FUNCTIONS

Amendments Relating To Board Organization

DECEMBER 15, 1975.

The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. *Present Regulations.*

Part 500 of the General Regulations describes the organization and channeling of functions of the Board.

II. *Final Regulations.*

Part 500 is updated to reflect current Board organization and channeling of functions. "Subpart D—Delegations of Authority" has been added.

The Federal Home Loan Bank Board considers it advisable to amend §§ 500.11, 500.13, 500.14, 500.18, 500.19, 500.20, 500.21, 500.22, 500.31 and 500.32 of Part 500 (12 CFR Part 500) of the General Regulations, and to add thereto "Subpart D—Delegations of Authority" including a new § 500.40 to reflect present Board organization and channeling of functions.

New "Subpart D—Delegations of Authority" was created to integrate into the Part 500 structure the Board's delegations to its Offices. The first delegations under the newly created Subpart are to the Director or Acting Director of the Federal Savings and Loan Insurance Corporation in § 500.40.

Section 500.11 is amended by deleting the last sentence.

Section 500.13, which describes the Office of Management Systems and Administration, and § 500.14, which describes the Office of Economic Research, are amended to more clearly define the present functions of those Offices.

Section 500.18, which describes the Office of Examinations and Supervision, is amended to include the following Acts under which the Office has supervisory responsibilities: the Equal Credit Opportunity Act, the Real Estate Settlement Procedures Act, and the Flood Disaster Protection Act.

Section 500.19, which describes the Office of Industry Development, is amended to reflect that Office's additional responsibilities to review for approval marketable certificates of deposit and to coordinate inter-office programs relating to electronic fund transfer systems.

Section 500.20, which describes the Office of the Federal Savings and Loan Insurance Corporation, is amended to describe the present responsibilities of the four divisions of that Office.

Section 500.21, which describes the Office of the Federal Home Loan Banks, is amended to include the Office's responsibility for conducting the election of directors of the Federal Home Loan Banks.

Section 500.22, which describes the Office of Housing and Urban Affairs, is amended to clarify its responsibilities and delete reference to administrative oversight of the Urban Reinvestment Task Force.

Section 500.31, which lists current forms, is amended by (1) deleting Forms 241, 631, 999, 4–T, and 400; (2) adding Form No. 1013; and (3) re-designating Form PA as Form AC.

Section 500.32, which lists the Board's Offices and describes the manner in which submittals should be made to the Board, is amended to delete a Los Angeles branch office, which has been closed.

Accordingly, the Federal Home Loan Bank Board hereby amends §§ 500.11, 500.13, 500.14, 500.18, 500.19, 500.20, 500.21, 500.22, 500.31 and 500.32 of Part 500 (12 CFR Part 500) of the General Regulations, and adds thereto "Subpart D—Delegations of Authority" including new § 500.40 to read as set forth below, effective December 29, 1975.

Since the above-described amendments relate to rules of Board organization, procedure, or practice, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would in the opinion of the Board be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinabove set forth.

1. Revise § 500.11 to read as follows:

§ 500.11 Secretary to the Board.

The Secretary to the Board is responsible for the secretarial functions of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation and has custody of the records of the Board and of the Corporation. The Secretary to the Board is responsible for the preparation and maintenance of the Minute Record of all official actions of the Board, for the authentication of documents and for certifications. The Office of the Secretary provides general record services for the Board through the Files and Docket Section, which is under the direction and supervision of the Secretary to the Board. The Secretary to the Board is Liaison Officer to the Federal Register.

2. Revise paragraphs (a), (b), (c), and (e) of § 500.13 as follows:

§ 500.13 Director of the Office of Management Systems and Administration.

• • • • •

(a) The Financial Management Division is responsible for the administration and management of the internal financial operations of the Board, the headquarters of the Office of Examinations and Supervision, and the Federal Savings and Loan Insurance Corporation, including budgeting, accounting, receipt, and disbursement of funds; control, processing, and payment of expenses; and maintenance of pay and leave records. This Division is also responsible for preparation of the Board's annual budget submissions to the Office of Management and Budget and to the Congress, and for supervision of field accounting operations for the Federal Savings and Loan Insurance Corporation.

(b) The Administration and Methods Division is responsible for conducting purchase and supply operations; sorting, receiving, and distributing mail; maintenance; transportation; acquiring and allocating space; contract administration; and other housekeeping functions for the Board. A printing and reproduction plant is operated by this Division, as authorized by the Congressional Joint Committee on Printing. The Board's emergency planning program for continuity of operations and relocation of the agency in the event of an emergency is also a function of this Division.

(c) The Personnel Management Division is responsible for development and execution of the personnel management program of the Board. The program includes recruitment, placement and staffing; position classification and wage administration; employee development and training; employee-management relations; health insurance, life insurance, and retirement benefits; and incentive awards. The Director of the Personnel Management Division is also responsible for carrying out the purposes of Executive Order No. 10450, as amended, as Personnel Security Officer of the Board, and for acting as agency liaison to the Civil Service Commission on all personnel matters of interest to the Commission.

• • • • •

(e) The Management Systems Division assits management in achieving effective, efficient, and economical operation of the Board, Federal Home Loan Banks, Federal Savings and Loan Insurance Corporation, and the Office of Finance. To accomplish these results, the Division conducts financial, operational, and management audits; performs special studies of management, systems, and procedural problems, and provides management training and organizational development programs. The Division is also responsible for operating the paperwork management programs required by the National Archives Record Service, General Services Administration.

3. Section 500.14 is revised as follows:

§ 500.14 Director of the Office of Economic Research.

The Director of the Office of Economic Research, as principal economic adviser to the Board, is responsible for design and supervision of economic analysis in the areas of general economic developments, capital and mortgage markets, housing, and the savings and loan industry and competing financial intermediaries, as well as matters relating to legislation, regulation, and policies of the Board. The Director's responsibilities also include: developing and maintaining various research, statistical, and econometric programs to gather and keep current information relating to the savings and loan industry; working with other agencies through interagency committees; participating in research and policy projects with the Federal Home Loan Banks; providing liaison with public and private organizations; preparing articles and statistical tables for publication; overseeing the Board's contract with the Agency for International Development and the Federal Home Loan Banks' participation in the AID Housing Guarantee Program; providing research support and advice to Board Offices; and acting as official economic spokesman for the Board.

• • • • •

4. Section 500.18 is revised as follows:

§ 500.18 Director of the Office of Examinations and Supervision.

The Director of the Office of Examination and Supervision is responsible for the performance of the responsibilities of the Board and the Federal Savings and Loan Insurance Corporation with respect to examination and supervision of Federal savings and loan associations under the Home Owners' Loan Act of 1933 and of State-chartered insured institutions, savings and loan holding companies, and subsidiaries of savings and loan holding companies under Title IV of the National Housing Act. The Director is also responsible for advising the Board with respect to matters of policy decision, legislation, and regulation to which his functions of supervision and examination are related. The Director is responsible for management of the examination process and development and improvement of examination techniques and for the direction of supervisory and enforcement activities of the staff and agents of the Board and the Federal Savings and Loan Insurance Corporation. This Office supervises the security programs of insured institutions required by the Bank Protection Act of 1968 and enforcement of the Truth in Lending Act, the Fair Credit Reporting Act, the Currency and Foreign Transactions Reporting Act, the Equal Credit Opportunity Act, the Real Estate Settlement Procedures Act, and the Flood Disaster Protection Act.

5. Section 500.19 is revised as follows:

§ 500.19 Director of the Office of Industry Development.

The Director of the Office of Industry Development is responsible for processing, review, and evaluation of certain applications to the Board and the Federal Savings and Loan Insurance Corporation, except for applications which are approved by another agent or officer of the Board pursuant to delegated authority. Applications for which the Director is responsible concern the following matters: permission to organize a Federal savings and loan association; facility offices (including regular branch offices, limited facility branch offices, satellite offices, and mobile facilities) of existing Federal savings and loan associations; insurance of accounts; conversion from Federal to State or from State to Federal charter; membership in the Federal Home Loan Bank System; mergers involving a Federal savings and loan association; voluntary dissolution of a Federal savings and loan association; increase in accounts of an insurable type through merger, consolidation, or purchase of bulk assets; investment in a service corporation by a Federal savings and loan association; change in office location; investment in an office building; waiver or modification of a condition for insurance of accounts or issuance of a Federal charter; release of pledged savings acounts or escrowed stock; extension of a lending area; approval of amendments to charter, bylaws, or security forms; approval or disapproval of marketable certificates of deposits with the concurrence of the Office of the General Counsel; permission to issue subordinated debt securities; and other applications for which the Director of this Office may be assigned responsibility. The Director is also responsible for planning and coordinating new programs to stimulate development of the savings and loan industry by encouraging financially sound restructuring. Further, it is the responsibility of the Director to coordinate inter-office programs in regard to development, extension, and reporting of electronic fund transfer systems.

6. Section 500.20 is revised as follows:

§ 500.20 Director of the Office of the Federal Savings and Loan Insurance Corporation.

The Director of the Office of the Federal Savings and Loan Insurance Corporation is responsible for advising the Board with respect to policies and operations of the Corporation. He is responsible for preservation of the integrity and fiscal soundness of the insurance fund in order to effect prompt settlement of all insurance obligations. Administration of this responsibility is accomplished through the Office's four divisions:

(a) The Insurance Division is responsible for payment in cash of all insured savings as promptly as possible in the event of a default of an insured savings and loan association. The Division identifies, develops, and employs effective alternative measures for prompt settlement of insurance obligations.

(b) The Problem and Rehabilitation Division is responsible for maintaining a high level of confidence on the part of the savings public in the industry's integrity and fiscal soundness. In coordination with the Office of General Counsel and the Office of Examinations and Supervision, the Division develops and implements plans of financial assistance to prevent default of insured institutions.

(c) The Financial Assistance Division is responsible for effective administration of the FSLIC's financial assistance agreements and prudent management of the liquidation of its contingent liabilities under these agreements at the earliest opportunity. The Division is also responsible for operational and financial audits of all insurance settlement actions by the FSLIC.

(d) The Asset Management Division is responsible for directing liquidation of the assets of FSLIC administered receiverships and for liquidation of Corporation-owned assets through marketing techniques designed to facilitate maximum recoveries of FSLIC funds.

7. Sections 500.21 and 500.22 are revised as follows:

§ 500.21 Director of the Office of the Federal Home Loan Banks.

The Director of the Office of the Federal Home Loan Banks is responsible for reviewing the activities of the Banks and for directing and co-ordinating their operating procedures to ensure conformity with the goals and objectives of the Board. The Director is responsible for establishing standards of accounting, reporting, and financial analysis for the Banks and for providing advice and assistance to the Banks in their operations, including but not limited to, data processing, planning, and community activity. He is also responsible for advising the Board on policy decisions respecting the Banks and for making recommendations concerning such matters as budgets, salaries, dividends, bylaw amendments, and elections of officers and counsel. The Director is also respon-

V 401248 DEC 24 75 XUM

sible for annual examinations and for conducting elections of directors of each Federal Home Loan Bank.

§ 500.22 Director of the Office of Housing and Urban Affairs.

The Director of the Office of Housing and Urban Affairs is responsible for advising the Board on housing, urban problems, and minority affairs and for recommending policies pertaining thereto. This Office develops, implements, and evaluates programs to encourage housing investment and rehabilitation in older urban neighborhoods, prevent discrimination in lending and employment by the savings and loan industry, and assist minority owned or operated savings and loan associations which have Federal charters or insurance of accounts by the Federal Savings and Loan Insurance Corporation.

§ 500.31 [Amended]

8. In § 500.31, delete from paragraph (a)(1) Forms 244, 631, and 999, redesignate Form PA as Form AC, and add after Form 921 the following new form:

1013----- Federal Home Loan Bank Board membership change of status report.

Also in § 500.31, delete from paragraph (a)(3) Forum 4–T and from paragraph (b) delete Form 400.

§ 500.32 [Amended]

9. In § 500.32, delete from paragraph (b)(11) the following:

Los Angeles Branch Office
615 South Flower Street
Los Angeles, California 90017

10. Add new Subpart D, including new § 500.40, to read as follows:

Subpart D—Delegations of Authority

§ 500.40 Director or Acting Director of the Office of the Federal Savings and Loan Insurance Corporation.

(a) The Director or Acting Director of the Office of the Federal Savings and Loan Insurance Corporation is authorized:

(1) to manage assets acquired by the Corporation pursuant to or in connection with action taken under the third sentence of section 406(c)(1), section 406(c)(3), or section 406(f) of the National Housing Act, as amended, or section 5(d)(6)(D) of the Home Owners' Loan Act of 1933, as amended;

(2) to satisfy, settle, or compromise any liability of, or claim or judgment against, the Corporation arising out of the management of any asset referred to in paragraph (a)(1) of this section, subject to any limitations placed upon such authority by any regulation, resolution, or other action of the Board;

(3) to authorize the sale or other disposition of any asset acquired by the Corporation pursuant to or in connection with action taken under the third sentence of section 406(c)(1), section 406(c)(3), or section 406(f) of the National Housing Act, as amended, or section 5(d)(6)(D) of the Home Owners' Loan Act of 1933, as amended, *Provided*, That the loss calculated according to the book value of such asset does not exceed $100,000; and

(4) to redelegate in writing the authority set forth in paragraph (a)(3) of this section to the Deputy Director of the Office of the Federal Savings and Loan Insurance Corporation or to such other officer of such Office as the Director or Acting Director may designate, *Provided*, That such other Officer may not exercise such authority with respect to the sale or other disposition of an asset for which the loss calculated according to the book value of such asset exceeds $80,000.

(b) The Director or Acting Director of the Office of the Federal Savings and Loan Insurance Corporation shall report monthly to the Board any action taken pursuant to the authorizations contained in paragraphs (a)(3) and (4) of this section that involves a book loss in excess of $50,000.

(Sec. 17, 47 Stat. 736, as amended; 12 U.S.C. § 1437. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN,
Secretary.

[No. 75-1166]

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

PART 523—MEMBERS OF BANKS

SUBCHAPTER D—INSURANCE OF ACCOUNTS

PART 561—DEFINITIONS

Clarifying Amendments Regarding Classification of Investments

DECEMBER 19, 1975.

The Federal Home Loan Bank Board considers it desirable to amend § 523.10(g) of the Regulations for the Federal Home Loan Bank System (12 CFR 523.10(g)) and § 561.15(e) of the Rules and Regulations for Insurance of Accounts (12 CFR 561.15(e)) for the purpose of clarifying the classification thereunder of certain investments, in connection with a letter issued today by the Acting Chairman of the Board to all insured institutions concerning the recent offer (Exchange Offer) of the Municipal Assistance Corporation to exchange four series of its bonds for Notes of the City of New York (City Notes).

Prior to the instant amendment, § 523.10(g)(6) provided that general obligations of State, Federal or local governments with terms to maturity of not more than 2 years qualified as liquid assets if "rated at the time acquired by a member in one of the four highest [investment rating] grades • • •" Some doubt appears to have existed as to whether continued qualification as a liquid asset of obligations such as the City Notes is affected where either the qualifying rating is lost or the obligation is in default. It is clear to the Board, on the basis of the statutory purposes of liquidity, that either event would warrant removing an obligation from eligibility as a liquid asset, and that clarifying changes in the regulations are therefore required.

The statutory purposes of liquidity are stated in paragraph (a) of section 5A of the Federal Home Loan Bank Act, as follows:

• • • • •

Sec. 5A. (a) The purpose of this section is to provide a means for creating meaningful and flexible liquidity in savings and loan associations and other members which can be increased when mortgage money is plentiful, maintained in easily liquidated instruments, and reduced to add to the flow of funds to the mortgage market in periods of credit stringency. More flexible liquidity will help support two main purposes of the Federal Home Loan Bank Act—sound mortgage credit and a more stable supply of such credit.

It is clear that neither mortgage credit nor the ability of an association to meet demand for withdrawals is enhanced by a security which has lost its rating, or one which is in default. To remove any implication that qualification for liquidity at the time of acquisition also suggests continued qualification despite rating removal or default, § 523.10(g) is amended to require that principal and interest of "liquid assets" be free from default and that the general governmental obligations held as liquidity continue to qualify with regard to their investment ratings.

On a related matter, the Board amends paragraph (e) of § 561.15 to provide that a security, whether held for purposes of liquidity or investment, becomes a scheduled item if either principal or interest payments are in default.

Failure to meet liquidity requirements may subject an association to penalty under § 523.11. However, the Board, under the authority granted it by paragraph (e) of section 5A of the Federal Home Loan Bank Act, has recommended forebearance with respect to penalties as to any institution that fails to meet Board liquidity requirements as a result of continued investment by the institution in City Notes or acceptance of the Exchange Offer. Such forebearance is subject, however, to a satisfactory arrangement with the appropriate Supervisory Agent, on an individual case basis, for meeting liquidity requirements by the end of any period or periods of forebearance, which in no event shall aggregate more than one year. Supervisory Agents have also been directed, again on an individual case basis, to waive any lending restriction caused by an excessive volume of scheduled items stemming from present ownership of City Notes.

Accordingly, the Board hereby amends said §§ 523.10(g) and 561.15(e), to read as set forth below, effective December 24, 1975.

Since these amendments are clarifications and it is in the public interest that such amendments become effective without delay, the Board hereby finds that notice and public procedure with respect to such amendments are contrary to the public interest and unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of such amendments for the period of time specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of such amendments would in the opinion of the Board likewise be unnecessary for the same reasons, the Board hereby provides that such amendments shall become effective as hereinbefore set forth.

1. Section 523.10(g) is amended to read as follows:

LIQUIDITY

§ 523.10 Definitions.

For the purposes of this section, § 523.11, and § 523.12:

• • • • •

(g) The term "liquid assets" means the total of cash, accrued interest on unpledged assets which qualify as liquid assets under this paragraph, or would so qualify except for their maturities, and the book value of the following unpledged assets (including such assets held subject to a repurchase agreement), as long as principal and interest on such assets are not in default:

• • • • •

(6) general obligations (other than gold-related obligations) of any State, territory, or possession of the United States, or political subdivision of any of the foregoing, if:

(i) such obligations are and continue to be either (*a*) rated in one of the four highest grades as shown by the most recently published rating made of such obligations by a nationally recognized investment rating service or (*b*) issued by a public housing agency and have the full faith and credit of the United States pledged pursuant to section 1421a(c) or section 1437i(a) of Title 42 of the United States Code, as amended; and

(ii) the remaining periods to maturity of such obligations are not more than 2 years.

• • • • •

(Sec. 5A, 47 Stat. 727, as added by Sec. 1, 64 Stat. 256, as amended, Sec. 17, 47 Stat. 736, as amended; 12 U.S.C. 1425a, 1437, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

2. Section 561.15(e) is amended to read as follows:

§ 561.15 Scheduled items.

The term "scheduled items" means:

• • • • •

(e) Any securities upon which one or more interest or principal payments due have not been paid (other than guaranteed obligations).

• • • • •

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] RONALD A. SNIDER,
Assistant Secretary.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

PART 103—APPEARANCES AND COMPENSATION OF PERSONS APPEARING BEFORE SBA

Revision 1, Amendment 1

On November 3, 1975, there was published in the FEDERAL REGISTER (40 FR 51069) a notice that the SMALL BUSINESS ADMINISTRATION proposed to amend the subpart of 13 CFR Part 103 entitled "Interpretation of 'good cause'" by revising Section 103.13–5(b) to specifically interpret advertising by applicants' representatives using the name "SBA" as "good cause" for suspension or revocation of the privilege to appear before the SBA.

Interested parties were given 30 days to submit comments. No comments were received. According Part 103, § 103.13–5 is hereby amended by revising paragraph (b) to read as follows:

§ 103.13–5 Interpretation of "good cause."

• • • • •

(b) *Solicitation.* Requesting or suggesting directly or through any agency or medium the employment of the person making or initiating the request or suggestion, or some other person to perform work in connection with an application. "Solicitation" shall include, but shall not be limited to, requests or suggestions which violate the ethics, customs, or regulations of the profession or business of the person or persons making or initiating the suggestions; requests or suggestions which imply or infer that the work to be performed or any portion thereof, will be of a political, influential, or similar nature; and any advertisement or representation that contains or uses the words "Small Business Administration" or "SBA", or any symbol thereof.

• • • • •

Effective Date: In view of the fact that the foregoing is an interpretative rule and statement of policy, it shall be made effective December 24, 1975.

LOUIS F. LAUN,
Acting Administrator

PART 312—IMPLEMENTATION OF THE NATIONAL ENVIRONMENTAL POLICY ACT, INCLUDING THE PREPARATION OF ENVIRONMENTAL IMPACT STATEMENTS

Filing of Environmental Evaluations by Applicants

Section 312.12(a) of the Board's Procedural Regulations (14 CFR 312.12(a)) implementing the National Environmental Policy Act of 1969 (NEPA) requires that all applications seeking Board action pursuant to sections 401 and 402 of the Federal Aviation Act of 1958 (Act) be accompanied at the time of filing by an "environmental evaluation," which is a report containing certain basic information bearing upon the possible environmental impact of the proposed action (see § 312.12(c)). The evaluation is designed to assist the Board in determining whether the application may result in a major Federal action having a significant impact upon the quality of the human environment and whether therefore an "environmental impact statement" under section 102(2)(C) of NEPA may be required. On September 23, 1975, certain air carriers [1] filed a petition requesting a modification of the timing of the environmental evaluation filing requirement, and a stay of the effective date thereof.[2] The carriers suggest that a more appropriate time for filing an environmental evaluation would be: (1) When requested by order of the Board or notice from the responsible official of the Board; or (2) at the time of filing of a motion for expedited hearing; or (3) at the time direct exhibits are exchanged, if not previously required.

In support of their petition, the carriers assert that the present rule will require much unnecessary work for the carriers since only a limited number of section 401 applications which are filed are actually set for hearing. Further, they assert that the time lag between the filing of an application and a Board order setting a case for hearing may well render the information supplied in the evaluation outdated and useless for purposes of a decision on potential environmental impact. Four civic parties have jointly filed an answer to the petition, supporting the modification sought.

A joint answer in support has also been filed by two Alaskan certificated carriers and eight local service carriers.[4]

Upon consideration of the pleadings and all relevant facts, the Board finds that amendment of section 312.12(a) of the rule is warranted and in the public interest. As amended, the rule will provide that, except for certain expedited proceedings, an environmental evaluation must be filed within 30 days—unless otherwise specified in the Board order—

[1] American Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc.

[2] The Board's environmental rule was adopted August 13, 1975 and became effective on September 24, 1975 (Regulation PR–146, 40 FEDERAL REGISTER 37184). The request for a stay is hereby mooted.

[3] Boston Parties, Cincinnati Parties, Las Vegas Parties, and St. Louis Parties.

[4] Alaska Airlines, Allegheny Airlines, Frontier Airlines, Hughes Airwest, North Central Airlines, Ozark Air Lines, Piedmont Aviation, Southern Airways, Texas International Airlines and Wien Air Alaska.

V 40248 DEC 24 75 XUM

of the date of any Board order setting an application for hearing or other proceedings, or granting a motion to consolidate or contemporaneously consider the application in a proceeding.

In adopting the present requirement for concurrent filing of the application and the environmental evaluation, we rejected an earlier suggestion by the petitioners that environmental data should be submitted in a hearing case only at the time of direct exhibits.[5] We were concerned then, as we are now, that the submission of the information necessary to determine whether further environmental analysis is required be made early enough in the decisional process to avoid unconscionable delay in the event that an environmental impact statement—or a detailed environmental negative declaration—is believed necessary. We found the carriers' earlier proposal deficient in this regard since submission of the data at the direct exhibit stage would not assure the responsible official of sufficient time before the hearing to prepare an adequate analysis, thus forcing a delay of the proceedings.

On the other hand, we believe that the carriers' current position points the way toward a reasonable compromise between the interests of avoiding needless regulatory burdens, minimizing delay in proceedings, and assuring that the environmental information supplied will not be outdated. Clearly, the burden on applicants is alleviated by postponement of the filing date until after an application is set for hearing, and the information garnered is more likely to be realistic, up to date and useful to the responsible official. Further, we do not believe that the amended procedure established hereby will unduly delay most Board proceedings (albeit it must be recognized that some delay is inherent in any case subject to the full panoply of NEPA procedures), particularly since, as discussed below, applications receiving expedited treatment must continue to be accompanied by environmental evaluations.

Certain applications subject to § 312.12 (a) of the Board's environmental regulations are customarily accorded expedited treatment, such as, for example, applications for which motions for expedited hearing, show cause procedures, or other expedited consideration are filed and most section 402 foreign air carrier permit applications. In such instances, the motion or application is usually accompanied by a detailed evidentiary justification, which facilitates expeditious treatment. The petitioners recognize the appropriateness of requiring the filing of an environmental evaluation along with a motion for expedited hearing, and a section 402 application (Petition at 4). Thus, we will retain the present contemporaneous filing requirement for motions seeking expedited consideration (including show cause procedures) and section 402 foreign air carrier applications.[6]

Since the amendment pertains to rules of agency practice and procedure and in addition lightens or removes a burden already imposed by existing regulations, the Board finds that notice and public procedure hereon are not necessary, and that the amendment may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 312 of the Procedural Regulations (14 CFR 312), effective December 19, 1975, as follows:

Revise paragraph (a) of § 312.12 to read as follows:

§ 312.12 Filing of environmental evaluations by applicants.

(a) Except where a waiver or exemption has been granted under § 312.6, every person filing an application falling within the scope of § 312.9(a)(1) shall file an environmental evaluation, as provided in subsection (c), as specified below:

(1) A motion by an air carrier applicant for expedited hearing, for other expedited consideration, or for the institution of show cause procedures with respect to an application, and applications pursuant to Subpart M and Subpart N of Part 302 of the Board's Procedural Regulations shall be accompanied by an environmental evaluation;

(2) An application by a foreign air carrier for a permit pursuant to section 402 of the Federal Aviation Act, 49 U.S.C. 1372, shall be accompanied by an environmental evaluation;

(3) In all other instances, the environmental evaluation shall be filed within 30 days after the date of any Board order setting the application for hearing or other proceedings, or granting a motion to consolidate or contemporaneously consider the application in a proceeding, unless the Board has provided otherwise; or

(4) Upon order of the Board or a request by the responsible official.

. . . . . .

(Sections 204 and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743 and 788, 49 U.S.C. 1324 and 1481; the National Environmental Policy Act of 1969, 83 Stat. 352 *et seq.*, 42 U.S.C. 4321 *et seq.*; and Executive Order 11514)

By the Civil Aeronautics Board:

Effective: December 19, 1975.

Adopted: December 19, 1975.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1870 Nature; § 13.1880 Old, used, or reclaimed as unused or new; § 13.1882 Prices; 13.1882–10 Additional prices unmentioned; § 13.1895 Scientific or other relevant facts. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Lustine Chevrolet, Inc., a corporation, and Phillip Lustine and Burton Lustine, individually and as officers of said corporation

Consent order requiring a Hyattsville, Md., new and used car dealer, among other things to cease misrepresenting that any vehicle is new when it has been used in any manner other than the limited use necessary in moving or road testing prior to delivery and to disclose, orally and in writing, specific information with respect to used motor vehicles.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

ORDER

It is ordered, That respondents Lustine Chevrolet, Inc., a corporation, its successors and assigns and its officers, and Phillip Lustine and Burton Lustine, individually and as officers of said corporation, and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division or other device in connection with the advertising, offering for sale, sale or distribution, service and repair of new and used motor vehicles, or any other products or services, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, as amended, do forthwith cease and desist from:

1. Representing, orally or in writing, directly, or by implication, that any vehicle is new when it has been used in any manner other than the limited use necessary in moving or road testing a new vehicle prior to delivery of such vehicle to the customer.

2. Offering for sale or selling any vehicles of the current or previous model year, which has been used in any manner, other than the limited use referred to in paragraph 1., above, without orally disclosing, prior to any sales presentation the nature and extent of such previous use of said vehicle.

3. Advertising any vehicle of the current or the previous model year which has been used in any manner, other than the limited use referred to in paragraph 1., above, without clearly and conspicuously disclosing in any and all advertising thereof the nature of such previous use of said vehicle.

4. Displaying, offering for sale or selling any vehicle of the current or the previous model year which has been used in any manner, other than the limited use referred to in paragraph 1., above, without clearly and conspicuously disclosing by decal or sticker affixed to the inside of the side window containing the manufacturer's suggested retail price or "Monroney sticker", or if space is not available thereon, in close proximity thereto, so as to be clearly visible, the nature of such previous use of said vehicle. Said decal or sticker shall also contain the following statement: "FOR EXACT MILEAGE, SEE ODOMETER".

5. Offering for sale or selling any motor vehicle of the current or the previous model year which has been used and which respondents have reason to believe has been damaged to the extent that it may adversely affect said motor vehicle's performance and life expectancy and the repair and repainting of said motor vehicle may hide said damage, without:

(a) Disclosing, both orally and in writing, the manner in which the motor vehicle has been damaged and the nature of the damage sustained by the vehicle; and

(b) Clearly and conspicuously disclosing by decal or sticker attached thereto, as required by paragraph 4., above, that the motor vehicle has been damaged.

6. Misrepresenting, orally or in writing, directly or by implication, the nature or extent of previous use or condition of any vehicle displayed, offered for sale or sold.

7. Failing to disclose, both orally and in writing, prior to the signing of the completed retail order for a used motor vehicle, and in any and all advertising of such vehicles, the precise amount of handling and service charges which will be added to the cost of respondents' used motor vehicles.

8. Representing, orally or in writing, directly or by implication, that respondent Lustine Chevrolet, Inc. is America's Largest Special Purchase Dealer, or using words of similar import, unless it does occupy such purchasing position, at the time aforesaid representation is made; misrepresenting, in any manner, the size, status, sales or purchasing position of respondents' dealership.

It is further ordered:

(a) That respondents shall forthwith distribute a copy of this order to each of their operating divisions;

(b) That respondents deliver a copy of this order to cease and desist to all present and future personnel engaged in the offering for sale, or sale, of any motor vehicle, and in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person;

(c) That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order;

(d) That respondents post in a prominent place in each salesroom or other area wherein respondents sell motor vehicles or other products or services, a copy of this cease and desist order, with the notice that any customer or prospective customer may receive a copy on demand; and

(e) That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities; and

(f) That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission Nov. 25, 1975.

VIRGINIA M. HARDING,
Acting Secretary.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 813]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001–4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by a Federally regulated, insured, supervised or approved bank prior to January 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER, or the date which appears in this notice, whichever is later.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a com-

V 401248 DEC 24 75 XUM

munity has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked Effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

V 401248 DEC 24 75 XUM

Title 40—Protection of Environment

[FRL 472–8]

PART 40—ORE MINING AND DRESSING POINT SOURCE CATEGORY

Extension of Comment Period

On November 6, 1975, (40 FR 51722) the Environmental Protection promulgated interim effluent limitations and guidelines for existing sources in the Ore Mining and Dressing Point Source Category, pursuant to §§ 301 and 304 of the Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq., 86 Stat. 816). The notice of promulgation of these interim regulations solicited comments from interested persons and specified that such comments would be due not later than December 8, 1975.

Several requests for extensions of time for submission of comments have been received. In support of such requests, it has been pointed out that many members of the affected industry operate in isolated areas, and additional time is needed for them to provide meaningful comments. Accordingly, the Environmental Protection Agency has decided to grant a thirty day extension of the deadline. The date for submission of comments is hereby extended to and including January 7, 1976.

December 8, 1975.

ANDREW W. BREIDENBACH,
Acting Assistant Administrator for Water and Hazardous Materials.

[FR Doc.75–34737 Filed 12–23–75;8:45 am]

CHAPTER 1—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 471–1]

PART 52—APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

North Dakota Plan Revisions

On May 31, 1972 (37 FR 10885), pursuant to Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved and promulgated the North Dakota State Implementation Plan (SIP).

On June 14, 1973, the Governor of North Dakota submitted compliance schedules for 24 sources of air contaminants. No action was taken to approve these schedules because some of the schedules extended beyond the February 1, 1975, attainment date for the National Secondary Ambient Air Quality Standards for Particulates. The State of North Dakota Department of Health agreed to submit a clarification through the Governor's office that the Secondary Particulate Attainment Date was also being revised for the North Dakota Intrastate Air Quality Control Region, and supplemental information explaining why it is not reasonable for the affected sources to be in compliance by February 1, 1975.

On February 19, 1974, the Governor of North Dakota submitted revisions to the compliance schedule of one of the 24 sources included in his June 24, 1973, submittal. The Governor also submitted a revision to the North Dakota SIP providing for public notice and comment on new source review approval/disapproval actions as required by 40 CFR 51.18.

The clarification concerning the revision of the Secondary Particulate Standard Attainment Date was submitted by the Governor of North Dakota on November 21, 1974. This submittal changes the attainment date for the National Secondary Ambient Air Quality Standard for Particulates from February 1, 1975, to December 30, 1976, for the North Dakota Intrastate Air Quality Control Region.

The supplemental information explaining why it is not reasonable for the sources whose compliance schedules extend beyond February 1, 1975, to be in compliance by that date was submitted on April 23, 1975, by the North Dakota State Department of Health. This supplemental information also contained 1974 air quality data showing that the North Dakota Intrastate Air Quality Control Region was in compliance with the National Primary Ambient Air Quality Standard for Particulates and that only the National Secondary Ambient Air Quality Standard for Particulates was being violated.

On October 9, 1975 (40 FR 47519), the Administrator proposed to approve the North Dakota SIP revisions and requested the public to comment on the approvability of the revisions. No comments regarding the revisions were received.

The requirements for public hearings, plan revisions, and compliance schedules (40 CFR 51.4, 51.6, and 51.15) have been met by the State's proposed revisions. The compliance schedules have been reviewed and found to be consistent with the approved control strategy and the proposed attainment date for the Secondary Particulate Standard. The supplemental information submitted by the State Department of Health has been reviewed, and a determination has been made that the proposed attainment date of December 30, 1976, for the North Dakota Intrastate AQCR is reasonable in view of the compliance problems of certain sources.

In § 52.1830 below, the final compliance date is listed for each source for which a compliance schedule has been proposed. In all cases, the schedules include incremental steps toward compliance with the applicable emission limitations. While these incremental dates are not listed in the table, they are set forth in the schedules and are Federally enforceable.

The Administrator finds that the North Dakota SIP revisions meet the substantive and procedural requirements of Section 110 of the Clean Air Act and 40 CFR Part 51. Therefore, the Administrator approves the North Dakota SIP revisions as set forth in this rulemaking.

This rulemaking will be effective immediately upon publication. The Agency finds that good cause exists for not deferring the effective date of this rulemaking because the control strategy and compliance schedules are already in effect under State law and Federal approval imposes no new burdens.

(Section 110 of the Clean Air Act, as amended, 42 U.S.C. 1857 c–5)

Dated: December 17, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart JJ—North Dakota

1. In § 52.1820; paragraph (c) is added as follows:

§ 52.1820 Identification of plan.

* * * * *

(c) Supplemental information was submitted on:

(1) June 14, 1973; February 19 and November 21, 1974, by the Governor of North Dakota, concerning compliance schedules and attainment date revision;

(2) April 23, 1975, by the State Department of Health, stating why sources could not comply by the original attainment date.

§ 52.1823 [Amended]

2. In 52.1823, the table setting forth attainment dates for national standards is revised by replacing the date "Feb. 1975" for the attainment date of the secondary standard for particulate matter in the North Dakota Intrastate Region with the date "Decembr 30, 1976".

3. Section 52.1830 is added as set forth below.

§ 52.1830 Compliance schedules.

(a) The compliance schedules for the sources listed below are approved as meeting the requirements of § 51.6 and § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER H—UTILIZATION AND DISPOSAL

[FPMR Amendment H–94]

PART 101–45—SALE, ABANDONMENT, OR DESTRUCTION OF PERSONAL PROPERTY

Subpart 101–45.8—Mistakes in Bids

Dollar Limitation Increase

This amendment provides for an increase in the dollar limitation applicable to the correction of mistakes in bids alleged or disclosed after contract award in sales of surplus property.

Section 101–45.804 is amended to read as follows:

§ 101–45.804 Mistakes disclosed after award.

* * * * *

(b) * * *

(1) A contract may be rescinded in its entirety where the original total contract amount does not exceed $10,000.

(2) A contract, irrespective of amount, may be reformed (i) by deleting the item or items involved in the mistake where the deletion does not reduce the contract amount by more than $10,000; or (ii) by decreasing the price where the resultant decrease in price does not exceed $10,000 and the reformed contract price is not less than that of the otherwise next high bid under the original invitation for bids.

* * * * *

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c)).

Effective date. This regulation is effective December 24, 1975.

Dated: December 5, 1975.

JACK ECKERD,
Administrator of General Service.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 0—COMMISSION ORGANIZATION

Editorial Amendment of Freedom of Information Rdles; Order

1. Section 0.461 (h) and (i) should be amended to make it clear that applications for review of original actions on freedom of information requests should be delivered or mailed to the General Counsel (rather than to the Executive Director or the Secretary).

2. Section 0.461(h)(2) should be amended to make it clear that all applications for review and envelopes containing them (if any) should be captioned "REVIEW OF FREEDOM OF INFORMATION ACTION."

3. Authority for these amendments is contained in Sections 4 (i) and (j), 5(d) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154 (i) and (j), 155(d), and 303(r); in 5 U.S.C. 552; and in § 0.231(d) of the Commission's Rules, 47 CFR 0.231(d). Because the amendments are editorial and procedural in nature, compliance with notice and effective date requirements of 5 U.S.C. 553 is not required.

4. Accordingly, it is ordered, effective December 29, 1975, that the amendments to Part of the Rules set out below are adopted.

Adopted: December 10, 1975.
Released: December 16, 1975.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

[SEAL] RICHARD D. LICHTWARDT,
Executive Director.

Section 0.461(h) (1) and (2), and paragraph (i) are revised to read as follows:

§ 0.461 Requests for inspection of materials not routinely available for public inspection.

* * * * *

(h) (1) If a request for inspection of records submitted to the Commission in confidence under § 0.457(d) or 0.459 is granted, an application for review of the action may be filed only by the person who submitted the records to the Commission. The application for review and the envelope containing it (if any) shall be captioned "REVIEW OF FREEDOM OF INFORMATION ACTION." The application for review shall be filed within 10 working days after the date of the written ruling, shall be delivered or mailed to the General Counsel, and shall be served on the person who filed the request for inspection of records. The person who filed the request for inspection of records may respond to the application for review within 10 working days after it is filed. If an application for review is not filed within this period, the records will be produced for inspection.

(2) If the request for inspection of records submitted to the Commission in confidence under § 0.457(d) or § 0.459 is partially granted and partially denied, the person who submitted the records to the Commission and the person who filed the request for inspection of those records may file an application for review within 10 working days after the date of the written ruling. The application for review and the envelope containing it (if any) shall be captioned "REVIEW OF FREEDOM OF INFORMATION ACTION." The application for review shall be delivered or mailed to the General Counsel. If either person files an application for review, he shall serve it on the other. Responses may be filed within 10 working days after the application(s) for review is filed. If both persons file, or if an application for review is filed only by the person who filed the request for inspection of records, the application(s) will be acted on within 20 working days after the application filed by the person who requested the records is filed. If an application for review is filed only by the person who submitted the records to the Commission, it will be acted on within 20 days after it is filed. The time for filing applications for review and responses may be reduced on notice, if necessary to act on the request within the 20 day period. If an application for review is not filed within this period by the person who submitted the records to the Commission, the partial grant will be implemented.

* * * * *

(i) Except as provided in paragraph (h) of this section, an application for review of an initial action on a request for inspection may be filed only by the person who made the request. The application shall be filed within 30 days after the date of the written ruling by the custodian of the records, and shall be captioned, "REVIEW OF FREEDOM OF INFORMATION ACTION." The envelope

V401248 DEC 24 75 XUM

(if any) shall also be so captioned. The application shall be delivered or mailed to the General Counsel and shall be served on the person (if any) who originally submitted the materials to the Commission. That person may file a response within 10 working days after the application for review is filed. If the records are made available on review, the person who submitted them to the Commission (if any) will be afforded 10 working days after the date of the written ruling to seek a judicial stay. See paragraph (h) of this section. (For general procedures relating to applications for review, see § 1.115 of this chapter.)

[Docket No. 20361; RM-2408]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, Television Broadcast Stations (Salinas-Monterey, California); Report and Order

Adopted: December 16, 1975; Released: December 18, 1975

1. The Commission, by the Chief, Broadcast Bureau, has under consideration its *Notice of Proposed Rule Making*, adopted February 14, 1975, 49 Fed. Reg. 8231, inviting comments on a proposal to assign TV Channel 35 to Salinas-Monterey, California. Such an assignment may be made without affecting existing channel assignments. The proceeding was initiated in response to a petition filed by Associates for Creative Enterprise in Media (ACE Media). Comments were filed only by the petitioner. No reply comments were filed.

2. The Salinas-Monterey SMSA (pop. 139,163) [1] is composed of Salinas (pop. 58,896), Monterey (pop. 26,302) and neighboring communities of Seaside (pop. 35,935), Pacific Grove (pop. 13,505) and Carmel-by-the-Sea (pop. 4,525). Present assignments to Salinas-Monterey are Channels 8, 46, *56, and 67. Current locally originated service is provided by Stations KSBW (Channel 8) and KMST (Channel 46). An application for use of Channel 67 is pending (BPET-464). Station K56AA, a translator, operates on Channel *56, rebroadcasting signals originated by Station KTEH, Channel *54, San Jose; and Station K29AB, a translator operating on Channel 29, rebroadcasts the programming of Station KGSC-TV, Channel 36, San Jose, California.

3. The *Notice* pointed out that ACE Media, after monitoring local stations for a thirty-day period, alleged that a deficiency of minority-oriented programming exists. Petitioner expressed an intent to serve the needs of minority groups if Channel 35 was assigned and if it received an authorization for its use.

4. The *Notice* took cognizance of comments in opposition to the petition for rule making which had been filed by Continental Urban Television Corporation (Continental) and which were responded to by the petitioner. Continental is licensee of commercial television broadcast station KGSC-TV, Channel 36, San Jose, California, and of UHF television translator station K29AB, Salinas-Monterey, which, as mentioned above, carries the programming of KGSC-TV. Continental's opposition was premised upon the claim that its translator would be unable to continue operating effectively due to interference from the proposed station to the reception of the signal of its primary station by the translator station. In addressing the problem of possible interference, the *Notice* pointed out that according to § 74.702(c)(3) of the Commission's Rules and Regulations "* * * changes in the Television Table of Assignments (§ 73.606(b) of this chapter) may be made without regard to existing or proposed television broadcast translator stations. * * *" Thus, new assignments of TV channels may be made even though they may create interference to existing translator operations. If interference does occur, the translator has the burden of making necessary adjustments. Moreover, as compared to the translator, the proposed Channel 35 facility will potentially serve a much larger area (15,000 square miles) and provide for local origination of public service programming, directly serving the Salinas-Monterey area. Additionally, as mentioned in the *Notice*, the extent of interference to the translator, if it occurs, cannot be determined until such time as a transmitter site for use of Channel 35 is known; and various methods exist for correcting interference in many cases.[2]

5. In its comments, ACE Media reaffirms its intentions to apply for a construction permit and, if granted, to promptly begin construction of a station. Thus, the petitioner has demonstrated its continuing interest in providing increased local public service and minority-oriented programming.[3] The Commission is persuaded that residents of the Salinas-Monterey area will benefit from the assignment of Channel 35 and that the public interest is best served by adopting the proposal put forth in the *Notice*.

6. In view of the foregoing and pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules, *it is ordered*, That effective February 2, 1976, the Television Table of Assignments contained in § 73.606(b) of the Commission's Rules and Regulations is amended with respect to the city listed below to read as follows:

City:	*Channel No.*
Salinas-Monterey, California.	8+, 35—, 46—, *56, 67—

7. *It is further ordered*, That this proceeding IS TERMINATED.

Released: December 18, 1975.

Adopted: December 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.75-34654 Filed 12-23-75;8:45 am]

[Docket No. 20325; RM-2335, et al.]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations; Second Report and Order

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (*Payson, Ariz.*; Pauls Valley, Okla.; Pine City, Minn.; Prattville, Ala.; Center, Tex.; *Lake Arrowhead, Calif.*; Bloomfield, Ind.; Providence, Ky.; Bethany, Mo.; Pulaski, N.Y.; Soldotna-Kenai, Alaska; Clear Lake, La.; and Silverton, Colorado) (Docket No. 20325; *RM-2335;* RM-2435; RM-2387; RM-2437; RM-2392; RM-2441; RM-2400; RM-2453; RM-2402; RM-2458; *RM-2414;* RM-2459; RM-2433.

1. In a *First Report and Order* released May 1, 1975, 40 FR 19199, the Commission disposed of all the matters before it except RM-2335 and RM-2414. In each of these cases, petitioner seeks the assignment of a first FM channel (Class A) to a community without requiring any other changes in the FM Table of Assignments. Each assignment can be made in conformance with the Commission's minimum mileage separation rule. Both petitioners state their intention to apply for the channel, if assigned, and to build a station, if authorized. There were no oppositions to the proposals. Supporting comments were filed by the respective petitioners.

2. *RM-2335, Payson, Arizona.* Charles W. Carpenter (petitioner) filed a petition on February 26, 1974, proposing the assignment of Channel 280A to Payson, Arizona. Payson (population 1,490) [1] is located in Gila County (population 29,255), some 65 miles northeast of Phoenix, Arizona. Payson has no local broadcast facilities. Petitioner states that radio stations in Phoenix, Flagstaff and Show Low can be received in Payson but, because of the mountainous area, reception is poor during the daylight hours and almost nonexistent after the sun sets, and thus there is a need for a local broadcast facility.

3. *RM-2414, Lake Arrowhead, California.* Arrowhead Broadcasting Co. (petitioner) filed a petition on May 22, 1974, proposing the assignment of Channel 280A to Lake Arrowhead, California. Lake Arrowhead (population 2,682) is located in San Bernardino County (population 684,072) some 10 miles southeast of San Bernardino, California. Petitioner points out that, although AM and FM signals are received from San Bernardino and other cities in the general vicinity, Lake Arrowhead has no local AM or FM transmission service, and that the mountainous terrain tends to block FM signals and give higher than normal attenuation of AM signals.

4. In the *Notice* we set out economic and other information pertaining to the need for a first FM assignment in each of the two communities. That information is accepted as being substantially correct and will not be repeated here. We believe that each of the communities appears to warrant the proposed assignment since they have no local broadcast facilities and that adoption of the proposals would serve the public interest.

5. Under the terms of the United States-Mexico FM Broadcasting Agreement, the appropriate representatives of the United Mexican States have indicated that there are no technical objections to the proposed channel assignments.

6. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules.

7. Accordingly, *it is ordered*, That effective January 30, 1976, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, is amended to include the cities listed below:

City:	*Channel No.*
Arizona: Payson	280A
California: Lake Arrowhead	280A

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 5, 303, 307, 48 Stat., as amended, 1066, 1068, 1082, 1083; 47 U.S.C. 154, 155, 303, 307)

Released: December 12, 1975.

Adopted: December 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc. 75-34655 Filed 12-23-75;8:45 am]

[FCC 75-1337]

PART 97—AMATEUR RADIO SERVICE

Procedures for Renewal of Amateur Radio Service Licenses; Order

1. The Commission intends by this Order to simplify procedures involved in the renewal of Amateur Radio Service licenses. We are deleting that part of § 97.13(a) of the Commission's Rules requiring an applicant renewing his Amateur license to state he has met certain code speed and operating time requirements.

2. Under § 97.13(a) of the Rules an Amateur applicant seeking to renew his operator's license must meet two requirements. He must state he has lawfully accumulated either two hours operating time during the last three months or five hours operating time during the last twelve months of his license term at an Amateur station licensed by the Commission. He must also state he is able to send and receive International Morse Code at a speed not less than that at which he qualified for the license being renewed.

3. We believe § 97.13(a) to be unduly restrictive. Under the Commission's continuing program of deregulation of the Amateur Radio Service we are attempting to eliminate useless and unnecessary regulations, and the requirments of § 97.13(a) are both. Occasionally, otherwise well qualified licenses have been unable to meet the strict requirements of § 97.13(a) because of circumstances beyond their control.

4. The Commission believes the imposition of operating time and code speed requirements for renewal of an Amateur license constitutes an unjustifiable burden on a class of people already shown by Commission examination to be qualified to operate an Amateur radio station. We perceive no purpose to be served in depriving a person of his license because of a Rule never shown to have any beneficial effect whatsoever. No one has ever demonstrated that any identifiable relationship exists between the requirements of § 97.13(a) and an individual's competence as a radio Amateur.

5. Therefore, for the reasons cited in the preceding paragraphs we are deleting all of § 97.13(a) except that part stating an Amateur license may be renewed upon proper application.

6. Authority for this amendment appears in §§ 4(i) and 303 of the Communications Act of 1934, as amended. The prior notice and procedure provisions of the Administrative Procedure Act 5 U.S.C. § 553, are unnecessary because the Commission believes the minor amendment adopted herein will have an insignificant impact on Amateur licensees and the public at large, and that no objection to such an amendment will be received. Since the amendment relieves a rule restriction, the effective date may be immediate, pursuant to the Administrative Procedure Act.

7. In view of the foregoing, *it is ordered* that the Rule amendment as set forth below shall be adopted, effective December 24, 1975.

Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: December 9, 1975.

Released: December 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 97 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 97.13(a) is amended and note deleted to read as follows:

§ 97.13 Renewal or modification of operator license.

(a) An Amateur operator license, except the Novice Class, may be renewed upon proper application.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Amendment No. 2 to service order No. 1212]

PART 1033—CAR SERVICE

Union Pacific Railroad Company Authorized To Operate Over Tracks of Great Plains Railway Company

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 18th day of December, 1975.

Upon further consideration of Service Order No. 1212 (40 FR 19827, 27941), and good cause appearing therefor:

It is ordered, that:

§ 1033.1212 Union Pacific Railroad Company authorized to operate over tracks of Great Plains Railway Company.

Service Order No. 1212 be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., March 31, 1976, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., December 31, 1975.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 49 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroad subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-34733 Filed 12-23-75;8:45 am]

[1] All population figures are from the 1970 U.S. Census.

[2] It appears that Channel 35 is the only TV channel that can be assigned to Salinas-Monterey in conformity with spacing separation requirements and without affecting existing assignments in the Table of Assignments.

[3] Other parties, of course, may apply for use of the channel.

[1] Population figures are from the 1970 U.S. Census.

V40248 DEC 24 75 XUM

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 18—MARINE MAMMALS

Subpart F—Approval of State Laws and Regulations

On February 13, 1975, a document was published in the FEDERAL REGISTER (40 FR 6664) proposing to amend Part 18, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations, by (1) the addition of a new subpart F to the table of sections, (2) the addition of a new § 18.32 entitled "Waiver of the Moratorium", (3) the addition of a new subpart F entitled "Waiver of the Moratorium; State Laws and Regulations," and (4) the amendment of § 18.23 entitled "Native exceptions."

The proposal contained a detailed description of each of the four elements of the proposal, gave notice of the availability of the State of Alaska's regulations concerning Pacific walrus and the statements required by section 103(d)(1)–(4) of the Marine Mammal Protection Act of 1973 ("the Act"), set forth a concise summary of procedures and a reference to the procedural regulations which would be applicable to a hearing concerning the proposal, and gave notice of the times and places where a prehearing conference and subsquent hearing would be held if requested as well as the name and address of the Presiding Officer and the means by which participation in a hearing could be secured.

At the request of interested parties, a hearing was held in two stages. The first stage was held in Anchorage, Alaska, on March 18–22, 1975, at which the proponents presented their case in support of the proposed cooperative State/Federal conservation program. At the second stage held in Arlington, Virginia, on April 8 and 9, 1975, the opponents and the Marine Mammal Commission were afforded an opportunity to voice their objections and to make their suggestions for changes, additions, and modifications to the proposal. Forty-five documentary exhibits and the testimony of fourteen witnesses were received in evidence; a total of 1,152 pages of transcript were amassed. Six parties proponent, three parties opponent supported by a number of affiliated groups, and one non-aligned party, the Marine Mammal Commission, actually participated in the proceeding.

Presiding Officer Joseph B. Kennedy, in a recommended decision issued on July 10, 1975, found that waiver of the moratorium on the taking of Pacific walrus was appropriate and that, subject to suggested changes in the proposed regulations and the State's management program, the cooperative State/Federal management program for Pacific walrus should be promulgated. [In Re: Waiver of the Moratorium on Walrus Under Regulations for a cooperative State/Federal Conservation Program, Docket No. Wash. 75–1, July 10, 1975.] The United States Fish and Wildlife Service excepted to certain recommendations made by the Presiding Officer concerning the Federal regulations, the State management program, and the contents of a new subpart which was suggested by the decision. [Exceptions to Recommended Decision on Behalf of United States Fish and Wildlife Service, Docket No. Wash. 75–1, July 31, 1975]. Exceptions to the recommended decision were also filed by the Environmental Defense Fund, Project Monitor, Inc., and affiliated groups; Friends of Animals, Inc., Committee for Humane Legislation; The Alaska Professional Hunters Association; the Marine Mammal Commission; and the State of Alaska. Copies of the Presiding Officer's decision and of the exceptions filed thereto are available for public inspection at the Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd., Arlington, Virginia 22203, or may be obtained by writing to the Director, U. S. Fish and Wildlife Service, Washington, D.C. 20240.

On December 2, 1975, the Director of the U.S. Fish and Wildlife Service issued a final decision in the proceeding concerning waiver of the moratorium on the taking of Pacific walrus. That decision is published simultaneously with these regulations. As part of the Director's decision, the proposed regulations are modified in accordance with the recommended decision of the Presiding Officer, *supra*, and the exceptions thereto filed by the U.S. Fish and Wildlife Service, *supra*, both of which are hereby incorporated by reference.

Accordingly, Part 18 of Subchapter B, Chapter I of Title 50, CFR, is amended as follows:

1. In the table of sections, a new Subpart F is added, reading:

Subpart F—Waiver of the Moratorium; State Laws and Regulations

Sec.
18.51 Purpose of regulations
18.52 Scope of regulations
18.53 Effective waiver of the moratorium
18.54 Approval of State laws and regulations—procedures
18.55 Approval of State laws and regulations—criteria
18.56 Review of approved State laws and regulations
18.57 Enforcement
18.58 List of waivers and States approved

2. Section 18.32 is added to read as follows:

§ 18.32 Waiver of the moratorium.

See subpart F (Waiver of the moratorium; State laws and regulations) and subpart G (Notice and Hearing on Section 103 Regulations) for procedures regarding waivers of the moratorium in those circumstances where a state provides an acceptable management program for a species or population stock within its jurisdiction.

3. A new subpart F is added, reading as follows:

[1] See FR Doc. 75-34636 in the Notices section.

Subpart F—Waiver of the Moratorium; State Laws and Regulations

§ 18.51 Purpose of regulations.

The regulations contained in this subpart fulfill the requirements of sections 101, 103, and 109 of the Act for regulations to implement a waiver of the moratorium in those circumstances where a State provides an acceptable management program for a species or population stock within its jurisdiction.

§ 18.52 Scope of regulations.

(a) The provisions in this subpart apply only when the Director has made a decision to waive the moratorium, and when a State has requested a determination from the Director, pursuant to section 109(a)(2) of the Act, that the State's laws and regulations relating to the protection and taking, within its jurisdiction, of any species or population stock of marine mammals, are consistent with the waiver of the moratorium, the Act and the regulations in this subchapter which apply to such species or population stocks. The provisions set forth standards and criteria for such determination by the Director and for subsequently waiving the moratorium.

(b) The provisions in this subpart apply to all takings of marine mammals subject to a waiver of the moratorium and approved State laws and regulations implementing the waiver and to importation subsequent to such takings except takings for scientific research, for public display, and incidental to commercial fishing operations.

§ 18.53 Effective waiver of the moratorium.

(a) The Director shall, in response to a request by a State under § 18.54 for approval of its laws and regulations implementing a waiver of the moratorium, make such waiver as is consistent with the goals, policies, and provisions, and pursuant to the procedures of the Act. Such waivers shall be published as notices in the FEDERAL REGISTER.

(b) Any waiver granted in response to a request by a State under this subpart shall not be effective until the Director has approved the relevant State laws and regulations pursuant to § 18.54.

(c) Upon waiver of the moratorium and approval of State laws and regulations implementing the waiver under this subpart, subpart B of Part 18 shall not apply to any activities subject to such laws and regulations.

§ 18.54 Approval of State laws and regulations—procedures.

(a) Any state may request a determination that its laws and regulations are consistent with the Act and the regulations in this part, and may request a waiver of appropriate portions of section 101 of the Act in order to allow such laws and regulations to take effect.

(b) The request must be submitted in accordance with section 18.4(c) of this part.

(c) Upon receipt of a request in accordance with § 18.4(c) of this part, the Director shall publish in the FEDERAL

REGISTER a notice of consideration of the laws and regulations submitted and a summary of the substantive ecological and biological statements required by section 103(d) of the Act. Such notice shall also set forth relevant information concerning the right afforded interested persons to request a public hearing in accordance with subpart G.

(d) The Director may approve such State laws and regulations if they implement a waiver of the moratorium and he determines them to be consistent with any regulations promulgated under section 103 with respect to such marine mammals, provisions of the Act, any other rule or regulation promulgated pursuant to the Act with respect to such marine mammals, and the provisions of § 18.55 and other provisions of this subpart.

(e) Upon approval, the Director shall publish a notice in the FEDERAL REGISTER stating such approval, briefly summarizing the management program established by the State laws and regulations, stating which provisions of section 101 of the Act are waived in order to allow such State laws and regulations to take effect, and the date of submission of the State's annual report.

(f) Any modifications, amendments, deletions or additions to laws or regulations previously approved shall require review and approval by the Director pursuant to paragraphs (c) through (f) of § 18.56 of these regulations before their adoption.

(g) All determinations by the Director shall be final.

(h) If the Director has approved State laws and regulations pursuant to this subpart, all activities conducted pursuant to a waiver of the moratorium, including those carried out on the high seas adjacent to the coast of the State, must be in accordance with the approved State laws and regulations. Any violation of State laws and regulations occurring beyond the jurisdiction of the State shall be punishable in accordance with section 105 of the Act.

§ 18.55 Approval of State laws and regulations—criteria.

Any State which applies to the Director for approval of its laws and regulations pursuant to § 18.54 must demonstrate, to the Director's satisfaction, that such laws and regulations:

(a) Provide for a modern scientific resource management program, including, but not limited to, research, census, law enforcement, habitat acquisition and improvement and, when and where appropriate, the periodic or total protection of the marine mammals in question;

(b) Establish a program which is based upon the best scientific evidence available on the relevant marine ecosystem and the role of the marine mammals in question in that ecosystem;

(c) Establish a program which is consistent with the primary goal of the Act, to maintain the health and stability of the marine ecosystem;

(d) Establish a program which insures that the species or population stock of marine mammals in question will be maintained at its optimum sustainable population, unless the State can show that some other population level more properly maintains the health and stability of the marine ecosystem;

(e) Provide appropriate maximum quotas and seasons, whenever a taking or importation is proposed, unless the State can show that it is consistent with these criteria to have no quota or season;

(f) Require the automatic imposition of a moratorium on all taking and/or importing of the marine mammals in question whenever their number drops below the range of optimum sustainable population levels unless such diminution in the population is consistent with the health and stability of the relevant marine ecosystem.

(g) Establish quotas, seasons, and other allowances and restrictions as necessary in accordance with the following factors:

(1) The seasonal distribution of populations;

(2) Segregation within populations by sex and age;

(3) Discreteness of populations;

(4) Population density;

(5) Critical periods in the species life cycle;

(6) Critical habitat areas;

(7) Productivity of the population;

(8) Species interactions;

(9) Percentage of retrieval by hunters;

(10) Maximization of the utilization of the species;

(11) Other uses of the species, such as recreational use or incidental catch; and

(12) Enforceability of the limitations.

(h) Contain suitable limitations on the means and methods of taking which assure that taking will be by humane means and will maximize the utilization of each animal taken.

(i) Contain provisions for significant public participation within the State in the process of making the rules in question.

(j) Meet the criteria specified in § 18.4(d) of this part, to the extent such criteria may differ from those prescribed in this section.

§ 18.56 Review of approved State laws and regulations.

(a) All State laws and regulations which have been approved shall be reviewed annually, unless a major modification indicates that an earlier review is appropriate.

(b) In order to facilitate such a review, each State having approved laws and regulations must submit an annual report containing the following information current for each reporting period:

(1) Any changes in the State laws or regulations;

(2) Any new data on the marine mammal stocks or the marine ecosystems in question;

(3) All available harvest data;

(4) A summary of all research activity on the stocks or ecosystem in question;

(5) Any changes in the information provided with the original request for approval;

(6) A summary of all enforcement activity, including permits issued, skins sealed, reports under permits, investigations undertaken and their dispositions;

(7) Present budget and staffing level for the marine mammal activities;

(8) Any other information which the Director may request, or which the State deems necessary or advisable.

(c) Each State having approved laws and regulations shall file a special report within 30 days whenever any of the following information is available:

(1) A proposed change in a relevant State law or regulation (amendments, repealers, or new legislation or regulations); or

(2) A significant natural or man-made occurrence affecting the marine ecosystem or the stock in question; or

(3) An apparent over-harvest or other significant violation of the State management program.

(d) Upon receipt of any other report described in § 18.56(b) or 18.56(c) the Director shall, in consultation with the Marine Mammal Commission determine whether or not the State laws and regulations continue to comply with the requirements of this subpart.

(e) Whenever the Director preliminarily determines, in consultation with the Marine Mammal Commission, that the State laws and regulations are not in compliance with the requirements of this subpart, he shall publish notice of such determination in the FEDERAL REGISTER, inviting submission from interested persons, within 30 days of the date of the notice, of written data, views or comments, and requests for hearing, with respect to such preliminary determination.

(f) As soon as practicable after the 30-day comment period described in § 18.56(e), the Director, in consultation with the Marine Mammal Commission, shall determine whether or not to finally disapprove the State laws and regulations. The Director's determination shall be made within 90 days after publication of the notice described in § 18.56(e), unless a hearing is held, in which case the determination shall be made in accordance with the provisions of the Administrative Procedure Act and the procedural regulations of subpart G of this part.

(g) If the Director makes a final determination to disapprove proposed changes in State laws and regulations, the State shall, at the Director's discretion, have the option of retaining its initially approved laws and regulations in which case the waiver shall remain in effect. All final determinations of disapproval shall be published in the FEDERAL REGISTER; upon such publication unless a State elects within 30 days to retain its originally approved laws and regulations, any waiver conditioned upon approval of State laws and regulations as provided in § 18.53(b) shall terminate, and the moratorium of section 101 of the Act shall be reinstated and supersede such State laws and regulations.

§ 18.57 Enforcement.

(a) The appropriate official in each State shall utilize such methods as he deems appropriate to assure to the max-

V 401248 DEC 24 75 XUM

imum extent practicable that the quotas, seasons, and other limitations in approved State laws and regulations are not exceeded.

These methods may include, but are not limited to, patrols, surveillance, investigation, permit record-keepings and reporting requirements, and tagging and marking requirements.

(b) The hides or skins of marine mammals taken pursuant to approved State laws and regulations, and tanned commercially, must be tanned at a tannery registered pursuant to this part. Lists of such tanneries may be obtained from agents of the Service.

(c) Any seals attached by State officials under approved State laws and regulations must remain affixed until removed for tanning.

§ 18.58 List of waivers and States approved. [Reserved]

4. Section 18.23 is amended by redesignating the existing subsections (c) and (d) as subsections (d) and (e), respectively, and a new subsection (c) is added, reading as follows:

§ 18.23 Native exception.

(c) The restriction in subsection (b) shall not apply to parts or products of the Pacific walrus (*Odobenis rosmarus*) to the extent that the waiver of the moratorium and the approved State/Federal regulations relating to the taking and importation of walrus permits the delivery, sale, transportation or shipment of parts or products of the Pacific walrus in interstate or foreign commerce.

Dated: December 17, 1975.

LYNN A. GREENWALT,
Director,
Fish and Wildlife Service.

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Petit Manan National Wildlife Refuge

The following special regulations are issued and are effective during the period April 15, 1976 through November 15, 1976.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

MAINE

PETIT MANAN NATIONAL WILDLIFE REFUGE

Entry by motor vehicle is permitted via Petit Manan Point Road to the designated parking area for the purpose of nature study, photography, hiking, and sight-seeing during daylight hours only from April 15 through November 15, 1976. Foot access only is permitted beyond the parking area on designated trails. Clamming is permitted in accordance with State and Town regulations; access to clamming areas is by water routes only. Pets are permitted if on a leash not over 10 feet in length. The picking of blueberries for off-site use is prohibited. No access or use of the island portion of the refuge is permitted.

The refuge area, comprising approximately 1,715 acres, is delineated on maps available from the Refuge Manager, Moosehorn National Wildlife Refuge, Box X, Calais, Maine 04619, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective during the period April 15 through November 15, 1976.

WM. C. ASHE,
Acting Regional Director,
U.S. Fish and Wildlife Service.

DECEMBER 17, 1975.

[FR Doc.75-34640 Filed 12-23-75;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Naval Orange Regulation 359]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Dec. 26–Jan. 1, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Naval oranges so fixed was arrived at after consideration of the total available supply of Naval oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.659 Navel orange regulation 359.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Naval oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Naval Orange Administrative Committee established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Naval oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Naval oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Naval oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges remained strong during the early part of last week, but it fell sharply toward the end of the week as holiday buying virtually stopped, and activity is very slow at present.

Prices f.o.b. averaged $4.27 a carton on a reported sales volume of 1,349 carlots last week, compared with an average f.o.b. price of $4.25 per carton and sales of 995 carlots a week earlier.

Track and rolling supplies at 339 cars were down 133 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Naval oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concern-

ing such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 22, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period December 26, 1975, through January 1, 1976, are hereby fixed as follows:

(i) District 1: 807,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: 43,000 cartons."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 22, 1975.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-34968 Filed 12-23-75;11:16 am]

V40248 DEC 24 75 XUM

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

[12 CFR Part 8.2]

ASSESSMENT OF FEES: NATIONAL BANKS, DISTRICT OF COLUMBIA BANKS

Notice of Proposed Rulemaking

The Comptroller of the Currency is considering amending the regulation governing the assessments on national banks and District of Columbia banks which is contained in 12 CFR 8.2. The authority for the Comptroller of the Currency to assess such fees may be found in R.S. 5240, as amended, 12 U.S.C. 482, and in section 3, 47 Stat. 1566, 26 D.C. Code 102.

For the past several years, the expenses of the Office of the Comptroller of the Currency have been rising faster than its revenues. Under the present assessment schedule, this office expects to suffer a $9 million deficit in 1975. This deficit will increase to $22 million in 1976 if the assessment schedule is not changed.

The largest proportion of the increase in expenses has been caused by general federal Government pay increases. The salary expense for the Office of the Comptroller of the Currency increased 109 percent between 1969 and 1975. During this same period the total number of employees increased 24 percent.

In 1973, the Office was informed that after July 1, 1974, the Washington office and certain regional offices would no longer be allowed to occupy rent-free space in Government buildings. This caused a large increase in rental expenses.

Until 1973, the growth of national bank assets was sufficient to offset, under the existing assessment schedule, the increasing expenses. Since then, the growth of assets has slowed while the Office expenses have continued to increase at a growing rate.

Under the present assessment schedule, the current figure on which assessments on national banks is calculated is the total asset figure reported on the "Report of Condition (Consolidating Domestic Subsidiaries)", with a minimum assessment of $200. Assets on the books of foreign branches and foreign subsidiaries of national banks are not now included in this figure. In addition, an assessment of $50 is currently collected for each branch office.

Large and small banks pay disproportionately for the costs of maintaining the Comptroller's Office. The following table (Table 1) illustrates the extent to which the present assessment schedule apportions the burden of assessment in relation to the costs of examining banks of various sizes. The term "Relative Cost Coverage" used in this tabe is defined as the relationship between the income this Office receives from a bank and the costs of this Office attributable to that bank. Accordingly, if a bank has a relative cost coverage of 100 percent, it is paying its proportional share of the operations of this Office; if less than 100 percent, it is paying less than its share; if more than 100 percent, it is paying more than its share.

TABLE 1

Asset group (in millions)	Current relative cost coverage (percent)	Number of banks
0 to $5	27.1	320
$5 to $10	29.7	684
$10 to $25	37.5	1,615
$25 to $50	47.5	970
$50 to $75	59.5	387
$75 to $100	68.4	167
$100 to $200	77.6	262
$200 to $300	90.9	74
$300 to $400	97.3	59
$400 to $500	102.7	32
$500 to $750	112.8	40
$750 to $1,000	109.4	26
$1,000 to $1,500	157.1	21
$1,500 to $2,000	176.2	19
$2,000 to $3,000	161.2	14
$3,000 to $4,000	140.3	5
$4,000 to $5,000	126.3	4
$5,000 to $10,000	239.2	4
$10,000 to $25,000	325.1	5
$25,000 and over	286.3	3

Thus, large banks have been paying a disproportionate part of the cost of regulation, some paying as much as three times the cost associated with their own examination. Smaller banks have been paying considerably less than the cost associated with their examination. The "break even" point has been at banks of approximately $400 million in assets.

A simple proportional increase in the present assessment percentage would yield increased revenue, but it would also perpetuate the inequities which are inherent in the present system.

In order to obtain a more equitable distribution of assessments, the Comptroller of the Currency is considering the adoption of an assessment schedule which applies a declining percentage rate to the total assets reported on the "Consolidated Report of Condition (Including Domestic and Foreign Subsidiaries)." It is proposed that both the basic flat fee and the separate branch fee be eliminated, although the basic flat fee is to some extent replaced by the relatively high percentage rate applied to the first $1 million of total assets.

The proposed assessment schedule is set forth in table 2 below:

TABLE 2

If the amount of total assets (consolidating domestic and foreign subsidiaries) is—		Assessment will be—		
Over—	But not over—	This amount	Plus—	Of excess over—
Millions	*Millions*		*Percent*	*Millions*
0	$1	0	0.1000	0
$1	10	$1,000	.0125	$1
10	50	2,125	.0095	10
50	100	5,925	.0060	50
100	500	8,925	.0050	100
500	1,000	28,925	.0045	500
1,000	3,000	51,425	.0040	1,000
3,000	10,000	131,425	.0034	3,000
10,000	20,000	369,425	.0032	10,000
20,000	----------	689,425	.0021	20,000

If the proposed declining assessment schedule is adopted "the relative cost coverage" (i.e., the relationship between the income this Office receives from a bank and the cost of this Office attributable to that bank) will be as set forth in Table 3 below:

TABLE 3

Asset group (in millions)	Current relative cost coverage (percent)	Proposal relative cost coverage (percent)	Number of banks
0 to $5	27.1	66.8	320
$5 to $10	29.7	69.7	684
$10 to $25	37.5	74.6	1,615
$25 to $50	47.5	81.7	970
$50 to $75	59.5	90.0	387
$75 to $100	68.4	91.4	167
$100 to $200	77.6	89.2	262
$200 to $300	90.9	88.0	74
$300 to $400	97.3	88.6	59
$400 to $500	102.7	90.0	32
$500 to $750	112.8	93.4	40
$750 to $1,000	109.4	86.2	26
$1,000 to $1,500	157.1	120.4	21
$1,500 to $2,000	176.2	128.7	19
$2,000 to $3,000	161.2	116.4	14
$3,000 to $4,000	140.3	99.9	5
$4,000 to $5,000	126.3	97.2	4
$5,000 to $10,000	239.2	176.6	4
$10,000 to $25,000	325.1	221.0	5
$25,000 and over	286.3	193.6	3

All assessments made after the date of this proposal will be made at those rates finally adopted as a result of this proposal. The Comptroller expects to notify each national bank in January 1976 of the rates adopted and to assess each national bank at those rates based on assets reported as of December 31, 1975. The assessment notices so distributed in January 1976 will be for the assessment due as of December 31, 1975.

The Comptroller of the Currency requests the comments of all interested parties on this proposal. Comments on the proposed amendment should be in writing, addressed to C. Westbrook Murphy, Deputy Comptroller for Law and Chief Counsel, Comptroller of the Currency, Washington, D.C. 20219, to be received prior to January 10, 1976.

Dated: December 18, 1975.

JAMES E. SMITH,
Comptroller of the Currency.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[7 CFR Part 1822]

[FMHA Instruction 444.1]

RURAL HOUSING LOANS AND GRANTS

State Mortgage Insurance Programs

Notice is hereby given that the Farmers Home Administration (FmHA) has under consideration the amendment of §§ 1822.3 (e) and (g) and 1822.10(c) of Subpart A of Part 1822, Title 7, Code of Federal Regulations (3g FR 44993). It is proposed that § 1822.3(e) be amended to add a new subparagraph (5) to include within the definition of "owner" the holder of possessory rights on Indian Reservations or State-owned lands. Section 1822.3(g) is amended, and a new paragraph (c) under § 1822.10 is added to provide for use of State Mortgage Insurance Programs as Rural Housing loan security when the applicant is the holder of possessory rights on Indian Reservations or State-owned lands. The present §§ 1822.3(e)(5) and 1822.10(c) are redesignated as subparagraphs (6) and paragraph (d) respectively, without change. Editorial changes have been made in paragraph (a) (1) and (3) of §§ 1822.10 to reflect the crops-referencing therein.

Interested persons are invited to submit written comments, suggestions, data or arguments regarding the proposed amendments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250, on or before January 23, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch, during regular business hours (8:15 A.M.-4:45 P.M.)

1. Section 1822.3(e) is amended by adding a new paragraph (5), and redesignating the existing paragraph (5) as paragraph (6).

§ 1822.3 Definitions.

• • • • • •

(e) *Owner.* • • •

(5) The holder of possessory rights on an Indian Reservation or State-owned land when the loan is secured in accordance with § 1822.10(c).

• • • • • •

(g) *Security.* "Security" includes any rights as interest in property of any kind subject to a mortgage. It also includes State-provided mortgage insurance guaranteeing a loan in case of default.

• • • • • •

2. Section 1822.10(a) (1) and (3) are amended as follows; a new paragraph (c) is added, and the existing paragraph (c) is redesignated as paragraph (d).

§ 1822.10 Security.

(a) *General.* Loans other than those excepted under paragraph (d) of this section • • •.

(1) Any loan of more than $5,000 and any loan scheduled for repayment in more than 15 years from the date of the note will be secured by a real estate mortgage as provided in paragraph (b) of this section, unless security is provided in accordance with paragraph (c) of this section.

• • • • • •

(3) • • • in accordance with paragraph (d) of this section.

• • • • • •

(c) *State-provided Mortgage Insurance.* When the applicant is the holder of possessory rights on an Indian Reservation or State-owned land, adequate security in the form of mortgage insurance from a State agency will be acceptable. Separate State regulations covering loan approval and title clearance and closing, appropriate loan documents and a Memorandum of Understanding with the State insuring agency should be developed and used with the approval of the State Director and the concurrence of the Office of General Counsel. Approval of such regulations by the National Office is required prior to participation in any such program.

(42 U.S.C. 1480; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

Dated: December 17, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 36]

[Docket No. 15131; Notice No. 75-37A]

PROPOSED NOISE REDUCTION STAGES AND ACOUSTICAL CHANGE REQUIREMENTS FOR SUBSONIC TRANSPORT CATEGORY LARGE AIRPLANES AND SUBSONIC TURBOJET POWERED AIRPLANES

Extension of Comment Period

The Federal Aviation Administration proposed in Notice No. 75-37, published in the FEDERAL REGISTER on November 5, 1975 (40 FR 51476), to amend Part 36 to

XUM V40248 DEC 24 75 D XUM

provide for three stages of noise reduction, to require new applications for type certificates to comply with noise limits more restrictive than those in current Appendix C, and to increase the severity of the acoustical change requirements for airplanes that comply with current Appendix C, as applied to subsonic transport category large airplanes and to subsonic turbojet powered airplanes.

The Aerospace Industries Association of America, Inc., has requested a 60-day extension of time for submission of comments. The extension is stated to be needed because the proposed rule involves matters that require more analysis than can be accomplished during the current comment period.

Recognizing the complex nature of the proposed amendment and the potentially far-reaching issues involved, I find that petitioner has shown a substantive interest in the proposed rule, that good cause exists for the extension, and that the extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR Part 11.45), the time within which comments on Notice No. 75–37 will be received is extended to March 8, 1976.

Issued in Washington, D.C. December 17, 1975.

JOAN B. BARRIAGE,
Acting Director,
Environmental Quality.

[Airspace Docket No. 75–WE–32]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Oxnard, California (Ventura County Airport) control zone.

The airspace requirements for the Ventura County Airport, Oxnard, California have been reviewed in accordance with criteria contained in the United States Standards for Terminal Instrument Procedures. The review revealed that the description of the control zone requires amending to provide sufficient controlled airspace protection for aircraft executing the present VOR RWY 25 and the proposed ILS and LOC RWY 25 instrument approach procedures while operating below 1,000 feet above the surface.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before January 23, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airsapce action.

In § 71.171 (40 FR 354) the description of the Oxnard, California (Ventura County Airport) control zone is amended as follows:

OXNARD, CALIFORNIA (VENTURA COUNTY AIRPORT)

Within a 5 mile radius of Ventura County Airport (latitude 34°12'02" N., longitude 119°12'10" W.) and within 2 miles each side of the Ventura County Runway 25 localizer east course extending from the 5 mile radius zone to two miles east of the outer marker. This control zone shall be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airmen's Information Manual.

This amendment is proposed under authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on December 12, 1975.

W. R. FREHSE,
Acting Director, Western Region.

[14 CFR Part 71]

[Airspace Docket No. 75–WE–33]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Palomar, California, control zone.

An instrument landing system (ILS) will be installed in the near future at the Palomar Airport, Carlsbad, California. Two new approach procedures are being developed for this airport (ILS RWY 24 and LOC RWY 24). The control zone extension would provide controlled airspace for these appropriate procedures while aircraft are operating below 1,000 feet above the surface.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before January 23, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (40 FR 354) the description of the Palomar, California, control zone is amended as follows:

PALOMAR, CALIFORNIA

Within a 3-mile radius of Palomar Airport (latitude 33°07'40" N., longitude 117°16'45" W.); within 1.5 miles each side of the Oceanside VORTAC 134° radia, extending from the 3-mile radius zone to 4.5 miles southeast of the VORTAC, and within 1.5 miles each side of the Palomar Runway 24 localizer east course extending from the 3-mile radius zone to 7.5 miles east of the airport. This control zone shall be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on December 12, 1975.

W. R. FREHSE,
Acting Director, Western Region.

[14 CFR Parts 71 and 73]

[Airspace Docket No. 75–SO–129]

TEMPORARY RESTRICTED AREAS

Proposed Designation

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate several temporary restricted areas over portions of Ga., and N.C., to contain a joint military training exercise SOLID SHIELD 76. The designations would extend from May 12, 1976, through May 25, 1976. Those areas encompassing airspace at or above 14,500 fee MSL would also be included in the continental control area for the duration of their time of designation.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before January 23, 1976, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket will also be available for examination at the office of the regional Air Traffic Division Chief. Request for copies of this Notice of Proposed Rule Making should be addressed to the Federal Aviation Administration, Office of Information Services, Attention: Public Information Center, AIS–230, 800 Independence Avenue SW., Washington, D.C. 20591.

The proposed amendments would designate the following temporary restricted areas:

R–5309A SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°05'00" N., Long. 79°25'00" W.; to Lat. 35°07'05" N., Long. 79°22'50" W.; thence south and east along R–5311A to Lat. 35°02'45" N., Long. 79°17'00" W.; to Lat. 35°00'00" N., Long. 79°17'00" W.; to Lat. 34°57'00" N., Long. 79°38'00" W.; to point of beginning.

Designated altitudes. Surface to 12,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309B SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°16'00" N., Long. 79°14'00" W.; to Lat. 35°16'00" N., Long. 79°02'30" W.; to Lat. 35°11'00" N., Long. 79°02'29" W.; thence west along R–5311A to Lat. 35°12'00" N., Long. 79°14'00" W.; to point of beginning.

Designated altitudes. 1,200 feet MSL to but not including FL 180.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309C SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°16'00" N., Long. 78°33'00" W.; to Lat. 35°16'00" N., Long. 78°08'00" W.; to Lat. 35°10'00" N., Long. 77°59'00" W.; to Lat. 34°58'00" N., Long. 78°03'00" W.; to Lat. 35°00'00" N., Long. 78°24'00" W.; to point of beginning.

Designated altitudes. 1,200 feet MSL to 10,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309D SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°00'00" N., Long. 78°24'00" W.; to Lat. 34°58'00" N., Long. 78°05'00" W.; to Lat. 34°49'20" N. Long. 78°07'30" W.; to Lat. 34°32'30" N., Long. 78°27'30" W.; to point of beginning.

Designated altitudes. 7,000 feet MSL to 10,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309E SOLID SHIELD 76

Boundaries. Beginning at Lat. 34°53'45" N., Long. 78°43'00" W.; to Lat. 34°49'20" N., Long. 78°07'30" W.; to Lat. 34°17'00" N., Long. 78°30'00" W.; to Lat. 34°25'00" N., Long. 78°43'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL north of latitude 34°30'00" N., and 1,200 feet MSL to 10,000 feet MSL south of 34°30" N.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309F SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°15'00" N., Long. 77°30'00" W.; to Lat. 34°57'30" N., Long. 77°03'00" W.; thence south and east along Restricted Areas R–5306B, C, D, and E to Lat. 34°30'20" N., Long. 77°15'50" W.; thence 3-nautical miles from and parallel to the shoreline to Lat. 34°18'00" N., Long. 77°37'30" W.; to Lat. 34°28'00" N., Long. 77°38'00" W.; to Lat. 34°33'30" N., Long. 77°49'00" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to Lat. 35°03'00" N., Long. 77°43'00" W.; to Lat. 35°11'00" N., Long. 77°36'00" W.; to point of beginning, excluding that airspace from the surface to 3,000 feet MSL within a 5-statute mile radius circle centered on the Albert Ellis Airport (Lat. 34°49'49" N., Long. 77°36'42" W.) and extending 4 nautical miles each side of the final approach courses for the Albert Ellis ILS RWY–5 (051° R) and NDB–5 (051° M) approaches.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309G SOLID SHIELD 76

Boundaries. Beginning at Lat. 34°57'30" N., Long. 77°02'00" W.; to Lat. 34°43'15" N., Long. 76°47'30" W.; to Lat. 34°43'00" N., Long. 76°54'45" W.; to Lat. 34°30'30" N., Long. 77°05'00" W.; to Lat. 34°49'30" N., Long. 77°16'00" W.; to point of beginning.

Designated altitudes. Surface to 3,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309H SOLID SHIELD 76

Boundaries. Beginning at Lat. 34°43'15" N., Long. 76°47'30" W.; to Lat. 34°38'30" N., Long. 76°43'00" W.; thence west along a line 3 nautical miles from and parallel to the shoreline to Lat. 34°37'30" N., Long. 76°58'-20" W.; thence north and east along Restricted Areas R–5306C and R–5306B to point of beginning.

Designated altitudes. 1,200 feet MSL to FL 180.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309I SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°16'00" N., Long. 79°02'30" W.; to Lat. 35°16'00" N., Long. 78°08'00" W.; to Lat. 35°10'00" N., Long. 77°59'00" W.; to Lat. 34°58'00" N., Long. 78°03'00" W.; to Lat. 34°49'20" N., Long. 78°07'30" W.; to Lat. 34°17'00" N., Long. 78°30'00" W.; to Lat. 34°25'00" N., Long. 78°43'00" W.; to Lat. 34°50'00" N., Long. 78°46'00" W.; to Lat. 34°52'00" N., Long. 78°17'45" W., to Lat. 35°02'55" N., Long. 79°05'40" W.; thence north along the boundary of Restricted Area R–5311A to Lat. 35°11'00" N., Long. 79°02'30" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309J SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°10'00" N., Long. 77°59'00" W.; to Lat. 35°11'00" N., Long. 77°38'00" W.; to Lat. 35°51'30" N., Long. 77°52'00" W.; to Lat. 34°17'20" N., Long. 77°46'15" W.; to Lat. 34°17'00" N., Long. 78°30'00" W.; to Lat. 34°58'00" N., Long. 78°03'00" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309K SOLID SHIELD 76

Boundaries. Beginning at Lat. 35°26'00" N., Long. 77°07'00" W.; to Lat. 35°23'00" N., Long. 76°34'30" W.; thence south and east along Restricted Areas R–5306A, B, C, D and E to Lat. 34°30'20" N., Long. 77°15'50" W.; thence 3 nautical miles from and parallel to the shoreline to Lat. 34°18'00" N., Long. 77°37'30" W.; to Lat. 34°17'20" N., Long. 77°46'15" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to Lat. 35°11'00" N., Long. 77°36'00" W.; to Lat. 35°24'00" N., Long. 77°17'00" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R–5309L SOLID SHIELD 76

Boundaries. Beginning at Lat. 32°05'00" N., Long. 81°58'00" W.; to Lat. 32°05'00" N., Long. 81°49'00" W.; thence south and east along Restricted Areas R–3005A and B to Lat. 31°56'18" N., Long. 81°32'00" W.; to Lat. 31°54'39" N., Long. 81°17'00" W.; to Lat. 31°35'00" N., Long. 81°23'00" W.; to Lat. 31°35'00" N., Long. 82°04'30" W.; to Lat. 31°49'00" N., Long. 82°11'00" W.; to points of beginning.

Designated altitudes. 5,000 feet MSL to 17,000 feet MSL.

Time of designation. Continuous—May 12, 1976, through May 25, 1976.

Controlling agency. Federal Aviation Administration, Jacksonville ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

Temporary Restricted Areas R–5309B, H, I, J, K, and L defined above would be included in the continental control area for the duration of their time of designation.

The proposed restricted areas would be used to contain a joint military training

V40N248 DEC 24 75 DUKE XUM

exercise, "SOLID SHIELD 76", involving coordinated amphibious/airborne assault operations. Several military units would participate; however, no ordnance would be expended (within the areas herein proposed) and also supersonic flight would be prohibited. Similar exercises have been conducted annually in the same general area for several years. As with previous exercises, "SOLID SHIELD 76" would provide the military services with an opportunity to test and evaluate the coordination procedures used during complex joint military operations. The proposed restricted areas would be required for safety to separate nonparticipating aircraft from the extensive air activity of the participating military forces. The users of the temporary restricted areas understand that they are obligated to observe the minimum safe altitudes prescribed in § 91.79 of the Federal Aviation Regulations that are applicable to all nonparticipating persons and property on the surface.

Throughout the exercise the using agency would allow scheduled air carrier flights and other nonparticipating aircraft into or through the temporary restricted areas when exercise operations permit. The using agency would provide all necessary communication lines required by the Federal Aviation Administration and it would also provide a wide area telecommunications service number so that nonparticipating pilots can obtain clearances on an individual basis without charge to themselves. This number would be published in Part 3 of the Airman's Information Manual (AIM) effective during the exercise period. The Federal Aviation Administration would establish temporary routing to reroute air carrier and other nonparticipating aircraft around the restricted areas when clearance through the areas cannot be approved.

These amendments are proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 18, 1975.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 40]

[FRL 472-7]

ORE MINING AND DRESSING POINT SOURCE CATEGORY

Extension of Comment Period

On November 6, 1975, (40 FR 51738) the Environmental Protection Agency proposed effluent guidelines and standards for the Ore Mining and Dressing Point Source Category, pursuant to sections 301 and 304 of the Federal Water Pollution Control Act (33 U.S.C. section 1251 et seq., 86 Stat. 816). The notice of these proposed regulations solicited comments from interested persons and specified that such comments would be due not later than December 8, 1975.

Several requests for extensions of time for submission of comments have been received. In support of such requests, it has been pointed out that many members of the affected industry operate in isolated areas, and additional time is needed for them to provide meaningful comments. Accordingly, the Environmental Protection Agency has decided to grant a thirty day extension of the deadline. The date for submission of comments is hereby extended to and including January 7, 1976.

Dated: December 17, 1975.

ANDREW W. BREIDENBACH,
Acting Assistant Administrator for Water and Hazardous Materials.

FARM CREDIT ADMINISTRATION

[12 CFR Parts 612 and 614]

PERSONNEL ADMINISTRATION AND LOANS

Policy and Operations

Notice of Proposed Rule Making

Notice is hereby given that the Farm Credit Administration, by its Federal Farm Credit Board, has under consideration proposed amendments of its regulations as set forth below in tentative form. These amendments would (1) revise the upper limit on voluntary employee contributions to System thrift plans, (2) eliminate certain restrictions on employee withdrawals of prior contributions to pension plans which are transferred to System thrift plans, (3) remove certain restrictions on the types of securities which may be used as collateral by other financing institutions in borrowing from or discounting with the Federal intermediate credit banks, and (4) clarify the applicability of paragraph (b) of § 614.4590 of the regulations.

Prior to final adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (10 copies) no later than January 23, 1976, to Director of Technical Services, Office of Credit and Operations, Farm Credit Administration, Washington, DC 20578. Copies of all communications received will be available for examination by interested persons in the office of Director, Information Division, Office of Administration, Farm Credit Administration.

Chapter VI of Title 12 of the Code of Federal Regulations is amended by revising paragraphs (c) and (d) of § 612.2291, paragraphs (a) and (b) of § 614.4590, and § 614.4600. These amendments are as follows:

§ 612.2291 Thrift plan requirements.

* * * * *

(c) Voluntary employee contributions in excess of six percent but not beyond the Internal Revenue limit may be permitted, but in no event will such excess employee contributions be credited with a matching employer contribution.

(d) In the event prior employee contributions to a pension plan are transferred to the thrift plan, the value of such contributions may, at the option of each district board, be subject to the same withdrawal restrictions as defined in the thrift plan as are the voluntary contributions described in (a), or a district board may place additional restrictions on withdrawal.

§ 614.4590 Direct loans to other financing institutions.

* * * * *

(a) Classes of obligations approved as collateral. The following classes of obligations are approved as collateral for direct loans and advances to other financing institutions, subject to approval of the bank to which such securities are to be pledged:

(1) Obligations of bona fide farmers and ranchers arising from direct credit extension by the financing institution.

(2) Obligations set forth in § 615.5140 (a) which have been approved by the Farm Credit Administration for investment by institutions of the System.

(b) Purpose of direct loans or advances. In making loans or advances to any other financing institution on the security of collateral other than that described in (a) (1) of this section, the bank will assure itself that the proceeds of such loans or advances will be used to enable the financing institution to make or carry loans to farmers and ranchers for agricultural purposes.

§ 614.4600 General collateral.

Other financing institutions (except commercial banks), as a condition percedent to borrowing from or discounting with a Federal intermediate credit bank, shall pledge as collateral for any and all obligations to the bank, cash, securities set forth in § 615.5140(a) which have been approved by the Farm Credit Administration for investment by institutions of the System, or other readily marketable securities of high rating in an amount equal to such portion of its capital as shall be determined by the bank. At the discretion of the bank, commercial banking institutions may also be required (unless prohibited by law or by supervisoy authority) to deposit acceptable collateral. Securities and obligations pledged with the bank shall be deposited under a collateral pledge agreement pursuant to which all securities and obligations so pledged, including all substitutions and additions and the proceeds of any such collateral including all income derived, shall be available to secure any and all obligations to the bank whether direct or contingent, present or future.

(Secs. 5.9, 5.12, 5.18, 85 Stat. 619, 620, 621)

W. M. HARDING,
Governor, Farm Credit Administration.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20655; RM-2563]

TABLE OF ASSIGNMENTS

Television Broadcast Stations; Cumberland and Oakland, Maryland

1. The Commission, by the Chief, Broadcast Bureau, has under consideration a petition for rule making filed by the Maryland Center for Public Broadcasting (MCPB) seeking amendment of § 73.606(b) of the Commission's rules, the Television Table of Assignments. Specifically, MCPB seeks the deletion without replacement of reserved Channel 36 at Cumberland, Maryland, and its reassignment as a reserved channel to Oakland, Maryland.

2. Cumberland (pop. 29,723) is the seat of Allegany County (pop. 84,044) and is located 105 miles northwest of Washington, D.C., on the Maryland-West Virginia border. Oakland (pop. 1,786) is the seat of Garrett County (pop. 21,476) and is located 39 miles southwest of Cumberland. Because of the distance between the two communities, Channel *36 may not be used at Oakland under § 73.607(b), which permits the use of an assigment at unlisted communities within 15 miles of the listed community. In addition to Channel *36, Cumberland is assigned unoccupied and unapplied for Channels 52 and 65.

3. There are seven educationally reserved channels presently assigned to the State of Maryland under § 73.606(b). MCPB is licensed to operate stations on four of these assignments and, according to petitioner, plans exist for the utilization of the three remaining unoccupied assignments.[1]

4. MCPB has determined, however, that establishment of an educational television broadcast facility at Cumberland does not represent as efficient a use of resources as would the establishment of an educational facility at Oakland. We are told by the petitioner that approximately 90% of the population of Allegany County, in which Cumberland is located, have the capability to receive a public television broadcasting service (either by cable or direct off-the-air reception).[2] The corresponding figure for Garrett County, where Oakland is located, is approximately 32%. This service, petitioner indicates, is furnished by the three cable systems in the county which carry the public television programming of the West Virginia or Pennsylvania stations. No Maryland public television service is available to Garrett County residents.

5. Petitioner uses these figures to argue that establishing a facility at Cumberland represents an expensive means of extending a public television service to the small percentage of the Allegany County population unable to receive one. For most of the persons in the county, such a station would merely duplicate an existing service. Petitioner acknowledges that a high-powered station operating at Cumberland would serve much of Garrett County. However, over three-fourths of the Garrett County residents not subscribing to cable television service live near Oakland. A high-powered Cumberland station, therefore, would not be as effective as a lower powered facility operating at Oakland in terms of serving these Garrett County residents. For these reasons, petitioner desires to establish an educational facility at Oakland rather than at Cumberland.

6. At the time the educational grid was developed within the Table of Assignments, communities were selected for such assignments on the basis of their ability to contribute to overall statewide coverage (assuming the absence of specific individual state plans). From the information provided by the petitioner, at appears that the need for a reserved assignment at Cumberland has lessened since the adoption of that table.

7. In view of this the Commission is persuaded that a sufficient public interest showing has been made to warrant further consideration of petitioner's proposal in a rule making proceeding. We propose to consider the following revisions in the Television Table of Assignments (Section 73.606(b) of our Rules) with respect to the Maryland cities listed below:

City	Channel No. Present	Channel No. Proposed
Cumberland	*36+, 52+, 65	52+, 65
Oakland		*36+

8. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein.

9. Interested parties may file comments on or before February 9, 1976, and reply comments on or before March 1, 1976.

Adopted: December 11, 1975.

Released: December 17, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX

1. Pursuant to authority found in sections 4(I), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, It is proposed to amend the TV Table of Assignments, Section 73.606(b) of the Commission's Rules and Regulations, as set forth above.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the notice of proposed rule making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[FR Doc.75-34697 Filed 12-23-75;8:45 am]

[1] The four stations presently licensed to MCPB are WMPB (Channel *67) at Baltimore, WCPB (Channel *28) at Salisbury, WWPB-TC (Channel *31) at Hagerstown, and WAPB (Channel *22) at Annapolis. The three unoccupied assignments are Channel *36 at Cumberland, Channel *68 at Frederick, and Channel *26 at Waldorf.

[2] Direct reception is provided by Station WWPB-TV in Hagerstown which also serves neighboring Washington County. Hagerstown is located approximately 55 miles east of Cumberland.

[47 CFR Part 73]

[Docket No. 20364 RM-2836]

TABLE OF ASSIGNMENTS

FM Broadcast Stations; Tawas City and Oscoda, Michigan

1. The Commission has under consideration pleadings filed in response to a notice of proposed rule making (40 Fed. Reg. 8964), adopted March 4, 1975, proposing the assignment of Channel 280A to Tawas City, Michigan (pop. 1,666), as its second FM assignment. Petitioner, Carroll Enterprises, Inc., licensee of WIOS, the only AM station in Tawas City, filed comments in support of the proposal. Lawrence Norman DeBeau, licensee of WDBI-FM (Channel 269A), the only FM station in Tawas City, filed comments in opposition, proposing assignment of Channel 223 to Oscoda, Michigan (pop. 2,170), and modification of his license to operate on that channel at Oscoda. This, he states, would then make Channel 269A available for petitioner, when relinquished by DeBeau, so that Channel 280A need not be assigned.

2. Concerning the assignment of Channel 280A to Tawas City, our notice indicated that five communities nearby would be precluded from obtaining that channel were the proposal to be adopted. Petitioner submitted that alternate channels were available: 237A for East Tawas, Oscoda-Au-Sable or Wurtsmith; 280A for East Tawas (if assigned to Tawas City); 276A for Gladwin or West Branch. Channel 276A is no longer available to Gladwin or West Branch (because of our recent permit grant to Station WGER-FM (Channel 273), Bay City, Michigan, to move its transmitter site) but Channel 249A could be assigned to Gladwin, and Channel 265A to West Branch.

3. Lawrence Norman DeBeau objects to the original proposal on the grounds that Tawas City is too small to support three aural services, and that it would enable petitioner to obtain an AM-FM combination in Tawas City which would ultimately force DeBeau out of business. Thus, DeBeau proposes the assignment of Channel 223 to Oscoda, Michigan, 13 miles northeast of Tawas City, and modification of his license to operate on that channel, so that Channel 269A would be available for petitioner at Tawas City. DeBeau claims his proposal would allow him to compete with an AM-FM combination at Tawas City by virtue of a financially viable Class C FM station at Oscoda thereby providing two independent radio voices to Tawas City. Channel 280A would not have to be assigned and would remain available to all of the previously named communities. Oscoda presently has no local aural service.

4. The competition and economic issues are usually irrelevant to rule making proceedings, and are deferred to the application stage. It would not be logical, though, to assign a second Class A FM channel to a rather small community when there realistically appears to be interest in only one. So we are compelled to examine closely in this proceeding all the issues raised by the pleadings.

5. Petitioner argues that the DeBeau counter-proposal is not in fact a counterproposal but a new proposal and that it therefore should be stricken. The motion to strike is denied. DeBeau's proposal is an integral part of this proceeding because it is germane to the issues to be resolved here. The public interest can best be served by consideration in one proceeding of all timely proposals that affect FM assignments and broadcast service in Tawas City. While it is technically possible to grant both proposals, we prefer to treat them as mutually exclusive, because petitioner's proposal would assign Channel 280A to Tawas City and DeBeau's proposal would not. Petitioner also asserts that modification of DeBeau's license to Channel 223 in Oscoda is improper. With this we agree.

6. DeBeau's proposal alleges that Channel 223 can be assigned to Oscoda consistent with the Commission's technical requirements. DeBeau presents a map indicating an antenna site, 20 miles northwest of Oscoda, to meet the spacing requirements. He states that such a station could serve both Oscoda and Tawas City with a 70 dBu signal and that, if authorized, he will keep a studio in each town. For assignment of a Class C channel to a community of this size, we require *Roanoke Rapids* and *Anamosa* showings,[1] and available line of sight paths, since the antenna site would have to be located some distance from Oscoda. Were this a petition for a first Class A assignment to a small community, no preclusion study would be needed. We do require a preclusion study though in cases like this for a first Class C assignment.[2] If there is preclusion on any of the affected channels, DeBeau should show whether there are any other channels available for assignment to communities located within such areas. DeBeau has demonstrated a need in Oscoda for a local broadcast service. We remind him, petitioner, and other interested parties that assignment will not be made to a community without a clear and affirmative commitment to operate a station on the assigned channel, if authorized.

7. We would not modify the DeBeau license from 269A as Tawas City to 223 at Oscoda. The cases cited by DeBeau in support of his request are inapposite here because they involve a channel change within the same community. For an assignment to a new community, our rules require notice and opportunity to comment. If Channel 223 is assigned to Oscoda, DeBeau must file an application for its use. We cannot assume that there would be no other applicants for the channel. If there were, DeBeau would be given comparative consideration with any other applicants.[3]

8. In view of the foregoing, the Commission invites comments on the following amendments to the FM Table of Assignments, Section 73.202(b) of its Rules, with respect to the communities listed below, to be considered in conjunction with our original proposal and responses thereto in the notice of proposed rule making (40 Fed. Reg. 8964):

City	Channel No.	
	Present	Proposed
Tawas City, Mich.	296A	269A
Oscoda, Mich.		223

Interested parties may also comment on availability of a Class A FM channel at Oscoda and intent to apply if such a channel is assigned.

9. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, filing requirements are contained in the attached Appendix and are incorporated herein.

10. Interested parties may file comments on or before February 9, 1976, and replies to such comments on or before March 1, 1976.

Adopted: December 11, 1975.

Released: December 17, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

Appendix

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, It is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the notice of proposed rule making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the notice of proposed rule making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in Sections 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (Sec. § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[FR Doc.75-34658 Filed 12-23-75;8:45 am]

[2] *Policy to Govern Requests for Additional FM Assignments*, 8 F.C.C. 2d 79 (1967).

[3] To the extent that *Forest City, N.C.*, 26 F.C.C. 2d 700 (1970), is inconsistent, it will no longer be considered as precedent.

[47 CFR Part 971]

[FCC 75-1339; Docket No. 20672]

AMATEUR RADIO SERVICE

Modifying Procedures for Renewal and Modification of Licenses

By the Commission:

1. In this Notice of Proposed Rulemaking it is proposed to modify slightly the procedures involved in the renewal and modification of licenses in the Amateur Radio Service by amending §§ 97.13, 97.47 and 97.83 of the Commission's Rules.

2. Under current procedures, a licensee submitting his license for renewal or modification is afforded the option of enclosing with his application either the license being renewed or modified or a photocopy thereof.

3. Permitting the applicant to submit a photocopy of his original license when renewing or modifying that license has proven to be unsatisfactory. Some applicants in the past have fraudulently altered their original licenses, photocopied them, and submitted the photocopies, upon which the alterations cannot be detected, to the Commission for renewal or modification. Such alterations are invariably made in order to obtain operating privileges for which the licensee has not qualified.

4. The Commision desires to ensure a reliable and fair procedure for license renewal and modification, and to this end, the amendments proposed herein would, if adopted, require an application for a renewed or modified Amateur license to include the original license being renewed or modified. Photocopies would no longer be acceptable, except when an applicant applies for a *new* additional station license. In such a case a photocopy of the applicant's original primary license would be permissible. The amendments would also modify the requirement that the original operator license be in the possession of the licensee at all times by adding an exception to cover those situations in which the original license has been submitted for renewal or modification.

5. Accordingly, we propose to amend §§ 97.13 (d), (e) and 97.47 (a), (b) to make clear that the applicant's original license, and not a photocopy thereof, is required when submitting an application for renewal or modification of an Amateur station or operator license. Further, we propose to amend § 97.83, which requires the original operator license to be in the possession of a licensee when operating an Amateur station, by adding an exception covering those periods when the original license has been submitted for renewal or modification.

6. The proposed amendments to the Rules, as set forth below, are issued pursuant to the authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons are invited to file comments on or before January 22, 1976, and reply comments on or before February 2, 1976. All relevant and timely comments and reply comments will be considered by the Commission before the final action is taken in this proceeding. In reaching its decision in this proceeding the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

8. In accordance with the provisions of § 1.419 of the Commission's Rules, an original and eleven copies of all statements, briefs, or comments shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C. 20554.

Adopted: December 9, 1975.

Released: December 16, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 97 of Chapter 1 of Volume 47 of the Code of Federal Regulations is amended as follows:

1. § 97.13(d), first sentence, and the last sentence of Part (e) are amended to read as follows:

§ 97.13 Renewal or modification of operators license.

• • • • • •

(d) Application for renewed and/or modification of an Amateur operator license shall be submitted on FCC Form 610 and shall be accompanied by the applicant's current original license.• • •

(e) • • •

Application for renewal shall be submitted on FCC Form 610 and shall be accompanied by the applicant's original expired license.

§ 97.47(a) [Amended].

1. § 97.47(a) second sentence, and paragraph (b) last sentence are amended to read as follows:

§ 97.47 Renewal and/or modification of Amateur station license.

(a) • • •

In every case the application shall be accompanied by the applicant's current original license.• • •

(b) • • •

In every case the application shall be accompanied by the applicant's original license.

• • • • • •

1. § 97.83 first sentence, is amended to read as follows:

§ 97.83 Availability of operator license.

Except when submitted for renewal or modification, the original operator license of each operator shall be kept in the personal possession of the operator while operating an Amateur station. • • •

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1023]

[Ex Parte No. MC-100]

STATE REGISTRATION REQUIREMENTS

Notice of Proposed Rulemaking

• **Purpose.** The purpose of this document is to notify the public that the National Association of Regulatory Utility Commissioners have petitioned the Commission to modify 49 CFR 1023 in regard to registration of motor vehicles and operations and to reuse of cab cards. •

By petition filed December 11, 1975, the National Association of Regulatory Utility Commissioners seek amendment of 49 CFR 1023 as set forth below. NARUC has filed this petition pursuant to its statutory responsibility in section 202(b) of the Interstate Commerce Act (49 U.S.C. 302(b)(2)). NARUC states that a State Commission should be permitted to cancel a motor carrier's registration of ICC operating authority if the carrier fails to register and identify its vehicles and driveaway operations with such State Commission for 3 consecutive years and that a cab card should be permitted to be reused if pre-

V401248 DEC 24 75 XUM

pared for a vehicle operated under successive leases of 29 days duration or less.

Oral hearings do not appear necessary at this time and none is contemplated. Anyone wishing to present views and evidence concerning the matters involved in this notice may do so by the submission of written data, views, or arguments.

Parties will be expected to present economic data and clear maps supporting their contentions to the extent feasible. An original (and 15 copies whenever possible) of such data, views, or arguments shall be filed with this Commission on or before 45 days after publication in the Federal Register. All written submissions will be available for public inspection during regular business hours at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Accordingly, it is proposed to modify 49 CFR 1023, in the following manner:

§ 1023.14 [Amended]

(1) Striking the period at the end of the title of 49 CFR, 1023.14, and inserting in lieu thereof the following: "; cancellation.";

(2) Striking the period at the end of 49 CFR, 1023.14, and inserting in lieu thereof the following: "; provided, however, that if a motor carrier fails to register and identify its vehicles and driveaway operations with such State Commission pursuant to Subpart D of this Part for three consecutive years, such Commission may cancel the motor carrier's registration of ICC operating authority under this Subpart upon thirty days notice to the carrier at its last known address, and the carrier shall not thereafter exercise its ICC authority within the borders of such State unless and until it shall have again registered such authority as prescribed by the provisions of this Subpart and shall have complied with all other requirements of this Part.";

§1023.32 [Amended].

Adding at the end of 49 CFR, Section 1023.32(f), the following: "However, in the case of a vehicle leased by the motor carrier for twenty-nine consecutive days' duration or less, the carrier may reuse the cab card for the same vehicle when subsequently leased for twenty-nine consecutive days' duration or less, if it enters in the upper left-hand corner of the front of the cab card the figure and words '29 day lease or less' and if it enters an expiration date in the space provided below the certificate which shall be within a period of fifteen months from the date the cab card is executed and shall not be later in time than the expiration date of any identification stamp or number placed on the back thereof.";

SHIPPING COORDINATING COMMITTEE, SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Notice of Meeting

The working group on subdivision and stability of the Subcommittee on Safety of Life at Sea, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Wednesday, January 28, 1976, in Room 8236 of the Department of Transportation, 400 Seventh Street, S.W., Washington, D.C.

Items to be discussed at the meeting include:

Review of the Report of the Eighteenth Session of the Subcommittee on Subdivision, Load Lines and Stability of the Intergovernmental Maritime Consultative Organization (IMCO);

Improvement of the 1966 Load Line Convention;

Ships handling cargo at sea;

Subdivision, stability and load lines of novel types of craft;

Harmonization of subdivision and stability requirements in various conventions and codes.

Requests for further information on the meeting should be directed to Mr. Edward H. Middleton, United States Coast Guard. He may be reached by telephone on (area code 202) 426-2170.

The Chairman will entertain comments from the public as time permits.

RICHARD K. BANK,
Chairman,
Shipping Coordinating Committee.

DEFENSE ADVISORY COMMITTEE ON WOMEN IN THE SERVICES

Notification of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Executive Committee of the Defense Advisory Committee on Women in the Services (DACOWITS) will be held February 6, 1976 at the Pentagon. The session will be conducted from 9:00 a.m. to 4:00 p.m. and will be open to the public.

The purpose of this meeting is to plan the program for the semi-annual meeting of the full Committee, tentatively scheduled for April 25-29, 1976. Composed of 25 civilian women, DACOWITS provides the Department of Defense with assistance and advice on matters relating to women in the Armed Forces.

Persons desiring to make oral presentations or submit written statements for consideration at the Executive Committee meeting must contact Major Barbara P. King, DACOWITS Executive Secretary, OASD (Manpower and Reserve Affairs), Room 2B257, The Pentagon, Washington, D.C. 20301, telephone (202) Oxford 5-5153 no later than January 30, 1976.

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES V. DEBEERS INDUSTRIAL DIAMOND DIVISION LIMITED, ET AL.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16(b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Southern District of New York in Civil Action No. 74 Civ. 5389, *United States of America* v. *DeBeers Industrial Diamond Division Limited, et al.* The proposed judgment pertains only to Defendants Anco Diamond Abrasives Corporation and Diamond Abrasives Corporation. The complaint in this case alleges that defendants conspired among themselves to fix prices and allocate territories and customers for the sale of diamond grit. Diamond grit is used as an abrasive primarily in grinding wheels, concrete and masonry saws and certain impregnated drill bits. The proposed judgment enjoins defendants from all illegal conduct alleged in the complaint and, in addition, for a period of five years prohibits them from attending any DeBeers seminars that deals with anything but technical matters relating to diamond materials and requires them to deal with any purchaser of diamond grit who meets reasonable commercial standards. Public comment is invited on or before February 23, 1976. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: December 17, 1975.

THOMAS E. KAUPER,
Assistant Attorney General
Antitrust Division.

UNITED STATES DISTRICT COURT, SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. DeBeers Industrial Diamond Division Limited, ANCO Diamond Abrasives Corporation, and Diamond Abrasives Corporation, Defendants. Civil Action No. 74 Civ. 5389 (LPG) *Stipulation*, filed: Dec. 17, 1975.

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendants in this and any other proceeding.

Dated: December 17, 1975.

For the plaintiff: Thomas E. Kauper, Assistant Attorney General; Baddia J. Rashid, Charles F. B. McAleer, Joel Davidow, Richard L. Daerr, Jr., Stephen P. Kilgriff, Roger A. Morrison, James A. Gilbert, Attorneys, Antitrust Division; U.S. Department of Justice.

For the Defendants: Townley, Updike, Carter and Rodgers, Ronald S. Daniels, Attorneys for Defendant, Diamond Abrasives Corporation, Paskus, Gordon and Hyman, Philip H. Schaeffer, Attorneys for Defendant, Anco Diamond Abrasives Corporation.

Stipulation approved for filing.

Dated: December 17, 1975.

LEE P. GAGLIARDI,
United States District Judge.

UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. Debeers Industrial Diamond Division Limited, Anco Diamond Abrasives Corporation, and Diamond Abrasives Corporation, Defendants. Civil Action No. 74 Civ. 5389 LPG, filed: December 17, 1975.

FINAL JUDGMENT

Plaintiff, United States of America, having filed its complaint herein on December 10, 1974, and plaintiff and the consenting defendants Anco Diamond Abrasives Corporation and Diamond Abrasives Corporation, by

V401248 DEC 24 75 XUM

their attorneys, having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein, and without this Final Judgment constituting evidence or an admission by any party consenting hereto with respect to any such issue, and this Court having determined pursuant to Rule 54(b) of the Federal Rules of Civil Procedure that there is no just reason for delay in entering a Final Judgment as to all of the plaintiff's claims asserted in said complaint against said consenting defendants and having directed the entry of such a Final Judgment:

NOW, THEREFORE, without the taking of any testimony and without trial or adjudication of any issue of fact or law herein, and upon the consent of plaintiff and of said consenting defendants, it is hereby ORDERED, ADJUDGED and DECREED as FOLLOWS:

I. This Court has jurisdiction of the subject matter hereof and of the parties consenting hereto. The complaint states claims upon which relief may be granted against the consenting defendants under Section I of the Act of Congress of July 2, 1890, entitled "An Act to protect trade and commerce against unlawful restraints and monopolies," commonly known as the Sherman Act, as amended. The making and entering of this Final Judgment shall not prejudice or estop plaintiff from obtaining other, further and different relief against the defendants not consenting hereto.

II. As used in the Final Judgment: (A) "Person" means any individual, partnership, firm, corporation, association or other business or legal entity;

(B) "Diamond Grit" means synthetic and natural diamond crushing bort, grit or powder used primarily, though not exclusively, as abrasive in metal bonded grinding wheels for grinding of stone, glass and ceramics; in resin bonded wheels for the grinding of tungsten carbide and certain steels; in metal bonded saws for cutting of concrete and masonry and in certain impregnated drills.

(C) "Subsidiary" or "Affiliate" shall mean any person controlled by a consenting defendant or one in which 50 percent or more of the voting rights is owned or controlled by a consenting defendant or by its majority shareholders.

(D) "DeBeers" means defendant DeBeers Industrial Diamond Division Limited and its parent companies, subsidiaries and affiliates.

(E) "United States" means the United States, any territory thereof, the District of Columbia and any insular possession or other place under the jurisdiction of the United States.

III. The provisions of this Final Judgment applicable to the consenting defendants shall also apply to each of their officers, directors, agents and employees, their subsidiaries, successors and assigns, and to all other persons in active concert or participation with such consenting defendants who shall have received actual notice of this Final Judgment by personal service or otherwise. This Final Judgment shall not apply to (i) transactions or activity solely between a consenting defendant and its subsidiaries, affiliates, officers, directors, agents, parent companies, employees or any of them when acting in such capacity or (ii) transactions or activity outside the United States which do not affect the foreign or domestic commerce of the United States, except sales by a consenting defendant to the plaintiff or any agency or instrumentality thereof or (iii) transactions or activity required by the laws or regulations of the jurisdictions in which the transaction or activity takes place.

IV. Each consenting defendant is enjoined and restrained from directly or indirectly:

(A) Entering into, adhering to, maintaining, furthering, enforcing or claiming any rights under any contract, agreement, arrangement or understanding, with any other person to:

(1) Fix, maintain or stabilize the price for the sale of diamond grit to any third person;

(2) Allocate, limit or divide territories, markets or customers for the sale, production, processing or purchase of diamond grit;

(3) Submit noncompetitive, collusive or rigged bids or quotations for any purchase or sale of diamond grit;

(B) For a period of five years, permitting attendance by any representative of consenting defendant at any conference, meeting or seminar sponsored by DeBeers for its diamond grit distributors, unless such conference, meeting or seminar deals exclusively with technical matters concerning the development and application of diamond grit or other diamond materials.

V. For a period of five years from the date of entry of this Final Judgment, consenting defendants are each ordered to file with plaintiff, every six months for the first two years and annually for the remaining three years, an affidavit in writing listing and describing all subjects relating to the sale or purchase of diamond grit discussed by or communicated to the participants at any meeting, conference or seminar sponsored by DeBeers for its diamond grit distributors.

VI. For a period of five years from the date of entry of this Final Judgment, so long as such consenting defendant is selling or offering for sale diamond grit in the United States, such consenting defendant is prohibited from refusing to sell to any person falling within any class to which such consenting defendant is then selling, who meets the credit and reasonable commercial standards applied to its other customers, upon the written request of such person, if a supply of such diamond grit is available in the form desired; except that, in the event of short supply of any type of diamond grit, such consenting defendant shall allocate supplies upon a reasonable and nondiscriminatory basis, taking into account such factors as historical purchases from consenting defendant.

VII. For the purpose of determining or securing compliance with this Final Judgment and for no other purpose, and subject to any legally recognized privilege, upon written request for the Attorney General or the Assistant Attorney General in charge of the Antitrust Division and on reasonable notice to such consenting defendant made to its principal office, duly authorized representatives of the Department of Justice shall be permitted:

(A) Access to such consenting defendant's principal office during its office hours to all books, ledgers, accounts, correspondence, memoranda and other records and documents in the possession or under the control of such consenting defendant, who may have counsel present relating to any of the subject matter contained in this Final Judgment; and

(b) Subject to the reasonable convenience of such consenting defendant, and without restraint or interference from it, to interview at such consenting defendant's principal office, officers or employees who may have counsel present, regarding any such matters.

Upon such written request of the Attorney General, or the Assistant Attorney General in charge of the Antitrust Division, such consenting defendant shall submit such reports in writing to the Department of Justice with respect to any of the matters contained in this Final Judgment as may from time to time be requested.

No information obtained by the means permitted in this Section VII shall be divulged by any representative of the Department of Justice to any other person other than a duly authorized representative of the Executive Branch of the plaintiff, except in the course of legal proceedings in which the United States is a party for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

VIII. Jurisdiction is retained for the purpose of enabling any of the parties consenting to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions thereof, and for the enforcement of compliance with and the punishment of any violations thereof.

IX. Entry of this Final Judgment is in the public interest.

Dated: New York, New York

----------, 1975.

United States District Judge.

UNITED STATES DISTRICT COURT

SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. DeBeers Industrial Diamond Division, Limited; ANCO Diamond Abrasives Corporation; and Diamond Abrasives Corporation, Defendants, Civil Action File No. 74 CIV 5390 (LPG), filed: December 17, 1975.

COMPETITIVE IMPACT STATEMENT

Pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16 (b)–(h) P.L. 93–528 (December 21, 1974)], the United States of America hereby files this Competitive Impact Statement relating to a proposed consent judgment in the above entitled action to be entered against defendants Anco Diamond Abrasives Corporation and Diamond Abrasives Corporation.

(1) *Nature and purpose of the proceeding.*

This action was filed on December 10, 1974 against DeBeers Industrial Diamond Division Limited ("DeBeers"), a South African corporation, and Diamond Abrasives Corporation ("DAC") and Anco Diamond Abrasives Corporation ("Anco"), United States distributors for DeBeers, charging that defendants and other co-conspirators engaged in an unlawful combination and conspiracy to restrain foreign and interstate trade and commerce in diamond bort, grit and powder ("diamond grit") in violation of Section 1 of the Sherman Act (15 U.S.C. § 1). Diamond grit is synthetic and natural diamond crushing bort, grit and powder used primarily, though not exclusively, as an abrasive in metal bonded grinding wheels for grinding of stone, glass and ceramics; in resin bonded wheels for the grinding of tungsten carbide and certain steels; in metal bonded saws for cutting of concrete and masonry; and in certain impregnated drills. The United States sought relief against the named defendants enjoining the alleged violations, prohibiting defendants from engaging in any other future conspiracies or programs having a similar purpose or effect, and such other relief as the nature of the case might require.

(2) *Practices and events giving rise to the alleged violation of the antitrust laws.*

The complaint alleges that from 1967 to the time of filing the complaint a combination and conspiracy existed among defendants and co-conspirators to fix prices, and to allocate territories and customers, in the sale of diamond grit. The parties to the conspiracy were the named defendants and various co-conspirators including principal officers of the defendants and certain European companies.

The Government would have contended at trial that the charges alleged in the complaint were substantiated by evidence of illegal conduct by defendants and co-conspirators as follows:

(a) participation in meetings at which agreements were made to fix prices and allocate territories and customers in the sale of diamond grit;

(b) agreement by defendants and co-conspirators in a scheme of resale price maintenance for the sale of diamond grit.

The practices giving rise to this action were also investigated by a federal grand jury. The grand jury indicted the same three companies which are defendants in this action for violations similar to those alleged in the complaint. On April 8, 1975, defendants DAC and Anco moved the Court in the criminal action to change their pleas from not guilty to nolo contendere. The pleas were accepted by the Court and DAC was fined $30,000 and Anco $20,000.

In both the civil and criminal actions DeBeers has thus far failed to enter an appearance. Proper service was made on DeBeers through service on DAC as agent for DeBeers. DAC has denied its agency and this issue remains unresolved in both the civil and criminal cases. Direct service on DeBeers in South Africa and the United Kingdom has also been initiated in this case pursuant to Rule 4 of the Federal Rules of Civil Procedure.

The Government and DAC entered into a stipulation that the Government would not attempt to force DAC to stand trial for DeBeers in the criminal or civil case, nor would it attempt to collect from DAC any criminal fine or civil judgment imposed on DeBeers. The Government reserves all rights to assert jurisdiction over DeBeers through DAC. DAC remains liable for its own participation in the conspiracy.

(3) *The proposed consent judgment and its anticipated effects on competition.*

The proposed consent judgment enjoins defendants from all the activities alleged to have constituted the conspiracy. It is anticipated that the conduct prohibited by the judgment and the affirmative duties imposed on the consent defendants will enhance price competition in the diamond grit industry and will insure competitive sources of supply for American users of diamond grit material.

If the proposed consent judgment is approved by the Court, the consenting defendants will each be enjoined from agreeing with any other person to fix prices, to allocate territories or customers, or to submit collusive bids for any purchase or sale of diamond grit. For a period of five years defendants will be enjoined from attending any conference or seminar sponsored by DeBeers for its diamond grit distributors, unless the conference or seminar deals exclusively with technical matters concerning the development and application of diamond materials. Defendants are therefore prohibited from attending any DeBeers seminar dealing with sales information or policies.

For a period of five years Anco and DAC are each ordered to file with the Government, every six months for the first two years and annually for the remaining three years, an affidavit in writing listing and describing all subjects relating to the sale or purchase of diamond grit discussed at any such conference or similar sponsored by DeBeers for its diamond grit distributors.

For a period of five years Anco and DAC are prohibited from refusing to sell diamond grit to any person who meets the credit and reasonable commercial standards applied to their other customers. In the event of short supply, Anco and DAC must allocate available supplies upon a reasonable and nondiscriminatory basis.

The consent judgment affords the Government methods of detecting any new violations by interviewing employees or by inspection of documents and records in control of defendant distributors. Such documents and records shall be made available upon the Government's request.

Any information obtained by the United States pursuant to the consent judgment shall not be divulged except as part of enforcement proceedings or as otherwise required by law.

The District Court retains jurisdiction of the case and may modify the provisions of the consent judgment or add thereto upon application of any of the parties to the consent judgment. Also, the District Court retains jurisdiction for the purpose of enforcing compliance with the consent judgment or punishing violations of it.

(4) *Remedies available to potential private plaintiffs.*

Any potential private plaintiffs who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable relief which they would have had, were the proposed consent judgment not entered. However, this judgment may not be used as *prima facie* evidence in private litigation pursuant to Section 5(a) of the Clayton Act, as amended, 15 U.S.C. 16(a).

(5) *Procedures available for modification of the proposed consent judgment.*

The proposed consent judgment is subject to a stipulation between the United States and the consenting defendants which provides that the United States may withdraw its consent to the proposed consent judgment at any time before the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed judgment provides for retention of jurisdiction of this action in order, among other things, to permit either of the parties thereto to apply to the Court for such orders as may be necessary or appropriate for its modification.

As provided by the *Antitrust Procedures and Penalties Act*, any person believing that the proposed judgment should be modified may, for a 60 day period prior to the effective date of the proposed judgment, submit written comments to the United States Department of Justice, Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Washington, D.C. 20530, which will file with the Court and publish in the FEDERAL REGISTER such comments and its response to them. The Department of Justice will thereafter evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed judgment.

(6) *Alternatives to the proposed judgment considered by the United States.*

In view of the fact that the consent judgment provides for relief which does not differ from that sought in the complaint, neither a substantially different judgment not full trial on the merits was considered an appropriate alternative to settlement. In addition to considering provisions substantially similar to those contained in the proposed judgment, proposals considered by the Government and then rejected included a prohibition against providing DeBeers with any list of customers, a prohibition against participating in any sale of diamond grit where DeBeers determined the price, and a requirement that Anco and DAC seek supplies of diamond grit from sources other than DeBeers.

The prohibition against providing the names of any customers was considered unnecessary because any such arrangement with an anticompetitive effect is already prohibited by Paragraph IV(A) of the judgment. Moreover, there are legitimate reasons for giving the names of some customers to a supplier, such as a list of good customers to be invited to a technical seminar concerning new developments in the industry. The injunction against consenting defendants' participation in a sale of diamond grit where DeBeers set the price was dropped because, if the sale was one where title passed to DAC or Anco, it would already violate the terms of Paragraph IV(A); if title did not pass, DAC or Anco would be acting as DeBeers' agent, and such conduct would not, standing alone, violate the antitrust laws. The requirement to seek alternative sources of supply was considered unnecessary because of the nature of the industry and the lack of any strong connection to the violations alleged. There appears to be no great barrier to the entry of other distributors into the industry if another supplier should appear, and thus it is doubtful that any serious new entrant would wish to share a distributor with another major supplier. Moreover, DAC and Anco are free to seek other sources of supply if they so desire.

(7) *Determinative documents.*

There are no materials or documents, which the Government considered determinative, in formulating this proposed consent judgment. Therefore, none is being filed along with this competitive impact statement.

Dated: December 17, 1975.

Joel Davidow, Richard L. Daerr, Jr., Stephen P. Kilgriff, Attorneys, Department of Justice.

Drug Enforcement Administration

[Docket No. 75-25]

MAX JACOBSON

Revocation of Registration

On June 4, 1975, the Acting Administrator of the Drug Enforcement Administration (DEA) issued to Max Jacobson, M.D., of New York, New York, an order to show cause as to why the DEA registration previously issued to him pursuant to Section 303 of the Controlled Substances Act (21 U.S.C. 823), should not be revoked pursuant to Section 304 of that Act (21 U.S.C. 824) for reason that on April 29, 1975, the Board of Regents and the Education Department of the State of New York revoked Dr. Jacobson's license and registrations to practice as a physician in the State of New York, including his authorization to handle controlled substances under New York law.

On June 27, 1975, Dr. Jacobson (hereinafter, "Respondent") through his attorney requested that the DEA defer

V 401248 DEC 24 75 XUM V

further action on the order to show cause. Respondent was subsequently advised to direct his request to the Administrative Law Judge. On September 25, 1975, counsel for the Government requested that the Honorable Francis L. Young, Administrative Law Judge, rule upon Respondent's request of June 27 and, on September 26, 1975, Judge Young advised counsel for the Respondent and the Government that he would consider Respondent's letter of June 27, 1975, as a timely request for a hearing on the order to show cause and a motion for postponement of such hearing. Judge Young requested that the Government provide him with a statement of its position on the motion. By letter of October 15, 1975, counsel for the Government advised Judge Young of its opposition to postponement for reason that on June 26, 1975, the Third Department, Appellate Division of the Supreme Court of the State of New York, had denied Respondent's motion for a stay of the State Education Commissioner's Order revoking Respondent's license to practice pending appellate review of said order and the underlying proceedings.

On October 21, 1975, Judge Young denied Respondent's motion for postponement and ordered the parties to submit prehearing statements on or before November 4, 1975.

On November 10, 1975, Judge Young ordered that a hearing in this matter be held at the Drug Enforcement Administration, Washington, D.C., on December 2, 1975. On that date, at 10 a.m., said hearing commenced, Judge Young presiding.

The Government offered into evidence in this matter documents from the State of New York detailing the proceedings before the Committee on Professional Conduct and the Board of Regents and including the Commissioner of Education's Order revoking Respondent's license to practice. These documents showed that the Committee on Professional Conduct had based its recommendation for revocation upon findings that the Respondent was guilty of numerous specifications of unprofessional conduct and fraud and deceit in the practice of medicine. The documentary evidence was admitted without objection.

Counsel for the Respondent stated that the Respondent conceded that his license to practice had been revoked and that Respondent would not contest revocation of his DEA registration upon condition that the Government would accept a stipulation to the effect that the DEA would expedite a new application for registration should Respondent's license to practice be reinstated and provided that no independent grounds for denial or revocation then existed. Counsel for the Government accepted this stipulation on behalf of this agency.

On December 16, 1975, Judge Young ruled that the Respondent had effectively withdrawn his request for a hearing and ordered that all proceedings in this matter before the Administrative Law Judge be terminated.

The Acting Administrator has reviewed the facts and applicable law and regulations in this matter and concludes that, although a prima facie case for revocation has been presented, the Respondent's consent to revocation should be accepted. The aforementioned stipulation is hereby affirmed.

Accordingly, under the authority vested in the Attorney General by Sections 303 and 304 of the Controlled Substances Act of 1970, 21 U.S.C. 823 and 824, and redelegated to the Administrator of the Drug Enforcement Administration by § 0.100, as amended, Title 28, Code of Federal Regulations, and further having been duly designated as Acting Administrator by Order No. 607–75 of the Attorney General, dated May 30, 1975, in accordance with the authority stated therein and pursuant to the authority delegated to the Acting Administrator by § 0.132(d) of Title 28 of the Code of Federal Regulations, the Acting Administrator hereby orders that the certificate of registration of Max Jacobson, M.D. (DEA Registration #AJ4502856) be revoked.

In view of the consensual nature of this revocation proceeding, this order shall be effective immediately upon publication.

Dated: December 22, 1975.

HENRY S. DOGIN,
Acting Administrator.

Law Enforcement Assistance Administration

NATIONAL ADVISORY COMMITTEE ON CRIMINAL JUSTICE STANDARDS AND GOALS

Notice of Meeting

This is to provide notice of meeting of the Organized Crime Task Force of the National Advisory Committee on Criminal Justice Standards and Goals.

The Organized Crime Task Force will be meeting at the Ramada Inn/Rosslyn, Dogwood Room, 1900 N. Ft. Myer Drive, Arlington, Virginia on January 20 and 21, 1975. The meeting will be from 9 a.m. to 5 p.m. both days and will be open to the public.

Discussion will focus on the review, comments, and vote on the following chapters in the report:

1. Corruption
2. Private Sector and Organized Crime
3. Business Industry and the Professions
4. Education and Training

For further information, contact William T. Archey, Director, Policy Analysis Division, Office of Planning and Management, 633 Indiana Avenue, N.W., Washington, D.C.

GERALD H. YAMADA,
Attorney Advisor,
Office of General Counsel.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

BOISE DISTRICT ADVISORY BOARD MEETING

Notice of Postponement

Notice is hereby given that the Multiple Use Advisory Board meeting of the Boise District of the Bureau of Land Management scheduled for January 8, 1976 has been postponed.

Notice of this meeting was published December 11, 1975 in the FEDERAL REGISTER (40 FR 57699).

The meeting will be rescheduled and the appropriate notice published in the FEDERAL REGISTER.

D. DEAN BIBLES,
District Manager.

DECEMBER 12, 1975.

[Serial Number A 9281]

ARIZONA

Proposed Withdrawal and Reservation of Lands

The Forest Service, United States Department of Agriculture, has filed application A 9281 for inclusion of the lands described below within the National Forest System and, subject to valid existing rights, withdrawal of the lands from all forms of appropriation except under those laws and regulations applicable to National Forest lands.

The subject lands, which lie within the boundaries of the Sitgreaves National Forest, were reconveyed to the United States pursuant to an exchange under section 8 of the Taylor Grazing Act of June 28, 1934, as amended, 43 U.S.C. 315g (1970), and are currently under the jurisdiction of the Bureau of Land Management. Lands acquired under section 315g which are within the exterior boundaries of a national forest and which are determined by the Secretary of Agriculture to be suitable for administration as a part of the National Forest may be set apart and reserved by the Secretary of the Interior by public land order as a part of such National Forest pursuant to the Act of July 9, 1962, 43 U.S.C. 315 g–1.

Until January 23, 1976, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 2400 Valley Bank Center, Phoenix, Arizona 85073.

Department of Interior regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources, and will prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the Federal Register. A separate notice will be sent to each interested party of record. If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN, ARIZONA

SITGREAVES NATIONAL FOREST

T. 13 N., R. 13 E.,
Sec. 7, S½S½S½NE¼, SE¼.

The areas described aggregate 180 acres in Coconino County, Arizona.

Dated: December 15, 1975.

ROBERT O. BUFFINGTON,
State Director.

[FR Doc.75–34690 Filed 12–23–75;8:45 am]

WYOMING STATE MULTIPLE USE ADVISORY BOARD

Notice of Meeting

DECEMBER 16, 1975.

Notice is hereby given that the Wyoming State Multiple Use Advisory Board will meet at 8:15 a.m. January 15, 16, 1976 at the Little America Motel, Cheyenne, Wyoming.

The agenda will incude a discussion of the Bureau's forestry progam in Wyoming; the identification of issues and recommendations from the Board for action; forage allocation for yearlings; data collection and exchange systems; and a report on the National Advisory Board Steering Committee meeting.

The meeting will be open to the public. Oral or written statements may be submitted for the Board's consideration during the second day of the meeting. Such statements should be limited to matters set forth in the agenda. Those wishing to make an oral statement must inform the State Director (912), Bureau of Land Management, Box 1828, Cheyenne, Wyoming 82001, in writing by close of business January 8, 1976. Time limits for oral presentations may be established by the chairman to ensure that all may be heard within the time available for such statements. Any interested person or organization may file a writen statement with the Board for its consideration. Such statements may be submitted at the meeting or mailed to the State Director (912), Bureau of Land Management, Box 1828, Cheyenne, Wyoming 82001.

Further information concerning the meeting may be obtained from Mr. John Burnett, Chief, Office of Public Affairs, Bureau of Land Management, Box 1828, Cheyenne, Wyoming 82001. His telephone number is (307) 778–2220, ext. 2384.

DANIEL P. BAKER,
State Director.

Fish and Wildlife Service

TAKING OF WALRUS

Decision on Waiver of Moratorium

Pursuant to 50 CFR 18.75(c), 40 F.R. 6663 (February 13, 1975), the decision of the Director on the proceeding to waive the moratorium imposed by the Marine Mammal Protection Act of 1972 on the taking and subsequent importation of Pacific walrus is herewith published. There is also published below, a draft of Subpart H which will be used by the Service as a guideline in the development of regulations to implement the Administrative Law Judge's recommendation for a new subpart to set forth specific limitations concerning the taking and/or importation of each species of marine mammal for which the moratorium is waived. Simultaneously published[1] are subpart F regulations as revised in accordance with the Director's decision and those portions of the Administrative Law Judge's recommendations accepted by the Director. Those regulations provide for the implementation of a waiver of the moratorium and establish standards by which a state's management program for the protection and taking of a species of marine mammal within the state's jurisdiction will be evaluated.

The Director's decision to waive the moratorium imposed by section 101(a) of the Act, 16 U.S.C. 1371(a), on the taking of Pacific Walrus is final. However, the waiver of the moratorium will not be implemented, and Pacific Walrus may not be taken, unless the conditions set forth in the decision are satisfied and the State of Alaska's management program, as revised in accordance with the Director's decision and those portions of the Administrative Law Judge's decision adopted by the Director, is approved by the Director. Upon approval by the Director of the revised management program to be submittted by the State of Alaska, final regulations in subpart H will be promulgated to implement the waiver.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

DECEMBER 17, 1975.

DECISION CONCERNING WAIVER OF MORATORIUM ON WALRUS UNDER REGULATIONS FOR A COOPERATIVE STATE/FEDERAL CONSERVATION PROGRAM (DOCKET NO. WASH 75–1)

Following review of the record and exhibits in the proceeding In Re: Waiver of Moratorium on Walrus, Docket No. Wash 75–1, I hereby adopt and incorporate by reference those portions of the Administrative Law Judge's decision that are not inconsistent with my discussion of the proceeding hereinbelow.

[1] See FR Doc. 75–34637, Title 50, Chapter I, Part 18, in the Rules and Regulations section.

The history of this proceeding is found in the Administrative Law Judge's recommended decision (pages 4–8) on file at the Office of the Director, U.S. Fish and Wildlife Service, Washington, D.C.

Following the Administrative Law Judge's recommended decision opportunity was provided to all parties for the filing of exceptions.

Exceptions were filed by the following parties:

The Environmental Defense Fund, Project Monitor, Inc., and affiliated groups; Friends of Animals, Inc., and Committee for Humane Legislation; The Alaska Professional Hunters Association: the Marine Mammal Commission; the State of Alaska; and the United States Fish and Wildlife Service.

As all parties are aware, since enactment of the Marine Mammal Protection Act, actually no total moratorium on the taking of walrus has existed as native Alaskans were allowed to take walrus for subsistence and cottage industry purposes, without bag limits or restrictions, as long as the taking was not in a wasteful manner and there was no finding of depletion of the resource.

As I interpret my duty under the Act, to waive the moratorium or to allow importation of marine mammals or marine mammal products, I must, in making such determination, be assured that the taking of such marine mammals is in accord with sound principles of resource protection and conservation as provided in the purposes and policies of the Act.

This determination is to be made on the best scientific evidence available and in consultation with the Marine Mammal Commission. The record indicates that all parties agree the testimony offered in evidence was the best scientific evidence available. I am satisfied that the testimony offered was the best scientific evidence available.

The Act provides that the resource shall not be permitted to diminish below optium sustainable population. The term optium sustainable population is defined in the Act as:

> • • • with respect to any population stock, the number of animals which will result in the maximum productivity of the population or the species, keeping in mind the optimum carrying capacity of the habitat and the health of the ecosystem of which they form a constituent element.

The evidence from experts in the field showed that the resource exceeded the population level at which the maximum productivity rate was achieved and was above the minimum range of the optimum sustainable population.

Although the condition of habitat for walrus has not evidenced any obvious problems related to carrying capacity, it is inconsistent with the principles of sound wildlife conservation to base management actions on a clear indication of habitat deterioration alone. Rather, it is important to consider that proper re-

XUM V401248 DEC 24 75

source conservation must be predicated on avoiding a situation that will lead to habitat deterioration. Evidence presented suggests that the herds of walrus are becoming crowded and that population estimates suggest that in the very near future the habitat will be adversely affected.

The vast majority of witnesses testifying stated that the walrus population had substantially increased under State regulations and indeed there was more regulation and control of the taking of the resource than under the Federal Act.

The judge found that the scientific evidence available supported my preliminary determination that a waiver of the moratorium was appropriate from the standpoint of population and habitat dynamics. However, in his recommended decision he also found that several amendments and additions to the proposed State regulations would be required to insure the population level and to prevent commercial exploitation of the resource.

It is my decision to proceed in that manner and waive the moratorium upon satisfactory amendments to the State regulations to guarantee the health and welfare of the species and the well-being and stability of the marine ecosystem.

My decision is to let the procedural issues brought to the attention of the Administrative Law Judge stand per the judge's decision, as that was the forum for those matters and arguments of counsel were put forth on the record.

THE FEDERAL REGULATIONS

With respect to the proposed Federal regulations, I reject the Administrative Law Judge's recommendation that subpart F apply generally to all species. This proceeding is limited to walrus. We intend to publish in the future regulations of general applicability which will pertain to all species.

Additionally, I reject the Administrative Law Judge's recommendations as to the following sections:

Section 18.3 (R.D. at 20). Placing the definition of population stock in section 18.3 would be redundant and serve no useful purpose since the expression is defined in section 3(11) of the Marine Mammal Protection Act of 1972.

Section 18.54(e) (R.D. at 25). In the fifth line of this section, the "if any" is superfluous. Because this Subpart F deals exclusively with approval of state laws and regulations pursuant to a waiver of the moratorium, at the least the moratorium provision of section 101 will be waived. Thus there will always be at least one provision of section 101 waived and the "if any" is inappropriate.

Section 18.54(h) (R.D. at 28). The Administrative Law Judge recommends that the State laws and regulations be adopted as Federal regulations. I believe that the language below provides for a more workable regulatory framework, and I adopt that language:

> If the Director has approved State laws and regulations pursuant to this subpart, all activities conducted pursuant to a waiver of the moratorium, including those carried out on the high seas adjacent to the coast of the State must be in accordance with the approved State laws and regulations. Any violation of State laws and regulations occurring beyond the jurisdiction of the State shall be punishable in accordance with section 105 of the Act.

Thus, the Federal regulation would require all activities conducted pursuant to a waiver of the moratorium, including those carried out on the high seas, to be in accordance with the approved State laws and regulations.

I am in agreement with the recommendation for a new subpart H to more specifically delineate the scope and nature of the waiver as it applies to walrus and the conditions precedent to approval and adoption of the State law and regulations; however it is my decision to modify those recommendations relating to subpart H as attached.

Reconsideration of waiver on walrus. I have determined that continuance of the waiver of the moratorium on walrus should be reconsidered in connection with the application of the State of Alaska for return of management of the 8 other species; such reconsideration, however, to be to the extent that any new evidence has been developed between the closing of the record in this proceeding and the opening of the record in the proceeding on the other 8 species. Recommendation number 4 (R.D. at 69) is hereby modified and adopted as follows:

4. Continuance of the waiver of the moratorium and approval of the cooperative State/Federal management program for Pacific Walrus be reconsidered in connection with the application of the State of Alaska for return of management responsibility for marine mammal species within its jurisdiction; such reconsideration to be limited to (1) new evidence developed subsequent to the close of the record in the walrus proceeding, and (2) the interrelationships between walrus and the other species under consideration.

THE STATE PROGRAM

The areas in which it is my decision to vary from the Administrative Law Judge's recommended decision with respect to the State management program are based on the extensive record.

1. *Use of High Caliber Rifle* (R.D. at 49). It is my decision to restrict the taking of walrus by non-subsistence hunters to a hand held rifle using a center fire cartridge of not less than 2,500 foot pounds of muzzle energy. As the record reflects, other than for hunting walrus, such a weapon would be of very little use to the Native and other subsistence hunters, and would be very expensive for them to acquire. I therefore reject the Administrative Law Judge's recommendation of a 30.06 rifle for all hunters.

2. *Shooting Walrus in Water* (R.D. at 50). The recommendation that walrus be taken only on ice would impose undue hardship on those Native hunters who might find walrus only in water. Many walrus shot on ice will tumble into the water whence they must be retrieved. If a harpoon is available, and its availability is required by this decision, the problem of retrieval from water will be minimized. Thus, the hunter is properly equipped and able to retrieve walrus from water. I reject the Administrative Law Judge's recommendation that there be a prohibition against shooting walrus in water.

3. *Prohibition on killing a pregnant or nursing cow, nursing calves or calves less than eight months* (R.D. at 51). The ALJ based this recommendation upon section 102(b) of the Act which prohibits, inter alia, importation of pregnant, nursing or less than eight months old marine mammals. However, upon approval of state laws and regulations, section 109 of the Act provides that the "Provisions of this Act * * * shall not apply * * *." Thus, section 102 is not applicable upon approval of state laws and regulations.

Moreover, calf hides and other parts are utilized by Natives for various purposes. Again, the State has recognized such use and its bag limits accommodate those uses. Additionally, to distinguish a 3,000 pound pregnant female from a non-pregnant one, particularly in the early stages of pregnancy, is a task of no easy accomplishment. I reject the ALJ's recommendation that there be a prohibition on killing a pregnant or nursing cow, nursing calves or calves less than eight months.

4. *Marking of Raw Ivory* (R.D. at 48). While the recommendation that raw ivory be marked is laudable and was suggested by the Fish and Wildlife Service, the Service testified that at the present there is no existing satisfactory method for marking and accounting for ivory. This recommendation of the ALJ will be held in abeyance pending a study which will be undertaken by the Fish and Wildlife Service to devise a satisfactory method of marking raw ivory.

5. *Prohibition on Taking of Females for Ivory Alone* (R.D. at 50). The record indicates that for certain purposes ivory from females is more desirable than that from males. The State has recognized this fact and allows the taking of a limited number of walrus for ivory alone. The State's bag limit of 5 female walrus has resulted in a great increase in the walrus population over the 15-year period during which the State had jurisdiction over walrus. Thus, I believe that a prohibition on the taking of female walrus for ivory alone is unnecessary and I reject that recommendation of the ALJ.

U.S. Fish and Wildlife Service enforcement personnel will enforce the State regulations and State officials will enforce Federal regulations. This is presently accomplished by the deputization of State officials as Federal officers and Federal officers as State officers.

CONCLUSION

I am required by section 109(a)(3) of the Act, to continuously monitor and review the laws and regulations of the State to insure that such laws and regulations are in substantial compliance with the provisions of the Marine Mammal Protection Act and to resume responsibilities under the Act upon a finding of non-compliance.

It is my decision to waive the moratorium, and implement the Federal/State management program in accordance with the Federal regulations developed by the Fish and Wildlife Service.

This determination is contingent upon my approval of Alaska State laws and regulations revised in accordance with the foregoing discussion and those portions of the Administrative Law Judge's decision pertaining to the State's management program (Administrative Law Judge decision at 44–51) which I have adopted. A final notice of waiver will be published in the FEDERAL REGISTER upon my approval of the revised State laws and regulations.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

DECEMBER 17, 1975.

NOTE: The regulations in draft form as set forth below are issued for guidance only.

Subpart H—Waiver of Moratorium on Taking and Importation of Individual Marine Mammal Species

§ 18.90 *Purpose of regulations.* The regulations contained in this subpart fulfill the requirements of section 103 of the Act for regulations to govern the taking and importation of each species of marine mammal for which the moratorium imposed by section 101 has been waived.

§ 18.91 *Scope of regulations.* (a) The provisions in this subpart apply only after (1) the Director has made a decision to waive a moratorium pursuant to section 101(a)(3)(A) of the Act, (2) the opportunity for a hearing required by section 103(d) of the Act has been provided, and (3) the Director has made a determination, in the case of State laws and regulations, to approve such State laws and regulations pursuant to section 109(a)(2) of the Act and subpart F of this part.

(b) The provisions of this subpart, unless specifically stated, apply to all taking and/or importation of each species of marine mammal for which the moratorium has been waived other than takings for scientific research or public display, which are governed by section 18.31, of this part, or takings incidental to commercial fishing operations which are governed by section 18.24 of this part.

§ 18.92 *Pacific walrus (Alaska).*

(a) Pursuant to sections 101(a)(3)(A), 103, and 109 of the Marine Mammal Protection Act of 1972, the moratorium on the hunting and killing of Pacific walrus (*Odobenus rosmarus*) in waters or on lands subject to the jurisdiction of the State of Alaska, the United States, or on the high seas by any person, vessel, or conveyance subject to the jurisdiction of the State of Alaska or the United States, is waived, effective with publication of a notice of approval of the laws and regulations of the State of Alaska, subject to the following terms and conditions:

(1) The exemption for hunting and killing of Pacific walrus by Alaskan natives under section 101(b) of the Act is rescinded and superseded by the regulations relating to the hunting and killing of Pacific walrus as set forth in this section.

(2) Hunting and killing of Pacific walrus by Alaskan natives will be accomplished in the manner and in accordance with the limitations set forth in this section.

(3) Sport hunting of Pacific walrus by licensed sport hunters will be accomplished in the manner and in accordance with the limitations set forth in this section.

(4) Officers, employees or agents of the State of Alaska may take Pacific walrus in accordance with a State research or conservation program approved by the Director in connection with the approval of the State's laws and regulations pursuant to subpart F of these regulations.

(5) Importation of Pacific walrus taken on the high seas will be permitted only when imported into the State of Alaska, and when taken in accordance with the limitations of this section.

(6) No part or product of a Pacific walrus taken under the provisions of this section may be shipped on interstate or foreign commerce unless it is marked, tagged, or otherwise identified as required by State law or regulation and such mark, tag, or other identification remains on the part or product until the final stages of processing.

(7) The taking or importation of Pacific walrus by all other persons, vessels, or other conveyances remains subject to the moratorium and the prohibitions set forth in the Marine Mammal Protection Act and subpart B of these regulations.

(8) Whenver retrieved takings exceed 3,000 walrus in any regulatory year, or the walrus herds diminish below the range of optimum sustainable population, the moratorium on the taking of walrus provided for in section 101(a) of the Marine Mammal Protection Act, 16 U.S.C. section 1371(a) will automatically be reimposed.

(b) All activities conducted pursuant to a waiver of the moratorium, including those carried out on the high seas adjacent to the coast of the State of Alaska must be in accordance with title 16 of the Alaska Statutes and the approved regulations promulgated thereunder.

(c) A violation of the provisions of the preceding subsection which occurs beyond the jurisdiction of the State of Alaska shall be punishable in accordance with section 105 of the Act.

Domestic and International Business Administration

SEMICONDUCTOR TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Semiconductor Technical Advisory Committee will be held on Wednesday, January 28, 1976, at 9:30 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Semiconductor Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration, approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor products, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has four parts:

General Session: (1) Opening remarks by the Chairman. (2) Presentation of papers or comments by the public. (3) Discussion of integrated circuits.

Executive Session: (4) Discussion of matters properly classified under Executive Order 11652 dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be

V401248 DEC 24 75 XUM

submitted at any time before or after the meeting.

With respect to agenda item (4), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967-4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in *Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al.*, September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the series of meetings of the Semiconductor Technical Advisory Committee and of any subcommittese thereof is hereby published.

Dated: December 22, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade.

NOTICE OF DETERMINATION

In response to written requests of representatives of a substantial segment of the semiconductor industry, the Semiconductor Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Section 2404(c)(1), to advise the Department of Commerce with respect to questions involving technical matters, worldwide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductors, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee, which currently has seven members representing industry and seven members representing government agencies, will terminate no later than January 3, 1977, unless extended by the Secretary of Commerce. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of Section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. 1 (Supp. IV, 1974), and the Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegates) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in Section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy, and are in fact properly classified pursuant to such Executive Order.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These COCOM control list as it relates to the commeetings will include discussions of the modities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as intelligence relating to foreign availability, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 C.F.R. 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to Section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period January 4, 1976, to January 3, 1977, from the provisions of Section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in Section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

GUY CHAMBERLAIN, JR.,
Acting Assistant Secretary for Administration.
ALFRED MEISNER,
Acting General Counsel.

NOVEMBER 21, 1975.

COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee will be held on Tuesday, January 27, 1976, at 9:00 a.m., in Room 4833, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components and related test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has five parts:

General Session: (1) Review of meeting minutes of October 29, 1975. (2) Remarks by Rauer H. Meyer, Director, Office of Export Administration. (3) Presentation of papers or comments by the public. (4) Classification methods for foreign availability and technology classification. (5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967-4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in *Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al.*, September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the series of meetings of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee and of any subcommittees thereof, is hereby published.

Dated: December 22, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade Department of Commerce.

NOTICE OF DETERMINATION

In response to written requests of representatives of a substantial segment of the computer industry, the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Section 2404(c)(1), to advise the Department of Commerce with respect to questions involving technical matters, worldwide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components, and related test equipment including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee which currently has fifteen members representing industry and ten members representing government agencies, will terminate no later than January 3, 1977, unless extended by the Secretary of Commerce. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of Section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), and the Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in Section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy, and are in fact properly classified pursuant to such Executive Order.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as intelligence relating to foreign availability, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 C.F.R. 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to Section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period January 4, 1976, to January 3, 1977, from the provisions of Section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in Section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

GUY CHAMBERLAIN, JR.,
Acting Assistant Secretary for Administration.

National Bureau of Standards

COMPUTER OUTPUT MICROFORM FORMATS AND REDUCTION RATIOS

Proposed Federal Information Processing Standard

Under the provisions of Public Law 89-306 and Executive Order 11717, the Secretary of Commerce is authorized to establish uniform Federal ADP Standards. A proposed standard for Computer Output Microform Formats and Reduction Ratios is being recommended for Federal use. This proposed standard specifies the image arrangement, size and reduction ratios to be generated by Computer Output Microfilmers (COM).

In order to insure that all parties have a full opportunity to present their views, NBS is soliciting comments on the following Computer Output Microform Formats and Reduction Ratios Standard. This standard will be applicable to all COM systems generating information for conversion to microforms using business-oriented fonts. The microform formats and associated reduction ratios specified by this proposal will be the only formats and reduction ratios authorized for use within the Federal government and will be required for all new COM systems and applications.

The proposed Federal Information Processing Standard contains two basic sections: (1) an announcements section which provides information concerning the applicability, implementation and maintenance of the standard; and (2) a specification section which deals with the technical requirements of the standard. Both sections are provided in their entirety in this notice.

Interested parties may submit comments to the Associate Director for ADP Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, on or before March 23, 1976.

Dated: December 17, 1975.

ERNEST AMBLER,
Acting Director.

Foreword. The use of microforms in the recording and dissemination of data and information is widespread in the Federal Government and the volume is steadily increasing, particularly for that information generated by computer. Therefore, the uniformity of Computer Output

V 401248 DEC 24 75 XUM

Microforms is essential in order to enhance the exchange and utilization of recorded information, and to provide compatibility of processing and user equipment. It is also essential that the number of different Computer Output Microform formats and reduction ratios be kept to a minimum in order to reduce the variety of equipment required. The Computer Output Microform Standards Group (TG–18) was formed by the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) to standardize certain aspects of Computer Output Microforms to meet Federal agency needs. This standard has been developed and issued for this purpose.

FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION—1975

Announcing the Standard for Computer Output Microform Formats and Reduction Ratios

Federal Information Processing Standards Publications are issued by the National Bureau of Standards pursuant to the Federal Property and Administrative Services Act of 1949 as amended, Public Law 89–306 (79 Stat. 1127), Executive Order 11717 (38 FR 12315, dated May 11, 1973), and Part 6 of Title 15 CFR (Code of Federal Regulations).

Name of Standard. Computer Output Microform Formats and Reduction Ratios.

Category of Standard. Hardware Standard, Media.

Explanation. This standard specifies the image arrangement, size and reduction ratios to be generated by Computer Output Microfilmers (COM).

Approving Authority. Secretary of Commerce.

Maintenance Agency. Department of Commerce, National Bureau of Standards (Institute for Computer Sciences and Technology).

Applicability. This standard is applicable to all computer output microfilm systems generating information for conversion to microforms using business-oriented fonts.

New COM Systems and Applications. The microform formats and associated reduction ratios specified herein are the only formats and reduction ratios authorized for use within the Federal Government and are mandatory for all new COM systems and applications.

Existing COM Systems and Applications. Users of existing COM systems and applications are encouraged to comply with this standard. Systems and applications not in accordance with this standard shall be evaluated periodically by heads of departments or agencies and the merits of converting to the standard weighed.

Specification. Federal Information Processing Standard ----, Computer Output Microform Formats and Reduction Ratios (affixed).

Implementation Schedule. All microforms produced by or for Federal agencies and equipment or services acquired after the date of this FIPS PUB must be in conformance with the specifications contained herein. Exceptions to this standard are made in the following cases:

a. For microforms, equipment, or services produced, procured, or on order, prior to the date of this FIPS PUB.

b. Where procurement actions are into the solicitation phase (i.e., Requests for proposals or Invitations for Bids have been issued) on the date of this FIPS PUB.

Waiver Procedure. Heads of agencies may waive the provisions of the implementation schedule. Proposed waivers relating to the production or procurement of non-conforming microforms will be coordinated in advance with the National Bureau of Standards, Washington, D.C. 20234. They should describe the nature of the waiver and set forth the reasons therefor.

Sixty days should be allowed for review and response by the National Bureau of Standards. The waiver is not to be effective until a reply is received from the National Bureau of Standards; however, the final decision for the granting of a waiver is a responsibility of the agency head.

Where to Obtain Copies of the Standard.

a. Copies of this publication are available from the Superintendent of Documents, U.S Government Printing Office, Washington, D.C. 20420 (SD Catalog Number C13.52:----).

b. Microfiche of this publication is available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Refer to Report Number NBS–FIPS–PUB–---- and title

FEDERAL INFORMATION PROCESSING STANDARDS ---- 1975

Specifications for Computer Output Microform Formats and Reduction Rates

1. *Name of Standard.* Computer Output Microform Formats and Reduction Ratios.

2. *Category of Standard.* Hardware Standard, Media.

3. *Explanation.* This standard specifies the image arrangement, size and reduction ratios to be generated by Computer Output Microfilmers (COM).

4. *Specifications.* This standard covers microform formats and reduction ratios for Computer Output Microforms (COM) using business-oriented fonts.

4.1 The choice of microform formats and associated reduction ratio(s), from among those specified herein, for use in a particular system or application is not prescribed by this standard. These choices will be based on user needs and developed from other criteria.

4.2. *Authorized Formats and Effective Reduction Ratios.*

a. 16mm roll film (24:1).
(1) Cine mode (IA).
(2) Comic mode (IB).
b. 105mm X 148mm microfiche.
(1) 63 frame (7 rows X 9 columns) 24:1.
(2) 98 frame (7 rows X 14 columns) 24:1.
(3) 270 frame (15 rows X 18 columns) 48:1.
(4) 420 frame (15 rows X 28 columns) 48:1.

4.3. *Requirements.*

a. *Legibility.* All characters must be recorded so they are readable by the user. This means that the quality of the master recordings must be sufficiently high to allow for the normal image degradation that results when making subsequent generation copies for the end user. Typically, there is about a 10% loss in the ability to duplicate very closely spaced points for each subsequent generation. The images of the smallest characters should measure at least 0.05 mm in height on the original microform. This represents a character height at an effective magnification of 24X of approximately 1.2 mm and at 48X of approximately 2.40 mm.

b. *Roll film.* See Formats 1 and 2.

c. *Microfiche.* See Formats 3 through 6.

(1) *Pagination.* Either vertical or horizontal pagination will be used in the creation of microfiche. When the microfiche is oriented so that the designated header area is upright and right reading, the first data frame will be placed in the left most position of the row immediately below the header.

(a) *Vertical pagination.* Frames following the first data frame will appear in sequence from top to bottom through the rows and from left to right through the columns.

(b) *Horizontal pagination.* Frames following the first data frame will appear in sequence from left to right through the row and from top to bottom through the columns.

(c) *Identification.* When used, identification of the method of pagination will be through use of an arrow placed in the header area. Vertical pagination will be designated by an arrow pointed downwards (↓). Horizontal pagination will be designated by an arrow pointing to the right (→).

(2) *Identification of sensitized film side.*

(a) *Silver original.* When the microfiche is held so that the header is upright and right reading, the sensitized (emulsion) side will be away from the observer.

(b) *Pre-cut stock or duplicates.* The sensitized side shall be identified by one of the following methods.

1 Method A—When a sheet of raw film or a duplicate microfiche is held with the long sides in a vertical position and either the notch or the corner cut is in the upper right hand corner, the sensitized side will be towards the observer as specified in American National Standard, PH1.10–1969, *Designation of Emulsion Side of Photographic Sheet Film.*

2 Method B—When a sheet of raw film or a duplicate microfiche is held with the long sides in a horizonal position and the notch is in the lower right corner or the corner cut is in the upper left corner, the sensitized side is towards the observer.

(c) *Identification techniques.*

1 Corner Cutting—To identify the sensitized side of a microfiche, a corner cut may be placed in the upper left corner of the header area when the sensitized side is facing the observer and the header is at the top. The cut shall extend a nominal 6mm along the long dimension (top) and a nominal 9mm along the short dimension (left side) of the microfiche.

2 Notching—in lieu of a corner cut, a notch may be placed along the right short dimension (side) near the bottom, when the sensitized side is facing the observer and the header area is at the top. The notch may be of any shape but shall not penetrate more than 1.6mm inward from the edge.

(3) *Header area.* The header area constitutes the top of the microfiche. The minimum area reserved for the header shall be used only for header and identification purposes on all microfiche and shall not be used for microimages. If additional header space is required, the area dedicated to the next entire row or rows of images shall be used. When this option is utilized, row identification shall remain unchanged. All header characters shall be upright and right reading, and at least 2mm in height. All characters shall be readable without magnification. The minimum areas reserved for the header are indicated in the figures for the microfiche formats by shading.

(4) *Frame identification.* When coordinates are used to identify the location of images, alphabetic characters shall be used to identify rows. Starting at the top left corner, under the minimum header area, the first row of microimages shall be A, the next B, the next C, and so on. Columns shall be identified numerically. Starting at the left, the first column shall be 1, the second 2, and so on.

(5) *Index.* If an index to the microfiche is to be provided, the placement of the last microimage of the index shall be in the bottom right corner frame of the grid area.

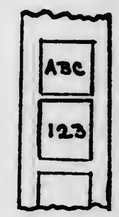
(6) *Trailer identification.* When trailer microfiche are used, each mirficofiche in the set, including the first one, should be sequentially identified. This information shall appear in the right-most portion of the header area.

(7) *Cut mark.* A cut mark will be proided for automatic cutting of 105mm roll film into microfiche. This cut mark shall be 3.0mm × 3.0mm square and the center of the square shall be located 32mm± 0.2mm along the bottom edge from the reference corner of each microfiche area.

(8) *Squareness.* Each side of the microfiche shall be perpendicular to the bottom (reference) edge within ±0.13mm for each 25mm of height of the microfiche. The total deviation of the side edges from the perpendicular to the bottom (reference edge) shall not cause the length of the tow edge of the microfiche to exceed 148mm plus 0.0mm, minus 1.0mm.

(9) *Edge straightness.* Each of the four edges of a microfiche shall be capable of falling between two straight parallel lines 0.25mm apart.

(10) *Curl and bow.* The curl or bow of a sheet of microfiche, when placed convex side down on a flat surface for at least six hours in a 70°F., 50% relative humidity atmosphere, shall have no part of the microfiche more than 6.35mm above the surface. (See ANSI Standard PH1.29–1971, *Methods for Determining Curl of Photographic Film*).

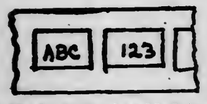


(11) *Corner rounding.* Where corner rounding is employed, the process shall not remove at any corner more than 3mm of either of the two sides which form the corner.

5. *Definitions.* Definitions needed for clarification of this standard are given in this section.

Application

Any use of COM that satisfies particular information requirements.



Cine (motion picture) oriented images (IA orientation) Jargon used with intent to reference images oriented on microfilm as follows, otherwise known as IA orientation.

Column. A vertical series of microimages on a microfiche.

COM. Computer Output Microform: Any microform containing images generated by a recorder, and duplicates thereof.

Comic strip oriented images (IB orientation) Jargon used with intent to reference images oriented on microfilm as follows, otherwise known as IB orientation.

Cut Mark. A mark added to film to permit automatic cutting of microfiche from a roll of film.

Format. A dimensioned layout containing requirements for size, arrangement and orientation of microimages upon a microform.

Frame. The total area allocated for exposure, regardless of whether or not this area is filled by the document or data image.

Header. Information, which is readable without magnification, placed at the top of a microfiche.

Microfiche. A sheet of film containing multiple microimages in a grid pattern.

Microfilm. (1) A high resolution film containing an image or images greatly reduced in size from the original. (2) To record microimages on film.

Microform. A generic term for any form containing microimages.

Microimage. A unit of information, such as a page of text or a drawing, too small to be read without magnification.

Micrographics. The science, art and technology of document and information miniaturization and associated microform systems.

Notch. Used to identify the sensitized side of a peace of photographic film.

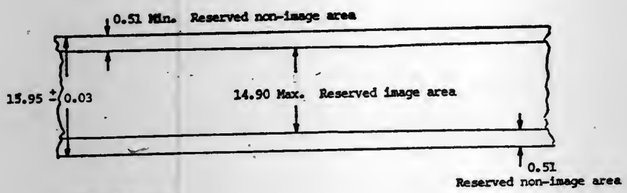
Reduction, effective. A measure of the number of times a given linear dimension of a similar conventional document would be reduced to equal the size of the COM generated microimage.

Row. A horizontal series of microimages on microfiche.

Sensitized Side. The side of the microform coated with a photosensitive material.

Specification. A document which describes the essential and technical requirements for items, materials and services including procedures by which it will be determined that the requirements have been met.

Standard. A document that establishes engineering and technical limitations and applications for items, materials, processes, methods, designs and engineering practices.



System. (1) All the harware, software, microforms, etc. employed from production through utilization. (2) An assembly of elements used to fulfill an application requirement.

5. *Dimensioning.* The dimensions used in this standard are expressed in the metric system (SI), all dimensions shown being in millimeters. See FIPS Pub 34, *ANSI Metric Practice Guide* Z210.1 (ASTM E380–72).

National Oceanic and Atmospheric Administration

MARINE MAMMALS

Receipt of Application for a General Permit

Notice is hereby given that the following applications for general permits to allow the taking of marine mammals incidental to the course of commercial fishing operations as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the regulations thereunder have been received: The United Fishermen of Alaska, Box 1352, Juneau, Alaska 99801, has applied for a general permit, Category 3, "Encircling Gear, Seining other than Yellowfin Tuna."

The United Fishermen of Alaska, Box 1352, Juneau, Alaska 99801, has applied for a general permit, Category 4, "Stationary Gear."

The United Fishermen of Alaska, Box 1352, Juneau, Alaska 99801, has applied for a general permit, Category 5, "Other Gear."

Applicants are holders of general permits issued in 1975 which expire on December 31, 1975.

Copies of the applications are available for review as follows: Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 (telephone 202/634–7283); Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801 (telephone 907/586–7221). Interested parties may submit written views on this application within 30 days of the publication of this notice to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

Dated: December 17, 1975.

HARVEY M. HUTCHINGS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75–34718 Filed 12–23–75;8:45 am]

National Marine Fisheries Service

VAN DONWEN'S SEALS

Issuance of a Permit for a Marine Mammal

On September 11, 1975, notice was published in the FEDERAL REGISTER (40 F.R. 42231) that an application had been filed with the National Marine Fisheries Service by Van Donwen's Seals to take one (1) California sea lion (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that on December 1, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Permit to Van Donwen's Seals, for the above mentioned taking, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235; the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731; and in the Office of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33902.

Dated: December 1, 1975.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

ADVISORY COMMITTEES

Notice of Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory bodies scheduled to assemble during the month of January 1976:

Clinical Psychopharmacology Research Review Committee—January 12–13; 9:00 a.m., Holiday Inn, Golden Gateway, 1500 Van Ness Avenue, San Francisco, California. Open, January 12, 9:00–10:00 a.m. Closed, Otherwise. Contact Antoinette C. Simms, Parklawn Building, Room 9–105, 5600 Fishers Lane, Rockville, Md. 20852, 301–443–3524.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research activities and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda: From 9:00 to 10:00 a.m., January 12, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of Section 552(b)(5) and 552(b)(6), Title 5 U.S. Code and Section 10(d) of Pub. L. 92–463 (5 U.S.C. Appendix I).

Preclinical Psychopharmacology Research Review Committee—January 12–13; 9:00 a.m. Oregon Room, Holiday Inn, Golden Gateway, 1500 Van Ness Avenue, San Francisco, California. Open, January 12, 9:00–9:30 a.m. Closed, Otherwise. Contact Marion Miller, Parklawn Building, Room 9–97, 5600 Fishers Lane, Rockville, Md. 20852, 301–443–3454.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to preclinical psychopharmacology research and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda: From 9:00 to 9:30 a.m., January 12, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of Section 552(b)(5) and 552(b)(6), Title 5 U.S. Code and Section 10(d) of Pub. L. 92–463 (5 U.S.C. Appendix I).

Substantive information may be obtained from the contact persons listed above.

The NIMH Information Officer who will furnish summaries of the meetings and rosters of the committee members is Mr. Edwin Long, Deputy Director, Division of Scientific and Technical Information, National Institute of Mental Health, Room 15–105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 29852, telephone number 301–443–3600.

Dated: December 19, 1975.

CAROLYN T. EVANS,
Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc.75–34817 Filed 12–23–75;8:45 am]

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

This notice announces forthcoming meetings of the public advisory committees of the Food and Drug Administration. It also sets out a summary of the procedures governing the committee meetings and the methods by which interested persons may participate in the open public hearings conducted by the committees. The notice is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)). The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Panel on Review of Baeterial Vaccines and Toxoids.	Jan. 12 and 13, 9 a.m., Room 121, Building 29, NIH, 8800 Rockville Pike, Bethesda, Md.	Open public hearing Jan. 12, 9 to 10 a.m.; open committee discussion Jan. 12, 10 a.m. to 2 p.m.; closed committee deliberations Jan. 12, 2 to 4 p.m.; Jan. 13, 9 a.m. to 4 p.m.; Jack Gertzog (HFB–5), 8800 Rockville Pike, Bethesda, Md. 20014, 301–496–4545.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of biological products.

Agenda—Open public hearing. During this portion any interested person may preset data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of minutes of previous meeting; discussion and prsentation of communications received; discussion of tetanus immune globulin.

Closed committee deliberations. Review of the following specific products: tetanus immune globulin; tetanus antitoxin, diphtheria antitoxin, pertussis immune globulin, H. influenza typing serum. Data submissions possibly including trade secret information will be reviewed. This portion of the meeting will be closed to protect the free exchange of internal views and to avoid undue interference with committee operations (5 U.S.C. 552(b)(4) and (5)).

Committee name	Date, time, and place	Type of meeting and contact person
2. Panel on Reye's Syndrom of the Neurologic Drugs Advisory Committee.	Jan. 19, 9:30 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 9:30 to 10:30 a.m.; open committee discussion 10:30 a.m. to 3:30 p.m.; closed committee deliberations 3:30 to 4:30 p.m.; Stephen C. Groft (HFD–120), 5600 Fishers Lane, Rockville, Md. 20852, 301–443–3800.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of marketed and investigational prescription drugs for use in neurologic diseases.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of the relationship of the administration of anti-emetics and/or aspirin to the clinical outcome of Reye's Syndrome and encephalopathy.

Closed committee deliberations. This portion of the meeting will be closed to protect the free exchange of internal views, formulation of recommendations, and to vote on recommendations to be sent to the FDA's Neurologic Drugs Advisory Committee (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
3. Panel on Review of Bacterial Vaccines and Bacterial Antigens.	Jan. 29 and 30, 9 a.m., Room 121, Building 29, NIH, 8800 Rockville Pike, Bethesda, Md.	Open public hearing Jan. 29, 9 to 10 a.m.; closed committee deliberations Jan. 29, 10 a.m. to 4 p.m., Jan. 30, 9 a.m. to 4 p.m.; Jack Gertzog (HFB–5), 8800 Rockville Pike, Bethesda, Md. 20014, 301–496–4545.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of biological products.

Agenda—Open public hearing. During this portion of the meeting any interested person may present data, information, or views, orally or in writing, on issues pending before the committee. Discussion of previous minutes and communications received.

Closed committee deliberations. Review of the draf report with FDA officials. This portion of the meeting will be closed to protect the free exchange of internal views and to avoid undue interference with committee operations (5 U.S.C. 552(b)(5)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact personf the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.C. 552(b)(4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves inter-agency or intra-agency memoranda or discussion and deliberations of matters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) that it is essential to close such portion of a meeting to protect the free exchange of internal views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussions portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices, consideration of labeling requirements for a class of marketed drugs and devices, review of data and information on specific investigational or marketed drugs and devices that have previously been made public, and presentation of any other data or information that is not exempt from public disclosure.

Dated: December 18, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.75–34816 Filed 12–23;75;8:45 am]

Office of Education

Notice of Public Meeting of the National Advisory Council on Adult Education.

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that the

V 40 248 DEC 24 75 XUM

next meeting of the National Advisory Council on Adult Education will be held on January 22–23, 1976, from 8:00 a.m. to 8:00 p.m., and on January 24, 1976, from 8:30 a.m. to 2:00 p.m., at The Monteleone, 214 Rue Royale, New Orleans, Louisiana.

The National Advisory Council on Adult Education is established under Section 311 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general rules and regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Council shall be open to the public.

The proposed agenda includes: Panel presentations on adult education futures by state directors and state advisory councils. Standing and ad hoc committee reports and recommendations. General Council business for 1976.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Adult Education located in Room 323, Pennsylvania Bldg., 425 13th Street, N.W., Washington, D.C. 20004).

Signed at Washington, D.C. on December 18, 1975.

GARY A. EYRE,
Executive Director, National Advisory Council on Adult Education.

[FR Doc.75-34688 Filed 12-23-75;8:45 am]

Office of the Secretary

HOSPITAL INSURANCE MONTHLY PREMIUM

Premium Rate for the Uninsured Aged

Pursuant to authority contained in section 1818(d)(2) of the Social Security Act (42 U.S.C. 1395i-2(d)(2)), I hereby determine and promulgate that the monthly hospital insurance premium, applicable for the 12-month period commencing July 1, 1976, is $45.

Section 1818 of the Social Security Act, added by section 202 of the Social Security Amendments of 1972 (Pub. L. 92-603), provides for voluntary enrollment in the hospital insurance program (Part A of Medicare) by certain uninsured persons 65 and older who are otherwise ineligible. Section 1818(d)(2) of the Act requires the Secretary to determine and promulgate, during the final quarter of 1975, the dollar amount which will be the monthly Part A premium for voluntary enrollment, for months occurring in the 12-month period beginning July 1, 1976. As required by statute, this amount must be $33 times the ratio of (1) the 1976 inpatient hospital deductible to (2) the 1973 inpatient hospital deductible, rounded to the nearest multiple of $1, or if midway between multiples of $1, to the next higher multiple of $1.

Under section 1813(b)(2) of the Act, the 1976 inpatient hospital deductible was determined to be $104. The 1973 deductible was actuarially determined to be $76. However, the 1973 deductible was actually promulgated to be only $72 to comply with a ruling of the Cost of Living Council. This has created some ambiguity in the use of the statutory formula for calculating the premium. The premiums for fiscal years 1975 and 1976 were both calculated using the actuarially determined deductible of $76 since this appeared to most closely satisfy the intent of the law. Similarly, the premium for the twelve month period ending June 30, 1977 has been calculated using the $76 deductible for 1973. Thus the monthly hospital insurance premium is $33×(104/76)=$45.16 which is rounded to $45.

The purpose of the premium formula is to adjust the original $33 premium for changes in the cost of providing hospital care. The ratio of the inpatient hospital deductibles does this approximately, since the deductible as calculated under section 1813(b)(2), is based on the average daily cost of providing hospital care under the hospital insurance program. However, the deductible is calculated (by law) from data reflecting program experience in an earlier year. The increase in the 1976 deductible (and thus the increase in the premium now being promulgated) results from the increase in hospital per diem costs in calendar year 1974 over 1973. In addition, the premium calculation fails to adjust for changes in the hospital utilization rate and in changes in non-hospital costs under the program. For these reasons, the premium can only be a rough approximation to actual per capita program costs.

In particular, the $45 premium rate is not expected to be adequate to pay for the estimated cost of enrollees in the year ending June 30, 1977. The table below compares the premium rates charged with the estimated cost per enrollee (assuming that the average cost per premium paying enrollee is the same as the average cost for insured aged enrollees). The table also shows, year-by-year, the difference between premium charged and cost per enrollee and the accumulated value of the excess or deficit. Finally, the table shows the actuarially adjusted rate that would be necessary to pay the current year's cost and the accumulated surplus or deficit from prior years. For the year ending June 30, 1977, it is estimated that the cost per enrollee will be $51.50 and that a deficit of $4.10 per enrollee will be carried forward from previous years. Therefore, a rate of $55.60 would be required to place the premium paying enrollee group on a fully self-supporting basis by June 30, 1977.

Comparison of promulated premium rates with the actuarially adjusted rate

Year ending June 30 (1)	Promulgated premium rate (2)	Estimated cost per enrollee in the year (3)	Premium less cost (4)	Accumulated value of col. (4) for prior years[1] (5)	Actuarially adjusted rate, col. (3) minus col. (5) (6)
1974	$33	$30.50	+$2.50		$30.50
1975	36	37.40	−1.40	+$2.10	35.30
1976	40	44.60	−4.60	+.60	44.00
1977	45	51.50	−6.50	−4.10	55.60

[1] For a given year, this value is the sum of the differences shown in col. (4) for all preceding years, accumulated with interest and changes in size of enrollment.

The deficit in the premium rate must be temporarily, at least, made up from other sources of income to the Part A trust fund. If the voluntary enrollment program is to be self-supporting in the long run, some future premium rates will have to be greater than actual per capita costs in order to pay off the deficit projected for June 30, 1977. This could occur, for example, if the rate of increase in hospital costs were to decline sufficiently between the year used in calculating the premium and the year that the premium was to be effective.

Dated: December 18, 1975.

MARJORIE LYNCH,
Acting Secretary.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[FDAA-493-DR; NFD-316]

ALASKA

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on December 18, 1975, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Alaska resulting from fire and freezing beginning about December 2, 1975, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Alaska.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. William H. Mayer, HUD Region X, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area of the State of Alaska to have been adversely affected by this declared major disaster:

The City of: Bethel.

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: December 18, 1975.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

ACTION

FOSTER GRANDPARENT AND SENIOR COMPANION PROGRAMS

Income Eligibility Level

This notice revises the schedule of income eligibility levels for individuals and families for the Foster Grandparent Program and the Senior Companion Program published in the FEDERAL REGISTER of August 26, 1975 (40 FR 37248). Based on figures effective August 8, 1975, obtained from the Community Services Administration Income Poverty Guidelines dated June 30, 1975, these amounts include State supplements to the Federal Supplemental Security Income (SSI) Program.

These ACTION programs are authorized pursuant to section 211 of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 402. Pursuant to section 421(4) of Pub. L. 93-113, 87 Stat. 414, the income eligibility levels are determined by the currently applicable guideline published by the Community Services Administration, pursuant to section 625 of the Economic Opportunity Act of 1964, as amended (42 U.S.C. 2971(a)), and increased by the amounts individual States supplement the Federal Supplemental Security Income (SSI) program. The State supplemental payments reflect the higher cost of living in the geographic area to be served by the project. Section 625 permits the CSA guideline to be adjusted for cost-of-living changes.

The income eligibility levels will be reviewed at least once a year, and similar schedules will be prepared to reflect any changes required as a result of that review.

Pursuant to section 420 of Pub. L. 93-113, this policy will become effective January 23, 1976.

ACTION schedule of income eligibility levels for foster grandparents or senior companions

State	Individuals	Family of 2[1]	Family of 3[1]

AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

AMERICAN REVOLUTION BICENTENNIAL ADVISORY COMMITTEE ON RACIAL, ETHNIC AND NATIVE AMERICAN PARTICIPATION IN THE BICENTENNIAL

Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the American Revolution Bicentennial Committee on Racial, Ethnic and Native American Participation in the Bicentennial will be held on January 8 & 9, 1976, in Room 2010 of the New Executive Office Building in Washington, D.C. The meeting will begin at 8:30 a.m.

The tentative agenda includes the discussion of a pilot Forum meeting, a proposed media series highlighting the ethnic and racial cultural diversity in this country, the July 4, 1976 celebration and the Ethnic Racial filmagraph.

The meeting will be open to the public on a space available meeting. Further information can be obtained from Verna E. Clayborne, Director of Ethnic Racial Programs, American Revolution Bicentennial Administration, 2401 E Street, NW., Washington, D.C. 20276, Telephone (202) 634-1767.

JOHN W. WARNER,
Administrator.

CIVIL AERONAUTICS BOARD

[Order 75-12-103, Docket Nos. 28570, 22859]

THE FLYING TIGER LINE INC.

Domestic Air Freight Rate Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of December, 1975.

By tariff revision[1] issued November 21 and marked to become effective December 21, 1975, The Flying Tiger Line Inc. (Tiger) proposes to cancel existing rates on vegetables[2] in the Los Angeles to New York market at the 5,000 and 10,000 pound weightbreaks and to introduce a sharply reduced rate for bulk movements of 3,000 pounds and over. The proposed rate of $8.70 per hundredweight is 39 percent below the present 10,000 pound rate of $14.35, and 45 percent below the current 5,000 pound rate of $15.80. Shipments are accepted on a space available basis and are to be exempt from Rule 20.[3]

A complaint was filed by Trans World Airlines, Inc. (TWA) requesting suspension and investigation of the proposal. The complaint alleges, *inter alia*, that (1) the proposed rate does not cover noncapacity cost; (2) Tiger incorrectly used 1972 cost data in justifying its rate; (3) the proposal results in undue preference to a single shipper and unjustly discriminates against all other shippers; and (4) exemption of the rate from Rule 20 will permit container loads of vegetables to be shipped at less than the minimum container charge.

[1] Revision to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 169.

[2] Item No. 0139006 (Vegetables, N.E.S., processed through sorting, cutting and/or trimming, packed in bags or cartons).

[3] Rule 20 states that "Except as otherwise provided, rates and charges named in the tariff are subject to Official Air Freight Unit Load Device Tariff No. ULD-1, C.A.B. No. 256, Official Air Freight Container Tariff No. CT-7 C.T.C.(A) No. 116, C.A.B. No. 227, issued by Airline Tariff Publishing Company, Agent for commodities in containers and unit load devices as specified therein." This means this traffic will be accepted at bulk rates even if tendered in containers.

V40248 DEC 24 75 XUM

In support of its proposal, and in answer to the complaint, Tiger contends that the proposed rate (1) covers noncapacity cost and contributes to capacity cost when calculated in accordance with the formula used in the *Domestic Air Freight Rate Investigation* (DAFRI); (2) covers its own noncapacity cost for 1975; (3) is designed to match TWA's LD-3 container rate on vegetables on a per hundredweight basis[1]; (4) will retain for Tiger an account which shipped 306,300 pounds of traffic in the first nine months of 1975; and (5) should develop $35,532 in revenue based on the traffic volume experienced in the first nine months of 1975.

The proposal comes within the scope of the *Domestic Air Freight Rate Investigation* (DAFRI), Docket 22859, and its lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending final decision in DAFRI.

The Board has reviewed the proposed rate in the light of industry-average costs of carrying air freight (including return on investment),[2] finds that it does not cover either terminal or noncapacity cost and, therefore, believes it should be suspended.

Tiger's cost justification was originally grounded on the noncapacity cost figures used by the Administrative Law Judge in the Initial Decision in DAFRI. These figures reflect costs prevailing for 1972, and must be updated to remain meaningful. In answer to the complaint, Tiger further contends that the rate covers its own noncapacity cost for 1975. We have no basis on which to judge the validity of this claim, and reiterate our intention to assess the reasonableness of the proposed rate changes by comparison with industry-average cost. Comparison reveals the rate to be noncompensatory when applied to bulk traffic.

Suspension of the proposed rate does not preclude attempts to match the TWA container rate with a Tiger container rate. We understand Tiger's desire to retain large shippers. A reduced bulk rate, however, may not be considered a matching rate because there are inherent cost differences between bulk and container service that Tiger does not fully recognize.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204a, 403, 404, and 1002 thereof,

It is ordered that:

1. Pending hearing and decision by the Board, the new rate, subject to a minimum weight of 3,000 pounds, and the cancellation of the rates, subject to minimum weights of 5,000 and 10,000 pounds, on SCR 0139905 from Los Angeles to New York/Newark on 40th Revised Page 626-A of Tariff C.A.B. No. 169, issued by Airline Tariff Publishing Company, Agent, is suspended and its use deferred to and including March 19, 1976, unless otherwise ordered by the Board, and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Except to the extent granted herein, the complaint of Trans World Airlines, Inc., in Docket 28570 is dismissed; and

3. Copies of this order shall be filed with the tariff.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-34711 Filed 12-23-75;8:45 am]

[1] The LD-3 container flat rate of $232 is divided by 2800 pounds to produce an effective rate per hundredweight of $8.29. A loading charge estimated by Tiger to be $6.00 is added to TWA's Unloading Service Charge of $6.00 for the LD-3, resulting in an additional charge of $0.43 per hundredweight.

[2] For present purposes the costs utilized are the same as those presented in the Bureau of Economics' brief to the Board which are essentially consistent in methodology with the Initial Decision in DAFRI. Further, these calendar year 1974 costs have been updated to reflect the levels prevailing during the nine-month period ended September 30, 1975.

[Docket No. 28666; Order 75-12-104]

UNITED AIR LINES, INC.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of December, 1975.

By tariff revisions[1] posted November 21, 1975, and scheduled to become effective January 5, 1976, United Air Lines, Inc. (United) proposes, *inter alia*, to increase the minimum charge for C.O.D. service from $1.00 to $4.00 per shipment. The basic charge of 50¢ per $100 collected remains unchanged.

In support of the proposal, United asserts that C.O.D. minimum charges have not been increased since 1951; that labor costs have increased 344 percent since that time; and that the proposed increase, amounting to 300 percent, merely recovers increased labor costs.

Upon consideration of all relevant factors, the Board concludes that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

While United has submitted data showing the increase in average *monthly* wage rates of its air freight agents since 1951, the carrier has not related the actual cost of C.O.D. service to the proposed charge. United has not submitted any data on man-minutes or other cost-causative factors indicating that the proposed increase is warranted. Therefore, consistent with its findings in previous orders,[2] the Board will suspend United's proposal pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that:

1. An investigation is instituted to determine whether the provision reading "(Not applicable to UA)" in Rule No. 66 (G)(1)(a) and the provisions in Rule No. 66(G)(1)(b) on 26th Revised Page 36-A of Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96, and rules, regulations, and practices affecting such provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, the provisions reading "(Not applicable to UA)" in Rule 66(G)(1)(a) and the provisions in Rule No. 66(G)(1)(b) on 26th Revised Page 36-A of Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96, are suspended and their use deferred to and including April 3, 1976, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 28666, be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariff and served upon United Air Lines, Inc., which is hereby made a party to Docket 28666.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-34712 Filed 12-23-75;8:45 am]

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96.

[2] See, e.g., Orders 75-11-43 and 72-4-53.

[Order 75-12-98; Docket Nos. 22859, 26838]

WESTERN AIR LINES, INC.

Domestic Air Freight and Priority Reserved Air Freight Rates Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of December, 1975.

By tariff revisions[1] issued November 19, and scheduled to become effective December 23, 1975, Western Air Lines, Inc. (Western) proposes, *inter alia*, to increase various bulk general and specific commodity rates and charges in selected markets by as much as 10 percent. Corresponding priority reserved general commodity rates are to be increased by an equal percentage.

In support of the proposal, Western asserts that, due to competition, the markets involved were exempted from Western's July 1, 1975, increase, and thus have already been cost-justified, and that the proposed rates do not exceed competitive rates filed by other carriers. The carrier anticipates a net revenue gain of $262,000 annually.

The proposed rates and charges come within the scope of either the *Domestic Air Freight Rate Investigation* (DAFRI), Docket 22859, or the *Priority Reserved Air Freight Rates Investigation* (PRAFRI), Docket 26838, and their lawfulness will be determined in those proceedings. The issue now before the Board is whether to suspend the proposed increases or to permit them to become effective pending investigation.

The Board has reviewed the proposed increases in the light of recent industry-average costs (including return on investment) of carrying air freight,[2] and finds several 100-pound general commodity rates between Hawaii and the Mainland that exceed costs, as well as a limited number of specific commodity rates that exceed the general commodity rates.

Upon consideration of all relevant factors, the Board finds that the above rates should be suspended pending final decision in DAFRI. The Board further concludes that the proposed 100-pound priority rates in the same markets should be suspended, pending investigation, inasmuch as they would exceed 130 percent of the regular general commodity rates.

The Board will also suspend a number of increased priority rates that exceed 130 percent of the otherwise applicable regular service specific commodity rates or charges. Although the Board permitted Western (as well as Continental Air Lines, Inc.) to establish such priority general commodity rates including minimum charges reflecting the 100-pound weightbreak priority rate, the Board subsequently found that a 30 percent premium over the applicable rates (whether general or specific commodity rates) was the highest that should be permitted, pending decision in PRAFRI.[3]

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that: 1. Pending hearing and decision by the Board, the increased rates and charges described in Appendix A hereto are suspended and their use deferred to and including March 21, 1976, unless otherwise ordered by the Board, and that no change be made therein during the period of suspension, except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariff.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 169.

[2] For present purposes the costs utilized are the same as those presented in the Bureau of Economics' brief to the Board which are essentially consistent in methodology with the Initial Decision in the *Domestic Air Freight Rate Investigation*, Docket 22859. Further, these calendar year 1974 costs have been updated to reflect the levels prevailing during the nine-month period ended September 30, 1975.

[3] Due to the technicalities of tariff publication, in the cases of increases in priority minimum charges resulting in premiums in excess of 30 percent over regular minimum charges, the Board will also suspend the proposed 100-pound weightbreak rate. The Board believes that Western should publish an under 100-pound rate applicable to its priority freight service to help eliminate inequities in the current minimum-charge structure.

Further, the Board believes that the existing premium over general commodity rates for priority service is too great when applied to traffic that would otherwise move on discounted specific commodity rates, inasmuch as such premiums will be significantly greater than 30 percent. In short, where Western maintains a specific commodity rate on a particular commodity, when moving in priority service the commodity takes 130 percent of the general commodity rate rather than the specific commodity rate.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON AND MAN-MADE FIBER TEXTILE PRODUCTS FROM THE REPUBLIC OF CHINA

Import Control Levels

DECEMBER 19, 1975.

On May 21, 1975, in furtherance of the objectives of, and under the terms of, the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, the Governments of the United States and the Republic of China concluded a comprehensive bila-

V40248 DEC 24 75 XUM

teral cotton, wool and man-made fiber textile agreement concerning exports of cotton, wool and man-made fiber textile products from the Republic of China to the United States over a period of three years beginning on January 1, 1975. Among the provisions of the agreement are those establishing an aggregate limit for Categories 1–64, 101–132, and 200–243; group limits within the aggregate for Categories 1–38, 64, 200–213 and 241–243; Categories 39–63 and 214–240; and Categories 101–132; and within the applicable aggregate and group limits, specific limits for Categories 9/10, 18/19, 22/23, 43 and part of 62 (shirts and blouses), 45/46/47, 48, 49, 50/51, 60, 213, 219, 221, 222, 224, and 234/235 for the agreement year beginning on January 1, 1976.

Accordingly, there is published below a letter of December 19, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that entry into the United States for consumption and withdrawal from warehouse for consumption in Categories 9/10, 18/19, 22/23, 43 and part of 62 (shirts and blouses), 45/46/47, 48, 49, 50/51, 60, 213, 219, 221, 222, 224, and 234/235 be limited to the designated levels. The levels of restraint set forth below for man-made fiber textile products in Categories 219, 221, and 224 have been reduced by the amount of carryforward applied to these categories in the previous agreement year. A further reduction has been made in the level for Category 219 to account for previous overshipments, as provided in paragraph 10 of the bilateral agreement.

This letter and the actions taken pursuant thereto are not designed to implement all of the provisions of the new bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

DECEMBER 19, 1975.

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of May 21, 1975 between the Governments of the United States and the Republic of China, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective on January 1, 1976 and for the twelve-month period extending through December 31, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in the indicated categories in excess of the following levels of restraint:

Category:		12-mo level of restraint
9/10	square yards	36,532,153
18/19	do	1,976,466
22/23	do	3,920,061
43 and part of 62 (only T.S.U.S.A. Nos. 382.0002, 382.0605 and 382.0610)	square yards equivalent	871,822
45/46/47	do.[1]	3,191,486
48	dozen	23,375
49	do	37,188
50/51	do.[2]	670,415
60	do	42,500
213	pounds	8,129,147
219*	do	8,129,147
221*	dozen	4,925,555
222	do	3,576,597
224*	pounds	9,126,603
234/235	square yards equivalent	65,943,646

* These levels have been reduced to account for carryforward used in the previous agreement year.

[1] (Of which not more than 33,523 doz shall be in Category 45.)

[2] (Of which not more than 321,506 doz shall be in Category 50 and not more than 516,514 doz shall be in Category 51.)

[3] (Of which not more than 197,500 lb shall be in T.S.U.S.A. Nos. 380.0420 and 380.8143 and not more than 637,500 lb shall be in T.S.U.S.A. Nos. 380.0402 and 380.8103.)

In carrying out this directive, entries of cotton textile products in Categories 9/10, 18/19, 22/23, 43 and part of 62, 45/46/47, 48, 49, 50–51 and 60, produced or manufactured in the Republic of China and exported to the United States prior to January 1, 1976, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period January 1, 1975 through December 31, 1975. Entries of man-made fiber textile products in Categories 213, 219, 221, 222, 224, and 234/235, produced or manufactured in the Republic of China and exported to the United States prior to January 1, 1976, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period October 1, 1974 through December 31, 1975. In the event the levels of restraint established for these periods have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of May 21, 1975 between the Governments of the United States and the Republic of China which provide, in part, that: (1) within the aggregate and applicable group limits of the agreement, specific levels of restraint may be exceeded by designated percentages; (2) these levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate future adjustments under the foregoing provisions of the bilateral agreement will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on February 3, 1975 (40 F.R. 5010).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of China and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

CONSUMER PRODUCT SAFETY COMMISSION

[CPSC Docket No. 75-20]

O. N. JONAS COMPANY, INC., AND GEORGE A. TITLOW

Flammable Fabrics Act Enforcement Proceeding

On November 18, 1975, by direction of the Commission, the Acting Secretary issued a Notice of Enforcement prepared by the Bureau of Compliance and directed to O. N. Jonas Company, Inc., a corporation, and George A. Titlow, individually, and as an officer of the company (Respondents) declaring in substance that the Commission's staff believes that the Respondents have violated the provisions of the Federal Trade Commission Act (15 U.S.C. 41 et seq.), the Flammable Fabrics Act (15 U.S.C. 1191 et seq.), the rules and regulations promulgated under the Flammable Fabrics Act (16 CFR § 302), and the Standard for the Surface Flammability of Carpets and Rugs (FF 1-70, 35 FR 6211, April 16, 1970). Commission jurisdiction over this matter is based on the transfer of functions under the foregoing Acts to the Commission by Section 30 of the Consumer Product Safety Act (15 U.S.C. 2051, 2079).

The Staff states its charges as follows:

1. Respondent O. N. Jonas Company, Inc., is a corporation organized and doing business under the laws of the State of Georgia. Respondent George A. Titlow is an officer of the corporation. He formulates, directs, and controls the

acts, practices and policies of the corporation.

Respondents are engaged in the manufacture and sale of carpets and rugs with their office and principal place of business located at Fleming Street, Dalton, Georgia 30720.

2. Respondents are now and have been engaged in the manufacturing for sale, sale and offering for sale, in commerce, and have introduced, delivered for introduction, transported and caused to be transported in commerce, and have sold or delivered after sale or shipment in commerce, products, as the terms "commerce" and "product," are defined in the Flammable Fabrics Act (FFA). These products fail to conform to the requirements of an applicable standard as required by Section 3(a) of the FFA (15 U.S.C. 1192).

Among such products mentioned above was carpeting designated as style "Shag West" subject to the Standard for the Surface Flammability of Carpets and Rugs (FF 1-70), but which were not manufactured in conformance with all of the requirements of that standard.

3. Respondents furnished false guaranties in respect to certain carpeting designated as style "Shag West" with reason to believe that such carpeting might be introduced, sold or transported in commerce, in violation of Section 8(b) of the FFA.

4. Attached hereto are copies of the principal items of written evidence, marked Commission Exhibits 1–11 which the staff considers to constitute a prima facie case. Briefly described, the exhibits are test reports and inspection reports relating to samples of carpet manufactured by respondents which failed the aforementioned flammability tests under the Carpet Standard.

5. The aforesaid acts and practices of respondents were and are in violation of the FFA, as amended, and the rules and regulations promulgated thereunder; and as such constitute unfair methods of competition and unfair and deceptive acts and practices in commerce, within the intent and meaning of the Federal Trade Commission Act.

A proposed agreement containing a Consent Order to Cease and Desist the alleged violations was also furnished to Respondents. The identification of the exhibits which Enforcement Counsel considers as constituting a prima facie case will not preclude the introduction of further evidence relevant and material to the subject matter.

Counsel for Respondents has filed an answer constituting, in effect, a general denial of the substantive allegations in the Notice of Enforcement, and in addition, has included several affirmative defenses alleging as follows:

1. That the procedures utilized by the Commission in concluding that carpet samples failed to meet the requirements of the FFA as not being in accord with permissable procedures promulgated by the Federal Trade Commission or the Commission, were improper.

2. That said procedures are neither accurate nor reliable and that the failure of isolated carpet samples to meet the acceptance criteria of the Flammable Fabrics Standard does not constitute violation of the FFA.

3. That the Commission improperly rejected the results of intervening flammability tests which show compliance with said Standard.

4. That the Commission has misapplied the provisions of Section 3(a) of the FFA and the Standards thereunder.

5. That the samples of the carpet tested were not "in commerce" as that term is used in the FFA.

6. That the Respondents have already recalled from commerce unsold rolls of the carpet in question and, therefore, no additional benefits will inure to the public as a result of this proceeding.

7. That this proceeding is unnecessary and sohuld have been terminated by execution of voluntary assurances under Federal Trade Commission rules.

8. That Respondent corporation has previously executed a consent order agreement conforming with the Commission's decision in *Congoleum Industries, Inc.* (CPSC Docket No. 75-3), a case involving essentially identical facts and law, with the result that the imposition of a markedly different form of order, would violate Respondents' constitutional rights.

9. That no substantial hazard exists, and that the remedies contained in the proposed Order are unnecessary to adequately protect the public.

10. That the extent of Respondents' failure to comply with the FFA or the Standard, if any, was de minimus.

11. That the Respondent company exercised good faith in the production of the carpet in question by utilizing the latest flame retardant materials and by conducting extensive testing to insure continued compliance with the law.

12. That the proposed Order seeks to impose remedies based upon Section 15 (c) and (d) of the Consumer Product Safety Act, when in fact, Section 30(d) of said Act requires Respondents' conduct to be judged pursuant to the Federal Trade Commission Act and the FFA.

13. That the proposed Order is too broad in that it extends to all products subject to the FFA, although the issue herein concerns only carpet rolls.

14. That George A. Titlow is improperly joined as an individual although he engaged in no acts whatsoever that gave rise to this complaint.

15. That the proposed Order is ambiguous and extends the jurisdiction of the Commission beyond its statutory authority.

16. That the Notice of Enforcement is ambiguous in that it applies to all "Shag West" carpet production while the proposed Order extends to "Shag West" (foam backed) only.

17. That the Commission's regulations pertaining to guaranties and false guaranties are ambiguous, invalid, and unenforceable.

18. That the proposed Order is invalid insofar as it attempts to preclude the export of noncomplying product in contravention of Respondents' rights under 15 U.S.C. Section 1202(a).

19. That the proposed Order is invalid as to Respondent George A. Titlow, in that it would expose him to public ignominy and could seriously interfere with his ability to earn a livelihood—all in excess of the Commission's authority.

On the basis of the foregoing, Respondents' request dismissal of the Notice of Enforcement.

Issue having been joined, it is deemed necessary in order to organize the preparation for, and conduct of, the hearing, that a prehearing conference be held at 9:30 a.m., e.s.t., Tuesday, January 6, 1976, in the Commission's 7th Floor Conference Room, 1750 K St. NW., Washington, D.C. 20207.

Counsel are requested to exchange and file with this office memoranda setting forth (1) a definition of the issues to be heard, (2) requests for discovery, if any, (3) disclosure of the number of witnesses and the approximate length of time each presentation will entail, and (4) a proposal for the time, date and place of the hearing.

Dated: December 16, 1975.

PAUL N. PFEIFFER,
Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 454-2]

AIR POLLUTION PREVENTION AND CONTROL

Hazardous Air Pollutants, Addition to List

Section 112 of the Clean Air Act (42 U.S.C. 1857c-7) directs the Administrator of the Environmental Protection Agency to publish and from time to time revise a list of air pollutants, which in his judgment may cause, or contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness and to which no national ambient air quality standard is applicable. Within 180 days after the inclusion of any air pollutant in the list, the Administrator is required to publish proposed regulations establishing emission standards for such pollutants together with a notice of a public hearing to be held within 30 days after publication of the notice.

The Administrator, after evaluating available information, has concluded that vinyl chloride is an air pollutant which meets the above requirements. Evaluation of other air pollutants is being conducted and the list will be revised from time to time as the Administrator deems appropriate. Accordingly, notice is given that the Administrator, pursuant to section 112(b)(1)(A) of the Act and after consultation with appropriate advisory committees, independent experts, and Federal departments and

V 401248 DEC 24 75 XUM

agencies in accordance with section 117 (f) of the Act, effective on December 24, 1975 amends the list of hazardous air pollutants to read as follows:

LIST OF HAZARDOUS AIR POLLUTANTS

* * * * *

4. Vinyl chloride

Dated: December 16, 1975.

RUSSELL E. TRAIN,
Administrator.

FOOD ADDITIVE PETITION

Notice of Filing

Chemagro Agricultural Div., Mobay Chemical Co., PO Box 4913, Kansas City MO 64120, has submitted a food additive petition (FAP 6H5111) to the Environmental Protection Agency (EPA) which proposes to amend 21 CFR 123 and 561 by establishing food and feed additive regulations permitting the use of the insecticide which is a mixture of *O*-ethyl *O* - [4 - (methylthio) phenyl] *S* - propyl phosphorodithioate and xylene in a proposed experimental program involving application of the insecticide to growing cotton with a tolerance of 1.0 part per million for residues of the insecticide in cottonseed hulls and cottonseed oil.

Notice of this submission is given pursuant to Section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act. Interested persons are invited to submit written comments on the petition referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 401, East Tower, 401 M St. SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments should be submitted as soon as possible and should bear a notation indicating the petition number "FAP 6H5111." Comments may be made at any time while a petition is pending before the Agency. All written comments will be available for public inspection in the Office of the FEDERAL REGISTER from 8:30 a.m. to 4:00 p.m., Monday through Friday.

Dated: December 17, 1975.

JOHN B. RITCH, Jr.,
Director, Registration Division.

[OPP-180067; FRL 473-1]

VERMONT DEPARTMENT OF AGRICULTURE

Issuance of a Specific Exemption To Control the Meadow Vole in Vermont

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Vermont Department of Agriculture (hereafter referred to as the "Applicant") to use a diphacinone formulation to control populations of the meadow vole, which are threatening commercial apple orchards located in three counties in Vermont. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, the meadow vole (*Microtus pennsylvanicus*) is a perennial problem in Vermont orchards, and is the principal rodent responsible for girdling of apple trees in the State. Populations of the meadow vole commonly cause economic damage to commercial apple orchards by girdling the tree trunks below snow cover during the winter months over much of the Northeast. Therefore, satisfactory control of this rodent must be accomplished before snow falls; the desired application time would be after the apple harvest is complete and before the first snows, which generally occur in late November.

Zinc phosphide and Endrin in formulations are registered for controlling meadow voles. However, the Applicant claimed that zinc phosphide is ineffective because it is very unstable in the presence of moisture and, unless packaged under ideal conditions, it deteriorates very rapidly. The use of Endrin poses definite risks to non-target species, especially birds. The Applicant proposed to use a 0.005 percent diphacinone pelletized bait formulation at the rate of 10 pounds of product (0.05 pounds A.I.) per acre.

The diphacinone formulation will be applied aerially by fixed-wing aircraft. Personnel involved in the application are experienced in all aspects of apple pest control, and include personnel from the University of Vermont Agricultural Experiment Station, University of Vermont Extension Service, Velsicol Chemical Corporation, and the Vermont Department of Agriculture. The economic benefits anticipated from the program will be adequate protection of certain orchards from meadow voles; some of these orchards experienced severe damage during the past several years. The controls proposed appear to be adequate to prevent misuse of the pesticide and prevent any serious short-term or long-term adverse environmental effects. The Fish and Wildlife Service of the U.S. Department of the Interior has reported that no endangered or threatened species occur within the proposed treatment area.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of meadow voles has occurred; (b) there is no pesticide presently registered likely to be efficacious and environmentally acceptable; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the meadow voles are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 31, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following additional provisions:

1. The dosage rate shall not exceed ten (10) pounds of the pelletized diphacinone bait (Ramik Brown, EPA Reg. No. 876-184AA) per acre (0.05 pounds A.I.);

2. The treated acreage shall not exceed 2,000 acres of apple orchards located in Addison, Bennington, and Windham counties;

3. The total actual diphacinone used shall not exceed one hundred (100) pounds;

4. Duration of the application will be from the end of apple harvest until the first snow in November;

5. Efficacy data will be obtained pursuant to registration of this use pattern of Ramik Brown under section 3 of the amended FIFRA;

6. The Applicant will establish liaison with the Vermont Department of Fish and Game pursuant to monitoring effects of the rodenticide on non-target species, especially secondary poisoning of scavenging mammals and raptors; and

7. The Applicant is reminded of the reporting requirement pursuant to § 166.5 of the amended FIFRA.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: December 19, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 472-5]

NATIONAL AIR QUALITY CRITERIA ADVISORY COMMITTEE OF THE SCIENCE ADVISORY BOARD

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the National Air Quality Criteria Advisory Committee of the Science Advisory Board will be held at 9:00 a.m. on January 22, 1976 in Conference Room A (Room 1112), Crystal Mall Building No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

The purpose of the meeting will be (1) to consult the committee on arsenic as an air pollutant; (2) to hear and discuss progress reports from committee review

groups which are reviewing the criteria documents for sulfur oxides, particulate matter, carbon monoxide, photochemical oxidants, hydrocarbons, and nitrogen oxides; (3) to brief the committee on and to discuss developments regarding a reference method for determination of nitrogen oxides; and (4) to brief the committee on and to discuss developments regarding calibration of oxidant measurement instruments. The Agenda will also include (5) brief reports and informational items of current interest to the members.

The meeting will be open to the public. Any member of the public wishing to attend or submit a paper should contact the Executive Secretary, Mr. Ernst Linde, Scientist Administrator, Science Advisory Board (A-101), U.S. Environmental Protection Agency, Washington, D.C. 20460.

The telephone number is (703) 557-7720.

THOMAS D. BATH,
Staff Director,
Science Advisory Board.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 763]

COMMON CARRIER SERVICES INFORMATION

Applications Accepted For Filing

DECEMBER 8, 1975.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (see § 309(c) of the Communications Act of 1934,) or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning any of these applications within 30 days of the date of this notice.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. [See § 1.227(b)(3) and 21.30(b) of the Commission's Rules.]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

BROADCAST SERVICE WORKING GROUPS 1979 WORLD ADMINISTRATIVE RADIO CONFERENCE

Schedule of Meetings

DECEMBER 19, 1975.

Pursuant to Public Law 92–463, notice is hereby given that five of the Broadcast Service Working Groups for the 1979 World Administrative Radio Conference will be held during the month of January 1976 as follows:

AM BROADCASTING SERVICE GROUP

Monday, January 19, 1976—10:30 a.m.–12:30 p.m., Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: D. C. Everist, FCC Liaison: Dennis Williams.

FM BROADCASTING SERVICE GROUP

Tuesday, January 13, 1976—1:30 p.m.–4:30 p.m., Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: Gary Hess, FCC Liaison: Hideyuki Noguchi.

TV BROADCASTING SERVICE GROUP

Wednesday, January 14, 1976—9:30 a.m.–12 Noon, Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: James D. Parker, FCC Liaison: Charles H. Breig.

BROADCAST AUXILIARY SERVICE GROUP

Wednesday, January 14, 1976—1:30 p.m.–4:30 p.m., Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: John Serafin, FCC Liaison: Al Jarratt.

BROADCAST SATELLITE SERVICE GROUP

Tuesday, January 27, 1976—9:30 a.m.–12 Noon, Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: E. E. Reinhart, FCC Liaison: Charles H. Breig.

The Agenda for each Service Group will be the same as follows:

1. Call to order and approval of Minutes of last meeting.
2. Approval of Agenda.
3. Reports from Task Groups.
4. Review of Spectrum Requirements.
5. New Matters for Consideration.
6. Next Meeting Date and Adjournment.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

BROADCAST BUREAU SERVICE GROUPS

Schedule of Meetings

DECEMBER 17, 1975.

Pursuant to Public Law 92–463, notice is hereby given of a meeting of a Broadcast Bureau Service Working Group for the 1979 World Administrative Radio Conference.

The meeting is as follows: *January 12, 1976.*

The International Broadcasting Service Group, Stanley Leinwoll, Chairman and Roger Legge, Vice-Chairman, will hold its second meeting at 1:00 p.m. on January 12, 1976, in Room A205, Federal Communications Commission, 1229 20th Street, N.W., Washington, D.C. The meeting will be open to broadcast industry representatives and interested members of the public. The agenda for the meeting is as follows:

1. Call to order by the Chairman.
2. Approval of the minutes of the October 21, 1975 meeting.
3. Election of a secretary.
4. Reports of the members, Technical subcommittee and election of a chairman.
5. Reports of the members, Present Usage subcommitee and election of a chairman.
6. Discussion of possible regional methods of communication between members, between plenary sessions of working group.
7. New Business.
8. Setting next meeting date and adjournment.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

COMMON CARRIER RELAY ADVISORY COMMITTEE

Meeting

DECEMBER 18, 1975.

The next meeting of the Common Carrier Radio Relay Advisory Committee, organized to prepare the 1979 World Administrative Radio Conference, will be held in Room 752, Federal Communicaheld on January 15, 1976 in Washington, D.C. The meeting will be tions Commission, 1919 M Street, NW. at 9:00 a.m. The agenda of the meeting is to: (1) review the progress of the five fact finding task forces, (2) discuss problems and approaches, (3) establish a schedule for completion of the various tasks, and (4) make recommendations for tentative changes in the Table of Frequency Allocations at this time for submission to the Steering Committee for its review by February 1, 1976.

All participants in the task forces are urged to attend. The meeting is open to the public.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75–34660 Filed 12–23–75;8:45 am]

JOINT INDUSTRY/GOVERNMENT COMMITTEE

1977 World Administrative Radio Conference For The Planning of The Broadcasting-Satellite Service in Frequency Bands 11.7–12.2 GHz (In Regions 2 and 3) and 11.7–12.5 GHz (In Region 1); Meetings

DECEMBER 19, 1975.

WORKING GROUP A (TERMINOLOGY AND DEFINITION

Tuesday, January 13, 1976—9:30 a.m.–12:30 p.m., Room 8009, 2025 "M" St., N.W., Washington, D.C.

Chairman: Mr. Richard O. Pullen, Common Carrier Bureau, FCC.

WORKING GROUP B (SHARING PRINCIPLES)

Wednesday, January 14, 1976—9:30 a.m.–12:30 p.m., Room 712A, 1800 "G" Street, N.W., Washington, D.C.

Chairman: Mr. Donald Jansky, Office of Telecommunications Policy.

WORKING GROUP C (SHARING CRITERIA)

Wednesday, January 14, 1976—1:30 p.m.–4:30 p.m., Room 712A, 1800 "G" Street, N.W., Washington, D.C.

Chairman: Mr. Edward E. Reinhart, Jet Propulsion Labs.

WORKING GROUP D (EVOLUTION OF REQUIREMENTS)

Tuesday, January 13, 1976—1:30 p.m.–4:30 p.m., Room 8009, 2025 "M" St., N.W. Washington, D.C.

Chairman: Mr. George W. Bartlett, National Association of Broadcasters.

WORKING GROUP E (INTERNATIONAL NON-TECHNICAL IMPLICATIONS)

Friday, January 16, 1976—1:00 p.m.–2:30 p.m., Room 752, 1919 "M" St., N.W., Washington, D.C.

Chairman: Mr. Harry R. Olsson, Jr., Columbia Broadcasting System, Inc.

WORKING GROUP F (PROCEDURES)

Wednesday, January 21, 1976—9:30 a.m.–12:30 p.m., Room 8009, 2025 "M" St., N.W., Washington, D.C.

Chairman: Mr. Donald Weiland, Office of Chief Engineer, FCC.

The Agenda for each Working Group meeting is essentially the same:

1. Approval of Minutes of previous meeting.
2. Review of Task Group Reports.
3. Establish date for final report from each Working Group which should be no later than the end of February.
4. Other business—need for further meetings and setting of those meeting dates.
5. Adjournment.

There will be a joint meeting of CCIR Study Groups 10/11 and 10/11 B on Thursday, January 15, 1976—Room A–110—1229 20th Street, N.W. (Annex to 1919 "M" St., N.W.), Washington, D.C.—9:30 a.m.–4:30 p.m.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

RADIO TECHNICAL COMMISSION FOR AERONAUTICS

Assumption of Sponsorship by the Federal Aviation Administration

Since the effective date of the Federal Advisory Committee Act (P.L. 92–463) in January, 1973, the Federal Communications Commission has served as the chartering agency of the Radio Technical Commission for Aeronautics (RTCA).

Effective January 2, 1976, the Federal Aviation Administration will assume sponsorship of the RTCA. Accordingly FEDERAL REGISTER notices for all RTCA Executive Committee and Special Committee meetings scheduled after this date will be included under the heading of the Federal Aviation Administration in the FEDERAL REGISTER's table of contents.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

WORLD ADMINISTRATIVE RADIO CONFERENCE (WARC) ADVISORY COMMITTEE FOR THE CITIZENS RADIO SERVICE

Notice of Establishment and Initial Meeting

In May 1975, the Federal Communications Commission established several advisory committees to assist in preparations for the 1979 General World Administrative Radio Conference (WARC) of the International Telecommunication Union. This agency has determined that establishment of an additional WARC preparatory committee, the WARC Advisory Committee for Citizens Radio Service, is necessary and in the public interest. Pursuant to the Federal Advisory Committee Act (P.L. 92–463), notice of establishment is hereby provided.

The WARC Advisory Committee for Citizens Radio Service will be responsible for the following tasks:

(1) Analyzing the present usage of frequencies available to the Citizens Radio Service;

(2) Examining possible future developments in the service and the impact of such developments on spectrum utilization;

(3) Preparing recommendations for future spectrum needs of the service to the year 2,000;

(4) Preparing detailed justifications for any recommendations developed.

The Federal Communications Commission has scheduled the first meeting of the WARC Advisory Committee for Citizens Radio Service for January 13–14, 1976. The meeting will take place in conference room 8210 of the Commission's offices at 2025 M Street, N.W., Washington, D.C. and will commence each day at 10:00 a.m. All individuals interested in participating in the work of this WARC preparatory committee are invited to attend.

The agenda for the January 13–14 meeting will be as follows:

Call of the Agenda
Opening Remarks by the Chairman
Task Force Responsibilities:
I. International CB Implications
II. CB Frequency Allocations
III. Future of CB
Formulation of Tentative Frequency Allocation Table
Planning and Discussion of Future Working Group Tasks and Meetings
Adjournment

Individuals interested in presenting either oral or written statements at the meeting are requested to contact Joseph Johnson, Chairman, Room 5114, 2025 M Street, N.W., Washington, D.C., telephone 202 632–7275.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL MARITIME COMMISSION

NORTH ATLANTIC DISCUSSION AGREEMENT

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 13, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Howard A. Levy, Esquire, Suite 727, 17 Battery Place, New York, New York 10004.

Agreement No. 9989-5 among the members of the above mentioned discussion agreement, is an agreement to (1) expand the scope to include the United Kingdom and the Republic of Ireland and (2) to extend the expiration date for eighteen months until August 8, 1977.

By order of the Federal Maritime Commission.

Dated: December 19, 1975.

FRANCIS C. HURNEY, *Secretary.*

SEAPORT SHIPPING CO., INC. (CALIFORNIA)

Order of Revocation

On December 10, 1975, Seaport Shipping Co., Inc. (California), One Embarcadero Center, San Francisco, California 94111 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 1332-R for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(b) (dated 6/30/75);

It is ordered, that Independent Ocean Freight Forwarder License No. 1332-R issued to Seaport Shipping Co., Inc. (California) be and is hereby revoked effective December 10, 1975, without prejudice to reapply for a license in the future.

It is further ordered, that a copy of this Order be published in the FEDERAL REGISTER and served upon Seaport Shipping Co., Inc. (California).

LEROY F. FULLER, *Director, Bureau of Certification & Licensing.*

FEDERAL POWER COMMISSION

[Docket No. RP75-88, CP69-41]

ALGONQUIN GAS TRANSMISSION CO.

Reduction in Demand Charge of Rate Schedule SNG-1

DECEMBER 16, 1975.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on December 9, 1975, tendered for filing the following tariff sheets of its FPC Gas Tariff, First Revised Volume No. 1:

Twelfth Revised Sheet No. 10
Original Sheet No. 10-A
Second Revised Sheet No. 19
First Revised Sheet No. 20-C
First Revised Sheet No. 25

Algonquin Gas states that these sheets are being filed to reduce the Demand Charge per Day under Rate Schedule SNG-1 from the currently effective $1.489 to $1.402 and to request authorization to make related refunds for the period November 1, 1975 to January 9, 1976, the proposed effective date of the above-mentioned tariff sheets. The additional changes in tariff sheets relate primarily to format changes. Algonquin Gas states that the reduction is being filed to reflect the Commission authorization granted by letter order in Docket No. CP69-41, issued November 13, 1975 which, *inter alia*, permitted Algonquin Gas to sell the remaining unsold capacity produced by the SNG plant of Algonquin Gas' wholly owned subsidiary, Algonquin SNG, Inc., to Philadelphia Electric Company, Pottsville Gas Company, *et al.* and South Jersey Gas Company in the manner specified by such letter order.

Algonquin Gas requests that the Commission accept for filing the above-mentioned tariff sheets to be effective January 9, 1976 (30 days after filing).

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34676 Filed 12-23-75;8:45 am]

[Docket No. CI64-686]

ASHLAND OIL, INC.

Notice of Application

DECEMBER 16, 1975.

Take notice that on November 19, 1975, Ashland Oil, Inc. (Applicant), P.O. Box 1503, Houston, Texas 77001, filed in Docket No. CI64-686 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon certain sales of natural gas for resale in interstate commerce to Arkansas Louisiana Gas Company (Arkla) because such sales are alleged to be uneconomical; all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests permission and approval to abandon the sales from the Erick Field, Becham County, Oklahoma, authorized in the instant docket to be made to Arkla pursuant to Applicant's FPC Gas Rate Schedule No. 160, because such sales are authorized to be made at 13.0 cents per Mcf at 14.65 psia at which rate, Applicant alleges, it is incurring a net loss. Applicant alleges that it will incur a net loss of $31,790 for the calendar year 1975.

Applicant further states that it filed for special relief in Docket No. RI75-121[1]; however, the Commission has not acted upon Applicant's request. Applicant states that it has been recommended by its regional office that operations should commence to plug and abandon 6 of the 10 producing wells connected to Applicant's Erick Field gathering system if no affirmative action by the Commission on the request for special relief is forthcoming within 30 days of the instant application.

It is indicated that in the period from August 1, 1974, through July 31, 1975, Applicant sold 183,766 Mcf of natural gas from the subject wells.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 9, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[1] Notice of application published in the FEDERAL REGISTER (40 FR 17159), April 7, 1975.

[Docket No. E-8302]

BANGOR HYDRO-ELECTRIC CO.

Order Approving Settlement and Terminating Proceeding

DECEMBER 16, 1975.

On July 1, 1973, Bangor Hydro-Electric Company (Bangor) tendered for filing a proposed initial rate schedule for a wheeling service whereby Bangor would wheel power from Maine Electric Company, Inc. and Maine Yankee Atomic Power Company across the Bangor system to Eastern Maine Electric Cooperative, Inc. (Eastern Maine). Bangor proposed to charge Eastern Maine a rate of $14 per kW per year and requested an effective date of January 1, 1973.

By letter dated August 2, 1973, Bangor was informed that its submittal was deficient. Bangor did not respond to the deficiency letter, nor did it respond to two subsequent letters of October 29, 1973 and August 16, 1974. On June 4, 1974, the Commission ordered a Section 206 investigation in the matter.

Consistent with the June 4, 1974, order, on June 19, 1975, Bangor submitted the additional material required to complete its filing. Also in accordance with the order, Bangor agreed to refund any revenues collected after January 1, 1973, which the Commission might find to be excessive under Bangor's wheeling rate. Bangor's June 19, 1975, supplemental filing was noticed on July 30, 1975.

On August 1, 1975, Eastern Maine Electric Cooperative, Inc. (Eastern Maine) filed a protest and petition to intervene. Permission to intervene was granted on September 3, 1975. By letter dated October 8, 1975, the Commission waived prior notice requirements and permitted the proposed $14/kW per year rate to become effective January 1, 1973, subject to refund.

On October 16, 1975, a hearing was convened. At the hearing Bangor and Eastern Maine stated that a settlement had been reached according to which the rate for the wheeling service was reduced from $14/kW per year to $11/kW per year, effective January 1, 1973.[1] By letter dated October 17, 1975, Bangor and Eastern Maine agreed that there would be a refund of the difference between the $14 rate and the $11 rate. The refund would apply to billings after January 1, 1973, and would be computed without interest.

The proposed settlement was certified to the Commission on October 21, 1975, and was noticed on November 10, 1975. On November 25, 1975, staff filed comments urging that the settlement be approved. No other comments were filed.

Our review of the proposed settlement, Staff's comments and the related record indicates that the settlement is a reasonable and appropriate resolution of the issues raised in this proceeding and that the public interest would be served by our acceptance and approval of the settlement. Bangor's cost of service[2] and capitalization[3] studies provide adequate support for the proposed wheeling rate.[4]

The Commission finds: The proposed settlement of the issues in this proceeding as certified to this Commission on October 21, 1975, is reasonable and proper and in the public interest in carrying out the provisions of the Federal Power Act. It accordingly should be approved as hereinafter ordered.

The Commission orders: (A) The proposed settlement certified to the Commission on October 21, 1975, is hereby approved and adopted as a settlement of the issues involved in this proceeding.

(B) The proposed settlement rate schedule is accepted for filing, and is designated as Supplement No. 3 to Rate Schedule FPC No. 26. Waiver of prior notice requirements is hereby granted and an effective date of January 1, 1973, is hereby assigned.

(C) Within thirty (30) days after the issuance of this order Bangor shall refund to Eastern Maine the revenues collected in excess of the amount which would have been billed at the settlement rate level for service subsequent to January 1, 1973, computed without interest.

(D) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, or any party or person affected by this order in any proceeding now pending or hereafter instituted by or against Bangor or any person or party.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[1] The proposed settlement rate schedule as designated "Revised Original Sheet No. 2".

[2] See Bangor's Statement M, Sheet 1-Revised, attached hereto as Appendix A.

[3] See Bangor's Statement G, attached hereto as Appendix B.

[4] Wheeling revenues in 1974 at the $14/kW per year rate amounted to $7,170, while total electric revenues were $20,545,994 for Bangor and $1,988,695 for Eastern Maine. At the $11/kW per year settlement rate, it is anticipated that wheeling revenues will remain less than $7,100 per year through September, 1976.

[Docket Nos. ER76-96, E-9364 and E-9366]

BOSTON EDISON CO.

Order Granting Untimely Petition To Intervene

DECEMBER 15, 1975.

On September 2, 1975, Boston Edison Company (Edison) tendered for filing as an initial rate schedule a Unit Power Agreement with New England Power Company (NEPCO) for sale of capacity and energy to NEPCO from Edison's Mystic Unit No. 7. Public notice of said filing was issued on September 10, 1975, with protests or petitions to intervene due on or before September 22, 1975.

By order issued October 20, 1975, the Commission accepted the proposed rate schedule for filing, instituted a Section 206 investigation and consolidated the investigation therein ordered with the proceedings in Docket Nos. E-9364 and E-9366 for purposes of hearing and decision.

On November 12, 1975, NEPCO filed an untimely petition to intervene. Our review indicates that NEPCO has a sufficient interest in this proceeding so as to warrant intervention.

The Commission finds: NEPCO's participation in this proceeding may be in the public interest.

The Commission orders: (A) NEPCO is hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* that participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* that the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The late intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34670 Filed 12-23-75;8:45 am]

[Project No. 1862]

CITY OF TACOMA, WASHINGTON

Notice of Petition

DECEMBER 16, 1975.

Public notice is hereby given that a pleading entitled "Petition for Rehearing, Reopening, Review or Such Other Relief as the Commission May Deem Proper" was filed December 24, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) on behalf of the Nisqually Indian Tribe (Petitioner) (Correspondence to: Arthur Knodel, Esq., 5505 20th Street East, Tacoma, Washington 98424) concerning the Second Nisqually Project No. 1862 licensed to the City of Tacoma, Washington. It is alleged in the petition that the project which was licensed on November 27, 1944, is located on lands of the Nisqually Indian Reservation.

The Petitioner alleges that there was no notification to Petitioner or the Commission at the time of licensing of the project that lands of the reservation were involved and that the project would appropriate the treaty rights to hunt and fish at all usual and accustomed grounds and stations. It is also claimed that Petitioner was not notified of Tacoma's application for license. Petitioner alleges that it has suffered extensive damage by the construction and operation of the project. The Petitioner requests that certain conditions be imposed which might include initial fees for use of lands and other property rights, an annual damage award, and the construction of fish facilities. Petitioner further requests that there be an increase in power rates to the customers of Tacoma in order to pay for and compensate Petitioner for rent, damages, and preservation of fish runs.

Tacoma was given the opportunity to respond to the petition and did so on March 3, 1975. Tacoma denies that Petitioner has any rights or interests in any lands within the project that were not taken legally. Tacoma states that its land acquisition program was made in good faith and that Petitioner's claimed interests in the land was not disclosed in a title search. Tacoma further denies that there has been any misappropriation, interference, or damages.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 7, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commissions' Rules of Practice and Procedure (18 CFR § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The petition is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. ER76-346]

DUKE POWER CO.

Notice of Filing

DECEMBER 16, 1975.

Take notice that on December 9, 1975, Duke Power Company ("the Company") tendered for filing a supplement to the Company's Electric Power Contract with York Electric Cooperative, Inc. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 146.

The Company tendered for filing the following documents:

Doc. No. 1	Exhibit A–5, Delivery Point No. 1, dated September 10, 1975.
Doc. No. 2	Exhibit A–5, Delivery Point No. 4, dated September 10, 1975.
Doc. No. 3	Exhibit A–4, Delivery Point No. 6, dated September 10, 1975.
Doc. No. 4	Exhibit A–2, Delivery Point No. 11, dated September 10, 1975.

The Company requests that these documents become effective on January 21, 1976.

The Company states that copies of the documents tendered for filing have been served on York Electric Cooperative, Inc., York, South Carolina.

The Company states that the four exhibit sheets submitted with this filing provide for the following increases in designated demand:

Delivery point	Exhibit	Kilowatt demand From	Kilowatt demand To
1	A–5	2,400	3,100
4	A–5	5,500	7,000
6	A–4	4,200	5,700
11	A–2	3,500	4,200

Metering capacity will be increased to provide service for Delivery Point No. 1. The Company states that its facilities are adequate to provide the service described herein to Delivery Points No. 4, 6, and 11.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. ER76-348]

DUKE POWER CO.

Notice of Filing

DECEMBER 16, 1975.

Take notice that on December 9, 1975, Duke Power Company ("the Company") tenedered for filing a supplement to the Company's Electric Power Contract with the City of Shelby, North Carolina. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 235.

Three documents are submitted with this filing. They are as follows:

Doc. No. 1	Exhibit A–1, Delivery Point No. 4 dated August 11, 1975.
Doc. No. 2	Exhibit A–1, Delivery Point No. 5 dated August 11, 1975.
Doc. No. 3	Exhibit A–1, Delivery Point No. 6 dated August 11, 1975.

The Company requests that these documents become effective on January 21, 1976.

The Company states that copies of the Exhibits have been served on the City of Shelby, North Carolina.

The Company states that the three exhibits provide for the following increases in capacity:

Delivery point	Exhibit	Kilowatt demand From	Kilowatt demand To
4	A–1	3,000	4,000
5	A–1	2,000	3,500
6	A–1	2,000	3,000

The Company further states that its facilities are adequate to provide the service described to Delivery Point No. 6. Larger transformers will be installed to serve Delivery Point No. 4 and the metering capacity will be increased to service Delivery Point No. 5.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-349]

DUKE POWER CO.

Notice of Filing

DECEMBER 16, 1975.

Take notice that on December 9, 1975, Duke Power Company ("the Company") tendered for filing a supplement to the Company's Electric Power Contract with Union Electric Membership Corporation. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 141.

The only document submitted with this filing is Exhibit A–2, Delivery Point No. 6 dated November 10, 1975. The Company requests that this document become effective on January 21, 1976.

The Company states that a copy of Exhibit A–2 has been served on Union Electric Membership Corporation, Monroe, North Carolina.

The Company states that Exhibit A–2 provides for an increase in demand from 2,000 KW to 4,000 KW made at the request of the customer. To provide service under this agreement, the Company states that it will install a step down substation to serve the customer.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Proceedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

DUKE POWER CO.

Notice of Filing

DECEMBER 16, 1975.

Take notice that on December 9, 1975, Duke Power Company ("the Company") tendered for filing a supplement to the Company's Electric Power Contract with Davidson Electric Membership Corporation. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 134.

The only document submitted with this filing is Exhibit A, Delivery Point No. 11 dated November 24, 1974. The Company requests that this document become effective on January 21, 1976.

The Company states that Exhibit A is a new point of delivery made at the request of the customer. To provide service under this agreement, the Company states that it will install a 100/12.47 KV substation to serve the customer.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make pro-

Secretary.

[FR Doc.75-34682 Filed 12-23-75;8:45 am]

[Docket No. RP75-107]

GRANITE STATES GAS TRANSMISSION, INC.

Order Rejecting Substitute Tariff Sheets Without Prejudice

DECEMBER 15, 1975.

On May 30, 1975, Granite State Gas Transmission, Inc. (Granite State) tendered for filing a revised tariff sheet[1] to its FPC Gas Tariff, Original Volume 1, seeking to increase its rates to its parent and sole jurisdictional customer[2] by $217,750 annually. By order issued June 18, 1975, we *inter alia*, accepted this revised sheet for filing and suspended its effectiveness for five months, or until December 1, 1975.

On November 18, 1975, Granite State filed a substitute revised tariff sheet[3] and a motion to place that sheet into effect on December 1, 1975, the end of the suspension period. Granite State's tariff sheet filed on November 18, 1975, is based on the cost classification, allocation, and rate design methodology adopted in *United Gas Pipe Line Company*, Opinion No. 671[4] instead of the *Atlantic Seaboard* method[5], upon which its original filing was based. Granite State requests waiver of Section 154.66 of the Commission's Regulations in order to modify its rates and requests waiver of the 30 day notice requirement in order to permit these rates to become effective December 1, 1975. We believe that the change requested is consistent with our policies with regard to cost classification, allocation, and rate design and that waiver of Section 154.66 of the Regulations should be granted. However, the effect of the revision to the cost classification and allocation method results in an increase in the claimed jurisdictional cost of service, which increase in suspended rates we can not permit. Accordingly, we shall reject the tendered tariff sheet without prejudice to Granite State's right to refile, within ten days of the issuance of this order, a revised tariff sheet based on its claimed cost of service in its filing of May 30, 1975, and the revised method of cost classification and rate design reflected in its November 18, filing which tariff sheet may be made effective December 1, 1975 provided an appropriate motion is filed seeking waiver of our regulations as necessary.

The Commission finds: Good cause exists to reject Granite State's November 18, 1975, filing or hereinafter ordered and conditioned.

The Commission orders: (A) Granite State's November 18, 1975, filing is rejected without prejudice to Granite State's right to refile, within ten days of the date of issuance of this order, a revised tariff sheet based on its claimed cost of service in its filing of May 30, 1975, and the revised method of cost classification and rate design reflected in its November 18, 1975, filing, which tariff sheet may be made effective December 1, 1975, subject to refund, and provided further than an appropriate motion is filed seeking waiver of our regulations as necessary.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-344]

HARTFORD ELECTRIC LIGHT CO.

Notice of Termination

DECEMBER 15, 1975.

Take notice that on December 8, 1975, The Hartford Electric Light Company ("the Company") tendered for filing a notice that effective May 31, 1974, Rate Schedule FPC No. HELCO 69, effective June 30, 1973, and filed with the Federal Power Commission by the Company, was terminated in accordance with its terms.

The Company states that notice of the proposed termination has been served upon Vermont Electric Power Company, Inc.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-109]

ILLINOIS POWER CO.

Supplemental Data To Interconnection Agreement Filing

DECEMBER 16, 1975.

Take notice that on December 4, 1975 Illinois Power Company (Company), tendered for filing additional data to supplement its September 8, 1975 filing of an Interconnection Agreement dated July 25, 1975 between Illinois Power Company and Western Illinois Power Cooperative, Inc.

Company states that the additional data is filed pursuant to the Commission Secretary's letter of October 3, 1975 informing Company that its filing of the Interconnection Agreement was deficient with respect to certain requirements of the Commission's regulations under the Federal Power Act and requesting Company to submit the required data.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. R174-188]

INDEPENDENT OIL & GAS ASSOCIATION OF WEST VIRGINIA

Certification of Proposed Settlement Agreement

DECEMBER 12, 1975.

Take notice that on December 3, 1975, the Presiding Administrative Law Judge certified to the Commission a proposed settlement agreement in the above referenced docket. The record of the proceeding was also certified for the Commission's use in reviewing the proposed settlement. The proposed settlement would resolve all outstanding issues. Attached to the settlement proposal is a motion requesting that the settlement proposal be certified to the Commission.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before December 31, 1975. Replies to comments are due on or before January 7, 1976. Comments and replies to comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[Docket Nos. RP75-98 and RP73-91]

McCULLOCH INTERSTATE GAS CORP.

Proposed Substitute Changes in Rates

DECEMBER 12, 1975.

Take notice that on December 8, 1975, McCulloch Interstate Gas Corporation ("McCulloch"), 10880 Wilshire Boulevard, Los Angeles, California 90024, tendered for filing Substitute Sixth Revised Sheet No. 32 in its FPC Gas Tariff, Original Volume No. 1, containing proposed changes in rates for effectiveness on November 1, 1975, in substitution for the rates initially filed in this Docket No. RP75-98 on April 30, 1975 and suspended by order issued herein on May 30, 1975 and in substitution for the rates filed in Docket No. RP73-91 on August 14, 1975 to reflect a purchased gas cost adjustment.

According to McCulloch, Substitute Sixth Revised Sheet No. 32 is submitted to adjust the rates originally filed in Docket No. RP75-98 to reflect a current cost of gas adjustment which became effective October 1, 1975, during the time the rates originally filed for were in suspension. The cost of purchased gas adjustment in the proposed filing herein amounts to a reduction in rates of approximately $168,785 annually.

According to McCulloch, copies of this filing were served upon all the parties to this proceeding and the regulatory Commission of the State of Wyoming.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commision's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34668 Filed 12-23-75;8:45 am]

[Docket No. RP75-20]

MISSISSIPPI RIVER TRANSMISSION CORP.

Filing of Stipulation and Agreement

DECEMBER 15, 1975.

Take notice that on December 8, 1975, Mississippi River Transmission Corporation (MRT) submitted for filing a proposed Stipulation and Agreement and a motion for Commission approval thereof. This Stipulation and Agreement was filed with the Commission following a hearing held on December 4, 1975, at which the previously filed direct evidence of both the Commission Staff and MRT, and the direct evidence of an intervenor, Laclede Gas Company (Laclede), was introduced into the record. At the hearing, it was agreed that since the evidence of Laclede had not previously been filed, such evidence would be promptly mailed to all parties; and it was announced that upon the filing of the Stipulation and Agreement with the Commission, the Presiding Administrative Law Judge would certify the record in these proceedings to the Commission as support for the proposed agreement. The proposed Stipulation and Agreement, if approved, will effectively resolve all issues arising in these proceedings.

Any person wishing to do so may submit written comments concerning the proposed Stipulation and Agreement. All such comments should be delivered or mailed to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before December 31, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34673 Filed 12-23-75;8:45 am]

[Docket No. RP71-127 (PGA 76-4)]

NATURAL GAS PIPELINE CO. OF AMERICA

PGA Filing To Track a Pipeline Supplier Rate Increase

DECEMBER 12, 1975.

Take notice that on December 1, 1975, Natural Gas Pipeline Company of America (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, the below listed tariff sheets, to be effective January 1, 1976:

Twenty-sixth Revised Sheet No. 5
First Revised Sheet No. 5A

Natural states that as explained below, alternate tariff sheets were also filed.

Natural states the filing was made pursuant to the provisions of Section 18, Purchased Gas Cost Adjustment, of the General Terms and Conditions of its FPC Gas Tariff, to track an increase in the cost of gas purchased, effective January 1, 1976, from United Gas Pipe Line Company, a pipeline supplier to Natural. Natural states that United's filing was made November 14, 1975 to be effective January 1, 1976 in accordance with the terms of its PGA Clause.

Natural states that it filed concurrently under separate cover a Motion to Make Substitute Tariff Sheets Effective in the Event of Stay in the proceedings at Docket No. RP75-108.

Natural states that for the reasons set out in that motion, alternate Base Rates reflecting the use of the unmodified *Seaboard* basis of cost allocation were filed to be effective December 1, 1975 in the event tariff sheets previously filed therein and utilizing the "United formula" method of cost allocation are stayed. Natural states that therefore, alternate tariff sheets reflecting Base Rate levels under the unmodified *Seaboard* basis were also submitted as part of the PGA unit adjustment filing. Natural states that both sets of tariff sheets submitted reflect the same PGA unit adjustment levels.

Natural states that as notice of the supplier filing was not received by Natural in time to permit it to meet the 45 day filing requirements of its PGA tariff provision, it requests that that provision be waived to permit Natural's PGA unit adjustment to become effective January 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34669 Filed 12-23-75;8:45 am]

[Docket No. RP75-81]

NORTH PENN GAS CO.

Order Granting Interventions, Establishing Procedures, Scheduling Pre-Hearing Conference Before An Administrative Law Judge and Providing For Hearing

DECEMBER 15, 1975.

On April 23, 1975, the Commission suspended the tariff sheets tendered by North Penn Gas Company (North Penn) and deferred their use until April 25, 1975, and until such time as they are made effective in the manner prescribed by the Natural Gas Act. Upon a motion by North Penn the tariff sheets were placed into effect on June 20, 1975, subject to refund.

The suspended tariff sheets were tendered by North Penn on March 24, 1975.[1] These sheets contain North Penn's proposed permanent curtailment plan which provides for curtailment of deliveries in the event of a force majeure situation, which is therein defined as including an inability of North Penn to obtain sufficient gas supplies to meet its customers' requirements. No curtailment procedure exists in the old tariff.

Public notice of the proposed plan was issued on April 15, 1975 with protests and petitions to intervene due on or before May 8, 1975. Timely petitions to intervene with requests for pre-hearing conference in the above mentioned docket were received from New York State Electric Gas Corporation and from Corning Natural Gas Corporation. A timely Notice of Intervention with request for pre-hearing conference was received from the Public Service Commission of the State of New York. The

[1] The tendered sheets are designated as First Revised Sheet No. 12 and Original Sheets No. 12A-12F.

V40I248 DEC 24 75 XUM

Pennsylvania Public Utilities Commission filed a timely Notice of Intervention.

In our order of April 23, 1975, we found that North Penn's tendered tariff sheets may be unlawful and consequently, we suspended the use of those sheets. We will now convene a hearing to resolve the issues involved in North Penn's tender. Additionally, we will convene a prehearing conference, as suggested by some of the above petitioners, for the purpose of expediting the resolution of the issues.

The Commission finds: (1) Participation in this proceeding by New York State Electric and Gas Corporation and Corning Natural Gas Corporation may be in the public interest.

(2) Good cause exists for convening a pre-hearing conference for the purpose stated heretofore, and setting the issues involved for hearing and establishing the procedures for such hearing all as hereinafter ordered.

The Commission orders: (A) The above-mentioned intervenors are permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however*, that participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene, and *Provided, further*, that the admission of intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing shall be held on January 22, 1976, at 10:00 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) The direct case of the Applicant herein and any supporting interveners shall be filed and served on all parties of record, including the Commission Staff on or before December 30, 1975.

(D) Pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure a pre-hearing conference shall be held on January 8, 1975 at 10:00 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(E) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for this purpose, shall preside at both the pre-hearing conference and the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34674 Filed 12-23-75;8:45 am]

[Docket No. RP73-69]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Order Denying Motion To Reopen Record

DECEMBER 15, 1975.

Transcontinental Gas Pipe Line Corporation (Transco) filed on November 4, 1975 a Motion to Reopen Record in the above-referenced proceeding. Transco's Motion is premised on its interpretation of Article IX of the Settlement Agreement in this docket, certified to the Commission on January 4, 1974, and its interpretation of *Transcontinental Gas Pipe Line Corporation* v. *F.P.C.*, No. 73-1626 (D.C. Cir. Sept. 2, 1975). Transco states that Article IX included in the settlement cost of service $4,447,964 for the unamortized portion of certain unrecoverable advance payments made by it, and provided that the inclusion was subject to final court review of "the merits of the propriety of rate base treatment thereof" or, should the determination not be on the merits, for reopening the record. Transco submits that the decision in *Transcontinental, supra*, "did not reach the *merits* of the propriety of rate base treatment of Transco's unrecoverable advance payments." Accordingly, Transco seeks to have the record reopened to determine the propriety of inclusion of these payments in rate base.

Based upon our review of Transco's Motion and the arguments raised therein, we have determined that Transco's Motion should be denied. Section IX of the Settlement Agreement certified in this proceeding provides that the advance payments amount included therein would be subject to "final court review on the merits of the propriety of rate base treatment thereof." We believe that the Court in *Transcontinental, supra*, did address the merits of including nonrecoverable advance payments, such as those provisionally included in the settlement cost of service, in rate base and, therefore, there is no necessity for reopening the record. As the Court stated the issue of this case, it did reach the merits of rate base treatment of unrecoverable advance payments.

The substantive issue raised by that application [Transco's filing for rehearing of *Order of Clarification and Denial of Rehearing on Modification*, issued February 27, 1973] and this appeal is whether the Commission's exclusion from rate base of nonrecoverable advances which are being amortized to cost of service as an expense is in violation of the Constitution and the Natural Gas Act. (Slip Op. at 1679)

Transco argued to the Court in *Transcontinental, supra*, that the "half a loaf" treatmet, which allows gradual recoupment of these nonrecoverable advance payments but requires the stockholders to absorb the carrying charges, was confiscatory. (Slip Op. at 1681) Thus it is clear that both the parties and the Court focused on the question of whether it is proper to allow nonrecoverable advance payments to excluded from rate base. The Court of Appeals indicated that the proper test for unconstitutional confiscation includes reviewing the situation before it in its entirety. Quoting from *F.P.C. v. Natural Gas Pipeline*, 315 U.S. 575, 586 (1942), The Court of Appeals set out the standards under which it reviewed our orders.

Once a fair hearing has been given, proper findings made and other statutory requirements satisfied, the courts cannot intervene in the absence of a *clear showing* that the limits of due process have been overstepped. If the Commissions' order, as applied to the facts before it and *viewed in its entirety*, produces no arbitrary result, our inquiry is at an end. (Slip, 1682, emphasis by the Court of Appeals.)

It would be contradictory for the Court to establish the "entirety" test as proper in this case and then bisect the accounting treatment from the rate treatment, as Transco in its Motion asserts the Court did. The Court looked not only at what accounting treatment we had given to nonrecoverable advance payments, but also at the rate making effect of that treatment.

In the instant case, Transco concedes that it will be compensated for the full amount of nonrecoverable advance payments since they may be amortized in cost-of-service and thus recovered through gross revenue. Nevertheless, Transco argues that the challenged accounting rule deprives it of compensation for the capital cost which it bears for working capital dedicated to advance payments which, though prudently made, have become unrecoverable.

We are satisfied that the Commission's treatment of the pipelines' interest-free loans cannot fairly be assailed as unreasonable to the pipelines. (Slip, 1683)

The Court is discussing the entire treatment, both accounting and rate, afforded these payments under our orders. Its decision that our treatment was not unreasonable, therefore, appears to us to have addressed the merits of the appropriateness of excluding unrecoverable advance payments from rate base.

Transco's final point on its Motion suggests that a general accounting rule as applied to specific proceedings can be reviewed only "on the basis of *findings made after a hearing.*" (Emphasis in Transco's Motion.) This is not in accordance with proper administrative procedure and law. What Transco suggests would lead to a situation in which a hearing would be required for every pipeline on every nonrecoverable advance payment made. This would defeat the entire purpose of the rulemaking procedure from which Order No. 465 and the Order of Clarification, issued February 27, 1973, resulted as well as unnecessarily clog our already overburdened administrative hearing system. It is well established that we may act by rulemaking or other means, such as area rate proceedings, to promulgate policy without being required

to hold an evidentiary hearing subsequently for each pipeline to test the applicability of the rule promulgated in their situations. E.g., *Permian Basin Area Rate Cases*, 390 U.S. 747 (1968); see generally, *Davis, Administrative Law.* (3rd Ed. 1972), Chapter 6.

We believe that Transco's Motion to Reopen Record must be denied. Article IX of the Settlement Agreement conditions the inclusion of $4,447,964 of nonrecoverable advance payments on "final court review on the merits of the propriety of rate base treatment" of that amount. We believe that the Court of Appeals did address the merits of including such nonrecoverable advance payments in rate base and that its affirmation of our Orders on this issue indicates that the exclusion of these amounts from rate base is just and reasonable. Accordingly, the conditions of Article IX have been met and no reason exists for reopening the record as requested by Transco. Pursuant to the provisions of Article IX, Transco shall refund the amount included in the settlement cost of service for the unamortized portion of certain unrecoverable advance payments made by it.

The Commission finds: Good cause exists to deny Transco's Motion to Reopen the Record.

The Commission orders: (A) Transco's Motion to Reopen Record is hereby denied.

(B) Transco is hereby ordered to make refunds in accordance with the provisions of Article IX of $4,447,964, the amount included in the Settlement Agreement in this docket for the unamortized portion of certain unrecoverable advance payments, within 60 days of the issuance of this order.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34675 Filed 12-23-75;8:45 am]

[Docket No. CP76-157]

UNITED GAS PIPE LINE CO.

Notice of Application

DECEMBER 16, 1975.

Take notice that on November 10, 1975, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-157 an application pursuant to Section 7(b) and (c) of the Natural Gas Act for permission and approval to abandon by sale to Arkansas Louisiana Gas Company (Arkla) certain pipeline, metering and regulating facilities in and around Shreveport and Bossier City, Louisiana, to abandon deliveries of natural gas directly to Atlas Processing Company (Atlas), and to abandon sales and deliveries of natural gas to Louisiana Gas Service Company (LGSC) for resale and for a certificate of public convenience and necessity authorizing the construction and operation of metering and regulating facilities for the dlivery of natural gas to Arkla for resale in and around Shreveport and Bossier City, for delivery of natural gas to Arkla for redelivery to Atlas and for the sale and delivery of natural gas to Arkla in lieu of LGSC, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests permission and approval to abandon by sale to Arkla approximately 57,222 feet of 16-inch pipeline, 110,378 feet of 12-inch pipeline, 14,956 feet of 10-inch pipeline, 76,623 feet of 8-inch pipeline, 1,122 feet of 4-inch pipeline, 173 feet of 2-inch pipeline, and related separating, measuring and regulating facilities, located in Bossier and Caddo Parishes, Louisiana. Applicant states that Shreveport and Bossier City have expanded since the time said facilities were constructed and that some portion of the facilities are now located within the cities. The expansion is said to have changed the function of the pipeline from transmission to distribution; and, therefore, Applicant proposes to sell the facilities to Arkla to be used as part of its distribution system. Applicant proposes to sell the system to Arkla for $1,000,000, and states that the depreciated original cost of the facilities will be $591,848 on June 30, 1976.

In order to continue the sale for resale and delivery of natural gas to Arkla, Applicant requests authorization to construct and operate a dual 10-inch orifice meter station near Blanchard in Caddo Parish and a dual 16-inch orifice meter station and appurtenant facilities on Barksdale Air Force Base in Bossier Parish. Applicant estimates that the cost of the proposed facilities would be approximately $144,705. It is stated that the construction of the two proposed meter stations would not change Applicant's present sales volumes or service to Arkla.

Applicant further states that it serves one direct industrial customer, Atlas, from the facilities proposed to be abandoned. Applicant alleges that it has presently before the Commission in Docket No. CP75-196 an application[1] for permission and approval to abandon service to Atlas because the sales agreement between Atlas and Applicant has expired and because Atlas uses such gas for a low priority end use (boiler fuel). Applicant states that Arkla has agreed to deliver up to 10,000 Mcf of natural gas per day to Atlas for Applicant without charge pending Commission action on the proposed abandonment.

Applicant states that it sells up to 400 Mcf of gas per day to LGSC from 401 farm taps along the pipeline and appurtenant facilities to be sold to Arkla in the Shreveport and Bossier City areas and along certain of Applicant's other transmission, field, and gathering lines in Bossier, Caddo, Claiborne, and Webster Parishes. Applicant states further that LGSC intends to sell the retail distribution facilities to Arkla connected to said farm taps and that Arkla intends to continue sales and distribution of natural gas from said facilities. Accordingly, Applicant proposes to transfer to Arkla 400 Mcf per day of LGSC's maximum daily quantity of gas by reducing by 73 Mcf per day the amount of gas available to LGSC at the town of Hall Summit, Louisiana, and by reducing by 327 Mcf per day the amount of gas available to LGSC at the town of Lisbon, Louisiana. Concurrently, Applicant proposes to amend its service agreement with Arkla covering Arkla's requirements in the communities of Cotton Valley, Farmerville, Sarepta, and Springhill, Louisiana, to increase the maximum daily quantity thereunder from 4,290 Mcf to 5,320 Mcf at the Sarepta-Springhill delivery point.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-34684 Filed 12-23-75;8:45 am]

[Docket No. E-8619]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Order Approving Settlement Agreement

DECEMBER 16, 1975.

On February 4, 1974, Wisconsin Electric Power Company (WE) and its

[1] Notice published in the FEDERAL REGISTER January 20, 1975 (40 FR 3262).

V401248 DEC 24 75 XUM

wholly-owned subsidiary Wisconsin Michigan Power Company (WM) (Applicants) tendered for filing a proposed revised rate schedule supplement covering service to twenty wholesale customers.[1] The filing proposed to effect a $3,018,000 increase in revenues from jurisdictional sales, based on a test period ending December 31, 1974. Applicants stated that this proposed revenue increase of 34.9 percent was necessary to yield their required rate of return of 8.46 percent.

By order issued April 19, 1974 the Commission accepted for filing and suspended for five months Applicants' rate filing, to become effective September 20, 1974, and set the matter for hearing. Three petitions to intervene were filed by the aforementioned cities[2] (Cities), the Upper Peninsula Power Company, and the Oconto Electric Cooperative and Alger Delta Cooperative on June 10, 1974. A third rural electric cooperative, Ontonagon County Rural Electrification Association, filed a protest on February 19, 1974.

A hearing was convened on July 8, 1975, following which negotiations were held leading to a proposed settlement agreement. On October 16, 1975, the presiding Administrative Law Judge William L. Ellis certified a proposed settlement agreement to the Commission. Notice of the certification was issued on October 24, 1975.

On October 31, 1975, the Staff filed comments pursuant to the notice of certification of the settlement proposal stating that as a result of its analysis of the agreement it concluded that the proposed settlement rates were justified. No other comments were received.

The settlement agreement[3] resolves all the contested issues among all the parties to the proceeding. Specifically, this agreement would reduce the revenue increase sought by the Applicants from $3,015,016 to $2,637,499, resulting in an overall return of 7.73% according to the settlement, based on a 1974 test period, and would eliminate a restriction on sale for further resale of energy furnished under the applicants' rate for wholesale service to large electric utilities. Under the Settlement Agreement, Applicants agree to file rate schedule revisions and to refund to their customers any amounts collected for service from September 20, 1974 in excess of amounts that would have been collected under the settlement rates, with seven (7) percent interest. Included in the agreement is a provision for a moratorium against any further rate increases to become effective prior to January 1, 1976.

Based on our consideration of the data and petitions submitted in this case[4] and Staff's comments thereon, we conclude that the Settlement rates proposed herein are justified.

The Commission finds: (1) The Settlement Proposal certified to the Commission by the presiding Administrative Law Judge William L. Ellis on October 16, 1975, in Docket No. E-8619 should be approved in its entirety.

The Commission orders: (A) The Settlement Proposal certified to the Commission by the Presiding Administrative Law Judge William L. Ellis on October 16, 1975, in Docket No. E-8619 is hereby approved in its entirety.

(B) Applicants shall be required within 30 days of the issuance of this order to file revised rates reflecting those rates contained in the settlement agreement and shall refund to its Customers any amounts collected for service from September 20, 1974, in excess of amounts that would have been collected under the settlement rates, with interest at seven (7) percent, pursuant to Article I of the attached Settlement Agreement. Upon the Commission's receipt of Applicant's statement of compliance with this order, Docket No. E-8619 shall terminate.

(C) This order is without prejudice to any findings of orders which have been made or will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, Applicants, or any party or person affected by this order, in any proceeding now pending or hereinafter instituted by or against Applicants or any other person or party.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

APPENDIX B

UNITED STATES OF AMERICA
BEFORE THE
FEDERAL POWER COMMISSION

[Docket No. E-8619]

Wisconsin Electric Power Co., Wisconsin Michigan Power Co.

Settlement Agreement

Introduction

This Settlement Agreement is made and entered into between Wisconsin Electric Power Company and its subsidiary Wisconsin Michigan Power Company ("Applicants") and their wholesale customers intervening in this proceeding ("Customers"), consisting of: (1) 16 municipals, the Cities and Villages of Clintonville, New London, Oconto Falls, Florence, Shawano, Cedarburg, Deerfield, Elkhorn, Hartford, Jefferson, Kiel, Lake Mills, Oconomowoc, Slinger, and Waterloo, Wisconsin, and Crystal Falls, Michigan; (2) two rural electric cooperatives, Oconto Electric Cooperative and Alger Delta Cooperative Electric Association; and (3) one investor-owned utility, Upper Peninsula Power Company. A third rural electric cooperative, Ontonagon County Rural Electrification Association, is not an intervenor in this proceeding.

This Settlement Agreement involves Applicants' joint filing of rates for service to Customers tendered on February 4, 1974, and effective subject to refund since September 20, 1974. Specifically:

1. Article I hereof provides for filing of the rate schedule revisions attached hereto as Appendix A. As shown on Appendix B hereto, the settlement rates would, based on the 1974 test period, reduce the revenue increase sought by Applicants from $3,015,016 to $2,637,499. The rate schedule revisions in Appendix A would also eliminate a restriction on resale for further resale of energy furnished under Applicants' rate for wholesale service to large electric utilities.

APPENDIX B

2. Article II provides for a moratorium against any further rate increase to become effective prior to January 1, 1976.

3. Article III provides that the Settlement Agreement resolves all issues between the Applicants and Customers arising from Applicants' filing.

This Settlement Agreement resulted from discussions between Applicants, Customers, and the Commission's staff held at various times in 1975. As a result of those discussions, but subject in every particular to the conditions set forth in this Settlement Agreement, including acceptance of this Settlement Agreement in its entirety and without change or condition by the Commission, and with the understanding that each term of the Settlement Agreement is in consideration and support of every other term, Applicants and Customers have agreed as follows:

Article I

Article 1.1: Upon the Commission's approval of this Settlement Agreement, Applicants will file the rate schedule revisions attached hereto as Appendix A.

Article 1.2: Applicants agree to refund to Customers any amounts collected for service from September 20, 1974 in excess of amounts that would have been collected under the settlement rates in Appendix A, with interest at seven percent.

Article II

Moratorium

Applicants agree that they will not increase their settlement rates prior to January 1, 1976. It is understood and agreed that Applicant may submit for filing a proposed rate increase and may request a proposed effective date prior to January 1, 1976, provided that Applicants request suspension of the proposed rates until January 1, 1976.

Article III

Full Settlement

Applicants and Customers agree that this Settlement Agreement is in full settlement of all issues arising from Applicants' filing in this docket.

Article IV

Settlement Cost of Service

It is agreed, for settlement purposes only, that the settlement rates are supported by the 1974 test year cost of service analysis presented in Appendix C hereto.

Article V

Conditions

Article 5.1: The making of this Settlement Agreement shall not be deemed in any respect to constitute an admission by Applicants or Customers that any allegation or contention in these proceedings, or as to any of the foregoing matters, is true and valid.

Article 5.2: The making of this Settlement Agreement establishes no principles and shall not be deemed to foreclose Applicants or Customers from making any contention in any proceeding or investigation, except for Applicants' commitments in Articles I and II.

Article 5.3: The acceptance of this Settlement Agreement by the Commission shall not in any respect constitute a determination by the Commission as to the merits of any allegations or contentions made in this rate proceeding.

Article 5.4: This Settlement Agreement is expressly conditioned upon the Commission's acceptance of all the provisions thereof, without change or condition, and upon the following further Commission actions:

(a) waiver of the requirements of Section 35.3 of its regulations under the Federal Power Act with respect to the filings provided for in Article I of this Settlement Agreement, to the extent necessary to effectuate all of the provisions hereof; and

(b) waiver by the Commission of the requirements of Section 35.13 of its regulations under the Federal Power Act with reapect to said filings; and

(c) acceptance of said filings without suspension under Section 205 of the Federal Power Act, effective as of the dates specified in said filings.

Article 5.5: The discussions which have produced this Settlement Agreement have been conducted on the explicit understanding, pursuant to Section 1.18(e) of the Commission's Rules of Practice and Procedure, that all offers of settlement and discussions relating thereto are and shall be privileged, shall be without prejudice to the position of any party or participant presenting any such offer or participating in any such discussion, and are not to be used in any manner in connection with this proceeding or otherwise. This Settlement Agreement is submitted on the condition that, in the event the Commission does not by order accept it in its entirety, this Settlement Agreement shall be deemed withdrawn and shall not constitute any part of the record in this proceeding or be used for any other purposes.

This Settlement Agreement is entered into in Madison, Wisconsin, this ____ day of _____, 1975 by and between Customers and Applicants, by their respective attorneys who represent that they are fully authorized to do so on behalf of their principals.

[Docket No. ER76-347]

DUKE POWER COMPANY

Notice of Filing

DECEMBER 16, 1975.

Take notice that on December 9, 1975, Duke Power Company ("the Company") tendered for filing a supplement to the Company's Electric Power Contract with the City of Seneca, South Carolina. This contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 263.

The only document submitted with this filing is Exhibit A-1, Delivery Point No. 1, dated September 10, 1975. The Company requests that this document become effective on January 21, 1976.

The Company states that a copy of this document has been served on Seneca Light and Water Plant, Seneca, South Carolina.

The Company states that Exhibit A-1 provides for an increase in contract demand from 12,000 KW to 16,000 KW made at the request of the customer. No new facilities have been installed to provide the service described in the Exhibit A-1.

[5] Aug. 13, 1975, data revised for new WMP loss data and corrected demand data.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-351]

IOWA POWER AND LIGHT COMPANY

Notice of Proposed Rate Changes

DECEMBER 16, 1975.

Take notice that Iowa Power and Light Company (Iowa Power) on December 9, 1975, tendered for filing the following rate schedules:

Service Schedule B to the Electric Interchange Agreement between Iowa Power and Light Company and the City of Ames, Iowa, filed to supersede Supplement No. 2 to Iowa Power Rate Schedule FPC No. 39;

Service Schedule D to the Electric Interchange Agreement between Iowa Power and Light Company and the City of Ames, Iowa, filed to supersede the original Service Schedule D in effect under Iowa Power Rate Schedule FPC No. 39; and

Third Amendment to the Electric Interchange Agreement between Iowa Power and Light Company and the City of Ames, Iowa, filed to supersede Supplement No. 1 to Iowa Power Rate Schedule FPC No. 39.

Iowa Power states that since no transactions under Service Schedules B and D have occurred within the last twelve months, and more are contemplated within the next twelve months, the proposed change will have no effect upon revenues from jurisdictional sales and service based on the twelve month period ending November 18, 1976.

Iowa Power further states that the proposed changes in rates charged under Service Schedules B and D were made for the purpose of bringing these rates into conformity with the rates being charged Iowa Power for similar services under the Mid Continent Area Power Pool (MAPP) Agreement to which Iowa Power is a party. The change in reserve requirements of the parties proposed by the Third Amendment was made for the purpose of bringing the City's reserve requirement up to the level which the MAPP Agreement requires Iowa Power to maintain.

Iowa Power requests the Commission waive the prior notice requirements of Section 35.13(a) of the Regulations and

[4] See Settlement Calculation of Revenue Requirement contained in Appendix C.

V401248 DEC 24 75 XUM

accept the filing with a retroactive effective date of November 18, 1975. Iowa Power states that copies of the filing have been served upon the City of Ames, Iowa, and the Iowa State Commerce Commission.

Any person desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 30, 1975.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-891]

KANSAS CITY POWER & LIGHT COMPANY

Notice of Filing of Supplemental Data

DECEMBER 17, 1975.

Take notice that on December 8, 1975, Kansas City Power & Light Company tendered supplemental data intended to make complete its original filing of August 25, 1975. This action is in response to a deficiency letter issued by the Secretary of the Federal Power Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34858 Filed 12-23-75;8:45 am]

[Docket No. ER76-332]

KANSAS POWER AND LIGHT COMPANY

Notice of Filing

DECEMBER 17, 1975.

Take notice that on December 5, 1975, the Kansas Power and Light Company (Kansas Power) tendered for filing an amendment to its Power Service Agreement with Ninnescah Rural Electric Coop Association, Inc. (Coop) dated September 21, 1973, designated Rate Schedule FPC No. 160. Kansas Power states that this proposed change will provide for increased capacity two present delivery points, the decreased capacity at one present delivery point, a new delivery point for the Coop at "New Belpre" with a maximum demand of 1500 KW at Phase 34.5 KV, and the deletion of the current Belpre delivery point.

Kansas Power states that the proposed changes are necessary to provide for more efficient service to customers of the Coop in order to meet the coming summer peak load.

Kansas Power states that copies of this filing have been mailed to the Coop and the Kansas State Corporation Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-302]

SOUTHERN SERVICES, INC.

Notice of Filing of Amendment To Interchange Agreement

DECEMBER 17, 1975.

Take notice that on November 28, 1975, Southern Services, Inc. on its own behalf and on behalf of Alabama Power Company, Georgia Power Company, Gulf Power Company, and Mississippi Power Company, filed an amendment to the interchange agreement among them dated October 16, 1950, as amended. The proposed amendment is requested to be made effective as of January 1, 1976.

In its letter of transmittal, Southern Services states that anual changes are required in the existing interchange agreement so as to reflect the best and most currently available information with regard to the following items:

1. Amount and location of additional generating capacity being provided.
2. Estimates of company and system loads.
3. Basic costs of deficit plants.
4. Revisions in demonstrated capabilities and economies of existing generating units.
5. Variations associated with differences in generating availability.
6. Routine additions and changes in equalization charges for transmission.

The present filing is being made in accordance with above-described policy of updating the interchange agreement on an annual basis. The transmittal letter states that no changes are proposed in the fixed charge rates currently in effect under the existing interchange agreement.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before December 30, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Southern Services' filing is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,

[Docket No. E-9145]

UTAH POWER & LIGHT COMPANY

Notice of Filing of Settlement Agreement

DECEMBER 17, 1975.

Take notice that on December 8, 1975, the Utah Power & Light Company (Utah) tendered for filing a stttlement agreement in the above-referenced docket which is intended to resolve all issues in this proceeding, with the exception of a rate design question raised by Lincoln Service Corporation, a jurisdictional customer, which question is currently pending negotiations.

Utah states that copies of the agreement have been sent to all intervenors and other jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-331]

WISCONSIN POWER AND LIGHT COMPANY

Notice of Tariff Change

DECEMBER 17, 1975.

Take notice that Wisconsin Power and Light Company, on December 4, 1975, tendered for filing proposed changes in its W-2 and W-3 Electric Service Tariffs, Wholesale For Resale. The proposed changes would increase revenues from W-2 Customers by $524,537 and from W-3 Customers by $2,598,510 based on the 12-month period ending December 31, 1976.

Wisconsin Power and Light Company states that the proposed rate increase is necessary to meet rising financial and operating costs. The proposed effective date of the rates contained in the filing is January 1, 1976.

Copies of the filing were served upon the public utility's jurisdictional customers, and the Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34862 Filed 12-23-75;8:45 am]

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

NOTICE OF COMMITTEE MEETINGS

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, January 8, 1976.
Thursday, January 15, 1976.
Thursday, January 22, 1976.
Thursday, January 29, 1976.

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street, NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Public Law 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issues related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street, NW., Washington, D.C. 20415.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

DECEMBER 11, 1975.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Notice of Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 16, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed CAB and FMC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before January 12, 1976, and should be addressed to Mr. Carl F. Bogar, Assistant Director, Office of Special Programs, United States General Accounting Office, Room 5216, 425 I Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

CIVIL AERONAUTICS BOARD

Request has been submitted for extension no change of the record-retention requirements in Part 373—Study Group Charters by Direct Air Carriers and Study Group Charterers, and Part 378—inclusive Tour Charters. The objectives of these requirements are to (1) ensure that study group charterers and tour operators conduct their programs in accordance with the regulations in Parts 373 and 378 and (2) provide the Board with information concerning the revenue and passenger traffic generated by tour and study group operations. These retention requirements are mandatory under the Federal Aviation Act.

FEDERAL MARITIME COMMISSION

Request for extension without change of the Commission's General Order 18 (46 CFR 537), "Conference Agreement Provisions Relating to Concerted Activities." This rule requires that parties to agreements approved under Section 15 of the Shipping Act, 1916, file with the Commission reports of all meetings of the conference or parties to the agreement. Respondent burden is estimated to be 2 hours per response with total annual responses estimated at 2,000 reports.

NORMAN F. HEYL,
Regulatory Reports, Review Officer.

[FR Doc.75-34651 Filed 12-23-75;8:45 am]

V 401248 DEC 24 75 XUM

GENERAL SERVICES ADMINISTRATION

Federal Preparedness Agency

RADIOLOGICAL INCIDENT EMERGENCY RESPONSE PLANNING; FIXED FACILITIES AND TRANSPORTATION

Interagency Responsibilities

This notice is issued by the Federal Preparedness Agency, General Services Administration (GSA), to provide full public information concerning the general course and method by which certain radiological incident emergency response planning responsibilities are channeled and determined (5 USC 552(a)(1)(B)). It supersedes the FEDERAL REGISTER notice of January 24, 1973 (38 FR 2356), published by the Office of Emergency Preparedness.

Purpose. To state the responsibilities as agreed between certain Federal agencies for radiological emergency response planning covering fixed nuclear facilities and transportation incidents involving radioactive materials and for providing coordinated Federal assistance to State and local governments in their emergency response planning related to such incidents. Policy and planning guidance to Federal agencies for assistance to States will be directed toward those incidents whose effects extend beyond the boundaries of the facility or site or the immediate area of an incident involving the transportation of radioactive material. It is intended that the plans and arrangements developed by Federal agencies and by the States for responding to the contingencies set forth in this notice will be encompassed subsequently in Federal and State planning documents which provide for the full spectrum of peacetime nuclear emergencies. It is also intended that this Statement of Responsibilities will provide a continuing stimulus to State and local government emergency planning for responding to radiological incidents.

Background—Formal statement of the roles of the Federal departments and agencies, as set forth in this notice, is made pursuant to Executive Orders 11051 and 11490 and in connection with the responsibility of the Federal Preparedness Agency to stimulate vigorous State and local participation in emergency preparedness measures and in achieving a coordinated working relationship between the various elements of State governments and the Federal agencies to which specific emergency preparedness functions have been assigned. While there is substantial assurance of an exceedingly low probability of incidents involving radioactive materials in fixed nuclear facilities and in the transportation of those materials, the anticipated proliferation of nuclear power plants and materials in the near future requires early consideration of this problem and adequate emergency planning for such contingencies. At the Federal level, several agencies are cooperating to lend assistance to State and local governments in developing emergency plans for fixed nuclear facilities and the transportation of nuclear materials. Current planning activities are taking place at all levels of government, as well as in private industry.

Responsibilities. The Nuclear Regulatory Commission (NRC) is the lead agency in radiological incident emergency response planning, training and other assistance activities covered in this notice. The Federal Preparedness Agency, GSA, exercises general monitorship of these activities. Responsibilities of NRC, the Federal Preparedness Agency, GSA, and other Federal agencies are detailed below.

The Nuclear Regulatory Commission (NRC) is responsible for:

1. Issuance of guidance to other Federal agencies concerning their responsibilities and authorities in radiological incident emergency response planning and in providing planning assistance to State and local governments.

2. Development and promulgation of guidance to State and local governments in coordination with other Federal agencies for the preparation of radiological emergency response plans.

3. Review and concurrence in such plans. (Proper correlation among State, local government, licensee, and national plans is an element of this review.)

4. Determination of the accident potential at each licensed fixed nuclear facility.

5. Issuance of guidance for establishment of effective systems of emergency radiation detection and measurement.

The Environmental Protection Agency (EPA) is responsible for:

1. Establishment of Protection Action Guides (PAG) in coordination with appropriate Federal agencies. These guides will be in terms of projected radiation doses which might result from radiological incidents at fixed nuclear facilities or in the transportation of radioactive materials.

2. Recommendations as to appropriate protective actions which can be taken by governmental authorities to ameliorate the consequences of a radiological incident at a fixed nuclear facility or from an incident involving transportation of radioactive materials.

3. Providing assistance, following the guidance issued by NRC, to State agencies with radiological emergency response responsibilities in the development of their emergency plans relative to nuclear facilities and transportation incidents involving radioactive materials.

4. The establishment of emergency radiation detection and measurement systems guidelines in cooperation with NRC.

The Energy Research and Development Administration (ERDA) is responsible for:

1. Providing guidance, consistent with NRC guidance, to State and local governments on the development of that portion of their radiological incident emergency response planning which is related to ERDA-managed and operated facilities and ERDA-controlled radioactive materials in transit to assure that: (a) State and local planning are coordinated with ERDA and ERDA contractor radiological incident response planning; and (b) State and local response capabilities and resources are fully coordinated with ERDA to mitigate the offsite consequences of radiological incidents.

2. Cooperation with the involved Federal agencies in the development and implementation of radiological emergency response planning assistance for State and local governments, consistent with NRC guidance.

3. Determination of the accident potential at each non-licensed ERDA fixed nuclear facility.

4. Assisting other agencies in the development and establishment of guidelines on effective systems of emergency radiation detection and measurement, including instrumentation, for State and local governments, in cooperation with NRC.

The Department of Health, Education, and Welfare (DHEW) is responsible for:

1. Assisting State health departments, State hospital associations, and other professional organizations and ambulance services in the development of plans for the prevention of adverse effects from exposure to radiation, including the use of prophylactic drugs to reduce radiation dose to specific organs. This includes health and medical care responses to radiological incidents, consistent with guidelines issued by NRC.

2. Issuance of guidance on appropriate planning actions necessary for evaluating and preventing radioactive contamination of foods and animal feeds, and the control and use of such products should they become contaminated.

3. Issuance of guidance on emergency radiation doses related to the health and safety of ambulance services, hospital, and other health care personnel, in cooperation with EPA.

4. Establishing and issuing guidelines for radiation detection and measurement systems for use by ambulance services and hospital emergency departments, in cooperation with NRC.

The Department of Transportation (DOT) is responsible for:

1. Providing guidelines, in cooperation with NRC and other Federal agencies, and consistent with NRC guidance, for the development of that portion of State and local emergency plans pertaining to transportation incidents involving radioactive materials as described in the Purpose portion of this statement.

2. Assistance to State and local governments in emergency planning for such transportation incidents.

The Defense Civil Preparedness Agency (DCPA) is responsible for:

1. Assistance to State and local authorities in planning the emergency preparedness actions required to provide the mechanism for coordinating emergency operations in response to radiological incidents, consistent with NRC guidance.

2. Issuance of guidance on the use of civil defense resources including warning, communications, training, and radiological defense emergency response systems.

Federal Disaster Assistance Administration (FDAA) of the Department of Housing and Urban Development is responsible for:

1. Providing guidance to State and local authorities on the disaster preparedness aspects of State emergency planning for fixed nuclear facilities and transportation incidents involving radioactive materials, consistent with NRC guidance, for the preparation of radiological emergency response plans.

2. Recommendations to NRC as to appropriate planning actions necessary for evaluation and review of State and local planning activities developed under this notice.

The Federal Preparedness Agency (FPA), GSA, will exercise general monitorship of Federal radiological emergency response planning and training activities related to this notice. Specifically, FPA responsibilities include:

1. Review and endorsement of NRC guidance to other Federal agencies and NRC guidance and planning assistance to State and local governments.

2. Assistance in resolving Federal interagency or Federal-State problems when necessary to the fulfillment of the responsibilities to Federal agencies in this notice.

3. Encouragement of States to produce plans related to this notice as part of their general State emergency planning.

4. Assistance to NRC, ERDA and DOT in developing priorities, when required, for providing this planning assistance to State and local governments.

5. Facilitating State and local contracts for NRC, ERDA and DOT.

6. Maintaining an overview of planning activities and providing policy and planning guidance when required.

Participating Federal agencies will support the development and conduct of emergency response preparedness programs, to include training, consistent with their respective responsibilities.

Other Federal agencies will be involved in specific instances of radiological incident emergency response planning participation and assistance in accordance with their basic responsibilities and functions. Details of such participation as part of the coordinated Federal effort will be a development of each localized planning activity.

Dated: December 10, 1975.

LESLIE W. BRAY, JR.,
Director, Federal Preparedness Agency, General Services Administration.

[FR Doc.75-34638 Filed 12-23-75;8:45 am]

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

APPLICATIONS FOR RENEWAL PERMITS, ELECTRIC FACE EQUIPMENT STANDARD

Notice of Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

(1) ICP Docket No. 4197-000, HOBBS BROS. COAL COMPANY, INC., Mine No. 7, Mine ID No. 44 02705 0, Whitewood, Virginia 24657. ICP Permit No. 4197-005—R-3 (Stacy Spinner Loading Machine, I.D. No. S-SB-EH-HB-1), ICP Permit No. 4197-009—R-3 (Goodman 212 Cutting Machine, I.D. No. G-212-HB-2-7).

(2) ICP Docket No. 4225-000, MARY E COAL COMPANY, INC., Mine No. 2, Mine ID No. 44 00526 0, Whitewood, Virginia, ICP Permit No. 4225-012—R-3 (Stacy's Spinner Loading Machine, I.D. No. S-SWB-ME-3), ICP Permit No. 4225-013—R-3 (Stacy's Spinner Loading Machine, I.D. No. S-SB-EH-ME-2), ICP Permit No. 4225-016—R-3 (Royal Cutting Machine, I.D. No. R-ME-1), ICP Permit No. 4225-017—R-3 (Goodman 212 Cutting Machine, I.D. No. G-212-ME-3).

In accordance with the provisions of Section 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

C. DONALD NAGLE,
Acting Chairman, Interim Compliance Panel.

DECEMBER 19, 1975.

NATIONAL SCIENCE FOUNDATION

AD HOC ADVISORY COMMITTEE ON THE SACRAMENTO PEAK OBSERVATORY

Notice of Establishment

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), it is hereby determined that the establishment of the Ad Hoc Advisory Committee on the Sacramento Peak Observatory (SPO) is necessary, appropriate, and in the public interest in connection with the performance of the duties imposed upon the Director, National Science Foundation (NSF) by the National Science Foundation Act of 1950, as amended, and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to Section 9(a)(2) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

1. *Name of Group.* Ad Hoc Advisory Committee on the Sacramento Peak Observatory.

2. *Purpose.* The purpose of the Ad Hoc Advisory Committee on the Sacramento Peak Observatory is to review the research activities at SPO. The committee is to examine and assess the scientific priority of SPO research in relation to other Federal support for astronomical research. The results of the assessment will be presented to the Director of the National Science Foundation through the Assistant Director for Atronomical, Atmospheric, Earth, and Ocean Sciences.

3. *Effective Date of Establishment and Duration.* The establishment of the Ad Hoc Advisory Committee on the Sacramento Peak Observatory is effective upon filing of the charter with the Director, NSF, and with the standing committees of Congress having legislative jurisdiction of the National Science Foundation. The Ad Hoc Advisory Committee on the Sacramento Peak Observatory will continue for two months from the effective date.

4. *Membership.* The membership of the Ad Hoc Advisory Committee on the Sacramento Peak Observatory shall be fairly balanced in the terms of the points of view represented and the group's function. Membership of the Ad Hoc Advisory Committee on the Sacramento Peak Observatory will consist of several individuals selected from the scientific and academic communities. The membership will be from the astronomical community and will represent all major geographical areas in the United States.

5. *Advisory Group Operation.* The Ad Hoc Advisory Committee on the Sacramento Peak Observatory will operate in accordance with provisions of the Federal Advisory Committee Act (P.L. 92-463), Foundation policy and procedures, OMB Circular No. A-63, Revised, and other directives and instructions issued in implementation of the Act.

H. GUYFORD STEVER,
Director.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-528, STN 50-529 and STN 50-530]

ARIZONA PUBLIC SERVICE COMPANY, ET AL.

Hearing on Application for Construction Permits

A Notice of Hearing on Application for Construction Permits was published in the FEDERAL REGISTER on October 22, 1974 concerning the application of Arizona Public Service Company, Salt River Project Agricultural Improvement and Power District, Tucson Gas and Electric Company, El Paso Electric Company, Public Service Company of New Mexico, and Arizona Electric Power Cooperative, Inc. to construct the Palo Verde Nuclear Generating Station, Units 1, 2, and 3 (the facilities) at a site in Maricopa County, Arizona, about 15 miles west of Buckeye and 36 miles west of Phoenix (39 F.R. 37528). The Tucson Gas and Electric Company has since withdrawn as a joint applicant and has been replaced by the Southern California Edison Company.

As a result of Southern California Edison Company's replacement of Tucson Gas and Electric Company as a joint applicant, the Atomic Safety and Licensing

V401248 DEC 24 75 XUM

Board (Board) on behalf of the Nuclear Regulatory Commission (Commission) is hereby issuing an Amended Notice of Hearing on Application for Construction Permits for the facilities. This amended notice does not alter or expand the issues set forth in the initial Notice of Hearing for consideration. By this Amended Notice the Commission is, however, affording any person whose interest may be affected by Southern California Edison Company's entrance as a joint applicant the opportunity to participate in this proceeding.

Any person whose interest may be affected by Southern California Edison Company's entrance as a joint applicant and who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714. A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights of the applicants to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

A petition for leave to intervene must be filed with the Secretary of the Commission and others as specified below by January 24, 1976. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR § 2.714(a) (1)–(4) and § 2.714(d).

Any person who does not wish, or is not qualified, to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715. A person making a limited appearance may make an oral or written statement on the record. He does not become a party, but may state his position and raise questions which he would like answered to the extent that the questions are within the scope of the issues set forth in the original Notice of Hearing. Limited appearances will be permitted at the time of the hearing at the discretion of the Board, within such limits and on such conditions as may be fixed by the Board.

Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission and others by January 24, 1976.

Papers required to be filed in this proceeding shall be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR § 2.708, an original and twenty (20) conformed copies of each such paper with the Commission. A copy of the petition or request for limited appearance should also be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Arthur C. Gehr, Snell & Wilmer, 3100 Valley Center, Phoenix, Arizona 85073, attorney for the applicant.

For further details, see Supplement 6 to the applicant's environmental report (covering issues raised by Southern California Edison Company's entrance as a joint applicant), dated October 10, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., between the hours of 8:30 a.m. and 5:00 p.m. on weekdays. A copy of this document is also available at the Phoenix Public Library, 12 East McDowell Road, Phoenix, Arizona 85004, for inspection by members of the public between the hours of 10 a.m. and 9 p.m. Monday through Thursday, 9 a.m. and 6 p.m. on Friday and Saturday, and 2 p.m. and 6 p.m. on Sunday.

Dated at Bethesda, Maryland this 18th day of December, 1975.

For the Atomic Safety and Licensing Board.

HUGH K. CLARK,
Chairman.

[FR Doc.75-34763 Filed 12-23-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Meeting

In accordance with the purposes of Sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards will hold a meeting on January 8–10, 1976, in Room 1046, 1717 H Street, NW, Washington, DC.

The agenda for the subject meeting will be as follows:

Thursday, January 8, 1976

8:30 am–9:45 am: Executive Session (Closed)—The Committee will meet in closed executive session to discuss opinions and exchange recommendations of individual members related to the nomination of candidates for appointment to the Committee. The Committee will also discuss the evaluation of the ACRS Subcommittee and the comments and recommendations of individual members and consultants who may be present regarding matters to be considered during the following open meeting to consider proposed design changes for light water reactors to accommodate Anticipated Transients Without Scram (ATWS).

9:45 am–12:45 pm and 1:45 pm–2:45 pm: Anticipated Transients Without Scram—Proposed LWR Plant Changes (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC Staff and the Westinghouse Electric Corp., the General Electric Co., the Babcock & Wilcox Co., and Combustion Engineering, Inc. Portions of this session will be closed as required to discuss proprietary information related to the proposed design changes.

2:45 p.m.–6:30 p.m.: Executive Session (Closed)—The Committee will meet in closed executive session to exchange the opinions and recommendations of individual members regarding preparation of final advice to the Nuclear Regulatory Commission with respect to the Koshkonong Nuclear Power Plant, Safeguarding of Special Nuclear Material, the Safety Design Basis for Fast Reactors and Long-Term Storage/Disposal of Radioactive Wastes. The members will also exchange views, opinions and recommendations regarding activities of ACRS Subcommittees on generic matters.

Friday, January 9, 1976

8:30 a.m.–9:30 a.m.: Executive Session (Closed)—The Committee will meet with the Executive Director for Operations to discuss proposed staff policy regarding the design of nuclear plants to preclude sabotage. The Committee will meet with the Director, Nuclear Material Safety and Safeguards, to discuss preliminary results and tentative conclusions of studies to establish NRC policy regarding safeguards for special nuclear material.

9:30 am–1:30 pm: Meeting with NRC Staff (Open)—The Committee will hear presentations by and hold discussions with members of the NRC Staff regarding the anticipated schedule for future ACRS meetings, and recent operating experience and licensing actions. The Staff will also present specific reports regarding several generic matters including:

Use of additives in containment spray systems.

Evaluation of core peaking factors.

Main steam line isolation valve leakage control systems and seismic design of main steam lines.

Status of the high temperature gas cooled reactor program.

Status of the Clinch River breeder reactor review.

2:30 p.m.–6:30 p.m. Executive Session (Closed)—The Committee will meet in closed executive session to exchange the views, opinions and recommendations of individual members regarding proposed ACRS reports, providing final advice to the Commission, on the status of generic items related to light water reactors, the scope of the ACRS review process and its relationship to the membership needs of the Committee, ACRS comments on proposed plant changes to accommodate ATWS.

Saturday, January 10, 1976

8:30 a.m.–12:30 p.m.: Executive Session (Closed)—The Committee will meet in closed Executive Session to exchange the advice, opinions and recommendations of individual members regarding proposed ACRS review of BWR pipe cracking, candidates for appointment to the Committee, proposed Regulatory Guide 1.96, "Design of Main Steam Line Isolation Valve Leakages Control Systems for Boiling Water Reactor Nuclear Power Plants," and to complete preparation of ACRS reports noted earlier.

I have determined in accordance with Subsection 10(d) of Public Law 92-463 that it is necessary to close portions of the meeting as noted above to protect proprietary data (5 U.S.C. 552(b)(4)), to protect the free exchange of opinion during the Committee's deliberative process (5 U.S.C. 552(b)(5)), and to preclude unwarranted invasion of privacy (5 U.S.C. 552(b)(6)). These closed sessions will consist primarily of deliberative discussion among the Committee members leading to the formulation of advice and recommendations to the Nuclear Regulatory Commission. Separation of factual information from the individual advice, opinion or recommendations of ACRS members and consultants during this discussion is not considered practical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing a readily reproducible copy to the Committee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview. Persons desiring to mail written comments may do so by mailing a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than December 31, 1975, to the Executive Director, Advisory Committee on Reactor Safeguards, Nuclear Regulatory Commission, Washington, D.C. 20555 will normally be received in time to be considered at this meeting. Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the following Public Document Rooms:

Koshkonong Nuclear Power Plant

1. Dwight-Foster Public Library, P.O. Box 88, Fort Atkinson, WI 53538
2. Municipal Reference Service, Room 103–B, Madison Public Library, Madison, WI 53709

(b) Those persons wishing to make oral statements regarding agenda items at the meeting should make a request to do so prior to the meeting, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements in safety related areas within the Committee's purview at an appropriate time chosen by the Chairman of the Committee.

(c) Further information regarding topics to be discussed, whether the meeting or portions of the meeting have been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor, can be obtained by a prepaid telephone call on January 7, 1976, to the Office of the Executive Director of the Committee (Telephone: 202–634–1371) between 8:15 AM and 5:00 PM, Eastern Time. It should be noted that the schedule noted above is tentative, based on the anticipated availability of related information, etc. It may be necessary to reschedule items to accommodate required changes. The ACRS Executive Director will be prepared to describe these changes on January 7, 1976.

(d) Questions may be propounded only by members of the Committee and its consultants.

(e) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information other than plant security information may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least 3 days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of this agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be required to identify the specific agreement involved. A copy of the executed agreement should be provided to the Executive Director at the beginning of the meeting.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. Copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., on or after April 9, 1976. Copies may be obtained upon payment of appropriate charges.

Dated: December 22, 1975.

JOHN C. HOYLE,
Advisory Committee Management Officer.

MIXED OXIDE FUEL

Scope, Procedures and Schedule for Generic Environmental Impact Statement and Criteria for Interim Licensing Actions

In FR Doc. 75-30771, appearing at pages 53056-53063 in the issue for Friday, November 14, 1975, corrections are made as follows:

Page 53057, 1st column, line 17: Insert the word "programs" for the sentence to read "* * * as to safeguards programs associated with * * *"

Page 53057, 3rd column, 2nd paragraph: The paragraph should read as follows: "The Appendix to this Notice sets forth, in sequential manner, the projected times for completion of the draft and final environmental impact statements; for publication of safeguards rules relating to interim licensing and rules regarding wide-scale use of mixed oxide fuel; for issuance of notice of hearing; and for the final Commission decision on wide-scale use."

Page 53059, 1st column, 2nd full paragraph, line 5: Delete the comma between "spent" and "fuel".

Page 53059, 1st column, 2nd full paragraph, next to last line: For factual accuracy, insert the phrase "at reduced cost" between "plutonium" and "for" so as to read, ". . . AEC supplied plutonium at reduced cost for demonstration . . ."

Page 53059, 3rd column, 2nd full paragraph, line 16: To assist in clarifying the status of applications for plutonium conversion facilities, the following sentence should be inserted between the sentence ending with the parenthetical expression "* * * Docket No. 70-1729)" and the next sentence beginning "In addition * * *": "Allied-General Nuclear Services also has filed an application for authority to construct and operate at its Barnwell site a facility for conversion of plutonium nitrate to plutonium oxide."

Page 53060, 1st column, last paragraph, line 6: Correct misspelling of the word "Identify."

Page 53060, 2nd column, 2nd full paragraph: For clarification purposes, the first sentence should be revised to read as follows: "The Commission expects to publish proposed safeguards

V 401248 DEC 24 75 XUM

rules governing interim licensing of plutonium conversion and mixed oxide fuel fabrication activities when the supplement to the draft statement is issued."

Page 53060, 2nd column, paragraph under INTERIM REVIEWS, line 18: Delete the period after the word "fuel."

Page 53060, 2nd column, paragraph under INTERIM REVIEWS, lines 19 through 32: To clarify the status of applications for plutonium conversion facilities, the fourth, fifth and sixth sentences of the paragraph (lines 19 through 32 beginning with "No application has . . ." and ending with ". . . operation before about 1982.") should be revised to read as follows: "Allied-General Nuclear Services has filed an application containing preliminary design information for a plant at Barnwell in which plutonium nitrate would be converted to plutonium oxide. If authorization were granted by the Commission for construction and operation of the plant, it is unlikely that such conversion operations could commence any earlier than mid-1979." The proposed modified and expanded NFS reprocessing plant, including plutonium and uranium conversion facilities (with estimated reprocessing capacity of about 750 metric tons of spent fuel per year) is still under design and, if authorized, is not expected to be in operation before about 1982."

Page 53060, 2nd column, footnote 3, line 3: For factual accuracy, the parenthetical expression in footnote 3 should be revised to read "(e.g., plutonium oxide rather than nitrate solution)."

Page 53062, 3rd column, line 5: Add the word "value" following the words "high strategic" to read "* * * high strategic value (39 FR 40036) * * *"

Dated this 19th day of December 1975 at Washington, D.C.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.75-34920 Filed 12-23-75;10:24 am]

[Docket No. PRM-20-6]

NATURAL RESOURCES DEFENSE COUNCIL, INC.

Extension of Comment Period

On October 29, 1975 the Nuclear Regulatory Commission published in the FEDERAL REGISTER (40 FR 50327) a notice that a petition for rule making had been filed with the Commission by the Natural Resources Defense Council, Inc.

The petitioners requested that the Commission amend its radiation protection standards as they apply to the maximum permissible whole body dose equivalent for occupational exposure. The limits on exposure of individuals to radiation in restricted areas are set out in § 20.101 of 10 CFR Part 20. Limits regarding exposure of minors to radiation in restricted areas are set out in § 20.104 of 10 CFR Part 20.

The petitioners also requested that the Commission institute hearings to determine the "as low as practicable" extent to which the exposures can be maintained below the new regulations proposed by the petitioners. The petitioners stated that the objective of their proposal is to reduce the genetic risk associated with radiation exposure at the occupational exposure level permitted by 10 CFR Part 20 by a factor of 10 and to reduce the somatic risk by a factor of 6.

Interested persons were invited to submit comments on the petition by December 29, 1975. In view of the interest which has been shown on the subject matter of the petition, the Commission is hereby extending the time for filing comments.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send them to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 on or before February 12, 1976.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. A copy of the petition may be obtained by writing the Division of Rules and Records at the above address.

Dated at Washington, D.C. this 22nd day of December, 1975.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.75-34922 Filed 12-23-75;10:24 am]

PRESIDENT'S COMMISSION ON WHITE HOUSE FELLOWSHIPS

NOTICE OF MEETING

Pursuant to Section 10 of Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the President's Commission on White House Fellowships will be held on January 23, 1976, in the Civil Service Commission Building, 1900 E Street, NW., Room 5H09, Washington, D.C.

This meeting is scheduled to give the Commissioners opportunity to evaluate and review the Fellowship program. The issues to be discussed will include the educational program, general program evaluation, publicity, Fellowship selection processes, job performance by current Fellows, endowment fund raising, and other Commission matters.

It has been determined by the Chairman of the Civil Service Commission that those portions of the meeting, at which personnel files, confidential character references, selection materials, and lawyer-client papers must be used, fall within the provisions of section 552 (b) (6) of Title 5 and section 552(b) (5) of Title 5, respectively, of the United States Code and will, therefore, be closed to the public. The balance of the meeting will be open to the public.

Questions about the agenda can be directed to (202) 382-4661.

BRUCE H. HASENKAMP,
Director.

DETERMINATION TO CLOSE A MEETING OF THE PRESIDENT'S COMMISSION ON WHITE HOUSE FELLOWSHIPS TO THE PUBLIC UNDER SECTION 10(d) OF THE FEDERAL ADVISORY COMMITTEE ACT, PUBLIC LAW 92-463

Subsection (a) (1) and (a) (3) of section 10 of the Federal Advisory Committee Act, Public Law 92-463, require that each advisory committee meeting be open to the public and that minutes and other papers which are made available to or prepared for or by an advisory committee are to be available for public inspection and copying. However, subsection (d) of section 10 provides that these requirements shall not apply to any advisory committee meeting that is determined to be concerned with matters listed in section 552(b) of title 5, United States Code.

The meetings have been closed in previous years because of the use of confidential files and character references which we believe are personnel files exempt from disclosurse under 5 USC 552 (b) (6).

Also, it has been noted by the Office of Legal Counsel, Department of Justice, that due to the nature of the Commission, its meetings may ordinarily fall within 5 USC 552 (b) (6).

Therefore, it is hereby determined that the meetings of the President's Commission on White House Fellowships consist of exchanges of opinions which, if written, would fall within exemption (6) of section 552 (b) of title 5, United States Code, and would constitute a clearly unwarranted invasion of personal privacy. Accordingly, those portions of the meeting dealing with confidential files and character references, to be held on January 23, 1976, shall be closed to the public and the minutes and other papers of the President's Commission on White House Fellowships pertaining to those portions shall not be available for public inspection or copying.

ROBERT E. HAMPTON,
Chairman,
Civil Service Commission.

[FR Doc.75-34761 Filed 12-23-75;8:45 am]

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

ADVISORY COMMITTEE FOR TRADE NEGOTIATIONS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (the Act), notice is hereby given that a meeting of the Advisory Committee for Trade Negotiations will be held Thursday, January 8, 1976, from 1:30 to 4:45 p.m., in room 450 of the Old Executive Office Building, Washington, D.C.

The purpose of this meeting will be to review and discuss the status of, and the United States strategy and objectives for, the multilateral trade negotiations currently underway in Geneva.

In accordance with section 10(d) of the Act, the meeting will not be open to the public because information falling within the purview of 5 U.S.C. 552(b) (the exceptions to the Freedom of Information Act) will be reviewed and discussed.

More detailed information can be obtained by contacting Paul T. O'Day, Assistant Special Representative for Trade Negotiations, 1800 G Street, room 725, Washington, D.C., 20506.

PAUL T. O'DAY,
Assistant Special Representative for Trade Negotiations.

DECEMBER 22, 1975.

SECURITIES AND EXCHANGE COMMISSION

[SR-Amex-75-3]

AMERICAN STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

DECEMBER 17, 1975.

On September 16, 1975, the American Stock Exchange, Inc. ("Amex"), 86 Trinity Place, New York, NY 10006, filed with the Commission, pursuant to Section 19(b) (1) of the Securities Exchange Act of 1934, 15 U.S.C. 78(s) (b) (1), as amended by Pub. L. No. 94-29, section 16 (June 4, 1975) (the "Act"), and Rule 19b-4 thereunder, copies of a proposed rule change. Amex amended such filing by Amendment No. 1 submitted on November 17, 1975.

The proposed rule change is to add twenty (20) new option classes to be traded on the Amex, thereby expanding the Amex options program from forty (40) option classes to sixty (60) option classes.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 11679, September 25, 1975) and by publication in the FEDERAL REGISTER (40 FR 45879, October 3, 1975).

As a pre-condition to the Commission's approval of the proposed rule change, Amex has adopted certain corrective measures relating to options trading practices and the reporting of options transactions by registered traders. Specifically, Amex has adopted a new regulatory report for the reporting of option transactions by registered traders, instituted a system to spot-check compliance by registered traders with reporting requirements, amended its Rule 958 to require that at least one registered trader be present in the trading crowd when a customer's order is presented by a floor broker for execution, and prepared a circular for distribution to all floor members concerning these new procedures.

Accordingly, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and, in particular, the requirements of Section 6 of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b) (2) of the Act, that the proposed rule change filed with the Commission on September 16, 1975, as thereafter amended, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-34692 Filed 12-23-75;8:45 am]

[SR-CBOE-75-3]

THE CHICAGO BOARD OPTIONS EXCHANGE, INC.

Order Approving Proposed Rule Change

DECEMBER 17, 1975.

On September 12, 1975, the Chicago Board Options Exchange, Inc., La Salle at Jackson, Chicago, Illinois 60604, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to alter the composition of its Board of Directors and to adopt various related procedural amendments.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 34-11675, September 24, 1975) and by publication in the FEDERAL REGISTER (40 FR 14903, September 30, 1975).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b) (2) of the Act, that the proposed rule change filed with the Commission on September 12, 1975, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

GENERICS CORPORATION OF AMERICA

Suspension of Trading

DECEMBER 17, 1975.

The common stock of Generics Corporation of America being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934, the 6 percent convertible subordinated debentures due July 1983 and all other securities of Generics Corporation of America being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from December 18, 1975 through December 27, 1975.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

SABER CORP.

Order Permanently Suspending Exemption and Statement of Reasons Therefor

I

DECEMBER 17, 1975.

Saber Corporation ("Saber"), 7324—36th Avenue, North Minneapolis, Minnesota 55427, a Minnesota Corporation, filed with the Commisison on April 11, 1973, a notification, offering circular and supporting exhibits relating to a proposed offering of 500,000 shares of common stock, 10-cents par value, at 50-cents per share, for an aggregate offering of $250,000. The purpose of the filing was to obtain an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 3(b) thereof and Regulation A promulgated thereunder. The officers of the Issuer acted as underwriters without commission. The offering commenced on July 5, 1973, and was completed on October 31, 1973.

II

On October 7, 1975 (notice having been given on October 20, 1975), the Commission temporarily suspended the Regulation A exemption of Saber Corporation, stating it had reasonable cause to believe that:

A. The offering circular filed by Saber contained untrue statements of materfal facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading in the following respects:

1. The failure to disclose that Saber was in default under its contract of purchase for the Breeze Campground;

2. The failure to disclose that no title other than a 10-year lease could be obtained from the State of Minnesota for 1200 feet of shoreline property;

3. The failure to disclose the existence of a $20,000 loan from the American National Bank of St. Paul, Minnesota, to Saber; and

4. The filing of an application with the Minnesota Department of Health for a permit to operate one of its campgrounds.

B. The terms and conditions of Regulation A have not been met in the following respects: The offering circular was not amended to disclose the default on

V 401248 DEC 24 75 XUM

the Breeze Campground contract of purchase; and to disclose the $20,000 loan to the Issuer.

C. The offer was made in violation of Section 17 of the Securities Act of 1933, as amended.

III

No hearing having been requested by Saber Corporation within thirty days after the entry of an order temporarily suspending its exemption under Regulation A, the Commission finds that it is in the public interest and for the protection of investors that the exemption of Saber Corporation under Regulation A be permanently suspended;

It is ordered, pursuant to Rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of Saber Corporation be, and it hereby is, permanently suspended.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-11938; File No. SR-OCC-1975-6]

OPTIONS CLEARING CORPORATION

Self-Regulatory Organizations

In the Matter of Proposed Rule Change By The Options Clearing Corporation.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on November 3, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed Rule 916 and the proposed amendments to Rules 602(c) and 610(j) make it clear that if settlement in respect of an exercised option contract is to be made through a correspondent clearing corporation, margin and other deposits held by OCC in respect of the exercised contract may not be withdrawn by the depositing Clearing Member until the Clearing Member has satisfied its obligations to the correspondent clearing corporation on the exercise settlement date. If the Clearing Member fails to meet those obligations and its Exercise Settlement Account with the correspondent clearing corporation is closed out, proposed Rule 916 would expressly permit OCC to apply such margin and other deposits against any loss incurred by the correspondent clearing corporation by reason of the close-out.

The proposed amendment to Rule 1106(d) expressly sets forth the procedure which OCC will follow with respect to open short positions covered by specific or escrow deposits in accounts of suspended Clearing Members.

The proposed amendments to Rules 610(k), 610(l) and 804 clarify ambiguities in the current text of those Rules. In addition, the proposed amendment to Rule 610(l) would provide a procedure for allocating assignments to particular short positions covered by specific and escrow deposits in cases in which a Clearing Member is suspended and OCC is unable to determine the particular customer or non-customer to whom the assignment was allocated by the Clearing Member under Rule 804.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule changes are as follows:

The proposed rule changes filed herewith are intended to clarify the provisions of the Rules of OCC with respect to specific and escrow deposits and the withdrawal of margin deposited in respect of exercised option contracts.

Specifically, proposed Rule 916 and the proposed amendments to Rule 602 (c) and 610(j) make it clear that if settlement in respect of an exercised option contract is to be made through a correspondent clearing corporation, margin and other deposits held by OCC in respect of the exercised contract may not be withdrawn by the depositing Clearing Member until the Clearing Member has satisfied its obligations to the correspondent clearing corporation on the exercise settlement date. If the Clearing Member fails to meet those obligations and its Exercise Settlement Account with the correspondent clearing corporation is closed out, proposed Rule 916 would expressly permit OCC to apply such margin and other deposits against any loss incurred by the correspondent clearing corporation by reason of the close-out.

The proposed amendment to Rule 1106(d) expressly sets forth the procedure which OCC will follow with respect to open short positions covered by specific or escrow deposits in accounts of suspended Clearing Members.

The proposed amendments to Rules 610(k), 610(l) and 804 clarify ambiguities in the current text of those Rules. In addition, the proposed amendment to Rule 610(l) would provide a procedure for allocating assignments to particular short positions covered by specific and escrow deposits in cases in which a Clearing Member is suspended and OCC is unable to determine the particular customer or non-customer to whom the assignment was allocated by the Clearing Member under Rule 804.

The proposed rule changes filed herewith would enhance the ability of OCC to facilitate the prompt and accurate clearance and settlement of securities transactions and to carry out the purposes of Section 17A of the Securities Exchange Act of 1934, as amended, and would serve the public interest generally, by clarifying the Rules of OCC with respect to specific and escrow deposits and by providing additional margin protection for OCC in the circumstances covered by proposed Rule 916 and by the proposed amendment to Rule 610(l).

Comments were neither solicited nor received with respect to the proposed amendments to Rules 602(c), 610(j), 610(k), 610(l), 804, 916 and 1106(d).

OCC does not believe that the proposed amendments to Rules 602(c), 610(j), 610(k), 610(l), 804, 916 and 1106(d) would impose any burden on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and agreements concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 18, 1975.

EXHIBIT 1a

TEXT OF PROPOSED RULE CHANGES

Margins on Exercised Contracts

RULE 602. (a) [No Change]

(b) [No Change]

(c) A Clearing Member shall be entitled to reimbursement of margin deposited in respect of exercised option contracts under Rule 601 or this Rule 602 upon presentation to the Corporation of satisfactory evidence, in such form as the Corporation may prescribe, of the delivery of the underlying security and payment in full therefor; provided, however, that if settlement in respect of an exercised contract is made through the facilities of a correspondent clearing corporation pursuant to Rule 913, a Clearing Member shall be entitled to reimbursement of margin deposited in respect thereof (*subject to the provisions of Rule 916*) from and after the opening of business of the Corporation on the business day following the date on which settlement is so made.

(d) [No Change]

The amendment is of Rule 602(c) as proposed to be amended in File No. SR-OCC-1975-4.

Deposit of Underlying Security

RULE 610. (a) through (i) [No change]

(j) *Subject to the provisions of Rule 916,* a depository receipt or escrow receipt may be withdrawn by a Clearing Member between 10:00 A.M. and 1:00 P.M. Central Time (11:00 A.M. and 2:00 P.M. Eastern Time) each business day with authorization by the Corporation so long as the conditions of this *Chapter* [Article] VI are met; provided, however, that the Corporation may continue to hold a depository receipt or escrow receipt for a reasonable period following the expiration date of the option contracts involved in order to assure that all obligations arising from the assignment of exercise notices have been performed. A Clearing Member requesting such withdrawal shall submit a withdrawal request in such form as the Corporation shall prescribe.

(k) In the event any short position in a call option contract for which a specific deposit or an escrow deposit has been made is closed out by a closing purchase transaction *or transferred to an account of another Clearing Member, or in the event that settlement is made in respect of an exercise notice assigned to such position, and the depository receipt or escrow receipt evidencing such deposit has not previously been withdrawn in accordance with subparagraph (1) hereof,* the Clearing Member making such deposit shall promptly request the withdrawal of the depository receipt or escrow receipt evidencing such deposit, but *unless and until such depository receipt or escrow receipt is withdrawn,* [the failure of such Clearing Member to request a withdrawal shall not affect the right of] the Corporation *shall be entitled* to demand the delivery of the underlying securities upon the assignment of an exercise notice *in respect of any option contract of the same series and included in a short position in the same account as the one for which the deposit was made* [in respect of such option contract so at any time while it holds the depository receipt or escrow receipt].

(l) If *the assignment of* an exercise notice [is assigned] to a [call option contract included in a] short position of a Clearing Member *is allocated to an option contract included in such short position for which no specific deposit or escrow deposit has been made,* no [escrow] such deposit may thereafter be made in respect of such contract. If *the assignment is allocated to an option contract for which a specific deposit or escrow* deposit has previously been made, [an escrow deposit shall previously have been made in respect of such contract and the deposited securities are to be delivered pursuant to such assignment,] the Clearing Member shall [be obliged to] deposit with the Corporation, no later than 9:00 A.M. Central Time (10:00 A.M. Eastern Time) on the [second] business day following the *date of the assignment,* [day when the exercise notice was assigned], margin in *an amount sufficient to permit the withdrawal of the depository receipt or escrow receipt filed in respect of such contract, and shall promptly thereafter effect such withdrawal. In the event the Clearing Member fails to deposit margin in accordance with the preceding sentence, and is thereafter suspended by the Corporation, the Corporation shall be entitled to presume that the assignment was allocated to an option contract for which no specific deposit or escrow deposit had been made, unless the Corporation has notice to the contrary and has been advised of the type of deposit (specific or escrow) made in respect of the option contract to which the assignment was allocated, and, in the case of escrow deposits, the serial number of the escrow receipt or the identity of the customer. If the assignment was for a number of contracts exceeding the number of contracts included in the short position to which the exercise notice was assigned for which no specific or escrow deposit had been made, the Corporation shall be entitled (unless the Corporation has notice that the assignment has been allocated to particular option contracts, identified as to type of deposit, and, in the case of escrow deposits, by the serial number of the escrow receipt or the identity of the customer) to allocate such assignment, to the extent of such excess, to particular option contracts for which specific deposits and escrow deposits have been made. Such allocation shall be made by random selection or another allocation method which the Corporation deems fair and equitable in the circumstances.* [respect of such contract computed in accordance with Rule 602. When such margin is deposited, the Corporation will release and return the escrow receipt previously filed in respect of such contract.]

Assignment of Exercise Notices to Customers

RULE 804. Each Clearing Member shall establish fixed procedures for the allocation of exercise notices assigned in respect of [a] short positions in the Clearing Member's [customers'] accounts to *specific option contracts included in such short positions.* The allocation shall be on a "first in, first out" basis, on a basis of random selection, or another allocation method that is fair and equitable to the *persons for whom such accounts are maintained* [Clearing Member's customers] and consistent with Exchange Rules.

Default by Clearing Member

RULE 916. *Anything else in these Rules to the contrary notwithstanding, if a correspondent clearing corporation shall notify the Corporation that a Clearing Member has defaulted in the performance of its obligations to the correspondent clearing corporation, the Clearing Member shall not, until the Corporation is notified by the correspondent clearing corporation that the default has been cured, be entitled to withdraw from the Corporation any margin or any depository or escrow receipts held by the Corporation in respect of exercised call option contracts for which settlement was made through the correspondent clearing corporation on the date of the default. If, following any such default, the correspondent clearing corporation shall close out the positions in the Clearing Member's Exercise Settlement Account, the Corporation shall be entitled to obtain delivery of any securities held pursuant to any such depository or escrow receipts, to sell the securities so obtained, and to apply the net proceeds of such sale, together with any margin held in respect of such exercised call option contracts, against the Clearing Member's obligations to the correspondent clearing corporation. If the sum of such proceeds and such margin shall exceed the amount of the Clearing Member's obligations to the correspondent clearing corporation, the excess shall be credited to the account of the Clearing Member with the Corporation; provided, however, that if the Clearing Member shall have been suspended by the Corporation, the excess shall be credited to the Liquidating Settlement Account established for the Clearing Member pursuant to Rule 1104.*

Open Positions

RULE 1106. (a) through (c) [No change]

(d) *Short Positions.* [Add at end of Rule] Notwithstanding the foregoing, open short positions in respect of which specific or escrow deposits have been made shall be maintained by the Corporation. The Corporation shall promptly use its best efforts to identify each person having such a short position, to transfer each such short position and the interest of the suspended Clearing Member in the specific or escrow deposit made in respect thereof to another Clearing Member, and to notify each such person of such transfer. If, prior to such transfer, any such short position shall expire, the Corporation shall, subject to the provisions of Rule 610(j), release any depository receipt or escrow receipt held by the Corporation in respect thereof to the suspended Clearing Member or its representative. If, prior to such transfer, an exercise notice shall be assigned to any such short position, the Corporation shall obtain delivery of the underlying securities required to be delivered pursuant thereto from the custodian of such securities, and shall make delivery thereof to the exercising Clearing Member for the account of the suspended Clearing Member. If the assignment is for a number of contracts included in such short position, the Corporation shall allocate the assignment to particular contracts by random selection or another allocation method which the Corporation deems fair and equitable in the circumstances.

If, prior to such transfer, the suspended Clearing Member or its representative shall instruct the Corporation to close any such short position and shall furnish such security as the Corporation may require to secure payment of the premium for the closing purchase transaction, the Corporation shall cause such short position to be closed, and any depository receipt or escrow receipt held by the Corporation in respect thereof shall be released by the Corporation to the suspended Clearing Member or its representative. The Corporation may, in its discretion, postpone acceptance of any close-out instruction tendered for the account of a suspended Clearing Member pending receipt of satisfactory evidence of the authority of the person tendering such instruction.

[Application No. 05/05-5109]

S. C. OPPORTUNITIES, INC.

Application for License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of Section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.) has been filed by S. C. Opportunities, Inc. (Applicant), with the Small Business Administration pursuant to 13 CFR 107.102 (1975).

The officers and directors of the applicant are as follows:

Raymond R. Kubly, Jr., 621 14th Avenue, Monroe, Wisconsin 53566, President, Treasurer, Director.

Robert J. Soderholm, 2035 26th Street, Monroe, Wisconsin 53566, Vice President, Director.

Robert L. Ableman, 1916 25th Street, Monroe, Wisconsin 53566, Vice President, Secretary, General Manager, Director.

Michael C. Kubly, 2727 Hackett Avenue, Milwaukee, Wisconsin 53211, Director.

The applicant will maintain its principal place of business at 1112 Seventh Street, Monroe, Wisconsin 53566.

It will begin operations with $300,000 of private capital derived from the sale of 300 share sof common stock of which 40 percent has been purchased by Raymond R. Kubly, Jr., another 40 percent acquired by Michael C. Kubly, and the remaining shares purchased by Messrs. Robert J. Soderholm and Robert L. Ableman, each acquiring 10 percent of applicant's stock.

Messrs. Raymond R. and Michael C. Kubly are principal beneficial owners of Swiss Colony Stores, Inc., franchisor of Swiss Colony retail stores engaged in merchandising cheeses, sausages, pastries and gifts.

Although the applicant is primarily interested in financing small business concerns that have obtained or will obtain Swiss Colony franchises, any small business with or without such a franchise, is eligible for assistance from the applicant.

As a small business investment company under Section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered by social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Any person may, not later than January 6, 1975, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Monroe, Wisconsin.

(Catalog of Federal Domestic Assistance Program Number 59,011, Small Business Investment Companies)

Dated: December 16, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.75-34696 Filed 12-23-75;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON CONSTRUCTION SAFETY & HEALTH

Meeting

Notice is hereby given that the Advisory Committee on Construction Safety & Health, established under section 107 (e)(1) of the Contract Work Hours & Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Williams-Steiger Occupational Safety & Health Act of 1970 (29 U.S.C. 655), will meet on Wednesday, January 21 and Thursday, January 22, 1976, starting at 9:00 a.m., in Room N-3437 A-D, New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C. The meeting is open to the public.

The Committee will discuss revisions to the asbestos rules with OSHA health standards and construction standards personnel with reference to alternative administrative and engineering controls, medical surveillance, and medical and monitoring record procedures, as well as other problems of application and responsibility.

On October 9, 1975, the Occupational Safety and Health Administration (OSHA) published a proposal in the FEDERAL REGISTER (40 FR 47652) which would amend the existing rules on occupational exposure to asbestos.

Following is the statement with reference to construction which was published with the proposed asbestos revisions:

A. Scope and Application. The standard, as revised, would continue to apply to all workplaces where occupational exposure to asbestos is present, but would exclude the construction industry.

"It is OSHA's intention to develop and propose a separate revision to the existing asbestos standard for the construction industry. Approximately three-fourths of all asbestos products in 1972 were used in the construction industry. In addition, the uniqueness of the construction industry itself (viz., the multiplicity of non-fixed workplaces, and the utilization of highly transient workforces) strongly suggests separate treatment. These structural differences were reflected in the 17-18 September 1975 deliberations of the OSHA Advisory Committee on Construction Safety and Health.

"Although OSHA believes that health hazards faced by employees in the construction industry with regard to occupational exposure to asbestos are similar to those faced by their counterparts in other covered employments, OSHA recognizes that alternative administrative and engineering controls may be more appropriate and feasible for the construction industry. Therefore, OSHA intends to consult with the Construction Advisory Committee in order to further explore such alternatives. Upon publication of the proposal to revise the existing asbestos standard for the construction industry, OSHA will consider the possibility of consolidated hearings on that proposal and the proposal contained herein for all other covered employments.

"OSHA is aware that certain provisions of this proposal, such as medical surveillance and the extended retention period for medical and monitoring records, may pose special problems to some employers, especially those who have small numbers of employees, operate with non-fixed places of employment or use workforces which are highly transient in nature. This awareness has been expressed by the Department of Labor in a statement submitted to the House Subcommittee on Environmental Problems Affecting Small Business of 26 June 1975, as follows:

It has become increasingly evident that the combined body of Federal regulations imposes a substantial, and to some extent, unnecessary burden upon employers, particularly those who run small businesses. While most of these requirements serve a necessary and useful purpose a definite potential exists for duplication, conflicting standards, and inappropriate recordkeeping requirements. In an effort to eliminate problems where any exist in the Department of Labor, I have requested my agency heads to assess the small business impact of the laws they administer and determine what can be done to ease the burden on the small employer, while still assuring compliance with the law.

"Although it is clear that OSHA's first and prime responsibility is to assure employees safe and healthful places of employment, the Act and its legislative history recognize that economic and technological feasibility are legitimate factors to be considered in the setting of occupational safety and health standards.

"In addition, the Act explicitly takes cognizance of its impact upon affected small business, specifically with respect to any recordkeeping requirements which are imposed. Pursuant to section 8(d) of the Act, OSHA is exploring methods of reducing, to the maximum extent possible, the administrative and economic burdens of the proposal's various information gathering requirements.

"While the proposal does not address itself to specific alternatives, OSHA invites comments concerning options which would both provide full protection to affected employees and at the same time would minimize the administrative and economic burden on affected employers-especially those with small numbers of employees, non-fixed workplaces, or highly transient workforces."

In addition the Roll Over Protective Structures Subgroup will submit a progress report on their meeting.

Persons wishing to orally address the group at the meeting should submit a written request to be heard to the Committee Management Officer no later than January 13, 1976. The request must contain a short summary of the intended presentation and an estimate of the amount of time that will be needed. Such participation will be at the discretion of the chairman, time permitting.

Written data, views, or arguments concerning the subjects to be considered may be filed, together with 20 copies thereof, with the Commitee Management Officer by January 13, 1976. Such submissions may also be filed with the Committee Management Officer at the meeting. Any such submissions will be provided to the members of the group and will be included in the record of the meeting.

Communications may be mailed to:
Jay Arnoldus, Committee Management Office, Department of Labor, Occupational Safety and Health Administration, 200 Constitution Avenue, NW., Rm N-3633, Washington, D.C. 20210.

Signed at Washington, D.C. this 19th day of December, 1975.

MORTON CORN,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

Office of Hearings

[Notice No. 938]

ASSIGNMENT OF HEARINGS

DECEMBER 22, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

AB 2—Sub-5, Louisville And Nashville Railroad Co. Abandonment Between Colesburg and Hohenwald, in Dickson, Hichman and Lewis Counties, Tennessee, now assigned January 14, 1976, at Nashville, Tennessee, will be held in Room A-761, Federal Courthouse Bldg. Annex, 8th and Broad Street.

MC 127834 Sub-107, Cherokee Hauling & Rigging, Inc., now assigned January 19, 1976, at Memphis, Tennessee, will be held in Room 978 Federal Bldg., 167 North Main Street.

MC 113495 Sub-70, Gregory Heavy Haulers, Inc., now assigned January 20, 1976, at Memphis, Tennessee, will be held in Room 978 Federal Building, 167 North Main Street.

MC 100666 Sub-280, Melton Truck Lines, Inc., now assigned January 21, 1976, at Memphis, Tennessee, will be held in Room 978 Federal Building, 167 North Main Street.

MC 2900 Sub 267, Ryder Truck Lines, Inc., and MC 115841 Sub 495, Colonial Refrigerated Transportation, Inc., now being assigned February 19, 1976 (2 days), at Buffalo, N.Y.; in a hearing room to be later designated.

MC 134401 Sub 11, Sherwood W. Hume, DBA Hume Equipment Company, now being assigned February 23, 1976 (2 days), at Buffalo, N.Y.; in a hearing room to be later designated.

MC 138744 Sub 20, Butler Trucking Company, now being assigned February 25, 1976 (2 days), at Buffalo, N.Y.; in a hearing room to be later designated.

W-C-25, Wexler Towing Company, Incorporated—Investigation and Revocation of Certificate, now assigned January 23, 1976, at Memphis, Tennessee, will be held in Room 978, Federal Building, 167 North Main Street.

W-C-26, A. & O. Barge Line, Inc.—Investigation And Revocation of Certificates, now assigned January 23, 1976, at Memphis, Tennessee, will be held in Room 978, Federal Building, 167 North Main Street.

W-C-33, KeW Towing Company, Inc.—Investigation And Revocation of Certificates, now assigned January 22, 1976, at Memphis, Tennessee, will be held in Room 978, Federal Building, 167 North Main Street.

W-C-27, Igert—Investigation And Revocation of Certificate, now assigned January 22, 1976, at Memphis, Tennessee, will be held in Room 978, Federal Building, 167 North Main Street.

MC 141009, MC Clenton Transportation Corp., now assigned January 19, 1976, Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Streeet.

MC 141112, Burwell Ray Gallop, d.b.a. Gallop Bus Lines, now assigned January 26, 1976, at Norfolk, Va., will be held on Third Floor, Post Office and Court House, 600 Cranby Street.

MC 134143 Sub 9, Brown Refrigerated Express, Inc., now assigned January 16, 1976, at Kansas City, Mo., will be held in Room 609 Federal Office Building, 911 Walnut Street.

MC 118202 Sub 50, Schultz Transit, Inc., now assigned January 15, 1976, at St. Paul, Minn., is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-34729 Filed 12-23-75;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 19, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before January 8, 1976.

FSA No. 43093—*Beet or Cane Sugar from points in Arizona and California.* Filed by Trans-Continental Freight Bureau Agent (No. 497), for interested rail carriers. Rates on sugar, beet or cane, dry, in bulk, in carloads, as described in the application, from points in Arizona and California, to points in Illinois, Iowa, Minnesota, Missouri, Oklahoma, Texas, and Wisconsin.

Grounds for relief—Returned shipments and rate relationship.

Tariff—Supplement 21 to Trans-Continental Freight Bureau, Agent, tariff 2-M, ICC 1914. Rates are published to become effective on January 15, 1976.

FSA No. 43094—*Insulating Material from Fruita, Colorado.* Filed by Western Trunk Line Committee, Agent, (No. A-2721), for interested rail carriers. Rates on insulating material, viz.: calcium silicate and fibre combined, in carloads, as described in the application, from Fruita, Colorado, to points in southern territory.

Grounds for relief—Market competition, short-line distance formula and grouping.

Tariff—Supplement 56 to Western Trunk Line Committee, Agent, tariff 134-R, ICC A-4949. Rates are published to become effective on January 25, 1976.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. #146]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 24, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 13, 1976. Pursuant to Section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76231. By order of December 18, 1975 the Motor Carrier Board approved the transfer to New Trucking, Inc., Stearns, Kentucky, of Certificate No. MC-138614 Sub-1, issued April 26, 1974, to Frank New, D/B/A New Trucking, Stearns, Kentucky, authorizing the transportation of tents and other commodities from and to specified points. William P. Whitney, Jr. 703 McClure Building, Frankfort, Kentucky, Attorney for applicants.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 102]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 19, 1975.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application, applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles, that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 2368 (Sub-No. 52), filed November 21, 1975. Applicant: BRALLEY-WILLETT TANK LINES, INC., 2212 Deepwater Terminal Road, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: William T. Marshburn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and vegetable oils and animal and vegetable oil products, by-products and blends thereof*, in bulk, in tank vehicles, from points in Illinois, Indiana, New York, New Jersey, North Carolina, Ohio and Tennessee, to points in North Carolina.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 2780 (Sub-No. 7), filed November 20, 1975. Applicant: HORN'S MOTOR EXPRESS, INC., 2020 Lincoln Way East, Chambersburg, Pa. 17201. Applicant's representative: John M. Musselman, 410 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment), serving the facility of Hadco Products, Inc., located at Hanover, Pa., as an off-route point in connection with carrier's presently authorized regular route operations, between Harrisburg, Pa., and Baltimore, Md.: From Harrisburg over U.S. Highway 11 to Chambersburg, Pa., thence over U.S. Highway 30 to Gettysburg, Pa., and thence over U.S. Highway 140 to Baltimore, Md., and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 4405 (Sub-No. 524), filed November 21, 1975. Applicant: DEALERS TRANSIT, INC., 2200 E. 170th St., P.O. Box 361, Lansing, Ill. 60438. Applicant's representative: Leonard L. Bennett (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cranes, parts, attachments and accessories*, from the plantsite of FMC Corporation, Crane and Excavator Division, located at or near Bowling Green, Ky., to points in the United States (except Alabama, Alaska, Arizona, Arkansas, California, Florida, Georgia, Hawaii, Indiana, Kentucky, Michigan, Mississippi, New Mexico, North Carolina, Ohio, South Carolina, Tennessee, Texas, Virginia and West Virginia); and (2) *materials, equipment and supplies*, used or useful in the manufacture of the above named commodities (except commodities in bulk), from points in the United States (except those states named in (1) above), to the plantsite of FMC Corporation, Crane and Excavator Division, located at or near Bowling Green, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Chicago, Ill.

No. MC-4819 (Sub-No. 3), filed October 28, 1975. Applicant: ROCKY MOUNTAIN TRUCKING COMPANY, a Corporation, P.O. Box 2131, Casper, Wyo. 82601. Applicant's representative: Marlon F. Jones, 1600 Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacturer, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *machinery, equipment, materials and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing and picking up of pipe in connection with main or trunk pipe lines, between points in North Dakota, Nebraska, and those in that part of South Dakota west of the Missouri River and on and north of U.S. Highway 14, on the one hand, and, on the other, points in Montana, Wyoming, and Colorado.

NOTE.—This application is for the purpose of eliminating gateways and permitting a continuation of service performed by Applicant via gateways prior to the restriction against such service contained in Ex Parte 55 (Sub-No. 8). Applicant inadvertently neglected to file the required letter notices. If a hearing is deemed necessary, the applicant requests it be held at Casper, Wyo., or Denver, Colo.

No. MC 19945 (Sub-No. 54), filed November 20, 1975. Applicant: BEHNKEN TRUCK SERVICE, INC., Route #13, New Athens, Ill. 62264. Applicant's representative: Ernest A. Brooks, II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heat exchangers and equalizers* for air, gas or liquids; *machinery and equipment* for heating, cooling, conditioning, humidifying, dehumidifying and moving of air, gas, or liquids; and (2) *parts, materials, equipment and supplies* used in the manufacture, distribution, installation, or operation of those items named in (1) above, (except in bulk), between points in Monroe, Randolph, Perry Counties, Ill. and St. Clair County, Ill. on and south of State Highways 177 and 158, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii) restricted to shipments originating at or destined to the plantsite and warehouse facilities of the Singer Company at Monroe, Randolph, Perry and St. Clair Counties, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either St. Louis, Mo. or Washington, D.C.

No. MC 31389 (Sub-No. 208), filed November 24, 1975. Applicant: McLEAN TRUCKING COMPANY, a Corporation, 617 Waughtown Street, Winston-Salem, N.C. 27107. Applicant's representative: David P. Eshelman, P.O. Box 213, Winston-Salem, N.C. 27102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); Serving Mansfield, Ga., as an off-route point in conjunction with applicant's regular route operation to and from Atlanta, Ga.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 42011 (Sub-No. 19), filed November 12, 1975. Applicant: D. Q. WISE & CO., INC., P.O. Box 15125, Tulsa, Okla. 74115. Applicant's representative: J. G. Dail, Jr., 1111 E St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cooling towers and fluid coolers*, and *parts and accessories*, for cooling towers and fluid coolers; and (2) *materials, equipment and supplies*, used in the manufacture, sale and distribution of the commodities described in (1) above (except commodities in bulk), between Houston, Tex., and Tulsa, Okla., on the one hand, and, on the other points in Alabama, Arkansas Colorado Illinois, Iowa, Indiana, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Mississippi, Montana, Nebraska, New Mexico North Dakota, Oklahoma, Tennessee, Texas, Utah, Wisconsin and Wyoming, restricted to shipments originating at or destined to the facilities of Ecodyne Cooling Products Division, at Houston, Tex., and Tulsa, Okla.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Tulsa, Okla.

No. MC 52858 (Sub-No. 114), filed November 20, 1975. Applicant: CONVOY COMPANY, a Corporation, 3900 Northwest Yeon Avenue, P.O. Box 10185, Portland, Oreg. 97210. Applicant's representative: Marvin Handler, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles and trucks* weighing less than 15,000 pounds in truckaway service in secondary movements, between points in Colorado, on the one hand, and, on the other, points in Oklahoma.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo. or Portland, Oreg.

No. MC 56244 (Sub-No. 42), filed Nov. 24, 1975. Applicant: KUHN TRANSPORTATION COMPANY, INC., P.O. Box 98, R. D. #2, Gardners, Pa. 17324. Applicant's representative: John M. Musselman, P.O. Box 1146, 410 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by retail, wholesale, chain grocery and food business houses* (except commodities in bulk and frozen foods), from the facilities of Knouse Foods, Inc., located in Adams and Franklin Counties, Pa., to New York, N.Y.; Baltimore, Md.; points in Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and points in that part of West Virginia on and north of U.S. Highway 50, restricted to the transportation of shipments originating at the above-named facilities and destined to the above-described destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 58549 (Sub-No. 21) (Correction), filed November 5, 1975, published in the FEDERAL REGISTER issue of December 4, 1975, and republished as corrected this issue. Applicant: CLINE MUNDY, doing business as GENERAL MOTOR LINES, 1534 Granby Street, N.E., P.O. Box 5157, Roanoke, Va. 24012. Applicant's representative: Jerry D. Beard (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: (A) over regular routes, *general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Warm Springs, Va. and Monterey, Va.: From Warm Springs, Va. over U.S. Highway 220 to Monterey, Va. and return over the same route, serving all intermediate points; (2) Between Warm Springs, Va. and Monterey, Va.: From Warm Springs, Va. over Virginia Highway 39 to junction Secondary Route 600 at or near Mountain Grove, Va., thence over Secondary Route 600 to junction Virginia Highway 84, thence over Virginia Highway 84 to junction U.S. Highway 220 at or near Vanderpool, Va., thence over U.S. Highway 220 to Monterey, Va. and return over the same routes, serving all intermediate points; (3) Between the junction of Virginia Highway 8 and 57 and Bassett, Va.: From junction Virginia Highways 8 and 57 over Virginia Highway 57 to Bassett, Va. and return over the same route, serving no intermediate points; (4) Between the junction of Virginia Highways 8 and 40 and Bassett, Va.: From junction Virginia Highways 8 and 40 over Virginia Highway 40 to junction Secondary Route 704, thence over Secondary Route 704 to junction Virginia Highway 57, thence over Virginia Highway 57 to Bassett, Va., and return over the same routes, serving no intermediate points; (5) Between the junction of Virginia Highway 8 and Secondary Highway 618 and Bassett, Va.: From junction Virginia Highway 8 and Secondary Highway 618 over Secondary Highway 618 to junction Virginia Highway 57, thence over Virginia Highway 57 to Bassett, Va. and return over the same routes, serving no intermediate points.

NOTE.—Applicant indicates that the authority specified in paragraphs (3), (4) and (5) above will be used in connection with its

V 401248 DEC 24 75 XUM

existing authority in Sub-No. 11 at Bassett, Va. and Sub-No. 20 at points on Virginia Highway 8.

(B) over *irregular routes, general commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Roanoke, Va., on the one hand, and, on the other, points in Botetourt County, Va.; and (2) Between Roanoke, Va., on the one hand, and, on the other, points in Rockbridge County, Va. on and west of a line extending from the Amherst-Rockbridge County line along U.S. Highway 60 to its intersection with Virginia Highway 39 at or near Lexington, Va., thence along Virginia Highway 39 to its intersection with Secondary Route 780, thence along Secondary Route 780 to its intersection with U.S. Highway 60, thence along U.S. Highway 60 to the Rockbridge-Allegany County line, restricted in (2)above against service at Goshen, Va.

NOTE.—Applicant states that the irregular routh authority sought herein will be tacked at Roanoke, Va. with its regular route authority in MC 58549 Sub-No. 11 to provide service on general commodities between points in Botetourt County, Va. and the designated area of Rockbridge County, Va. as described in (B) (2) above, on the one hand, and, on the other, points along applicant's regular routes between Roanoke, Va. and (a) Martinsville, Va., (b) Lexington, Va., (c) Warm Springs, Va., (d) Paint Bank, Va., (e) Independence, Va., and several connecting routes. A copy of applicant's existing authority in MC 58549 (Sub-No. 11) may be viewed in this public docket at the Offices of the Secretary, Interstate Commerce Commission, Washington, D.C. If a hearing is deemed necessary, the applicant requests it be held at either Roanoke, Va., or Washington, D.C. The purpose of this republication is to clarify the tacking portion of applicant's request for authority.

No. MC 72069 (Sub-No. 7), filed October 28, 1975, published in the FEDERAL REGISTER of December 11, 1975, and republished this issue. Applicant: BLUE HEN LINES, INC., Box 565, Milford, Del. 19963. Applicant's representative: Chester A. Zyblut, 366 Executive Bldg., 1030 15th St. NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients*, in bulk, in dump vehicles, from Hopewell and Norfolk, Va., to Laurel, Del., points in Dorchester County, Md., and points in Kent County, Del.

Note.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 75320 (Sub-No. 184), filed Nov. 24, 1975. Applicant: CAMPBELL SIXTI-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801. Applicant's representative: John A. Crawford, P.O. Box 22567, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving the plantsite and facilities of Amoco Chemicals Corporation, located at or near Chocolate Bayou (Alvin), Tex., as an off-route point in connection with carriers authorized regular-route operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 103066 (Sub-No. 30), filed November 20, 1975. Applicant: STONE TRUCKING CO., P.O. Box 2014, Tulsa, Okla. 74101. Applicant's representative: Eugene D. Anderson, 910 17th St. NW., Suite 428, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 except hides, and commodities in bulk, in tank vehicles), from the plantsite and storage facilities utilized by Swift Fresh Meats Company, at or near Cactus (Moore County), Tex., to points in California, Mississippi, Alabama, Georgia, Florida, Tennessee, North Carolina, South Carolina, Illinois, Indiana, Kentucky, Michigan, Ohio, Virginia, Maryland, Delaware, New Jersey, New York, Pennsylvania, Connecticut, Rhode Island, Massachusetts, and the District of Columbia, restricted to traffic originating at, and destined to, the named points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 105045 (Sub-No. 60), filed November 20, 1975. Applicant: R. L. JEFFRIES TRUCKING CO., INC., P.O. Box 3277, Evansville, Ind. 47701. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cranes, parts, attachments and accessories*, from the plant site and other facilities of FMC Corp., Crane and Excavator Division, located at or near Bowling Green, Ky., to points in Connecticut, Delaware, Illinois, Indiana, Maine, Massachusetts, Minnesota, North Carolina, New Hampshire, New Jersey, New York, Rhode Island, South Carolina, and Vermont and (2) *materials, equipment, and supplies* used or useful in the manufacture of the above-named commodities (except commodities in bulk), from points in the United States (except Alaska, Arkansas, California, Colorado, Hawaii, Idaho, Montana, New Mexico, Oregon, Utah, Washington, and Wyoming), to the plant site of FMC Corp., Crane and Excavator Division, located at or near Bowling Green, Ky.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky. or Washington, D.C.

No. MC 107515 (Sub-No. 997), filed No. vember 20, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in by wholesale and retail food chains and grocery houses* (except in bulk), from points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, to Norfolk, Va.; Atlanta and Thomasville, Ga.; Columbia, S.C.; and Raleigh, N.C., and points in their Commercial Zones, restricted to the transportation of traffic originating at the named origins and destined to the warehouse or other facilities utilized by Colonial Stores, Inc., at the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 108119 (Sub-No. 46), filed November 20, 1975. Applicant: E. L. MURPHY TRUCKING CO., a Corporation, 3303 Sibley Memorial Highway, P.O. Box 3010, St. Paul, Minn. 55165. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heat exchangers and equalizers*, for air, gas or liquids; *machinery and equipment*, for heating, cooling, conditioning, humidifying, dehumidifying, and moving of air, gas, or liquids; and (2) *parts, materials, equipment, and supplies*, used in the manufacture, distribution, installation, or operation of those items named in (1) above (except in bulk), between points in Monroe, Randolph, Perry Counties, Ill., and St. Clair County, Ill., on and south of State Highways 177 and 158, on the one hand, and, on the other, points in the United States except Alaska and Hawaii), restricted to shipments originating at or destined to the plantsite and warehouse facilities of the Singer Company, at Monroe, Randolph, Perry and St. Clair Counties, Ill.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 108341 (Sub-No. 40), filed November 26, 1975. Applicant: MOSS TRUCKING COMPANY, INC., P.O. Box 5409, Charlotte, N.C. 28206. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, which because of size or weight require the use of special equipment and *commodities*, which because of size or weight do not require the use of special equipment, when transported as part of the same shipment with commodities which because of size or weight require the use of special equipment, (1) from the facilities of Koppers Company, Inc., at or near Baltimore, Glen Arm and Harmans, Md., Cranford, N.J., Mausry, Ohio, and Muncy and York, Pa. and (2) from the facilities of van Huffel Tube Corp. at

or near Warren, Ohio, to points in Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, Arkansas, Kentucky, Louisiana, Mississippi, Missouri, Tennessee, and West Virginia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 111045 (Sub-No. 126), filed November 17, 1975. Applicant: REDWING CARRIERS, INC., P.O. Box 426, Tampa, Fla. 33601. Applicant's representative: J. Douglas Harris, 1406 Union Bank Building, Montgomery, Ala. 36104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cleaning compounds*, in bulk, in tank vehicles, between points in Dade County, Fla., on the one hand, and, on the other, points in New Jersey, New York and Connecticut.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla., or Montgomery, Ala.

No. MC 111274 (Sub-No. 7), filed November 12, 1975. Applicant: ELMER C. SCHMIDGALL AND BENJAMIN G. SCHMIDGALL, doing business as SCHMIDGALL TRANSFER, Box 249, Tremont, Ill. 61568. Applicant's representative: Frederick C. Schmidgall, 318 Lilac Lane, East Peoria, Ill. 61611. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fencing and farm buildings, and equipment, materials and supplies*, used or useful in the installation or erection thereof, (1) from Winfield, Kans., to points in Illinois, Indiana, Ohio, Wisconsin, Iowa, Missouri, Kentucky and Michigan; and (2) from Kenton, Ohio, to points in Illinois, Indiana, Wisconsin, Iowa, Missouri, Kentucky, Michigan and Kansas, under a continuing contract with Morton Buildings, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or St. Louis, Mo.

No. MC 113855 (Sub-No. 334), filed Nov. 17, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE, Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Street sweeping machines, and attachments, accessories, and parts*, for street sweeping machines, from Wake Forest, N.C., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 114045 (Sub-No. 427), filed Nov. 21, 1975. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: Arnold L. Burke, 180 North LaSalle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Adhesives, tape, cellulose film products and dispensers and display racks therefor*, from Gloucester, Mass., to points in Texas and California.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 114486 (Sub-No. 33), filed November 24, 1975. Applicant: AUTREY F. JAMES, doing business as, A. F. JAMES TRUCK LINE, 107 Lelia St., Texarkana, Tex. 75501. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Building, Austin, Tex. 78701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Clay, clay products, and fittings* therefor, from Texarkana, Tex., to points in Alabama, Florida, Georgia, Illinois, Iowa, Kentucky, Minnesota, North Carolina, South Carolina, and Virginia, (2) *compounds*, that are manufactured and distributed by clay manufacturers, from Texarkana, Tex., to points in Alabama, Arizona, Arkansas, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, New Mexico, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, South Carolina, Tennessee, Texas and Virginia, (3) *clay and materials and supplies*, used in the manufacture of compounds produced and distributed by clay manufacturers, from Moundsville and New Martinsville, W. Va., to Texarkana, Tex., and (4) *silcia sand*, from Elco, Ill., to Texarkana, Tex., under a continuing contract with W. S. Dickey Clay Manufacturing Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex. or Kansas City, Mo.

No. MC 114608 (Sub-No. 30), filed November 20, 1975. Applicant: CAPITAL EXPRESS, INC., 5635 Clay, Grand Rapids, Mich. 49508. Applicant's representative: Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich. 48226. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household appliances and parts therefor*, when moving in the same vehicle, from Columbus and Mansfield, Ohio, to Greenville, Muskegon, Grand Rapids and Holland, Mich., under contract with Gibson Products Corporation.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Lansing or Detroit, Mich., or Chicago, Ill.

No. MC 115496 (Sub-No. 37), (Amendment), filed September 22, 1975, published in the FEDERAL REGISTER issue of October 16, 1975, and republished as amended this issue. Applicant: LUMBER TRANSPORT, INC., P.O. Box 111, Cochran, Ga. 31014. Applicant's representative: Virgil H. Smith, 1587 Phoenix Boulevard, Suite 12, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the facilities of Union Camp Corporation, located at Folkston, Higgston and Meldrim, Ga., to points in Alabama, Mississippi, North Carolina, South Carolina, Virginia, West Virginia, and Shelby County, Tenn.

NOTE.—The purpose of this republication is to indicate the additional request for service to points in West Virginia.

No. MC 115496 (Sub-No. 39), filed November 14, 1975. Applicant: LUMBER TRANSPORT, INC., P.O. Box 111, Cochran, Ga. 31014. Applicant's representative: Virgil H. Smith, 1587 Phoenix Boulevard, Suite 12, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the facilities of Wood Products Division of Georgia Kraft Company, at or near Greenville (Meriwether County), Ga., to points in Alabama, Delaware, Indiana, Maryland, Mississippi, Ohio, Pennsylvania, New Jersey, North Carolina, South Carolina, Virginia, West Virginia, and points in Shelby County, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Atlanta or Columbus, Ga.

No. MC 116915 (Sub-No. 18) (Clarification), filed August 6, 1975, published in the FEDERAL REGISTER issue of August 28, 1975, and republished as clarified this issue. Applicant: ECK MILLER TRANSPORTATION CORPORATION, 2015 Alsop Lane, P.O. Box 1279, Owensboro, Ky. 42301. Applicant's representative: John P. Kane (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and articles of unusual value), between points in Illinois, Indiana, Kentucky and Tennessee, restricted to the transportation of traffic having a prior or subsequent movement by rail or water carrier.

NOTE.—The purpose of this republication is to clarify the request for authority by more appropriately wording the proposed restriction. If a hearing is deemed necessary, the applicant requests it be held at either Lexington or Louisville, Ky., or Washington, D.C.

No. MC 119726 (Sub-No. 65), filed November 7, 1975. Applicant: N. A. B. TRUCKING CO., INC., 3220 Bluff Road, P.O. Box 21006, Indianapolis, Ind. 46217. Applicant's representative: James L. Beattey, 130 East Washington Street—Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cartons*, other than corrugated, from the facilities of the Weyerhaeuser Company located at or near Seymour, Ind., to points in Ohio, New York, and Pennsylvania.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 140883 (Sub-No. 4), filed November 25, 1975. Applicant: DOWNS TRANSPORTATION CO., INC., 2705 Canna Ridge Circle NE., Atlanta, Ga. 30345. Applicant's representative: K. Edward Wolcott, 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Uncrated store fixtures*, from the plant site of Warren/Sherer Division of Kysor Industrial Corporation in Marshall, Mich., to points in the United States (except Alaska and Hawaii) and (2) *materials and supplies* (except commodities in bulk and lumber) used in the manufacture, sale, and distribution of store fixtures, from points in the United States (except Alaska and Hawaii), to the plant site of Warren/Sherer Division of Kysor Industrial Corporation in Marshall, Mich., under contract with Warren/Sherer Division of Kysor Industrial Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich. or Atlanta, Ga.

No. MC 140925 (Sub-No. 2), filed November 12, 1975. Applicant: FAYETTE TRUCKING CORPORATION, W234 S5502 Big Bend Road, Waukesha, Wis. 53186. Applicant's representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, in bulk, in dump vehicles, from the facilities of Michigan Gypsum Co., at or near Whittemore, Mich., to points in Wisconsin, under a continuing contract or contracts with Farmers Feed & Fertilizer of Wisconsin.

NOTE.—Common control may be involved. Applicant holds common carrier authority in MC 126159 and subs thereunder, therefore dual operations may also be involved. If a hearing is deemed necessary, the applicant requests it be held at Milwaukee, Wis.

No. MC 141101 (Sub-No. 2) (Amendment), filed November 3, 1975, published in the FEDERAL REGISTER issue of November 26, 1975, and republished, as amended, this issue. Applicant: ROBERT E. WARNE, doing business as WARNE TRUCKING COMPANY, a Corporation, 121 Rosewood Drive, Zanesville, Ohio 43701 Applicant's representative: Thomas J. Burke, Jr., Suite 1600 Lincoln Center, 1660 Lincoln Street, Denver, Colo. 80203. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Earthenware pots and racks* for earthenware pots, (1) from Marshall and Houston, Tex., El Monte, Van Nuys, Fullerton, La Verne, and Long Beach, Calif., to Denver, Colo., under contract with Denver Pottery Co., Inc., (2) from Marshall, Tex., to points in California, under contract with GMMC Pottery Sales Corp., and (3) from Marshall, Tex., to points in Michigan, under contract with D&J Distributing Co., Inc.

NOTE.—The purpose of this republication is to state the correct contracting shippers. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 141188 (Amendment), filed July 25, 1975, published in the FEDERAL REGISTER issue of August 14, 1975, and republished as amended this issue. Applicant: MAURICE BLOCKER, doing business as, BLOCKER MILLING SERVICE, Old Highway 9 West, Waukon, Iowa 52172. Applicant's representative: James U. Mellick, P.O. Box 328, 24 West Main Street, Waukon, Iowa 52172. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed, fertilizer and grain*, in bags or in bulk, between points in Minnesota and those points in Iowa within a territory beginning at the intersection of the Mississippi River and the Minnesota-Iowa State Boundary line and extending southerly along the western bank of the Mississippi River to intersection Interstate Highway 80, thence westerly along Interstate Highway 80 to intersection U.S. Highway 71, thence northerly along U.S. Highway 71 to intersection Minnesota-Iowa State Boundary line, and thence along said boundary line to the point of beginning.

NOTE.—The purpose of this republication is to indicate applicant's broadened territorial request for authority. If a hearing is deemed necessary, the applicant requests it be held at Waukon, Iowa or as close thereto as possible.

No. MC 141200 (Amendment), filed July 25, 1975, published in the FEDERAL REGISTER issue of August 21, 1975, and republished as amended this issue. Applicant: CLANCY BROS. TRANSPORTATION CO., INC., 84 Bengal, Terrace, Rochester, N.Y. 14610. Applicant's representative: S. Michael Richards, 44 North Ave., Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except in bulk), in vehicles equipped with mechanical refrigeration between points in Massachusetts, New Jersey, New York and Pennsylvania, on the one hand, and, on the other, Rochester, N.Y., restricted to the transportation of traffic originating at or destined to the plantsites of those contracting shippers enumerated below, under continuing contracts with (1) Conti Packing Co., Inc., at Rochester, N.Y., (2) Allen Beef Company, Inc. at Rochester, N.Y., (3) Katz Bros., Inc. at Rochester, N.Y., (4) Leon Kastner Wholesale Meats Corp. at Rochester, N.Y., (5) Tobin Packing Co., Inc. at Rochester, N.Y., and (6) Levitt Bros., Inc. at Rochester, N.Y.

NOTE.—Applicant holds contract carrier authority in MC 116497, and should a grant of authority issue as a result of this request it will be assigned under applicant's existing docket number. If a hearing is deemed necessary, applicant requests it be held at either Rochester or Buffalo, N.Y.

No. MC 141209 (Sub-No. 1), filed November 14, 1975. Applicant: JOSEPH LURATE, 2130 Rockdale Avenue, Simi Valley, Calif. 93063. Applicant's representative: Milton W. Flack, 4311 Wilshire Boulevard, Suite 300, Los Angeles, Calif. 90010. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles*, in secondary movements, in truckaway service, between Garden Grove, Calif., and Lubbock, Tex., under a continuing contract or contracts with Jack Warye Automobile Brokerage.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 141255 (Sub-No. 1), filed November 19, 1975. Applicant: TANDY TRANSPORTATION, INC., 3600-3602 Conway, P.O. Box 7135, Fort Worth, Tex. 76111. Applicant's representative: Ralph W. Pulley, Jr., 4555 First National Bank Building, Dallas, Tex. 75202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: 1(a) *Commodities dealt in by electronic equipment and supply stores, uncrated store fixtures and furnishings, office supplies, and advertising materials*, from Fort Worth, Tex., to points in the United States (except Texas), restricted in the destination states in pick up or delivery of the described commodities at Radio Shack stores and warehouses; *returned and rejected shipments of such commodities*, from points in the United States (except Texas), to Fort Worth, Tex.; (b) *television antennas*, from Burlington, Iowa, to Groveport, Ohio, Braintree and Avon, Mass.; (c) *electronic equipment, materials and supplies*, from Tarrant City, Ala.; Ansonia, Conn.; Aurora, Mundelein, Chicago, Lemont, Downers Grove and Elk Grove, Ill.; Huntington and Frankfort, Ind.; Burlington and Guttenburg, Iowa; Princeton, Ky.; Winona and St. Paul, Minn.; Kennebunk and Biddleford, Maine, Detroit, Mich.; Hagerstown and Baltimore Md.; Shrewsbury, South Hadley, Holyoke, Worcester, Ludlow and Boston, Mass.; Aberdeen, Miss.; St. Louis, Mo.; Camden, Amsterdam, Congers, Blauvelt, Farmingdale L.I., Brooklyn, Huntington, L.I., Hauppauge and New York City, N.Y.; Somerville, Parsippany and Burlington, N.J.; Statesville and Smithfield, N.C.; Newcomerstown and Toledo, Ohio; Central Falls, R.I., to Fort Worth, Tex. and Garden Grove, Calif., restricted against the transportation of traffic from Winona, Minn., to Garden Grove, Calif.; (d) *electronic equipment, materials and supplies*, from Long Beach, Calif.; Phoenix, Ariz. and Grand Junction, Colo., to Fort Worth, Tex.; (e) *toys* from Hawthorne, Calif., to Fort Worth, Tex.

2(a) *Tile*, including ceramic, clay, earthenware, terrazzo, mastic, composition and vinyl asbestos, from Fort Worth and Houston, Tex., to points in Arkansas, California, Colorado, Illinois, Indiana, Kansas, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Utah, Wisconsin; and *returned and rejected shipments*, from the named destination states to Fort Worth and Houston, Tex.; (b) *tile*, from Long Beach, Calif., to Phoenix, Tucson and Mesa, Ariz.; Albuquerque, N. Mex.; and Fort Worth, Tex.; (3) *leather and leather products*, from Buford, Ga., to Fort Worth, Tex.; (4) *commodities dealt in by arts and crafts stores, office supplies and advertising materials for arts and crafts stores*, from Fort Worth, Tex., to points in the United States; *returned and rejected shipments* of such commodities, from points in the United States (except Texas) to Fort Worth, Tex., paragraphs 1, 2, 3 and 4 are limited to a transportation service to be performed under a continuing contract or contracts with Tandy Corporation, Tandycrafts, Inc., and Tandy Brands, Inc. of Fort Worth, Tex., and their subsidiary corporations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C. or Dallas, Tex.

No. MC 141326 (Sub-No. 4), filed November 24, 1975. Applicant: C. C. SALTER AND C. W. SALTER, a partnership, doing business as S & S TRUCKING COMPANY, P.O. Box 67, State Docks Road, Eufaula, Ala. 36027. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Precut plywood*, from the plantsite, warehouses and storage facilities of Associated Forest Products, Inc., at or near Eufaula, Ala., to Fergus Falls, Minn.; Auburn, Nebr.; Atlanta, Ga.; Union City, Ind.; and Ft. Smith, Ark.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham or Montgomery, Ala.

No. MC 141368 (Correction), filed September 26, 1975, published in the FEDERAL REGISTER issue of October 31, 1975, republished as corrected this issue. Applicant: BASE TRANSPORTATION, INC., 1573 West Second Street, Pomona, Calif. 91766. Applicant's representative: Jerry Solomon Berger, 433 Camden Drive, 6th Floor, Beverly Hills, Calif. 90210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paint, paint thinners and solvents* (except in bulk), from the plantsite of Pervo Paint Company, located in Los Angeles, Calif., to points in Arizona, Idaho, Nevada, New Mexico and Utah, under a continuing contract or contracts with Pervo Paint Company.

NOTE.—The purpose of this republication is to correct the "zip code" of the applicant's

V401248 DEC 24 75 XUM

representative. If a hearing is deemed necessary, the applicant requests it be held at Pomona or Los Angeles, Calif.

No. MC 141476 (Correction), filed October 23, 1975, published in the FEDERAL REGISTER issue of November 28, 1975, and republished as corrected this issue. Applicant: C. T. TRANSPORTATION COMPANY, 2301 Bridgeport Drive, P.O. Box 1410, Sioux City, Iowa 51102. Applicant's representative: George L. Hirschbach, 5000 South Lewis Blvd., P.O. Box 417, Sioux City, Iowa 51102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Towers, antennas, and equipment, materials and supplies* used in the manufacture, sale, distribution and erection of towers and antennas, and (2) *reflectors, redomes, pylons, buildings, building panels, building parts, and accessories, materials and supplies* used in the installation, construction, and erection of buildings, building panels and building parts, from the plant site and storage facilities of Advance Industries at Sioux City, Iowa, to points in the United States (except Hawaii); (3) *towers, antennas and equipment, materials and supplies* used in the manufacture, sale, distribution, and erection of the commodities described in (1) and (2) above, from points in the United States (except Alaska and Hawaii), to the plant site and storge facilities of Advance Industries located at Sioux City, Iowa, the commodities in (1), (2) and (3) above are restricted against transportation in bulk and further restricted to traffic transported under a continuing contract or contracts with Advance Industries; (4) *trenching machines*, from the plant site and storage facilities of Digz-All, Inc., located at Merrill, Iowa, to points in the United Staes (except Hawaii); and (5) *equipment, materials and supplies* used in the manufacture, sale and distribution of trenching machines, from points in the United States (except Alaska and Hawaii), to the plant site and storage facilities of Digz-All, Inc., located at Merrill, Iowa, the commodities in (4) and (5) above are restricted against transportation in bulk and further restricted to traffic transported under a continuing contract or contracts with Digz-All, Inc.

NOTE.—The purpose of this republication is to clarify the commodities in (1) and (2) above. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Sioux City, Iowa, or Omaha, Nebr., or Chicago, Ill.

No. MC 141484, filed October 29, 1975. Applicant: HARRY L. ROTHSTEIN, 40 Poplar Street, P.O. Box 1386, Scranton, Pa. 18501. Applicant's representative: Richard M. Goldberg, 700 United Penn Bank Building, Wilkes-Barre, Pa. 18701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities*, from the facilities of Distribution East located at or near Scranton (Lackawanna) County, Pa., to points in Pennsylvania and New York; and (2) *rejected or refused merchandise and empty containers*, from points in Pennsylvania and New York, to the facilities of Distribution East located at or near Scranton, Pa., under a continuing contract or contracts in (1) and (2) above with E. H. Trethaway Co., and James A. Weaver Company.

NOTE.—Applicant holds common carrier authority in MC 54698 sub No. 2, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Scranton or Wilkes-Barre, Pa.

No. MC 141492, filed November 10, 1975. Applicant: WHITETOP SAFEWAY & YELLOW CHECKER CABS, INC., doing business as MISSISSIPPI COURIER SERVICE, 670 South West Street, Jackson, Miss. 39201. Applicant's representative: Douglas R. Duke, Suite 552, First National Bank Building, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Data processing materials, bank paper, securities and financial instruments* (except coin and currency), between Memphis, Tenn., New Orleans, La., and points in Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Jackson, Miss., Memphis, Tenn. or New Orleans, La.

No. MC 141526, field November 14, 1975, Applicant: TERRELL TRUCKING, INC., P.O. Box 11, Converse, La. 71419. Applicant's representative: Thomas Joe Cassell, 1115 E. San Antonio Avenue, Many, La. 71449. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand, gravel, rock, riprap, crushed rock and lignite coal*, in bulk, between points in Louisiana and Arkansas and that part of Texas on and east of Interstate Highway 35 at the Oklahoma-Texas State Boundary line, thence along U.S. Highway 35 to Fort Worth, Tex., thence along Interstate Highway 20 to Dallas, Tex., thence along Interstate Highway 45 to Galveston, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Shreveport, New Orleans, La. or Dallas, Tex.

No. MC 141528, filed November 19, 1975. Applicant: EXPRESS DELIVERIES, INC., 3040 Greenmount Avenue, Baltimore, Md. 21218. Applicant's representative: Alan J. Bloom, Suite 406, 401 Washington Avenue, Towson, Md. 21204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Photograph and photofinishing materials and supplies*, between points in Maryland, Virginia, Delaware, Pennsylvania, and the District of Columbia, under a continuing contract or contracts with Paramount Photo Service and Supply, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Baltimore, Md., or Washington, D.C.

No. MC 141539, filed November 20, 1975. Applicant: GORDON HART, doing business as HART TRANSPORT, P.O. Box 109, Harris Road, Dexter, Mo. 63841. Applicant's representative: Joseph E. Rebman, 314 North Broadway, St. Louis, Mo. 63102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mufflers, exhaust pipe, tail pipe, steel, machinery, machinery parts, motors, transformers, converters, filters, flanges, tubing, asbestos, strapping, cartons, boxes, drums, pallets, steel racks, scrap metal, oil, solvents and cleaning products*, used in manufacturing (except commodities in bulk), between Dexter, Mo., on the one hand, and, on the other, points in Alabama, Arkansas, Georgia, Illinois, Indiana, Kentucky, Michigan, Missouri, Tennessee and Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Indianapolis, Ind.

FREIGHT FORWARDER APPLICATIONS

No. FF-350 (Sub-No. 1), filed November 21, 1975. Applicant: GLOBAL FORWARDING, INC., Number One Global Way, Anaheim, Calif. 94803. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006, Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water and express, in the transportation of (a) *Used household goods and unaccompanied baggage*, and (b) *used automobiles*, between points in the United States, including Hawaii and Alaska, restricted in (b) above to the transportation of export and import traffic.

NOTE.—The purpose of this application is to add Alaska to applicant's present authority. If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. FF-477, filed November 21, 1975. Applicant: CROWN OVERSEAS FORWARDERS, 180 Quint Street, San Francisco, Calif. 94124. Applicant's representative: Daniel W. Baker, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and express, in the transportation of (a) *Used household goods and unaccompanied baggage*, and (b) *used automobiles*, between points in the United States, including Alaska and Hawaii, restricted in (b) to the transportation of export and import traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

SOLAR ENERGY RESEARCH INSTITUTE

Policy Relating To Establishment

The Solar Energy Research, Development, and Demonstration Act of 1974 (P.L. 93-473) establishes a Solar Energy Research Institute (SERI) to conduct research, development and other related tasks in furtherance of the use of solar energy. The Act states that SERI may be located at a new or an existing Federal Laboratory and authorizes ERDA to determine its location. Over the past months, the Energy Research and Development Administration (ERDA) has been developing criteria for evaluating SERI's site as well as formulating the role and mission, and the type of management organization for SERI.

ERDA expects to announce criteria for evaluating the SERI site in January, 1975, and plans to solicit propcsals for the site at that time. In this regard, it is ERDA's policy that no organization should be given unfair advantage over others interested in submitting proposals. This policy was expressed in a memorandum dated November 25, 1975, from Michael I. Yarymovych, Assistant Administrator for Laboratory and Field Coordination to all ERDA offices. For the benefit of the interested public, the memorandum is quoted in its entirety below.

Dated: December 22, 1975.

ROBERT A. SUMMERS,
Acting Assistant Administrator for Laboratory and Field Coordination.

HEADS OF DIVISIONS AND OFFICES, HQ
HEADS OF FIELD ORGANIZATIONS

POLICY FOR NATIONAL LABORATORIES AND OTHER ERDA INSTALLATIONS IN RELATION TO ERDA'S QUEST FOR A SOLAR ENERGY RESEARCH INSTITUTE (SERI) SITE AND MANAGEMENT ORGANIZATION

NOVEMBER 25, 1975.

It is the policy of this Agency that all parties be treated equally and fairly in their dealings with the Federal Government. This policy is very important in the management team and site selection quest for SERI. No citizen or organization should be allowed to have a preferred position, or even appear to have knowledge which would give an unfair advantage over any other organization or person. Assuring fair treatment has been the overriding consideration in the adoption of procedures regarding the establishment of SERI and this fairness must continue to guide our future conduct.

It is anticipated that parties interested in making proposals relative to SERI may seek information from ERDA Laboratories and installations. If ERDA Laboratories or installations are approached for information relating to SERI, they shall notify the Solar Energy Research Institute Project Office (SIPO) of such requests in detail and shall obtain instructions or advice from the SIPO before proceeding further.

It is also anticipated that parties interested in making proposals concerning SERI may seek the participation of ERDA Laboratories or installations. If so approached, the Laboratory or installation must promptly advise the cognizant Operations Office, the SIPO, and this office in detail and obtain instructions or advice before proceeding further. This office shall have the final responsibility for determining the nature and extent of participation by ERDA Laboratories and installations with other parties relative to the SERI search. In any event, the ERDA Operations Offices shall not assume, nor appear to assume, any form of partisan role and must maintain the strictest objectivity and impartiality with respect to the SERI search and selection process.

ERDA Operations Offices are expected to advise all ERDA field installations of these policy guidelines and assure appropriate implementation.

ERDA Headquarters offices will assure that no information concerning ERDA's own planning or decisions relating to SERI is communicated in any form to any parties relative to SERI in advance of full public announcement. Furthermore, such public announcements shall set forth the above policy relating to ERDA Laboratories and other installations.

PART II:

ENVIRONMENTAL PROTECTION AGENCY

NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Proposed Standard for Vinyl Chloride

V40248 DEC 24 75 XUM

ENVIRONMENTAL PROTECTION AGENCY

[FRL 454–1]

[40 CFR Part 61]

NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Proposed Standard for Vinyl Chloride

Notice is hereby given that under the authority of section 112(b)(1)(B) of the Clean Air Act, as amended, the Administrator is proposing a national emission standard for vinyl chloride emissions from ethylene dichloride-vinyl chloride and polyvinyl chloride plants. As prescribed by section 112(b)(1)(A) of the Act, this proposal of the standard was preceded by the Administrator's determination that vinyl chloride is a hazardous air pollutant as defined in section 112(a)(1) of the Act. Accordingly, the Administrator is revising the list of hazardous air pollutants by adding vinyl chloride; notice of this revision is published in the notice section of this issue of the FEDERAL REGISTER. [FRL 454–2] FR Doc. 75–34512.

In accordance with section 117 of the Act, publication of this proposed standard was preceded by consultation with appropriate advisory committees, independent experts, and Federal departments and agencies.

Interested persons may participate in this rulemaking by submitting written comments (in triplicate) to the Emission Standards and Engineering Division. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Attention: Mr. Don R. Goodwin. All relevant comments postmarked not later than February 23, 1976, will be considered. Comments received will be available for inspection and copying at the U.S. Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, SW., Washington, D.C. 20460.

A public hearing will be held as required by section 112(b)(1)(B) of the Act. A notice of the time, date and place for the public hearing will be published in the FEDERAL REGISTER within 30 days of the publication date of this proposed standard.

The Environmental Protection Agency (EPA) has prepared a "Standard Support and Environmental Impact Statement" which contains background information on the manufacture and processing of vinyl chloride, the health effects of vinyl chloride, the available control technologies for vinyl chloride emissions, the rationale for the proposed standard, and an analysis of the environmental, economic, and inflationary impacts of the proposed standard. More detailed information on the health effects of vinyl chloride is contained in a second document prepared by EPA, which is entitled the "Scientific Technical Assessment Report on Vinyl Chloride and Polyvinyl Chloride." Requests for these documents should be addressed to the Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Attention: Mr. Don R. Goodwin, MD–13. The information contained in these documents with regard to health effects, the rationale for the proposed standard, and the potential environmental and economic impacts is summarized in the following paragraphs. All references in the summary are to be found in the two EPA documents.

RATIONALE FOR REGULATING VINYL CHLORIDE UNDER THE AUTHORITY OF SECTION 112 OF THE CLEAN AIR ACT

In January 1974, the B. F. Goodrich Chemical Company reported to the National Institute of Occupational Safety and Health that several of its employees had died from angiosarcoma of the liver (a rare form of cancer) and that these deaths may have been related to occupational exposure to vinyl chloride gas. This report resulted in growing concern over the potential health effects of vinyl chloride and spurred efforts by various government agencies to take steps to obtain data needed to assess in more detail the impact of vinyl chloride on human health and to reduce vinyl chloride exposure both to the worker and to the general population. EPA established a Task Force on vinyl chloride in February 1974, to identify the environmental problems resulting from the manufacture and use of vinyl chloride and polyvinyl chloride. While air, water, and solid waste disposal are all possible routes for entry of vinyl chloride into the environment in the vicinity of manufacturing facilities, the Task Force concluded that, based upon current information, the air route poses the most significant environmental problem to the population located there. Potential sources of exposure to the general population due to the use (as opposed to the manufacture) of vinyl chloride include aerosol containers, plastics used for containing or wrapping food products, and drinking water.

On April 26, 1974, EPA published in the FEDERAL REGISTER an emergency suspension order for specific indoor aerosol pesticides containing vinyl chloride. In May 1974, EPA initiated a study to determine whether Federal regulation of atmospheric emissions of vinyl chloride from manufacturing facilities is needed, and if so, which of the regulatory alternatives under the Clean Air Act would be most appropriate. For the purpose of the study, data were gathered on health effects, air quality concentrations, control techniques, and costs. Based on this analysis, EPA concluded that vinyl chloride meets the specifications of the definition of "hazardous air pollutant" in section 112 of the Clean Air Act and should be regulated as such. "Hazardous air pollutant" is defined in section 112 of the Clean Air Act as "an air pollutant . . . which in the judgment of the Administrator may cause or contribute to, an increase in serious irreversible, or incapacitating reversible illness." The reasons for concluding that vinyl chloride is a hazardous pollutant are discussed in the following paragraphs.

Vinyl chloride has been shown to cause cancer in both sexes of three species of rodents by the inhalation route, the primary route by which humans, in the vicinity of plants manufacturing or processing vinyl chloride, are exposed. Angiosarcoma of the liver has been observed in rats, hamsters, and mice exposed to vinyl chloride. In two of these species, rats and mice, liver angiosarcoma has been produced at exposure levels as low as 50 parts per million (ppm), which is the lowest level for which studies have been completed thus far. In one experiment, exposures at this level for four hours per day, five days per week for a 12 month period produced nephroblastomas and liver angiosarcomas after 135 weeks. In a second experiment angiosarcoma in mice has been produced by exposures as low as 50 ppm for 7 hours for a 26 week duration. Furthermore, these animal studies showed a multiple cancer risk from vinyl chloride, i.e., tumors in organs other than the liver such as the brain, lungs, kidneys, and mammary glands.

As of June 1975, the National Cancer Institute had confirmed 27 cases of liver angiosarcoma among workers with a history of exposure to vinyl chloride, 15 in the United States and 12 in Europe and Canada. Additionally 11 cases had been reported and not yet confirmed. Most, but not all, of these confirmed cases have been among workers involved directly in polyvinyl chloride production. Cases of liver angiosarcoma have been reported in one U.S. and three European workers exposed to vinyl chloride, but not directly involved in polyvinyl chloride production. These cases suggest that exposure to vinyl chloride at lower levels than usually encountered in polyvinyl chloride production plants is capable of causing liver angiosarcoma. To date, angiosarcoma of the liver has been considered an extremely rare disease among the general population. In a survey by the American Cancer Society, only one case of liver angiosarcoma was recorded per 78,000 deaths. Compared with this record, the data indicating the frequency of liver angiosarcoma among workers exposed to vinyl chloride show that the relative risk to these workers of developing this disease is approximately 3,000 times greater than that to the general population. Such a relative risk represents a statistically significant difference ($p<0.001$) in the frequency of liver angiosarcoma among those exposed to high levels of vinyl chloride compared with those in the general population.

Occupational exposure studies have strongly implicated vinyl chloride as a human chemical carcinogen which causes tumors in many different sites, only one of which is the liver. Other manifestations in humans include acroosteolysis and liver dysfunction. Similar toxicology studies have verified the occurrence of tumors in other body organs such as the brain and lungs. Bioassay studies have shown the potential of vinyl chloride to be a chemical mutagen and terotogen. (More details on these animal and occupational studies may be found in the "Scientific Technical Assessment Report on Vinyl Chloride and Polyvinyl Chloride.")

These data strongly indicate that vinyl chloride causes or contributes to the development of angiosarcoma, other cancers, and noncarcinogenic disorders in people with occupational exposure and in animals with experimental exposure to vinyl chloride. Reasonable extrapolations from these findings cause concern that present ambient levels of vinyl chloride may cause or contribute to the same or similar disorders. Data obtained in the spring of 1974 from U.S. plants that produce or process vinyl chloride indicate that approximately 100 million kg of vinyl chloride are emitted to the atmosphere annually. The majority of these emissions are from ethylene dichloride-vinyl chloride and polyvinyl chloride plants. Results from a preliminary ambient monitoring program conducted by EPA in the spring of 1974 indicate that persons living in the immediate vicinity of these plants are generally exposed to average daily concentrations of less than 1 ppm with some 24 hour average excursions to 1 and 3 ppm and some occasional peak concentrations as high as 33 ppm. Results from a more extensive ambient monitoring program conducted by EPA from November 1974 to June 1975 are not discussed in detail here because they are still being analyzed. The results are generally in the same range as reported here for the preliminary ambient monitoring program except there are no concentrations as high as 33 ppm. Approximately 4.6 million people live within a five-mile radius of ethylene dichloride vinyl and polyvinyl plants. There are no dose-response data, and thus there is no absolute proof of adverse effects, at the concentrations of vinyl chloride found in the ambient air. However, for carcinogens there may be no atmospheric concentration which poses absolutely no public health risk. Also, data from studies of occupational exposure indicate that there is a latency period as long as 20 years between initial exposure to vinyl chloride and occurrence of disease. The latency period could possibly be longer for lower levels of exposure. Production of polyvinyl chloride did not begin to operate on a large scale until relatively recently. Only about 10 of the approximately 40 polyvinyl chloride plants are 20 years old or older, and the oldest one is 40 years old. These considerations led to the conclusion that EPA should take action now to reduce exposure levels to vinyl chloride before retrospective evidence of risk is allowed to show itself. By taking steps now to reduce emissions, EPA will be able to reduce substantially the risk that severe illness and death will occur in the future as a result of present and prolonged community exposure to vinyl chloride.

EPA's conclusions are supported by "The Evaluation of Environmental Carcinogens" which was completed on April 22, 1970, by the Ad Hoc Committee on the Evaluation of Low Levels of Environmental Chemical Carcinogens. The Ad Hoc Committee was formed in response to a request by the Deputy Assistant Secretary for Health and Scientific Affairs of the Department of Health, Education, and Welfare (HEW). The Committee was to review the problems relating to the evaluation of low levels of environmental chemical carcinogens, to consider the scientific bases on which such evaluations can be made, and to advise the Department of HEW on the implications of such evaluations. The report to HEW includes the following conclusions and recommendations:

(1) "Any substance which is shown conclusively to cause tumors in animals should be considered carcinogenic and therefore a potential cancer hazard for man."

(2) "Because the latent period in human carcinogenesis is so long, epidemiologic evidence develops only over periods of 15 to 20 years. Timely decisions to exclude materials from uses involving exposure to man, therefore, must be based solely on adequately conducted animal bioassays. Retrospective human evidence of risk must not be allowed to show itself before controlling action is taken. Chemicals should be subjected to scientific scrutiny rather than given individual rights; they must be considered potentially guilty unless and until proven innocent."

(3) "No chemical substance should be assumed safe for human consumption without proper negative lifetime biological assays of adequate size. The minimum requirements for carcinogenesis bioassays should provide for adequate numbers of animals of at least two species and both sexes with adequate controls, subjected for their lifetime to the administration of a suitable dose range, including the highest tolerated dose, of the test material by routes of administration that include those by which man is exposed."

(4) "No level of exposure to a chemical carcinogen should be considered toxicologically insignificant for man. For carcinogenic agents a safe level for man cannot be established by application of our present knowledge. The concept of 'socially acceptable risk' represents a more realistic notion."

Several court decisions also support EPA's decision. In *Environmental Defense Fund, Inc.* v. *Environmental Protection Agency*, 510 F.2d 1292 (D.C. Cir., 1975), which questioned the protection of the manufacture and sale of aldrin and dieldrin, Judge Levanthal recognized (1) consideration of the long latency period in cancer, (2) the finding that the concept of threshold level has no practical significance for carcinogens, and (3) the extrapolation to humans from animal test data, as valid grounds for EPA's decision making. See also *Environmental Defense Fund, Inc.*, v. *Ruckelshaus*, 142 U.S. App. D.C. 74, 439 F.2d 584 (1971) on animal test data. Furthermore, in the preamble to the October 4, 1974, Occupational Safety and Health Administration (OSHA) regulation for vinyl chloride, *The Evaluation of Environmental Carcinogens* was cited as partial support for the level of the standard. This regulation was upheld by the U.S. Court of Appeals for the Second Circuit in the case of *Society of the Plastics Industry, Inc.* v. *Occupational Safety and Health Administration*, 509 F.2d 1301 (1975); cert. den. *sub. nom. Firestone Plastics* Co. v. *U.S. Department of Labor*, 43 U.S. L. W. 3623 (1975). In its decision, the Court of Appeals stated that much of OSHA's evidence for the regulation was based on animal exposure to vinyl chloride, with only indirect human evidence, but that

> . . . nevertheless, it remains the duty of OSHA to protect the working man, and to act even in circumstances where existing methodology or research is deficient.

The panel also stated that the evidence on vinyl chloride's dangers was "quite sufficient" to merit OSHA's regulations.

EPA considered several approaches to dealing with air emissions of vinyl chloride other than regulating under section 112. The main alternatives were taking no action, delaying action until more health effects data are available at lower concentrations of vinyl chloride, regulating under section 109 and regulating under section 111.

The alternative of taking no action was rejected because vinyl chloride is a carcinogen and poses a risk to public health. Vinyl chloride emissions are expected to be reduced to some degree as a result of the OSHA standard which was promulgated on October 4, 1974, (39 FR 35890) and which became effective on April 1, 1975 (40 FR 13211), some State regulations for new construction of ethylene dichloride-vinyl chloride and polyvinyl chloride plants and for ethylene emissions, and voluntary installation of controls by some companies. The degree to which these other efforts will reduce emissions is uncertain at this time, but it is not expected that it will be uniform or that ambient concentrations will be reduced to the same degree as they would as a result of the proposed standard. In fact, increased ventilation to the atmosphere as well as emission control equipment is being used to meet the OSHA standard.

The alternative of delaying the standard setting would allow acquisition of additional information but it is likely that gaps in the relevant information would still remain. Due to the expected long latency period between initial exposure to vinyl chloride and occurrence of disease, it will be many years before useful epidemiological data will be available on the effects of lowered occupational exposure resulting from the OSHA regulation. EPA has concluded that the available evidence indicates that ambient concentrations of vinyl chloride pose a public health risk and should not be allowed to persist until all information gaps are filled. If EPA were to wait until all needed data were available to establish precise dose-response relationships, a standard could be long delayed and the public might be exposed to substantial and irreversible harm in the interim. Moreover, the risks to the public could increase as the industries expand.

The alternative of regulating under section 109 (National Ambient Air Quality Standards) was rejected by EPA because vinyl chloride is a localized problem and section 109 is usually more appropriate for regulating pollutants whose presence in the ambient air is ubiquitous. Also, the National Ambient Air Quality Standards/State Implementation Plan process does not provide the expedited means of control which Congress meant to be used for a hazardous air pollutant.

The remaining alternative of section 111 (Standards of Performance for New Stationary Sources) was examined very closely. Section 111(d), which would provide for control of existing facilities if new source performance standards were promulgated for vinyl chloride, has the following features: (1) regulation development under section 111(d) takes longer than under section 112; (2) the level of control may differ from State to State; (3) States may grant variances based on cost considerations only; and (4) the standard development mechanism is a State rather than a Federal process. EPA concluded that these features are not appropriate in the case of a pollutant which fits the definition of hazardous air pollutant under section 112. Section 112 was designed in part to avoid these features for certain types of pollutants, and EPA has determined that vinyl chloride is such a pollutant.
